Our biggest motivator is providing excellent service. Moving homes is stressful, no doubt about it. As a business, we strive to make this process easy and stress free for everyone.

- With a large fleet of trucks ranging from four tonne to twelve tonne, we've got you covered no matter the size of your move.
- We'll come equipped with all the gear you'd expect from a company that's been in the business for 25 years; trolleys, dollies, blankets, pads, ties and basic tools.
- Although we aren't qualified tradies, our team will dismantle and install your furniture and white goods wherever they can.
- All our larger trucks are equipped with hydraulic tailgates, ensuring safe loading and unloading of your heavy fridge, pool table, piano and other specialty items.
- Our all removalists are professionals, moving houses 5-6 days a week. They are trained and experienced, and will enjoy having a laugh with you throughout the day.

Our craft is genuine. Whilst moving can be tough, we love bringing excitement to the job.

Boombi and Tama were very quick and efficient. Did a great job at moving very large items down a narrow flight of stairs. Would highly recommend!

Excellent removalists I couldn't recommend them more, they were great. The team of Ari, James and Campbell were respectful, efficient and did it in good time. Very grateful, was our best move ever! Thanks guys

Excellent service, punctual, efficient, professional and friendly!

Our removalist team from Peter Sadler was fantastic service! Boombi, Tama and Leka were efficient, professional, friendly, and managed to make some very tight squeezes around corners of the house without even a scratch. They arrived on time and finished in record time. I particularly liked how they communicated

and asked for taking a 10 minute break partway through the move. This was a refreshing change from previous removalists I've used that have not said a thing and then you're left wondering if there's been an issue or problem outside when you haven't seen them come back inside for a bit, only to find the removalists sitting outside in the truck chatting or on the phone for sometimes up to half an hour. Also the way the system is set up with 3 people rather than 2 makes things go so much smoother. I was at first a bit dubious as I'd only ever seen teams of 2, but it was readily apparent just how much better it was to have 3 people. Two people bringing furniture and boxes to the truck and one person staying on the truck strategising and organising the packing-lego puzzle. It's so much smoother and quicker that way. Boombi, Tama, and Leka were all so friendly and warm-natured which really helped to make the stress of a move so much easier to deal with. Absolutely would use Peter Sadler again!

Professional from start to finish. Positive, capable team with great attitudes and attention to detail. Took a great deal of stress off our shoulders. Made a big 4 bed house move seem easy. Would definitely hire again and recommend to our friends.

Boombi, Tama and Bernard have been super amazing! Quick and effective. They went over and beyond my expectations. Super happy with their service!

From the very punctual arrival I knew I was in good hands! James, Ariu and Evander all came and introduced themselves then got down to business in a very timely manner. They were quick and very efficient and I can't recommend them highly enough. They got the job done quicker than expected and I will definitely be using them again for any removals in the future. Thank you to all from the office staff who booked me you're amazing! ??????????

Just awesome

Dillon & Christian were quick, considerate, professional. All I had to do was point and they moved my items. Everything was packed gently and professionally in their van and when they arrived at our destination everything came out easily. Would highly recommend them.

The guys were great. They were on time, very efficient, did what they said they would do. I liked that they called the day before to go through everything. I would definitely use them in the future, they took the stress out of moving. We had Ari, Campbell and Julian. Thanks again guys.

We booked Peter Sadler Removals to move home last week and the service was fantastic! Tama, Pumbi and Ollie worked quickly and efficiently and communicated clearly. Well worth the money!!!

Excellent. Just one word. The team arrived 4 minutes early and were the epitome of efficiency and gentleness.

We moved over an hour and a half away and we still had several hours in the day to settle in. Very much appreciated the team from Peter Sadler.

Amazing service. James and Ollie were incredible as I was managing the move on my own and it was a big job in a tricky space. They really pulled out all stops on helping me. Can't recommend highly enough.

Peter Sadler removals were very responsive to deal with and on our moving day they were well organised, efficient and happy to help with any extra requests . Overall an excellent experience.

Excellent work done by Boombi, Tama, Will, and Victor. The guys moved my whole house in less than 4 hours, while taking amazing care of all my stuff, and they even had time to give my dogs a good scratch every so often. Highly recommend Peter Sadler Removals & Logistics, especially this crew.

From the first phone call with customer service, right through to the move; Peter Sadler Removals took care of everything. Boombi and Tama were our amazing movers!! They were speedy, efficient, and took care when moving and packing our items. They took all the stress out of an incredibly challenging situation and house move. Cannot recommend them highly enough.

Efficient, considerate and communicative people to work with when moving home.

Boombi and Tama Josh were great to work with. Polite, professional and efficient

The move was all very smooth with Peter Saddler - they did everything well. No complaints

Always deliver, the guys are so accomodating careful and fast. Wouldn't go anywhere else. Thanks to Boombi and Tama Sione!

Ask for Boombi, Tama and Sione Tee - having done a fair share of moves over time, these guys are next level - got the job done in style and record time - Peter Sadler's reputation is in good hands with these guys.

Competitively priced. Showed up on time and worked fast.

Boombi and Mitch were friendly, efficient and quick. Highly recommend this removalist.

Good communication. Great team on site. Hard working and efficient. Wouldn't hesitate to engage this team again.

Over two days, the team from Peter Sadler Removals and Logistics (Braxton, Jackson, Henry, Stan, Andrew and Jordan) did a fantastic job - managing a multiple-stop move with ease, value-for-money, and professionalism. We appreciated their flexibility to come back for a second day when it became evident that we had too much for the truck we'd ordered, and their expertise in considering the safe placement of items in our new home. Not only would we move with them again, but we're really happy to recommend them to other

people.

Couldn't speak more highly of the 4 guys from Peter Sadler removals and logistics who moved us from Chelsea Heights to Mornington. So helpful, friendly, polite and extremely hard working. Would definitely request these guys again, and highly recommend to friends, family and anyone moving house. Five stars ?? ?? ?? ?? ??

Amazing service and quality team effort.. highly recommended! Seamless and reliable. Very reasonably priced .. special shout out to the team for their professionalism and commitment to make our move happen.. thank you so much Ariu Boombi Tama ollie Campbell Jan Parker queen & jack colin!

Fantastic service, very professional and extremely helpful. Have used Peter Sadler twice and referred a friend, will book you again for my next move (a long time away!)

Braxton and Jackson were fast, efficient and friendly - highly recommend

From the time of booking with admin to closing the door behind the removalists, we couldn't speak highly enough of the service. A special shout out to Ollie. You and the boys did a great job and we appreciated your sense of humour. Moved 30/10/23

We had an outstanding experience with Peter Sadler Removals. The two guys, Ari and Sione, were an absolute pleasure to deal with. They were punctual, very polite and exceptionally helpful. They worked quickly and efficiently to help us move all our furniture, and we couldn't have done it without them. They were the best

removalists Ive ever used, and I would recommend them and Peter Sadler to anyone looking for assistance with moving home.

Boombi and team were just fantastic. Fast, positive attitude and great service.

Absolutely fabulous. Very professional and went above and beyond to get the job done. Very careful and caring with property and curious pets. Highly recommend Peter Sadler Removals. This was second time I have used them and they don't disappoint.

Excellent service. Turned up on time and completed job quickly and efficiently. Friendly moving staff who were great to deal with - nothing was too much trouble. Recommend.

Both the admin and removalist staff were great to deal with. Reasonable price and easy payment. Highly recommend!

I used Peter Sadler for a move in September 2022. James and Ari were my movers and they did such a great job. All our items were handled with care and they finished our move really quickly and were so pleasant to work with.

Highly recommend Peter Sadler. Had a great experience. Had a few tricky spaces to get furniture into and they handled everything exceptionally well.

Polite, efficient, respectful of furniture. Great Admin and great removalist! Thank you

On 23rd October '23, I was very impressed with the two removalists( Will x 2!) who arrived on time, moved the 45 boxes etc with speed and care and were pleasant and considerate persons to interact with including utmost respect of my belongings and my home. Please convey my sincere thanks to both Wills and I am happy for this message to act as a personal reference

Isaac and Dylan were amazing, so careful when they moved everything, lovely to talk to and very professional. These guys were the best movers Ive experienced

Boombi, Tama and Jordan were amazing ! This was our 2nd time with the team. Never disappointed us. On time, Quick, efficient, no damage, professional and friendly. Thanks again guys !

First rate service. They were an excellent group of young men. Good natured, keen to assist with any task

Great experience with Peter Sadler Removals. Very smooth and quick job. The guys were careful but very efficient. They listened if I wanted anything done in a specific way. Stuff was loaded and secured well and arrived in a good condition. Happy to use their services again.

Very well done. Excellent team.

I would definitely recommend Peter Sadler Removalists. Dillon & Christian did an amazing job, were speedy and moved everything with care. I was very pleased with the service and would for sure use this company

again.

Fantastic service received from Boombi and Tama As an operations manager in a logistic company the speed, quality and character set these two young men apart Thank you for the service provided.

My move was arranged at last minute, yet booking was made efficiently and quickly, left me feeling like I was in hands of professionals, gave me confidence that the crew would likely reflect the same characteristics; an important consideration for people handling my precious goods. They we professional, indeed exceeded expectations. It's not often a regular removalist will also move a piano as part of furniture. Peter Sadler do, and the care the crew showed equaled any professional piano mover I have used in the past, very impressive! The price was fair and worth it for the care taken for ALL items. The three assigned to my move, Ollie, Shaun and Noah are recommendable, thank you! I would not hesitate (and hope) to book them and Peter Sadler Removals again next time, highly recommended!!!

We used Sadlers recently to help us move home. Boombi & Tama turned up with their big blue truck and a positive can-do attitude, despite it being their second job for the day. The boys were professional, personable and very caring. Not a scratch on anything, furniture nor property. A+

Great service, the guys moved everything with no hassles even in the rain!

Boombi, Tama, Ollie and Bernard, very good and efficient job

Excellent service. On time, efficient and happy with multiple styling changes of mind at the other end!

Ollie and James were great, made it look like really easy work. Would hire again.

We have used Peter Sadler Removalists regularly over the last 9 years. Their service is always commendable and the assigned removalists are very professional, energetic, respectful, and very pleasant to deal with. The service rendered always outweighs the cost. Always very punctual and committed to the work at hand. They will provide you with exceptional service, and will surely exceed your expectations. They take extra care of your items and ensure that you are happy with the delivery of their service at the end of the job. The most recent job that we had to move our furniture from the Northern Suburbs of Melbourne to the Mornington Peninsula was executed perfectly. A HUGE thanks to Evander, Jackson, and Christian to a job well done! ????

?????

A huge thank you to Jan and Radon for making the delivery and set up of a special bed for my 96 year old mother an easy and stress free service. They arrived unexpectedly and were immediately sympathetic to my panic attack as I hadn't had the original bed removed. They offered to take down and move the original bed before assembly of the new one. I cannot thank them enough for their understanding of the elderly especially one with dementia, their efficiency and their willingness to assist. Highly recommend Peter Sadler Removals.

On time, friendly, handled our possessions with care. Would definitely use them again.

The boys were exceptional professional careful and obliging and would recommend them highly.

Ari , James, nart, were efficient, punctual and friendly. Their help made the day less stressful. Highly recommend.

We use Peter Sadler transport regularly. This particular project required flexibility and the team were more than up to the challenge. Our clients were extremely impressed with their professionalism. Much appreciated

again Team.

Scott & offsider were excellent from first phone call through delivery, setup & final goodbyes

Third time I have used Peter Sadler and again the service was excellent. Great communication before the event and the two guys who did all the hard work , Ari & Christian were terrific. Solved a couple of issues, were caring about the furniture and properties and easy to work with. Job well done.

Amazing move today with Boombi and Tama Bernard. They were punctual, efficient and ridiculously strong! Highly recommended.

Fantastic job at short notice. Thankyou very much for great service

The three gentlemen who moved our house today were very fast, efficient and friendly. Incredibly helpful guys and I would highly recommend them and Peter Sadler to anyone wanting to move home! We've used Peter Sadler twice before and we're always super happy with their service.

Good communication, polite, punctual and professional.

Couldn't be happier with the service. Email responses to my initial request were really fast and clear about charges etc. The guys that moved me were on time, friendly and nothing was too much trouble. The whole move went seamlessly and I wouldn't hesitate to recommend Peter Sadler Removals

Dillon and Henry from Peter Sadler Removals were fabulous. They were efficient, professional, very kind and did a great job on the move! Moving is always such a stressful experience but they made my life so much

easier. I will definitely be using them again for the next move and would recommend them to anyone in the future.

Extremely friendly and professional staff, Excellent team work!! We were very very moved by the service!!

Boombi and Tama were fantastic-so hard working, arrived on time, had great communication and customer service skills and were amazing at their job! I highly recommend them and Peter Sadler Removals!

Really appreciated the work ethic and positive attitudes of our removalists, who regularly checked in with us about what we needed and provided knowledgeable suggestions and support throughout the day. Was easy to arrange, we got a competitive rate for our move, and supportive staff on the end of the phone line when we had questions.

Good, simple booking, but slow and \$\$\$\$. Extra couple of men sent to speed things up. Ensure you're getting the experienced house movers no fill-ins. I had a very short lead time, so happy they could fit me in, but Ive never paid so much to move before and this was an apartment to an apartment ??

Fantastic move with Dawson, very reasonably priced, nothing broken or damaged and the crew were great. A

seamless experience, would definitely recommend them!! Terese

Absolutely beautiful company to work with. They answered questions I didn't even know to ask and made sure we were looked after at every step. The removalists are careful, kind and quick. The whole experience should have been stressful, but Dawson made it stress-free and enjoyable. If we move again, we are definitely choosing Dawson.

I think I've moved with Dawson Moving & Storage some 8 times now, being over the past 10 years, including removing from old house, and relocating to new house. Every moving event has been made simpler for me by Dawson. Highly professional, and extremely careful movers. I have also used Dawson for long-time off-site storage, which was very well done, and very economical. I will always go with Dawson. Try them, and you'll find out why. You can't beat well priced and professional movers. Andy:)

We highly recommend Dawsons to take care of all your needs. At a very stressful time of moving, they were very helpful, friendly and accommodating, and communication was proactive. They also gave us lots of options and worked with us when our move in dates changed due to our build not being ready. They organised all our storage needs at a very reasonable price, took lots of care when packing and moving all our things, and were very clean and tidy. We were in great hands with the whole team from the front office through to the guys who moved us on the day. Just excellent all round. Thanks guys!

Outstanding service at every level. From the time I first contacted Dawson's, I was dealing at once - and throughout - with the administrative person most expert in my requirements. A special shoutout to Mieke who co-ordinated the whole operation! She is a logistics genius. Not one single item of information ever had to be

repeated by me. Response to any query was instantaneous. Delivery was accomplished by at least four (and I think more) removalists, who were kind and helpful as well as being experts in their field. An altogether fantastic experience. I have absolutely no hesitation in recommending Dawson's to anyone facing a move. They made it all seem easy. Everything went like clockwork with minimum disruption. Not bad for a move from Perth to Canberra - after living in our old house for 43 years!

TLDR; Would highly recommend and will definitely use again next move! Do yourself a favour and just use these guys. We moved during the floods which cut off the North Richmond bridge and was a difficult time for everyone. Dawson's were very responsive, understanding and clear in their communications which went a long way removing the stress and putting our minds at ease. Mieke from Dawsons kept us updated throughout so it was one less thing to worry about with every other moving-related task proving difficult to arrange. The guys themselves turned up right on time and nothing was too much to ask. They were very careful with our valuable/sentimental items, and helped pack and move our more difficult items such as our plants w/o fuss. Everything was wrapped in plastic, w/ additional boxes/paper offered freely as required. Cartons for TVs etc were also offered and I believe they provide boxes freely as part of the move although we didn't require these. They were clearly very experienced, handling other difficult items like glass-doored cabinets, and collapsible tables with care and refrained from taping wooden furniture as others have done (ruining the varnish!). We had somewhat tricky access both sides as they were very conscious of the truck and any potential damage to driveways from scraping etc - again demonstrating the care, experience and professionalism. Guys were friendly, but focused on getting the job done. They themselves even spoke glowingly of Dawson's and the pride and service-driven culture they promote and demand from their team. All round great experience!

Great to work with. Very friendly and very efficient. All our belongings were looked after carefully.

Great service, very professional and great care taken with our furniture to ensure nothing was damaged..

From start to finish great, friendly professional service. Mieke make the whole daunting experience of moving across country from Syd to Perth easy. She was so kind & helpful & replied to my many questions straight away. Everything arrived on time & in great condition. Very competitive prices too! Highly recommended.

The Dawson team from the move coordinator, to pick up and delivery team where amazing, friendly and nothing was too much trouble for them.. I would highly recommend Dawsons to anyone looking for an easy and hassle free move..

Dawson Moving & Storage did a good job with our removals and delivery to 3 different sites. Communication was excellent, arrived on time and workers friendly and efficient. Highly recommend them.

We have recently moved from NSW to SA with Dawson Moving & Storage, we have made a few changes on the load, but they accommodated all the changes, the service was excellent. Our furniture and boxed were delivered in the same condition and in timely manner. I would highly recommend this company.

I would like to thank Darren in his response was at my house next day after calling him. I was kept up to date on pick up , Trevor was there promptly and made us feel at ease given we were stressed, I thought we were ready but no not even close. Trevor made boxes up as we needed them, the other staff arrived an hour later and loaded everything with ease taken care with everything. I highly recommend using this company. Eddie Valley Heights

We used Dawson Moving and Storage this month to move Mum from the family home to an apartment in eastern suburbs of Sydney. Attention to detail and good service were our top priorities and from the start Dawson Moving and Storage were head and shoulders above their competitors. Mieke was very helpful and

totally professional in helping me set things up over the phone. On move day the boys were prompt, friendly, fast and efficient. The packers/unpackers from Finishing Touch were worth their weight in gold. It was a delight to work with Dawson Moving and Storage and I highly recommend them.

We have now used Dawson's Removal Service twice and their professionalism and attention to detail is absolutely brilliant. The whole process ran seamlessly. A massive thank you to Meike, Luke and Ryan for making our move this week so easy and pain-free. Our apartment was professionally packed in record time and delivered to our new residence the following day. All the while being kept up to date of its progress. Thank you again for taking such great care of all of our belongings. Highly recommend the Dawsons Team.

Services: Moving-related packing , In-state moving

Service and speed from Dawson removals was excellent. The team worked hard to deliver my items quickly and to my liking. They even removed the emptied cartons and packing paper at my convenience. Their office staff were helpful and efficient in the day I called and all staff were courteous and professional. Dawson would have earned five stars if they had provided better contact details on the day of the removal. I also can't comment on value for money as the removal was paid for by my employer. Despite this minor issues I would definitely recommend these guys.

We had a pretty poor experience with Dawson moving and storage. They started off keen and happy to get the job done but that quickly changed. Our removal was right before Christmas and you could tell they did not want to be at work. Multiple items were damaged, boxes were not correctly unpacks and items were either not re assembled, or the were reassembled poorly causing further damage. The boxes that were unpacked were literally tipped upside down to empty. Our solid pine dining table was cracked, chest of draws completely crumbled and walls chipped just to name a few. We also found the removalists rubbish amongst our belongings.

Cat called by a Dawson branded truck in the main street of Mosman around mid day today. Not a good look and very demeaning.

No, The moving company you book will load and unload the truck with a minimum of two professional removalists.

We only work with experienced and reputable moving companies and its in their best interests to pack accurately in the trucks for two main reasons:

If you change your list of items or space required to an increased amount, the removalist will adjust the price accordingly. It is advisable to inform Muval as soon as you know that your moving volume has increased. This way, we can plan to avoid any items being left behind on the move day. Please contact Muval about two days before your move once you have finished packing; this way, we can give the correct information to the removalist company before the day.

If you change your list of items or space required a week before your move, we can usually adjust the price accordingly. In some circumstances this won't be possible depending on the booking volume and amount of change and notice provided.

The first thing to do once you've moved into your new home is to check the house. Check out Chapter 4 of our moving house guide for a detailed outline of what to do after you move.

Preferably No, It is better to use a fitted sheet on each side of your mattresses to enclose.

We encourage bookings ASAP, and this will hold the price, reserve the space, and give you peace of mind. This can also mean you avoid any future price rise.

Hands down the smoothest move Ive ever experienced. The team were super friendly, they took a moment to talk through and plan what needs to go. So many movers in the past just start taking things without thought

about how to load the truck or how to care for the items, that wasn't my experience at all with Outer Space Removals and the team. Extremely friendly, going the extra mile to help put my bed frame back together as well as get my furniture level in my new home. Couldn't recommend enough, great job!

Gui and Victor were friendly, hardworking and honest, making the move seamless and stress free. Highly recommended these two and this company, best removalist I have used!

This is the second time I have moved with outer space and I have been so impressed by the team both times. Cris and Chris were extremely efficient and helpful. They ensured that every item was transported with care. I would definitely use them again!

We have used out of space for 2 moves. Both times they have been extremely friendly, professional and went the extra mile to help us get a lounge into our apartment that would not fit through the front door. Couldn't recommend enough, great job!

A tricky 10 hour move. I had packed 30 years of living in sane apartment into many boxes. At the destination (a 90 year old historic apartment block)there was the issue of finding parking, negotiating a narrow lift and a grumpy building manager. Felix and the 2 team members worked with unflagging high energy and good humour. No problem was too big and solutions were always found. Many old and delicate pieces were treated thoughtfully. This is a highly impressive team. Strongly recommended.

Chris & Nicholas were friendly, extremely hard working, super careful with our stuff and great value for money!! We are very happy we chose Outerspace to help us move. Thank you Chris & Nicholas.

Very happy with the moving! They did the job very quickly and take care of all the stuff with care. Will definitely recommend :)

These guys are consistently great - 3rd time using them and every time they have been on time, professional, come with all moving equipment. Great at handling furniture and nothing was an issue. Outer Space Removals did a great job moving my 2-bed apartment from Chippendale to Campsie. We had 3 removalists and they took 3hr 45 mins. We shopped around and they offered the best prices. The removalists were also really nice and helpful. Would definitely use again

Absolutely amazing service, efficient and on time, even assisted with putting my couch back together

Mateo is very friendly and helpful with the job!

I had a great experience moving my home today with Outer Space Removals! Big shout out to Chris and David who handled my furnitures, fridge, washing machine and countless boxes today! During the move, it suddenly rained very hard for an hour, they were drenched but kept on continuing to push through in the rain with my boxes so that the whole process was as efficient as possible for me. Better yet, it was just all smiles from them today, very friendly and lovely people. I really appreciated the professionalism from both of them. Reliable and punctual as well. Will hire again in the future if I ever need. Thanks!

The Outer Space team helped me move twice over the past week due to a renovation. Outstanding communication throughout the process including updates on timeline on the moving day. Can't hesitate to recommend this company. And made it such a smooth easy process for me. Thank you guys so much!! Will definitely be booking again never time with them :) highly recommend

It's my first time moving house seriously and I hired Outerspace removals to help me two weeks ago. I want to say the service was great. The two guys who helped me are Cris and Facundo. They were so nice and patience to deal with my requests and de-assemble/re-assemble some of my tricky furnitures with great cares. While you might think the usual removal machos are pretty rough and just want to get things done quickly and move on to next job. Cris and Facundo were not one of them. They carried my stuffs very carefully down and upstairs. they also helped me to fix my window frame while I accidentally knocked off my window door. Highly recommend!

So impressed! They were friendly, efficient and amazing value for money! Couldnt recommend enough :) thanks for taking care of my belongings and for making the process stress free.

Thanks to the boys Chris and Chris for super efficient and speedy work! Superstars ????

Felix & team at Outer Space, sensational, super organised, very careful with furniture, really helpful & positive, plus team really decent good guys, nothing was problem. Highly recommend Peter.

Despite a hiccup at the beginning with a temp mover being unprofessional, Felix & Juan worked efficiently to fix the problem and send over a new team to help. Juan and his team were efficient and just lovely to deal with - they were reassuring and kind when dealing with a very stressed client like myself. They were able to get in some large and tricky items we didn't think was possible. Really happy with our treatment and the job done.

Outer space removals have been amazing! They were on time and no task was too hard for them. They made moving so much easier for me!! Thank you ??

Fantastic experience with Felix, Ian and their team! Were really careful with our furniture and manage to get the work done efficiently. Also, great customer service, reliable and always with an energetic attitude to make the process optimal. I will definitely recommend them to anyone?? Thanks Outer Space.

The guys were fabulous and were quick and efficient. Made moving 100x easier!! Will defo use againn

Great move, reliable and friendly guys and nothing is too much to ask. Have used Outerspace before and will continue to use them again

Amazing service by Chris and Chris, made our move so easy! 100% recommend

Friendly guys that made our move so much easier. Highly recommend them and wouldn't hesitate to use these guys again!

Chris and Chris were a delight - nothing was a problem! Amazing move - the best move Ive ever experienced. We had some very heavy furniture and they were efficient, strong and made it look effortless! And they were prepared to work with awkward spaces. Everything with Outer Space Removals has been professional and easy. Highly recommended!

The boys were fantastic nothing phased them. I really appreciate them helping me out.

Awesome work!! Strongly recommend these guys!! For your next home move!!

Have used Outer Space Removals different times and they always offer smooth, quick and great service. Thank you Cris and Nico!

Competence of removalists and equipment is just about par for small-scale relocations. If the move is for 3 bedrooms or higher, you are better placed to find someone with higher competence and equipment. Some of our stuff were damaged as they were not properly covered or disassembled in transit. Had to replace a sit-and-stand desk as the legs stopped working as they not disassembled prior to transit. An expensive ornamental table had been damaged at multiple points as it was not properly covered during transit.

Don't be fooled by the pretty photos and caring smiles! Booking Outer Space has not been a smooth move. Various pieces of furniture were destroyed during a quick 10 min relocation trip: 2 metals legs on a bathroom cabinet broke off, LED strip controller attached to work desk completely ripped out (despite telling them to be extra careful prior), shoe storage unit completely destroyed to pieces, lock from mirror jewellery stand

mysteriously unlocked and fell to pieces. Lastly, another storage unit arrived with the bottom part detached and cracked. My camera and wireless mics were kept in a zipped storage bag but seemed to have vanished during transit. But there's nothing I can do since none of the work is insured. They knew about the damages but still asked to be paid for overtime by more than an hour. I can see the rave reviews below and wish I could do the same. Apart from their punctuality, there's not much that's recommendable. This relocation job costs me an additional \$2000+ (approx cost of replacing the broken furniture and missing camera and mics).

Dec 2023: Had a great experience with In N Out Removalists - an affordable quote to move from Canberra to Sydney, timely service and the flexibility to change my inventory list as needed. Mary & Farah were

responsive to all calls and emails. Isho & Johnny were very efficient and professional movers, thanks so much! Feb 2024: Another good experience with In N Out, this time within Sydney - Johnny & Charbel were quick & professional, especially with trying to move our bigger furniture through very narrow doorways. They even took the feet off our couch to fit through the door, and reattached inside, and connected our washing machine. I will definitely use In N Out for any future moves.

All moved under trying circumstances - hottest day in Sydney, major traffic jams near Brisbane but everything delivered, my copious boxes and furniture all safe and sound. Rami and Milad both worked very very hard

At our new place all the belongings were delivered inside our house with great care and there was no immediate issue that they were dragging time . Finally a very big thank you to Rafe and he's team and surely Ill use you guys again and would recommend them to my friends and families plus anyone reading this . Well done. Vijay

Amazing service, fast, efficient and took great care with my glass furniture. Although the guys wrapped most items to protect them this did not take much more time at all. If you're after a honest removal company that doesn't play tricks to charge you extra stop scrolling reviews and book in with George's team. I have used this company multiple times now and won't even consider looking elsewhere.

Isho and his team were friendly and communicated well. Couldn't fit everything into the truck though

Friendly and helpful staffs right from the start. Movers are strong and shifting carefully, steady and rather quick. Im impressed with their strength! Easy payment methods and reasonable. Happy overall :)

Waseem and Sheer were great.

Not comfortable to be pushed into writing a review once the truck was loaded but hadn't even left for its destination

I am not normally a person who complains. The uplift was good, I was impressed with their professionalism however it was downhill after that. The truck was 4 hours late arriving at the destination (I had my parents waiting for it as we wouldn't make it in the time they advised they would be there). They then complained to my parents about the amount of boxes we had and proceeded to place them all in the garage instead of in the rooms as requested. As I went through the boxes I also notes that least 40 boxes stored upside down including boxes clearly marked fragile. These boxes were taped shut with white packing tape with red fragile written on them. These contained expensive crystal glasses and dining settings which had been wedding gifts and hold sentimental value. Unimpressed is the nicest way I can put this. There was also a significant language barrier as the delivery removalists spoke minimal English. Luckily one of them spoke fluent German (as do my parents) so they could communicate this way.

Run from this company

Just thought I post my honest/nightmare of an experience with In N out. They wanted my to delete my initial review but after wasting my own time trying to come to a resolution I thought I repost my experience just in case anyone considers using them. I initially hired them to move bulky furniture from my place to my parents. Taking pictures of items and mentioning items I specifically wanted moved, provided them with photos of access (which was a simple out the back of the premises down the side with ample access. Im going to start by saying thanks for the quick response and execution (this deserves 1 star and only just 1) I was unable to be present for them to load up the truck and I kind of wish they did but: They arrived onsite 12:30 spent 3 hours to load the truck and 30 mins to unload (when arrived at my parents place) In this time the drive DID call me

when he arrived onsite and then when he called me again almost 2 hours later, he called me again advised me he is going to start loading the truck now. At first I was like OK he must have spent 2 hours wrapping my furniture so that understandable - oh how I was wrong I get to my parents place awaiting for the truck to arrive, they arrive, as opposed to their pictures and reviews online they did NOT come in uniform, he opens the back of the truck there is about 1m from the back of the truck to the door I was advised my dining table top and TV were not able to fit AND NONE of my furniture is wrapped as agreed upon, there is metal furniture trolled hard up against the front of my fridges - they are CLEARLY damaged, scratched and dented. My heart just sank, I asked about the damage on my fridges and the removalist just ignored me, at this point I just felt physically sick and disgusted and just wanted them to leave. My mattresses were both clearly dragged along the ground and were stained and not a single item they moved was undamaged. To add insult to injury the truck that had other items in it that did not belong to me. I paid for a whole truck didn't I? to be specific there were 2 full boxes of items that had like toys/stuff he would have picked up off the side of the road were in the front of the truck I had to seek other arrangements and hire a ute and go move what they promised me would fit. I get to my house and find a pane of glass left on my front lawn. I contacted their office to make a complaint and was given a ridiculous offer initially of a refund, Then I was offered \$250 for the excess time they wasted clearly running up the clock unsupervised for 3 hours to load up the truck (money of which I haven't seen), repair to my furniture and a compensation to damages done to both my fridge. Going to be VERY transparent - the offer they gave me is nothing even close to repair or replace damages they caused on my fridges. I was quoted repairs would cost more than the fridges themselves and I believe what would be fair is they can have both my fridges if they replaced both with the exact same model. In summary, if you want a company that WILL run up your time, leave you out of pocket because they can't do what they promised - in this case, blankets over bulky items and shrink wrap mattresses and you have to make additional arrangements cause they can't do what's promised, outright damage all your furniture, give you a joke of an offer for compensation that won't even cover the full repairs so you're still left with damaged furniture then definitely use 'In n Out Removalist'. End of the day I just want ALL my furniture cleaned and fixed to the condition it was

**Website: [www.muval.com.au](http://www.muval.com.au)**

before I engaged with you guys or replaced if you cant repair WOULD NOT recommend anyone use these guys. End of the day i paid for a service, was promised a service and going left out of pocket cause they dont want to accept responsibility and fully repair my fridges to condition it was prior to them moving it AND left out of pocket to move a table top and tv that was promised to be moved but not even attempted.

A&R removals were hired to complete our pre-pack, uplift and delivery. They completed the job in efficient and timely manner. They were very careful with all our belongings and the team were a pleasure to have around. Highly recommend!

Hard workers. Good Packers.

Had a great experience with A & R moving from Kewarra Beach to Cairns CBD. Patrick made the experience so easy from the pick up to the lay down on the 6th Floor Apartment, it's all about preparation and execution and A. & R made to all so easy and quick. Thank you all so much. Ann & Joe

Packing and Uplift: Townsville 31 Jan 2019 The two lads who came to prepackage everything were absolutely brilliant. They treated everything with respect and were very efficient. They assisted me with knowing what I could and should pack. They did it all with great humour. ???????? definitely a double thumbs up! A big thank you to Matty and Scotty! 1 Feb 2019 This was the day these guys went above and beyond. Despite it being 100yrs extreme rain weather event they packed everything quickly and carefully. They put a lot of effort into keeping everything dry and were extra careful with the furniture moving around doors and hallways. They kept up the good humour and kept my spirits up when I realised that we were moving house in a crisis monsoon wet times. They showed how utterly awesome they were when I had to go drop the car off at the trade-In only to discover I had a front flat tyre. In biggest Townsville rain ever these three guys changed my

flat for me when I was just about to throw the towel in. Our house is on a hill so without blocks the car rolls back and twists the jack. These guy got out in the pouring rain, sorted that out and changed the tyre and made jokes so I wouldn't lose spirit. They got everything sorted and allowed me to get going to the car drop off. Then they went back to moving furniture right away! Absolutely Legendary! Biggest thanks to Matty, James and Chandler. We would definitely recommend A & R Removals Townsville because their team go above and beyond for their customers.

Very professional, courteous and very efficient. Great to work with. Would highly recommend this company.

We highly recommend A&R Removals Townsville. The men were very friendly and obliging. They came when they said they would and were very efficient. They moved two organs out of the church into the hall, unpacked the new one and moved it into the church. They even took away the pile of packaging for us. We would very definitely use them again.

I used A&R Removals Cairns to move me to Brisbane and everything went very smoothly. When I decided to move back to Cairns , I had no hesitation to A&R to do my move back and also I decide to use them for storage of my belongings for 9 months while building a house. Nothing was a problem and their rates were very reasonable. Thanks you , great job and the staff were excellent

Moving is stressful and you guys made it easy. No one else local replied to my requests for booking availability and you called me back promptly. I even got to speak to a real person. The removalists on the day were great, and assembled beds and moved furniture until I was happy in my new place. If I have to move again Ill be choosing you guys. Excellent work all round!!

Arrived on time, very efficient and everything arrived in good condition. Very good service

Having been stood up by the removalists I had booked, A&R came to the rescue. They were very helpful and moved our furniture quickly and carefully. Highly recommend!

The team from Townsville who unloaded for me were very professional, kind and always checking if I was happy with where they staged furniture and boxes. This is the 5th time Ive moved and was by far the best experience. Thanks Pops and team.

Good experience with the A&R crew. Did a great job with my move and was very respectful to my belongings treating them with great care.

They were friendly, very efficient, and very professional, no breakages.

Staff were friendly, helpful and courteous ??

Good communication & good customer service, the 2 people delivering our boxes were friendly & helpful.

Awsome work

Well done. lots of stairs to climb.

The men were responsive, professional and friendly.

Good overall quality of service and good work ethic

Great guys and quick service

No phone call to advise 24hrs before arriving. Rang when 5 minutes away. Goods not received yet, so I won't comment on packing or transport.

Took a little too long even though I packed most items

The movers were great. But there was poor communication, lack of information, I told them it was a first time using a removalist and no guidance was given during the process. No timeframe or anything. I was told during the quotation that it will take only 3/4 days to move from Cairns to Brisbane, and after my furniture was taken they told me my delivery date was 2 weeks after. So not 3/4 days anymore. We had already traveled to Brisbane with my one year old and had no furniture, we had to spend more money on hotel, which we had planned for a few nights but not two weeks. When the furniture arrived, after emailing them to tell them that our drive way was too small and they could park outside they still came with the big truck (the movers didn't received the information) which didn't fit in our drive way and had to wait a whole extra day for them to have a smaller truck. Which we had pay another night at the hotel. The movers in Cairns and Brisbane were great, quick and hard workers, very nice and professional. It's just the lack of communication, guidance and miscommunication between what it is said in person and what's said in an email that have created a lot of trouble and extra spending.

Thank you for your flexibility with our uplift. I know we made it harder than it should have been with all the extra items. Unfortunately dropping and damaging my treasured piano is not a good memory and forgetting my kitchen fridge in the uplift topped off a very stressful day. However I did appreciate you arranging the pick up of the forgotten fridge so quickly.

Like most removalist, in a hurry and not being careful enough with our furniture

Utilised A&R to move some large furniture from one suburb of Cairns to another. No plan or timeframe was ever communicated with me, and follow up had to be instigated by me. When asked about time frames was told they'd call me back and they never did. I understand some computer problems may have been impacted usual service. Bit pricey for what I needed - but was on a strict time frame. Everything was moved in one piece.

As one should, I requested three quotes for my transfer of household goods from a lockup to my home garage. The disparity in the five quotes that I ended up getting was surprising considering that the distance between both properties was only eight kilometres. I based my one star rating not on the A&R service but rather based on finding their quotation more than double that of the successful bidder, who incidentally performed the work professionally and without a hitch. I therefore noted that they, on this occasion were "Too expensive".

We paid extra for a shipping container to avoid our possessions being loaded and reloaded during inter state move. This was a waste of money as our belongings were still unloaded and reloaded during the journey and our fridge and new barbecue were badly damaged along with several other items arriving with scratches, even the enamel lid of washing machine has a large chip. This would have needed quite a bump to achieve. The manager in Cairns doesn't care and just said we should have taken out insurance. Insurance should be for if the truck has an accident or fire. It should not be required to pay for carelessness by their staff or contractors. I will be lodging a claim with QCAT tomorrow. Very disappointed with this company and would definitely not recommend them to anyone. Service: In-state moving

Not very good very late broke my stuff and will not answer the phone to fix it

Terrible. Disappeared for 3 hours mid move. Very slow. Complained the whole time. Said they'd pick boxes up, never turned up. Cannot recommend less

Ive had to use them a few times with my moves for work. Something always gets broken. Little thought goes into the unload. 100kg of gear on top of a microwave, dents and scratches on white goods. Really really really disappointed AGAIN with the service. I wouldn't recommend them to an enemy.

Had a guy come around to quote me to move internationally, everything was all good and I was happy with the verbal quote so he said he would put it to paper and have it to me in the next week. After several calls I was still promised it was coming the next day. It was two weeks when I decided I need to get another company to step in. The other company was able to give me a door to door quote within 2 days. It's now 4 weeks since AR promised me a quote that they new was urgent. I leave in two more day and I still haven't gotten anything back from them despite my calling them to enquire. What a Joke of a company. Not to mention lady who answer the phone is never professional. Moving is stressful enough, then to deal with you clowns.

Can't take us too far!! Too far to come down from Townsville for a quote (one hour drive) four other companies did. ??

Very happy with service. Mick and Jarrod were excellent. Thanks guys

I have to thank Bundaberg Removalists again for the great job they did for us. This is the third time I have used them in the last 7 years and they have always been very accommodating and extremely helpful. The move this time was not straight forward and very last minute with items to be removed from an estate and Emily was amazing. The boys were good in packing things up and very helpful. I would not hesitate to recommend Bundaberg Removalists for any job. Thanks for all your help and being so patient with me.

Jarred and Jason were quick and fantastic to work with. All our stuff was handled with care! Highly recommended!!!!

100% Happy great job would certainly recommend to anyone planning on a move big thumbs up ????

Great service from Jarrod & Michael. Thanks

Chris and his team are the best removalists you could ever ask for. Our whole experience with moving from Bundaberg to Hervey Bay, with all our possessions stored for five months in between, was a breeze. From the time they picked up everything and safely packed it away, till when it was all delivered safe and sound by Reuben and Jarrod, the process was so easy and with no stress involved, with not a thing damaged. Thanks so much to all at Bundaberg Removals & Storage - can't stop recommending you to all that need a top quality removalist team!!!

Staff are so pleasant. Very efficient when quoting, take photos for easy reference later on. Removalist team arrived exactly at the agreed time and were so careful with our belongings. Overall good experience would recommend this company.

A company easy to deal with, giving good service and attention. Helpful and easing a lot of the stress involved. Happy to recommend them.

Lovely staff very helpful nothing was a problem. See you all again next move. ??

We moved from Waterford (south of Brisbane) to Bundaberg and Bundaberg Removals were great. All contacts prior to the move with the office were very positive and the removal itself went without any issues. Jason and Jon arrived at our house around the middle of the day and had everything loaded and left late in the afternoon. We had them pack our TV which was worthwhile - only cost an extra \$50. Our furniture was delivered to our new Bundy address and again everything went well. Nothing was too much trouble for Jason and Jon - Jason has an amazing memory for where furniture came from in the old house and where it should go in the new house. Thank you to all involved in the move - Emily and Penelope in the office and in particular Jason and Jon who did the hard labour in hot conditions. I strongly recommend Bundaberg Removals for your next move.

Fantastic service great people cheers Linda and Chris cornford

Thanks Jarred and Micheal. Very quick and professional. Quick in and out. Micheal is funny. Thanks for the great job!!

Highly recommend these guys. Fantastic to deal with right from the very get go. Would recommend.

I was put in a difficult situation where my personal items had to be moved to WA. Chris, Emily and their staff went above and beyond to assist in packing and storing of my personal belongings. I would recommend them for their professionalism, quality of work, being responsive to my timelines and value for money.

Jared and Jason are two very capable young men. They were really respectful and helped with moving existing furniture whenever I asked.

From beginning to end the whole process went very smooth, from the office staff Chris & Emily, the removalists Harley, Jarrah at pick up, Harley & Daniel at drop off, all very professional and hard working. Thank you all so much.

Jarrad, Chris and Jason moved me into my new place today. Great service and friendly helpful staff.

These guys are 100% professionals. I have a piano that has been moved several times, and they brought the right equipment to move it quickly and easily. No damage to anything and a super smooth move. Would highly recommend.

Just a thank you note. Your guys were courteous and professional with the job being done very quickly. All our goods arrived safely and are still in mint condition. Thank you for your support over the past few months. It is very much appreciated as it has been a very difficult few months with 4 deaths in our families in less than 12 months, 3 between February and June. Again, thank you. We will certainly recommend you. Stay safe, stay well in these challenging times. Kind regards J and J Paul.

Chris and Bronwen and the team were all wonderful throughout our move. Everything went smoothly, with great care taken to look after our furniture and walls at both ends. The team was fast and efficient and friendly. Our stuff was kept safely in storage for 8 weeks and we had zero breakage scratches or dents. We are glad we went with Bundaberg Removals & Storage

Great service, fast pick up great friendly staff and knowledgeable staff l. Handled our oversea shipment no problem.

Great customer service and communication. Easy transaction. Jarred and Jon were quick and professional. Took great care with my items. 10/10 would recommend.

We could not have been happier from the initial contact for a quote through the whole process to the delivery at our new address. The office staff were always very friendly and only too happy and ready to answer any enquiries we had. Leon and Jack who moved our goods, were very friendly, caring, very hard working while still being professional. Everything arrived in the condition it left in. We would not hesitate for one moment in recommending Bundy Removals. Spencer & Gail Casey.

Delivery today. Professional and fast. Everything done exactly as expected. Well done guys.

Awesome. On time. Perfect! Thank, Jared & Chris.

The two young men that work for them. Are great at there job an especially at moving my spar. Thanks

fellows for being professional trustworthy and truthful

Thanks Jarred and Michael great work. Very helpful. Great guys. Can recommend them highly.

The boys worked so efficiently and without any dramas.

Easy to deal with great communication

Guys worked hard and were well worth getting, even recommend them to mum and she's already got a quote to move up from Melbourne

Chris and Jason were the best. Friendly and professional. Made our move 100% easier. Thank you guys

Jason and Rodney were fantastic. Very obliging and careful. Jason was particularly careful in the way he manoeuvred the truck to ensure minimal damage to our lawn. Packed to perfection and with utmost care. Cannot speak highly enough of their efforts during what is a very stressful time. Thanks a lot guys. Drop off was equally as efficient. Jason and his offsider were very obliging and careful. There was zero damage. Very impressed. Will certainly recommend to anybody moving to the area. Thanks again Thanks again

The men were friendly and completed their work efficiently and professionally.

Very efficient

Harley and Robbie were great

Huge shout-out and heartfelt thank you to Chris and the Team at Bundaberg Removals and Storage. They co-ordinated a move recently from Bundaberg to Brisbane for my Mother, at very short notice. The care, respect and dignity they extended to Mum during a very stressful time for her, was exceptional. They packed all Mum's possessions perfectly, engaged in regular communication and provided updates throughout the process. Their sincere willingness to accommodate Mum's specific needs, far exceeded our expectations. Delivery was seamless and on time with every care you would expect from a 5-Star Removal Company. Everyone we dealt with were so helpful and friendly with each interaction strengthening our confidence in their service. If you have an upcoming removal, please (please) consider choosing Bundaberg Removals and Storage. If you do, you will know immediately you have made the right choice. We certainly did!!

Friendly and hard working crew

If you need a grand piano moved for what ever reason these are the people to fo it. I needed my grand, very old, piano moved quickly and these guys were the only people who could do it.They also did it without any fuss and it was done without any damage whatsoever and talked me through the whole process prior to the move.

Always a great experience on such a stressful day cheers guys, 4th time we have used Bundaberg Removals & Storage wonderful job ??????????

Chris was wonderful to deal with and professional with the moving of my baby grand piano. I would

enthusiastically recommend this company to others.

They guys (Jared and Jason) were amazing! Made the move interstate so much easier. Would recommend to everyone! :)

Excellent service from collection to redelivery.

This morning Chris & Jason from Bundy removals emptied my storage shed and relocated (55ks) all my belongings in less then three & half hours. My second experience with Bundaberg Removals, both times all went well. Excellent and friendly service.

Fantastic service !

I would like to thank Walter & Riley from Bundaberg Removals on our recent move. The move went very well and they made a big job much easier. Great organisation to do business with. We recently moved using the service to store our furniture for 2 weeks and then help us move into to our new home. Great job to the workers Penelope, Greg, Peter, and Brendan.

Jarred and Jon. Very personable men who were also careful and thorough. We have no hesitation in recommending them to you.

Very friendly jarred mick and chris

Excellent service. Very professional. Assisted us at every step. Could not be happier. Would certainly recommend them to anyone who is looking to move house. The lads that moved the furniture were all

attentive, careful and considerate.

Jack and the team were awesome! The 4 guys were all friendly and keen to get the job done. Thanks to you all. Excellent job guys! Also thanks to Chris who initially came out and quoted for us on our move. Excellent company to deal with. Very reasonably priced. Would not hesitate to recommend to anyone needed a removalist.

Fabulous professional, personalised, attentive service. Everything went as planned. Highly recommend

The team moved a baby grand piano for us,,,,, after doing 31 years of furniture removals myself and many grand pianos these guys were great if they can move a piano like that you will be able to trust them with anything highly recommend

These guys were excellent! Great service, fast pickup and drop off. We felt very comfortable around them and were very happy with the pricing too ??

I had to move from Brisbane to Bundaberg within a week, to start a new job. I don't have a lot of possessions but what I have is important to me. Chris organised a backload at a great rate, kept me informed every step of the way, the guys turned up on time and delivery at the other end was punctual and professional. Excellent service, friendly staff, I would use Bundaberg Removals and Storage again without hesitation.

An awesome team of professionals who arranged a hassel free move. Highly recommended.

Great service On time,?? friendly and helpful nothing was to much trouble I would recommend them to anybody

Excellent service from booking the move to the move itself. Quick and friendly and the care taken. Well worth the hire and Jarrod and Jason were great and so efficient. Highly recommend

Mick and Jarred were great. Very helpful and efficient!

I highly recommend Bundaberg Removals! They helped me with a specialist move that was not easy! They sent 2 trucks and 6 blokes and got it done quickly and professionally! The price for the move was very reasonable! They relocated everything with care and respect!Thank you Bundaberg Removals! And a special thank you to Hilly! ??

Chris was very helpful and friendly. Jason was amazing with his helper Cade. Very friendly, efficient, fast and prompt. Definitely will recommend them and use them again ????

The company was particularly helpful from the beginning. They were able to be flexible and went out of their way to be supportive of my needs when things got tricky for me dates wise. Absolutely wonderful. The packers were efficient and they packed carefully. The lifters were careful with my furniture and their unloading was efficient and they placed everything in its appropriate rooms. Thank you Chris and Team.

Absolutely amazing service.

Jarred and Norman did a brilliant job. So did the guys who's name escapes my memory. Friendly and easy going. Cheers.

Very easy to talk to and rates are reasonable.

Excellent service from the pickup and delivery boys Jarred & Chris was fabulous and greatly appreciated being Easter Saturday.....mixups with management was not appreciated.

They are Amazing.....except the price was extremely high. Would still Recommend them.

We were informed about Bundaberg Removals via the real estate agent we were dealing with to purchase our new home in Innes Park. Our experience when we visited the main office was very pleasant. The staff were friendly and helpful. Our communications with the office staff up to the day prior to pick up at our former address was also more than satisfactory. We were informed that the pickup would be at a certain time and date and that was exactly what happened. A little surprised to see that the truck parked virtually outside our house the night before but that led to an early start to loading. The driver Rick was very prompt, on time and very courteous and obliging. His team mate Walter arrived a little while later.. Another very courteous gentleman. Our belongings were delivered to our new address at time and date promised. Rick and his offsider did a marvelous job with the pick up and delivery. Overall experience with the Bundaberg removals was excellent and would recommend them for your move especially if they employ Rick to do the work for them. On unpacking our possessions there were no breakages or damage whatsoever. We packed all our own boxes and it was mainly these and the bulky furniture items that were loaded. I also recommend that you read the conditions of contract for your removal so that you are aware of yours and their obligations. All in all an

excellent move.

Happy frendly blokes good job ??

Bundaberg removals were efficient, helpful and a pleasure to deal with. I would recommend them to anyone

Not sure if I would use this company again. It all started when they didn't show up at 7am. Office wasn't open till 8. They finally arrived at 8.30. They said our job looked easy & off they went. When getting to the new place they banged into a fence & said they were not liable. They then proceeded to get slower & slower bringing items in. Last item came in right on the 2 hour mark. They then said they would go close up the truck & be back with the paperwork. 10 mins later & another 5 trying to get their office on the phone so they could charge those 15mins to us. So after the stressful days that our family has had, this was very disappointing

Disappointing. Some furniture scratched.

Honestly this company has been the worst I have ever used, From communication from Chris to the workers turning up late and so many damages in such a simple load. The boss Chris then tried to make excuse for the broken tv and washing machine and big scratch on the fridge. I would not recommend these guys to move a single item for you.

Lied to me and wanted to charge me more than double to move my container. I am an aged pensioner. Ill never believe Chris again you tried to rip me off what a horrible person you are. Chris did give me a quote then lied and tried to double it

Very poor service. Would not recommend them .

So I paid \$6000 to Bundaberg Removals and storage to move all of our items from one house to another house. Here is the list of items they did not move and that I can no retrieve. Total replacement value is well over \$3000. There is no excuse to explain this. Chris, the owner, I believe, came the day before moving and took photos of everything that was coming. If he had any questions he could have looked at the photos on his phone. The incompetents astounds me. You decide whether you would use them or not. Box of crystal glasses from my mum and dads wedding day. - not replaceable Daughters bed, that was sitting on top of boxes that did arrive and it was left outside so someone carried it Daughters play kitchen that was next to the trampoline that did arrive rough cut timber bookshelves, that were on top of something that did arrive dog and cat beds, that were in the main bedroom and made there way outside so someone carried them fencing wire 2 x 20kg bags of DE that were inside a cart. The cart arrived the bags did not 4 cat scratchers dragon fruit tree that was next to all the other trees that did arrive roll of insulation that they moved to access the artwork behind it. wheel barrow I have moved interstate so many times, back and forth and never have I ever had to be there to watch the movers and never have i ever had items not show up or get broken. Bundaberg removalists also broke a number of items that they are currently refusing to pay to fix. The incompetence is astounding.

This is absolutely a genuine Review. Myself and my partner had to downsize from large house to small unit. The 2 men worked for seven hours where nothing was too much trouble and they worked hard all day. Couldn't have done it without them. Great local Tassie company. Thanks so much Lifeline Movers! Recommended for anyone.

Good communication. Quick and easy . Highly recommended

These guys took on a challenging job at a steep site, made no fuss and got it done. All very polite and solution focussed. Highly recommended.

The movers Joni and Harsh were very professional, friendly and careful in handling my furnitures and belongings. They were just a bit late from the scheduled time but probably from finding parking spots in the

city. But overall happy with the service, good quality and value for money. Will hire them again on the next move.

Awesome service ?? ?? ?? thanks guys!

Jot and Jashan were fast and very efficient. Super polite and helpful. Thanks so much.

The guys who arrived worked so hard to move our furniture into a two-story home. Hard working, conscencious and wonderfully polite. Thanks team, well done.

Great job

Good service, affordable price, moved everything and haven't smashed anything. Punctual as well.

Fantastic communication and easy to deal with. Available at short notice and furniture professionally handled.

Fantastic service. Highly recommend!

Super professional and excellent value. ??

Professional service and responsible workers.

Narinder and Parul did a fantastic job moving me today. They were very careful moving furniture, and it was no trouble to ask for items to be placed where I wanted them to go. I would have no hesitation to book again, and highly recommend them.

These guys were awesome. Jot and Ravi were super helpful and friendly. These guys handle the tricky stuff well such as dealing with our tight driveway. Could not recommend them any higher.

Guri Nd jaggi Furniture was delivered on time in good condition.

Jot and Ravi did a fantastic job. Quick and efficient, very careful with big items when moving them. Second

time using their services, highly recommended.

Team was quite professional and the way the work makes it look very easy and reliable... Great teamwork and they have done the work gently along with that they have answered my all enquires and they are budget friendly.

The guys were friendly, professional and efficient. I trusted them both completely with our belongings and felt comfortable communicating before and during move. Highly recommend.

Amazing. Reliable and responsive. Kind and helpful. Worked their magic and it was done. Very impressed.

Very friendly people and good

Jot and his colleague were very efficient and friendly, they cared for our belongings and property. Would recommend Lifeline Movers to anyone needing removalists.

We bought our dream couch for our new home without checking if it would fit up our stairs (it didn't!) Our original moving company washed their hands of it so we called Lifeline Movers. The same day they were at our place assessing the site for a balcony lift and less than 24 hours later they were on-site with a lift and a team, bringing our couch over a second story balcony. The team was professional and efficient. They even put the couch legs on for us! Thank you so much.

I was very impressed with the two removalists that helped me move house today. Affordable prices, finished the move within an hour, with no problems whatsoever, and the removalists were very professional. They were about 30 mins late, but they warned me in advance, so I didn't mind at all - it happens sometimes. They also gave me a lift to my new place, since I don't have a car - very much appreciated.

The team was professional and friendly at same time. Efficient and careful with the move. Overall, a pleasant experience.

Excellent service - deliver 2 beds & mattresses.

Our movers were very capable and friendly and executed what was a fairly dusty, messy job in a timely and efficient manner. We were very impressed and are happy to recommend this service.

Nothing to complain about. Nice job ?? Happy with the result.

Very professional and reasonable price. If you need anything to move then you can contact them. Thank you for your service.

Used these guys recently and found them to be very prompt, efficient, and very reasonable rates. Would certainly do business with them again. Highly recommend them. :)

Very good movers. Helpful and polite. Very happy with the experience. Thanks

Very satisfying performance with great handling skills. These guys turns up on time. They organise my whole house in their trucks which is unbelievable. No damage, No delay Everything was planned

We were very pleased with Lifeline Movers. They did a very professional and trouble free delivery of a king sized bed for us. It arrived on time, in perfect condition and the delivery men were very efficient and courteous. We would definitely use their services again. Fay and Brian.

Have used this company twice now, would highly recommend. Jot was very friendly, helpful and professional! On time and respectful of my property!

The guys that moved us, were complete professionals. They worked hard and took care of our possessions. Would definitely recommend.

Great service. Come on time. Thank you for hard working guys at Lifeline Movers.

Highly recommended

The guys at lifeline removals did a wonderful job. Prompt reliable. Hard working and very accommodating. Thankyou so much guys

The 3 young men Jot, Navi and Jasatn moved our belongings in a thoughtful and caring manner, consulting with us at every point. They were particularly friendly, courteous young men and we would highly recommend them again. I am sorry we didn't have anything to offer them for lunch.

Thank you all so much for your help with moving my piano. I was very pleased with your seamless efficiency, teamwork and communication.

Very professional and reasonable price. They worked hard and took care of our possessions. Would definitely recommend.

Great guys willing to help in all situations.

Guri nd jaggi friendly service very professional and fast workers very happy with the service

I was really impressed with the service Lifeline Movers provided. The 2 men, Jeet and Jot, were courteous and very professional. They took great care handling my possessions and carefully secured them for transportation. They were careful drivers and at no point was I concerned about my furniture in the back of the truck. They

had a plan of how to pack and carried this out in a timely manner. On top of this the cost was very reasonable.

I'll definitely use them again. Thanks, chaps.

I used this packing and moving service for my recent move, and while the team was friendly and efficient, there were some downsides. The truck they provided wasn't large enough to fit all my belongings, and as a result, they had to do several trips and a significant portion of my items were left unpacked and behind. While this was a bit frustrating, I appreciated their positive attitude and hard work in the face of the challenges. If they can address the space issue, I would consider using their services again for their friendly and efficient staff.

Very helpful professional service thank you for your help

Hired this company to help move some heavy items from the garage to a top floor unit. The team that turned up were very prompt and helpful. However, the quote from Jack and the agreed price kept varying. Call out fee was quoted at 3 hours which I presumed included travel (no mention that it didn't). They were there an hour and on the morning of the work I was then advised of a surcharge of 1 hour for stairs. My expectation was that this would cost \$500 - but I was asked to initially pay \$700 because 'travel was on top'. After some dispute, it was reduced to \$600. I don't mind paying so long as everything is clear up front but clearly in this case it wasn't and it proved for an awkward discussion with the movers who turned up. Please be clear about whether the call out fee includes travel.

Very mixed experience. The men who did the work were very polite and courteous. They were decent people. They also took care with our belongings which is critical. However, the owner never told me there was an option for a larger truck, he just sent them in a truck far too small for our house (I told him the size of it). They were unable to pack our things in 3 trips. This added a lot of expense to the bill. Additionally, the removalists

clearly lacked a lot of training. They packed each load 50-60% full - they didn't know how to pack properly and utilise the space on top. In the end, we had to take 10 loads ourselves with a ute. The removalists were also very slow. Like painfully slow. We have moved many times so we have a good idea of what constitutes best practice in this industry and these guys were very under-trained. Again - they were lovely people which is important when you're trusting your valuable things to strangers, but you also need to find a balance with professionalism. Lastly, expect a lot of additional charges like for stairs! They mention this on the quote but won't tell you if you will be liable for it until they get there.

Large ceramic pots broken by poor handling practices. Heavy chiminea fire pot not secured and laid onto the pots causing breakage. Argument ensued with owner of company, quite heated, with no responsibility accepted at all. Will not use again and will not recommend to others.

Removalist were late, they broke and damaged a few things and we were overcharged. I emailed and have left this review nearly a month to give them plenty of time to respond to email however they still haven't even given the courtesy of a response.

Found them via Muval and the price given from Muval was \$140 per hour, and \$70 show up/ per trip. Minimum 2.5 hours. Didn't like the difference in price and called Lifeline Movers without Muval and the guy gave me a higher price than their website and Gumtree post they have, probably just because I turned Muval down. Then charged his extra for flight of stairs, but would be a price between this and that, which I didn't mind but not specified the price on his text. Please avoid for obvious reasons of not being trustworthy and changing prices as they go, even if they post other things on their website and gumtree ad.

This company treated my daughter and her housemate with complete disdain and behaved in an incredibly unprofessional and disrespectful manner. Refusing to move a seconds load even after being paid to do so. Also have yet to receive a receipt for this disgraceful excuse for a removal job! Not happy and will be taking this complaint further!

I regret using their service. They asked me to "move" glass tables and the TV myself. They scratched my Wight goods and later, after they made me pay before completing the delivery, I found one of my dining chairs was damaged. The good reviews were so misleading.

Jacks phone manner is terrible annd abusive and late services when already booked and paid. Don't use this company

Strongly advise against using this bunch of scammers - the charges are simply ridiculous + poor customer service over the phone and in-person They charge for minimum 2 hours (\$85/hour), i.e you will still be charged \$170 minimum even if everything is moved within 20 minutes. Nearly \$50 for fuel levy (when it was just a 10 minute drive) Stairs was charged for additionally as well, but I don't think ~\$70 was fair for just 2 flights of stairs, and I have nothing as heavy as a fridge to be moved Oh and don't forget the 10% GST as well :)

Unprofessional, do not recommend. They will waste time to work more hours, super slow. Not professional movers. Do not fall for there low price point, it stacks up and will be more expensive. STAY AWAY

I feel I must convey what poor customer service I received during my recent move, not only did myself & my friend do most of the moving of furniture & boxes, but when the men smashed my \$251.00 glass top table, they told me to my face that it was my fault & when I spoke with their supervisor to discuss insurance, his

response was that if I was to proceed with an insurance claim it would be rejected being under \$1,000, the removalists spent more than 30 mins sweeping broken glass & then had the nerve to charge me extra & ask for me to take most items in my friends ute, I mean, c'mon !!!, who are the removalists here?, they had absolutely no professionalism, NO personal hygiene & were EXTREMELY slow, spoke very little English, did not take instructions & were very inefficient, with the loss of my \$251.00 table & the cost for their time cost me almost \$1,000 with a "good will gesture" of deducting \$100 from the charge, unbelievable !!! . If you value your precious items or ANYTHING breakable & seek good customer service DO NOT HIRE Lifeline Movers !!!, you will be wildly disappointed !!, save your money for a removalist who take care of their customers & are only too happy to move your belongings, moving house is extremely stressful & based on my experience, I'm one step away from a complete meltdown.

Absolute disgraceful human beings. Do not trust this company, unless you want your items damaged and them to walk away from a job. Not only did they rock up to my house 4 hours late, they were very careless in their actions. They have left a HUGE 2 foot scratch in my hardwood floors (see pictures), put a hole in the wall, scratched my coffee table and broke the bin. When I confronted them about the scratch they denied it. Said it couldn't possibly be them even though I WATCHED one of them drag the couch from the wall across the floor. They continued to deny they could have done it and one in particular got very angry towards me. Now Im a single female with a disability, this was not a pleasant situation. They then proceeded to unload all my items carelessly back into the old house and left me stranded. I have tried to call the company several times and emailed them to call me, but of course no one gets back to me. They are cowards, who ran away when they did something wrong. They've now cost me my bond. I have made a police report for property damage and have contacted consumer affairs for further advice. Please do not use this company. Read other reviews that say the same thing, they deny any breakages and gaslight you. It's not worth it!

These guys took their time ! my furniture didn't fit in their tiny truck so I had to move most of it myself then

they charged me almost \$700 rip off never dealing with these people again

?BE AWARE? Like many other reviews my experience was : ?unclear and fluctuating costs ?a quote that didn't reflect the job description or moving items ?damaged goods ?tardiness ?very unhelpful communications with Jack including lying about damages and not accepting any responsibility (don't believe the repair and replace policy because they don't accept fault)

Absolute horrendous service. Went over requested time, refused to give back my lounge held it to ransom until I paid the overtime amount. The guys turned up with a small truck after describing what I had. I had to chase my quote, no receipt given for deposit or final payment. Removalist sat in the truck on tik tok for an hour and charged overtime. They also facetimed their wives or partners while in my house with my personal possessions and children. Spoke to the boss about them breaking my autistic child's barbie dream house which was \$300 and him over charging me and I got not my problem mate you had 24hours to notify me of any breakages, did the guys tell you they broke it? Of course not just hid it when they brought it in so I couldn't see it fair to say the meltdowns I've had now for the last 3 days have been fun. The boss told me he had to speak to his guys about all of it and he would call me back 10/10/2023, no response. The breached privacy by filming in my home and the boss thinks that's ok. Would never recommend these guys ever to anyone. Paid more money than we allocated and now a broken barbie house and a filmed home. To think these guys come recommended.

I have never written any bad review of any place or service cause whenever bad things happen I know they are doing their best to satisfy the customers and it's mainly accidental. But things have changed for the first time . Ive got a booking at 11:00 am, and it was agreed weeks before and the day before. Then, they changed the booking at 10:33 am saying it will be 3 hours delay (14:00 pm) which I think is ridiculously long. I said okay cause I don't want any trouble and just want to get it done. Then, at 13:53 pm he called it will be another 40

minutes delay. Well, I guess I'm not surprised anymore. They finally came at 14:50 pm which is almost 4 hours delay. The positives are, they are pretty quick to do the carrying which indicates they really are mindful and value time for themselves, but not the customers. I complained and I got a sorry. I reckon it's easy to say sorry without any complications or compensations, and again, they really don't care.

Initially I made a review to say thank you to this company, but then I went back to the old house and realised the removalist company dropped my washing machine into my laundry wall and put two huge holes in it, they say they didn't do it and didn't lift anything heavy in that area...they removed my washing machine and dryer from that exact area and damaged the walls and lied about it, didn't inform me. Didn't take ownership of it. Now I'm left with damaged walls I have to repair and have painted by myself. As a sole parent this is very distressing to me..do not recommend you hire them. They'll damage your property and lie about it. I have photos of the damage included in this post.... In all lifeline removers are not very helpful and are quite ignorant and won't acknowledge or cover costs for any damage that they cause. In fact they'll lie and deny it..not worth hiring

If you want your property and your furniture damaged, this is the removal firm for you. Having turned up four hours late, the three morons who clearly did not want to be there unloaded all my furniture and put it back in the house when some damage to the floor and wall was brought to their attention. Refusing to discuss the situation, they drove off leaving me in a property with no water or electricity, late on a Saturday evening ahead of the New Year long weekend. Calls and emails to the head office generated no response, so clearly the issue is with the management. As they say, a fish rots from the head down. This is the case with Lifeline movers. I don't know how they are in business, as customer service is not something they know how to spell, never mind deliver. They are a disgrace.

My wife and I were recommended to Jolly Good Removals for the move between our old and new house. We had a move today made by Triston and Jono. I would like to note the professionalism of the guys - they moved our stuff really quickly and no damage was done to any of our furniture. Needless to say, they are very pleasant to deal with. We definitely will make our next move with Jolly removals. Thank you so much guys!

Tristion, Elliot and John did a terrific job at last minutes notice for our move. We were super impressed, they had fun while doing the job and took care of our items. Thanks again!

Yazz and Jacob were great guys, super friendly, fast, efficient, hard working, careful, respectful and thorough with everything they did. Craig, Steven and Darrin are easygoing, efficient and incredibly fast at their job, lovely blokes with great team work to take the stress out of a move. Can't thank them enough for their help after a really stressful year. I'd recommend them in a heartbeat for anyone needing a move, particularly in a short time frame. Thanks so much again, take care guys! Jesse

Was very very happy with the job done today! I usually get my Dad to help move house but I am so glad I went with Jolly Good Removals instead, the service was great and the removalists were very professional. Even better was I still got to hear the dads jokes without the additional whining/whinging/cursing of my name for moving again! Would highly recommend ??

Jolly Good Removalist did a very good job. Responsible price. Highly recommend

Great service, friendly and helpful team - will recommend to friends and will use service for future moving :)

Extremely impressed with the service would definitely recommend to use this service big thanks to John and Brendan.

Good delivery, friendly and fast response for great price. Would highly recommend

This morning the lovely guys at Jolly were so helpful and efficient. They even did some interior designing for me and fixed my furniture pieces that had loose screws plus put my washing machine together. So kind and also humorous. Highly recommend.

Gary is a gun. Couldn't recommend this company more. They helped us move everything from our upper floor unit to our storage in record time. We will be using them again when we find out next home!

Triston and Jon were efficient and professional throughout the morning. Would highly recommend these guys to anyone.

Quick and stress free!

Had a great experience with Jolley good removals two weeks ago. The lads did an amazing job and very friendly. Easy to chat with and hard workers. They packed up the house very quickly, and moved house very carefully and thoughtful. I do recommend to all.

Gino and Jake were great. Super quick and careful with the packing. Friendly and helpful. They made sure to get all of my son's cars and bikes, then set up the washing machine, fridge, reassembled tables and beds at the other end. Thanks guys ??

Harry and Gino are the best removalists I've ever dealt with. They handled my antique furniture with care and professionalism. I highly recommend them. Russ, Joondanna.

Great service

Great job, moved everything pretty quick, will get them again

This was my first experience with a removalist, however, the blokes at Jolly Good removals made it a simple and painless experience. Jake, Elliot and Gautaum were very friendly and a pleasure to have around to assist with our move. Everything was moved quickly and efficiently, and I would not hesitate to engage their services again in the future.

We would like to thank Jolly removals for the best move we have ever experienced!!! From the moment we got the quote and service we received right up to the day of our move. We would like to thank Gary & Elliott for fantastic customer service. They arrived promptly at 7 am and nothing was too much trouble for them. They are the best guys we have ever had the pleasure to meet in all the years we have been in Australia and the many moves we have done over the years. Thank you Jolly removals but the BIGGEST THANK YOU to Gary & Elliott. I highly recommend JOLLY REMOVALS and we will definitely use them again. Bee & Shaun

The guys at Jolly Good Removals moved us from Greenwood to Alkimos and after moving many times over the last 20 years we were blown away with the service and professionalism offered by this company, it was amazing and the best we have received after many moves. I will definately recommend them, they were efficient and organised and super quick whist taking great care of our personal items. A fair price as well,

thanks guys, you made the day less stressful, it was a pleasure doing business with you.

Gino and Jake were timely, professional and fun! Moving day is stressful but these guys were absolute legends and nothing was too much trouble! Everything was moved efficiently and with the upmost care. We highly recommend! 6 stars!!! Thanks Gino and Jake!

Extremely impressed with the service would definitely recommend to use this service big thanks to John and Brendan.

We moved house twice this year with Jolly Good Removals and both times we had an excellent experience. Dempsy, Brendan and Gautam helped us move for the second time and the process was seamless. The guys were extremely helpful, prompt, friendly, and had a great sense of humour. We will certainly go through Jolly Good when we move again (hopefully not for a while!)

I used Jolly Good Removals to move all our furniture and household items into storage. The removalists Gino and Jake were very professional, careful and efficient in getting our stuff into and off the truck. Gino even advised that the storage unit we had leased would not be enough for everything for had, so we were able to secure another unit just in time (Gino claimed he was the brains of the operation, I'm starting to believe him). Overall, I would highly recommend Jolly Good Removals. Well done guys.

Darren and Jacob were great, very professional and quick. They started the job on time, insured extra care for the furniture. Will definitely recommend this company.

Tristan and Jakob moved in furniture today and the service provided was fantastic. So quick and easy and super friendly team . Good job guys

Best movers ever! Darrin & Tristion were so professional. I was really anxious about the move, but they made me feel at ease, they were quick and all my property was moved without any hassle or damage. Thanks for such great service!

Craig and Jacob helped us move to our new home (they did all the work)... They managed to make this tiring stressful thing in to a smooth sailing journey... I actually enjoyed watching them play Tetris in real life! Very professional and efficient, great manners and great value for money. Thanks Gents ????

Hassle free. Professional. One run took all. Guy told me it was a challenge for him to pack my 5 bedroom house in one go. He did

On time, extremely pleasant and helpful. Very quiet and just got on with the job. Would highly recommend them - second time and just as good as the first! Jon and Tristan were great - thank you!!

Great service from the crew. Tristion, Darrin and Wally were friendly, efficient and very professional. Great value for money. I would highly recommend their service.

Great team, good communication, quick and efficient. I would recommend this company to everyone.

Showed up on time, friendly, efficient, fair price, nothing broken. What more can you ask for?

Thank you Gino and Jolly for doing such an amazing job moving my furniture. Though the elevator was out of order you guys went out of your way to make my move happen and carry my furniture upstairs to the sixth floor which was not easy. I couldn't be more grateful for your great customers service if I could give more stars I would. Thanks lot Gino and Jolly ??

Great service from friendly staff. Although had a miscommunication we managed to settle the issue with ease. Would recommend them anytime.

Tristan, Wally and Gautam were absolute guns. In and out made for an easy day!

Yas and Jake were punctual and friendly and did a great job moving our bulky, heavy jarrah furniture down 20 steep steps without damaging anything. Would highly recommend them

Having had a very bad experience with removalist in the past, it was a pleasure dealing with Jolly Good Removals & Storage. Communication was good and the lads that came to do the job were very professional and did an excellent job. Added to this was a very reasonable price that we were very happy with. I have no hesitation in recommending this service.

Brandon and Chase were friendly, punctual and professional. Made our move stress free and easy. Highly recommend Jolly Good removals and the boys.

Just used Jolly Good Removals for the third time and am extremely happy as ever. Tristion, Darrin and Wally did an incredible job, super efficient, and friendly to work with. Ive recommended these guys to multiple friends and will continue to do so. Very grateful!

Great service. Have used this company twice now and really professional service

The Team Jolly Good Removals and Storage were excellent. Garry, Jake and Brendon all did an excellent job working with us all day. They went above and beyond what we expected, delivering excellent service at a low cost and very efficiently. It was clear they took great care in moving our office and made sure nothing was damaged. We would highly recommend this team for any moving requirements.

A great team, no stuffing around but also take care when moving your furniture. Will be using them again in the future

Cannot rate these guys high enough! I used Jolly's to help me move houses - they responded to my enquiry on a Sunday within 10 minutes, were friendly, professional and transparent with the quote. Super efficient (2 hr move!), no damage, excellent communication on the day. Will recommend to family & friends and will use again. Thank you Jon and Tristan!!

I wanted to say a HUGE thank you to the boys who helped me move today (Brayden, Jay and Darrin). It was a hard morning, but they were incredible! They arrived on time, were happy, efficient and professional. The boys worked so well together; it was great teamwork. They really helped me a lot and I can't say enough how pleased i am with the service. Please pass on my heartfelt gratitude. Thank you again.

Absolutely brilliant. Due to circumstance we needed to move house immediately. Three guys from Jolly Good

Removals arrived on time after the company prioritised our move. They were on time, hardworking and got the job done within a few hours. Their friendly dispositions and fun banter make a stressful move so much less stressful! Would definitely use this company again.

I'm so happy with jolly good removals I have used this company a couple of times and every time they have been very professional. Great pricing very clear what i will be paying in the bill no hidden costs. The boys have done a great respectful job and are quick they are amazing with their response time for arrival always calling before arrival. Thankyou jolly good removals will be using you again.

Hi there First time moving with this company. They were very good. Good customer service and response. Very good price as they were travelling a fair distance to my old house so was very happy with the guys, very helpful and they didn't scratch or mark a single thing. Highly recommend!

Thanks so much Tristan for helping with moving the Bookcase and TV cabinet - great communication - will be in touch for my next move!

Very good service. Warned me they may be late and was only 30 minutes late which is fine. Sad that the man at the other end wasn't pleasant to them. They were very kind and swift. Thanks gents!!

Garry and Elliott were very efficient and professional. Not a single scratch on the walls. Would recommend.

I cannot recommend them enough. Rang this morning to see if they could pick up and deliver a couch for me. They went above and beyond Will 100% use again with any future removals

They are awesome and cheaper than airtasker ????? so checke them out first before you put yourseld out there.

The only downside for me is they are almost an hour and a half late and messed with my schedule a bit

The boys were so quick and looked after everything well! Brendon in particular was super friendly and accommodating. All my furniture was packed, moved, and unpacked in 1.5 hours and even took my side to defend me when the person over the phone (I didn't catch his name) tried to overcharge me.

If I could give a minus 5 I would! The staff who performed the move on the day were lovely, but dealing with the owner, Jolly himself, at the end of the day, was a truly awful experience. I am hoping this review will help save others from having to go through what I went through. He spoke over me, tried to intimidate me, and would not listen to me, was condescending and rude. Firstly, Jolly tried to overcharge me an hour, then when I tried to discuss a dispute over the bill due to him sending a smaller truck than was ordered requiring us to do 2 trips causing an additional 1.5 hours to be added unnecessarily to the day, he continued his bullying tactics. I was shaking when I got off the phone with him. I would strongly recommend to never use this business. EDIT - my response to Emily: Emily, I tried to negotiate to sort this out, but Jolly remained stubborn - even calling me to harass me further, when I explicitly stated I didn't want to talk to him any further. He wouldn't budge which is why I wrote this review. I feel sorry for you that you have to constantly come along and clean up his messes..... You sound very reasonable and like you do a good job and have great customer service skills - it's a pity your good work gets ruined by a bully like him.

I booked a removal of a few items through this company from 10-12pm as I had to sleep before night shift. 12:20pm I had to ring and ask where they were. They arrived with the removalist guys (who were absolutely fantastic and did a great job!) telling me I was lucky I called cause I wasn't even booked in. Then the manager Adrian proceeded to have an extended argument with me when I questioned him on this and said I wouldn't be

paying the full fee. Don't go through this company you're better off ringing the removalists directly themselves.

Don't ever use this removal service!!, terrible unprofessional and rude!. My parents used them to move and had the worst experience. The movers were taking personal and work calls stopping and leisurely taking their time when they are getting paid by the hour. When questioned one of them responded with Im usually in the office. How unprofessional is that? You're not in the office now!! And your being paid to move. Also my farther was asked to move furniture when they are the ones providing the service and we are paying them. It took five and a half hours to move half a storage unit that was 20 minutes from the destination totalling \$900.00. We had emptied out the other half the day prior and it took us 2 1/2 hours. I thought I would give my parents a break and pay for a mover. This is disgusting how you treat two elderly pensioners shame on this business EDIT He was chatting with us while we were doing our job and we had a good laugh. ( if that was the case why was he lifting!!! I have two whitenesses as my farther was doing your workers job because they were standing around taking calls on our time??) Just to clarify there were 2 storage units we moved for your parents , 1st one was half full of boxes and other items. The second storage unit was full all the way to the back and to the top. We end up filling up our 45 cubic meter truck all the way to the back and to the top and manage to fit everything in. (And just to clarify no it was one storage unit) There was no damage to anything, everything was protected and delivered safely. Unfortunately one of the drivers was unwell therefore we had to replace him with one of the staff member who is fully trained removalist but works in the office now. He worked in the industry for last 10 years. We apologise that we had to attend work calls as this was explained to Alan at the start of the job. We understand it is not ideal to attend calls while moving but it was one of those situations where we could not ignore other customers. At no point we asked Alan to lift anything. Your mother got upset because work phone was ringing and we attended a call. We apologised and kept working further

ignoring any calls. Alex apologised the way your mum spoke to the staff and said she is stressed. We understand that people do get stressed while moving. (This was NEVER discussed with Alex. It is very unprofessional taking personal/work calls whilst working this is not the way operations should run. Administration should be separate from labour and this was on our time which we were paying for. If you want to manage bookings do not waste customers time and money. And the response was very unprofessional) We asked Alex if he was happy with the job and Alex even said at least I did not have to move these many boxes myself and thank you so much. (Our family was not happy with the job whatsoever hence the negative review. And yes my father moved items!) We arrived on time, did the job without any breakage, 5.5 Hours for 45 cubic meter loading and unloading with travel is reasonable as per Industry standards. If there is anything you would like to discuss please feel free to call us. (This is very unacceptable time management I have no idea what industry standards you are referring to as it should have never taken that long, as I have had removal services move the same amount in exactly half the time. Not happy with the service at all)

Latest move despite them booking for 11 they got here at 1 . Then on the unload they dropped the television my 3000 dollar LG smart TV and smashed .. first they stated it was my fault, then he decided he was going to try and replace it with some cheap one off market place . I advised that this was not the case and have not heard from him since despite multiple attempts to contact him. I have given him 7 days to reimburse or a court proceeding will begin. Still nothing. Very unprofessional!

Very unprofessional and rude. The spokesperson was mumbling the entire time and when I asked if he could repeat a word, he immediately hung up on me. Quite literally the worst customer service I've had from a company within 20 seconds.

## **Page: Platinum Removals Sunshine Coast - Muval**

When moving interstate or locally within the Sunshine Coast, most people prefer to work with a removalist that they can trust. It can be a stressful time after all. This kind of dependable service is what we provide at Platinum Removals Sunshine Coast. You'll quickly find trust to be a cornerstone of our work. We treat our clients and their furniture the way we would like it to be, if we were moving.

Our team bring 10 years' of experience to every removals job we handle. Our staff are employed by us, not contracted. We are locally owned and family managed. When moving with us, you can rely on support and advice before, during and after relocation. Building a friendly team that work together is a key aspect of why our Sunshine Coast removals business is so well regarded.

Thanks to the team at Platinum for making our move so easy (well easy for us). They arrived on time, were quick but professional and helped us get some very big and tricky items up a swivel staircase. Absolute legends ?? I'll definitely be recommending the team! Thanks

2nd time move with Platinum. Aiden and crew were fantastic. Very careful and considerate worked hard and made the move less stressful. Highly recommend

The boys (Jesse and Matt) arrived on time, they were clean, tidy and polite. Unfortunately, our TV suffered a fatality but Adam came and saw us and said he would replace it. Everything else was 100%, and Josh in the office was amazing. I think this gesture is extremely rare in this day and age, and we can only thank him for his honesty and standing by his commitment for replacement. Thank you Adam and Danielle. Chris and Ian French

We moved from Brisbane Southside to The Sunshine Coast, Tony & Ben our removalists were on time and courteous. They moved us without a hitch, nothing was too much trouble, I couldn't recommend them higher. Adam's communication was also spot on. Great company to use and will use them again.

I have regularly referred clients to Platinum Removals over the years but today I experienced their professionalism first hand. They helped relocate my old office equipment including 2 large oversized boardroom tables and an 85 inch flatscreen TV. Everything was handled with care, transported safely and they even managed to get the TV up 4 flights of stairs, nothing was too much trouble. The guys, turned up on time, gave me a call when they were 10 mins away and were really great to deal with. I will keep recommending them to everyone who needs a removalist.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Platinum Removals did a great job helping us move. They arrived on time and the team members were respectful and friendly. The moving process was extremely efficient and we were surprised how fast the team were able to get the job done for us. Great value, definitely worth the money. Service: Local moving

Thank you to Platinum Removals for making our recent move seamless (despite a hectic rainstorm on uplift day)! We were so impressed with the professionalism and communication displayed by the entire team, from our first contact for a quote through to the final box on down lift. They were punctual, respectful, and hard working. Very happy with the service and highly recommend them to anyone looking for removalists. Thank you again!

Adam (owner) and Nick moved us yesterday. In short they were great. Friendly, efficient careful and quick. Nothing has as a problem everything went smoothly which removed some of the stress of moving for us. We highly recommend Platinum and would use them again without hesitation.

From my first phone call onwards communication was great. The team are professional, friendly and took care of our belongings like they were their own. We had to move interstate and then place our belongings in storage for 2 months. Again we could not fault the team, constantly keeping in contact with us. We had a small breakage and Adam replaced this straight away. I highly recommend Platinum Removals for your next move - a reliable, friendly and very professional company. Thanks guys Wayne and Jenny

THANK YOU ADAM & TEAM! WELL DONE! When we had our previous home furnishings etc. moved for storage, we were very impressed in the manner with which your 2 men went about their task both professionally and quietly, loading our belongings with a friendly and understanding purpose. When your team arrived at our new home, they were friendly and cheerful about helping us achieve a settling in period as quickly as possible. The 2 of them worked tirelessly most of the day to stay ahead of the rain, which didn't come. Thank goodness. The professional manner and understanding of the furniture placement was greatly appreciated. WELL DONE to you gentlemen as well. WE CAN'T RECOMMEND YOUR COMPANY HIGHLY ENOUGH> Keep up the great work and all the best of success for the future. GREG & LYN

Great experience with Platinum removals Sunshine Coast. Great quality of work and very professional. Best moving experience I have had. Many thanks to Matt, Jai and Mitch for the great work.

Platinum Removalists are beyond excellent! They couldn't do enough to help me from planning to packing,

removal, then coming back to pick up boxes. The 3 removal guys were wonderful. It was a very stressful time for me and my partner with Parkinson's but the staff's help and support was invaluable. Could not recommend this company highly enough. Congratulations PLATINUM Removals...WONDERFUL COMPANY.

Excellent service from the start. All staff were respectful and efficient with our move. They are a pleasure to deal with and I would highly recommend!

Made the moving experience a lot less stressful, most efficient we've seen. Thanks for the excellent job.

Absolutely sensational company !!!!! From my first phone call - communication from start to finish totally professional.. had the pleasure of meeting a large number of the team as we had their packing team come in and pack up our home & shed belongings as well! The moving team were efficient, polite, caring and showed wonderful consideration for ourselves and our belongings nothing was a problem.. On arrival at the new place they placed all items in correct areas and put together beds, plugged in fridges, set up mats and lounges (which are wrapped in plastic then unwrapped).. one of the best companies Ive used will definitely be using them again if needed.. thank you Adam and team for taking the stress out of moving for our family !!!!!

Wonderful company to deal with! Adam and his staff were pleasant and made my interstate removal so easy

and without any fuss! Very reasonably priced. I highly recommend Platinum Removals to anyone considering moving! They were just great!! Judy

The boys from Platinum came highly recommend and rightly so. From start to finish they worked tirelessly to complete our move. Definitely a value for money professional service. Thank you guys.

Adam and his team were an absolute pleasure to deal with. They provided us with great service and assisted us in moving into a difficult 2 story house on a belting hot day. Their pre-pack option was great as we were short on time. Adam, Troy and Max - thank you for your expertise and care. A job well done!

Extremely professional and helpful Brilliant service from Andre, Rhyse and Mitch. Very polite, personable and could not have done a better job Could not have asked for any better service If you need a removalist this is the company to use

Tony, Reece & Scotty moved us into our new place last week. They were a professional, friendly team & I was really impressed at how fast they did the job! All items arrived safe and sound. I liked that Jeremy provided a competitive hourly rate with an upper limit (fixed quote). This gave me peace of mind that we would be charged a fair fee before we moved. In my experience, Platinum Removals are great value for money & will get the job done with good care for your belongings. Highly recommended.

The 2 removalists that we had for our move today were amazing! They squeezed us in when we needed them to. Would recommend to anyone.

Thanks guys you made our move so much easier, drama free. Highly recommended this service, had big local move which took them 10hrs, 2 trips but they got on with the job, always bright and reactive. No breakages,

accidents or losses.

A big thank you to Platinum Removals Adam, Josh and to Jessie and Andre who did the move so smoothly and were particular with everything and quickly from Maleny to our new apartment in Albion. Would highly recommend this team. Tony and Heather Snel

Great service. Wrapped sofas and mattresses no extra charge. Very good hourly rates. Good communication. 6 stars.

Rhys and Nick, were awesome. Very professional, fast and careful. They worked really well as a team. Thanks guys.

Highly recommend Platinum Removals, Ive moved house a lot of times and these guys were probably the best removalists Ive used. The guys were on time, courteous and completed the job efficiently.

We hired Platinum recently to assist with an office move. They were highly efficient and professional and just got on and got the job done. Not only did they move the heavy items but also helped with packing. Would highly recommend.

Fantastic company, we were 100% happy with the service. The guys were great and fast!! I'd definitely use Platinum again. Thank you!!

We had the best experience with these guys, from the first phone call, the quoting process, through to final delivery. They picked up our crazy amount of gear, stored it for 2 weeks then delivered it to our new address up on the 5th floor. Each and every one of these guys were professional, polite and so accommodating!

They've seen it all before and done it all before. Nothing was too much trouble, Great experience. We can not recommend them highly enough! Thanks Adam, Josh and all your fabulous team ??

Prompt: helpful:

So glad we chose platinum when we needed to move house 2 days before Christmas. Turned up at the scheduled time as promised Professional service and guys didn't stop the whole time. Protected all furniture before handling and were a delight to deal with I highly recommend Platinum Removals, you won't be disappointed

I highly recommend Platinum Removals! Their staff are fast, efficient, friendly and professional. Right from the first call and quote, to the young men that show up on time and work together like a Swiss watch. I have nothing but praise for this company! Well Done Everyone!

Outstanding service at a great price. Adam and his team moved a piano from Sydney to the Sunshine Coast and it arrived quickly and at a reasonable price. Couldn't be happier. I will used them again in the future - highly recommend.

We have had quite a few moves in the past decades and Platinum removalists had been the best experience so far.! The ease of communication, professionalism and flexibility is second to none. The safety of our furniture and the post move-responsibility had been amazing. Thank you for that wonderful service - we really appreciate it.

Please feel Proud of Tony and Leith who have picked up and delivered furniture for us today. We have used many Removalists over many years and they are up there with the best. Ably led by Tony they were very professional, respectful, organised, friendly, strong and worked well together. Just excellent!! Please give them a big pat on the back ???? They also looked after their backs and were safety conscious. Good to see.

Platinum Removals were outstanding and they made our move seem less. The entire team from initial consultation, uplift and delivery were amazing. The diligence and care that the team took with ensuring our furniture and other belongings was packed, protected and moved with the utmost care and respect. Polite, professional and extremely helpful. They are by far the best removals we have used and we have had 16 moves. We would highly recommend them to friends and family. Thank you for what is normally a stressful experience, you made it effortless. Thank you.

Positive: Professionalism , Punctuality , Responsiveness , Value It was excellent dealing with Platinum, the service was nice and smooth from end to end. I got my heavy size water feature delivered from QLD to Sydney. The driver Tony, was very friendly and assisted me in getting the water feature to the right location. I have no hesitation in recommending Platinum. Services: Vehicle transport , Oversized-item moving

Would be happy to refer them to anyone and everyone needing a helping hand or a service like this! Efficient and quick, no muck around or back and forth with communication. Took them less time than I thought they would. Stuff arrived to new place in good condition. I don't think they judged our mess either which is something I was worried about!

Absolutely fantastic guys who moved us from Kuluin to Buderim x 2 loads. You guys are bloody awesome.

Highly recommend them

By far and away the most professional removal company I have ever dealt with. Prompt, courteous and well trained . All the staff were a credit to the business. They made a difficult job ( 2 storey house ) look easy . Don't look anywhere else if you're moving , Platinum are the best .

We hired Platinum removals recently and we're extremely happy with their level of service, especially after the move, when we had an issue that was efficiently rectified by their team. Will definitely use them again for our next move. We can highly recommend them as a reliable and trustworthy service.

The two guys, (Aidan and Andre)were absolutely awesome, and assisted in our recent move, beyond my expectations. Their efficiency, speed and skill was incredible. All our furniture and possessions were safely transported and installed in our new home. They took the stress and heavy lifting away from us. I cannot recommend them more highly. Thanks guys!

We have recently moved from Brisbane to Mooloolaba and I can say that this company is five stars. Their staff and professionalism was a great relief to us through this time. Highly recommend this team for your next move.

From the initial phone call to Platinum Removals Sunshine Coast, these guys were extremely organised, efficient, professional and most importantly competitively priced. Platinum Removals Sunshine Coast picked up my belongings from two different locations in Sydney and delivered them to the Sunshine Coast overnight. Nothing broken, nothing missing - just all my belongings safely delivered. To Adam and the team I really appreciate all your help. I will definitely be recommending you to the millions of southerners all trying to move north. Services: Vehicle transport , Moving-related packing , Oversized-item moving , In-state moving

One stop shopping for removalists...the guys got stuck into their work and i'm completely satisfied with my move.

Thanks to these guys sorted all my requirements over the phone and email Really competitive prices and turned up exactly when they said the two young fellas that done the job were quick and couldn't find nicer and hard working guys

Adam and his team at Platinum Removals were brilliant -- they were efficient, calm, worked very hard and made our house move very easy indeed -- and nothing was broken! Excellent value for money, and highly recommended.

????????A M A Z E B A L L S???????? The boys were incredible today. Arrived on time, professional, polite & accommodating, nothing was too much trouble. They both worked tirelessly throughout the day. Lugging each piece of furniture & copious boxes up 43 steps, certainly was challenging. They completed this task with gusto, ensuring my furniture & the walls weren't damaged in the process. My only regret was I didn't use them on my initial move into storage. If I did I'm 100% sure my furniture wouldn't have been damaged as it was by the removalists I did use. Job well done boys. Enjoy those beers ?? ?? Bloody Brilliant Company.

We had such a fabulous experience with Adam and the team. Amazing communication throughout. Professional, reliable and trustworthy. Highly recommend.

I can't thank you guys enough for the awesome efforts you put in on Monday!! Pickups from 3 locations, after a long interstate job the day before, and not finishing until 7pm, you were tireless in your efforts! But the absolute standout for me was how Max and Leith went well beyond what was required, installing and

uninstalling appliances, and happily moving whatever I needed from A to B and sometimes back again! They turned what was a very stressful day into a day that was actually kind of fun, we really enjoyed having you guys do our move, and your care and attention of all our gear (especially my beloved fridge!) was hugely appreciated! Awesome job guys!!!!

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Thanks very much !! Went the extra mile, Helpful & positive. Cheers Adam & Josh Happy wife happy life ;) Service: Local moving

Outstanding service. Cannot recommend highly enough.

great removalist..

Tim and Aidan did a fabulous job moving us over 2 days. Arrived on time, courteous, polite they loaded up efficiently and then dropped everything off without issue in our new house the next day. I would definitely recommend these guys.

We would highly recommend Platinum Removals they were great to deal with. We were very impressed with the care taken handling our items as well as the efficiency of the whole process.

David and Aidan were fantastic and very professional. I've moved 4 times in the last 10 years, and these guys were the best we've had

Completely professional service. Moving day was seamless and they took great care with our furniture and items. Thanks Platinum removals.

Adam and the team were brilliant! They were professional and helpful from the first point of communication though to the completion of our move. The team's enthusiastic, friendly and go above and beyond in regards to the care and help they provide. Fast and efficient. Value for money. Wouldn't recommend or use anyone else! Thanks guys!!!! Let them remove the stress from your move :)

Adam, Tony and Jake were extremely helpful, friendly and professional. They arrived on time and were very obliging. Not only did they have to contend with our steep driveway, but heavy rain and taking things to a rental place and the rest to storage, but they went back to our old place to pick up a whole lot of plants and a bbq. Totally above and beyond what was expected and they never once complained. We are so very happy with the service and would absolutely use Platinum again. I would highly recommend them as they made moving a lot less stressful. Thank you so very much we really appreciate all the hard work you all did. Kylee  
Services: Local moving , Moving-related packing , Moving-related storage

These guys are simply the best! We recently used Platinum Removals to move us up to the Sunshine Coast and they were INCREDIBLE. We could not have been happier. We had a quick settlement on our house and needed a removalist as soon as possible. I had called other companies and it was quite a painful experience. Then I found Platinum - they were easy, super friendly and delivered on their promise of outstanding service. On the day they arrived on time, the truck looked great and was so meticulously packed with everything you could ever need from a removalist. The guys were professional, quick and made sure everything fitted perfectly. It was a stress free enjoyable experience! Five Stars!!!! Highly recommend.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value These guys are highly recommended, used them twice already and will again. Very professional, friendly and courteous. Priced well with brilliant service. Service: Interstate moving

Big thanks to everyone at Platinum Removals. Tony and Jesse displayed great professionalism and work ethic while handling our relocation. All items from our inventory list were able to be moved as quoted, even the oversized/excessively heavy ones. The trip to the unload destination was hampered by Brisbane traffic and despite the night-time arrival, the guys got stuck back into it and continued with their fantastic service. There was even a cameo appearance from Aidan, helping to get the job completed as quickly as possible. Reliable, professional, peace of mind service and the price was as per quotation. Would highly recommend. Thanks guys!

Having moved 5 times in the past 10 years, we've seen what good and average removal companies look like. Aiden and I think it was Andre, provided 5 star service all the way with our move in Buderim today. Very polite, nothing was too hard, and asking on several occasions what they could do to make things easier for us. Absolute pleasure and based on this experience would have no hesitation recommending Platinum Removals.

I served in the military for a fair while and I believe my expectations on communication are too high but these guys met those expectations which positively surprised me. They never complained even though it was our first move and Im sure we didn't pre-pack the best. They were friendly, careful and a pleasure to work with and I will now recommend them to anyone I think needs their help. Bravo lads.

Moved recently from Maroochydore to Brisbane. After getting 3 quotes I decided to go with Platinum and have no regrets. First of all if you don't manage to get the guys by phone you will always get a call back. On the day of the move the guys showed up on time. They were very friendly and very patient and polite. on a 34 degree day ! It ended up being a 12 hour move ! The guys are very careful with all your belongings and even wrap some of the more expensive furniture in cling wrap ! Top notch service, highly recommend Adam and his team.

Amazing service. Great, polite, professional crew!!

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Very professional and respectful service. Well done Adam and the team. Will definitely recommend this service. Service: Local moving

Adam and his team were awesome. I used them several times for various jobs between Sunshine Coast and Sydney. They tolerated my multiple inventory changes, they picked up and delivered when they said they would, and everything arrived safe and sound. All that for a great price. Highly recommend.

What a brilliant team at Platinum Removals! Time was confirmed the night before and as promised, was given a 30mins window of arrival time. I was so impressed of the care and attention to detail that was taken to make the move happen. You guys took the stress out of moving and so glad you helped.

These guys loaded and unloaded our home furnishings quickly and safely. Happy to recommend them Tony and Jesse were great.

Fantastic move service. You guys are doing the greatest job. I can't imagine you could finish the move so efficient at a so reasonable price. Everything is wonderful and highly recommended.

We had Matthew and Mitch for our move yesterday and they were fantastic. Very professional, friendly and extremely fast. This is the second time we've used platinum removals and both times have been very positive.

Jesse, Josh and Nuno, from Platinum were a pleasure to work with. A great job fellas, at a reasonable price. If

we need a removalist we will use them again.

We used Platinum Removals for our move last month. We were originally meant to move in April but the handover date for our new home changed 3 times. Adam was great every time I called to explain and changed our date for the move with ease. Due to the pandemic I lost my job in Qld and had to take a job in WA which meant I was going to be away for the move which left my wife, 6 month old girl and two year old girl to move by themselves. Adam's team of workers were great and very professional and my wife said they really made the move so much easier. If you're looking to move home or know anyone who is then we highly recommend Platinum Removals. Thanks heaps ????

Best removalist I have ever used. Would highly recommend.

The team at Platinum Removals Sunshine Coast were fantastic to deal with from start to finish and absolutely deserve their consistent 5-star ratings. They were very obliging too as we had two households to move to two separate locations using one huge truck. Thanks Adam and Danielle. The two men who accomplished this hefty task were outstanding and looked after all our respective belongings from pick-up at Parrearra, to drop-offs at Tewantin and Pomona. Thanks Tony and Mitch - great job! Excellent value for money too and the best removalists we've ever used.

Would highly recommend Platinum Removals, communication was great they were on time, very professional and reasonably priced.

Platinum removals moved us from country NSW to the Sunshine Coast. Could not fault Tony and the boys, they did an excellent job. Would definitely recommend Platinum Removals.

Affordable, quick turnaround, careful with belongings.

Platinum movers provided exceptional customer service for our interstate move from start to end. They moved with pace and delivered a day ahead of schedule too which was a major plus for us! Tony was personable and all-around great, he called me in advance and updated me enroute for earlier delivery time. He moved our belongings with care following labels of what goes where. He was also kind to help me assemble my bed for the night amongst all the boxes! Highly recommended 5+stars for excellence.

We recently engaged Platinum Removals to move our family of 6 and I was extremely impressed. Punctual, well presented, polite and friendly. The truck was polished and clean inside and out. The crew worked extremely hard and took exceptional care of our belongings. If you are moving, Platinum Removals are definitely the way to go! They will be getting our business again for sure! Service: In-state moving

Josh and the team were awesome. Scott and Andre were friendly and fast and it was very simple. Thanks for helping us out at late notice. Highly recommend..

Adam is an excellent communicator. Pricing was fair & the service was top quality. The whole process has been simple & easy... Nothing was a problem & moving just one large item from VIC to Sunshine Coast was seamless. Highly recommend Adam & his team. Thank you so much guys :)

If you need a removalist on the Sunshine Coast, I highly recommend these guys. From initial enquiry with Adam, through to final box placed, nothing was a drama. Jesse & Andre who did my move were fantastic, professional, punctual & efficient. If you want the job done right, just call these guys, Im glad I did.

Thanks to Adam and the team for making my move so easy. I really appreciated the excellent communication provided by Platinum. Highly recommended.

Dane and Tom were very professional and humble with the move. Very communicative and were very respectful with if I was happy with something or not, all it in doing in a productive manner. I honestly would recommend this company to anyone as it was a great experience.

Great work Oliver and Dara! Very efficient, polite and helpful! 100% recommend.

We moved a whole College over 5 days Was a big big job and Movers choice were with us all the way. The service was incredible The guys doing the Moving amazing ! So smooth and efficient

Fabulous movers and we have moved a lot. I would say that these guys are the best we have ever used. Oliver and Lewis were fabulous, on time, quick, professional and checked with us if they had any questions. We would highly reccomend them and will be using them for out next move and reccomending them to all our friends.

Tom and Seb did an excellent job with our move - they turned up on time, were super communicative during

the process, and most importantly packed and unpacked everything very efficiently but carefully. We would definitely use them again for any future moves. Thanks again guys!

Could not recommend these movers enough. They were on time, communicative, polite, and extremely good at their jobs. Ask for Tom & Harry.

Experience was great from start to finish, quick response to enquiry, clearly explained charging structure, lots of consultation on what I needed and the access to both properties, stayed in contact between booking and moving day to make sure I didn't have any issues and accommodated a date change. Jonny and Seb were very polite and professional, worked quickly and respected my belongings, made the day much less stressful. Thanks guys!

I would like to sincerely thank Tom and Jamie from Movers Choice for assisting us with our move today. They were both incredibly helpful and kept me updated with their plans and options throughout the move. They took extremely good care of my furniture and went above and beyond in terms of wanting to be of assistance in terms of setting up the new house. Jamie even connected my washing machine, which I did not expect, but thoroughly appreciated. I would definitely recommend Jamie and Tom for your move, they won't let you down. Thank you once again to you both.

Really pleased with the service that Movers Choice & Co provided for my recent move. I had Daragh & Oliver, and both were very friendly and professional movers. Will definitely use these guys again for my next move!

From the initial request to book to moving day, Movers Choice & Co were exceptional! Damien looked after my booking and Oliver and Ollie were our removalists on the day. Damien was very easy to communicate

with and made sure the whole booking process was flawless. Oliver and Ollie were friendly and prompt and also patient. Thank you!

We recently hired Movers Choice & Co to move some furniture into our apartment. We had Tom & Jamie assist with our move on the day, and we found them both to be very friendly and careful with our belongings. The overall communication in the lead up to the move was also fantastic, with the team replying to messages promptly and professionally. Will be recommending these guys!

I couldn't recommend Movers Choice highly enough. I first used them a couple of years back, and combed back through my bank statements to find the booking so I could book them again for a recent move. The company are super professional and easy to work with. They are reliable, have fantastic communication, and were flexible with my moving arrangements leading up to the day. Lewis and Paddy were my movers, and their work was on point. Both were polite and professional, efficiently going about their work. They were perfectly on time, helpful every step of the way, and just genuinely lovely people to be around. I am very particular with my things, and I felt complete confidence that they would handle my items like their own. If I could give more than 5 stars I would. Movers Choice are absolute legends.

Tom and Zane have helped me move. They are friendly and professional.

Movers Choice & Co were amazing the whole process. They were flexible and accommodating with my moving date and time, constantly communicative and helpful. On the day the movers came right on schedule and were fantastic. Would recommend Movers Choice & Co to anybody!

Such a great experience moving out of our old 2 story apartment block with very challenging access. Had found the move in with another company absolutely harrowing (late, complained vociferously the whole time,

came in 3x the quoted amount). So spent longer looking around for a better service. Will never use any other movers now - these guys are the way to go. Movers choice were completely unfazed by the access issues and planned ahead. As a result, we finished ahead of schedule and under the anticipated quote. All the while the guys were lovely, very careful with our stuff, and made an effort to get all the right boxes into the right rooms at the new destination. It was a completely different experience to not feel stressed on moving day - actually cannot fathom how good it was. Would give them more than 5 stars if I could!

We have now used Movers Choice twice in a year (don't ask!). The most recent was last weekend we had Lewis & Thomas to move our belongings. They were punctual, communicative, and just nice guys who not only do their jobs extremely well but enjoy what they do. Our stuff was 'tetrised' (and I am not kidding) into two trucks and taken into storage for us. All was arranged by Movers Choice at very short notice and they have been so supportive and helpful. I would definitely recommend Lewis & Thomas and Movers Choice.

Johnny + Oliver were a fantastic team. Fast, efficient, polite and kept our items safe. Great value, great communication and very trustworthy. Thanks again!

I had a great experience with MoversChoice. There were highly professional, personable, efficient, and good value. I will recommend them to my friends, family and any person looking to move.

Tom and Jamie were absolutely brilliant helping us move out of our house. Very professional, organised and quick! Thanks guys!

From the first contact to the end of the move, the process was the smoothest Ive ever experienced. Damien organising each detail, sending out a bigger truck on the day, arranging tv moving boxes at short notice. Tom and Johnny really went the extra mile to make sure our move was done as quick as possible and in 1 trip.

Couldn't have asked for friendlier and more professional movers. They worked with us to make sure some especially heavier items would be able to be loaded and unloaded. Highly recommend movers choice and Tom and Johnny, will definitely be using them when the next move comes!

Choosing to move with Movers Choice & Co was the honestly the best part about our otherwise stressful move. The communication prior to the move couldn't have been easier - Damien and the team were extremely responsive and helpful. On the day of the move my husband and I were both so impressed by the two gentlemen - Oliver and Im sorry we couldn't catch the other gentleman's name - they were both extremely professional, friendly and efficient. If we ever have to move again we know who to ask and we'd recommend them to anybody with confidence. We would give more than 5 stars if we could. Thanks again team!!

Movers Choice is an excellent choice for moving home. The guys were professional, friendly and very helpful. They arrived on time and worked like Trojans, moving everything efficiently. Couldn't have had a better team to move with!

This was the smoothest, quickest move ever! Communication was fantastic throughout the process, checking in to see if I had any queries or concerns as well as keeping me updated on the day of the move about when they'd be arriving. My movers were Lewis and Ollie and they were super friendly and helpful. They took great care of my furniture and got everything moved into my new place so quickly and efficiently. Thanks again for doing such a great job! 100% recommend and will definitely be using Movers Choice & Co for my next move.

Fantastic experience end to end, team were proactive and responsive throughout, Jamie and Johnny were a dream team on the day. Absolutely recommend for your move :)

This company was recommended to me by my local Mums group. Every step of the process was easy from the

phone call to moving day. The movers were lovely, helpful, careful and fast. They are also great value. Highly recommended! Thanks!

If I could give 10 stars, I would! ?? ?? They are very responsive, supportive and caring. Our furnitures are huge and heavy (I feel guilty! ??) but Tom, Lewis and Harry, they make the move so amazing smoothly. Excellent work and service. Thank you so much, very much appreciated!!! ??

I would like to thank Johnny & Harry for helping us to move into our new house over the weekend. You were both very professional and were very careful with our belongings. It was a tough job moving furniture up multiple levels of stairs in 35 degree heat with no air con but you just got on with it. You even helped us assemble our sofas/bed and re-connect our washing machine which was greatly appreciated. The communication from the Movers Choice team in the lead up to our move was also fantastic. We will definitely be recommending you to our family and friends in the future :)

Johnny and Harry were great, very efficient, taking great care of our belongings. Communication prior to the job was fantastic as well, highly recommend

Lious and Thomas were great. They made our move so stress-free and were gentle when loading and unloading stuff. The team throughout were so responsive. I am very happy I used their service. Definitely recommend anyone who wants to move stress-free. Thankyou.

Tom and Harry were delightful gents who were very quick and professional. Definitely couldn't go wrong with them!

Johnny and Peter were absolutely lovely and did a good job with the move. They were friendly and efficient.

This was my second time using this company to move and they did not disappoint. Cheers guys!

Really good recommend these guys

Can't remember higher! Easy to communicate, nothing was too much trouble. Really appreciate the help with the move!! Highly recommend - thanks again

I had a small fiddly moving job involving stairs and two drop-off points. Movers Choice charge an hourly rate, which suited my needs. The team from Movers Choice were so responsive to my inquiry and the guys that showed up in the day were just lovely, highly efficient and careful with my items. Highly recommend their services.

Paddy and Oliver were extremely professional and efficient. All my furniture was treated with the utmost respect and care. I will definitely use them in the future and highly recommend them to others!

Absolutely thrilled with these guys. Very professional and took so much care.

Very efficient and polite nothing was an issue

Oliver and Sam were amazing! Great communication, professional and super efficient! We will definitely be reaching out to Movers Choice and Co again for future moving needs!

Tom, Seb and George were friendly and very fast movers. They moved my 2-bedroom house contents into storage within 2 hours. They also brought warmth, laughter and fun with them, every step of the way. It made for a happy moving experience!

Friendly, professional, careful and fast workers!

If you are wondering why this service has so many 5 stars, that's cause they are worth the money you spend. I have never had such a smooth move before. The team was very responsive, communicated frequently and amazing on the day. The stress of moving is almost gone with them. If you are looking for a great moving service, look no further.

I am so glad I chose these guys to move house. They came on time, loaded it up quickly and without mishap, all good at the other end as well. Tom and Sebastian, in particular, were a pleasure to have helping me with this. I'm very happy to recommend them.

Best moving experience we have had in Melbourne! We used both the Eco-Stax boxes and the moving service. The team had brilliant communication, were prompt on the day, worked super fast and diligently and were friendly and flexible. Would 100% book again and recommend to anyone.

Wouldn't use anyone else, they helped us move some super expensive camera equipment and they were flawless.

Excellent communication and service. The boys were friendly, energetic and very hard working. They took so much stress out the whole moving process. I would certainly highly recommend Movers Choice.

Oliver (and Irish partner sorry I forgot his name), they did an amazing job! They were quick and efficient and took care of all our stuff. No dramas or hassles. Would definitely use again, thank you guys.

Movers Choice & Co were fantastic. We had a tight deadline for a move and they got us in at the perfect time, for a great price and helped us sort out some ecostax boxes - which made packing way easier. Lucas was very helpful with getting us booked in and sorting out ecostax boxes. Tom and Sam were great with the move. Friendly and hard working, they got us moved in no time. Great guys and by far the best movers Ive used and would definitely move with them again.

We are so happy with our move, the guys were lovely, they were on time, quick, careful and everything was communicated really well. We hired the ecostax boxes, it was great as we didn't need to mess around with packing tape, cardboard boxes etc. Couldn't recommend this company more highly, we really had a seamless experience. Thanks so much!

Damien, thanks for going above and beyond to make sure your customers are satisfied! We appreciate it :)

Throughout our many moves, we've had plenty of encounters with moving companies, but the Movers Choice team stands out as one of the best. We recently hired Movers Choice for our move and were impressed with their services from start to finish. Firstly, they provided us with a quick and reasonable quote once we agreed on the date and time. Lucas, our point of contact, was very helpful and followed up with us frequently to ensure that we were on track with our packing. On the day of our move, Tom and Sam arrived right on time and were professional, friendly, and easy to work with. Despite having to park the truck a considerable distance away, and haul everything through multiple doors, Tom and Sam did an incredible job. They went above and beyond to ensure that everything was done correctly, even lifting our heavy dryer multiple times to

ensure it was placed correctly. Overall, we highly recommend Lucas, Tom, Sam, and the entire Movers Choice team to anyone who is in need of a reliable and efficient moving company.

Shoutout to Lucas and Damien initially; Oliver and Adz on the day itself. Highly highly recommend Clear communication from first booking, to clarification around what needed to be moved (including advice on how to correctly pack fragile items), to very graciously shifting the original booking back 24 hours at late notice, to clear text messages around arrival time. Oliver and Adz were punctual, polite, careful and bloody fast. Moving sucks but these fellas completely removed the worry and stress.

Johnny and Jack were good guys and they did a good job.

Guys did an amazing job, nothing was too much trouble, arrived on time and were super quick.

Professional, great customer service, on time, and an accurate quote. Would recommend and use this company again.

We just did a difficult move with these guys including dealing with lifts and 3 flights of stairs at one end and I can honestly say the guys were brilliant! Thomas, Lucas and Callum were professional, friendly, efficient and very capable. Highly recommend and would definitely use them again.

Best movers I've ever used. Not the cheapest in town, but you get what you pay for. Was very happy with how moving day went! Definitely recommend, particularly for larger complicated moves.

One of the easiest moves Ive ever had. The team were super professional, kind and got the job done well within their estimated time. Easy experience from booking to execution. ??

Movers Choice and Co are absolutely brilliant. I originally reached out to them just to hire their Exostax crates however Damien was superb in talking me through their offerings for home relocation. I went with both the crates and getting them to move me. Oliver and Sam provided exceptional service on move day from start to finish. All of my belongings were treated with care and moved quickly and efficiently. The level of customer service went above and beyond all of my expectations. They excel in communications, on the job performance and post service check in. So many of our large organisations could learn from this company in how to deliver the optimal customer experience. If I ever need to move again I will only ever use these guys and highly recommend others use them too if you are after fair prices, exceptional service and the ultimate customer experience. Having used many companies in their industry for local and interstate moves, nothing comes close to this one!

I cannot thank Movers Choice & Co enough. On the phone I've spoken to both Damien & Lucas. They were extremely patient & helpful with all the questions I needed to ask, concerning moving my mum to her new home. I sincerely thank them. Both Oliver & Seb helped with the move. What can I say???? I CANNOT thank them enough. All that lifting, manoeuvring, placing the furniture inside the truck, then unloading again. All of this whilst it was raining!! My heart went out to them. In any event, I highly recommend this company. Hats off to them for a great job done!! Thank you boys from the bottom of my heart. You're the best!!!!!!!

Great job and professional service. Takes the stress out of moving. Thanks again Lewis and Az and the team. Highly recommended.

We chose this company for a long distance high volume move from Mornington Peninsula to Bendigo and found Movers Choice and Co to be excellent in their communication, reasonable rates and very ethical practice. Oliver and Lewis were an absolute pleasure and cooperated with all our requests. They worked very

hard to make the move run smoothly. Would highly recommend Movers Choice and Co!

Johnny and Jaime were very efficient and careful at the same time! They also ensured that they got everything and their communication with us was friendly and effective. Thanks for keeping our stuff secure and making the experience stress free!

Pleasant and professional removalists. Definitely recommend.

The guys at movers choice made my move seamless, from the initial contact and quote, to moving day. Great communication during the whole process.

Brilliant service by Seb and Tom. Could fault them both. Highly recommend and would definitely use again

A big thankyou for all the work that the whole Movers Choice did for us on Friday - it was great to have things all sorted so efficiently, thanks gents! It was a big couple of days of packing and unpacking but the crates and the team made it super easy throughout with all the great communication and service, thankyou!

Oliver and Lewis were amazing.. Communicated extremely well, were fast and efficient and quite honestly, Im not sure how they fitted everything into the truck.. ?? We would highly recommend them and their

business to all our friends.

I just had my 3rd successful move with these guys and they're always and ONLY the best!

Sebastian.... dear Sebastian and oh Tom.... 2 great guys that helped me with a move into storage 1st unit not large enough Supportive and professional, the speed bump was dealt with no fuss at all. I took them on recommendation and honestly so appreciative.

Thank you Johnny and Jack! Could not recommend Movers Choice & Co enough if you are looking for professional, friendly and efficient removalists. They made the moving process so much easier and took care of our belongings perfectly. Would definitely book again for our next move. Thanks again team!

I cannot recommend these guys highly enough, professional, friendly, efficient and amazing value. They made my moving experience easy and seamless and were so lovely to deal with.

These guys went above and beyond when the move didn't go as expected. They were very responsive and professional from the beginning and moved my things with great care and concern. Thank you !!!

The Movers Choice Team - from Damien who dealt with my initial inquiry, through to Tom and Aidan who handled the move - were fabulous. Professional, efficient, careful, and good value. From my initial inquiry, they communicated efficiently, and in a gorgeous friendly manner. On the day, Tom kept me apprised of his ETA. And he and Aidan coped with patience and care, including kindness to all the staff at the op-shop destination. We'll be using them again. Tomorrow, in fact!

Tom and Harry were amazing!!! They got in and got it done, were patient and helped put everything where I

wanted. Would definitely use again or recommend to others!

Movers Choice & Co deserve their 5 star rating - easy, friendly, no fuss service - made our moving day so much smoother! Shout out to Oliver and Paddy for all their help ?? Would highly recommend!

Tom and Jamie were absolute stars! Very professional, organised, speedy and super helpful! I would 100% recommend them! They made moving so much easier!

I have booked Movers Choice for the 4th time with good reason. They consistently demonstrate excellent service and the teams are all very friendly, thorough and reliable. In this recent move, Johnny and Oliver were very professional and efficient. Thank you once again for a smooth move! I highly recommend this company to others. Thanks guys!

Johnny and Seb did an excellent job. Nothing was any trouble. They were prompt on time, efficient and took care with all the items. They were very friendly The best removalists I have had so far, I would use this company again Cheryl

Easiest move! Thank you

Mover's Choice were amazing. Oliver and Harry made everything simple and easy, even when a couple of spanners got thrown into the works. They were friendly, courteous, and efficient, and did everything they could to help me get my move completed. Communication with Movers Choice was a breeze, having everything managed via text and knowing that everything is logged and tracked was a load off my mind. Ill

definitely be using them again.

Will highly recommend these guys to all my friends. Made my move completely stress free. Thomas and Samuel were super lovely and efficient. Thanks so much again!!

Ive used Movers Choice for two moves now and found them to be great. Lewis and Oliver arrived on time and were friendly, professional and efficient.

I recently used Movers Choice & Co for a BIG MOVE - both in volume and geography as I was moving from metropolitan to regional Vic. The guys were super impressive from start to finish: Lucas and Damien were patient and accommodating in describing the services offered and provided a very fair cost which was then adhered to. The move took place across several days. Through it all, the staff (Oliver, Lewis, Tom, Jamie) followed through with timely and careful service. They were absolutely joyful to work with. I have moved across countries and states, and used many movers in my time. Movers Choice & Co has set new standards in this industry. I highly recommend them.

Damien and Oliver were sensational from start to finish with our move. I have moved many times in my life and this was by far the best one!

Great experience with Oliver and Sam, very efficient and really appreciate the willingness to help with stacking the washer and dryer, thanks again guys

Truely exceptional service. I had a 2 day pack and move and it was 100% worth every penny. The guys were

super knowledgeable, efficient and friendly. I felt really comfortable just letting them work, not needing to check in or guide very much at all. There was some complexity to my move: apartment lift bookings and loading docs, about 100 plants, art work, and added stop to pick up a Facebook marketplace item. They handled all of it wonderfully. There was one small breakage which they showed me straight away, didn't try to hide it and hope I didn't notice which other movers have done to me in the past. Because it was a cheap item they discounted the cost of the move on the day rather than making me go through a claim process. The ecostax crates are awesome, very much worth the cost imo. Unpacking them has been so easy. Really could not recommend these guys enough.

I've had experience with many moving companies but they were a best movers I've had. From the first contact, they replied so quickly and I got a lot of information. Also, one day before my moving day, they contacted and asked me if I had any concerns. On the moving day, they arrived on time, they did their work so quick and efficiently and didn't waste any time. They were very careful with everything and made sure that everything ended up in the right place in the new home. They were extremely hard workers and so friendly. Next time I move, I will be glad to hire them. (Tom, Seb and George) Thank you. 10/10 people and workers.

Really nice blokes and a terrific service. Highly recommend!

The team could not have been more professional from start to finish. Damien in the office was great, and made everything easy. On the day, Johnny and Lucas were so friendly, efficient and happy to accommodate any request. The use of the Ecostax crates made packing so much easier too. Highly recommend.

David & Tom were bloody brilliant!!!! From the quoting phase right through to the refund phase(!) everyone was a delight to work with - good, responsive, communication; punctual; efficient; EXTREMELY helpful; & great banter to boot, which made moving (something I loathe) much more enjoyable. I loved their service so

much, Im about to book them again!! To explain the refund - I accidentally got charged too much as a particular discount wasn't applied but didn't bother to chase it up because who's got the time when you're moving. David wasn't going to let it slide though & HE chased ME down to reimburse me!! How many businesses can you say are that reputable & honest!?!

5-Star service from beginning to end. Absolutely recommend Keffords Removals Mt Isa to my friends & colleagues and will definitely use their services in the future. A big thank you to The A-Team: Mark, Tiff, Rick, Mick, and Josh at Mt Isa - awesome job guys!!

Best removal service in mt isa. Move my stuff from mt isa to briabane in 5 days. Australia post take more time to deliver mails. Thanks guys

We recently had Keffords move our house full of furniture and belongings from Brisbane to Mt Isa. We have never had to organise a big move like this before but Keffords made the whole process so easy and gave us no reason to stress at all. From the first quote to the storage of our items in Mt Isa to the final delivery in our new house, Keffords have been amazing. Everyone I've dealt with at Keffords has been so friendly and helpful, even when I had to add extra boxes to load after our items had already been taken to the depot. The guys who collected everything from us in Brisbane were so efficient and obviously packed everything in the truck with care as we didn't have a single broken or damaged item on arrival in Mt Isa. We are so very happy with the service we received from Keffords and we'll be referring you to as many people as possible! Once again, thank you so much to everyone involved in our move. We were blown away with the amazing service we received.

Delivery of my belongings was brilliant - great service from the three guys who looked after me. They took care of my old furniture; and took time to make sure I was happy. They were punctual and efficient, and worked hard for the few hours it took to unload the truck. Am very happy with this service and recommend Keffords Removals Mount Isa.

For those checking the reviews for Keffords Mt Isa before engaging their services, look no further - you have found the most reliable and professional removalist service. Not only does Jo provide amazing service, she actually understands your move. Keffords are just not about transporting your precious personal possessions from A to B - the staff actually do care about your items and treat the move like it was their own. Steve and the team packed the container in Mt Isa with such care. Then, at the other end in Brisbane Whybirds - wow! these guys know their craft!. Josh and Jason were outstanding in taking care of my furniture. Not one item was damaged or broken. In fact they commented on how well the container was packed by Steve in Isa which made the unpacking so much easier. They were so polite and respectful and will entertain you with their friendly banter - extremely personable and warm. Without a doubt, I would engage Keffords and Whybirds to handle any future moves. I know my possessions are in the safest of hands. Thank you Jo for making my move so easy.

Quick, easy and professional; everything I wanted when relocating my car. Thanks Keffords!

They went over and above to ensure our property was packaged into the containers securely and carefully. Would Highly Recommend without any hesitation. Ricks Team at the Mount Isa where just as awesome. Our stuff was unloaded carefully and professionally and we wouldn't have any hesitations on recommending this Team to anyone either. Thank you to all involved for making such a move as effortless and drama free as possible

Great service. Items delivered as promised and they picked up the boxes when we were finished unpacking.

Easy move, fantastic packing, will use again.

Thank you, Second time using Keffords removal always quick and being careful with our stuff

My experience with Keffords with my uplift, storage, and delivery was a breeze! The uplift was quick but not negligent. They weren't stingy with resources making sure all my items would be delivered in original form. Kudos to Mark and his whole team as it definitely projects the business' efficiency, professionalism, and value to customers.

We were looking for an affordable removalist to have our things moved from Brisbane to Mount Isa. We came across Keffords Removals on the internet and enquired for a quote. Within 24 hours, we got a call to discuss our move. We sent an inventory list of our things and within the same day got a quote which was within our budget. They worked with dates that suited us and them and they were on time with pick up and delivery. Our things were delivered all intact and the service was professional from the office team to the delivery team. We would definitely use this service again if we need to. Thank you for the great service! Bernard & Lomot

Friendly, efficient company moved us from Isa to Townsville. We needed the job done in a tight time frame

and we're referred to Jo who was lovely and made sure everything went as smoothly as possible. The onforwarding company in Townsville were a bit late delivering due to staff issues but at least kept us updated on arrival times. Can definitely recommend!

This is the email we sent to Mark and his team at Keffords after our removal experience with them: Dear Mark and team, Bill and I would like to thank you all for the seamless pack and uplift of our furniture. Moving is listed as one of the most stressful things someone can experience; and this pack and uplift was not a 'normal' move as there were many variables at play in getting it to Orange. However, you re-defined moving and it all became an experience that we actually enjoyed! We never felt any stress. This was simply because of the fact you made our move about people - you brought us a genuine care and dedication to making possible what was often not possible! We enjoyed the process because we enjoyed the interaction with you. All of you brought an enthusiasm which made the two days enjoyable - Jaiden, Margaret, Reece, Ollie, and David were all so calm and competent and upbeat and that was a foundation we could all work too. Mark, your impeccability and professionalism stand out from the 10+ moves we have had over 12 years. We would highly recommend you to anyone and would not only seek you out for your professional services but simply to cross paths and catch up again. You went beyond to make sure our needs were met, and offered a personal touch in a system with a Department of Ed which demands the necessary protocols to be followed. You mentioned on the phone you like to work with your team as a family - this was absolutely felt - you offer a true business in this regard, because it can only ever be about people. But somehow we live in a world that the majority forgets this - so it was a joy to see you reflect what the world needs to see. Take care all of you - all the very best for 2021 in all your ventures and we look forward to crossing paths again when the time comes. With much appreciation again to you all, and best wishes Gina, Bill and Zoe Service: Interstate moving

I am grateful that Keffords were able to help me with my office move. The move would have taken me days, but it took them an hour. And possibly an avoided injury!

Keffords Mount Isa has been and continues to be a pleasure to work with. From packing up our office, storing our furniture and unpacking what we could fit into the new office months later it went off without a hitch. There was no item too big or small that couldn't be stored including our old reliable fork lift! We gave tight deadlines that were met and out of four shipping containers no damaged goods. Thank you Keffords Mount Isa

Thanks Keffords Removals for getting belongings from Tsv and here too Mt Isa and holding in storage (5+mths) to home delivery, I'm very grateful for your help, no complaints here, keep up the good work. All round great and friendly service.

Could not fault the staff at all it was a pleasure

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value I have used this company twice in the past 3 years for removals. The pricing is competitive and the service is excellent. Friendly staff and great attention to detail. I wouldn't hesitate to recommend this company. Services: Moving-related packing , In-state moving

Tiffani and the team were awesome ,prompt and friendly service. Would recommend to any one !

Positive: Punctuality I would recommend the company to anyone. They done a wonderful job. Service:  
Moving-related packing

Pick up and delivery was as arranged, the boys were very frendly and did great work, no issue recommending  
your company to anyone who wants a great service.

Good people

I used them to move to Perth from Mount Isa. They told me to sent our container to Townsville the next day  
on a truck but that was sent nearly 2 weeks later, so we received our stuff very late. I had to chase with them  
many times and no one even bother to give me a call despite of several messages left. We found the display  
unit broken and made a claim (I purchased insurance from them) but never received even any reply. Again I

have to call their branch office, head office, fair trade and even reached AFRA, but nothing happened. After all that we found one of the box was missing which we did not count properly at the time of receiving our stuff. Their current branch manager contacted me and resolved the issue. Thanks for doing that.

Terrible! Would not recommend. 5 hours late for uplift, with no communication. Lost numerous items, took no care in packing, removalist were dirty and touching my things with dirty hands leaving marks on them and broke a number of items beyond repair.

I can't begin to tell you how disappointed I am in your business. My goods were left in a complete mess I.e. I had spend about an hour moving things around so that I could get to everything, my 65inch tv was offloaded into the unit upside down (I'm still checking to see if there is any damage), it is very clear that whoever unloaded the truck didn't care at all for my goods and didn't care about the condition they left it in.

Not helpful at all, typical Mt Isa attitude. Never returned my calls when they said that they'd call me to update me. I had a query about moving my furniture back to Brisbane. I called 4 times and 4 times I was told that someone would call me back to answer my questions, but no one ever called me back. Ive now made another plan.

Why choose us we always go the extra mile, assembling and disassembling beds, attach and reattach washing machines and place your belongings exactly where you need them.

After many poor experiences over the years moving home and hearing the same from friends and family, I was referred to Allen and his team. The first move in 2020 was a breath of fresh air! Arrived on time, were diligent and careful all whilst being great blokes and super friendly. That move was so good that I used Allen again in 2022, and I received the exact same care as the first move. As a real estate agent, I have been recommending Allen to all tenants, sellers, and buyers ever since. Keep it up mate! You're a unicorn in the removalist world!

I can't recommend Allen and his team enough. Highly, highly recommended. Best removal experience to date (and Ive moved a lot!)

I highly recommend Dutchies removals. Professional, on time, and didn't cost the earth.

Excellent service. Great communication and a professional attitude. Would definitely use again and recommend highly. Thanks Allan and John for making our move so easy. Great job.

Positive: Professionalism , Punctuality , Quality , Value Having moved house a dozen times, this was BY FAR the best experience I've had, especially considering it rained the whole day. Dutchies not only brought professionalism to a tricky job, but patience and humour too. Service: Local moving

Quick and efficient, wonderful people! 10/10 recommend

Damaged my fridge during move, poor/slow response to my complaint, eventually agreed to repair but said it may take some time to go through their insurance. Twelve months later still waiting and no reply to my emails. Would not recommend.

Frank and karam on time, and very quick and very lovely people. Very happy with the service would recommend them to anybody.

Do not hire if you have a time sensitive move. They provided false information and did not uphold promises made in the booking process. Customer service was not responsive despite their responsiveness to Google reviews. - Quote says they offer tailored start times - when I requested 12:30pm they said they could not accommodate and could only do 10am. When I asked to cancel my booking and refund the deposit, they changed their mind and guaranteed they would be on time at 12:30pm. - Booking confirmation says they will call one hour before arrival. They did not call, so I called 30mins before our scheduled pick up. I was told that according to the GPS on the truck, they were on track to be on time. At 5mins past the scheduled time, the driver called and advised he was 50mins away. - They arrived an hour late. This was extremely stressful as we

had a simultaneous settlement and had a deadline to vacate. - Their time estimates are very inaccurate. They estimated 3-4 hours for 2 bedrooms. The move took 7.5 hours. I recommend choosing a different removalist that does an in person inspection. - Two pieces of furniture were broken. One was a table that they stacked about 15 boxes on top of in the truck. The other was an entertainment unit that they dragged across the floor of the truck, breaking a leg. - The day after, I called to discuss the issues above. I was asked to send an email and they would get back to me ASAP. They did not pick up my calls or acknowledge my emails until 3 days later. In the end they offered a \$200 refund for the damaged items, but they ignored my acceptance and follow ups before finally paying 4 days later.

Good experience with the movers and cleaners. They worked extra hard, they took 3 hours for moving my home without taking any break compare to others which quote me for 4 hours including a 15 minutes break. The cleaning was fatasitic. Although the frist inspection had some spots needed to be clear, they provided with free return cleaning which helped me pass the final inspection, and I got my full bond back! Highly recommanded.

Highly recommend! The guys from Khalsa were on time, got everything from our 2 bedroom house into their truck and moved it all to our new place (up a big flight of stairs) so quickly. Will use again for our next move!

The guys were super helpful and made my move stress free. Would highly recommend.

No one expects that you keep the original box that your TV came in when you bought it. Most removalists can provide special TV moving cardboard boxes that can help to keep your TV safe and secure while being transported (make sure you enquire about this before your move day. Otherwise, you can protect your television by wrapping it in blankets and then wrapping that tightly in cling film. Finally, as a peace of mind measure, we recommend purchasing one of our affordable moving insurance policies to protect your most valuable possessions like your TV in case of an accident.

If you need to change the delivery or pick up date, please advise the removalist as early as possible. They can sometimes accommodate changes and reschedule but this has a few variables.

We only work with experienced and reputable moving companies and its in their best interests to pack accurately in the trucks for two main reasons:

Generally, it is around four porta-robes or 6 standard cartons for a wardrobe.

If you cancel within 48 hours of your booking (if your move is more than 5 days away) or give three weeks' notice before your pick up date, you will get a full refund of your deposit.

The earlier you book your move the more confident you can be that the date you wish to move will be available. However, the time in advance that you should book is heavily dependent on the time of year. Between October and March we recommend booking at least 3-4 weeks in advance of when you want to move. From March - September you can leave it a little later, booking 2-3 weeks out.

If you change your list of items or space required a week before your move, we can usually adjust the price

accordingly. In some circumstances this won't be possible depending on the booking volume and amount of change and notice provided.

It is preferred if you or your representative to be present at the pickup and drop off.

I want to thank and praise the team from A2B for their professional and caring attitude during the final stages of my coast-to-coast move. After some early hiccups (NOT A2B's fault) this team made the rest of my transition as smooth as possible. From Kesh in the office keeping me informed and reducing my stress to Doug and Stuart who unloaded my entire home with such care. Nothing was too difficult and they wanted to make sure that they were getting things in the right place without me having to re-shuffle. Nothing was too difficult for them. I highly recommend this company and wouldn't hesitate to use them again. Thank you A2B, sincerely.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Adam and Steve were great! They were very professional, dedicated and did an excellent job. The booking process was simple and I would

highly recommend A2B. Service: Local moving

Karl and bradon were professional and very friendly would 100% recommend and use again

A2B recently moved us and I can't recommend them enough. They were organised and on time. The packers were fast and efficient, with everything carefully wrapped and moved. Once we arrived to our new place and with me being heavily pregnant, we were quite overwhelmed. As I was limited with what I could lift, Stella was an excellent help and unpacked much of our house for us. She was so wonderful and really got our house sorted in a few unpacking sessions. Stella also removed boxes for us, with the remaining ones promptly collected.

I needed some furniture moving into the back yard Dallas and T were so helpful, friendly and professional. A great company. Thank you

Steven and Simon did an amazing job moving us to Esperance Nothing was too much trouble for these guys Didn't stop all day Highly recommend A2B Removals

John and Stuie were great. I gave them the wrong address for the collection, and they just took it in their stride. They worked efficiently and competently. No damage in transit. When some of the furniture didn't fit in the lift - they took it apart and put it back together. Great professional service!

John & Braden were very efficient and courteous. They both worked hard, couldn't have asked for more, Very happy ?? job well done.

Friendly. Professional. Fair price. Recommend ??

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Troy and Braiden did a fantastic job.

I would definitely use them again and happy to recommend to anyone. Service: Local moving

I used A2B services twice from Perth to Sydney and back. The services were highly professional and on time.

I can't recommend enough.

I used A2B for a recent interstate move. Steve and Kesh were outstanding to work with. Professional, easy going, organised and took the stress right out of it.

So glad I chose A2B Removals to move into my unit as the team were extremely professional, efficient, friendly, helpful and had a great sense of humour to lighten up the day. Would highly recommend A2B and thank you.

Great storage facility. We are quite secure in the knowledge that our household goods are safe. Loads of space, both big and small units. Good service, the guys are very helpful.

We just used this company for the 3rd time and, as usual they were fantastic. No damage, very efficient and professional. A great team as always. Thank you very much :)

Great experience with our move with A2B Removals. Thanks Steve for coordinating and a big appreciation for the excellent packing job that Stella and Mary did. Our large amount of fine glassware, crockery and excessive number of kitchen and dining items made so much easier for us with all the packing done!

Thankyou .... see you all again in 18 months!!

Nick and John did a fantastic job moving us - helpful, friendly and extremely hard working. Thanks for a great job!

I had an excellent experience with A2B. I received a quote for them through muval. I only had a few boxes to move interstate. The cost was reasonable and the movers in SA and WA were friendly, professional and took care of my items. The communication from A2B prior to pick and delivery was excellent. I'd definitely use them again. Thank you A2B for your great service.

We would like to say a big "Thank You" to Troy and Braden, who provided a great Professional and Friendly service during a stressful time. If requested, we will have no hesitation in recommending Your company.

Excellent customer service, on time, reliable, and helpful.

It's the second time Ive used A2B Removals and they have always been on time, and are professional and helpful. Would recommend.

Positive: Professionalism , Quality , Responsiveness , Value Troy & Braden moved our house from Swanbourne to Floreat & they were fantastic.Highly recommended. Service: Local moving

Nothing was to much trouble and their manners were impeccable. these guys are an asset to this company. I would 100% recommend A2B Removals with out a doubt, and already have done. Thanks heaps guys, you made a stressful time that much easier. Service: In-state moving

Dalits, Steve, Torben, Mary, Stella, Ben and Stuart, done a perfect job moving our furniture and pre packing the boxes. They made the move to our new house very pleasant. Thank you so much A2B.

Dallas and Tane were amazing helping us move. They were so quick and careful with our belongings. After a horror experience last year where the moving company was messing us around all day and didn't show up i was hesitant to book one again. But they made our move so easy and stress free! Would definitely use them again and will recommend ?? thanks so much!

We had A2B for the second time do a move for us as we appreciate their services. Last move we had Dean & Beau come out and help us. They were polite, responsive, quick and most important careful. We will continue to use them again. Highly recommend!

Dean and Chris delivered a small load to me. They called to let me know when they would arrive and arrived at that time. They were efficient, friendly and careful. Thanks!

My belongings were in storage interstate and A2B packed, transported and delivered everything for a very affordable price. They were great to deal with and I know they have been great for friends of mine who have also relocated to Perth from interstate.

Dean and beau were great during my recent move. Arrived nice and early and gave me a heads up before arriving. Both worked to get the job done fast but with care. Would highly recommend

My stuffs were delivered by Torben&Stu. They actually did a good job.

Excellent service by A2B! They moved my furniture in efficiently and were professional and polite. I would recommend them.

Special thanks to Dallas and Tane for assisting us with our relocation. Excellent and professional service. Definitely use them again. Cheers lads Simon

Luiz and Leo were absolutely fantastic. They were so meticulous with the way they packed and delivered our belongings. They were also very careful to ensure nothing was scratched as they took our furniture in/out of the house. Thanks again guys.

I couldn't be happier with the service provided by DEAN & JOHN during my recent move. From start to finish, they exhibited professionalism and efficiency that truly impressed me. The team arrived promptly and handled my belongings with the utmost care. They packed, loaded, and unloaded everything seamlessly, making the entire process stress-free for me. What stood out the most was their friendly demeanor and willingness to go the extra mile. I highly recommend Removalist A to anyone in need of a reliable and top-notch moving service. They made a potentially daunting experience feel like a breeze!

Thanks Braydan & John for a very professional unpack of our sea container! Would highly recommend them!

Would like to say a big thanks to Karl and Luke for helping us move from Clarkson to Ridgewood 21st May.

Very fast packing and unpacking our stuff, very professional of your job. Gave them water and a feed for a very good job done. Thank you so much guys. Service: Local moving

Very professional and prompt service from Dallas and Tane!! The steep driveway and stairs to access the house did not seem to phase them at all. Thanks so much!

WOW - Dalis and Tane did my move last weekend and they were wonderful!!! On time, polite, professional, hard working and very careful with my belongings. I've already recommended them to 3 other friends / colleagues. Wouldn't use anyone but them.

Dean and Calo was on time and efficient. Looked after the furniture well and no damages. Thank you! Highly recommend!

I used A2B removals to move my furniture back onto my newly varnished wooden floors. Dallas and T took extra care to ensure no scratches were put on my new floor by carrying and placing even the heaviest items with such care. Even carrying large heavy items upstairs did not deter them and were so friendly and helpful and worked so quickly and efficiently. I would not hesitate to recommend them. So professional. Thanks again.

A2B removals were great throughout the whole moving process - the booking was straightforward, the communication was good, and Vinay and Caden were absolute angels.

We would absolutely recommend A2B removals and will definitely use them again in the future. From the initial phone call to talk about availability and price, the A2B team were really helpful. Not only did they help us to arrange a local move, but also coordinated for some of our furniture to be freighted interstate as well.

Nothing was too much trouble, and the price was very competitive. On the day, John and Vinnie arrived on time and worked tirelessly. They were fast, efficient and great to have a laugh with. Thanks again A2B. Sensational service!! Services: Local moving , Packing & moving supplies , In-state moving

Thank you to Stuart and Steven for taking care of my move yesterday from a house into an apartment, they made moving all my furniture up a narrow staircase seem like a breeze. They were friendly, efficient and the whole process ran so smoothly. Would 100% recommend this company.

Positive: Professionalism , Punctuality Troy and Braden did a great job helping us move. Highly recommended. Service: Packing & moving supplies

Dalis & Tane arrived promptly this morning to take some furniture to storage for us & they were both brilliant! Smart, polite and really efficient, the whole thing took just under two hours. Would highly recommend the company and these guys.

Terrific work from Deane, Chris and Chris. Super careful and efficient packing.

Steven & Lockie were great! Arrived on time, super efficient and friendly - I wasn't sure if there would be enough room in my storage unit for all my furniture and boxes but they made sure everything fit perfectly. Highly recommend them and will be booking A2B Removals for my next move!

Moving from a 2 bed first floor flat in Cottesloe, Perth to South Australia. Would like to say a huge thank you to Stuart and Steven for their work on Tuesday morning. They were on time, friendly, quick and efficient - was very very impressed with their service despite the challenging weather conditions and gale force winds. Would definitely recommend your service to anyone who is moving. Thank you!

Very professional end to end removalists

Jarrold and Beau were awesome in moving all our stuff. Cannot rate them highly enough for being on time-being organised and knowing how to take care of things.

Yep Moved from Melbourne to Perth in Feb '22 when the borders came down but the rail track was still being repaired... Given the circumstances the service was great, and the storage I needed to rent too was very useful and we'll priced. Can recommend!

I called A2B last month to move my stuff from Sydney to Perth. Very responsive team, I was very stressed about handing over all my stuff. The transfer went well, the removalists were lovely. I was able to get all my jewellery and valuables back. I would recommend them to anyone 10000%.

The staff were awesome . All professional and prompt . After a bad experience a number of years ago with a different Removalists company we were very stressed and dreading our last minute move. A2B made it so much less stressful . The staff are all great but especially The lovely lady on front desk who was especially helpful and the 2 Steve's who made it look easy !!! DEFINATELY recommend. Will use them next time for sure Carol & Allan

Had Dean, Ian, Carlo and Rob moving my house yesterday from Duncraig to Warwick and I can't imagine having a better crew. They were so hard working guys, polite, funny and organised. All went so well with the move, nothing was broken and they really knew what they were doing. I can highly recommend especially these particular guys!! Well done and thank you so much!!! Maritta

I was referred to A2B by Muval to transport My belongings from over east to perth Into storage until I was ready to move . Right from the outset they were very professional helpful friendly and good prices . Today they delivered my things and the two removalists Dalis and Tane were brilliant . Thank you ?? highly recommend this business

Outstanding service. Great quality of packaging, excellent comunicacion and fast service

I had the pleasure of having Braden & Steve assist with my move today. They arrived within the given timeframe and were professional, quick and efficient. I'd highly recommend using them again.

We had an excellent experience with A2B Removals. They were extremely responsive and friendly. Gave an estimate of 3-4 hours for emptying the office but they were done in 1 hour and 30 minutes. They were so fast, professional, friendly and careful with our office equipment. Will definitely use A2B Removals again and would highly recommend them to anyone who is moving offices or home. Thank you for all your hard work A2B Removals.

Big thanks to the crew that picked us up on Friday. The best experience we've had and we've moved many times. Highly recommend

Have had two excellent experiences. I moved from my sold property into Kings storage in Ellenbrook and the removalist John and his assistant did such a competent job I requested John for my final move from Storage to my new house in Ellenbrook. He was partnered by another John this time and he told me it was his first day with A2B. John senior is the most obliging and patient of men. They don't stop for more than a drink of water. I found them repairing a desk drawer which they thought had been damaged in the move. When told damage was years old, they just laughed and fixed it anyway. If you're in this area of Perth ask for John, senior

removalist. His willingness to make the day as easy as possible and his attention to detail is remarkable. I hope he is valued by A2B. Thank you both Johns. Anne Read. Ellenbrook. WA

Great place, super friendly staff

Can't thank a2b for the move this morning Big thanks to Steven and Simon didn't stop all day Highly recommend

Steve & Dru did my move & they were fantastic. So hard working & careful with everything. They were also very friendly & took all the stress out of the day. Thanks guys

Braden and Ian did a great job with my move today. They were friendly and professional, I wouldn't hesitate to recommend them.

Can't rate these guys high enough. Fast, efficient and more importantly treated my stock with care. Dean, Chris and Steve were pure professionals and an asset to the business. Will definitely use again.

Thanks to Jarred and Beau that helped us move house. Professional, friendly and efficient. Have used A2B twice now to move. Great service both times and doesn't cost a fortune!

Fantastic best company to deal with interstate transport so far. Just recommended.

We just needed some boxes moved to a storage facility, and these guys were great. Dean, Chris and Chris were friendly, professional and quick, and didn't panic when we got stuck in the lift at Storage Kings :-)  
Thoroughly recommended.

Kiran Dillon served us she is really good

Steve and Dallus were absolutely amazing!!! They were very careful and efficient - total professionals and went above and beyond. I highly recommend this company, you won't be disappointed.

Chris and Dean assisted with my delivery to Baldivis 01 Jun 23. The company confirmed delivery the day before; and called the morning of with a time of arrival, the truck arrived on time. Both Chris and Dean were polite, well presented and communicated clearly and efficiently. The delivery took about 5 hours. Throughout which, they delivered with care and precision, taking care of both my belongings and my property. As part of my removal Chris and Dean assisted unpacking my fragile items and had excellent attention to detail. They were a safe, tidy and efficient team who I would use again.

Dean and Beau were punctual courteous and worked hard. They treated my belongings like their own. Highly recommend them. Thanks Dean and Beau.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Troy and Braden were excellent! They did a great job for us. They knew exactly what to do. Thanks guys! Service: Local moving

The Perth team were quick, professional and easy to deal with. They made moving house stress free, and all of my items were well taken care of. The team are great characters too. Would definitely recommend them for moving house.

Dean and Ian were amazing, friendly, professional and quick! While efficient in loading the elevator to minimise runs back and forth, they were careful not to damage our belongings or scuff the walls of the

apartment. They moved our 2 bedroom apartment to a house in as little as 3.5 hours, loaded and unloaded. We were all done by noon. We also appreciated the service from the office from booking, sending all the paperwork and answering any questions we had. They kept good communication, letting us know that we get a confirmation call and that the truck would call when they were half an hour away, which they did. Can't recommend this company enough. I felt very well looked after.

I recently engaged A2B removalists to pick-up and ship one item for me from Perth to Melbourne. Their diligence, persistence and helpfulness in arranging pickup and communicating to me was excellent. I thoroughly recommend A2B removalist for any size move.

Thank you John and Bradon for excellent service. Friendly and professional approach. Your advise and support. A2B will be my favorite removalist group which i will recommend to everyone i know. Great job!!!

We moved into our new house 2 weeks ago but from the start of when I called to enquire I spoke with Steve who was so helpful and informative to support me and my family with the move. I had Steve (AU) come around and give me a personalised quote. The day of the move we had Stewart and Ben and they were friendly, fast and effective getting the job done nice and quick. I have already recommended them to other people you will not be disappointed.

My initial contact with the company was seamless, the booking and the initial deposit payment was efficient and smooth. Dalis and T completed my move yesterday, the care taken was of the highest level. As luck would have it did rain during the move, they laid a blanket on the house entrance to minimise dirt being dragged through the house. It is just those one percenters that make a huge difference. They took care not to bump any walls, or other furniture during the move, they were like a pilot and co pilot during talking to each other ensuring they were always on the same page to complete the job and minimise potential incidents:-) (move

was incident free). They were professional, polite and took pride in everything they done. I would recommend A2B to anyone planning a move, especially if the rest of the moving teams are as professional as Dalis and T.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Troy and Braden moved my whole house into storage quickly and efficiently Service: Local moving

I had the good fortune of selecting A2B Removals for my move last week. Jez and Steve were totally professional, caring and efficient. Their skills and positive attitude were outstanding. They even still had a sense of humour at the end of the day! top marks to this company for staff selection and training, I would recommend the company to anyone I know . You get what you pay for and this was great value for money.

Excellent service highly recommend took us from Hillarys to Kalbarri totally professional nothing too hard ,  
Thank you guys

A2B were great for the most part. We found them through Muval and they gave the most reasonable quote. The guys who picked up our stuff were professional and friendly, and had everything on the truck and packed in 90 mins. It was the same at the other end, the guys doing the moving were great and really polite, friendly and careful with our items. Logistically, everything was spot on. But we did have some confusion around when extra costs would be incurred. We booked this company under the impression that we'd receive four weeks free storage from the date of delivery, but what wasn't made clear is that this four weeks free storage was from the date of pickup. I'm not sure how items being in transit counts as storage but it did mean we incurred an extra four days storage cost. That wasn't an issue, but we'd advised A2B of our arrival date a good three weeks in advance but only received notice of the extra costs on the Thursday and were told they were due on the following Monday. Four days notice - especially over a weekend - isn't really enough to organise an unanticipated payment with everything else that comes with an interstate move. I managed to organise

payment on the Friday, but then received two phone calls, a voicemail and an email in the space of half an hour on the Monday asking where the payment was (even though I'd already sent it), which wasn't the most pleasant experience. One of our items was also irreparably damaged in transit and though I noted it on the report at the end, so far I've had nobody check in on that.

Great company, but I took off one point because I rang a while back to tell them all their boxes were empty but they still haven't picked them up...otherwise, they were Great! ??

We were recommended to use A2B and we were very happy we used them . Professional and friendly staff .

Found dealing with them to be friendly. My move went smoothly both loading and unloading with minimal damage. When it came to having one item dealt with as it was damaged, it took 3 phone calls and an email to get a response. Was told to get a quote. It was disappointing because all they had to do was glue and react a leg on a chest. The owner called and advised he was arranging a handyman to come out the next day to have it repaired. Handy did come but not at the time I was advised he would. I would of given 5 stars but the lack of response disappointed me.

They damaged my furniture and only paid me compensation because I hounded them for 2 weeks and threatened bad reviews online. I give the 3 stars because it is their removalists in Melbourne that did such a bad job. The removalists in Perth were great and looked honestly shocked at the conditions some of my items were packed in. This service was followed up by some more bad service by their general manager and then some more good service by their accounts person. When I requested compensation for the damage they were quick to tell me that I would have to go through my insurance. This is regardless of the fact that it was damaged due to them not wrapping it in heavy blankets as was promised. After 2 weeks of almost no communication from them I had had enough and sent them one final email warning that I would trawl the

internet searching for opportunities to give them as many bad reviews as possible. It was only then that they took my damage claim seriously. They did eventually pay for the damages but if I had let up at any stage they would have been only too happy to ignore me and the damage they caused.

The removalists were nice and did an efficient job. They did, however, significantly damage a couple of door frames in my new home. As I took out insurance with A2B, the removalists mentioned someone from main office would be in touch to fix the damage. After a while of not hearing back, I followed up with main office. I keep getting bounced around different people and getting no answer from them. I am still waiting for any answer from them. Happy to change my review if this gets addressed, but I somehow doubt it will.

Agreed to terms and 50% deposit paid via a third party for interstate removal. Inexplicably the company cancelled the job 1 week prior to pick up without even a courtesy phone call or alternative option. Would not recommend

If you have the original TV box, please use it. You can also purchase TV storage/removal boxes from storage centres. If you don't have a box and can't source one, the removalist will use heavy-duty blankets to protect the TV.

If you need to change the delivery or pick up date, please advise the removalist as early as possible. They can sometimes accommodate changes and reschedule but this has a few variables.

No one expects that you keep the original box that your TV came in when you bought it. Most removalists can provide special TV moving cardboard boxes that can help to keep your TV safe and secure while being transported (make sure you enquire about this before your move day. Otherwise, you can protect your television by wrapping it in blankets and then wrapping that tightly in cling film. Finally, as a peace of mind measure, we recommend purchasing one of our affordable moving insurance policies to protect your most valuable possessions like your TV in case of an accident.

Yes, all of our prices are GST inclusive.

If you change your list of items or space required to an increased amount, the removalist will adjust the price accordingly. It is advisable to inform Muval as soon as you know that your moving volume has increased. This way, we can plan to avoid any items being left behind on the move day. Please contact Muval about two days before your move once you have finished packing; this way, we can give the correct information to the removalist company before the day.

The final payment must be paid five days before the nominated pickup date.

Yes, absolutely. Please mention this at the time of booking, as it may make a difference to the provider we match you with.

Some companies will have storage at the destination and some at the pickup. Some even include complimentary storage!

It depends on your volume and which carrier we are using for your move. Some companies can delay the delivery by a day for an extra fee, but others may not be able to if the truck is only passing by your address and must continue driving.

We only work with experienced and reputable moving companies and its in their best interests to pack accurately in the trucks for two main reasons:

The packing service is not included in our standard pricing. Please check with our support team to get a quotation.

If you have booked the shared truck option, then yes. If you have booked a premium option, then you will not be sharing the truck.

To see the pricing, you will need to click on the link in your email. This will take you to our website where you can see your options.

If you change your list of items or space required a week before your move, we can usually adjust the price accordingly. In some circumstances this won't be possible depending on the booking volume and amount of change and notice provided.

The final payment must be paid five days before the nominated pickup date.

If you change your list of items or space required to an increased amount, the removalist will adjust the price accordingly. It is advisable to inform Muval as soon as you know that your moving volume has increased. This way, we can plan to avoid any items being left behind on the move day. Please contact Muval about two days before your move once you have finished packing; this way, we can give the correct information to the removalist company before the day.

Great removalist service! Careful, quick and it time :) Quickly responded to all my messages. Thank you for your work ??

Very profession upto their commitment and very accomodating.

Excellent service! Special thanks to Ivan ?? He did a great job. Everything on time, kind attitude. Most important - all things in good condition. Definitely recommend them.

Good crew of guys, worked hard and done a great job. I did pay a premium though.

Had a great experience with Igor and the team at InTime Removalist. The removalists were professional, efficient and well equipped making the interstate move seamless!

Fantastic service!

These guys were overly to deal with . They did exactly what they said they would do and delivered on time and on budget. Polite and friendly. I would absolutely use them again:

Fantastic removalists. Great price, turned up on time and hard workers. Cannot thank you enough!

They come on time and work hard. Also staffs are all nice people.

The best removalist service ever! We had a few pieces of antique furniture, some heavy items and even trees in pots, so were a bit concerned about the whole house move. But the team did a great job - everything was carried carefully and organised inside of the truck in the safe way. I would strongly recommend this service to everyone who is looking to relocate.

Despite not an ideal scenario in terms of parking, the guys did collaborate with us well to find workaround. They got to work quickly and efficiently. We moved 2 bedroom apartment worth of items from near CBD to the Northern Beaches area in under 3 hours. The guys were also willing to go beyond just moving stuff, helping us install the washer and finding workaround even when our washer did not fit the laundry room door at the new place. Definitely would recommend InTime Removalists to others. Thank you so much :)

Igor and Dimitri from InTime Removalists were simply put, awesome. Igor was a pleasure to deal with, professional, responsive and listened to my needs. I'm always worried about hiring unknown people with my most valuable assets, but this proved to be the right choice. Dimitri did the collection, packing and transport, as well as unloading. He is such a nice person to deal with, super professional, a master at Tetris as he packed all our stuff with precision and the utmost care. Dimitri took his time, was never rushed, asked me what was delicate and needed extra care, he marshalled his staff to ensure no damage to our property and the items end

to end. If you're looking for peace of mind and care, ask Igor from InTime Removalists and ask for Dimitri, blown away by the amazing service they provided us, thank you, highly recommend these folks to anyone.

Very quick !!

The boys were absolutely awesome very humble and very understanding they take care with your valuables and do everything in a timely manner communication between me and them were great they also helped take down my old fridge to the rubbish , they were on time and because I'm a hoarder they were able to pack my 2 bedroom apartment and unpack it into my new house within 5 hrs . Amazing stuff. Helped move all my stuff across a whole block and up a flight of stairs in awful heat. 100% recommend milan and ivan. Good stuff!!

Very happy with our service...interstate move from nsw to brisbane...quick and friendly responses from admin with equal politeness from the removalists themselves. efficient in packing for space provided and safe caring for our belongings.

We have used this business twice and are very pleased with the professionalism and care taken with our belongings! Would recommend!

Best experience with Intime removalists. They were very responsive and professional. I was a bit hesitant from hearing horror stories from other companies but would 100% recommend them to others. They moved my furniture from Canberra to Sydney in 1 day. Were careful with placement and provided a quote and invoice promptly. Great business.

Amazing service and very friendly, would use again!

I've just completed my move with InTime removal it's today across Sydney. The team turned up on time and were very quick and friendly. They also perfectly disassembled and reassembled my beds, couch as it was originally too large to fit through my old apartment. They also took great care in securing and protecting my furniture in their truck. Thank you guys and all team InTime

Great movers, diligent, timely and look after your things well. Would recommend.

Hard working and professional

Milan and Ivan were amazing and so helpful and hard-working. They go above and beyond

Friendly and strong guys to help with the move. They were careful with fragile items and large items. Considerate and did a good job in keeping to the time cap we had. Great job Ivan and team! Will happily call you up to do a move again if needed.

We have used InTime twice and found them excellent. Very easy to book, with a personal aspect to service

from Igor and Iryna. Most recently we had to pack up our house to move the content to storage. We had Milan and Ivan on the job, they were efficient and quick. It was a pleasure to deal with them both. I went to storage unit today having left them to finish the job last week and was amazed at how carefully they have packed the unit. Well done.

Very friendly professional service on time and good value

No nonsense removalist. Mark & Victor are careful with goods & buildings, and just get the job done with no hassle. All for a decent price, and Igor will answer all questions promptly.

The crew turned up at both addresses when they said they would. They were polite to us and respectful of our belongings. I would recommend InTime and will use them again

I was moving from the CBD area into the suburbs and everyone involved were really friendly, responsive and catered to my needs. They finished the job quick even though it was raining and they had to bring all the goods up a few floors by stairs. Truly no hidden fees, insured, and really worth your time and money. Thank you to everyone involved as well (sorry if I misspell your name): Iryna with scheduling, Igor with dispatch and updates with the movers, Mark and Viktor for being absolute legends of a removalist. Highly recommend these guys for your next move!

Punctual, Friendly and looked after our items well both loading and unloading. I recommend them!

Amazingly friendly, super fast pack up and delivery, great communication as well!! 100/100 recommend

Move went smoothly. Guys got stuck in and moved us very quickly.

Thank you to InTime Removalists for making our move from Sydney to Canberra such a breeze. We received exceptional service from everyone we interacted with and Milan and Yegor were efficient, friendly and professional on the day. The service provided was great value for money and we would not hesitate to recommend InTime Removalists or book them again for future moves!

Fantastic service all the way from Canberra to Sydney, which included two pick up spots. Would strongly recommend again.

The service was impeccable! The workers managed to get everything unloaded and stored away safely and swiftly! Thank you to Ivan, Milan and Kiril for such a wonderful job.

Helped us make the move from Newcastle to Ulladulla so much easier! Thank you to all the movers that helped us; Mark, Milan, and Vitalli. They were very responsive, extremely nice, hard working, and very careful with our stuff. Couldn't recommend more!

We did our office move on Saturday and the team at Intime removalists were fantastic. They were very careful with moving all of the items and took great care in packing and unpacking them. Thanks again, we will definitely use InTime again for my next move and we highly recommend.

Extremely professional, very polite and hard working. Had to lift very heavy and large furniture. Nothing was

a problem, very helpful. Pricing was fair. Would highly recommend them. 10/10.

Igor and. Patricio did a fantastic job moving my furniture and belongings from an apartment on the Northern Beaches to a narrow house in the inner West . They managed to disassemble and reassemble some large items in some awkward locations. And all with a great attitude. Very helpful and efficient, I'd highly recommend them. Thanks again guys!

I am so grateful to Igor, Nicholas and Kevin for your assistance in our move. This is the second time we used your services. Both times I was blown away by the awesome service you provide. The boys were on time and really pleasant to deal with. It was not an easy job and I commend them for their strength and tenacity in getting it done. No damages or issues at all. Thank you so much for helping us settle into our new home!!

Today I had a move done by these guys and Mark and Daniel were top shelf! Ive done many moves both locally and interstate and these guys were fast, efficient, lovely and caring of my belongings. The best part I wasn't even there to supervise any of it due to work, but they showed me their professionalism by being outstanding to deal with and I am so thankful for what they've done! If I could give 10 stars !!!

Excellent removal company, on time and great communication. The two removalists did a fabulous job moving from a top-floor unit; they were professional and polite and offered good pricing. Highly recommend.

The guys were great, efficient and friendly. Communicated really well and handled my items with care. Would

use them again.

Really great service. I booked these guys after my former removalists cancelled on me like thrice. These guys show up on time. Take no breaks and were so kind. We finished the job in 5 hours door to door and the drop up was on the 3rd floor. I am always going to use Igor's services in the future and I highly recommend them

Thank you to InTime Removalists for moving our home with efficiency and professionalism. I highly highly recommend InTime Removalists to all we are going to use InTime Removalists in a year and half when we move into over new place!!!

Thank you ITR team for being on time, being careful in moving our things and helping to install our appliances. Highly recommended!

The best experience, I will advise everyone with great pleasure! Thanks guys, you are doing business with love for people!

Excellent value and professional removal. Very happy with a 2 bedroom move to ACT in price/performance vs experiences with past removalists

Packing and unpacking boxes for your house is not usually included by default when you book a removalist. This is a service that needs to be booked separately (you can do this through Muval) or done yourself, and is best arranged for a day or two before your removalist is scheduled to do your uplift.

In our experience, people always dramatically under estimate the time it takes to pack their house, and it's usually one of the most burdensome tasks of moving! If you're packing yourself, make sure you start early and do a couple of boxes a day. Otherwise, save yourself the hassle and book packing services through Muval.

Fantastic experience ! What a splendid team, seamless communication, easy move end to end a very pleasant experience. Such a friendly group of people, went above and beyond to do everything that was needed to be done. Very careful with all the items, no scratches, no breakage, no handling issues at all. Highly recommend if you are planning your next move!

Used them a couple of times. They were professional, prompt and very helpful.

Highly recommend! Steve & Austin were very professional, efficient, well mannered and respectful, couldn't fault them! Jenny in the office was very lovely to deal with, and we knew from the moment Steve & Austin arrived we were in good hands and instantly relaxed.....and so did our elderly dog who got lots of pats !

We recently moved house with 3 young kids in tow. It was our second move with Harris Movers in the last 3

years and both times we have been really impressed with their professionalism and personable approach. The administration team are patient and helpful with the pulling together the inventory details pre-move. The move itself went very smoothly both times. Steve is a legend, such a great person and really puts your mind at ease during what is a very stressful time. Neill was also amazing, really friendly and courteous. Thanks again for all your help Harris Movers, I will not hesitate to recommend your service to others.

The experience with the Harris team has been wonderful, and we surely must have been one of their more complex clients! Our requirements changed multiple times in scope and timing. Originally it was an early 2023 relocation to Sydney that changed to moving a sizeable amount of furniture and boxes in January 2024 into Harris' storage facility in west Melbourne. Jenny and Alana were incredibly patient, flexible and understanding throughout this period. On the move day, Steve and Neil turned up in a gleaming new truck and quietly and efficiently took care of everything. Highly recommended, very professional, and great value too (for both the removal AND long-term storage!! Thanks from Mark & Helen

My 2nd move with Harris Home Movers. We had a lot of stuff and fragile stuff too! No damage and no dramas! Don't be dumb use these guys for your move

Harris Movers made our interstate move extremely easy and stress free. Great communication from the beginning, reasonable pricing, were efficient and took great care of all our belongings. Highly recommend to anyone needing reliable movers and will certainly use again.

We moved interstate from Sydney to Melbourne, with Neil and Austin taking care of our move. It's safe to say we will never use any other removalists again; Harris Movers are absolutely incredible. From the initial quote stage with the lovely Jillian who went out of her way to accommodate our move date, to the calm and professional pick-up by the boys, to the next day drop-off in Melbourne, every touchpoint was flawless. Neil

and Austin were exceptional - incredibly friendly, kind, sweet and considerate. Working flawlessly as a team, they had our stuff packed in the van within an hour and twenty, unpacked in an hour, and everything left in immaculate condition. They pack everything in the van the way they find it, with great care. They even remembered the chopping block that I forgot and hurriedly passed to Neil before they left. They made a very stressful event a pleasure knowing our home was in their hands. Do not look anywhere else. Thank you Jillian, Neil and Austin! See you at the next move :)

If I could give a million star rating I would! Jordan, thank you from the bottom of my heart. You, Steve and Max showed such care, compassion, professionalism and help under the circumstances I was faced with. I cannot recommend Harris Movers enough. There is a reason these guys have a five star rating and it shows!! Thank you, thank you a million thank yous!!!!!!!!!!!!!!

Austin and Neil were amazing! These guys are pros! Professional, caring, attention to details , working safely, giving advice on how to pack and etc., it ticks off all the characteristics of a role model removalists! Jillian and admin team were so helpful! having that personal touch and understanding the situation, coming promptly , doing an inspection of the job and the pricing so competitive and so good value! A big thanks to all of them, please keep doing what you are doing! There is less and less people like you in this market!

Amazing job! Steve and max pulled a magic trick fitting all of my items safely into the small storage unit and I definitely couldn't have done it without them.

Genuine good people so felt they can be trusted. Moved from Melbourne to Brisbane and was a very smooth transition. Would highly recommend given their price as well.

Everything arrived intact and on time. Would highly recommend to anyone moving interstate.

I would love to thank the Team at Harris Movers for their excellent workmanship, politeness, respect & time. Steve, Jillian & the Boys made transitioning from a factory to a home the most reliable and safest move I have ever seen in my life. You guys are absolutely amazing and highly highly recommend your services! The guys made it look so easy! Again, thank you all for your services! 100 / 100 !!!!!

Harris Movers made my move so easy! From the first interaction with Jenny in the office to the actual movers everyone was accommodating and friendly from the word go. They were on time, and took a lot of care with my items, even helped me put some furniture back together. Austin and Neil were super professional and got the job done without wasting any time. Would definitely use them again if I ever have to move again in the future!

Had an amazing experience with Harris Movers, we opted for a tree change and from the first call with Jenny and the team the experiences was seamless; Austin and Neil were lifesavers on the day they moved 1.5 houses worth of contents to the country within the day. Couldn't recommend more

An amazing, customer orientated company. Never would I thought that I would say I'm happy with a removalist company. They are professional, friendly, helpful and competitive with quotations. Highly highly recommend.

I had the absolute BEST experience with Harris Movers for my relocation from Melbourne to Brisbane. For starters, they provided the best value quote and stuck to their price (no hidden fees), they then clearly communicated throughout the whole process. Austin and Neil who came to pick up my things in Melbourne both then drove together to Brisbane and unloaded everything so I had consistency the whole time. They successfully moved a whole apartment of things including a lot of fragile art and homewards. Everything

arrived in perfect condition. Austin and Neil were such great guys, they answered all my questions and provided comfort during a stressful move. I would recommend them to anyone.

Jillian was so amazing organising date and time for my furniture to be moved from Brisbane to Melbourne . She checked in a week prior then the day before the move . She then called once my furniture was all in Melbourne to ask if I was happy with everything. Amazing customer experience. Steve and Austin were such legends ! Nigel also helped in Melbourne and was also great They treated my furniture with care and were extremely professional to work with .I had marble table top and coffee table which they handled with such care even though they were very heavy . They also took apart my complicated bed and then put it all back together in Melbourne, making it all so easy for me . Definitely recommend ????

Moving can be a daunting task, but our experience with Harris Movers was nothing short of exceptional! From the initial contact to the final box unloaded, every step of the process was handled with professionalism, efficiency, and a genuine positive attitude of Max and Austin! Well done boys! The team demonstrated outstanding expertise and efficiency in packing and moving our belongings. They were friendly, approachable, and ready to go the extra mile to ensure our satisfaction. Moving is undoubtedly a stressful experience, but their positive demeanor made the process much more enjoyable and less stressful for us. Thank you Harris Movers, highly recommend your services!

Excellent service from the whole team at Harris Movers. From the Initial quote to the move itself can't fault anything with the team from Harris. Prompt, professional and can definitely recommend them to anyone in need of Movers, took the stress and hassle right out of the moving process!

Everyone we dealt with was professional, efficient, friendly, patient, helpful, great communication and basically knew what was needed to get the job done safely with no stress. Definitely going to use again and

highly recommend. I've moved a number of times and Harris is by far the best I've used.

Harris Movers made our stressful move a very easy one. The entire process from start to finish was extremely professional and the movers were very respectful and nothing was an issue. All our belongings were transported without a problem. I can not recommend them enough.

The team was so professional and so friendly. And even though they must have been very tired, they were efficient all day and didn't look to leave before I had every piece of furniture where I wanted it. I will never get anyone except for Harris Movers and I highly recommend them.

Highly recommend Harris Movers! Extremely professional, punctual, and such a pleasure to do business with. Excellent service, and an awesome team.

Very professional service, happy with the job , Helped us assemble our beds too, keep up the good work . Highly recommended.

I would like to thank the team at Harris Home Movers and especially Jillian she is a real life hero. I called them up to see if they could pick up a motorbike for me down in Newcastle. Jillian was on it straight away and within a couple of days she said she could get the job done. I only gave them a short time frame and they delivered with ease. To make everything better the truck driver was an absolute legend, a real character and just a great bloke. I wish I remembered his name. They are very professional from start to finish and they're not expensive compared to other companies in the industry. I highly recommend this team and I'll be back in the future.

We had an awesome and stress free experience with Harris Movers. They made moving interstate very easy, quick and affordable. Thanks again to the entire team.

Highly recommended and big shout to Austin and Max - top blokes.!

The team made my hectic move from Melbourne to Brisbane so much easier! Amazing value for money with no hidden costs. A fast, friendly and helpful team. Definitely recommend using them especially for long distance moves!

The team at Harris Home Movers were the easiest and most professional team I have dealt with in the removalist business. They made my move from Melbourne to Brisbane stress free from Pick up to Drop Off. Will definately be using them again.

Great experience. They moved us during rain and had all the rugs and plastic ramps etc to ensure minimal mess or damage to the property. They communicate perfectly ensuring a smooth end to end move. Would recommend.

I haven't even had my stuff moved yet, but their customer service (Jillian in particular) night and day compared to other interstate moving services. No hidden fees, very straight forward, very responsive and hands on and literally willing to work with you. Cannot recommend them enough.

These guys were fantastic. They were so careful with everything and the communication about where we'd

like things was amazing and they were also extremely friendly. Jenny was also amazing with her communication and organising of the move. Will definitely use Harris Movers again if needed and highly recommend them to anyone.

Best removalists around, done a fantastic job, helpful, friendly, and very professional, I will definitely be using them again. Thank you very much Guy's ??

We had such a fantastic experience with Harris Movers from the very beginning. Jenny was quick to respond when booking in the job, the guys were prompt, friendly and professional and went above and beyond to ensure our belongings were transported carefully and placed exactly where we wanted them in our new home. Couldn't recommend Harris Movers highly enough, thank you all so much for taking the stress out of our move.

We had a fantastic experience with Harris Movers. The staff arrived a little late but gave plenty of notice. They took care in all items that had to be moved, and worked efficiently and effectively all throughout the day.

We had a same day settlement which meant everything had to be cleared out from our property - the team did an excellent job in estimating what time they needed to arrive to ensure everything was done, with plenty of time to spare. Highly recommend Harris Movers to anyone!

Great service from the team for my move from Melbourne to Brisbane. Movers themselves were friendly and efficient, Jillian was excellent with her communication throughout. Highly recommended.

I want to thank Jillian and the team for being so thorough in ensuring my interstate move went as smooth as possible. From beginning to end, the communication and service they provided were faultless and they went above and beyond to make this stressful, overwhelming process as seamless as possible. I was regularly updated on the status of the drivers etc and when they arrived, were fast, efficient and even offering to do more than expected while also fulfilling my odd requests. The team were all so friendly and a pleasure to deal with. I am so grateful and would highly recommend Harris Movers! I will definitely use them again in the future if needed! So happy!

Very professional, friendly and polite. Would definitely recommend.

Don't even waste your time with other rogues who call themselves removalists. These guys are the best of the best. Office staff are super professional and friendly while the actual guys who conduct the moving of your furniture and belongings are polite, flexible and courteous. If I ever have to move houses again, I'll be calling these guys straight away without any hesitation. Seriously, these guys are amazing. A job very well done. Thank you.

INCREDIBLE. Simply the BEST. It all started with Jenny taking the booking without any issue then Jordan (very cool cat) providing feedback on how and what and when, then Steve and Max who carried everything up and down and sideways with such care, just crazy how good these Harris Movers people are. Harris Movers are the most professional furniture removalists I've ever had. Nothing was an issue. Steve and Max did not stop the entire time nor, were they idle at any stage; they did everything asked of them and with a genuine smile on their face. Not a word of a lie. Without hesitation, not only will I use them for my future moves, I fully recommend this company to anyone needing professionals. Love them. Sylvia

Can not fault the service we received from Harris Movers when relocating from VIC to QLD. Efficient, great communication, going above beyond to help us into our new home. Highly recommend.

Super professional and were very efficient with our move.

Harris was so accommodating and professional in every aspect of the move - especially when they were dealing with a third party who was less than helpful with the information and their processes. Would highly and confidently recommend to anyone that has a requirement for a move.

None of our belongings or walls were damaged even though we had some tight spaces.

Harris Home Movers supported my mum Martha moving my belongings from Melbourne to Brisbane. After getting some ridiculous quotes from other pushy companies, Harris Home Movers provided a reasonable price and time frame. They were super professional on the day and were very friendly. They delivered all my belongings in perfect condition. They are just decent hard working people, who are transparent and easy to deal with throughout.

Would highly recommend to anyone who needs a hassle free move. Thank you so much!

If there were more stars Id give them to these guys. We got a few quotes from different places, and then got recommended these guys. From the moment we reached out, the experience and service has been sensational. They were accomodating and easy to deal with pre removal. Delivery day came and to say we were impressed is an understatement. The guys we had were unreal, happy to have a chat, and worked exceptionally together. We are so grateful to the guys on the day and for Jordan who sorted all things out back of house! Would never move with anyone else

Their expertise and efficiency made the moving process a breeze. Communication throughout was exceptional, ensuring that every detail was taken care of seamlessly. We highly recommend Harris Movers to anyone in need of top-notch service.

We had an excellent experience with Harris Movers. First of all, it was easy to organize the move with them. Jordan was prompt in answering my questions and if he was unable to answer my call, he would call me back. The guys arrived on time and they immediately went to work. They are easy going and efficient on how they loaded our things on their truck and we also saw how organized they were. Our things were carefully unloaded and they made sure that our things are where they are supposed to be. The guys did not hesitate to ask us where to put our stuff that we missed to mark. I can't recommend them enough.

Very friendly and professional. Highly recommended

Harris movers were the calm to our storm when it came to moving. Let's face it moving is not fun but Harris movers were responsive, professional, timely and competitively priced. Highly recommended.

My wife and I just bought a new house and we specifically searched for removalists with the best reviews, which is how we came across Harris Movers. We spoke to Jenny and she planned everything for us. Austin and Neil arrived on the day and they were very professional. Everything was moved without any issue - and the service was impeccable and hassle-free (thanks again). I would recommend Harris Movers over any other company for their professionalism as well as efficiency (and competitive pricing too!)

Very professional, time efficiency, friendly ..

We were fortunate to have Austin, Neil and John move us today. The care they all showed to both our furniture and the properties was second to none. I really appreciate their kindness, good humour and dedication to quality work, thank you!

Steve, Mark, Austin and Noel were friendly, hardworking and efficient. Nothing was a trouble to them. They really instilled confidence in us and we would proudly recommend them for their service.

Staff were on time and polite and respectful of my belongings

Highly recommended! They are professional, responsive, friendly, and patient. They are very careful with my stuff. Will totally contact them again on my next move.

Felipe and Cristian are simply fantastic ! Moving house is my least favourite thing. Faced with the stressful task of a rushed move to meet a deadline, Felipe and Cristian did a terrific job of easing my mind and made the relocation smooth, swift and painless. They were punctual, very professional, hardworking and yet engaging and friendly. I had a lot of assorted miscellaneous items that took up time, but that didn't deter them. Both Felipe and Cristian were fabulous in their proactive and calm quick-thinking to access the situation and strategize the best way to move all my stuff in the quickest efficient manner. I was also very impressed with their great positive attitude and pleasant manners throughout the whole process of what was definitely not an easy straightforward move. I will definitely recommend Colores Removals and Isidoro's boys to everyone I know. Good reliable removalists are hard to come by as we all know. With the boys at Colores Sydney, you can rest assured you're in good hands. Gracias mucho Felipe and Cristian for your amazing job !

We used Colores Sydney Removals for moving furniture from Miranda to Wollongong. Alex and his team were amazing and very professional making sure furniture or the wall were not damaged during the move. Also very pleasant mannerisms from both... Will definitely use Colores Sydney Removals again Neena

Hands down the best removalist company - the experience was 10/10 from start to finish. Thank you to Isidoro and his team - we cannot recommend them highly enough!

Felipe and his new side kick who has only been three weeks into the job - legends! Thank you lads for making my move so easy and stress free. You guys are very professional and ensure all my gear were taken care off. I have recommended my neighbour to use you guys because I can't fault anything and I'm rather fussy. You guys gave 5 star service and I'll definitely be using you guys for any other moving :) THANK YOU AGAIN!!

Kind regards, Rhea

the team was prompt to arrive and worked well for the 2 & 1/2hrs to move our larger pieces of furniture, Nothing was really a problem. thanks Alex

Great service. The guys worked extremely hard. The place I was moving out from had no lift and 36 stairs and the place I was moving into was up 30 stairs. They did it all with no complaints even though it would have been a very tough job. Price was very reasonable too.

Excellent service, very professional and the removal team (Isidoro & German) very friendly and delicate with the items. Very happy with the removal, I totally recommend the company!

I used these guys for moving house and they were great. They were on time, friendly and went over and above what was expected. Highly recommended, I would use again.

The team were amazing, so helpful and friendly. Definitely recommend!

I have used Colores on multiple moves both home and office relocations. Highly recommend. Reliable and competitive pricing. Thank you

These guys are awesome - responsive, reliable and super friendly! Strongly recommend

Highly recommend! I used this company for my move 4 weeks ago, when I had to put all my stuff into storage. Unfortunately, the storage unit closed during the move and could not access it after-hours, but they were happy to hold and keep my belongings safe overnight (for a reasonable fee, of course). Then they were very kind and finished the job the next day to bring back all my stuff into storage. Great communicators, extremely professional and took the utmost care. Isidoro and Marcelo had all-around great vibes, and just a positive attitude throughout the process, which made the move somewhat less stressful! Ive already booked them for my move into my new place in March ??

I highly recommend Colores Sydney Removals. They were easy to communicate with, were flexible with timing and took great care with my belongings!

Amazing and quick service. The boys are recommended to all my clients as I work in property management .  
Could not recommend them enough , very fairly priced

Great team! We had to move a lot of heavy stuffs and it was very unorganised on the moving day but they were fast and careful with our stuffs. The only thing was everything were really dusty after but its understandable. Clear communication, no hidden fees Highly recommend them!

Great service and great price!

Isidoro who helped with my inquiry for our move from Parramatta to Ryde. We moved from a 2 bedroom apartment to a house. We also have very valuable fragile furniture pieces and the boys, who were very friendly and respectful guys did an amazing job loading and unloading everything smoothly and with such care. It was

scorching hot that day, 40c to be exact and they really worked hard and efficiently. I will definitely call these guys again for our next move! The only other feedback is their administration haha, not a deal breaker. But perhaps an automated invoicing & payment system? Just to make things a bit more professional as these guys give top service!! I have had bad experiences in the past with removalists and we're so happy we have found Colores Sydney Removals!

Recently, the Colores Removals team assisted us in our move to a new place. I must say, they did a really good job. They were so fast, professional, and responsible. We were truly impressed with their service, and I definitely suggest them to everyone who wants to experience stress-free moving.

Ive used these guys many many times and they're awesome every single time ??????

Awesome, organised willing and able. Best Removalist Ive ever used . Will definitely use when we move back into our home in Mosman. Thank you Alex and team. Prudence ??????

Great experience! Will recommend. Cheers guys.

I just wanted to say a big thank you and to Juan and his colleague for a seamless move on Saturday. The weather conditions were unfavorable because of the heat, but they came through for me and were highly motivated all through the 9 hours which was simply amazing. Their friendly nature made the move very positive despite the weather. I couldn't have asked for a better team to help me with my move. Please pass my sincere appreciation to both of them for being such amazing people.

I can't say enough about the exceptional service provided by these guys. They skillfully handled my leather couch and delicate glass table, ensuring their safe transport without a scratch or minimum damage. Their attention to detail and careful packaging was exceptional. Also very punctual and fast. If you're seeking a

trustworthy, efficient, and reliable removals company, look no further. I highly recommend them for any move. Thank you!

Isidoro was fantastic to deal with. Extremely reliable (even in terrible wet weather) good communication and took great care of my furniture. Would recommend!

Amazing job, effective and time efficient.

The team made every effort to make sure our furniture fit in the truck safely and securely. They transported a piano and all of our large furniture out to Bilpin. They were very accommodating and responsive, even going to 2 collection sites to pickup furniture from 2 different places before delivery. They are friendly, they take care of your belongings and they work timely. Highly recommend to anyone in Sydney, they also offered us competitive quotes to ones we had from elsewhere so all round we are very happy that our move was done at good value and with no delays or mishaps. The guys are the best! They help me twice to move houses. They are fast and efficient. I highly recommend them.

Great service! Punctual and efficient.

Amazing service. The boys showed up on time. Didn't need much direction as very professional and knew exactly what they were doing. Efficient, well communicators and happy which was important to myself as moving is super stressful! They have done a brilliant job and I will 100% use them again.

The boys were an absolute pleasure to deal with, especially for a last minute job out of typical work hours. We

needed a 24 hour turn around for a house to be set up for sale, and they did just that promptly, efficiently and effectively. Could not have done it without you guys and will most certainly do it again. By far the top removalists we have dealt with. Awesome work!

Everything perfect with the boys

Cant recommend them enough. They were on time, completed the job earlier than expected and went above and beyond to get the job done. Made moving so much less painful than usual! Thank you so much guys!

Second time Ive used these guys. Punctual, super friendly and very responsive. Would highly recommend to anyone who is looking to take the stress away from moving. Seamless process ????

Reliable and great value, they took great care of all of my things :)

Very responsible and hard workers. Professional and organised business

Second move with Isidoro and everything went perfectly smooth again! No stress. Thanks so much!

The team was fantastic. They moved about like ninjas, making the move as effortless as possible. Well priced too. I really recommend this company.

While we believe up to a certain point Isidoro tried their best ultimately management let down this team. Either they had van issues or were over booked but Colores Sydney Removalists left us out to dry today with

no response leaving us in a very difficult situation before our lease ends. We understand things go wrong and we were patient and flexible when the removalists needed to reschedule. However, just before the removalists were supposed to arrive we got a message saying "Sorry we can not do the job, the team is refusing to keep working". When we tried to contact the team immediately afterwards our calls were dodged multiple times. This left us with no solution and no way to recouperate the \$300 that we were charged. This is not on the team with the truck at all, management has clearly let us and their workers down today and you should seek removalist services elsewhere if you are looking for a reliable team that you can trust

I couldn't recommend Xtra Removals more. From beginning to end, the process was easy and hassel free. The admin lady, Amanda, was a pleasure to liaise with and very friendly. My removalists, Sandr and Sarkon, were absolutely fantastic! They called me 45mins before they arrived, got to work straight away. They worked incredibly hard, didn't take any breaks and were very funny (cracking jokes as we went). They were constantly checking in with me to make sure everything was perfect and all of my furniture arrived in the same condition. I was so stressed about this move, and Xtra Removals made it super easy. Hats off to you guys, brilliant service.

Thanks for the easy move! Nice team.

Amanda and the full team AMAZING. From the first call with Amanda to the final item the boys unload from the truck its been A1 customer service. The professionalism and level of care the boys in the trucks take with the items is fantastic. Anyone needing to move? I would ?? recommend Xtra Easy Removal

I highly recommend Xtra Easy Removals. I had to get my stuff from Sydney to Brisbane. Xtra Easy Removals offered reasonable price and communication was so effective and efficient. Delivery was in time and the man informed their pick up time in advance and text me when they were done in my self storage with video. Therefore, I could see everything in good shape via the video without visiting there. Two thumbs up!!!!

Mario and his team were fantastic. They turned up right on time and were very efficient in moving my 4 bedroom house within 4 hours. Reasonably priced and courteous with no damage to the house or the items moved.

Nicholas and his team are very professional and efficient!!

Thank you both so much - highly recommend!

The team helped with our move to Melbourne from Sydney. Norman and Rafad were super professional and helped with everything. Thanks guys!

Amazing service by Michael and Arkan

Haiden and Ayden did a great job with my move thank you for your work.

Excellent job, thanks to Sandr and Marvin for making our moving so easy!

Great job, nice guys. Hardworking and good communication

Update: both Mary and Amanda in the office called me personally to discuss my experience and review. They

were very apologetic and promised to look into communication with drivers to ensure similar doesn't happen. Also offered compensation for a small item that was broken in move. Overall very happy with their response and customer service in general. Original: Moving from Sydney to Melbourne itself was quick and easy, very reasonable price, Mario and Maykil (removalists) were efficient and careful, communication with the office (Amanda) in the booking and confirmation process was great, but communication with the driver (Mario) was poor: he called at 11pm to say drop off at 5am when I'd already informed that they couldn't come until after 8am, also called my sister and woke her up (at pick up location, 11pm) instead of me (at drop off location) despite clear instructions on who to call at each location.

The pros of the company were they communicated well and tried their best to adjust to a last minute issue regarding a loading dock that was too far from the expected location. On the other hand, the movers requested I walk to the shops and help them buy lunch, which at the time I was kind enough to agree to and even treated them for this meal. They ate lunch while on the clock (payment calculated by the hour) and I didn't even argue regarding this. In hindsight I felt I was too kind because the way they left my furniture was not professional. At the new apartment, the tv was facing the wall on the floor, the sofa was not re-assembled, my tv stand was standing literally vertical upright which is very dangerous as it weighed more than I did and I had to carefully lower it myself. At my old unit, they had used the toilet twice and I found that my hair towel had been thrown into a corner on the floor soaking wet whilst they claimed to not know what happened. I had to throw away that towel because I had no idea what kind of water was on it. My makeup bag that had been sitting on the closed toilet lid had been thrown onto the floor and kicked behind the door which is ridiculous. They had no business being in the toilet that day as they didn't need to move anything from there. But they used it and then left it in that condition. I can't deny they were thrown some curveballs that day but for how ridiculously expensive the move ended up being, the quality and professionalism did not add up.

I wouldn't recommend getting packing services on the same day as moving. The boys were reasonably fast at their job but not as careful as I was hoping given how much I was paying for them. They broke a few things and didn't know how to pack pot plants so quite a few of my plants got pretty banged up. The team leader was also weirdly rude, he got upset at me and the building manager because the loading bay was over 50 m away from the door, as if either of us could do something about that, and even though I was fine to pay an extra access charge for that. Finally, on the way over to my new place I got a call from the building manager from my old place. He had CCTV footage showing them reversing their truck into a street light, bending it over by 20 degrees.

We had multiple items damaged and were offered no compensation. They brought a truck and a ute and the ute was not covered with a tarp despite it being a wet miserable day. All the items on the ute got absolutely drenched including electrical items. Vases smashed, chairs covered in oil. I don't want someone else to go through the same thing as us. Plenty of other options out there.

Amanda is a great sales lady The guys on the day will not live up to your expectations based on discussion with her lol

Update: The "parking fine" was never returned nor was any evidence of a fine ever provided. Would not recommend. I'd be highly skeptical of the high ratings as well. The guys stood over me and made me submit a Google review before they would leave the apartment. I can only imagine how unsafe women would feel in this instance. Amanda was very professional in organizing which is why I went with these guys but that's where the pros end. I made it very clear to Amanda both what was being moved, and the requirements for the move, but this is clearly not communicated down to the actual movers who on the day showed up knowing nothing. The guys showed up and complained about parking despite the fact that I had communicated that

parking was difficult to Amanda. They then made me pay them \$300 to a personal bank account for a "parking fine" that likely didn't exist. I had to time and time again ask for things to be moved as if they were surprised to be moving the whole apartment? There were 5 car loads of bags and items they refused to move. They opened a sealed copy of a first edition print book that was left sealed as a collectors edition, don't know why they felt the need to open it? And the urgency with which they moved things was shockingly bad, clearly paid by the hour. Overall would recommend going elsewhere, not a good experience at all.

These guys were awesome!! Would highly recommend. Thankyou so much for a quick and smooth move. Great job guys ??

These guys were absolutely awesome. We had a lot of stuff and a long move, the ladies were extremely helpful and patient giving multiple quotes for different load sizes as we tried to work out what we needed. Ben contacted us the day before the move to finalise details of times and answer any questions we might have, and on the day of the move the guys were amazing. Ken and Chris can't thank you enough :) We were stressed, probably not fully prepared as we should have been, but these guys took it all in their stride and really helped take the stress out for us. Fully equipped truck, they wrapped everything fragile in moving blankets, and packed the truck so well, I couldn't believe how much they managed to fit in. Everything arrived perfectly at the other end. True professionals from start to finish and all round lovely friendly people.

I've moved nearly every 3 years both internationally and nationally. I found this team to be terrific in everyway - from discussing my inventory (Jill), to coming for a home check (Ben), and to my two superb movers on the day (Ken and Chris). They were respectful and efficient and managed some difficulties on delivery to my new address. Their experience was displayed throughout the day. Thank you for making what is normally a very stressful time, much easier.

Was done quick and to a very high standard. The boys were very friendly.

What a great team of men who very much know how to do it when it comes to moving your precious cargo. They consulted in a friendly and very caring way before diving in and throughout our transition. They were methodical, efficient and work SO well together. Nothing was too much trouble. A huge thank you to you all.

The boys were very efficient and friendly! Great 5 star service! We will use again when we have to move!

Stash and Lode were an absolute life saver. We moved to a property with an intensely steep, curved driveway with lots of stairs. 4 other companies had already refused to move us and the situation was looking dire. Jill and her team came to our rescue, not only did they move us successfully but the three movers were friendly, optimistic, careful with our belongings and the driver, Dannie did a movie stunt worthy reverse up the driveway. I would 100% recommend the folks at Stash + Lode.

easy to deal with

Stash and Lode were incredibly helpful with moving a bed base from Noosa to Gympie. Their professional was 1st class. Would highly recommend them. Thanks again Stash and Lode.

My experience with Stash and Lode Storage and Removers was exceptional. The staff from Reception (Jill ) to movers (Chris and Adam) on the day were efficient and professional. Everything was handled with the utmost care and respect. Price wise this company is extremely competitive for the Sunshine Coast region and can get you where ever you need to go safely. Highly recommend. Personally would not hesitate to use again.

Amazing! So grateful for their help. The team on the day were great and effortlessly moved 2 big flower fridges. Super impressed that they did a site visit the day prior to ensure access to our property went without a hitch. Wouldn't hesitate to recommend. They'll be the only guys we'll use moving forward

The gentlemen who assisted our move were efficient, professional, courteous, and a great team to have assist us. The communication and service from the initial quotation to the end of our move was excellent. We highly recommend the team at Stash and Load.

These guys were amazing. We moved our entire home via the Mobile Storage Units. They delivered them, literally to our front door. We then took our time to load them up ourselves, which saved us thousands on removals men. They then picked them up within 24hours notice, dropped to our new house and then we unpacked them. We ended up using their removals guys for a couple of hours at the new house as we have quite a lot of stairs. Stash+Lode couldn't have been more helpful. Amazing service and concept. Thanks guys.

Services: Local moving , Moving-related packing , Moving-related storage

Good guys helped us out, had a good chat, down to earth really helpful and eager to please and always asking what they can do to help

The team at Stash and Load were great from beginning to the end of our move. They went the extra mile to make we got value for money and they could deliver the best professional service. Absolutely recommend them.

I can't thank the removalists from stash & lode enough. They had to move heavy Mexican pots, cactus plants with spikes and also had to stop off at our storage shed which extended the original time allocated. They were ever so careful and considerate of each and every item that was moved. Excellent, professional and efficient service. Highly recommend.

Friendly easy going staff

Kenny & Adam were excellent with our move today . They went over & above to help make our move easier than we expected . Wouldn't hesitate to recommend them .

Ash & Lauchie were amazing. Worked hard & nothing was too much trouble Thank you boys ??

Adam and Kev were exceptional in there service very friendly and cared about even what direction the bed went can't rate them high enough will definitely use you guys again if that's the kinda service you get

Great co professional and courteous. Ken & Kayden were great quick , polite , friendly. Would recommend Stash & Lode for your next move.

We have engaged Stash & Lode to move all our things around a month ago. The truck driver and his assistant (Ash and Ronan) were great, very hard working guys. However, many boxes and some of our furniture were wet because the truck had a leaking that was known by the removal company and unfortunately this truck was used to move all of our stuff. It was very unfortunate even our brand new mattress was wet and end up having a large yellow mark on it. For my wife and I, that was unacceptable and for this reason we are writing this review so people are informed of what can happen if you get the same truck!

Do yourself a favour and find a different company to move you . Do not be fooled by their professional looking website as they are not . We were told one day before our move that they DONT DO SETTLEMENT MOVES!! . They asked for our addresses 5 times. We should've seen the red flags when it took forever for them to respond to our quote . Terrible customer service. Shaun , Declan ,Tama and Matt who moved us however were lovely blokes. Very caring and helpful . We wanted to be supportive of local business. But they only added to our stress of moving.

Quote double of others.

If your booking is a premium service, the company will be able to provide exact timing. If your booking is a shared option, then your schedule will be a window between two to seven hours on the move day.

The cost for your local move will depend on how long your move takes. Some dishonest moving companies quote very cheap hourly or half-hourly rates to get your job, and then work slowly on the day or surprise you with additional charges in order to make more money.

Unless they are running a limited special offer, most honest removal companies need to charge at least \$45 per half hour or more in order to pay their staff (two people usually come to load and unload the truck for you), pay their insurances, and make sure their trucks are serviced regularly.

## **Page: Fenix Removals - Muval**

Amazing job, 100% recommend.

Gabriele and John were great. They were very careful with all my belongings and fast and efficient. Highly recommend.

The guys we hired were fantastic ! Great guys and very friendly! Big shout out to Julio, Rapha, Matios ! The guys were very professional and worked quickly and efficiently! They moved everything with ease and no damage. Highly recommend them !

Gabriel and Joao were both professional and friendly. They worked continually in the heat and were efficient and careful. The children loved helping and they made them feel very welcome. Thank you both for your efforts today!

Ed and Guto were so helpful and friendly! Job was done quickly and efficiently. Thank you very much!

Ed and Danilo were amazing. So careful with all my precious vintage and antique furniture. Were respectful of the walls and the house while moving and so quick. Would recommend them to anyone who wants a 5 star job.

Things and Papatino, were fantastic great hassle in and out with no fuss and made the job look easy. Couldn't ask for better.

Super Fast on time and most of all very careful. Would call them again in a heartbeat.

Had a great experience with Fenix Removals. Julio & Thiago completed my move on 23/03/2023. The day was destined to be drama due to a tight deadline; road closures at the new house. Fate being the monster she is, the removal van suffered a flat tire on the way to the collection point. Julio & Thiago kept their cool under pressure, and did not sacrifice quality of service to rush the job. They were careful and diligent with my belongings, they wrapped and taped white goods, my TV was well protected & insulated with cardboard, they carefully maneuvered a questionably big washing machine that was up a curved flight of stairs. They were able to achieve the move within the deadline, and did an excellent job under pressure. I would also like to add, they were excellent with communicating to me the whole time, from the flat tire and throughout the move.

Very happy with the effort and expertise of Gabriel and Danilo. They were friendly, communicative and got the job done for me. Thanks gutsy

Junior and Guilherme the guys were fantastic. Arrived on time, great sense of humour, and very efficient. Highly recommend.

Friendly, polite, efficient workers (Juan, Junior & Eduardo). Highly recommended.

Ed and Guto did a great job today, very kind and went above and beyond to make sure that we were happy, even when we changed our minds about where everything went. Thanks guys!

I strongly recommend Guilherme and John as they were polite, efficient and careful with everything they moved. Both are legends.

Ed and Julio from Fenix were amazing. They were quick and efficient and very courteous throughout the whole move. Made the whole process stress free. Hopefully we aren't moving again anytime soon, but if we are we'll be calling these guys for sure!

Amazing service. John and Rick were on time and worked super fast and handled our items with tremendous care. The final bill ended up being way lower than expected because they were so efficient. Have to also mention how nice they were! My kid was very interested in what they were doing and they made the effort to engage with him while doing incredibly difficult work. Couldn't recommend them more highly.

Our move was completed flawlessly by Ed and Guilherme! Highly recommended.

Excellent!!! These guys were efficient and took extreme care. Nothing was too difficult. Would definitely use again. Estevan and Gabriel were amazing!!

Ed and Jose and Johnny were great, so friendly, nothing was too much trouble, smiling and happy throughout a very long day.

I recently hired Fenix Removalists for my move, GUI, Lucas, Rafa handled our relocation with ease and I couldn't be happier with their service. From start to finish, they were incredibly professional and efficient. The team arrived on time, handled my belongings with care, and ensured everything was packed securely. What impressed me the most was their attention to detail and the way they went above and beyond to make the move as smooth as possible. They took the time to wrap the mattress and couches to keep them protected! Moreover, their pricing was fair and transparent, with no hidden fees or surprises. The entire process was stress-free, thanks to their friendly and dedicated crew. I highly recommend Fenix Removalists for anyone in need of a reliable and professional moving company. They truly deserve a 5-star rating! Will book with you again in the future!

Estefan and Gabrielle were excellent, very efficient and looked after the furniture. Would highly recommend!

Juan and Rafael did a fantastic job. Would definitely recommend.

Estevan and Gabriel were fantastic and efficient in moving our furniture. Would recommend

Gabriel F and Danilo managed my move over the weekend - they were both very professional, friendly, and had a great attitude towards getting it done efficiently and with care. We had three truck stops in total and timing constraints at the final destination that was managed perfectly. A special mention to Gabriel F executing an incredibly tight reverse manoeuvre with absolute precision.. with only cm's to spare!;) Impressive, nail biting stuff. Great job in all, would recommend. Thanks guys!

Thiago & Papatino were fast, efficient, and friendly. Looked after my belongings well. No complaints.

Ed and guilherme helped me relocate to my new house today. They were amazing! Both really nice guys and extremely professional. Everything was completed in great time and i couldnt be happier with their service. Would highly recommend using Fenix for your next move.

Ed and Guilherme did an amazing job helping us move into our new home. Thanks guys

Gabrial and Alan did a fantastic job moving my belongings across Brisbane. They were respectful to me and my things and got everything to my new home safely. Thank you!!

The guys left a large sheet of cardboard and haven't responded to my request for them to pick up in the last 2 weeks. I booked through Muval and believed I was getting removalists from Lindo. Their website looked good and had good ratings. And they sounded professional on the phone. So I accepted their offer. However, they didn't tell me that they were subcontracting my job out to Fenix. I didn't know until the job was done & the guys requested payment to Fenix. They also didn't know that I had paid a deposit and initially asked me to pay the total. I had to show them my payment receipts on my phone and they took pics to send to their contact to check. Then we had to wait for confirmation from their contact. It was fine, but not a seamless process. Ed was very friendly and appeared to be experienced in moving & loading. English wasn't great though, so communication not clear at times. His side kick John was less experienced and carried single items at a time when he could have carried more. It took 5 hours to move equivalent of a 2 bed house (estimate 23 cubic metres) with 45 min travel time. All boxes & half the furniture was all ready to load straight from garage. I

expected the move would be complete in under 4 hours, based on my previous move 3 years ago. They generally took care of my belongings. But I did find a few scratches and marks after, and my wooden bed had a piece broken off one of the legs. Issue more cosmetic than functional. I would have been happy to give feedback directly, but they haven't replied to my request to pick up the large piece of cardboard. I also let Lindo know, and they have been trying to contact them as well, with no replies.

Don't trust Fenix! Took 2 hours to get to destination only 1 hour away. Said they'd stopped for petrol. Upon arrival they took forever to bring our stuff in. After 20 minutes I went downstairs to see Gabriel on the phone and new guy folding blankets in the truck. Not one item off-loaded. They charged \$1400 when the estimate was \$700. They took twice as long to off load than on load. Booked through Muval. They said Fenix wouldn't help. Want to get ripped off? Go with Fenix.

Terrible service, do not recommend, do not trust. Rip off's.

They move my mother and father wrecked hundred year old stuff through boxes all over the place even though had written fragile on it. Absolutely appalled at the mannerism would not recommend them to anybody.

The most professional and reliable removals service Ive ever dealt with. They do an excellent job of looking after their customers.

Very good and swift service. Very organised, good advice, very competitively priced.

The second time we have had Leader help with a big move. The team worked really well and their truck packing was impeccable. We hope we never have to move again, but if we do we will be calling Leader Removals & Storage. Fantastic and highly recommended.

The team at Leader Removals is top in industry. From the initial quote being super efficient, to professional advice on preparing the move, to preparation the day before, had been above my expectations. The moving day was just smooth and gone above and beyond. The guys show up on time, parked at a good spot and put signs up to warn people, as they will cross the bike path. They handled all my belongings with care as if that's their own. Wrap it, place it properly. They have proper equipment to handle everything so they don't injure themselves, I could tell the company had been looking after the team very well. Then at the new place, they asked my new neighbours if their truck can blocked their garage for a bit. They asked where to put everything,

and afterwards asked me to have another look to see if they need to move anything. They are a very well trained team and you could tell the company look after them very well. highly recommended!!

The team from Leader removals (Matt, David and Lachlan) were amazing during our local Canberra move in June 2019. We were unpacked and relaxing at our new home by lunchtime thanks to their efficient work. The team were extremely professional and friendly, and handled all our items with care. I highly recommend their services!

I cannot commend this company highly enough. I have relocated numerous times across Australia and overseas and I can honestly say LEADER REMOVALS and STORAGE have provided an outstanding service. Every aspect of the removal was handled in a highly professional and competent manner by friendly and cooperative staff. They provided expert advice, and practical solutions to any issues that arose. They packed my possessions with a care and dedication to a standard that I have not observed before. I genuinely felt that they treated my possessions and furniture with as much care as their own. Flexible, friendly and highly competent, they are an absolute delight and I heartily recommend them to anyone.

Leader Removals helped us out of a tricky situation when another removalist couldn't provide us a booked service on the day of our move. Leader turned up the next day with two guys who worked extremely hard and were both friendly and professional. We really appreciate the assistance and the two boys who turned up are a credit to your company. Thank you and will definitely recommend you and use you in the future.

Fran and her team are the best removalists in Canberra. Friendly, super efficient, with good systems, strong careful workers and clean blankets. Their gender balanced, COVID safe and quiet team made light work of my chattels despite stairs and difficult access. All this, at a very reasonable price.

The team were fantastic to deal with and took the extra time to ensure my furniture was delivered in pristine condition. I organised an interstate delivery along with a local delivery and both removals were delivered to my home together with no issues at all. Very happy dealing with Leader Removals and Ill happily use them again for all my storage and removal needs

I moved from Canberra to Brisbane this time last year and found Leader Removals to be very professional and easy to deal with at this stressful time. The staff are all wonderful and nothing is too much effort for them. All belongings made it safely to Brisbane very efficiently. So when my parents were making the same move this year, I didn't hesitate to recommend they use Leader Removals. We are all so glad they did. This move put a lot of strain and stress on my parents who are in their late 70's. Leader Removals handled everything for them and the move went incredibly smoothly. In addition to the actual move, Leader packed my parents belongings, cleaned the house, arranged for the car to be transported from Canberra to Brisbane, and arranged storage when there was a delay on settlement. The incredible staff, in particular Fran and Andrew, made sure that the actual removal was not ever going to cause my parents any worries. Can't say enough good things about this company and would recommend them to anyone and everyone! Thanks guys!

Couldn't recommend Leader highly enough. Outstanding customer service, incredibly friendly and helpful, and very careful and professional movers. We had some difficult timing issues and their flexibility and willingness to accommodate us was above and beyond.

Andrew and team went above and beyond for my move from Brisbane to Canberra. Booking was extremely easy, and the timing estimate was accurate. The pick up (where I was not present) was very well done - Andrew communicated clearly, was friendly and provided recommendations for future moves. Delivery was

even better - Andrew was attentive to where everything should be placed, efficient with unloading and as a complementary helping hand put together a rather unwieldy desk for me. I could not more strongly recommend Leader. Truly exceptional service.

It is such a pleasure to be able to say that Leaders Removals made my move an enjoyable experience. They listened, and fitted with my every need; indeed they were so professional that they anticipated with a service that fitted perfectly around that. No commercialised hype, which was great. Just a fabulous service. One day they packed up and the following day they delivered and set up. They took heavy furniture and a piano, all with good humour, even in the pouring rain that happened that day. They worked so hard, and always with a bit of fun and camaraderie. Thank you, all of you, I can't emphasise that enough. I do hope that I won't need to move for a long time, but I would certainly call you again, and recommend you to others.

like removalist ninjas

Awesome service - above and beyond! Leader's removals are absolutely the best movers we have ever had! Friendly, polite, helpful and fast thinking. Moving always happens at a time of change in one's life, but we had some stressful last-minute changes that the team coped with amazingly. The apartment we were to move into fell through the week before, so Fran organised for everything to be carefully removed into one of Leader's containers and stored, but then work gave me one week's notice that I was to be posted overseas for four months. We knew which numbered boxes we needed to get our next season's clothes. Andrew was awesome! he problem solved and was able to speedily retrieve what we needed. It would have been disastrous for us if Leaders hadn't made it smooth from their end, by staying calm and coming up with workable solutions. Fantastic service - above and beyond! We are so happy with the Leaders team and can't recommend them enough!

In all of our years of moving internationally and interstate, our experience with Leader Removals has been without doubt the best! From the first point of contact with Fran you can clearly see what a professional, thoughtful service is provided. Andrew and the team were so efficient, polite and nothing was too much trouble. This was our first move where nothing at all was damaged or broken. The team worked relentlessly and were an absolute pleasure to be around at such a stressful time. If you are looking for a removal company and are unsure which one to use, look no further!! Our experience was so reassuring, calm and professional, I can't recommend Leader Removals enough!!

Thank you Leader for again providing excellent service. Friendly, courteous, efficient and helpful and most important, turning up on time. Highly recommended.

Couldn't rate my experience with leader any higher! Andrew and his team were very professional and went above and beyond to help pack and store away our seasonal beer garden. They made a very painful and stressful day into a breeze!

We moved house with Leader Removals two weeks ago. It's the second time we've moved house with them. Adam, David, Oscar and (oops, sorry we can't remember!) were incredibly fast and efficient, and very careful with everything. We had a lot of stuff to move, and they were also very patient with putting everything in the right place at the other end. A very good experience (as much as moving house CAN be a good experience!) and we would highly recommend them to everyone.

We sought a number of quotes for relocating items from Canberra to Melbourne and Leader removals was one of the most competitively priced. Removalists at both ends were quick and efficient and staff kept us informed of pick up and drop off times. No items were lost or damaged and all boxes were labelled by Leader removals. Turn around time was less than a week. Very happy with the service received and would highly recommend

this company.

Excellent job team was fantastic

I found Leaders through another site's recommendation and they were immediately great - responsive from the first email. They couldn't fit me in for a local move on my desired date but could do it very shortly after. Originally the move was scheduled for the PM, but I got a call at 9:20am to say they were on their way (this was fine because I was able to work from home - and the early move actually meant I could go into the office for the afternoon). The move was super fast, the movers polite and careful, and the whole experience was A+. Can happily recommend. Services: Local moving , Furniture assembly

I have used Leader removals from my first move in 2009 until now in 2019. Their service is competitively priced, efficient and all items are handled with care. The process was seamless from quoting to pick-up, (storage in this instance), to delivery. The on-site team were responsive, polite and efficient, understanding if items required delicate handling. Will continue to use for future moves and have recommended to others requiring removalist services. Thanks for a great move.

Efficient, great service, careful lads. 100% satisfied

Our recent move with Leader was nothing short of sensational. From the booking process with Linda and Frances, to the pre-removal inspection and then the actual removal, it couldn't have gone any better. Dave, Jimmy, Izzy, Ohio and the others (apologies we didn't catch all the names) were superb. Punctual, polite, careful, accommodating and unbelievably hard-working. Our first move in over 30 years and it exceeded all expectations. We can't speak highly enough of the process, but in particular the whole team... they certainly are a credit to the company. Thanks again. Neil and Tanya

The Leader Removals team helped me out with my move today, providing packing, moving and storage services. They are also providing a quote for cleaning services, so they're a one stop shop for all your moving needs. Moving is usually pretty stressful at the best of times but the team were all extremely friendly, helpful and professional. They worked very quickly and efficiently and helped to put my mind at ease. They really go the extra mile to provide a good service and I can't recommend them enough.

Leaders have handled a number of removals for me, from the Gold Coast to Canberra, within Canberra, and for my parents, Bronwen and Ron, within Canberra. They have always been highly professional and efficient, flexible in terms of accomodating the customer's needs, and pleasant to work with. Leaders is the best removalist experience we've had, and we'd always come back to them. Forget the rest - Leaders is the Best!

Five stars services! These two young boys are champions, did really awesome jobs!!!!!!good organised, no damage, I bought drinks and paid them tips, they desired. Fantastic, will come back to use leader removal again! Introduced to my friend already!! Really reasonable price.

Andrew and Clint were amazing they worked with complete professionalism and made our move so smooth and enjoyable just wanted to say thankyou and I will be definalty use leader removals again and they are high recommended in my books.

I have used a number of removalists in the past and Leader have been the best I have ever experienced. They were friendly, helpful, extremely professional, took excellent care of my furniture and provided exceptional customer service. I highly recommend them to all who require large or small jobs. Thank you Leader!

These guys are THE BEST OF THE BEST!!! A thousand stars!! 5 is nowhere near enough!!

I booked my move through CBD movers and it was a terrible experience. I called Leader Removals to ask for help and they were very understanding and helpful. They also quoted me a much cheaper price than what I paid CBD. I highly recommend you use this legitimate and responsible moving service.

Recently did a move from Canberra to the gold coast. Pick up done by Rosa, Jack and Jimmy who were prompt, friendly and very helpful. Delivery by Andrew was fantastic. You have a great team of people who should be commended on their skill.

Fantastic service from everyone in the company, multiple sets of revivalists and from head office with Fran. Good value for money and will certainly use again without hesitation!

Very professional and efficient team at Leaders Removals & Storage. Handled all our office furniture with utmost care and walked us through the whole process prior to the move. Not a single item was scratched during the process. The booking process was also really simple and all email correspondences were answered really promptly. Highly recommend their services as they are a reliable team of professionals and take pride and care in the services they deliver.

Positive: Professionalism , Punctuality , Responsiveness , Value We used Leader Removals to move our office. They made it so easy to put everything back where it was so we could get back to work! Service: Local moving

The team were efficient, helpful and nice, thank you

Matt and Oscar were so helpful and put my mum at ease throughout the move. They disassembled the beds and reassembled, were super careful with furniture, walls, glass and plants and were friendly, cheerful and nothing-is-too-much-trouble type of people. Fran in the office was always really responsive and helpful despite its placing our booking quite late. Cannot recommend more highly!

Leaders were recommended to me by my real estate agent as she had used them herself. Excellent and courteous communication from start to finish. Removalists were attentive, friendly and took great care of my belongings. I felt I was in good hands throughout. Highly recommend (and already have).

These guys are great! Andrew, Adam, and Kiko did our removal to a rural address. We had a few extra items that were no problem for them. It cost a little bit more but was well worth the money, and it was no fuss for the guys. Very professional and would highly recommend to anyone. Will use them again for all future moves.

I cannot recommend Leader Removals highly enough - they provide a top rate service. The fellas took great care moving my stuff into storage and then delivering it to my new address. Not only do they take care in moving your possessions but they are super friendly and helpful. Fran and Michael were also super helpful in answering my questions and organising insurance for me and cleaners. Don't use anyone else, Leader are great!

A very big THANK YOU to Leader Removals and Storage for making for first experience using a removalist a very positive one. From the office staff to Andrew and the removals team, I cannot recommend them enough. They were responsive, professional and helped me every step of the way with both my moving and

storage requirements (including collection from two locations). Highly recommended.

I've moved interstate twice with Leader over the last couple of years. Excellent service at a reasonable price, and really genuine, helpful people. Best value for money in the Canberra market by a long shot.

When planning our recent move from the ACT to Queensland we sought feedback from friends who had moved house recently, and Leader Removals was highly recommended. Right from the start we could see that Andrew and Fran at Leader were genuine, professional and honest family business operators. Ours was quite a complicated move as our requirements kept changing. During the process we decided to store and then transport some of our items because our son was moving to Melbourne. At the time we couldn't even anticipate when they would be required in Melbourne. It was absolutely no problem. Anything that came up at the last minute was dealt with in a 'no problem' way. Then we decided to take more things than were quoted originally. Again, no problem with that. At the last minute we decided to transport a car to Queensland. Again, it was absolutely no trouble making adjustments. We've moved houses a number of times in the past and this was by far the best removal company we have ever used. Both the crew working with Andrew in Canberra and then the one delivering our furniture on the Gold Coast was great and totally professional. Our houseful of furniture was loaded up in Canberra on Monday and delivered in Queensland at 8 am on Wednesday. Amazingly, not one item was damaged or scratched. And the same with the car! Andrew and Fran, we cannot recommend your company more highly. Thank you for making our move as stress-free as possible !

Leader Removals provided an outstanding interstate move. Professional and helpful from start to finish. You could tell the team was knowledgeable and genuinely cared about the job they were doing. All our stuff was moved without issue. Cannot recommend these guys anymore. 10/10

Looking for a removalist? Look no further. I have moved a couple of dozen times in the last 45 years, and

have never come across a better removalist. On time, professional, careful and experienced. Five stars is not enough. They took the panic, stress and headache out of a very stressful day, and we are so appreciative. Thankyou Josh and Jimmy.....you were FANTASTIC!!!! Service: Local moving

Fantastic moving experience. Who knew that was a thing!! Andrew, Fran and there great team helped me every step of the way during what is always a very stressful time. They moved me from Coast to Canberra taking excellent care of all my furniture and goods, provided reasonably priced storage and kept me laughing along the way. Thank you again Leader team. I highly recommend your services to people moving locally and interstate.

Professional, friendly and gentle with our belongings. They do a great deal on secondhand boxes too! Heartily recommended.

I was put on to Fran & Andrew at Leader Removals by my sister who had a very positive experience with them when relocating from Canberra to the Gold Coast. I had purchased a brand new fridge online from a supplier in Queensland and due to the Covid pandemic, the supplier was unable to deliver from Queensland to Melbourne. Enter Leader Removals- even though only a single item, they were able to collect the fridge and store it in their warehouse in Canberra for me, until such time as it was safe and practical to deliver down to Melbourne. From the first contact, Fran and Andrew were very helpful and their communication was great during co-ordination of pick-ups and deliveries. I would have no hesitation in recommending Leader Removals for either a major move, as was my sister's, or a small transportation job, as was mine, and will absolutely call them straight away if ever we have need for this type of service again. Efficient, professional, friendly, dependable-you really feel looked after, and all delivered with a sense of humour (thanks Andrew!) In summary, it was indeed very refreshing to work with a company that is family owned and operated, so personable and customer focussed- yay for small businesses and the little guy! (And no, I'm not a relative,

giving such a glowing review- it is all genuine!!) Sharon W Service: Oversized-item moving

Great service! The office kept me informed all the way. When I had a last minute problem arise, they came up with a solution and took all the stress out of it for me. The guys doing the uplift were very professional, friendly, respectful and efficient. Highly recommend if you want a stress free move.

Hey Fran Just like to say a huge thank you to yourself and the team for my relocation on Tuesday the 7th June 2016 from Jerrabomberra to Turner The guys that completed the move were outstanding Thank you once again Regards Jason

Such a wonderful service from Fran and her team, you can really tell that they work hard at their jobs and customer satisfaction. I have used many removalists over the years but will never use another other than Fran and her team again!! If you want the best job for the greatest service, don't bother going anywhere else but Leader removals, if you think anyone else is better you would be wrong!

Fast, effective, competitively priced (and a nice bunch of blokes, too). Go with these guys -- they're rated 5 stars for a reason.

Leader were amazing to deal with. The booking process was smooth and easy. The staff provided lots of helpful information about how to pack boxes and what to expect on the moving day. The boys who did our move were friendly and professional. Highly Recommend!

These guys were amazing and we highly recommend them. Our move was without any damages on either side. First time we have used them and will not use anyone else now as this was the best experience we have had in 24 years of military moves.

We cannot recommend Andrew and his team highly enough. Our move went seamlessly from the initial quotation meeting until the last box was delivered. Our move included two pick-up points in Canberra and two delivery destinations (including short term storage for a backload delivery to QLD) . Despite the complex nature of our move it went smoothly from start to finish. Andrew shared valuable tips on how to approach packing and communicated his schedule clearly and accurately eliminating any stress on our part. In short, the service provided by Leader Removals and Storage went above and beyond our expectations in every respect.

We had an absolutely amazing experience with Leaders! From the organisation through to our move, everything was professional and without fault. Nothing was an issue and the crew were so quick and happy to assist us!

Everybody involved was so helpful and super friendly. The guys were so quick with getting everything out and left the place without a scratch. Will definitely be going through Leader for future moves!!

These guys made moving bearable. Thank you very much. Great experience from quote to trucking.

We sold our home after living there for 43 years & required a removalist. We chose Leader Removals in Mitchell ACT. They also stored our goods in a container for approx 3 months then delivered our goods to our new residence when we purchased our new home. I would highly recommend this company, their professionalism is exceptional their employees are very helpful & considerate to your needs & go above &

beyond. We didn't have any of goods damaged & everything was handled with care. From the owners to the employees of this business they try to make your experience of moving as least stressful as possible.

I was moving interstate and After contacting multiple removal companies in the ACT leaders were the only company that got back to me with a response same day. They provided a quote within a few days and the quote was cheaper then anything else I found. (Other companies gave me quotes but it was difficult and communication was poor) They kept me updated on all changes. They picked up my items and delivered Interstate within a few days. When the boys arrived they were able to get the truck down our narrow drive way. They were Quick, efficient and friendly. I didn't have to worry About a thing. They had it covered. I would recommend these guys 10/10 Thanks again guys!

Leader were professional and helpful from start to finish. They helped me work out what services and then delivered exactly what they said they would. The packing and moving team were fantastic. There was not a single broken item. Highly recommended

We have used Leader Removals and Storage several times over the past 15 years for big and small jobs. Staff are always courteous, helpful and professional. Nothing is too much trouble and no job too big or small. Thanks for taking cares of our belongings.

Leader just moved us from Queanbeyan NSW to small town in rural VIC, near Wodonga. They were fantastic from start (on site quote) to finish (flawless delivery) and all things in between. Entire process was seamless

and, unbelievably, stressless. A big (real big) recommend that you give Leader some serious thought if you are on the move. Cheers Darren and Jacqui. Service: In-state moving

Very helpful, friendly and polite crew, took very good care of all of our items. Customer service team were also very helpful and responsive to our queries. Overall everyone was great to deal with and made our move a pleasant experience, would recommend.

Fran and the team are the best removalists - caring, professional and value for money

Andrew and Leader Removals & Storage are without question the most professional company Ive ever dealt with. I stupidly made arrangements with another company for my removals from Canberra to Melbourne. Like heros, Andrew and Leader stepped in at short notice when the other company simply failed to turn up to the agreed removals date (even though it was booked and paid for weeks in advance). Leader just took charge of everything...removals, storage, cleaning and returning my keys to the agent. And totally reasonably priced when I was in a complete bind, as I needed to leave Canberra and vacate the premise. A really stressful situation that they just made simple and hassle free. Kim in the office reassured me that from handing over the key my stressful situation was over and i could drive back to Melbourne as planned and they would take care of everything, and she could not have been more right. Andrew kept me up to date throughout with photos of the removals, and I got my full bond back without any issues raised by the agent - so the cleaners clearly did a good job. Absolutely amazing service. Great value. Cannot recommend them highly enough for anyone looking for Canberra removals or storage!! Thank you so much!!

Absolutely a 5 star removal! Andrew & Fran, Yass and District Historical Society can never thank you enough for the way in which you and your team have taken care of our large archival collection (and us) in our three day move to new premises. With difficult access and under very tight time constraints you managed the

relocation in a very professional manner. We are grateful for the concern and consideration shown to us at a very stressful time, your sound advice, patience and good humour. We could not have done it without you and highly recommend Leader Removal and Storage to anyone requiring a removalist.

A few hiccups but they were ironed out straight away very pleased with them 4.5 stars would definitely use them again

I have given 3 stars, the actual removalists, Oscar and Robbie, were amazing, and my initial quote was approx \$1,480 it actually turned out to be \$980 for an inventory and \$300 for storage (\$1280), which was also amazing. When I needed my furniture taken out of storage, less than 3 weeks later and transported 166 klms away, the price was over \$2,000 after a discount for not using the storage for long. I was stunned and said so at the time, but they had my furniture so I had no choice. I was very surprised as a friend recently had the same service with another carrier and it cost her \$945. I do appreciate that my items were sent the same week, which I was grateful for. I could not attend the delivery, but the driver and I spoke twice. I asked for all heavy items and all boxes to come into the house. I even left lists on each door. Unfortunately, most of the items are still in the garage, even really heavy ones. I am over 61 and live alone and cannot bring the items in, so now I have to hire someone to come and help me take everything inside. I would possibly use them again, but next time would get a relocation quote in advance and make sure that my things were put in the house, not left in the garage. Thank you for the jobs you did well.

Bit of sour grapes here. We were a customer of Leader who packed up our house in Canberra. Just a bit unfortunate that they were unable to follow through with relocation.

While the pack up and cleaning were competent and prompt, the movers locked my keys in the house I moved into on purpose, claimed it was normal and that "everyone" has an extra set of keys. Then the owner rang me

up and was extremely abusive, shouted at me and said I was a liar. He only stopped when I said I would leave a negative review. It's taken me this long to feel comfortable to leave a review as honestly the experience terrified me. Edit: more than happy to be contacted by Google, as I have all my receipts as proof.

EDIT to original post: In response to Leader's comments lets be clear: I was seeking quotes from several removalist companies with a long lead time for the removal due to the lockdown. Leader removal offered an earlier date and I accepted. At no point was I seeking a removal on short notice or had not had any success with other companies. I noted in my original post that Leader was the most expensive quote - this is fact and not a 'grouse' over the price. Dismantling and reassembling the bed was a request at the time of quote and I was not advised in the return quote that it was 'complimentary' The bed was mentioned to removalists when they were called back to fix their work. The door is dented /chipped and not scratched. Given the last correspondence I have from Leader was on 21 September with no follow up to advise of any issues with delay I don't expect that the door will be fixed. I organised for Leader Removals and Storage to take a small amount of items to a unit in Wollongong, certainly not a full house load. They were the most expensive quote but I thought they would be the most professional. The pre-pickup service was fine however the crew damaged my front door through sloppiness - not taking the feet off the lounge and trying to force it through the front door space. On the delivery end, the reassembly of the queen bed (with under bed storage) was also sloppy and incomplete. They were called back to fix it as it was quite obviously not sitting correctly in one area. However on further inspection we found a number of screws had been thrown in the centre of the bed, hidden by the mattress and slats and other parts had been positioned but not screwed in. Disassembly and reassembly of the bed was requested at the quote stage. I lodged a request for the door to be fixed, which they accepted however I am at a loss to understand what was done as all I could see was blue tape left on the door and the area where the wood was chipped - the worst part - was not fixed. I emailed and was advised someone would come back. That never happened and I don't think I should have to continue following up with them. Overall a less than satisfactory experience.

Great work by the team

We had Raph and Omar do our move from Parkerville to Yanchep. For reasons outside their control our move started at 2pm instead of 9am. Raph and Omar were professional and careful and although it was 7pm before they finished unloading they were still smiling and taking absolute care of our belongings. Awesome effort fellas would have you and Brilliance back in a heartbeat. Great value as well. Peter and Julie.

We are absolutely thrilled with the outstanding service provided by Brilliance Removals & Storage. From the

moment we engaged their services, it was evident that we made the right choice. Joao and Omar, the movers assigned to our relocation from our rental property to our new home. Their punctuality was commendable; they arrived right on time and wasted no time in getting to work. In addition to their exemplary work ethic, Joao and Omar were very friendly and courteous, making the entire moving experience a pleasant one. Their professionalism and commitment to customer satisfaction were truly commendable. Without hesitation, we recommend Brilliance Removals & Storage to anyone in need of relocation services. Their team, led by Joao and Omar, exceeded our expectations in every way, and we are immensely grateful for their assistance during this significant transition in our lives.

Experienced great service from Brilliance removals, easy to deal with and great service on pick up and delivery. Thanks Leo and Gui!

Absolutely brilliant, from the first phone call to the company, to the delivery of our goods, they are professional, reliable, cost efficient, and nothing seemed too hard. Highly recommend.

100% recommend. Friendly and professional and wrapped my furniture and fragile items as they packed too  
????

Will and Omar were friendly, professional and efficient. We loved their music and the way they were very careful with our items. Would highly recommend these guys and would 100% use them again.

I used their services and couldn't recommend them more due to their commitment and ability to work independently. They helped me with everything, from start to finish not to mention the furniture layout they arranged exceeded my expectation. Godoi and Omar turned what was meant to be a stressful day into a fun day.

Emersom & Gui are absolute professionals. Together they made my moving experience so much better than I could have hoped. Best movers ever - highly recommend.

I can not recommend Brilliance highly enough! They take so much care with your belongings, always making sure you're happy and getting things done efficiently. Our removalists were Gui & Dalmo and they were so professional and knowledgeable. Very respectful of our belongings. Well done. Im very happy!

Had a great experience with Patty in booking. Movers on the day Justin Omar and victor were excellent, fast efficient and helpful.

Great Removalists Highly recommend Thanks heaps

I would like to thank Joao and Michel for the excellent care and service provided. Qualified, attentive and careful professionals. Brilliance has excellent professionals and provides excellent quality service. Thank you to the entire Brilliance team.

Definitely more than 5 stars service! These guys, Louiz, Guilhenne and Nelson are absolutely fantastic! Highly professional and courteous. And very willing to do a little extra when asked, like helped to shift stuff which was not going into storage. They knew exactly what they needed to do to move my household effects from home to lockup storage facility. After initial inspection going around assessing all the packed boxes, household furniture, furnishings and everything else, they formed a plan and decided on what would go into the container first and eventually filled it up systematically. Plenty of room to spare! Not to mention the extra

care in handling fragile and delicate artwork. They worked with speed on this extremely hot 40 degrees day and ultimately, I ended up paying less. Highly recommended and will definitely use Brilliance Removalists when it's time for me to move my stuff to my new home. Thanks so much! 24/04/2020: Today, 4 months since I last use Brilliance Removalists, I again book the same service to move my stuff from storage to my home. The team of 3 guys, Luiz, Renato and Caco, are highly professional and very careful with fragile stuff. Not only that, they are careful not to hit the walls or scratch my new wood floorings. Very punctual and did everything with speed! 5 star service! Thank you guys! 12/12/2022 It's been nearly 3 years since the last time I moved house. Again, more than 5 stars service! This time Eduardo and Guilherme are the muscles helping with the moving. They did a fantastic job and finished on record time too, especially since I had a time limit on access to the apartment's lift. Took great care not to scratch newly painted walls and new wood floorings. Thanks a lot guys!

We booked Brilliance Removals based on a friend's referral and so glad we did! They were on time, very friendly, professional and very efficient. Service was amazing and a big shout out to Junior, Omar and Lucas! Great guys who were fun, positive and hardworking! Highly recommend!

Our table and chairs were wrapped up, relocated and unwrapped carefully and efficiently. Would highly recommend.

Rubens and Omar made a really good job ??

Amazing service provided by Guilherme and his team. I hired this company to move from Perth to Sydney in June. They were very responsive from the start and tried to accommodate all my requests especially with dates of pick up and drop off. The website has a tool that allows you to select items you own and gives you an idea of average space needed in a container for your belongings. Price was affordable and I received all my

furniture and boxes in the same condition as when they were picked up in Perth. I 100% recommend this company!

Excellent service by Gui and fabio - thank you so much

Despite the weather being terrible, the team of Fabio and Leonardo were exceptional from start to finish. Friendly, efficient and got the large job done from a two storey townhouse to a two storey house in great time! Would highly recommend and will be a repeat customer should the need to move arise again!

The guys were brilliant, completely professional, introduced themselves, really up beat attitude and always with a smile on their faces. Any business would be lucky to have them as their employees and any client would be lucky to have these gents as their removalists.

The team at Brilliance Removalists was fantastic from the packing team to the pick up team. I was on my own in Perth handling the move with my husband already in NSW, and was very nervous expecting usual chaos, but this team was amazing: careful, calm, hard working, engaging and overall building confidence that they have everything in hand. I was specially impressed with the care, how they wrapped everything up and stacked them in the containers. We had two containers going back to NSW with lots of art, mirrors and fragile items. The team at Brilliance executed everything with laser focus and efficiency. I am beyond happy with their work and happy to recommend them to anyone who has high volume international move.

I used Brilliance Removalists to move between two suburbs in Melbourne. As mentioned in another review, they may not be the cheapest, but the price difference is more than worth it for looking after your stuff and the hassle-free service you get. Pedro and Adnan did the best job, and it was the smoothest, least stressful move I've ever had (and I've had a few!) When they were going to be just 15 minutes late due to a problem with the

truck, Pedro called me to give me an update, and from there it was all smooth-sailing. They were so careful with my furniture, wrapping up the wooden pieces so there were no scratches or dents, something other removalists have not bothered to do. Eddie was also great in his responsiveness, and making sure I could schedule the move at a time of day that worked best for my settlement. My mum even commented on "how great the removalists were"! Thanks Brilliance, I'll definitely call on you if I move again... which I hope is not for a while! :)

Fabulous work by the duo of Gui and Fabio in moving our gear into our new apartment today. Nothing was too much trouble for them, and they went above and beyond to ensure our move went smoothly and that everything was transferred professionally and carefully. They were at all times calm, courteous and thorough. Absolutely awesome and hassle-free experience. We recommend Brilliance Removalists highly.

We used Brilliance five years ago, again two months ago and yet again yesterday and at all three events the crews that moved our furniture were professional, took extra care of all our items, they were friendly and the crew yesterday wore their masks at all times. Do NOT hesitate to use this company for the reason stated plus their charges are very reasonable.

Bruno and Rena have been working so hard today from 10am til 5pm. I'm so so grateful for their help, they even put together new IKEA furniture for me which saved me a lot of stress. I moved from the upstairs part of a house to another upstairs apartment (up one floor) and they were really careful with my belongings and managed to fit in lots of little boxes along with the furniture. If I ever have to move again I'll ask for them personally because they are good blokes and they're trustworthy.

Very positive experience with Brilliance Removalists - I needed contents of 2-bedroom house shipped and unloaded at storage unit outside of metro area, and Leo & Fabio did a fantastic job. They were punctual,

courteous, professional and hardworking. They took the stress out of moving. Highly recommend them!

I had Joao, Omar and Breno come help me move yesterday. The boys were punctual, professional and efficient. They took care with all my belongings especially the fragile items. All the soft furnishings were wrapped with care and precision. Joao, the supervisor, was friendly and a great communicator. He explained everything clearly and kept me informed along the way. Look no further if you need your belongings packed fast, efficiently and with care. Thanks again boys!

We can't thank the guys that helped us move house on Friday. They were so friendly, professional, on time and hard working. Nothing was too much trouble and they stayed past their allocated time to get the job done. We cannot recommend them highly enough!

Gui, Carlos and Andreas were great. Moved across the state and had all done in a day. Wouldn't recommend a better crew!

Matheus and Marco were absolutely wonderful for our big move today. Very professional, organised and efficient. Picked up extra stuff for us without hesitation and made a lot of effort for the big drive to the country. Thanks guys!

Huge THANK YOU !! Godoi and Junior and Omar from Brilliance Removalists. Amazing, careful, punctual, friendly, approachable and kind team. I was lucky to have appointed to me for my relocation 150km away with a mid way drop off. I will never consider another removalist company again, these guys stepped in last minute as a big name company, booked well in advance cancelled 12 hrs prior to the scheduled start time and couldn't offer another day within 4 weeks! Guill responded to my frazzled Facebook enquiry first thing in the morning and called me straight away to see how they may be able to help me. I am delighted to say

everyone I spoke to over the phone and the team on the day were professional, competent and cost effective. I am glad to have a wonderful business to be able to recommend.

Thanks to Gui and Fabio. Very professional and efficient. Fantastic service and a great team!!

I would not hesitate to recommend Brilliance Removalists, the team of Joao, Omar, Jerry. and Renan were brilliant, friendly and courteous and took brilliant care of our belongings. Great jobs Guys

Thanks Will and Cesar for a great job! Very friendly and careful ????

I wish I could give this company and my individual movers (Guimi, Joao, and Lucas) 10 stars! My move across Perth was a completely stress free experience. This company knows how to organize and move people. From the initial contact with the company, Guill looked after me, coordinating my move and floor cleaning, answering any and all questions promptly. The move on the day was exceptional. The guys arrived on time and not only did they work hard, they were respectful, professional, conscientious, and wore smiles from 8am to 5pm. They were extremely careful with my belongings and of the walls/floors/ceilings/doors/stairs of the unit I moved out of and of the house I moved into. I would not hesitate to use this company again. Thank you, thank you, thank you Guill, Guimi, Joao, and Lucas. You are exceptional. Edit on 23/9/23: Additionally, I asked for help with an internal move and I was again so happy with the experience. Will and Guil were wonderful, extremely polite and conscientious. Thank you again, team.

Leo and Junior were superb. I highly recommend them both and using Brilliance. They got a fridge down some tricky stairs and all with such an amazing attitude. Stress free and calm. On time. Don't hesitate to book them for your next move!!

Eduardo/ Guilherme where very helpful nothing a problem for them they like to make the customer happy

Thanks for moving us today

Emerson & Shammar where amazing with our move this Saturday just been. They where punctual, friendly, they worked fast & very hard. We had alot of fragile glass pieces which they where very careful with. They just made the move for very easy & smooth! Even helped put beds together at our destination & offered to help set the place up. Thanks Guys! :) you where champions!

Fernando & Godoi were fantastic. They there punctual, quick yet they were so careful with the move not to damage the furniture/house. My family and I have used them 4 times and they never disappoint. I can not recommend them enough!

Wow what a great removalist team! We had Murlio and Carlos Junior help us with our move. Big smiles, nothing was too much of a bother and extremely polite. The worked hard, were very careful with our things and lovely guys. Thank you. Brilliance is highly recommended! We'll definitely call you guys again!

Gui and Carlos were an amazing team that worked extremely hard and were masters in packing their truck to make all the furniture and boxes fit into it. They handled all our things with the most utter care, used protection blankets where needed and tied the different layers within the truck so nothing would move or shift during the transport. They are really friendly and polite. I would recommend this team and this company to anyone who wants reliable removalists that will take care of all your items and perform the work on a timely manner. Kudos to Gui and Carlos! Thanks a lot.

Efficient, friendly, and careful!

Brilliance removalists were great to deal with. Our movers Rubens and Guilherme arrived on time, were friendly, quick workers and respectful of our things. While Brilliance might not be the cheapest on the market you definitely get what you pay for! Well worth the outlay!!

Moving is normally very stressful but not with Brilliance Removalists. Was very happy with the planning and everything was a breeze. Special thanks to Junior & Lucas for working so hard and making it a pleasant day.

We now used Brilliance Removalists the second time and could not be happier. Luiz G. and Guilherme were very professional, fast working and very accommodating with what we wanted. If you want an easy move then go with Brilliance Removalists

Excellent service! We had furniture in storage with Brilliance for 2 years that needed loaded into the van before the team came to the house to do the main removal. They called early and kept us updated with their progress and arrival times. They were really approachable, friendly, professional and really quick! On the other end they assembled our furniture in no time! We will definitely use Brilliance again for storage and any removals! Thanks Joao and Thales for making our move stress free :)

We engaged the services of Brilliance Removalists to move our furniture and belongings into a container for storage before we found where to live on the East Coast. Godoi, Clayton and Omar took great care wrapping our furniture and packing into the container along with our boxes and belongings. We did a lot of research into removalist companies as the company who moved us from the East Coast to Perth were A1 cowboys with some boxes nearly destroyed from placing the heavier boxes which we had marked heavy on top of the light boxes resulting in lots of our belongings being broken even having to pick up items that had fallen out of the

broken boxes. After meeting Eddie at our apartment with him answering all of our questions which must have seemed like an interview to him and Godoi, Clayton and Omar being friendly, courteous, caring of our belongings and hardworking we have no hesitation in recommending Brilliance Removals for any job big or small. They are first rate 10 out of 10

If you are looking for a company that treat their clients with respect and care and still value great customer service, then look no further. First move we had to do in 5 years so lost the touch a bit, but everyone at Brilliance could not have been more helpful and patient. From Patricia in the office as first contact to Eddie (the owner) who came to do a quote and did a lot to put my mind at ease, as this was our first big move in Australia. The guys who came to pick up was excellent and efficient and Luiz is a master packer. At the delivery 2 months later Luiz was again there with a smile and a lot of patience. A huge thank you to Eddie and his team who made this our best move. Will not hesitate to use his company again.

Very professional removalists they treat your furniture and belongings like their own could not find a better company to look after your move.

Very good job. Godoi and Omar were very good workers. Highly recommend. Thanks again.

Excellent team. Worked so hard for us and helped wherever they could. Very friendly. Thank you

We had Will and Gill do our removal from Harrisdale to Dawesville. Both the guys were great and had the move completed in 5hrs. Would definitely recommend Brilliance Removals. Big thanks to the guys once again.

Very good experience. Quick, clean, careful, really top service

I used Brilliance to move house and I could not speak higher of the work that was done. These men never stopped. They did not waste time or go too slow to run up costs. They took care in every aspect of the move. I would definitely recommend this company. They were wonderful from the first point of contact till the end.

Thank you Emersom & Gui

Joao and Omar were friendly and did a fantastic job of removing my furniture and packing it neatly on the truck. They took care with each item and made sure each piece was protected and wrapped. I'd recommend them for your next move!

After a very lousy and time wasting experience with another removal company, Brilliance Removalists were excellent. They arrived on time, the removal of furniture etc was done swiftly and efficiently. Justin and Joao were very efficient and my elderly father was very pleased how the work was carried and finished in expected time frame. Highly recommend Brilliance Removalists!

We moved to new address after 56 years in the old address so it was an emotional move. Brilliance Removalist made it so easy as the crew, Matheus, Leonardo, Marco, Lucas, Fabio and Danilo, were so cheerful and nothing was too hard.

Excellent service. The boys even helped us put together our table and bed. Very happy and will use them again.

Excellent work and professionalism from Leo and Lucas at Brilliance on our recent move. Great work, effective communication and a pleasure to deal with. No worries at all, thanks so much Leo and Lucas!

Moved from 10th floor apartment to a house that had two stories and my room was located on the second story. The guys were great with my stuff and nothing was damaged. Very Kind and great great servic! ??

The two gentlemen Gledson and Fabio moved me today and they were just lovely, very courteous and took care of my furniture ect. Both very helpful and easily followed my directions for what went where. Highly recommend them.

Great service from the guys at Brilliance. Very professional. Second time I've used their services. Difficult move from a 3 storey townhouse, but Luiz and Leo handled our furniture safely and nil damage. Well done lads. Highly recommend. Its moving time again, chose Brilliance Removalists. Was happy to see the lads Jay and Omar arrive 15 min early. They were onto it. The move went super smooth, drop off to a multi level storage unit. They packed the unit and utilised the space in the best way possible. 4th time using Brilliance Removals, very happy, and will use again. 30 Oct 2023. Highly recommend the team at Brilliance Removalists, needed their services again to move my possessions. The lads Guime and Eddie were on time, and very careful with my furniture. It was a long drive but the job was excellent and all installed into their new home.

My goods were picked up yesterday by Justin and Victor they were so polite and helpful, fantastic customer service. I am pleased I chose perth Brilliance to help me with my move.

Thanks so much to Gui and Marco, our move was quick and seamless. All our belongings arrived safe and sound. Gui and Marco were professional, personable and a good time. 10/10 would recommend their services for your next move. Thanks again - Dave & Felicity.

I've used Brilliance Removalists twice now and had a really good experience both times. Moving is an inherently stressful experience, so I really appreciate the professionalism of the movers! Last weekend we had Mateus and Daniel - calm, knew what they were doing and really positive and friendly to boot. I rarely write online reviews but just thought it was really worthwhile to give them a thumbs up!

A big thank you to Joao and Omar who worked tirelessly through extreme heat to complete our move. You guys are true champs! You conducted yourselves thoughtfully and respectfully, and no task was too difficult. Highly recommended!

Hired these guys for a move yesterday, and they were awesome. Everything was protected and moved carefully; and the guys were efficient and really easy to deal with. Would definitely recommend! Just an update - have used these guys for three moves now, they've definitely become my go to. Super easy to deal with, and do an awesome job. These guys were very friendly and considerate when moving my furniture and many boxes, and professional to the next level. Highly recommend Brilliance Removalists! Thanks again guys??

I contacted Guill last week to arrange a pickup and delivery for the construction site, and he quickly responded by sending me a quote. Within the next couple of days, he arranged for Joao to handle the job. Joao is a very helpful and careful guy; he assisted me greatly throughout the project. I will contact them again to do the rest of my deliveries. I can say they are top-notch guys. Thanks, Guill and Joao Best regards Antonio and Novaproducts Global team

Super quick and friendly, made an interstate move less stressful

Amazing service and team, highly recommended. Will only ever use Brilliance Removals.

Joao, Omar and Paulo took care of us today and what absolute legends they were! Very careful, clean and well organised. Nothing too much hassle. Best part was hearing them chat happily amongst themselves while going about their work. No doubt they enjoy doing what they're doing ????

This company was very professional and ensured they were able to meet our needs. We had a very large, heavy marble table that needed to be moved and they brought extra workers to assist with getting this out of the house. They also wrapped everything in covers to ensure no damage to our property. Highly recommended!

Second time Ive used Brilliance Removals - Efficient and Excellent service from Murilo and John - took great care moving my furniture and great advice regarding Brazilian BBQ eateries in Perth. Would highly

Rubens and Leo were professional, reliable, friendly and hard working. Great job done in quick time.

Very professional, careful and friendly. Pedro, Emerson and Rod took great care of our furniture and piano, blanketing and taping everything to protect it. A tight stairway at the delivery address meant it wasn't possible to get our antique wardrobe up the stairs, but they gave it an awesome effort and didn't leave a mark anywhere.

Gledson and Fabio were awesome! They were so efficient and took great care and pride with all our belongings. They were so friendly and attentive. Will definitely use them again in the future when we move next time. Well done team!

Joao and Jerry were professional courteous and prompt. Highly recommended and exceptional care and customer service with packing up my goods. Highly recommended ??? Great gents, thank you so much!

Im not one for writing reviews (good or bad) so this is an exception for me. The boys at Brilliance did THE BEST job of getting our two storage facilities in Perth (located in different suburbs) into two 20 foot containers delivered 250 km's up the coast - without the slightest hiccup, glitch or drama. From initial contact with Paul in the office to meeting Luiz and Omar the incredible removal team boys, it was the smoothest move we've ever done. Our sincerest thanks and gratitude to all you boys, what appeared to us to be a huge undertaking turned out to be so smooth and simple we still cant believe it's done. You guys are the best ??

Great company awesome to work with. Very professional and hard working team. Paul and Junior were fantastic

Crew; Giumi, Will and Guill They were amazing when we moved from a combination of a storage unit and house into our new home. Even with a steep driveway and light rain all day, there was no problem with the guys moving efficiently and professionally for a lot of furniture Thank you for a great move and service

I booked Brilliance for our move from Melbourne to rural Victoria. Guil was fantastic to deal with and sent all information in a very timely manner. He also checked in with us before the move. I had read reviews about Pedro and Mateus- so was thrilled when they turned up. They are polite, professional, well mannered and happy! They certainly made the day less stressful. The boys worked so hard- they are a well oiled machine and got all of our belongings into the truck! They carefully wrapped all of our belongings and nothing was damaged. We were blown away by the service from this company. Sheer Brilliance!! Thank you so much.

Johnny and Jeffry where very good at there job courteous and polite and careful doing there job highly recommended

My wife and I hired Brilliance Removalist to move and store our belongings a few months ago - it was an exceptional service from the office staff and the movers (I forgot their names but they were friendly and efficient! Great personalities too!). Yesterday, we got our stuff out from their storage and our movers, Clayton and Godoi were equally as amazing as the previous movers. They arrived early to survey the area, they got to work immediately, and their work ethics were really impressive. As usual, they were friendly and helpful. We thought it could take a while but we managed to finish in 3,5 hours. The team at Brilliance made moving less stressful and they always have a big smile on their face - which was great! Thank you very much!

I was very impressed with how polite, positive and hardworking these men are. Nothing was too much trouble and they went above and beyond to get the job done to the best level. Would use again for sure. Edit: Ive now used a further two times and Im still blown away by the effort they go to. Reliable and hardworking. I hope I never need to move again, but if I do, BRILLIANCE REGMOVALISTS are the BEST!

Will, Paulo and Guill were all amazing on our removal day. These guys worked so hard, nothing was too difficult and always had a smile. Thank You, we will always recommend Brilliance and this super team!!!

Will, Guilherme & Weverton were excellent. I could not fault how happy I was with their service, sense of humour, professionalism and also, personality. It was great to know of the reliable triple combo ! wouldnt hesitate again.

Couldn't be happier with the service! Was on time, respectful, careful and reasonably priced! Will definitely be using them again!

We cannot thank Brilliance enough as they provided an emergency removal service at a moment's notice. We were very impressed by the speed of uplift in which Justin and his partner/s demonstrated their experience by completing a large shift in a few short hours. This was in spite of the rather hot weather conditions which made carrying heavy furniture pieces upstairs a very challenging and difficult exercise. They were extremely professional, arriving on time and departing to take on another removalist service the same afternoon. We could not have asked for a better service. Many thanks Brilliance

The team are absolutely fantastic at what they do and offer so many different services to tailor to your needs. The team of two that moved our things were very friendly and treated our things with care. They even managed to park the truck in a way that didn't block the tiny passageway through the complex. Highly recommend.

Guilherme and Shammar were excellent and took really good care of all our items during loading and unloading. They made sure that our furniture didn't scratch or mark our walls in the house. They were very friendly and easy to work with. Highly recommended if you are looking for a removalist.

These movers were great. Showed up on time, worked steadily in moving/packing the huge truck all day, and did it with a smile, despite the heatwave! Managed to fit it ALL (3 bedrooms!) in for one trip. Pretty impressed by their work ethic and we appreciated the care they took in wrapping and moving our belongings. They had plenty of blankets and wrapping things. It looked like they did a really good job making sure the boxes and furniture were placed in good spots in the truck as well as in the house, with things marked 'fragile' at the top of each stack. I would definitely recommend them for other people who are moving.

We chose this removal company 2 days before our move from Pakenham to Mambourin (just past Werribee) and have no regrets whatsoever. They treated our things ever so carefully and were very time efficient. They even set my bed up at the other end. What more could you want..this move took over 6 hrs maybe closer to 8 (I lost track of time) and their politeness and smile never wavered.. A one removalists..

As the name suggests, this relocation company was absolutely Brilliant. We had the pleasure of having Eddie and Joao help with our move today. They arrived on time, introduced themselves and then explained how they would run the move. Everything went to plan. They were polite, efficient, careful and experts at moving large heavy pieces of furniture. I just can't imagine having anyone else be as good as these guys were ?? Thank you

so much Eddie & Joao!

We are clients for the carpet cleaning and now for the removal. I recommend it to all my friends. We had always good professionals and good prices as well. The team is really nice. We had help from Junior and Jonatan for the moving last week and everything was perfect. The guys don't stop and they are really careful. A really good experience for such an intense moment. Thanks a lot, team! All done smooth and fast.

The guys were great. From the moment I booked them to the care and attention they took on the day. Would definitely recommend them

Gua, Matteo and Marco were all amazing and so helpful with our but move from Tatura to Melbourne

Paul from Brilliance Removalists Melbourne, made everything about packing my entire house into a container for storage easy. The removalists Gleeson and Fabio were professional and personable and took great care packing the container to save space. I will be asking for them for the unpacking. I recommend this company without reservation.

Absolutely exceptional service by the team who moved us from metro Melb to country NSW. Marco and his partner (apologies I didn't quite catch his name) worked tirelessly from 7am - 9pm including a big 4/5 hour drive. They were able to move our commercial grade gym equipment and were very polite. Thankyou team.

The team was amazing. Fabrizio, Luiz and Caleb were absolutely top notch, friendly and professional. Stress free moving at its best, and very highly recommended

My removalists Rubens and Lee were fantastic. They were friendly and efficient and no request was too much

trouble. I'd highly recommend their service.

Joao and Omar were both so professional and so organised. They were careful with all of our belongings and were very time efficient. We feel as though all of our belongings are in great hands! Thanks so much guys!

Will, Gill and Omer made our move smooth and we had a laugh whilst doing it. Quick and stacked the truck to perfection. Take the stress out of moving and go with the Brilliance team. This will be about the 4 or 5th time we have employed their services in the past 4 years and honestly cannot find one fault. Thanks again, the Carter's ??

These movers were terrific! Showed up on time, very professional and efficient. Great at communicating and made the move less stressful. They wrapped all of our furniture with care and managed to fit everything in one trip! It was packed to the brim ??

Guilemo and Liandro blew me away with their standard of professionalism, coupled with their personability. Will be requesting these two same gentleman when we move next for certain.

Fantastic service delivered by a bunch of happy guys at a good price. Highly recommended. Thank you.

We moved into our not quite finished house on a hot day. The team were awesome. They worked so hard with great attitudes and made a very stressful day as good as it could be. Thanks for all your help!

They are very professional , patience and friendly

Highly recommend Brilliance Removalists, both Lucas and Fabio were brilliant! Friendly and professional enabling me to have a seamless transition ??

Very happy with our experience. Great job. Thank you Matheus and Lucas. Highly recommend.

Amazingly professional. Gui and Andrew from the Melbourne team and Guil from Perth was so friendly and supportive for our relocation.

Thanks Matt and Carlos from Brilliance. Excellent service. ?? Much appreciated. Julian and Helen

I've known Eddie, the Owner, for a few years. He's a lovely, helpful man. I am sure I left a review a few years ago but cannot see it anymore so am writing another. The crew he hires are fantastic. They're professional, efficient, very careful with your belongings, friendly and have a good laugh. Once I found Brilliance, we haven't been with anyone else. Mind you, we've not moved in the past 5+ years, but planning to do so by the end of the year/start of next year we'll be calling on Eddie and his team to help us move again. I cannot give more than 5 stars but would if I could. If you want quality for your money, then you're at the right place. Treat these people well because they deserve it. Eddie, look forward to meeting you one day, and I hope you're keeping well.

Brilliance Removals and Storage are an amazing removal service. Highly recommended. From the moment, Will and Jerry arrived their customer service, professionalism and personability is a true asset to this company. We have several moves ahead and will endeavour to use them for all our requirements.

Fantastic: careful and professional young guys. Third time I have used them and wouldn't use anyone else. Bit

pricey but you get what you pay for - quality service. Jacquie

Amazing service including the delivery itself which was complicated for the price in question Guilherme and Peralta team did amazing job!!

We would like to thank Adrian, Guill and Santiago for the fabulous job and care they took in moving our home to the country.

The guys are hard worker and did a excellent job. Thanks for all help.

The team was friendly, helpful and efficient. I highly recommend Brilliance Removalists. Thank you!

A friend of ours had used Brilliance Removalists twice before and he told us we wouldn't find a better company to help us. He was right! We were downsizing from a very large home to an apartment with one month in between. The team who moved us out were fantastic! They were punctual, fast, good-natured everything you could wish for. We have been storing two shipping containers at their Beckenham premises and last week we were finally able to move much of our furniture into our new place at last! Luiz Godoi, Junior, Iago, Cesar and Omar were punctual, kind, understanding and went above and beyond our expectations Junior even helped to set up our grandfather clock which was no easy feat!! At the end when they must've been exhausted, they pulled apart our heavy sectional couch (again!) and repositioned the carpet etc. setting it all up once more to EXACTLY where I wanted it! They did all this with the intention of not leaving until I was 100% satisfied with everything. My husband and I have moved many times over the years and Brilliance Removalists are the best company we have EVER dealt with. We could not recommend them highly enough! Ten stars from us!! ????????????????????

I cannot emphasize enough my immense gratitude towards Luiz Godoi and Leo from Brilliance Removals for their outstanding moving service. They flawlessly managed the difficult job of transporting our bulky furniture and appliances, taking meticulous care to safeguard each item from any potential scratches or harm. Their professionalism and attention to detail made the entire process truly enjoyable. I wholeheartedly recommend Luiz and Leo to all my loved ones. Thank you both for a job excellently executed!

Brilliance is the best! The staff is great. They were very friendly and professional.

I engaged Brilliance Removals for their 5 star Google reviews and this was my experience. Emerson arrived 20 minutes early with the truck and held back until I went outside to meet him. True professionals that took meticulous care of all our items and worked in an efficient manner. Emerson and Abdul - absolute legends that worked hard with a great attitude. These should be your go to for moving.

The furniture turn up in excellent condition , the guys placed everything where it was to go. In a timely fashion

Great work from Will and Gill!

Gui & Carlos were amazing. Super fast and very professional. They made our move stress free. They were so thoughtful and careful with our belongings. We would recommend Brilliance removals 100% As we will be moving again in the near future we will definitely be using them again. From Steve & Doreen

Justin, Omar and Victor were super professional and completed the job easily. I wouldn't hesitate in recommending them to anyone who needs a fast and professional job done.

Gui, Leo, Marcelo were all really good. Really prompt service - nothing was a problem for them. They made the day run smoothly

Victor and Justin were excellent, very efficient and professional. Very impressed with the service provided. Would recommend them again.

Efficient and good value relocation service from Perth to Melbourne; all worked like clockwork - thank you !!

Highly Recommend!!!! Very good service comes with a very decent price. Everyone is really helpful. Used them twice one from Melbourne to Perth and now other way around. Boys who come to pick up your stuff did a great job. They make sure to wrap up everything very carefully and the delivery guys do their best as well. Very happy with their service. Good luck Guys

The boys were lovely and efficient. Highly recommend this company, cannot speak highly enough of them!

Very happy with our move today with Brilliance. Will and Omar did a fantastic job! finished ahead of time, very friendly and a great playlist. Highly recommend

These guys are awesome. This is the 3rd time we have moved with Brilliance. We don't intend to move again, but if we did, we'd choose these guys. The guys are enthusiastic, but careful and respectful. Most of the removal guys are Brazilian and it was nice to see them work so well together. Lovely vibe. Very happy with them

I highly recommend Brilliance removalists. I moved from Perth to Melbourne and my furniture and everything arrived on the time it was supposed to be. Special thanks for Gui and Gledson they did an amazing job going beyond the expectations putting everything exactly where that needs to be and that makes all the difference as I was alone in that time and couldn't move some heavy things as a fridge for example.

Friendly and helpful team! Both fellas were very careful with our furnitures. Definitely stay with Brilliance Removals again.

The guys were excellent. Careful, efficient and happy to help. Thanks for your efforts.

Very happy with the service, communication and professionalism we received from Brilliance. Will defiantly be using this company again when we next move.

Gui and Leo were such wonderful people-generous and friendly. They are also responsive, quick, careful, competent, trustworthy. I would recommend them very highly. We were so pleased with their service.

Victor and Justin did an amazing, quick removal for us today. Such professionalism, polite and didn't hang around. We had a house full of heavy & expensive items they took care of today. Very highly recommended.

Guilherme and Leandro helped us move from our apartment to our new townhouse. They were AMAZING!! We moved to a 3 storey townhouse with a narrow staircase and I can't believe how extraordinarily well they handled the job. They were so careful and meticulous, taking extreme care in everything they did. Amongst the items we were moving, we had an incredibly heavy 8 seat glass dining table with heavy duty chrome legs plus a very large and heavy leather couch, and they were able to lift each up 2 stories. Their patience, strength, professionalism, stamina and perfectionism was exceptional. I would highly recommend them to anyone who

wants quality movers. Thank you again guys! You are the best!

I used Brilliance for storage and removals and they were amazing! I didn't get the two blokes names who uplifted me first but Junior & Mitchell who unpacked my stuff at the other end were superstars - they plugged in my fridge and washing machine and Junior also told me I might need a more secure clamp for washing machine connection - they went over and above. Thanks to Paul and Guill for being so accommodating and flexible too! Legends thanks, Katherine

Boy am i glad i found these guys to do my interstate removals! Brilliance is a 10 star company masquerading as a 5 star because that is all that Google will allow. The lads who attended to my movement on both ends, did not leave a mark anywhere - NOT one!! They arrived on time, were nothing but professional throughout our dealings, very respectful, clean and tidy as they worked inside and outside of the home and were just technical masters of their trade. Watching them pack the container was like a Tetris game on steroids! Rubens and the crew were an absolute pleasure to deal with. Above all else, for our interstate move the price was so reasonable. I can't fault this company or its wonderful people. Thank you Brilliance for a completely stress and hassle free move!

Brilliance Removalists recently helped me with my move from Perth to Melbourne, and I couldn't have been more impressed with their service. The team was friendly, professional, and respectful of my belongings. They carefully wrapped and packed everything. Thanks to their expertise and attention to detail, the process was stress-free and seamless. Thank you to Godoi, Henrique, Omar and Ash.

These guys were amazing! I was reluctant to call them as I hadn't heard of them before but they had great

reviews in comparison to the other well advertised/branded companies. Eddie told me their aim was to exceed our expectations! I thought at the time , now that's a huge statement to make! Paul organised dates and coordinated everything from our cars, dogs, boxes and was prompt in responding to any queries or requests (including extra boxes for packing to be delivered to us). The boys who packed our kitchen were efficient and careful of our breakable items. The team arrive on time on the day and worked so hard in Perth's heat to move over 200 boxes and furniture etc. into the containers. They were respectful, polite, hard working and careful. A great synergy of people who obviously enjoy their work and each other's company. Thank you Guill , Eddie, Paul and the Perth team at Brilliance for your hard work, and for looking after our life's possessions ! You definitely exceeded our expectations!

Thank you Leo, Fabio and Andrew for your help on our big move, your professionalism and work ethic was excellent. We highly recommend and will definately use you guys in the future.

Fernando and Godoi did an absolutely brilliant job. They where very thorough and well experiecced. They both made sure that our belongings where protected correctly and reassuring that our furniture would not be damaged. They took pride and care in their work and where friendly and professional. We would recommend them to all our family and friends.

Great removalists - we had Gledson and Lucas help us out. They arrived on time, protected the furniture and were friendly and hard working. Would recommend to friends and would definitely use the company again.

Paul at brilliance from the moment he answered my call was so attentive and understanding as removals needed to be done immediately. On the morning of the truck was delayed on arrival which I wasn't too bothered with, however Paul communicated this and that is so awesome. The guys were professional and so understanding, they worked quickly and efficiently and made this move as stress free as it could have been....

Also for the urgency and short notice I had expected it to cost a little more than it did. 2 rooms, furniture dismantling and some kitchen stuff and tv boxed and moved. 3 hrs work or so from start to finish. Highly recommend.

We had a great experience with Brilliance removalist Pedro and Amar were friendly knowledgeable and a pleasure to deal with I will certainly would use this company again thank you Greg Port Melbourne

Brilliance removals did a great job of my shifting they were quick and no fuss and no damage i would recommend them to others who are moving, thanks to shannon and junior

The team at Brilliance were very professional. We did experience a couple of hiccups using the service but the team dealt with these as best they could!

Matheus, Marcelo, Carlos and Andres were a fantastic team for my recent move. They were hard working, efficient and friendly. The move involved long travel between properties, hot weather, a difficult driveway and stairs up to the house. The boys made everything look easy! I would definitely recommend Brilliance removals to other people. The reason for giving 4/5 stars is only due to most of the packing and unpacking being done by myself and my partner, and moving boxes into the appropriate rooms ourselves, so we did not get the full experience of having it all done for us. Aside from this, it was a very smooth and positive experience. Thank you once again for all your hard work! ??

We hired Brilliance for our move, we told them in advanced we wanted an 8T truck but they arrived in a 4.5T truck. They started at 8 am till about 6 pm which took so much longer than anticipated. The guys that did the job Leo and Andrew were polite and hardworking but unfortunately did not have the right equipments / skills every removalist should have to move stuff - ie: stair climbing trolley to bring the fridge up to our townhouse.

They made an attempt to bring up manually but didn't have the right skills to do it. Hence the fridge is sitting in the garage. The company should be liable to provide the tools / training to their staffs to do their job efficiently. Disappointing that we had to pay so much more than anticipated, although we were given an hour discount for the trouble, it's still a lot of money that we had to pay than the initial price. There were also a few scratches and dents to our walls that we had to patch up as a result of the removalist which is not great. I contacted my colleagues who were able to bring the fridge up to our kitchen and they were not even professionals! These photos are proof that we could do it ourselves with the help of our colleagues up the stairs!

After days of trying to contact the company, they finally answered my call the day before pick up was scheduled and said they were unavailable to come. They managed to send someone from the company who wasn't a professional removalist. When the truck arrived in WA, the unpack was extremely rushed. I was not given time to count the items but I was told to sign the sheet because they had another appointment and assured me everything was there. They also unloaded someone else's belongings which I noted and put back on the truck. Three months later I finally moved into a new apartment. When I unpack I found that items are missing. Particularly a table, my ski gear, and a box of clothes. I have tried to contact the company several times, who advise there is nothing they can do because it has past the 30 days. I am very disappointed with this unprofessional service and lack of care that I have received. How did my items vanish? I do not recommend.

No stars. These guys contacted me in response to an online query on Tuesday 28th December and confirmed they were able to move me on 21 January. They gave me their pricing which I was happy with. I requested they lock that date in but come and do an inspection as I wanted to also get a quote for some storage. They advised the earliest they could do that was Wednesday last week when they re-opened. Ash came and went through, said I would get an email next day, didn't get anything. Chased them up by phone Saturday, said they

would get back to me. Nothing. Chased them up today and they have just said they are booked out for the date despite previously telling me they would lock in the date. I have now lost a week and a half when, if they had advised me they were unavailable, I would have gone elsewhere. Why waste time coming to inspect and price the job if they couldn't do it?? These guys are a waste of time. Go elsewhere.

The packing was very thorough but incredibly slow. It cost me double what I thought because the staff were so slow and my family and I needed to help remove all the furniture in the rain to speed things up. Never use this company again.

Disasterous from Start to Finish. Damaged Furniture through negliengence and then not repaired professionally. We have moved both internationally and domestically and have never experienced anything like it especially when we chose the more expensive option thinking that we would get a superior service, how wrong can you be. Rude management, careless and care less by nature. Absolutely worst experience ever. OH&S issues and it appears the staff not trained effectively and mostly backpackers.

Rude. Didn't even introduce himself on the phone.

Truck arrived at 6.30 am. All packed and truck gone by 10.30am Grant and his offsides, worked efficiently and quietly. I would recommend Batavia Removals, to anyone wanting a removalist. Office staff at Keys very efficient and friendly Cost very reasonable.

Keys are a outstanding corporation, and now with the association of Chess Moving, have become the company to approach regarding all transport requirements.

I have had good service before, but never this good. I can never thank everyone involved enough in particular Barbara ?? The truck drivers were great as well, no fuss or mucking around. Could not recommend Keys any higher than I can ??

Best service.

Moved from Kalgoorlie to Boddington. Very professional. No problems.

We are so happy and impressed the way we are being assisted. From Amanda who is direct and precise in giving the details specially the communication is totally Friendly and EXCELLENT. Grant and Tye assist in moving, packing things and placing inside the container are so BRILLIANT really impressive. I will surely recommend the company to my friends here in Geraldton who wants to move. I and my husband are so Thankful for all the help. Best regards Maria and Neal Evans

From the sales staff, to the team on deck at our house ... excellent. Thank you for helping take the stress out of this move. We have moved quite a bit and have always obtained multiple quotes. Thank you to Keys and the AMG group. This is our fourth move with this group. The moving companies in this group have always been the most cost effective choice combined with consistent professionalism.

Everyone I interacted with at Keys - The Moving Solution were extremely professional and polite. The admin team and management ensured I had everything I needed looked after and the removalists on the day were upbeat, friendly and highly professional. Completed the job swiftly without any damage and for the quoted amount. Will definitely be using their services again next time we move

Care and attention to detail. Professional and prompt response. Excellent value for money.

Very friendly and helpful removalsist would highly recommend

This is the second time we have had our move completed by Keys and could not be happier. The movers on the day were incredibly professional, skilled and efficient. Whole move completed in a timely manner, will always book through Keys and can not recommend them enough. Great service, very happy with their work.

Good excellent well priced service door to door which is not available from other transport operators

Very impressed with the overall experience using Keys as our Removalists ..very easy to deal with and staff were friendly ..would use them next time

Keys Administration was superb. This was matched by the professionalism of all four staff who completed the removal program: on time, courteous, efficient, friendly and nothing was too much effort for them

Great communication, great customer service, I highly recommend.

We dealt with several staff members at Keys and found them all to be very professional. They were always prepared to listen to our needs and were able to fulfill them to our complete satisfaction. We would be happy to recommend their services to anyone.

Unreserved recommendation from me. Services: Interstate moving , Moving-related packing , Moving-related storage

Keys were incredibly responsive, great to work with and well priced. I would gladly use their service again.

Just brilliant won't use anyone else ever again, they are so professional. Barry Boulter

Professional from the outset. Get back to you straight away and make the process simple. They also make use of top grade sub-contractors where applicable.

Keys were the most responsive in securing the job. I spoke with Glen and he visited a couple of times to sort things up. A change of destination, changes in the amount of gear going didn't phase them at all. Amanda's follow up was great. Keys made the whole process so easy. Thanks to all involved including Col and Jayden who did the uplift.

Nothing is too hard. Very prompt informative and on time. Workman lovely too.

Michael Brown from KEYS had been very professional and helpful. Helped to arrange my drop in short notice.

BR//Rajpal

I had Keys removals come out to do my move, I also paid for them to pack my wall unit. These two guys I had were fast and efficient, as well as friendly, and very helpful. The whole team and staff I dealt with were amazing from before hand and right through the whole process, and on the day as well. I really recommend Keys. Very professional and made the whole process stress free, nothing was too much for them to deal with. Thank you The Keys team. Very happy customer. I also had others comment on how efficient the two guys I had on the day were. Sorry I can't remember their names.

Do a awesome job highly recommend

Professional company to deal with from time of enquiry through to the guy who pack and the guys who did the move. Highly recommend Keys.

Positive: Professionalism , Punctuality , Quality , Value Excellent people very experienced Keys took so much stress away from our move Perth to Darwin in the midst of Covid. 2 professionals came in packed every little thing in no time with care for our stuff. Thanks Keys Services: Local moving , Moving-related packing , In-state moving

The guys at keys were absolutely incredible! Efficient, friendly and very professional. Nothing was too much trouble and the care they took with everything they packed was second to none. The office team were

extremely helpful with any queries we had throughout the booking and moving process. Couldn't fault a single thing! Will be recommending to everybody!

We could not recommend Keys enough! Having moved/been moved many times we have had some fantastic removalists but Keys is head and shoulders above them all. We had a somewhat complicated move but nothing ever seemed too much for the Keys team. Thank you especially to Toni, Paul, Ang, Brad, Junior and Jason - you were all amazing. Ed and Emma Archer

Thank you so much for helping me move from Kalgoorlie to Coolgardie. You guys were quick, professional, and friendly and great value for money. Very easy to deal with. Can only highly recommend you. And Shelley, thank you for such great communication, customer service.

A big thank you to Bruno, Jonas, Paul and Lachie who were amazing on the day of our move and storing our belongings into a shipping container. Thank you to Amanda for her wonderful help in the lead up to our and to Glen, who was professional and friendly. Such a amazing team. Highly recommend KEYS if you ever need removalists. Thank you!

Good place, beautiful pool, clean, excellent breakfast with choices and helpful staffs I strongly recommend this for family.

Really pleased with the team who moved our gear. Very professional, cautious and helpful.

Firstly Amanda was always helpful and prompt, she was one of the main reasons we chose Keys. The removal

guys were absolutely excellent and we have no problem in using and referring Keys again.

Keys have been wonderful from start to finish. Every interaction was positive and helpful. Their response time was quick and they were professional, yet friendly. They took the stress out of a stressful situation. They will cater to your needs and any level of assistance you require. I moved interstate and had to organise pet transport. Keys took care of all of it and at a great price and with great communication. Would definitely recommend and use them again.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value So impressed by the team involved. Upstairs, downstairs, a lifetime of possessions and everything done on time and with good humour. Wish the unpacking on our new home was as easy! Services: Vehicle transport , Interstate moving , Oversized-item moving , Packing & moving supplies , Furniture assembly

We were packed and moved from Exmouth WA to Perth WA. .The guys we had were fantastic , grandmas dresser and mirror (over 80 years old) was delivered in the same state it left , unbroken and undamaged.... Have had many removals over the years and these guys are the best .nothing missing , nothing broken.... Very impressed with the guys we had and the service....

Great responsiveness and very efficient team.

We had an amazingly friendly, efficient and extremely professional team from Keys that delivered and

unpacked our removal. Attention to detail and care of our belongings was much appreciated. Big shout out in particular to Brad and team. Highly recommend this company for your removal needs.

Excellent Service & Value Danielle was fabulous to deal with.

Used to have an excellent team of customer relocation specialist

We recently had a house full of furniture moved from Perth to Sanctuary Cove Qld. The team that packed our items not only covered and protected everything, they also new how to pack a container properly. The not only ensured nothing moved, but also got maximum space used within the container thus reducing cost. Even the team on the other end were exceptional. Highly recomend Keys. They are the best I have come across and I have moved a lot over the years due to working in different states.

We recommend Keys as they were very professional, pleasant staff who were happy performing their work with speed and efficiency yet able to have a chat too. We felt confident our furniture was being handled with care being loaded into a container on a 36 degree day. Just amazing. Highly recommend any time.

We had the fantastic Will and Ash come out for our move, and they went above and beyond to help with everything. They did a great job and were fast. Special shout-out to them for getting their truck up our ridiculously narrow new driveway- people get nervous in regular cars driving up let alone reversing a massive truck! I'll recommend KEYS to everyone in the future :)

Keys Removalist has a great team from the onset including management, admin and the removalists. Admin keeps you informed of each step. The removalists worked non stop, picked up and delivered with care, were happy to go the extra mile. All the staff helped us immensely and their natures were so positive and obliging. I can't praise them enough ?

Great professional team. Communication 5 stars, Reliability 5 stars, Care with goods 5 stars, Team friendliness and can do attitude 6 stars. Thanks again to the team at KEYS!

Amazing uplift 2.5 hrs great job boys thank you wonderful crew??????

this is my last move, but if I were to move again I would definitely be using Keys Bros again, the guys that came to my house were very professional and took great care with my furniture and household gear and nothing was too hard for them, fantastic job! well done guys and thank you very much Mark Atkins

If you're looking for a removals company that provide excellent customer service at a competitive price look no further than Keys - The Moving Solution. Amanda came to our property to provide a quote. She was professional, answered all our questions and always returned phone calls. Dean made all the necessary arrangements for the packing, uplifting and delivery of all our belongings. He was professional, double checked everything and kept us informed. Cameron and Cory packed everything - they were incredibly fast, efficient and very polite. Their packing standard was excellent, not one single item was broken or damaged.

Brenton and Rob did the final pack and prep before uplifting and delivery. Even though we moved to a two story house - nothing was too much trouble. Nothing was damaged, there were no marks on the walls and they placed everything exactly where we wanted it. They were polite and incredibly efficient. 10 out of 10 - thank you! Services: Local moving , Moving-related packing

Keys TMS recently did our uplift for an interstate move on behalf of another company. Their packing of our goods into container was exceptional. Everything arrived in perfect condition. Service was efficient and on time.

Such good people and professional. Friendly staff and efficient

Thank you, without your helpful team I would either be pulling out all my hair or hiding in fetal position under a table. The team that came to pack and move all our stuff were legends. They were so friendly, calm and professional when I was so stressed. I am now relaxed (as you can be with to small children) and ready for our interstate move. Thank you Keys team.

I highly recommend Keys Removalist for their high efficiency, competency and promptness. Their staffs come on time with highly skilled In their packing and boxing up handled with care. It so happen on my day of removal I got Keys one of the staff I rated him as 5 star namely Nathan he is so professional and competent so much so it blew my mind away. Him alone less than 2-1/2 hours he managed the pileup crockeries, fragile items books etc packed completely finished within 2-1/2 hours. Therefore, I conclude To highly recommend Keys to all those who look out for 5 star rating Removalist

Very helpful, responsible and punctual, right from quote provision to lift off. Highly recommend. Special thanks to Barbara, Amanda, Peter and pickup team.

Moving overseas is stressful to say the least but Keys have just made the experience easy and removed the stress. Glen gave us the initial quote which we accepted. Amanda and Daisy communicated regularly and were so courteous and cheerful. Anthony, Jason and Brad were absolute champions and worked hard to get everything packed and loaded without any damage. There are many moving Companies out there but Keys are next level. Communication, professionalism and great attitude. I cannot thank them enough and highly recommend them. I would use them again in a heartbeat. Thank you so much Keys.

Excellent service and care

Ive been dealing with Barbara for the last couple of days, she is AMAZING. She has been helpful, quick and has taken some of the stress out of a big rushed move. She's a true valuable asset to their company.

Professional and friendly staff take the stress out of moving. Would definitely use this company again in the future.

All Personnel from pick up and drop off were excellent.

Keys removalist has been so wonderful especially Amanda Smith, who I have been liasing with. She has gone above and beyond to help us with our interstate move. Definitely more than 5 Stars for us. Keys removalist are definitely the company for you move. Keep up the great work.

The offer the highest customer expectations available

Very professional, careful and courteous.

We used Keys recently for our office relocation and the entire process was seamless. From Danielle in the office to Tim, Hamish, Brendan and all the staff who assisted on site, they were the epitome of professionalism and efficiency and I couldn't recommend them enough.

We relocated from Sydney to Perth during a very uncertain period but I was reassured by Keys that all would go to plan and it did. The team were on time, they were incredibly friendly and professional, and managed the task at hand efficiently. When I thought I had misplaced a few boxes they made sure they searched the whole home to find them for me. I was incredibly impressed and would certainly use them again. Highly recommend

Keys are a professional removalist business and we greatly appreciated the service they provided. The quote was easily obtained and competitive. Liaison prior to the move was good. When the team arrived on packing day they all introduced themselves so we knew them all by name. All of our items were wrapped very carefully. This was a big move and the team had a good sense of humour over the three days of packing, uplift and delivery. They were literally running the entire time to get the job done. We had a hiccup at our end with settlement delayed by our buyer which meant changing the delivery date to the new home. Keys adapted quickly to the change of date without complaint. The team moved valued furniture carefully and managed to get some pieces into rooms with tight spaces. We thoroughly recommend Keys to assist with your next move. There is no way we could have done what the team did in three days with such care. Thank you Keys for a job well done.

Amanda and Greg organised my move from Perth to Darwin. They were responsive, easy to talk to and very professional. I did have to get in contact with them to organise when the removalists did come and they then did come 2 hours early. But they were quick, clean, great communicators and very professional. Wouldn't hesitate to use Keys Movers again.

Not broilers. They were great in out done and dusted. The guys were so good and they were very helpful my suggestion give them a good pat on the back.

Edit: Since leaving negative feedback, the company ensured that the problems were rectified, and apologised. I'm happy with the end result and the effort that went into making things right was far more than I've received from other companies.

Keys' removalist team were exceptional. They worked really hard to ensure that they could fit as much as possible into the container. Now waiting for everything to be delivered, hopefully the unloading team is just as good. I give the removalist team 5 stars and the office team 4 stars.

Professional and organised group to move with. Would highly recommend.

Haven't finished with them

I had a very positive experience with Keys. They were professional and the packers did a really good job taking care and were very friendly, though they did pack some items in a very strange way. All my belongings were transferred intrastate in a very quick manner too. I would definitely go to Keys again when I next move.

Revised review: Missing items during delivery, promised to contact me which never quite happened. However missing items arrived at my house a week later. Thanks.

They know their job, cool

On time and always answered or promptly returned calls. However our one new large sideboard, highlighted

as please do not damage, was pushed up the truck ramp with my son watching, the angle with a very small low wheeled platform, was never going to work. Upside down it damaged the top. Noted on the pickup. Result: you did not pay the \$1000 insurance fee. My reply, I do not need insurance that is limited anyway, if you damaged the items, that is it could have/ Should have been avoided. I'm covered. That is they can't just throw and smash your possession. Duty of care. When I highlighted the insurance restrictions and their policy, yes I read all the fine print. I was told they would pass it onto their insurance, who initially said no. Four attempts I gave up. The only way to repair solid timber is to have it removed again to a repair shop. This was my 18th move, this time not compliments of the Defence Force. What do you do? Start visiting removal company offices, get a lawyer or let them take \$4,500 for a local move and take no responsibility. Andrew Swanbourne

I asked this company to move my items from WA to SA. They lost a box full of electronics like a Nintendo switch and 3 long clamps. This is after taking 4 weeks to deliver the items. I contacted them to report the missing items. First I called them and was promised an email shortly regarding the items... I got no response. I called again a week later and tried again. This time I sent them an email with pictures of the missing items. Still no response. After several more calls and emails I got the response that basically says your a liar and we are going to do nothing about it, take us to court. I was then contacted by Tim who's a director of the company. Tim agreed my evidence showed my items were there. Tim apologised agreed that everyone is always learning and everyone can always do better which I do agree. I eventually got all my items from Keys. Thought initially no pleasant they finished with good customer service. My old advice, take your own inventory first before you move before relying on anyone to do it for you. Protect your stuff Services: Moving-related storage , In-state moving

Would not recommend Keys Brothers. The delivery boys were fine, very prompt, polite, professional. But the office is impossible. Difficult to organize times, but the worst thing is that lost goods are just that, lost goods. They will not make any attempt to retrieve your lost goods. So as long as you're okay with losing a bunch of

stuff with your move or you're so extremely organized that you know exactly what you're missing as the boys move your stuff in, would not recommend this removalist.

My family move a 20ft container from Brisbane to Perth 12 months ago and Keys were responsible for unloading the container , I have moved around the world and have never had the experience that Whybirds and Keys provided , firstly Keys failed to do there research about our driveway and after blocking the street for 20 minutes during morning rush hour we received a call that they will not be able to unload at the property and will park elsewhere and unload the contents of the container with an extra charge , further to this day I still have not received any word on my PlayStation that conveniently did not arrive in Perth ,the insurance excess is practically the same value of the PlayStation and why should I pay for an item that went missing from a Container that I watched being packed , to this day it makes me sick that this organisation refused to even look into the matter . I definitely do not recommend this Business.

Used over the years. Realy good. But last move. Dragged there feet. Slowest removalists ive ever seen. And i used to be one. All furniture damaged. Stored in container 3 years. Most stuff ruined from moisture and dirt. Rang management about cost quires. Spoke absolute rubbish about job. Remember i was one. Full traineeship completed and lots of years experience. Never again. Can get backyarder at 3rd of the cost and get same result. Paid for professionals got young bludgers. One NZ fella was nice and did most of work unloading whilst driver mucked around folding pads at a pace of a 12 year old.If this is standard now. Very poor.Not worth it

Pick up day from Perth was good. Then everything went downhill. A bookcase delivered with a chunk missing from a shelf. A big chip out of a tv unit. One box smashed in, a treasured ornament smashed to a thousand pieces. Plates smashed. A tv power cord missing. Told 2 - 3 weeks... One month later we received our belongings. Not so impressed. And they never cared enough to respond. Will never use again.

Worse company ever (at least the Perth branch)! I discovered after 3 weeks of email exchanges and calls in order to get a quote that I wasn't even figuring as customer and couldn't find my request. Got a quote after this that was more than double compared to others. When I called them to try to understand the reason behind that crazy price and pointed out that I got cheaper quotes they simply answered to me than go with PACK e SEND. Yes I m w Pack and send now! They re professional and polite!!!!

Unfortunately I am not able to comment on the pick up, storage, transit or delivery aspects of the business. The reason being Keys didn't even provide me with a quote despite me contacting them on three occasions. Each time I was told they would be in touch in a couple of days with a quote. I know these are strange times but customer service is still important. Needless to say I took my business elsewhere.

Removalists are like thugs blocking the driveway. Very rude

Don't believe the budget or program.

Stay away from this company My kids were sick just because of this unprofessional company Their employees took 8.5hours to pack my stuff My whole day was ruined After 1 week we called them to know the progress They said ur consignments still in perth it will be delivere next week,after half month they are still not sure how much time it will take !!!1 or 2 more week UNPROFESSIONAL COMPANY

DO NOT WASTE YOUR MONEY. Terrible experience. Terrible customer service & overall unprofessional company. I shipped my belongings from Perth to England. KEYS lost some of my inventory about 6 months ago now and there has been zero progress or updates on the situation for months. Ive been very patient but

now they haven't replied to any of my emails for 4 months and it's getting very frustrating. The last communication I heard from them is that they have 'found' the lost items and would ship them to the UK. However, I contacted the British courier to get updates and they informed me that they have received NO such communications from KEYS and there is no record of a container containing my inventory being on the water??? On top of that, I've reached out to Daisy - who was originally communicating with me regarding the shipment - multiple times and she's completely ghosted me. Please do not waste your time and money on this company.

Terrible! I asked them to put any boxes with nothing written on them in the front lounge. What do they do? Put every single box in there no matter what room was written on it. Now I have to spend hours going through it all and carrying it around the house. They were dropping boxes on the ground off the container with no regard for my belongings. Wouldn't recommend

Down to earth fun and entertaining removalists, had a laugh or two, but still being very professional and punctual, arrived at our destination quicker than us, next time I move I would choose them again!!!!!!!!!!

Would definitely recommend 777 to anyone moving within the Wollongong Area. Allen, Mick and Mahed were punctual, professional and friendly, and made our move day a whole lot less stressful. We were working in near 30' heat, and despite all of us becoming quickly drenched in sweat, the guys declined our offer to take 5 to grab some water, instead preferring to power through until the job was done. Very happy with the work.

Really happy with the service I received. The removalist sent out for the job were very efficient, polite and safe with all our items. I had a few quite heavy and bulky items that I needed moved into a new home, no issues whatsoever. I will definitely recomend 777 RW to others.

Really good service, Allen, Matt and Harem are really nice and helpful. Best remove experience.

Have used 777 three times and yet again I am absolutely floored at the manager and removalists professionalism and efficiency. The price being ridiculously cheap just blows my mind. Kass and Nader were polite, respectful and very efficient. Great customer service!

The team in general is great Starting with the sales team that replied mega promptly to any question and or request. Then the crew were efficient, amicable, respectful and careful. Mike, Mao and Has (sorry if misspelled) were very dedicated and careful. Quick and efficient without being careless to be quick. Our experience was great. They did the job cleanly and organised. The only thing I found a bit expensive was the piano moving as our piano is an upright with wheels. But 5 stars for service and quick attention and , again amicable and respectful and informative team, definitely deserves it. Thanks. You made our day a breeze

Positive: Professionalism , Punctuality , Quality , Value Had a great moving experience with Kass and Mike at 777 removalists. They we're professional, efficient and very friendly. High recommend them! Services: Local moving , Moving-related packing

Quick, friendly and helpful. They made my move a breeze.

The guys were incredible, we moved from a property so steep it was practically a cliff face but they were unwavered. Our mattresses and appliances were wrapped for protection, handled with care and even though we were paying by the hour these guys didn't pause for a moment. I was thoroughly impressed and would hire again without hesitation. Service: Local moving

Helped me move house. Worked fast, very happy with their efforts.

Amazing value for money, they sent Kass & Mike who just absolutely smashed it, in an incredible speed. Friendly, amazing service highly recommend.

Positive: Professionalism , Punctuality , Quality Matt came out and assessed the job on short notice, gave me a quote and was all organised within the day and booked in. His team were very professional and put in a great

All good very efficient.

10 out of 10 service. My original removalist stood me up did not turn up at all, and when he called me 3.5 hours later was rude and swore at me eventually hanging up. 777 world removals came on short notice with their biggest truck and the 3 guys that came did the work quickly and took extreme care with my stuff. Wrapping and placing everything where i asked. I am highly recommending 777 world removals to anyone that needs to moove. Regards Jack Burns

These guys are without a doubt the world's best removalists. I have used them 5 times now and would never use anyone else. They are professional, efficient, hard working, thorough, and most importantly friendly lovely guys. Mohamad, Hazim, and Mohamad all went above and beyond today helping my partner and I combine two households (with a couple of extra pickups as well), and I couldn't be more grateful. DO YOURSELF A FAVOUR - HIRE 777 WORLD REMOVALS!!!

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Professional service would highly recommended!! Kass and Mike were fantastic and very pleasant to deal with. Service: Local moving

Made moving houses hassle free. Would definitely use again!! Services: Vehicle transport , Local moving , Moving-related packing , Oversized-item moving

Very happy with the exceptional service from the team. They really went above and beyond helping my wife and I move house, everything was carefully loaded/unloaded, and they even saved us further trips by packing additional items - we moved our entire home contents in 2.5 hours. Will definitely be calling them again the next time we move. Very, very happy customers here and I have been telling people I know that it is possible to move stress-free! Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Allen's Team worked quickly, efficiently, and nothing seemed to phase them about moving my stuff, even when quick decision making was required. So much better than anyone else I have used in the past. Thanks guys, much appreciated Service: Local moving

Great job by Kass and Mak. Rain and 3 flights of stairs just to add to the move. Very happy and would recommend them to all my friends and family ??

Very good service!!

The 777 Removals (Allen, Mick & Odaa) were fantastic. Highly recommend this service. They worked for 12 hours solidly with my move last week, problem solved a difficult driveway and got all my possessions safely to my new home. The guys were professional, efficient and friendly. Would use them again. Thanks 777 for easing the stress of the move and providing a great service! Service: Interstate moving

Fantastic!! Was moving from Canberra to Wollongong and out of several quotes, 777 World Removals were the most cost effective but doesn't mean quality of service was sacrificed. They showed up when they said they would, Matt was highly responsive from initial quote to moving date, moving guys were friendly, no complaining and went about the move, were very efficient and the move early ahead of the scheduled end time. My new place had stairs (which I thought was going to be troublesome) and they just lifted my fridge, couch and washing machine up the stairs like supermen! Also looked after both apartments ensuring they didn't bump into walls/doors when moving things. Also dismantled my bed and reassembled the frame of the bed, which was highly appreciated. Highly recommend!

I used them today. Really appreciate their good work. The guys from 777 name Kass and Mike were very friendly and good at work.

Thanks for Malik and his team for their amazing work

These guys came to our rescue at the 11th hour!! After being screwed around by another removal company who didn't show up and gave us no reason as to why, we called 777 removals at 7:45pm and Matt booked us in for the next day at 11am. The two guys rang in the morning and said they'd be an hour earlier than expected which suited us and they did a great job to get all our gear out in such a timely, friendly and professional manner. We can't recommend this company enough!!

They helped move an entire unit, they were very efficient and took great care with valuables, very nice blokes and will recommend them to anyone looking for a removalists

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Great service. Friendly on the phone, great communication about when they would arrive. Showed good care to look after my belongings, and Kass and Mike were both lovely and helpful. Thank you Services: Local moving , Moving-related packing

Great service, they take good care of everything, wrap nice and reassemble for us!

Thanks for your job.

The removalists themselves were very helpful. They arrived to help with the packing (as we had booked), and while we might have preferred they take a little more care of things that were clearly valuable to us, they were efficient, answered our questions and got us right on track. They also left us with some additional boxes for final packing - 30 additional boxes just to make sure that we had enough. We were told that those boxes could be returned if we didn't use them, but we did need to pay for them upfront (which we did). On moving day the removalists were excellent, fast and efficient. All our furniture was transported without fuss. The only reason I'm taking stars off here was that they charged \$23 per box for packing (including the ones they left with us). Doing some basic maths,  $\$23 \times 30$  is \$690. On the final moving day, they only gave us a discount of \$100 for returning those boxes. It's a great business model, to be sure. They get to sell those boxes to the next customer, and effectively net \$46/box. It's just not very good customer service or ethical business practice when, by rights, we should have been refunded \$690. But, again, the removalists themselves were great.

They ask for my details to get a call back, but nobody ever rings back. Obviously they don't need extra business. First impressions count and I tell friends and family about poor business practices.

Unprofessional, DO NOT USE. My Furniture broken and filthy, they came with a dirty undersized truck. Matt lied from the beginning. One guy couldn't speak or understand English at all. Two guys, both weak in strength couldn't move furniture dragged it along timber floor boards. Dropped treadmill, broke light, drawers and gate. Told me the job would be two loads and would cost \$1,200. They left the major appliances like washing machine and refrigerator till the very last (and it wasn't on the second load). They went and got the major items we needed to live on a third load, parked the truck in the drive and wouldn't unload it until we paid over \$1700! After promising they could move my house in 2 loads!! These guys were not professional removalists, absolute joke to watch. They are CROOKS Holding furniture at ransom for their insane price and uncaring unprofessional move. When asked about insurance details they have me a home contents provider NOT a business removalists insurance company. I recorded my phone conversation with Matt, need any more information regarding this please contact me. Ill be going to fairtrading to report the sham business. These other reviews saying how great they are are FAKE!! Beware do not use this business. Tried to post this on Facebook and 777 World had blocked me from submitting bad reviews.... shows how honest and bad they are!! Update Dec2020 - Google reviews (5 star etc) are fake, they have used copied other peoples photos from the net to create fake accounts, I have got in contact with someone who's photo they used. The small print on their invoice was copied from another removalist company and had their name and ABN details. We did pay them more than what they quoted then they sent us a letter of demand for more money. I took these liars to NCAT and won, they had to pay us back!

do not use turned up in a small truck when we booked a 3 bedroom house, and then when we questioned the size as the job would take at least 10 hours we were cancelled and left with nothing on our moving day. very very rude owner. DO NOT USE!

Don't Use Ever Arranged a truck to relocate a 3 bedroom house, they sent a small 4.5 ton which was completely inadequate, when questioned about the size and the end cost of using such a small truck as the job would take most of the day, they cancelled the job and left us with nothing on our moving day.

Booked with 777 and they begged for us to change the date so they could move someone else which we agreed to. Then on our day to move they only brought a small truck and moved half of our things leaving our storage container with the other half. Now I need to find another removalist to complete the job. Would not recommend 777

Price gouged me an additional \$200 and then left with my security key. Do not use

I had a bad experience after the second time using their service. First, they promised us to look after our white goods using a special wrap to cover my white goods. It happened when two guys carried my washing machine from level three to down stairs (we lived in unit and no lift). Suddenly, I heard something cracked very hard. I saw the cover at the back of my washing machine came off from its and broke. We called an owner and told him what happened. An irresponsible owner said "buy it from ebay, it is very cheap and you don't need the original one". "It is not a big deal", he added before hung up the phone. We were very upset to hear the solution. Consequently, we deducted the total amount that I should pay to buy that spare part. Clearly, won't never ever using their service again. Very bad experience. Service: Local moving

Poor service over the phone. Operator was extremely unhelpful and was really passive aggressive. Was Given an online quote via email with no clear options/instructions to close the loop in communication. When feedback was given in a genuine manner (through another staff member)- was told that they know how to answer phonecalls. Once again just lack openness to feedback and reflect.

When quoting on your job, we provide the name and reviews of the company that matches your inquiry. Although we vet every company on our system, we encourage you to do your own due dilligence on the company you choose.

Packing and unpacking boxes for your house is not usually included by default when you book a removalist. This is a service that needs to be booked separately (you can do this through Muval) or done yourself, and is best arranged for a day or two before your removalist is scheduled to do your uplift.

In our experience, people always dramatically under estimate the time it takes to pack their house, and it's usually one of the most burdensome tasks of moving! If you're packing yourself, make sure you start early and do a couple of boxes a day. Otherwise, save yourself the hassle and book packing services through Muval. Your future self will thank you.

No, The moving company you book will load and unload the truck with a minimum of two professional removalists.

If you cancel within 48 hours of your booking (if your move is more than 5 days away) or give three weeks'

notice before your pick up date, you will get a full refund of your deposit.

Yes, it can, as long as you notify us before booking your move.

If you have booked the shared truck option, then yes. If you have booked a premium option, then you will not be sharing the truck.

Depending on the destination and the state you are going to. Standard delivery times vary from one day to 21 days.

If you change your list of items or space required a week before your move, we can usually adjust the price accordingly. In some circumstances this won't be possible depending on the booking volume and amount of change and notice provided.

We can take care of everything around your move, from start to finish. We can conduct a survey to determine the scope of your move and provide you with a much more accurate quote. We can also supply you with packing materials and even handle all the packing if you can't do it yourself.

On the other hand, the removalists bring their own tools so they can disassemble some of your furniture in order to move it more easily. And since you are moving out, you might as well take advantage of a comprehensive end of tenancy cleaning service.

If you are a tenant, then this is a perfect fit for you since you'd probably want to get back that security deposit held by your landlord or leasing agent. But what happens if you have to move out but there is no place to move to just yet?

Well, in that case, we can help you out with moving and storage. We can take your belongings to a secure storage facility until you arrange your new accommodation. And once you are ready to move, just let us know and we will bring your things and even assemble your furniture for you.

Maryos moved my belongings today and was efficient, up front and accommodating. Would use Sirius again.

Maykil and pawlo were fantastic movers, very very helpful, highly recommend

Ive moved about 12 times in my life and honestly ive never seen anyone like Maryos and Frank. These guys are true professionals, they have the X factor, the combination of hard work and safety is hard to find in this time of age. I don't recommend anyone else in Sydney, call him and do yourself a favour. Thank you guys.

Maryos - Good job!

Maryos was great!! Took the couch up over the balcony and was very quick overall. Thank you

Michael & Duraid very friendly & efficient when unloading my belongings.

I, 110% recommend Sirius Removals. They helped me with both the local and interstate aspects of my move. It wasn't an easy move and Taz and the boys all stayed in touch every step of the way. Considering I grossly underestimated what I had, their communication was very transparent. Again, I am extremely impressed and grateful for the very difficult move that they helped me navigate.

Michael + Paulo were extremely professional and were the first removalists we have had that we liked. Super quick and took on feedback as well with smiles. Sirius removals are amazing, and I would use them again in a heartbeat.

Amazing service, fast, and accommodating to what we needed on the same day! 11/10 thanks Michael and Nasir!

Maykil and Marios have been AMAZING!!! Best removalists ever!!! Can't thank them enough for their amazing service!!!

Michael and Paulo were great and thorough with making sure all my parents furniture were transported with

care and efficiency.

Mario is an absolute champion! Ably supported by Youssef, the move from Melbourne to Brisbane couldn't have gone more smoothly. The guys went the extra mile. Right down to bubble wrapping the handmade doll house. We couldn't have wished for a better relocation. Thank you so much.

Had a great experience with Maryos. The guys did a great job in hot conditions and lots of stairs with absolutely no damage to any furniture. Would highly recommend to anyone looking for movers, fantastic value for a fantastic job.

Fast and efficient, good removalist!

Maryos and his team was great! Very fast and detailed services. Would definitely recommend!

Maryos and team are super efficient! They worked in the rain on our move and didn't stop for a second. Loved the service and strongly recommend!

Called the company Taz was the first point of contact and he was very professional and prompt and helpful, the truck arrived and Adnan and roni helped in a seamless transaction , looking forward to meet them again in my new home in Sydney thank you once again. I highly recommend

Roni and Adnan were incredible! They were so kind and patient and they got everything on board without any issues. If you need someone to help move your things, choose them. They're honestly great.

Really professional movers. Me and my husband are extremely satisfied with the service. Adam contacted me

and asked if it was okay to have the pickup a day later as one of the worker was sick and he immediately rescheduled a next day delivery. The removalists were really punctual; arriving 5min prior to the time that was told to me. We dealt with John and his colleague. He was upfront regarding any excess payments needed from the beginning of the move by gauging the items i have, which helped to prepare ourselves mentally and financially. We couldn't be in the new home that the furnitures were moved into when they arrived but they were really trustworthy. All items arrived and were in the same condition. They also helped to put all furnitures at the place where i mentioned and were very thoughtful to protect the furniture that was meant for the balcony from the rain. They were also thoughtful to place the furnitures in a way that it would not scratch the wooden flooring. Highly recommended!

Best removalist in Sydney, Micheal and Paolo were very professional, my things were packed carefully and within an hour of arrival! Definitely using them again! Thank you Micheal and Paolo

Sirius Removals was able to make quick adjustments with last minute rebooking due to unforeseen events. The two movers sent took good care when moving furniture and other items. Quick to resolve challenges throughout moving process. Solutions to challenges efficiently explored in a professional manner by Aisha. Overall summary: Flexible time arrangements. Adaptable to dynamic changes in between start to finish of moving process. Great effort spent to maintain client satisfaction. Thank you for an overall positive experience.

Was very happy with Micheal and Yousuf. Very efficient, hard working and punctual.

Maryos has worked really hard to fit all my furniture into a not very big storage unit, a really big thank you for getting everything into our storage space.

Mario & Yusef helped us move interstate. They were efficient, no damages to our belongings and communication was excellent. Would recommend!

Had a excellent experience with our recent Melbourne to Brisbane pick up and delivery. Mario and Marcus handled everything very efficiently and got delivered overnight, earlier than scheduled. Everything handled with care. Price-wise, very reasonable compared to other removalists we got a quote from. Will definitely recommend to anyone who needs an interstate move.

Moved interstate from Canberra to Melbourne with Sirius. Roni and Adnan were our removalists and did an amazing job at both ends of the job uplift was smooth, and downlift was completed well within the allocated time despite the unfortunately wet conditions and some challenges with our property. Roni was especially accomodating and communicative across the whole process. Highly recommend their services and would go with Sirius for future moves!

Great delivery on time and friendly and helpful. Good service. Well done . Thank you Michael and Marcus

Very efficient service! Did a next day delivery from Melbourne to Sydney for a two bedroom with stairs. Mario and Michael have done such a great job getting everything safe and secure. Incredible parking skills as well with such a big truck! Customer service was also very reliable and quick to respond.

Michael is the hardest worker I have had in all my moves. Careful and considerate, can recommend anytime. 5 star.

This is the second time we have used Sirius for an interstate move, and the second time we had Michael on the team. Again, the experience from booking, to communication, to lift up and off was seamless. They are a friendly, efficient and highly professional service, and are also reasonably priced. We have recommended Sirius to anyone we know moving interstate. Thanks again!

Thank you so much to Mario, Yusef and Michael. Great delivery service. Super prompt and professional communication and handling. Would highly recommend.

SIRIUS REMOVALS ARE ABOVE THE REST! Professional, efficient, great communication and value for money. The teamwork from booking my move with Taz to William, Julio and Richard moving my belongings was 100% stress free. "Gracias chicos, son los mejores". Don't go with anyone else. Thank you team Sirius :)

I can't speak highly enough about John and Andy. The service I received was second to none. Nothing was too much trouble for these guys. I have moved many times and these guys are the best. The entire move interstate was seamless. I would highly recommend John and Andy from Sirius Removals. Thank you so much guys  
????

We used Sirius to relocate our lives from Wollongong NSW to Sunshine Coast QLD and not only were Sirius

Removals the cheapest, they were also super reliable, professional, careful and amazing to deal with at every step. They went above & beyond with their customer service and delivery, and I would absolutely recommend them to anyone wanting to enlist 10/10 removalist. Thank you!

Mario and Yousef made my interstate removal 10/10!

Good service for a decent price. Good job Nash!!!

Efficient and great service. Thank you

Maryos and the team did a great job moving our 3 bedroom. There were lots of stairs and the guys were quick and caring with our belongings. I used them twice and would highly recommend their services.

Awesome experience with Taz, John and Mario. Taz in particular, exceptional customer service on all levels. Available for your inquiries all the time

Roni and Adnan were very professional and efficient in wrapping and loading our furniture. Once wrapped they covered everything with blankets to avoid any damage. Our furniture arrived in Sydney from Queensland undamaged as expected. They carefully brought the furniture into the house and placed it in all the required rooms without a fuss or rush. We could not thank them enough for their services. We would not hesitate in recommending Sirius for any house moving assistance. 11/10 service as they went above and beyond.

Maykil and Mairos were amazing help and exactly on time. They were professional and really nice people. Would definitely recommend Sirius removal.

Michael and Marios great job.

Mario and Michael did an excellent job! ?? Thanks very much!,??

We booked Sirius via the Muval website and they were very good value for money, coming in at only a little more expensive than the cost of hiring a truck to move us from Geelong to Sydney. Mario and Michael were quick and efficient, and did an exceptional job carrying our heavy items across the backyard when front access became impossible. Very happy with the job!

Mario and Youssef did a fantastic job of moving my stuff from Melbourne to Brisbane. Highly recommend them.

Maryo and Paulo were absolutely top class. They had no issues navigating tight spaces in hallways, lifts, stairs with heavy/awkward items. Great chats with them too, super nice guys. Unreal service, would 100% use them again!

Maryos was very helpful, quick and reliable. Would 100% recommend for moving, for peace of mind and excellent service

Maykil and Marius did a fantastic job. We would use them again for sure. Excellent service, great job all round. Five stars

Marcos and Maykil were excellent! Definitely recommend. Super professional and very nice guys ??

Awesome team. Gracias to William y Richard for helping our family move on this HOT Melbourne day. Good

timing and reasonably priced.

My experience with sirius removals was not bad but also not very good. I was quoted for 15 cubic meters and 1.5 hours for pick and 1.5 hours for delivery. I received little information about when they would come to pick up my belongings, they told me afternoon/evening the day before, and ended up coming at 9pm, giving me a 5 minute warning of their arrival. They were able to pick up from 2 locations, which took them less than 1.5 hours. However, when I asked them to pack a few items that were not on the inventory list they were very unpleasant about it, even though I didn't even use up half of the quoted area. I was so uncomfortable I left some things to be brought up by family because I didn't feel comfortable asking the removalists due to their unpleasant response to items not on the inventory lists. My belongings were delivered safely with minor scratchers. The delivery location had one set of stairs to the living areas with a garage underneath. When they arrived I asked them to put the boxes in the main living space and their response was a flat out no, they would put them in the garage underneath. It took them less than an hour to move all the big furniture upstairs, so I asked them to bring the boxes up if they had time. With 20 minutes left on the clock since they arrived, they left leaving 1/3 of the boxes still in the garage for me to bring up myself. While I appreciate that my stuff arrived relatively safely, I think the customer service, communication, and doing exactly what the customer pays for needs to be improved. For my own piece of mind I won't be using this company again.

Moving out and moving in our stuff all late for about 5 hours. For moving out: we all agreed on a very early time in the morning, we packed everything, they didn't arrive, came very late in the afternoon which ruined our plan and we had no place to stay as our lease ended. Came late for dropping our stuff, we waited for whole day, came at late night and finished work and asked we pay them immediately and don't care what service they provided for customers and how we thinking. If you pay them late, they will call you millions of times, and

when they are late, they won't update their time to you, you have to keep checking with them, when can i get my stuff please. Overall, their time are valuable, and customers' time and plan are worthless. If that's how the relationship between their company and customers, then there never should have repeat customers. I won't use them again.

Movers showed up hours late then as soon as they arrived started complaining about the amount they were being asked to move even though I had provided the company a list of items. One of them spent more time sitting in the truck than actually moving anything. Multiple items dropped and damaged with little care shown for our possessions. Not sure what route they took but they arrived 45 minutes after us (took us 15 minutes and the movers over an hour). In the end, the job took 5 hours when our previous movers did it in 2.5 and had more items to move.

Doesn't understand they have the incorrect number and keeps calling after I specific said I am based in QLD and hadn't organised an removalists especially one that is Victoria based.

Damaged my fridge, furniture, and walls in apartment from rough handling. Rude and disrespectful. Interstate move.

AA Furniture Removals have the latest equipment to deliver efficient service and some of our equipment includes Pool Table Trolleys to Duct lift, Heavy item trolleys, and piano trolleys.

Leonard and the guys are the best in the game. Always professional and punctual, I wouldn't use anyone else.

Good communication from the admin team. Helpful and friendly removalist staff. Would recommend and use again in the future

Mick Jason and Casey were fantastic 11/10 amazing

Highly recommend Robina Removalists. We moved interstate and found it was easy to get a quote and they had great communication throughout the process. Will and his team were amazing, polite, quick and took great care when packing all our items, which were all delivered in the same condition. In the stress of moving

house, the smoothness of this process was appreciated.

Lana was amazingly helpful for what was for me quite a complex and emotional move. She just took care of everything that resulted in a very smooth moving experience. We used Robina Removals twice in a period of 3 weeks and both the crews used were so incredibly helpful and kind. Thank you so much guys, I wouldn't hesitate to recommend this company to anyone. Keep up the great work.

Too easy. Very careful with my stuff. Will use again. Highly recommend.

Moving house is never a pleasant experience, but Carl, Anthony and Lana from Robina Removals made a very positive difference to my latest move. They are efficient, pleasant at all times and punctual. They took great care of the furniture and I couldn't have asked for more.

Pablo & Jason were delightful and made the move as seamless as possible. Thank you! Highly recommend.

Nothing but praise for this company. Total professionals from first contact to the last cannot praise the removalist highly enough, I highly recommend

I cannot speak highly enough of Robbie and his team at Robina Removals for the outstanding service with my move. The team were friendly, energetic and went out of their way to make what was a stressful move, go seamlessly for me. 5 star service, and I would highly recommend to anyone. Thank you!

Process was fast and professional, great job by Nick and Anthony

Had our baby grand piano disassembled and moved for renovations, and then reassembled after completion. Excellent service with clearly knowledgeable movers. Incredibly happy with their service, and the staff were efficient, and just all round nice guys. A huge thank you to the team. Honestly couldn't ask for any better service.

Robina Removals we're great to deal with. I booked pre-pack of breakables and kitchen as I was having a heart procedure couple weeks before move. Just as well as ended up with 2 broken arms after a fall on Xmas morning!! So a good removalist was imperative in my condition!! The pre-pack time was confirmed day before and Jacent the lead guy was fantastic that day and the next truck day. The poor guys got hit with a summer storm as loading into new house and there was no electricity so it was dark and difficult. Couldn't speak highly enough of the team!! ????????

Guys were amazing, so efficient and no damages, 2nd time Ive used them

no hassles, no drama, just call them, they collect it and drop it off. very easy.

The Robina Romovals team really did excellent for our move-out and move-in. We had big and heavy pieces of furniture, unusual house layout and unexpected difficulties, but all got sorted in a timely and cost efficient manner. ??????

A completely professional moving company!! From Olga in the office to the Removalist team- Phill, Robbie and Pablo on the day, made it a move that had no stress and went very smooth. Nothing was too much for the team and certainly went above and beyond what was required. I have no hesitation in recommending Robina Removalists and thank you so much for such an awesome move. A job well done!!!

Olga and team were super helpful and super professional. I wish found these guys earlier when moving houses. Will be using them again !!

Robina removals - you are a life saver! Lana is an absolute asset to that business but the whole team we have dealt with, have been amazing! Thank you for professionalism, responsive and friendly communications but mostly for delivering when you say you will. Will continue to use you in the future

This is our 3rd time using Robina Removals and once again they've made our move back into storage so much easier. The office staff are also great, acting very professionally and excellent communications.

Would like to say a Huge Thank You. My move went without any hassles with transporting from Point A to Point B Interstate. Your drivers dedication, friendliness and communication was lovely to see. The care of packing my furniture into storage unit with making things accessible and pointed out things that would need to be replaced shortly due to the long storage condition they came from and suggestions to help with fridge smells etc., I truly appreciated this. Honestly i was nervous with the move due to past experiences and your driver and team have made this move so much easier for me and if I ever need to move Interstate again I will definitely give you guys a call.

Leonid and his team did a great job looking after me.

The removal service provided was excellent. They exhibited remarkable efficiency and speed in completing the task. I was initially quite stressed as the previous removal service I had arranged failed to arrive. However, upon contacting Lana, she promptly facilitated a booking with this company within less than half an hour. I highly recommend their services and will certainly engage them again in the future.

100% cannot recommend Robina Removals enough!! ???? the 4 team I worked with on Tuesday 11th April was a dream!! Mic, Darren, Nathan & Dylan are the true legends!! I couldn't be more grateful and appreciative for all the hard work you all did for my family and myself. You all are such down to earth, super respectful and diligent men who worked with such perseverance and determination to get the job done! It was a very hard work of a full days labour and glad we all got it done at the end ? you all are so kind and have sweet personalities. I am so admirable of you guys and so glad we got you to help us out. If anyone out there reads my review, please check this company out! You will not be disappointed at all! I encourage you with all my heart that they will look after you. Thank you thank you thank you so very much to Mic, Darren, Nathan & Dylan for everything & the kind admin team for organising it all so smoothly for us. DREAM TEAM SHOUTS OUT TO YOU! ????

I booked an urgent removal with Robina Removals with about 4 days notice. They had no problem getting me in and thee 3 guys cleared our house in about 1 and half hours. They were at our destination in less than an hour and had our boxes and furniture in place in under 2 hours up a very steep driveway. They moved and moved again some furniture my wife wanted in certain rooms. They were great. Nothing was damaged. We will be using them again when we relocate to our permanent residence.

Easy to deal with and professional team. Would highly recommend. 10/10

Helped us move from Burleigh, great couple of lads sorted our move. Lana, Leonid and Olga in the office

were amazing, awesome communication and pricing. Would recommend!

Fantastic company with great service. Used them to transfer artwork from Melbourne to the GC. Pick up and drop off was effortless. Very friendly and professional.

Great service from booking in on line, to the confirmation messages and prompt arrival on the day. Went very smoothly. Huge thanks to the team for making it so easy.

The process was smooth from start to finish! Thank you Lana and the team, you guys are awesome!

A great company which I fully recommend having used them on two occasions. Lana in the office is friendly, helpful and efficient and the removalists respectful, hard-working and careful.

Thank you Robina Removals - This is now the second time we've used Robina Removals. The first time was our home & the second time our business. They didn't miss a beat from the office booking & coordination through to the day of the move! Friendly removals staff made the move easygoing whilst their office team was sympathetic, responsive & efficient dealing with our changing situation over the hectic festive season move. We would definitely use them again & recommend Robina Removals for your next move. Michael Arnold

I can't speak highly enough of Robina Removals in regards to our move from QLD to VIC in September 2022. Will and his colleague (sorry I have forgotten their name) were prompt and informative throughout the whole process. We had not seen the apartment yet so we went in completely blind and Will was very calming when we realised it was going to be slightly more difficult than we originally thought. I cant thank them highly enough. I wouldn't hesitate to use them again when we move back to QLD!

All staff from beginning to end went above and beyond more than once for me and I couldn't have done my interstate move without them. Thank you so much Robina Removals. A+++

The Burleigh Pavilion Group have been using Robina Removals for a long time now for all our event bump in/out needs. Lana is so wonderful to correspond with - she is quick to respond, easy to work with and kind too. The team are professional, friendly and precise - very good at what they do. We can't recommend them enough!

Reliable, on time and three guys to the team made for a quick job!

Would highly recommend Robina Removals. The office staff were really easy to communicate with and replied quickly to my enquires. The delivery staff were very efficient and proactive with moving our things to where we wanted them. This was the second time using them and would always use them in the future.

Very respectful and friendly. Highly efficient. Could not be happier.

I called at least 5 other companies before finally finding these guys. The service was friendly, efficient and reasonably priced. I felt so overwhelmed trying to find a trustworthy company for a small interstate backload and Robina Removals have been amazing. Thank you so much. Will never use anyone else

I would highly recommend Robina Removals. Their customer service made the move a better experience with the staff and removalists displaying a high level of professionalism and care with our belongings, scoring a 10/10. Moving is such a stressful time in life, and these guys made it so much less stressful. I cannot thank you enough. I will definitely use them again...if I move again ;)

This was the first time using Robina Removals and it won't be the last time. Lana in the office was very helpful and wouldn't hesitate in replying to my emails. The driver was very efficient with his calls notifying us of their arrival and at the time of collection he and his offsider were very good. So in summary wouldn't hesitate in recommending them.

We called on Robina Removals to pick up our shutters in boxes from Sydney last week and they got delivered today. The delivery man especially Phillip was lovely and took care of our boxes for us. All our family use this company they are good price and nothing was too much trouble for them to help us get our shutters up here to QLD. Thanks to Olga for fitting our boxes in the backload from Sydney to Arundal we appreciate you going out of your way for us. Thanks Julie and Mark @ Arundal

I would recommend this business to all my Family and friends. On Monday the 7th November my Husband and I were booked in for another company to move us from GC to Edens Landing. I phoned early that morning and the truck broke down, unable to move us. I made frantic calls!! An Angel called Jeanine from Robina Removals returned my frantic call, made some call 2 hours later Mick and Carney. Robbie? (Not sure) who were so efficient and helpful. Thank you Trish & Pete

I used this company the second time recently and their service was still great. Good communication, on time, friendly staff, quick to respond to queries and professional. They have all the necessary equipment to move your goods safely and our move went smoothly

Have moved many times over the years and experienced good and bad - so have a benchmark. At the end of the day it all comes down to the guys that turn up on the day - the moving guys Robina Removals sent us were exceptional - nothing was a hassle or a problem. Very professional in handling and securing - from delicate

flat screen TV's to heavy bulky dining table. Highly recommend this company

The service provided by Lana in the office right through to the team that moved my possessions were professional, easy to deal with and punctual. I would recommend these guys to anyone.

Can not recommend Robina removals enough. Great Communication from the office staff with the logistics of the move. The boys that carried out the move were outstanding. Very careful with all our property . Piano moved and no retune required, brilliant.

Robina Removals provided the best experience we've ever had. Mick and Dillon were very efficient and professional. Moving interstate is a complex process and we were so happy with the service - not one item had any damage, which is a rarity when moving house.

Reliable, friendly and hard working. Would highly recommend!

We used Robina Removals to move us from the Gold Coast to Bargara. Our household furniture and goods were stored for months while we waited for our house to be completed. The service was always efficient and professional. The goods arrived in excellent condition and on time. The staff were friendly and exceeded our expectations at all times both in collecting our goods, storage and installation after delivery. We would highly recommend Robina Removals to any of our friends or family moving house. Thanks to Mick, Will, Lenid and staff..

We used Robina Removals recently to move our items interstate. Lana and the team were professional and very responsive. Our items were handled carefully and arrived on the scheduled day in excellent condition. Would highly recommend this company!

The team was wonderful and so helpful to me. Thanks

Every step of the way the Robina Removals team have made working with them easy. Excellent communication by both the office team and the removalists as to the process and timings. All my goods arrived from Melbourne to Brisbane in perfect condition and were delivered with a smile on a hot Friday afternoon. Highly recommend.

Have been with Robina removals for almost 5yrs, I have been a removalists 25yrs and worked with many different companies from Sydney to Brisbane. I noticed a review from a certain person saying they do not pay well and there trucks break down.. to this certain person They are mechanical machines my friend which from time to time breakdown Robina's fleet is up there with the best on the road that I've driven before.. This certain person complained if he worked over 5hrs though as a professional removalist we know the days not done until the job finished, this certain person is not a professional removalists and has nothing better else to do than write bad reviews. Even after 3months ?? it also looks like he got his flatmate whom has never worked there to write the same review..?? Very sad my friend, let it go. The manager's of Robina removals pay the correct rates they have treated me and all the boys with respect which I consider them family. Having no family here on GC they wouldn't let me stay by myself on my birthday. So they invited me to there home and cooked me a fabulous most beautiful birthday dinner .. ??not many bosses would do that... To this certain person sorry it didn't work out for u get over it leave my family alone. Cheers?? Will Robina removals ??

I used Robina Removals backload service to move the remainder of my items interstate. Lana was so helpful

and patient over the phone with all my questions and concerns. As this was my first time using a relocation service she really helped to put my mind at ease. Great communication from Philip who turned up on time for both pickup and drop-off. Both Philip and his assistant were hardworking, quick and friendly - was such a load off my mind to have such a professional company moving my stuff. Thanks again!

Highly recommend! I had some stuff relocated from Melbourne to GC and from receiving the quote to arranging pickup/delivery was seamless and timely. Communication from Lana was amazing and Phillip and the guy's delivery was on time, and they were so helpful. If you're looking for removalists, use Robina Removals!

Excellent service, same day relo, quick and professional. Highly recommended.

We had Pablo and Owen help us move and it was a stress free experience. RR were a great price and the overall invoice was much lower than the competition. We will be using them again.

The boys did an amazing job doing the move for us. Amazing with time and pace. Can't thank them enough for their hard work. They had some of the hardest pieces to move. They did the absolute best job. Can't recommend the boys and robina removals enough. The office staff were lovely and helped us massively. Massive thank you to Jason, Karl and Matt!!

The team arrived on time and first impressions were impressive, really nice guys and they made us feel relaxed before proceeding to load the truck in a smooth and highly professional manor. We considered it a difficult move from an upstairs apartment, they considered it only a minor challenge. The team are a credit to the company they work for and we highly recommend Robina Removalists for a stress free and efficient move. Well done and thank you

Great experience moving interstate with Robina. Will and the team were responsive and friendly throughout. Good value for late notice backload and all went smoothly with the move.

. 3rd time we have used this company to move and cannot recommend this company highly enough. They do what they say they will do when they say they will do it. Pick-up and delivery were both on time and effortless for us. Very happy to highly recommend Robina Removalist. L

Robina removals we're amazing on both ends of the admin side as well as the physicality of the removalists. They were on time and ready to go. They were quick and efficient and not one scratch was made on any of my furniture pieces. Wil was friendly and careful with all belongings. Will definitely use again in our next move.

I recently had Robbie and Pablo move my things into storage. Both very friendly and helpful men. Thank you for your .care and attention to detail, you are a valuable asset to your company. Thank you.

"Very happy with the service and professionalism of ALL the Robina Removals team! Right from using the website to talking with Lana in the office (as I'm a first time user of removalists especially interstate) to the men keeping me in the loop the day before calling me to give me an arrival time. Then they brought everything up and placed them in the rooms I wanted. So lovely and professional all round. Two other friends of mine have used them too for interstate moves. Very happy and highly recommend!!! Thank you all so much! Now to get unpacking in my new home!" - Kara

Professional, efficient, courteous, friendly staff from taking the booking to the moving of the furniture! Trust & recommend them highly!

Robina Removal Company did a great job. They took great care with our furniture and the staff were very friendly. They knew what they were doing. Great job!

This is the 3rd time that I have used Robina Removals to move home, which indicates how satisfied I have been with their service. They have always started the day on time, they have worked fast, they have been careful with how they have handled all items, & each time they have surprised me with how quickly they have emptied my home. At the other end they are careful to check that everything is placed in the correct room & in the correct position in the room, & even after a long, hard day they maintain their positivity & their sense of humour. I highly recommend them.

Fantastic service from start to finish. The office were very helpful in preparing the move. Mick and Anthony moved us from Redland Bay to Hervey Bay very experienced and have been doing removals for a very long time. The boys knew their job and nothing was a hassle they went out of their way to help us do the things we needed to do as well as their own job. No damage not even a scratch on anything and we had 60m3 on the truck. Our new house had a steep driveway so the unload had to be done from the street quite a long walk to the entry of the house and it was a stinking hot day not one complaint they just went about making sure everything was put where it needed to be and ensure we were happy. Robina removals even hired a local extra set of hands for the day to get us in quicker. We can't speak highly enough about Robina Removals. Thank you very much for making our move easy. Very highly recommended.

We used this company for an interstate removal as we had relocated from QLD to the boarder of NSW/VIC. This was our first time using a removalist, Lana was so unbelievably helpful and friendly. She walked me through every process with such patience and kindness, it really felt like she had our best interests at heart :)

They made the process so simple and stress free as well. Our stuff came in great time and exactly how we left it! The boys were super careful and considerate with our stuff! :) Very happy, recommend to anyone

Amazing service! Will definitely use Robina Removals again for an of my delivery needs! Highly recommend!! Thank you!

Robina Removals were brilliant. Easy to deal with. Easy to organise anything to be moved, stored and delivered. Great team to work with us. Thanks Robina Removals!

I used Robina Removals for many years! They are the best in the market. Professional, they are fast and take good care of your belongings. I highly recommend them. Thank you to the team that helped me to move on the 1st of November.

Short move within Gold Coast. Hardworking, happy, professional, experienced crew. Move completed as expected from the quote. Kept well informed about progress and what to expect. Don't forget to add cost of crates and boxes to the quoted cost of the move, but this is standard practice.

Robina Removals did a great job with my recent move. They were professional and handled furniture and cargo with care. Would use in the future and recommend.

The Guys did a awesome job nothing was a problem my mother is 98 and was worried about the move no dramas with Robina Removals went like a dream the guys where very helpful and did a wonderful these are the people you want to move you

I was so impressed by Robina Removals. Administrator was so accomodating and kind, team had great

leadership and skill. So professional and good to work with. Impressed by the gentleness not to scuff walls and just be so efficient which you want when you are paying by the clock. We had an issue with the truck access at the new house but they copped it on the chin and smashed it out. Would highly recommend, very good experience on what is such a stressful situation!

Corey and Pablo at Robina Removals were absolutely wonderful, taking great care of my furniture. Thank you so much.

Very efficient and hard working team. Highly recommended

Mick and Pablo were amazing. Very helpful, friendly, efficient, and took great care of my belongings. Highly recommend.

Dan was so kind and had a positive attitude despite such a challenging move from GC to tweed. I appreciate being able to have a genuine removalist working with my belongings. Not to mention the sense of humour!

Lana was lovely and Strawbs and Pablo who did the heavy lifting were kind, hard workers. Value for money and money well spent - I'm happy to

recommend.

I had the boys move me from storage to my apartment on level 8 They did a great job careful and quick highly recommend ????

Robbie and Ricardo couldn't have been lovelier. They packed all my belongings with care and consideration and nothing was too much to ask. I highly recommend Robina Removals to move your possessions.

Carl and Phil were amazing when they moved us on Wednesday. They worked so hard all day. They were very professional polite and helpful. I highly recommend them. Keep up the great work guys.

Very happy with our recent experience - responsive office and hard-working, but careful, movers

They don't pay their employees properly. I did work for robina removals for a couple months and one of their trucks broke down with me whiling working. Spend around 2 hours for someone come and fix it and they haven't paid me for these hours. It was after a long day at work (more than 10 hours job)

Did a couple months work for robina removals until the day when their truck broke down with me and I had to wait at the side of the road for 2 hours (after worked 10 hours of a hard day) and they never paid me those 2 hours

**Website: [www.muval.com.au](http://www.muval.com.au)**

Robina removals doesn't pay their employees properly. Also they are lying on the reviews. Employee has been spoiled with needles on the truck while working. Unfair company

Want the worse experience use this low class mob lies on there respond and I forgot to mention they only sent one driver with no help

Moving can be stressful but it was made easier with Jaydens good banter and easy going attitude and Nathans good looks. Highly recommend.

Brandon & Jayden were outstanding in helping me move my stuff out of my home for my move. I was a little stressed and they made it effortless. Really nice guys, helpful, and nothing too much trouble. Highly recommend this company and these two guys.

I was so happy with how my move went from Melbourne to Millers Point. They were all amazing Jason and Dean on the pack up and Dean and Jordon on the drop off. Nothing was damaged and my treasured coffee table was wrapped up so well, nothing was going to happen to it. I would recommend these guys to anyone who wants a professional pick up and delivery of your household items. I am a bit of a hoarder and Jason and Dean managed to fit everything into the 100 cubic meters I booked. For a while I didn't think it was all going to fit, but Jason is so amazing with how he stacks stuff and worked out how to get it all in.

These guys were awesome .So careful and helpful.nothing was too much trouble. A big plus you could actually talk to a person and not just be told you have to do it on line The boys who came must be commended both pick up and drop off no problems. Thankyou one and all

Great service from the speedy online quote, no fuss with change of day and prompt removal of goods. Pleased to see plenty of protective blankets. Care taken when moving furniture through hallways and at entrance. Didn't use the storage option but great to know that it existed. Well- price removal. Thank you.

Excellent service, great staff

Absolutely brilliant service from the guys at Duell's Furniture Removalists, in particular Jayden and Brandon, who expertly packed our life belongings into the truck like a Tetris game. Thank you for taking the utmost care and offering quality banter to boot! Also, getting all the heavy stuff up the stairs!

Johnny and Chris moved my furniture from Yankalilla last week and couldn't speak more highly of these guys.All antique heavy furniture arrived with out any problems.Great guys,friendly and most of all very considerate to the way they packed and handled my property.Highly Recommend Duells.Have used you guys before that's why I called you again. Great effort guy's. Shelley Hughes

These guys worked hard in very hot conditions. Price was fair and furniture arrived without issue. Communication could be a little better, but overall we were satisfied with their service.

Boxes good prices need to be competitive

Polite on the phone however they couldn't help me with a stranger than usual job. Just the basic removals. They also are known as a second business name so if your ringing around you'll likely get them twice.

We found the young men who packed and delivered our furniture and goods to be quick and competent although unwilling to place boxes in the appropriate rooms because they were mixed up. They were dumped at the front door and my husband and I read the labels and put them in the right room. However after it was delivered I felt things were missing. Oh yes there was a box at the end of "our" shed had been missed and delivered a week later was an outside ornament in their ratty box.. Two weeks later a silver painting trestle 4' long turned up. How that was missed in the empty shed when they found the first item is a mystery. A month later I went to do some baking and after going through every box left unpacked a large box of baking equipment was obviously missing. Rang Duels and "no we don't have anything in the lost pile, no, insurance is only for crash and burn " After expressing my dissatisfaction I was told the owner would ring me when he came in {every few days). An hour later the (I assume) yard manager rang and his form of communication was attack and exaggeration. When I said we had paid them good money to move our goods (over \$6,000) I was told" it had nothing to do with money! Don't talk about money" They didn't have it, I had left it at the previous house, (settlement was the next day as they had given our date to someone else and they had taken everything) I had poorly packed it (because half were in smaller boxes so at 67 yrs I could carry them) he had spent 4 hours packing to make it easier for the boys" (they unloaded it to store and reloaded to deliver) And it went on and on, so many ridiculous , some incomprehensible statements! I was constantly talked over and when I pointed out that I was \$200 out of pocket because Duels had lost my goods he told me he was hanging up because I wouldn't listen to him!" I'm sure they would be competent at packing and delivery on the same day but dealing with them was a expensive (we were charged for an extra trailer which they didn't use plus the

lost goods) and generally an unpleasant distressing experience.

Poor client liaison, training required

Extremely disappointed with my experience from this company

Really disappointed with the service we received from Duells. Luckily we purchased separate insurance as many of our belongings were damaged in transit. Scratches on nearly every large piece of furniture, boxes crushed and beat up. Communication was basically non-existent too. Didn't get a call the day before before pick-up to confirm time like they claimed. Didn't get a call the day before delivery to confirm time. I had to call reception three times in the morning before I was told 'late afternoon'. Then thirty minutes later I get a call from the driver saying they were half an hour away. Our belongings showed up in a completely different truck and different people than what they were packed in, so not sure if that was when the damage occurred. Both lots of people were rude and made inappropriate comments. When contacting them in regards to the damage, their only response was 'it's not our fault, contact your insurance company'

Being the first person you see when entering the business its important to have people skills, the elder lady/receptionist lacks in this skill, even her phone call skills needs addressing.

Worse move we have ever had - 2 truck breakdowns, furniture and boxes left in the carport and a broken chair - damaged table top - which were NOT broken before (it would have been noted on loading surely?) This was

their reply when asked to repair the chair and what I was to do with the heavy items left outside This was their reply We received your complaint and after a discussion with the Manager it has been decided that we are not liable for the chair damage as this item was broken prior to our team loading it. (no, sorry it wasn't) Everything that was loaded on the truck and trailer in Millicent, was delivered to your Crystal Brook address if you feel there are some missing items I recommend you check all rooms in case it was simply placed in a different room. (still missing) Duell's would like to acknowledge your threat to slander the company via Social Media, in the event you choose to proceed with that threat the company will seek Legal Advice on this matter. Not slander just the truth - - - - -pics available

Very disappointed with this company . Chose duells as asked around and were told they were reliable and careful with your belongings. Had a number of items and furniture that were damaged in the move..

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Very happy with the team, they worked fast and were friendly and professional. No damage, no complaints about the very difficult stairs on the way out. Highly recommended ?? Service: Local moving

Brody and the team are marvellous, hard working and honest. We will continue to recommend them to our family and friends.

Cannot recommend Shannon and the team enough! Removed the stress out of the move, friendly professional helpful and quick. Truly grateful to them all. ??????????

Shannon, Adam, Brodie & team were amazing! Made the move from ACT to QLD super simple & easy! They were a heap of fun to deal with & even let my 2yr old nephew help. Next move I'll be back!

Moved us from one spot in Maleny to another today and honestly, if I could give six stars I would. Amazing

pre-booking service, the guys were super friendly and all went smoothly. Best movers Ive used!

We have used Dream Home Removals a couple of times now, and are more than happy with the service we have received. The guys are friendly and punctual, and always work extremely hard. They always turn up right on time, and communication has always been a high standard. I highly recommend this company, and will definitely use them again in the future.

I can not recommend Dream Home Removals highly enough. I have moved a lot in the last 20 years with my work and I can honestly say there have not been any removalists that come close to this company. The Professionalism, Quality of service, Value/Reasonable charge, Care taken of our belongings and just down right Nice people over whelmed us. They really are the "Dream Home Removalists" Thank you so much Brady, Brodie, Shannon - All the best to you.

A+++++ These guys honestly made our life so much less stressful. The boys I met between pickup and delivery dates were all so professional and helpful. Joel\*? saved the day on the delivery end when we had entrance issues. Shannon was a breeze to communicate with. Highly recommend using this company. Thanks again guys!

Dream Home Removals!!! A dream alright. From organising with Shannon to the job Brady and Brodie did it was all nothing short of outstanding. Never have I seen a big unit like Brodie move so fast. Recently moved home in Toowoomba and there was only one team for the job. The guys were incredibly professional and knocked out 4 bedroom home over in just over 3 hours. Loved your work guys and definitely recommend to anyone looking to move home!! Cheers Legends Services: Local moving , Moving-related packing , Oversized-item moving

Brodie and Brady are very strong, super friendly, punctual and efficient. Shan from admin did an excellent job ensuring the scheduling, quoting and invoicing was attended to promptly. Dream removalists are worth every cent for the amount of stress they saved us from. Thanks guys :) 10/10

We used Dream Home for our interstate move. They made our move easy. Communication fantastic and everyone wonderful to deal with. All we can say is you can't go past them and we thoroughly recommend Dream Home for your move.

We had the best experience with Brady and the boys from Dream Home removals. Communication was easy and effective thanks to Shannon & the boys got the job done super quickly with a friendly attitude. Highly recommend Dream Home Removals for your next move. Thanks guys!

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Brodie and Brady. Excellent job. Moved up the coast. The guys were on time, efficient, friendly and did an excellent job. Would definitely recommend. Service: Local moving

The boys were really nice and friendly. They did a fantastic job. Would not get anyone else.

Great removal company. Turned up on time, didn't damage anything and worked well to complete the job. Will use them again. 5 stars.

Absolutely recommend Dream Home Removals . Such a seamless move and nothing was too much trouble . Thank you so much .

The team arrived and immediately jumped into the job, the guys were quick, efficient and very careful with

our furniture. During the unloading the guys were again careful and were more than happy to reposition furniture. As a person who did several removals during my defence career this removal was the most effective and efficient . Thanks to Brodie and the team for a brilliant effort. Would highly recommend these guys for anyone making a move. Thanks again guys!!!

10/10 RECOMMEND! Ive used the team Dream Home Removalists twice now & they have been incredible! Efficient, understanding & will do all they can to help, however they can. Thank you Brodie, Shannon & the team!

My husband works away, and these guys made moving a breeze. They helped me move from one town to another. The boys worked quickly, efficiently and communicated really well. Everything was packed with care. Brody and Brady were fantastic! Thanks so much guys!! Service: In-state moving

Brody and the boys recently moved us into our new unit. They were punctual and very professional to work with. Moving is stressful at times but the boys made the move soo very easy for us. I would highly recommend them for your next move. Thanks boys, Jennie & Paul Mooloolaba

I highly recommend Dream Home Removals. The guys did a great job. They showed a lot of care with my belongings, especially my very heavy old piano. As well as being professional they were friendly, polite, and nothing was too much trouble. I was very happy with the move.

Brody was extremely helpful and went out of his way to make the move as easy as possible . Would recommend his team and company to anyone

They moved us from Sydney to Sunshine Coast. Service was excellent, prompt and communication was

fantastic. Would highly recommend

They were excellent

I have used Brody and Beau 3 times now and they have made my moves really easy and hassle free. They are absolutely amazing!! Well done guys

We had an excellent experience with everyone at Dream Removals from start to finish. They really go the extra mile and are obviously very passionate about customer service. They communicate clearly, nothing is too much trouble, everything was handled with great care and most importantly they were all positive and friendly people. Unlike others, there were no hidden costs and they were very honest with in all of our dealings. 5 stars all around.

We moved with Dream removals, based on a recommendation from friends who had also recently used them. Very impressed with the team. From start to finish, they were professional and made the whole process of moving our belongings a stress process. We would have no hesitation recommending these guys to anyone looking to engage the services of a removalist.

The absolute best removal company ever. Brodie and the guys were amazing. Nothing was too much. Such happy people who make the move so much brighter. Definitely recommend.

I highly recommend Bruno and Lucas. This was by far, the easiest move I have ever done. The team were fantastic communicators from initial enquiry until furniture delivered. They were efficient, professional and extremely careful. They went above and beyond, placing furniture where I wanted and nothing was too much trouble for them. I thank you both, so very much for your A+ service with a smile. The price was also

extremely affordable and I will definitely call them again next time. Absolutely amazing experience, and I appreciate it more than you know. Thank you!!

S\*\*\* hit the fan about 2 hours prior to the settlement of our property on the day in which we needed to be out. The guy's knew there was no way we were going to be out in time however, it's in times like this when I think the heart of a company is truly tested and boy, did these guys pull through. Despite the stress and far from smooth move, the team at Dream Home Removals went above and beyond to get us out on the day that we needed to and into our new home. Incredibly, the morale was high, the teamwork was inspiring and the morals and ethics of this company are extremely refreshing. For example: you've got a second truck pulling in at 6:30 at night after the first has only just finished being unpacked. The guys are exhausted after being on the clock since early hours of the morning but they're still respectfully placing all of our items in the spots in which I needed them - being heavily pregnant. They are fair, kind, joyful to work with and when s\*\*\* does hit the fan, they stand with you, work with you and get the job done. Thanks again for everything guys and despite the hiccups I would definitely use your services again ?? Don't waste your time any further. Just book with Shannon, Brody and the team.

Absolutely amazing job done. On time, efficient, excellent customer service with the greatest of care taken to move all furniture out of the property. I would highly recommend this company and I will be using them for all future moves!

Brodie & his amazing team were efficient, thoughtful and just downright good at what they do. We wanted to support a local small business and were well rewarded. Highly highly recommend. This is our second experience with Brodie and we could not be happier!

I have never wanted to review a company more than I do with these guys! First of all, Shannon is so polite,

helpful and responsive with organising the move. Secondly, Brodie and his team are quick, polite and no hassle team when handling your items. If I had to use a removalists again, I will be looking to see if this team is available to help! 5 Star all around (Would give them 6 if I could). Thanks guys and all the best!

The guys at Dream Home Removals are fantastic! They are hard working, careful with the chattels and always smiling and laughing on the job, which makes it an easier day to bear. Nothing is too much or too hard for them if asked to do something. I definitely can recommend them and will be using them again. ??

Brodie, Lachlan, and Angus moved my grandma into her new home today, and it was the easiest, fastest, stress free move I've ever had! great blocks, all 3 of them, very helpful, fast, efficient, and I never worried about anything being mishandled or broken they handled everything with care. i wish i had them on every move i do cheers guys

I like to say what an awesome Removal Company Dream Home Removal. From the Office Admin to the lads your overall Service to detail and the way you respected my stuff with moving was much appreciated...I would definitely recommend anyone wanting to move near or far to get the best 'Dream Home Removal' Christine

????

Positive: Professionalism , Quality , Responsiveness , Value Excellent service. Brodie and Jonah are great blokes, very down to earth and handled everything professionally, even in the middle of a storm. Highly recommended. Services: Vehicle transport , Moving-related packing , Oversized-item moving

We had a regional move from Brisbane to Central Queensland. Very professional, took great care with our belongings and couldn't have been more helpful with all aspects of the move. Would recommend to anyone and if we move again we will be contacting them again. All around a great experience and very fair pricing.

Thank you Brody, Shannon and the team.

Highly recommend this great team. Moved our family an epic 3 hours drive... stairs were no trouble, nothing was damaged, very prompt, and excellent price. Went above and beyond to ensure we were happy and settled in our new home. Cannot thank them enough for helping us with this stressful task!

Dream Home Removals are nothing short of exceptional on all accounts. We've used them on two moves and would never use anyone else. They're reliable, efficient, good-value, well equipped with a large truck and great staff, and best of all, great fun to be around and move with. Their business culture is warm, friendly and thorough in what is normally a rough industry. Having jovial, helpful, flexible and low-stress removalists like Dream Home Removals makes what's normally a stressful time an easy day. To give this quality of service at a solid pace all day (after what I think they said was a 12-hour move the day before) and keep a good smile on as they drove to the next job after 4pm makes them deserving of more than my great thanks. Just book them and get on with whatever else you need to do to move. Services: Local moving , In-state moving

Positive: Professionalism , Quality Had a great experience with the team from Dream Home Removals. Used them twice - to move my things into storage and then into my new home 3 months later - both times the guys were super careful with my stuff, helpful, communicative and professional. Highly recommend. Service: Local moving

Excellent service, hard working and friendly team. We will definately be using this company when we move again in 2 years time.

Amazing service, couldnt recommend them enough. These guys where great and made a dreaded move so much easier,

These guys were legends and we were so happy with their work. They worked so fast, efficiently and carefully but were still happy, chirpy and chatted happily and patiently with our kids! Nothing was a problem to them and they were so flexible. I'd 100% recommend them to move your family home. They made our day so easy! :) Thankyou! Service: Local moving

Just great!! Can't say enough, thank you

Brodie, Brady and Shannon are an exceptional team. We found them friendly and incredibly reliable. We have a lot of fragile antique furniture and the boys took special care to ensure it all arrived safely. It was pouring with rain the day of our move and our narrow drive meant they had to carry our furniture a long distance. They did so with exceptional good cheer and made the whole, potentially fraught experience, fun.

Shannon and the boys were awesome! Top pros! We cannot thank you guys enough. It was such a breeze. Keep up the good work! If you want fast, friendly top pros, then get it done with these guys! Book noooooow!! 10 stars all the way!

Highly recommend this removal company for anything big or small. Very attentive and caring with our belongings they went above and beyond. Anyone looking to move, don't hesitate contacting Dream Home Removals

I would definitely recommend the team at Dream Home Removals. I engaged their services on a recommendation and found them to be exceptional in their service and very well priced. The friendly team were flexible when situations changed, prompt and very efficient and careful with the household move. Nothing was too much trouble.

The boys moved my furniture so quickly and the price was great! They were very professional and went above and beyond. They also tackled the crazy amount of stairs without any worries. Highly recommend them.

The team from Dream Home Removals are fantastic. We have just had Dream Home Removals relocate our family from Toowoomba to the Sunshine Coast. It was easy to organise, calls were answered or returned quickly and they showed up when they said they would to take a look and give us a quote. Moving day went super smoothly and everything ran on time. Even though hubby and I weren't expert packers (books go in little boxes only!) and hubby gave some wrong instructions on the day that meant the boys had to unload a couch they had already put on the truck the Dream Team took it all in their stride and nothing was too much trouble. They put all the furniture together for us at the new house and made sure it was in the right positions before they left. They took great care and did it all with a smile in pretty brutal summer heat.

Dream Home Removals has been the best removalist company that we have experienced in our time moving both within Queensland and interstate. Thank you Shannon and Brodie. Highly recommend.

What can i say it was pooring cats and dogs the boys didnt flinch worked as if it was notheing and we had a heap of stuff two truck loads full includeing a spa and the new place was near under water but Broads and the boys worked like troopers to get us in ,even when they were coverd in mud thanks again couldnt do it with out you guys.im sure no ther company would of put them selfs out there like you guys thanks a gain all the best.

Over 3 states the team kept me in the loop to arrival times and updates , all gear made it to the other end in perfect condition , thanks ! My parents used the same crew with same results Would highly recommend !

We were incredibly happy with our experience with Dream Home Removals. They made every step of the process so easy for our big intrastate move. Very friendly, professional and responsive with all communication and the guys took the utmost care with our belongings during loading and unloading. I'm still amazed at how they fit everything on the truck - absolute tetris masters!

I have had many moves but this was by far the best !! I moved from Melbourne to Seventeen Seventy, QLD and the boys Brady and Brody were incredible . It was the most challenging job with 60 steps to access a house on a very steep block and they did not stop . To make it even better they did it with humour and laughs . Shannon who co-ordinates everything was so efficient and absolutely nothing was a problem . Thank you

Brady , Brody m Angus and Shannon . Linda

Seriously, just book these guys. They were fast, communicative and helpful, and full of integrity. Why would you book with any other moving company in the area when you could have great value and great peace of mind with these guys? I would never go with any other moving company again besides these guys. Really great service ??

Moved us from sippy downs downs to buddina. Move was easy and efficient and they took care of our stuff. We had a few hard big things to move and they made it look easy. Will use them again

such a great experience. The boys were lovely, professional and efficient. They made the moving process easy from booking to paying. i would recommend to anyone.

Absolutely awesome team! Lovely, professional guys, and seriously what removalists hook up your washing machine and white goods without anything being said!? So helpful and just good humans! Will be

recommending this company to everyone we know.

A quality removal company, HIGHLY RECOMMEND Brodie and Brady. From the start with Shannon, to the finish with the boys, this company has been down to earth, trustworthy and extremely professional. The boys kept their funny, cool, calm and collected selves the whole time, even with kids and pets running wild, a very steep driveway and to many stairs to count. They powered through and smashed the job out. Even honoured the original quote when we clearly underestimated how much stuff we had and the time it would take. Thanks team from the bottom of our heart, we wouldn't trust anyone else! Service: Local moving

Brody & Beau were a great team handling our removals. They arrived when they said they would, on a 31C day & got straight into the job, working quickly but carefully to empty our home & deliver our belongings to our new home. They worked cheerfully & were happy to help moving things around in the new house, they took great care ensuring that nothing (esp. walls) was damaged, even removing the fridge door handles (and refitting them!) to make sure they didn't damage anything. And a special mention to Shannon who dealt efficiently with our booking & readily answered our queries promptly. I have no hesitation in recommending Dream Home Removals & will certainly be using them again.

I had the guys here at my site - excellent workers, great attitudes, friendly guys and well organized - would recommend them and happy to have them back on my site any time

From the first phone call to the minute they left my new house these guys were so easy and went above and beyond and went out of their way twice to help me. Was worth every penny and more and considering my short notice they did amazing with such a long move across the whole state and adjusting their schedule to fit me in. Brilliant!

Absolutely fantastic service from the whole team at Dream Home Removals. They were very professional from start to finish and were able to transport all our furniture very quickly during our relocation. During load and unload all the furniture was very well packed in the truck. Communication was always perfect and easy. I would very highly recommend this company to anyone who needs to move house. A++++

Great removalists! From booking/communication to the day of the move. Very efficient and careful with all our furniture. Brodie and the team were nice and pleasure to chat to during the day. Made it much easier. Would highly recommend!

What an amazing team from start to finish all the workers were friendly and professional and went over and above to see that our move was as stress free as possible. From point of call Shannon who was super organised and on the ball, Brodie and Beau come out to do the quote and were really professional, to the friendly team headed by Beau on the day, they were awesome, so hardworking, quick and careful with our furniture. Excellent price too, I highly recommend Dream Home Removals.

The team arrived on time and carefully navigated my tight stairwell and then loaded my furniture into their van. They quickly and carefully unloaded it into storage. They were very polite and took extra care by taking legs off and wrapping the items in blankets for extra protection. Very happy! Thank you Dream Home Removals!

Absolutely the best in this field. Prompt, Courteous, and extremely professional. Brodie moved us from Townsville to Goombungee with great care. 90x5 Stars Wow can't get any better than that !!!!!All the best from Dave n Lea.

time-keeping & really competent, friendly and helpful removalists. Would definitely use Dream Home Removals again.

From the very first contact to get a quote to them leaving our new home after unloading our possessions Dream Home Removals were exactly that a Dream to deal with and made moving 1900kms easy. Highly recommend

Just had the best move ever with Dream Home Removals. From start to finish, nothing was a problem. Shannon was always on hand to answer my many questions and nothing was ever a bother to her, to Brodie & Brady turning up on time and delivering excellent customer service. They were great with all my belongings and took extreme care with everything. Would recommend these 3 to help your future move. Thanks again for a great move..

Very professional and hands down stress free

The guys were awesome nothing was too hard They loaded everything into our container There was no way we could have made it all fit Very professional courteous fast and efficient Their price was very competitive Thanks Shannon and Brodie

We recently used Dream Home Removals for our move on the Sunshine Coast. The office staff were extremely professional and friendly to begin the process and the guys on the day were the most helpful and didn't blink at anything that was required of them. Certainly made what is a very stressful process a lot easier for our family. Can not recommend them enough for your removal needs. Ten out of Ten from us!!!!

Want to give a huge shout out to Dream Home Removals, especially to Brodie, Brady and the boys for doing a

stella job relocating my parents from sunny coast to southside brissy. We're humbled and very thankful, especially a for big move. To anyone reading this and wanting a removal service, I more than highly recommend dream home removals. These guys are next level in what they do, they're more than professionals. About 2 years ago my transition up North started along with my 1st contact with Dreamhome Removals, then Covid-19 hit and today my journey ended. From start to finish this company is exceptional. From Shannon, the friendly, Nothing is too hard, reception to Brody and Tony picking up and delivering ( sooo friendly and cooperative).They kept me informed the whole way. Would not hesitate recommending or hiring these guys again. ????????

They made my move from Cronulla to Alstonville very stress free, I was kept up date at all times by the lovely Shannon. My move was made stress free from the first phone call with Shannon to the last the piece of furniture placed in its new home. Thank you for being super efficient, extremely careful and always going out of your way to ensure we were happy. Nothing was too much trouble! What a team!

From the initial call with Shannon through to Brodie and Beau driving to Sydney to collect my stuff and deliver it to the Sunshine Coast a couple of days later I cannot fault these guys. They did what they said they would do and they communicated throughout, so simple, so important yet often overlooked by other companies. On top of that they're nice people also. I can't recommend them highly enough.

Recently moved from Brisbane to Redcliffe and had the absolute pleasure of being moved by the Dream Home Removals team. 100% professional, careful and super attentive to the customers needs. My wife and I were very impressed by their experience, attention to detail and attitude. If I was ever moving again this would be my only choice. I have experienced several company's in the past and I can assure you that these guys are more than a cut above the rest of them. Thank you team for making our moving day run so smoothly. I will share my experience with friends and family. Regards Graeme and Ellen

Today, I had the pleasure of engaging A1 Removalists, specifically with the incredible team members, Alex and Awakr. As they handled our small move from our residence to a temporary storage unit. From the moment they arrived, Alex and Awakr exuded a level of professionalism. Their punctuality and friendly demeanour created a positive atmosphere, making the entire moving process a stress-free experience. What truly stood out was their attentiveness to detail and the genuine care they exhibited throughout the entire process. Despite the

size of our move, they treated each item with the utmost care, ensuring that everything was securely packed and safely transported to the storage unit. I am genuinely impressed by the outstanding service provided by Alex and Awakr, and will definitely be acquiring their services for our next move. Thank you, Alex and Awakr, for making our moving day such a positive experience!

David and Salar Used the services for movement from Sydney to Canberra. Very courteous, polite, professional guys and equally responsible with the movement of the items. Spoke to owner himself for the booking and then he called after the job got done. Was good to hear questions on my overall experience, what would I rate the service and if I would recommend them to family and friends for a real time feedback. Shows the confidence in delivery of services. Best part - even after the payment done - a question from owner over the phone and team lead in person - do I need any other help with moving any items from one room to another or any heavy lifting before they finish for the day ?? A good way to finish the job. Good work and glad with the service. Would highly recommend.

George and Khalid team were amazing. They were incredibly professional, kind and easy to communicate with. We appreciated them going above and beyond and rearranging existing furniture in our new place to make room for moved items. Raphael and George just finished moving our belongings into our new home. They were on time, they were

respectful and accommodating. They greeted my wife's parents and our baby girl at the pick up location with a warm smile and we're so careful my wife said. The drop off location was the same experience. Raphael and George have such a calming presence and even said to my wife and I, "moving is very stressful our goal is to not any further stress". We were so impressed and observed how careful they were with moving our items, especially the mattress and anything we needed to go upstairs. They both ended the job by wishing us all the best and congratulations with our new home. It doesn't sound like much, but these little touches makes all the difference to a positive customer service experience. Randi and team Thank you so much for your professionalism and your sensitive approach to moving my family's furniture and beloved items. You took the time and effort to care for our things. Your approach has been so very much appreciated. I would absolutely recommend you to anyone.

What an awesome experience today having Anton &Youssef do our removal from unit to storage. Very professional, thoughtful and taking so much care to protect our furniture and goods. Will certainly recommend and use again if the need arises.

Dealing with Anton and his boys was a great experience, they made the daunting process of moving so much easier on me and my family. A1 removals did all the packing and moving for me making it a very easy process. Kareem and George did everything and communicated with me through the whole process. None of my belongings were damaged or lost due to the care they showed during the job. I would recommend using A1 removalists, and will be using this company again in the future.

Khaled & George were amazing. It was a hard move out with a difficult access. On top of this most of the furniture was very heavy and antique. They wrapped everything with extreme care not one thing was damaged in the move. It took a while but that's the price you pay to have precious furniture moved undamaged. I would highly recommend them.

On Monday 11/12/23 I had booked A1Sydney Removalists for Wednesday 13/12/23 To help with packing and taking my partners belongings to my unit. They requested a deposit and booked for the time I requested When Wednesday arrived, two separate trucks arrived from two separate companies How I don't know how this happened as I used hipages and had several different companies But I chose A1 Sydney removalists over the others I received details of their services and was quite detailed and very professional. The first truck did not look very professional and didn't believe they were up for the task. Shortly after A1 arrived I saw two young healthy fit men. That not only looked professional but were eager to assist I showed the task at hand to the first truck team, but all I heard was complaints and say it would take two days to complete When I showed the two gentlemen from A1 Micheal and Mario Then said, it was no problem and were eager to start right away As it were I sent the other team away and went through with A1 of the task and what was required ! They both started right away, and they suggested I needed to obtain boxes to pack the items and I was not away Or some confusion when I booked I required packing and there would have been 4 gentlemen instead of two. I then rushed to Bunnings to buy boxes to pack When I returned I saw both these your hard working, professional men packing away all of my partners belongings They had packed what seemed to be half of my partners place, as she had a lot of stuff needed to be packed After a 12 hr long day of packing and moving to my place up 3 flights of stairs ! They didn't complain once even in the 36 degree heat ! I had a few times get them some cold refreshment and where I could and gave them a hand to get the job done quicker These young men worked very very hard and did the their professionally and passionately I would recommend them to anyone who need help to move

Anton and Josef were absolutely outstanding. I would highly recommend A1 removalists alone for their hard work , care and commitment to the job. Thank you so much for making our huge move easier

Absolutely smooth move from Melbourne to Sydney. Mansour and his team are super Heroes. Ill definitely use their service again.

Highly recommend the services of A1. Prompt, professional and highly recommended.

Randi and Sam, great service, nothing too much trouble, very fast, very happy.

Randi and Mark were excellent and managed the moving very efficiently. Well done boys!!

The removalists were lovely and very efficient. Very helpful, would recommend to anyone :)

Excellent workmanship. The Movers were very helpful and professional. I moved Interstate. The guys at A1 I highly recommend to anyone.

Randy was very efficient, on time, had great communication and lovely attitude. He is a hard worker and we would be more than happy to book with him again in the future. Michael and Milat were also exceptional! Very friendly, hard working, and they even sorted me out with a drink and snack when I wasn't feeling good! Will use A1 again!

salar and David, AMAZING SERVICE! Cannot express our gratitude enough for the hardworking and very hospitable boys who made the move so smooth and easy for us. Everything was done efficiently and on time. The boys are very energetic and happy go lucky. They make a very intense labour job look so easy, cannot thank you enough for helping us throughout the whole day. Would recommend them on any day in a heartbeat

???

Recently used them for relocation from Melbourne to Sydney - guys did a good job and everything reached safe sound without any damage. I wish the guys were just a little bit more accommodating otherwise fantastic price and service. Highly recommend

Oliver and Sam were prompt and efficient in making the move happen, and they took care to wrap up furniture before moving. Good service including by Rita from the sales department who was responsive to emails. Only downside was that we were asked to put in a review on the spot at the end of the move and watched as it was done. Can understand that customers may forget to write review after a good service but would be nicer without being pressured to do so immediately.

The sales process seemed really good, with the agent advising how careful and respectful they are with people's belongings. Reality, however, was quite different. We were advised that furniture would be disassembled and reassembled again, but the movers said we need to reassemble ourselves. The truck was badly packed, with loose and heavy items not secured, so when the load reached its destination, items has shifted and some boxes and items were crushed. Items thrown off the back of the vehicle, with the movers having a laugh about it. Missing reassembly parts for furniture, broken furniture fittings and no attention paid to fragile markings on boxes and "this way up" markings not listened to at all, so some items that had to be kept upright were transported and handled upside down. If we had not done the packing ourselves, our goods would have been smashed. I feel that our property and us as the customer were disrespected. I will never use or recommend these guys ever again and for the price that was paid, an absolute scandal. When I see so many good reviews about this company, I suspect that a great number of them could be fake.

I recently hired a1 Removalist Sydney for my move and it was one of the worst experiences I've had with a

removalist service. Despite coming to our home to assess the size and needs of our move, they still couldn't properly calculate sizing or appropriate means, resulting in extra costs that were not discussed beforehand. To make matters worse, the manager of the service, Oliver, was incredibly difficult to work with. When it came time to pay, he wouldn't accept or believe that I had made payment due to their banking system being different from mine, causing numerous conflicts and delays. I also had to contact my bank and prove to Oliver that it takes a few days for a new transaction to show up in their account. Instead of understanding, I was met with lies and was told that Oliver's boss would get mad at him if the payment wasn't received immediately. It felt like an attempt to emotionally manipulate me and place the onus on me, which only added to the frustration and stress of the situation. It was an unprofessional and unacceptable way to handle the issue. On top of all of this, things were forgotten at our place, adding to the stress and frustration of the move. Overall, it was a terrible experience and I would not recommend this company to anyone. I encourage clients and people moving to reach out to other well-known services and ensure that prices are guaranteed and the service is appropriate. Save yourself the headache and avoid a1 Removalist Sydney at all costs.

And 3 months later (6 months after the move), we finally finished giving away all the boxes that A1 Removalists refused to pick up. Meanwhile they offered me \$250 to remove my negative review because they care about "maintaining a positive online reputation". When I refused, pointing out that they had not offered any compensation for the damage, they increased the offer to \$300, but never replied to my emails or phone calls about the damage. They care more about their reputation than about customer satisfaction! And 2 months later, they still haven't answered my letter with photos showing damage. And they haven't picked up the empty boxes! Not a company I'd recommend... Worst experience moving. A1 Removalists underestimated how much there was to pack and did not provide enough boxes. They did not finish packing on the day and delayed delivery, so we had to use our camping gear (fortunately packed by us!) the first night in our new place. Then they demanded payment before completing the delivery the next day. A nightmare! Plus, badly wrapped and damaged furniture...

If you need to change the delivery or pick up date, please advise the removalist as early as possible. They can sometimes accommodate changes and reschedule but this has a few variables.

The best way to ensure a successful move day is to be prepared. One way to do this is to notify your removalist about any very heavy or awkward-to-move items before move day. It can never hurt to double-check with them that they understand that you have these items, even if you have also submitted an inventory list. These sorts of items include:

Each company has differing policies about notification before the pickup and delivery. Some companies can provide a time window on booking, others provide this the day before, while others will provide notice within

an hour of their arrival.

Yes. This varies depends on which company you are using. Usually, the minimum charge is based on the cost of transporting 5 cubic metres.

If you have the original TV box, please use it. You can also purchase TV storage/removal boxes from storage centres. If you don't have a box and can't source one, the removalist will use heavy-duty blankets to protect the TV.

It is preferred if you or your representative to be present at the pickup and drop off.

The final payment must be paid five days before the nominated pickup date.

If you cancel within 48 hours of your booking (if your move is more than 5 days away) or give three weeks' notice before your pick up date, you will get a full refund of your deposit.

I highly recommend North Removals. From my initial enquiry, I appreciated the phone call with Facundo who made sure he understood everything about the move, including the tricky access and particularly difficult pieces I needed to move. On the day of the move, the team of Alejo, Johnathan and Arthur were very friendly, polite and had an all 'round great attitude towards a sometimes difficult move. All this for a competitive price. They certainly justified the many high ratings and glowing reviews to their name.

Omg! Leo and Alex were actual SUPERSTARS! We moved two apartments with a lot of stuff from Collingwood to Northcote (2x large trucks worth) and they were so efficient, so friendly and took great care of our stuff. I can't believe how strong they were ?? thank you so much guys!!!

We were so pleased with Jose and his team from North Removals. They helped us with our move with 3 bedroom house from Mordialloc to Cheltenham. They were professional, incredibly hard working and so good humoured throughout a very long moving day. They couldn't have been more accommodating or helpful. Miguel and Alex were amazing! On time, incredibly hard working and all around great guys. Would absolutely recommend them for all of your moving needs. Massive thank you from Adriana and Evan

North Removals helped me to move from Newport to Williamstown. They confirmed the job 24 hours earlier and kept me informed of their arrival time on the day. Jose, Alejo and Jonathan worked solidly for 4 hours on a hot day to get the job done. Furthermore, great care was taken with all of our items, nothing was damaged at all. These guys did a great job and I will definitely give them a call next time I need to move! I had to move back to Newport from Williamstown and didn't hesitate to use North Removals again. Leo and James were great! Quick, easy and simple. No damage at all and they're great guys.

Fantastic job by Leo and Miguel moving from Melbourne to Bendigo. Fast and friendly. Highly recommended.

Damaged furniture and walls. Wouldn't recommend.

Legitimately one of the worst experiences I've had with a company. Overexpensive and poorly managed, every step of the way was difficult. They were late, much pricier than similar services I've used in the past, and curt and rude to communicate with. I highly recommend you stay away from this company.

With Kind Regards Charm Removals

These guys moved my stuff from Melbourne to Queensland. Best job actual legends!

Charm Removals were an absolute life saver. We had a last minute move to make from Brisbane to the Gold Coast, and the team were incredibly responsive and accommodating. Samantha was a delight to work with on the backend, and Eddy and Dean were phenomenal on the day. Thank you so much, Charm Removals!

I couldn't fault the service from Charm Removals on our recent move to the other end of the state. We used them for collection, storage and then delivery to our new address. Sam did a wonderful job from the office, communicating with us each step of the way. And it was nice to know that when you phone, a person actually answers the call and is there to help. We received all our furniture without damage today which was the final part of a long process for us. Matt and Keahnu were absolutely wonderful, they couldn't have been more accomodating with getting everything in the house, where it needed to be. Thanks Charm Removals for taking the stress out of the move for us.

Your team took all the stress out of a difficult move. I would have to say the best moving experience Ive ever had. Great value for money, I couldn't have asked for more. Thank you

Went with Charm Removals for a big move from Melbourne to Brisbane,Samantha organised everything and made a stressful move so much easier, The removalists we're great and super friendly and got the truck loaded within a good time frame and kept in touch, Recommended them on to my brother for his move,They are a great company :)

We moved this week with Charm Removals and Eddy and Dean exceeded our expectations. They were super quick, friendly and looked after all of our items and were careful with our current and previous properties moving our items out ensuring no damage was done. Absolute powerhouses and couldn't recommend them higher. As stressful as a move can be, they made it an absolute breeze and took all of the heavy lifting off us which is exactly what we wanted. They were on time, communicated really well before, during and after the move. They were not there to fluff around and waste our time of money. The biggest thank you to the whole team.

Very good and professional service. Very friendly and helping staff.

Matt and Chris, were great friendly and very efficient at their job. I was most impressed with them. thank you both of you. You took the stress out of moving. Alison Willems :D

Matt and Jeremy did an awesome job despite the constant rain and all the stairs. They got the job done carefully and efficiently. Thanks guys ??

We selected Charm Removals based on the good reviews from Google, yes it is an excellent remover, timing, honest, polite, will use the company again in the future..

Both Dean and Chris from CHARM Removals were awesome. They moved my sons gear super quickly and efficiently from Storage and into his new unit where the parking was tight too. They were very friendly and nothing was too much trouble for them. Everything was moved without a hitch and without a scratch. Highly recommend these guys.

Charm Removals.. Where do I even start!? I am an Interstate Move Specialist at Muval. If I could give Charm Removals 6 stars, I would. Whether you are looking for a snappy response, a fair and competitive price, professionalism, customer service AND/OR a DAMN good removalist that will under promise and over deliver EVERY SINGLE TIME, you have come to the right place. If you are moving a full family home, or a 1 bedroom apartment, ALL THE WAY though to a large commercial delivery regardless of whether it is locally or interstate, these guys are the bees knees. Great prices, great service, and more than spectacular staff. I love you guys!! Handle with care, Kudos to Samma and Long live Charm Removals! <3

Charm removals was a pleasure to deal with the entire time. From Booking to pick and delivery. They were prompt, reliable and affordable. We would with out a doubt use them again!

Moving to from Melbourne to Byron Shire, just after the floods, presented some unexpected and extremely stressful challenges. Charm were about as supportive, kind and cooperative as one could possibly be! Samantha in the office was so lovely and helpful in the lead up to the move - patiently holding our hand through everything. And then during all the stress, she went above and beyond to support us. Her manager was patient and generously offered us 1 month free storage when sudden disaster struck with our home. The movers on both sides were excellent, professional and got the job done efficiently. I can't even imagine how much more stressful it would have been dealing with another company. My experience with Charm is about the people who work there. The culture is obviously wonderful to attract such good people. Not to mention the professionalism and expertise in what they do. I'm not one to review generally, but I just had to share!

Best removalist company I have ever dealt with. Office staff are responsive, professional and keep you updated and the drivers arrive on time, are professional, know their stuff and don't waste time. Recommend this company over any other.

I inti Hughes used charm removals a couple of week's ago,I move from Coffs Harbour to gold coast and highly recommend them to anyone because from samatha organising everything and so friendly and the boy's that done all the heavy lifting and was on-time aswell plus nothing broken or missing.And they are the Tetris Kings when they say it's going to fit it will fit.thank's again for your lovely services.cheers from inti Hughes

I have moved a number of times both interstate and intrastate. Charm Removals was the most efficient company I have used. The whole process ran so smoothly - from when I first made an enquiry to the uplift, which wasn't easy due to parking limitations on my driveway, and lastly, the delivery into my storage facility. I would highly recommend Charm Removals - great customer service from start to finish.

Had the best experience recently when I moved from Brisbane to Canberra. Matt and Eddy were fantastic. Great guys, turned up on time, super fast loading/unloading and treated my stuff with respect. They definitely made the move less stressful. I 100% recommend using Charm Removals!

Had a great experience with Charm Removals with our interstate move. Both the admin and delivery teams had amazing communication and provided great flexibility. Everything went exactly as planned.

Matt and Joel were awesome. They work hard with a good attitude. I Will be definitely using charm again for the next move.

Really happy with the overall experience with Charm. The office team communicated clearly and ensured all details were lined up - and the removals guys were on time and efficient with minimal damage. Exceeded my expectations.

Highly recommend Charm Removals. Today was the second time I've used Charm! Friendly service, on time, efficient and careful. From the booking to pickup and drop off. Seriously can't fault these guys Thank you! Highly recommended!

Charm removals helped us move from Brisbane to Melbourne, and their service was 10/10. I was so happy with the move. Communication: they were always very responsive; they kept us updated throughout the process and were always there to answer any questions. Special shout out to Sam, who did a fantastic job from start to end. She was quick to provide a quote, answered all my questions clearly, and kept us in the loop throughout. She is so friendly and professional and has made my interstate move a lot less stressful. Pick up & Delivery: Matt and Jeremy were on time and professional. They loaded everything in the truck in an hour, and the same with the delivery! They were very friendly, professional, and careful with the furniture and boxes.

Thanks, Matt & Jeremy, for looking after our belongings! Quote: The quote they provided was spot on and competitive! It is excellent value for the service they provide! Worth every cent! I am not someone who usually leaves reviews, but the team deserves the shout-out because they did an exceptional job. If you're reading the review and deciding whether to go with Charm removals, I highly recommend them. I would use them again in the future and recommend them to all my friends and family. Thank you again - Sam, Joel, Matt and Jeremy. It is incredible to experience this level of professional service and have a hassle-free interstate move!

Charm Removals were amazing, arrived on time and were very professional. Joel and his team did a fantastic job, protected all our belongings and delivered them without a scratch. I am so happy we chose Charm Removals, highly recommended (we moved from Gold Coast to Melbourne).

Charm helped us move from the Gold Coast to Sydney. They were very responsive and gave us updates on pickup and arrivals times due to our backfill. I would recommend Charm.

Great service easy to work with and organised. Didn't break anything!

What an easy move... on time, nothing was a problem, fast, efficient, polite young men, highly recommend Chris & Matt and Samantha from Admin.... Thank you so much

Exceptional professional customer service and my goods were delivered on time and well cared for. As a customer I felt that my goods were respected and concerns met with ease. I would 100% recommend charm removals to anyone.

We got Mr Dean and Mr Oji from charm removals for moving our house. They were so friendly and skilled .

Moved all the items quickly and safely. I am happy with the service. Only inconvenience I experienced is, they came 1.5 hours early than planned. However these boys gave me a call an hour prior to arrival which was helpful.

The team at Charm Removals was great to work with. Everything arrived intact, which was great!

Hard working guys with care and courtesy and excellent speed and value

We had an interstate move back in November and we chose Charm Removals through Muval as their price was very competitive. We had a few hiccups initially with the booking as our requests weren't being passed through, so highly recommend you book directly with them rather than through 3rd party websites. The move itself was fantastic. We had great experience with Matt and Keanu. They were professional and just get things done. It took 4-5 hours each to load and unload our belongings and they did not stop at all. They made sure our belongings were tight safely and securely in the truck and none of our stuffs got scratched or broken when they arrived at our new house. Overall we are very happy with the service we received and would use Charm Removals again if we ever move again. Thank you!

Really quick, no damages and they even took my door off so they didn't scratch my fridge, will definitely be using them again.

Great communication the whole way. The service was 10/10 I will recommend this company to anyone who needs a removalist.

Thank you Charm Removals, prompt service and safe handling of our items for delivery. I would definitely recommend for your next moving job.

More than pleased with the job that was carried out by Charm Removals. They were prompt and very professional. I would not hesitate to recommend them to others. Thanks guys.

Highly recommend. Team was amazing. Would use again. Nothing was too hard for the team, great attitudes, and genuinely happy to help.

Samantha & Joel provide an amazing service, dedicated & reliable. Great to deal with & inspiring to see these young professionals building a great quality business together in partnership. Highly recommend.

These guys moved us from Tweed to Hervey Bay....fast, clean, courteous professional. Nothing was too much trouble. They had a fantastic Volvo truck at least 40m which easily took care of our stuff. Not a mark on ANYTHING. Forget the others. Get these guys! Ray Armstrong

Dean his son and Chris thanks guys for the smoothest move we've ever done. Nothing was an effort or problem, very careful with everything. If you had ten stars you would get them all.

Eddy and Matt were very fast efficient and extremely helpful in dismantling & re assembling a bed and I highly recommend their services.

Had such an amazing experience with Charm removals and would absolutely use them and recommend them to anyone. Sam in the office was so responsive and easy to deal with. On the day of the move Matt and Jeremy were very professional and just really nice guys! They kept us updated on their arrival time as they had had a prior stop before coming to us. They worked very hard to ensure that all of our belongings fit on the truck with some Tetris mastery. Our belongings arrived quickly and undamaged in an equally smooth offloading process.

Thank you Charm team for the 5 star service!

Charm Removals is fantastic, reliable and at a very competitive price. The customer service from Samantha was friendly and helpful, the loading and unloading crews (Matt and Keahnu, and the two Deans) were extremely careful. I can recommend their services, it's a removal company that can be trusted.

We are very pleased to recommend Dean and Eddie who safely move our precious household goods. They were very professional, co-operative, pleasant and helpful in every way. Many thanks Ron and Julie

These guys are great, on time professional attitude and overall really nice people to work with. I honestly could not recommend more highly! Thanks so much guys, you made moving such a breeze!!

What a great company to deal with. Samantha was amazing with her communication, and the price was the best I could find. The boys that delivered the furniture were great and re-stacked everything with nil damage. Could not recommend Charm Removalists highly enough, Daz.

Our move with Charm Removals went very smoothly. The guys know what they are doing & helped us immensely to ease our stress. It was a 12 hour day for them but they both remained courteous and helpful. A few items were extremely heavy but there was no swearing ?? Samantha was very professional and answered all our pre-move questions to put our minds at rest that all would go well on the day We would definitely recommend them. A bonus was the price which was thousands cheaper than a long established Gold Coast firm !

I have used this company on 3 separate occasions. From Sam in the office to Eddie and the guys on the road, thank you for such a friendly and professional service. Definitely made a potentially stressful experience much

easier. Highly recommend for quality removal and professionalism! Kate G

Just moved from Sydney to Brisbane. Charm Removals is the best in the business. Great price, great communication and excellent service. Highly recommended. I wouldn't use any other mover.

Eddie and Dean are awesome. Punctual, professional, careful, all round good guys. I would use them anytime Im moving house.

We chose to move our 2 bedroom apartment with Charm Removals and we were so pleased with their service. Eddy and Dean were on time, friendly, efficient and very strong. They made sure that all of our furniture was protected from any possible damage during the move, and they were very careful moving it into our new space. We booked their service at the last minute (on a Sunday!) and Samantha was very prompt, professional and friendly in getting back to me. Charm Removals work very well as a team and we would happily book them again.

Ours was quite a complicated move. It involved another removalist bringing our piano to the Charm depot the day before. This was well co-ordinated by Samantha in admin. On the day of the move it was a 6.30am start. Dean and Chris got stuck into the job right away. They worked efficiently in a no fuss sort of way, and were very careful in loading the furniture and attaching it inside the van. They were finished half an hour earlier than expected. Next came a three hour drive and the unloading. Easy peasy. This was the only part of our house sale that went smoothly. It was such a relief. Dean and Chris were courteous, good-humoured and great to work with. On the admin side, Samantha always gets back to you when she says she will. It made me laugh that she always graciously took the blame for our silly mistakes. This is a great company with a real desire to provide the best customer service.

Thanks Joel and team, you worked so hard for us and kept it stress free. Cheers, Brad

Super efficient from booking to the move itself. The boys were super friendly, professional and on time. Worked as hard and careful as possible so we saved a lot more money then previous moves. Had zero issues! couldn't recommend them enough :)

These guys are so friendly and efficient. Accommodated all our requests and changes! Thanks Sam and Joel

This team is great. Well organsied and an easy booking service. Samantha is great to talk to and could fit all our requests in. Would definitely recommend and would use again. Well done team. Thanks again for the great job.

The removalists arrived on time and provided professional service. I recommend!

I received a quick, very competitive quote with a follow up call from Samantha. They were able to book a move from GC to Brisbane in a short time frame. Communication was precise & minimal, as required. Ben & Jeremy turned up on time, were friendly, professional and made the day very easy. Highly recommend Charm for their professional service & integrity.

They offered me the best price to move my stuff from Gold Coast to Melbourne. Samantha helped me figure out how much space I need to book. The mover guys were helpful and understanding throughout the process, even helped us pack a few things out of the way. They had packing blankets and covers in plenty and used them to wrap our stuff. One of the guys even showed up before time to make sure truck can enter our narrow street. They loaded all stuff in couple of hours and did the same in offloading. Got timely updates on their arrival and departure. I will recommend them to anyone moving due to their professionalism and good value.

They were very friendly throughout and we never felt insecure about our stuff.

The pick up and drop off went super smoothly. Both boys worked non stop to load and fit in items to max the space booked. Same work ethic at the other end. Thank you, super appreciated and will refer your company to anyone looking to move long or short distance.

Fantastic service. I arranged removalist at quite short notice but they were very accommodating. Sam answered any queries immediately and was easily contactable. On the move day Dean and OJ arrived on time and were great. Everything ran smoothly on the day, zero damage or breakages, fast and friendly. Would certainly use Charm Removals again without any hesitation. Highly recommended! Faultless! Huge Thank You to the team at Charm.

The team at charm removals were amazing! From the word go and booking in with Samantha to the removalists, it was a great experience. Eddy, Dean and Matt were consummate professionals and took the utmost care with our belongings, they did an incredible job. Having had some bad moving experiences previously, I highly recommend Charm Removals.

The lads arrived on time and did a great job getting the truck up our difficult driveway. We found Joel and Matt friendly, efficient and total professionals. They got stuck right into loading our furniture & stuff into their huge truck - they worked like Trojans with barely a break for a drink of water. They were all done in about 2 hrs.... then the 1.5hr drive to the new house; and then at the new house, they got stuck into it again and were all done in about 2hrs! All our furniture and stuff was delivered safely without any damage. Joel and Matt did an exemplary job and really impressed us.. so much so, that we tipped each of them \$50.... I don't know how they do this every work day...no wonder they look fit! I'm hoping we won't have to move again for quite some time, but if we do, we'd definitely choose Charm Removals again....they gave the best service and the best

price. Their quote was spot on. We would recommend them to anyone who wants great service and value for money.

The guys did a great job relocating my goods. They were prompt, courteous, took care in their work and everything went smoothly.

Excellent removalist on time ,very happy with the service

We had a fantastic experience with Charm Removals. Matt and Dean are very professional, they handled our items carefully. All items arrived in Brisbane from Canberra safely with no damages. Their service is top notch! Special thanks to Samantha for her assistance throughout the process. I highly recommend them!!!

Great team, excellent work on the worst conditions to move (massive rain)

Hi There, Today I used Charm removals and Joel and Chris were the guys who moved me. They were really efficient, accommodating, and took care with moving my life from one place to another. I would definitely use these guys again and recommend them to others who may be moving. Pam

Great communication from the office to the boys! When there movers were very friendly and positive, even when delayed by a 'difficult' customer causing them to be late for the pick up. Drop off was great, friendly and fast!!

Matt & Dean were both helpful and efficient when they moved things from my 3 bedroom house. I intend to

use them again next time.

Professional and hassle free! I cannot thank you enough! I had several large glass items to move and this crew managed to pull it off without a hitch! I was kept up to date with every step of the procedure and everything was explained clearly beforehand! If I ever have to move again this is the team I want! Thanks again Charm Removals!

Couldn't Ask for better service - Matt and Dean - if you're moving do yourselves a favour and book charm removals. The two boys couldn't have been more than professional, helpful and accomodating - delivered all the goods, packed it in storage and took the strain off moving - couldn't be more thankful! Please pass on my thanks to Dean and Matt - don't go past this place for all your removal needs !!!!

Charm removals did an excellent job on my interstate removal. Charm was easy to talk to re my load and timing of pickup and delivery . Their removalists Eddy and Matt were great - very courteous, extremely helpful and easy to deal with. They kept me up to date with pickup and delivery times so the move was seamless.

A big thank you to the "Charm Removals" team, I had a great experience moving from Canberra to Brisbane with this professional team. From Samantha with her patient and kind support, to Matt and OJ for picking up my furniture, and finally to Dean with his kind help in putting my furniture in the right place even though I wasn't there to ask him :-)) I definitely recommend this team to everyone, you will have a great, relief experience.

Great experience and price. Both Matt and OJ were extremely careful in moving, loading and unloading our items. Everything came in one piece from ACT to QLD. Will definitely use again and recommend.

Thank you Eddy and Dean it was such a horrible day with the rain but you both where marvellous and very wet. I Thank you again I recommend if you are moving please consider CHARM REMOVAL you won't be disappointed great company a satisfied customer Annette

Very fast and effective, would recommend these boys and 100% go through them again

We were recommended to Charm by another removalist who wasnt available the day we wanted, it was the best decision we have made in a long time, Our move wasnt without its dramas but Charm worked through it with us and got it done. Their profesionalism, honesty and care is just the best, we heartily recommend Charm, you wont find better.

We have used Charm removals for the third time and were always very satisfied, last week we had Matt und Dean . Even though it was the hottest day they both worked hard to get the job done ,very professional, excellent service

Highly recommend charm removals for anyone looking to move. The two men who helped move interstate were friendly, communicative, reliable, very professional and efficient. Everything that was moved was in perfect condition upon arrival at my new place. Keep up the amazing work.

Matt and OJ came with muscles and everything went smoothly. Highly recommended.

A friend of mine who was moving to my area hired Charm Removals. At the final hour, my friend had to change the destination slightly and the legends at Charm Removals took it all in their stride. The staff who drove and moved all of the contents were courteous, kind and really hardworking. Thanks so much to them

both for helping my friend with her move!

Matt and Jeremy could not have been more efficient and professional. I couldn't recommend them too highly.

Eddie and Dean are extremely helpful and most accommodating. Nothing is too hard for these guys. They'd bend over backwards to help. We highly recommend them and we already are trying to book them for a moving job from Melbourne to Lismore. Thanks very much Eddie and Dean. Excellent job. Norma and Chris Panter

Great service from back end customer service and frontline movers. Very friendly, great experience

The Charm team helped us move from Canberra to Gold Coast recently. Their quote was highly competitive. Samantha was very clear in her communication and she kept us in the loop during every step of the way. Both Matt and Jeremy was extremely professional and loaded our belongings with such care and precision. We would highly recommend Charm Removals for any interstate moves.

The guys were extremely helpful, quick, and took extra care handling all of our business goods. Thankyou!

My move was from gold coast to Coffs harbour. Charm did a great job for us and I will recommend them to all my friends. We were very impressed with service price and professionalism.

Joel at Charm removals was incredible and worked incredibly hard. He was timely, professional and efficient. I would thoroughly recommend his services.

Eddy and Dean were patient in waiting for us to arrive, and provided a quick, efficient service answering all

questions we had on the day. I cannot recommend these guys enough!! Will be using them again for sure!

Haven't even had our things delivered yet but have been so impressed with the customer service and communication of the team with our big move from sydney to tweed. Great price too. So happy I booked with you guys, thank you!

Samantha was incredible in coordinating our move from Sydney to the Gold Coast. It was rather complicated with a couple of drop off points required. Eddy and Matt were great and offered an efficient moving service that was careful and considerate. Hands down one of the best and most seamless moving experiences we've had.

Ivan and Eddy were professionals in handling our stuff. Very easy to deal with.

The removalists team, Joel and Keahnu were very efficient and professional. They did a great job on both pickup and delivery, I would recommend using this team again. There could be improvement from the coordination/support team on their communication and response to the customer.

Hi Ive been using Charm for two of our moves from Queensland to Melbourne and found their service to be at a high standard. Sam in the head office while we had many changes has been always patient and understanding. Joel and Keanu the Movers for our move were extremely professional and efficient. Highly recommend the team at Charm. Thanks Mark

Inverleigh, VIC to Gympie, QLD. Positives - Adrian and T (movers) were amazing! Their professionalism and experience was second to none and we had complete faith in them throughout the process. To say they are hard workers is an understatement, doing very long hours, working in the heat and expertly packing and

unpacking our precious belongings. They were friendly, considerate, quickly built rapport with us and we would recommend them to anyone. Negatives - We had issues with the inventory and unfortunately the staff member we spoke to about our technical issues initially had moved on so we had to go over everything again within a short timeframe (Christmas shutdown meant we were only contacted 2 days before the move to verify inventory). The initial contact from Samantha was not positive with her telling me the containers we had used in the shed would all be broken. This wasn't based on what containers we had actually used as she didn't ask that, just based on her experience. The day before the move Samantha sent a text saying we wouldn't see the movers before 12. By 2pm I text asking for an update, receiving a reply saying she would get back to me. An hour later I then had to ring as I had heard nothing. Her response was that they were busy. She then informed me the movers wouldn't arrive until 4.30. I questioned whether this was acceptable given the initial quote said they would be there at 7am. Her response was poor, offering nothing other than they were busy, again! Her manner throughout was patronising and condescending to say the least. I then received a text as below. Please understand I stated after 12pm Please read your original booking confirmation from Muval, I just read it myself. It clearly states pick up between 7am-5pm over a two day period. You are very important to us as all our customers are however there are 32 pickups being conducted across Australia today alone. I have also made it very clear to call our office at any time for any update. I just hope you are okay, I understand how stressful moving can be. Thank you Samantha Charm Removals I found this text to also be unprofessional and condescending. To openly state the customer should contact the company for updates is not good business at all. Customers should feel like they are important especially when it concerns their home and personal belongings. Interestingly (through no fault of theirs but due to log book requirements that they had a break) the movers didn't arrive until 5.30pm and left at 9pm. So the text/contract stating they would be there between 7-5 was not adhered to anyway. If it was not for the complete professionalism and high level of competence from Adrian & T, I would not be recommending Charms at all unfortunately.

Booked and confirmed a moving date weeks prior. They suddenly decided to change the date of the move on

me, within the week of the move. I couldn't do the new date they wanted so I emailed and left voicemails multiple times but they never responded to any. Never heard back from them again regarding the change or even the cancellation. Just ghosted. Very unprofessional to change the date - and to ignore all voicemails and emails and not try to offer an alternative or any solution. Just leaving customers in the lurch instead

Second time, told us on the same day that our stuff didn't arrive, they postponed us for another week, where we had to camp no fridge and we had to eat out everyday. They made us wait half a day until they told us that they are not coming. Inconvenience for all the parties involved as my in laws took the day off to wait for them. They didn't reimburse us for anything or gave us a discount for a trouble. They also wanted to charge us 500 dollars to deliver the stuff earlier, which is bizzar. They also pay per 5 star. We did use them twice, the first time they were great the second time it was a bad experience, overcharged us for half the quantity the we booked the first time (first time we booked 30sqm second time we booked 17 and they somehow charges us the same?). Refused to deliver an empty brand new gas cannister that they did deliver the first time. Again, not very professional on their behalf. One table came with a massive scratch on the wood (real wood table and ikea stuff), which is going to cost us to fix.

It's taken me 8 months to leave this review because I needed time and space to put the wholly negative experience I had with Charm behind me. I booked Charm through Muval and from the get go, they were very slow to respond with communication. They were unable to give me a time frame they would arrive at our house on the day to help us move from Sydney to Brisbane saying only that they would let us know the night before. Then late the night before they were due to arrive, they called with an extremely unbelievable story about how they had to help their customer in Melbourne with a personal crisis and would be delayed the next day. We were moving out of our rental and couldn't believe what we were hearing. We had paid in full thousands of dollars for our service. The next day we waited anxiously to hear from them what was happening. Fraught with anxiety and stress, they kept fobbing us off with more and more outrageous stories.

We were in such a predicament waiting in our house with fully packed furniture. Getting quite irate by the lack of communication and the delay, with no timeframe as to when our move would happen, I let my frustration show with the booking manager, Sam. When Joel arrived a day later, he let us know that he was unhappy that we were displaying signs of frustration. He walked through our house and told us that we had too much stuff and said that he could not take it. He then proceeded to sit in his truck outside our house for nearly an hour while I spoke on the phone to Muval. We could not cancel our booking without losing the money we had paid yet he refused to take our 35sqm of household goods we had booked and paid for. Saying that he calculated we had 50sqm. Eventually, he cancelled the order, swore at us and drove off. We were very lucky to find a replacement which cost us extra for the short notice, but we had professionalism with our next booking. The subsequent movers said we had 33sqm of household goods so I can only assume that Joel had other reasons for not taking our things. Regardless of what they were, his attitude and lack of professionalism, leaving a family stranded is something that I should have posted on this review earlier. You can see that they have very many good reviews. The experience we had gives me great doubt about those reviews. If he has treated us like this, he has treated others and I hope they will come forward and post them too. If there is a Code of Conduct for removalists, he is far far from it. I am posting this as a warning for anyone who considers them, beware, you book them at the risk that they will not turn up. And when you are moving house (and states in our case), you can't take this risk.

Had such a good experience with the two guys who came to collect our stuff. They were so thorough and careful but they were also so friendly and very funny. Couldn't recommend a nicer pair of gentleman to come into your home and make a stressful experience feel smooth and light hearted. When all of our stuff arrived

interstate everything was in great condition, except for one minor rub mark on a table but that's no one's fault (things shift in transport). I would definitely recommend and I would definitely use again.

The guys were awesome on time and really took good care of our belongings thanks heaps

Helped me to move my house locally. Good quality professional service provided.

Adams and Rofe gave great service all the way through. From the first quote to the final item being packed for storage, the helpful and knowledgeable staff kept me updated at every stage of the procedure. My furniture was even wrapped by them, a service that no other removalist had ever provided. They really made the entire process less stressful. I heartily endorse them!

Do not hire this company. They 'moved' me and the service was incredibly poor. From breaking many items, just throwing things in boxes, not sticking to their advertised services (e.g. not using porta-robos and destroying many pantry items and MANY more issues). I made a complaint and their service was so bad they

fired one worker and warned two others, then completely ignored my request for a refund for services they did not provide. Strongly advise you to complain to Fair Trading if you have a similar experience. Also check your house as they will leave entire rooms untouched. They also only returned some of my belongings when I threatened to call the police. Awful, awful company.

Was overcharged for travel time (1 hour to return to depot). We literally moved in next door to them ! Contacted them on several occasions to have the charge fixed and got the run around. Said they would speak to managemnet but never returned any calls. Would not recommend.

## **Page: Brisk Transport - Muval**

Brisk Transport is a family run and operated company that is all about providing the highest level of service in the industry at an affordable cost. We pride ourselves in having professional men who look after clients and the moving experience as stress free as possible.

We have depots in Brisbane and Melbourne and solely focus on this route so we can offer our clients a daily service to suit their requirements. We load items into containers and utilise the rail network so your furniture gets a smooth transition from point A to point B.

We will take great care of your furniture, boxes and any other belongings entrusted to us. Our moving staff are experienced and abide by the highest standards of safety. The standards we follow when moving furniture and the measures we put in place really set us apart from many other moving companies. We train our staff in-house, so the service you receive on moving day is second to none. We never use backpackers, day workers or subcontractors.

Choosing an interstate furniture removal company is not easy because prices seem to differ greatly between companies. It's important to understand that when moving interstate the two main factors in the price variation is the standard of the removalists and the amount of hidden fees companies throw at clients once they start loading your items. At Brisk Transport we prefer to be transparent and honest about the way we charge our clients.

Blake and Connor were amazing. They arrived on time. Very professional, everything wrapped and securely placed in the truck. Fast but careful. I would absolutely recommend Brisk Removals and fully intend to use them again. Thank you for taking the stress out of the move.

Brisk's Removals is the best for interstate removals. I phoned quite a few removal companies, and they were all quite expensive for just a few boxes and some small pieces of furniture from Melbourne to Brisbane. I spoke to Tania from Brisk's Removals and received a reasonable quote. My items were moved successfully. I just want to thank the staff at Brisk's Removals, especially Nick and Mercedes. They were fantastic and were

extremely helpful throughout the process. I would recommend Brisks Removals to anyone. Thank you so much.??

Moving with Brisk was the best move I have ever made. For the life of me I cannot remember the names of the driver and offsider but they never stopped working. The whole move from storage to unit was painless and highly efficient. I will definitely use them next time I move and highly reccommend them to anyone considering moving.

Dealing with Brisk from the very first phonecall (and I made a few!) was easy, relaxed and professional. Right through from the Office team to the Removalists it was 5 star service, I wouldnt hesitate to use Brisk again!

What a great move! From start to finish, everything was amazing. The price was great and the men were happy and extremely efficient. Would definitely move with these guys again and definitely recommend to anyone moving

Very polite and extremely helpful.

We had two of the hardest working men moving us from Taringa to Loganholme. Felipe and Gabrielle did an amazing job and they were extremely professional, friendly, skilled, strong and dedicated to such a big day of moving. Massive thanks to both men and thankyou for your great communication Brisk Transport

5 stars for Liam who was consistently polite and just kept going despite some difficult circumstances. Liam and Toby worked hard in very hot weather and I hope they're both ok. Sunni was awesome. Thanks guys.

We recently used Brisk to move from semi rural back to Brisbane. James was amazing, he was so considerate of our belongings and towards his colleague. Everything arrived in perfect condition. Without hesitation we would recommend Brisk Transport to assist you with your move. Well done James, you're an absolute asset to Brisk! Thanks again.

11/10 removalists. Both the Melbourne and Brisbane team were amazing with their handling of our goods. They were very professional, careful, and efficient. The pick up and drop off time was very punctual which is very impressive. Great communication throughout the entire process too. So much stress was taken off our shoulders thanks to these guys. Worth every penny!

I am completely blown away by Brisk. Their customer service from every single team member was exceptional. Nic was great - made sure the quoting was accurate and was very informative with the whole interstate moving process. The lady's on reception were great also, always friendly. The boys in Queensland that came and loaded were amazing, cracked jokes but still got the job done very efficiently as well as the boys in Melbourne. My items were moved efficiently without any damage. I cannot fault their work or team. I

would highly recommend Brisk Transport!

The lads that loaded the container knew exactly what they were doing and handled each item with utmost care. The delivery was managed very well and it was pain free start to finish. Consummate professionals and value for money. Brisk is now our go-to mover for any future move. Thanks Nick and team !

Amazing customer service. Very professional, care, organized and respectful team. Thanks Paul for your help and support

TJ and Jeff were efficient, friendly and considerate from start to finish. Job well done. Highly recommend them.

Brisk had an extremely quick turn around for my booking: I contacted them on a Sunday, they collected on a Tuesday and delivered interstate on a Friday. When doing a price comparison they were extremely well

reviewed and the cheapest amongst competitors. Would definitely use again. Would definitely recommend.

?? 5?'s for Brisk. Absolutely recommend! The team were polite professional and nothing was too hard or difficult. We relocated from Melbourne to Brisbane the will be using Brisk if we move again. If you need a mover Brisk is a MUST!

Liam and Jayden were quick with moving furniture and were very efficient! Would defiantly recommend brisk transport to people and I will be using them again in the future.

Used them for our move from Melbourne to Brisbane which included fragile antique furniture with glass - nothing was damaged. Seamless experience - even this eggshell that my daughter packed was unscathed. The staff were friendly and communication was excellent. Their quote was very competitive as they use rail rather than road to move the container they pack.

Wonderful experience with Gabriel and Felipe - they were careful, considerate and efficient.

The guys were really friendly. I was moving interstate and they just made it so easy and effortless. It literally was just one less thing to stress about having them move stuff for us. The guy at the office was easy to deal with and very professional and the removalist themselves were very polite and friendly. Would 100% recommend!!

Recently moved our household things from Melbourne to Brisbane. Very friendly team, good communication and follow up, all the goods received in their original condition. Affordable rate. Thanks to all the team members.

As we moved interstate from Brisbane to Melbourne, we choosed Brisk Transport as they are very competitive in the market. Nick was very cooperative, friendly and helpful throughout in dealing and negotiating. Loading staff was also very efficient and professional in loading the items to the container. They reached on time at the pick-up location and within an hour they have loaded all the household items in the container securely and safely. During the movement, Nick was in regular contact and kept us informed about the delivery. I recommend Brisk Transport to anyone.

Felipe, Gabriel were my movers at Brisk, who was recommended by a friend. The experience setting up the move was very smooth and since I had a recommendation the rate was lessened as well which was quite a nice bonus. I could tell that the experience of our two movers was quite good as they took extra care in moving my large and heavy items as well as providing tips for longer use care and moving in the future. They also had good recommendations on placement of some of my items. I will most likely use Brisk again for future moves.

Brisk helped us move offices recently. Every step of the process was excellent. Really great communication. Our removalists Jason, Brayden and Ryan were thorough, careful and very quick. So glad we chose Brisk ??

From the office staff to the guys doing the moving, the service was fantastic. All friendly and accommodating. Totally use them again and recommend them to friends.

We've just moved for the 3rd time with Brisk Transport. There's a reason for that their service is excellent & competitively priced & then Steve offered us a 'loyalty discount'! :0) Every move has been good, with great care being taken - & yet all done very swiftly. We had Robbie & Zach & they were polite & courteous, very punctual & very efficient - but then everyone we have had previously have also been great. Great Job Steve & the Team & Thank You again, Mike & Kate :0)

Boys rocked up on time and had smiles on their faces despite the humid 32 degree day, nothing was too much trouble. Suni and Seb worked diligently, quickly, and without complaints. They were kind, friendly and courteous to our neighbours moving out of a building with a shared elevator, and muscled our heavy furniture up stairs with good communication with one another, which lead to no damages and my move being completed in a fast and timely manner. Good communication with the operation coordinator Reece, confirmation calls, called to check in and also explained the bill thoroughly, which was cheaper than expected given the level of service. Ill be recommending Brisk to all of my friends, thank you team!

Great communication, excellent hard workers who moved and packed my belongings. Offered extra help where they could see I needed it. Highly recommend. Great job boys!

I absolutely recommend Brisk to anyone wishing to have a hassle-free move. They helped us move from Brisbane to Melbourne and the service was completely personalised and sincere. We were able to communicate our situation very easily and they offered to hold our goods untill we found a house at minimal charges. This saved us the trouble and cost of hiring storage. We were very happy with the company's professionalism.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Brisk provided me with a very

competitive price for moving my items from Laker MacDonald QLD to Geelong Victoria. All staff were very friendly and responsive to my needs. Absolutely cannot stress this enough- these guys were AMAZING! We have them literally a days notice, and they were able to get a team together to come out and move out our entire house the next morning. Nic was great, very responsive and sticks to his word- if he says he is going to call you at 6am with an update- rest assured you'll be getting a call at 5:30am with an update! The 3 guys that came in were phenomenal and their Tetris skills were some kind of art- we have no idea how they did it but they did! Professional, fast at responding and extremely accomodating. We wouldn't go any other way and will definitley be calling them

I arrived to pick up a couch that my daughter had purchased from a client who was moving house with your company. I have to praise your two guys Toby and Liam for helping an older lady (myself) with the purchased couch. They showed excellent team work and skills and went 'far and beyond' service. I would highly recommend your company for having such dedicated workers. I am myself quite experienced in moving and will keep the company name for any future need.

We are very happy that we selected Brisk Transport to transport our household goods from Brisbane to Pt Lonsdale VIC. They have completed the job very professionally in a timely manner. Amazing from start to finish. Great to deal with at booking. Called with updates on pickup times. Movers that picked up were professional and efficient. Packed everything well. Then had multiple calls on updates on deliver time. Guys offloaded everything efficiently, even popped our couch back together and put stuff in relevant rooms. All for a great price, would highly recommend to anybody!

Used Brisk to move my furniture from 1 house to another. It was a big job as it was a 2 story house to pack up and move. Felipe and Gabriel (our removalists) were fantastic. Hard working, no damage to any items and were able to move 2 full loads of the 13 tonne truck in a little under 7 hours. Highly recommend these guys.

Hired Brisk for a smaller move, 2 bedrooms, living, dining, not to mention the precious BBQ. Felipe and Gabriel were great, on time, and took care of my things, wrapped in padding and secured. They were diligent, asked directions for placing furniture, and courteous. Would certainly ask Brisk to help again.

Excellent removalists, friendly, efficient and professional. Blake and Sebastian did a fantastic job. Id definitely use them again for any future moving jobs!

Couldn't be happier and stress-free!! Definitely one of those rare company you can rely on, who understands circumstances and the added stress of moving, especially on short notice! Nick made the whole end to end process seamless. The communications from start to end, their ops manager, and the effortless work that the team conducted on both pickup and delivery was flawless- customer service with a happy friendly professional attitude from the blokes on the frontline was definitely noticeable; when was the last time removalists were given a huge pat on the back as these blokes take so much stress off us movers. Will highly recommend Nick and the team to friends and family. Once again, thank you Brisk Transport for the stress-free, trailer-free road trip from BNE and MEL.

Brisk moved us from our home of 42 yrs in Melbourne to Brisbane and were fantastic from the first phone to final drop off. Made it so much easier for us. Cannot recommend them highly enough! So glad we used them.

These boys 11/10! Fast, careful, helpful and go above and beyond. Truly thankful to Gabriel and Felipe did an

excellent job!

I am truly grateful for all Brisk Transport has done for my move from Melbourne to Brisbane. This company is the one & only you should consider using if you are moving from Melbourne to Brisbane or vice versa. As they have been specifically serving these 2 cities with great services! Shout out to the consultant Mercedes in Melbourne, and Alyssa in Brisbane, both are very approachable on the phone and always returning your calls if missed one. The removalists are really the heroes of the business, I wanted to thank Andrew, Martin and Coree from Melbourne end, moving all my stuffs for a one bedroom apartment in just an hour! Super fast and efficient. That included wrapping and packing my kitchenware, disassembling my IKEA double bed and disconnecting my washing machine! Also shout out to Bo and Damien from Brisbane end, again the same magic for the moving-in part. All the lads are friendly, kind and strong! My furniture and all belongings were delivered with nothing missing and not even any visible marks or scratches (it really is unbelievable)! I will 100% use their service again in the future if I needed to move again in QLD. Thanks for everything you do, 5 stars just don't do the justice for how amazing you guys are!

Very reasonable price with a very good service! Loading and unloading went very smoothly!!!! Big shout out to Nic, Paul and Andy from team.

????? I had an exceptional experience with Allan and Kobi. Their punctuality and immediate dedication to the job were impressive. These two men were not only efficient but also conducted themselves with utmost professionalism. I highly recommend their services fantastic job, and a big thanks for their hard work! Thank You ?? we appreciate it.

Excellent service stress free from gold coast to Geelong. Went smoothly thank you to all.

Wanted to say a big thank you to Liam and Toby and the team at Brisk Transport. Liam and Toby were friendly yet professional and efficient, getting the move done within 2 hours. It was a very hot day as well (Dec 28th) so i appreciated their commitment to getting the job done. Highly recommended. Thanks guys.

Felipe and Gabriel helped us moved today. They did an amazing job! Safely and efficiently moved our fully furnished 4 bedroom house in less than 8 hours. Polite and hardworking, thank you very much.

Matt and Sam were our removalist team on Friday 24th November. They were efficient, polite and professional. The day went smoothly and I would happily recommend Brisk to others about to embark on a move.

Having never engaged the services of a removalist company before, we were very nervous about organising the transport of some furniture from Melbourne to the Gold Coast. We didn't need to worry as from start to finish Brisk Transport was extremely professional and every staff member we dealt with, from Tania and Holly in the office to the delivery staff in both Melbourne and Gold Coast, were so friendly and helpful. The timing of pick up and delivery was impeccable and they kept you informed the whole time. Cost was reasonable too. Would highly recommend Brisk Transport for your removal needs and will definitely be using them again in the future.

Liam and Levi were professional and polite during the entire moving process and catered to any needs that I communicated. They are dedicated professionals who ensured the entire process was as stress-free as possible from start to finish and I would highly recommend them. The operations staff were responsive and acted in a manner that assured me of a smooth and timely transition from one house to another.

I had some household and personal items shipped from Melbourne to Brisbane from my home to friends storage. The whole organisation was very efficient. Very nice guys who came to the house and super efficient and fast. The stuff was up there in my storage area in Brisbane in two days. I even forgot my washing machine and they came back. Would highly recommend this team.

Brisk could not have been more efficient, helpful or professional. From the very first phone call with Mercedes to follow ups with Alyssa, every question was answered and our every need catered for. Brisk also helped us to organise packing and unpacking and piano movers to assist with our interstate move. The movers on the day were exceptional. In 35 degree heat, Mark, Beau, Taran and Eli were jovial, polite, careful and incredibly efficient. Nothing was too much trouble for them and they showed great care and concern for our furniture and home. They were also easy to get along with and just lovely people. We are so grateful. As far as price goes, Brisk offered a service that many others quoted double for. We could not recommend Brisk more enthusiastically or highly. We will use them for every move in the future. Thank you to all in the Brisk team.

Amazing work done by the guys who loaded everything on the container. They were careful and precise with every piece of furniture that went on. Would recommend to all my friends and family!

Felipe and Gabriel helped us with a move recently. Very professional and efficient service. Took great care with the fragile items. Thanks guys

Brilliant service end to end. Conducted interstate move during peak season, handled without issue. Crews at both ends of the move were ultra professional and a pleasure dealing with admin staff. Communication was outstanding. Highly recommended.

Felipe and Gabriel did a fantastic job for us. They were punctual, professional and very friendly. 5 star service.  
Thanks Peter H

Two excellent blokes turned up on time, worked cheerfully and solidly and nothing was too much trouble...even my extraordinarily heavy garden statue. Thanks boys.

The dates for my removal did not align with this business. However, the team were very professional and pointed me in the right direction. Genuine people that care and are concerned about the reputation of their industry are rare.

Efficient and stress-free move from Brisbane to Sunshine Coast! Exceptional work from Phillip and Gabriel  
Highly recommend!

A great experience from the first call to the last. Moving from Qld to Vic was daunting, but everything was handled very professionally and I had full confidence all the way. Great service, great follow-up, great moving teams at both ends.

I had a fantastic experience with this Removalist company during my move from Ipswich to Noosa. Felipe and Gabriel was professional, efficient, was took great care of my belongings. From the initial contact to the final delivery, their communication was excellent. I highly recommend their services for a smooth and stress-free relocation.

Felipe and Kobe did an amazing job. Very friendly and extremely helpful. Would definitely recommend them!

I would definitely recommend Brisk transport for your interstate move. We had a massive move from Qld to Victoria and not only was their price way better than any others, it included 4 weeks storage if we needed it, which luckily we didn't. Paul and Andy kept in touch and we were informed all the way through. The removalists themselves were friendly, professional and efficient at both ends. Thank you to all involved.

Service: Interstate moving

Our move from Gold Coast to Melbourne was made easy thanks to these guys! Our inventory list became huge in the last minute but these guys accommodated everything with no problem. Easy communication and very helpful . Will definitely call you guys again if we move again

Ryan and Aidan were amazing today assisting my mum with her move. They were absolutely lovely and super quick and efficient. We will definitely be recommending Brisk to everyone we know and also requesting Ryan and Aidan for future moves.

The team at Brisk made our interstate move so easy. Very hard-working and lovely team.

Very professional, great service, takes the stress out of moving. Gary

I had a smaller move required that most movers I contacted over quoted and were not very nice to deal with. With Brisk, I was put in touch with the director who sorted out a special deal for me and very patiently explained all aspects of the move to me. Everything from first contact, due to final drop off was fantastic; the efficiency, the communication, the care in which they looked after my goods. I can't thank them enough for the fantastic effort they gave in ensuring I was well looked after, even though my job was tiny in comparison with what they normally do. Thank you so much!

I highly recommend Brisk. I have used them three times now in the past five years for interstate moves. Excellent customer service from Admin and Nic in Operations. The guys move fast and know what they doing. Mark, especially is freaking awesome! Thanks so much guys! ??

Best removal company, they do care about your furniture

Two guys called Cody and Husk come to our place to to help us move from Melbourne to Brisbane. Absolutely outstanding. The guys arrived on time and had our 4 bed house all packed up and ready to go with in 1.5hr. Friendly, professional and thorough. Also, much cheaper than the competition. Would highly recommend.

Gabriel and Felipe were amazing!! Excellent work and nothing was too much trouble. Highly recommend!!!  
Thank you boys!!! ??

Moved from Melbourne to Brisbane, it was a super easy and stress free. Both teams got me in and out very quickly on each end. Thanks guys

Third time customer of Brisk. Toby and Liam showed up early, were great communicators about the plan of attack, and got straight into helping me move to a new apartment. They finished the job in under 4 hours. Thanks, legends!!

Recently moved houses from Melbourne to Brisbane. The price was reasonable. The guys who loaded the container did a great job. They were friendly and professional. But there was no one at home when unloading. They had brought the fridge, sofa and the washing machine inside the home. But left everything else in the garage even though I asked not to do so. I had to put extra effort and time to bring them all in. Then Nic called me and paid back compensation.

We have used the services of Brisk on 3 occasions, and on each move we have been provided a great team. We had the best yet on our move on Friday, Liam & Daniel were professional, friendly, careful and fast! We had the move done and dusted in 5 hours! 3 bedroom unit moving to building next door, so no travel time

needed which helps, but they hustled quickly between the two buildings and were simply amazing! We move again mid-next year and will be asking for the same team. Thanks Daniel, Liam and Brisk!

Cannot recommend Brisk enough. They were amazing from the get go and Nic was excellent with helping us book our move from Brisbane to Melbourne. When the boys turned up with the container they were on time as discussed and very professional. They handled everything with care and all our items arrived safely and nothing was broken. I would recommend them to anyone looking to move interstate or even local. Very affordable as well. Thanks guys Service: In-state moving

We have moved with other company's local and overseas and although they were great, Brisk stepped it up a few notches. From the office staff at the very beginning to the amazing crew that packed our home into a container. Great communication, friendly, reliable, courteous and just a great service. Nothing was a problem and all questions answered. Just a no fuss service. Thank you Team Brisk!

I moved from Queensland to Victoria using Brisk - they made the process absolutely seamless. Ive never had such a positive experience with a moving company. The lovely ladies in the office Jemma and Cat organised dates, times and square meterage (and were so helpful with a last minute change on my end!). The boys who loaded and unloaded my furniture were both super friendly and careful. I cannot speak more highly of this business. I will never use another moving company again. Thank you Brisk!

We used Brisk for a 2nd time at the start of Feb 2024. Liam and Jacob were prompt, polite and quick when both loading and unloading. Would not hesitate to use Brisk again - especially these two staff members. Thanks Gareth

Positive: Professionalism , Punctuality , Responsiveness Couldn't believe they could load our furniture in Qld

on Thursday morning and have it to us by Saturday morning I'm regional Victoria! Super impressed with how professional they were. Would definitely use again. Service: In-state moving

Felipe and Gabriel did an awesome job moving us to our new house. Fast efficient and friendly. Nothing was too much trouble. Awesome service

Brisk Transport proved to be a very reliable company for transporting my furniture from Melbourne to Sunshine Coast.. The team are friendly, helpful, professional, and caring. Their pricing is very competitive with no hidden costs. They have a great experienced staff. Kodi and Aidan in Melbourne, and Cory, James and Max in Sunshine Coast did a very good job. I do recommend them for my friends, relatives and any one seeking advice.

Felipe and Gabriel were fantastic. They handled my moving job with great expertise. Thank you very much guys.

Brisk by name, Brisk by nature. Nate and Caylin (apologies for the spelling!) did such an amazing job. So professional, no mucking around, just came in, assessed the situation, and got to work. Everything was handled with care, and the unloading into the storage unit was some of the quickest I've seen. Would definitely use these two gents again for any future moving I do.

Great service Aiden and Ryan were excellent! Super friendly, punctual, careful with our stuff. Complimented us as our decor is a bit unique. Took a lot of care and kindness even when my dog got stressed and barky. Would recommend! Top tier

Shane and Tom from Melbourne were absolutely brilliant. Both men went above and beyond. They honestly

took so much care in packing our home. They were easy to approach and communicate with! Sales Staff were so friendly and after service too! Recommend BRISK TRANSPORT ????

Alan was fantastic. Very helpful and informative. Highly recommend

The Team at Brisk were excellent to deal with. They came recommended to me and I further endorse their business and would use them again.

Magdy and Shane were friendly and hard working. They provided prompt and efficient removals. I would highly recommend this company.

Felipe and Gabriel are two hard working guys, I couldn't be Happier with their efforts today. Many Thanks  
David B Fitzgibbon ????????

Felipe and Gabriel Excellent, Very efficient!

Liam & Levi were fantastic. Both polite and efficient, nothing was too much hassle n yet they cleared everything in under 3 hrs Would highly recommend

I could not have possibly had a more positive experience than the experience I had moving from Melbourne to Tamborine Mountain. Clayton was so helpful at the start, including connecting me with one of the most brilliant professionals I've ever encountered, Simon from ServicePoint, who did an exceptional job of helping me the pack up and vacate of my apartment in Melbourne. Every single individual in the Brisk team was very competent, polite and bent over backwards to help me with what was a very tricky move. The actual removalists in Melbourne were Shane and Tom. The actual removalists in Queensland Qld were Cameron,

Marty, Steve, Robbie, Mark and Beau - these guys worked so hard unloading my belongings in a very tricky and steep location and they were so polite and kind. Nick, who is in charge of interstate operations was nothing short of brilliant, as were his colleagues Mercedes and Riana. Wayne was also extremely helpful with relocating some items locally in Brisbane. Wayne's crew were also great - Linda in the office and Liam and Christian. Liam and Christian did a brilliant job of assembling my bed from a flat pack and reassembling my timber dining table. Nothing was ever too much trouble. I must also add that their rates are extremely reasonable. Sound too good to be true? I appreciate that this review is overwhelmingly positive, but I want all readers to know that I am not one to exaggerate and I cannot recommend Brisk more highly. It is rare to find such reliable, friendly, respectful, kind, generous and can-do service. My sister also experienced exceptional service when they delivered a few items of mine to her place in Brisbane - she was impressed., too. I will use Brisk forevermore and continue to highly recommend them to everyone. If I could rate Brisk with 6 stars, I would.

I had to move very quickly from Melbourne to Brisbane and these guys were on top of it from the get go! Extremely helpful and professional. Polite young men who introduced themselves when they arrived. Calm, efficient and nothing was too hard which settled my anxiety. Everything was carefully loaded with ease and the boys had a great understanding about moving items from some tight spots! The whole thing was smashed out in about 2 hours! I'm very impressed and a big thank you to Liam, Tom and Thomas!!

Gabriel and Felipe were amazing! Thanks so much for moving me into the new place. So friendly and helpful!

Brisk Transport Melbourne were amazing & professional! Rianna in the office was very helpful with the logistics in our move to interstate. Lead up time with Phil and the removalists team Andrew, Ritchie and Hux who did an amazing job! The process in moving our house items was professional and quick. No issues and made our moving house easy and a stressless experience. Thank you for Lana @ Kyleah Conveyancing in

recommending Brisk Transport! AAA+

Brisk transport I wasn't able to use in my circumstances however. A representation of a company is the small details. Such as follow-up phone maner and transparency. All of these were performed exceptionally by Wayne, with the details Wayne made me confident with Brisk as a company and is now locked in my phone contacts when I will require his service and will recommend to others. How a company presents it self from the first phone call is a indication of trust to the consumer and a demonstration of reliability. So when the time comes I will be reaching back out to Brisk and hopefully Wayne is managing my enquiry or someone just as good.

Ive used this service twice now and both times I received fantastic service!! The guys unloading in Melbourne were efficient and friendly - offering advice and going above and beyond each time. Nothing was too hard and everything arrived safe and sound two days after it was packed in Brisbane! Won't be using any other provider in the future, these guys can't be beaten on service and security!

Brisk and the team provided me with excellent service from the very first point of contact and throughout the move. The team who moved me were fast, efficient, careful and friendly. The office staff were also excellent to deal with. Brisk may not be your cheapest quote but they are worth paying a little bit extra for.

We booked Brisk Transport from a referral. I will definitely be referring you to anyone and everyone looking to move. Today, we had Corey and Tom come out to load our container. These two guys are machines and absolute legends. The best Tetris players I've seen. Corey and Tom are so nice to deal with and I wish them all the very best. Great work guys and Thanks again. Jeremy and Mery

We just moved from Brisbane to Maleny with Brisk Transport. Dion and Emanuel made this simple and stress free. Both very friendly, capable and experienced and despite being a hot day they maintained good humour and a fast pace. Thank you to them!!

We recently used Brisk to move us from melb to northern rivers nsw Guys on both ends were absolutely amazing so helpful nothing was too hard for them. Highly recommend Brisk Very entertaining Workers ????

We are a third time customer of Brisk, and couldn't be happier with the move. Our team - Philipe and Gabrielle - arrived on time, moved everything with impeccable care, and were extremely helpful and polite. We highly recommend Brisk to anyone looking for a quality mover.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Thank you very much Brisk! Ash and Richie were just amazing! Very friendly and highly professional. Both are real Tetris Masters!! We can highly recommend you and these brilliant two guys! Service: In-state moving

We had a fantastic experience with Brisk & recommend them to anyone who is looking for top notch customer service!

Today Brisk arrived perfectly on time to move our furniture from Hillside to Brisbane. One look at the guys and we knew we will not be disappointed with their service. We were so happy at the efficiency of their service, their friendly manner and the care they took with all our possessions. Brisk great job!. If you are moving house do not look anywhere else, call Brisk, we highly recommend them ?? Anna.

This is a special thank you and review to the Brisk teams that transported and unpacked my furniture from Geelong to Peregrine Springs, Sunshine Coast. The efficiency, professionalism, care and friendliness that was exhibited was outstanding from start to finish. There has been no breakage or damage .. well done everyone. You all deserve gold stars!

I've used Brisk twice now to move furniture and their service is amazing from booking to removalists. All staff are wonderful and helpful. Highly recommend!

A big shout out to Aidan and Ryan who helped with my recent move. They were friendly and helpful, and did a great job!

We used this company in October 2020, to get our belongings from Brisbane to Melbourne - during the Melbourne lockdown. Everything could not have gone smoother. They arrived on time, were careful but kept a great pace. They were on time at the other end, to place our belongings into our new house. They listened to our requests, were polite and friendly and just did a tremendous job. I could not recommend Brisk Transport more highly. Services: Local moving , Moving-related packing

Had Cory & Hux with Andy over seeing the process. Can't believe how lovely they were. So fast, professional, friendly and took care with our items. Had a few laughs with them and they managed to make a very stressful experience almost care free. Also dealt with Clayton on booking and found him fantastic. Price was great. We needed extra space and it was still cheaper than other quotes. If I could give 100/5 stars I would. Thanks guys! Service: Local moving

Brisk moved our family from Melbourne to Brisbane and everything from the initial enquiry to the last

handoff was highly professional and compassionate. I cannot speak highly enough of Mercedes and both the Melbourne crew and the Brisbane crew who never complained, were always happy, hardworking and very respectful. It was the best decision I made and everyone in this company made it seem so easy. Thank you for helping us! Highly recommended for an interstate move.

The team made my removal from Melbourne to Brisbane pain free (especially with covid lockdowns!). There was a lot of communication beforehand and on the day I received a text letting me know the anticipated arrival time (and a call when they had finished). The team turned up on time (to the nearest minute!) and were very friendly and professional. I have to also say I am impressed that on a wet and windy Melbourne day there is no dirt or footprints inside the empty property. Overall the price was extremely good and I would definitely recommend Brisk to others moving interstate. I also like the concept of using local removalists at both cities which then helps avoid any issues of covid transfer interstate through physical movement of people not sure why this isn't standard across the industry yet! Well done to the Brisk team for being innovative in this. Congratulations to the team for making a move during lockdown pain and hassle free.

Just had Braiden and Sonny move my house and they did a fantastic job. The company was a little expensive overall, but quality usually is.

Had the honor of having Brisk Transport move us from Melbourne to Brisbane. I don't have enough words to express my thanks to the Melbourne crew, who packed the container...efficient, amazing, friendly and above all, respectful of our personal effects. Again at the Brisbane end, the team were helpful. I can say that every phone call I received, I was also impressed with customer service. Great pricing for our interstate move. I highly recommend Brisk Transport and wouldn't hesitate to use them again. THANKS TEAM!!!! helpful helpful

Good service on pick up - and paid in full upon pick up - at delivery - damaged goods, missing items and items from another persons consignment delivered - on follow up call was pretty much told it was my problem - no care, no responsibility once paid obviously

We moved twice before with Brisk, no problems with anything. We are looking at moving again soon so I called for a quote and while they were going to give me a reasonable hourly rate, I was surprised that the booking deposit for a local move went from just under \$200 last time to now almost \$800 they are asking... Upfront before they even pull into your driveway... Such a high booking deposit could seem like a risk to the customer if it turns out that they have some sort of delay or don't show up for some reason. Why such a high amount? Makes me want to shop around when I would have otherwise just booked with them again... How do I know they won't keep my \$800 and are going into liquidation or something else weird going on? Do you have too much competition undercutting your quotes and a high deposit is the only way you can keep the business? It raises red flags for me. \$800 is too much of a risk...

I went through the quote stage with sales rep Robert. I found that either he wasn't clear enough or he was deliberately not transparent about costs. I asked clarification questions and his responses were condescending, when I continued to ask, he got upset so I didn't continue with booking the job.

My experience could have been improved on many levels. Pick up and load job at the start was amazing. The guys were incredible with customer service, efficiency and stacking. Sadly they packed an esky full of frozen foods that was instructed to them not to load. As you can imagine 10 days later at unload! There was water damage to a number of cardboard boxes resulting in a rug and tall boy with water damage. The guys unloading took photos and acknowledged water had leaked in. Pick up an unload where both fine sunny days and no liquids packed on board the load. Of course they said they inspected the container and there were no leaks but it is the only way \$1300 worth of goods could be water damaged. No compensation offered. This was a huge

let down. The guys unloading tried at every step to just place items in the garage and avoid taking items to the second level that needed to be upstairs. I had to engage in help over the proceeding days to get items upstairs. Definitely poor customer service at the drop off point.

Not a good experience with misleading information from sales The travel time mentioned doesn't account the time of travel from pick up to drop off. Can't understand why are they separating as travel and labor in the quote, if this travel is categorized as labor. If the mentioned travel between pick up Abn's drop off is accounted in the minimum 2 hours travel time, I would have saved money Apart from this, the guys on field were good and very careful

Don't trust these people they ask for reviews!! My experience was that they were rough with the furniture and didn't take care at all and couldn't care less about doing a good job . I would NEVER recommend them !

I love writing positive reviews, however I can't think of one thing positive to write about this bunch of cowboys. I was charged more than \$8000 to move a small house from Caboolture to Yeppoon. From first to last phone call, it was all about paying them some money. Whenever I asked questions, Wayne just made jokes and stupid comments which he thought were funny. "Mate don't worry, we'll take care of everything" which obviously was also a joke. We didn't realise how the boxes were packed until we unpacked them at the other end. My prized music media collection of vinyl records and CDs looked like the were thrown loosely in the boxes, mixed and shaken like a cocktail. Could have packed the 20 odd boxes neatly into more like 10 boxes. When my solid timber filing cabinet arrived, all the locks were smashed out, as if it had been dropped or rolled. My Trek mountain bike's steering was way crooked, and one of the removalists grabbed the handlebars and forced it back roughly how it should have been. The bike's rear derailleur was crushed into the rear cassette as if it had something placed on it. My Stainless steel kitchen bin was covered in dents, and my leather lounge had a small scratch on one arm, and another scratch on my glass top entertainment unit. The

removalists didn't even have a standard stairs trolley, just a cheap dodgy one, which explains some of the damage. I was more than happy to leave a review on their website when they asked me, and someone there rang me to offer me \$100 back after I posted it. What a joke! During the phone conversation, they received another call and I was cut off. I have heard nothing since, and seriously, \$100? Brisk was recommended to me by the real estate that I used to sell my house. They are an awesome real estate, and I have since told them about my experience with Brisk, and to be careful about the businesses they recommend.

Dont risk it with Brisk. I had an awful experience with Brisk recently. I organised for my removal to be done weeks in advance only to have it cancelled last minute. The worst part is the customer service dealing with this last minute cancellation. On the morning of my scheduled pick up, I didn't hear anything for hours, it was only when I called them up to find out, I was told "someone got injured, and they MAY not be able to do the job". They told me they will get back to me in an hour to confirm if they are still able to do the job, which they didn't. I called them back, and they said " we are 99% sure we can do they job because we have a big team and once the current job is done we will get to you (mind you the current job started at 7.30am, and its 12pm at the time). I waited 2 hours, still no call, so I called them back and their response was someone is 30mins out from my place - great! Waited another another, no show. Called them back, and was told they were mistaken nobody has been assigned to my place, and that "we have so many business and clients its hard to keep track of everything". The process repeated hourly until 4pm where they told me "no we cant do the job, the next availability is in a few weeks, if not you can hope for a miracle tomorrow if there are any cancellation, you can call us every hour tomorrow to check if there are any cancellation" "The current job is still ongoing since 7.30am" While I get injuries can happen with the job, it was the lack of alternatives, the lack of customer service where I had to reach out to them multiple times instead of the other way around, the lack of remorse where the first "sorry" I got was at 5pm. The rest of the time, my interactions were pretty much "too bad, there is nothing we can do" Unfortunately, I don't think I'll ever risk going with Brisk again.

Terrible removalists . Arrived 1 hr late for my interstate move from Melb to QLD. So rough , no care . Damaged my plaster on taking beds downstairs. \$1000 damage, Brisk only compensated me \$500. For damage they caused. Avoid using Brisk!!

bad service

Confirmed and booked for the removal date, and paid the deposit. But the remover forgot the booking and did not show up. Careless. Finally have the refund. It's not a good experience

I do not recommend this company, Ill be letting everybody know to stay away from Brisk. I used them to transport all my belongings interstate, we had so much furniture damaged, things missing from furniture like caps or coverings they removed and have been lost. Furniture dented, or completely ruined beyond repair, things stolen. The guys moving the furniture and putting it on the truck treated everything poorly things were dropped numerous times and broken. It's very heartbreaking to have a lot of your stuff damaged. Please do not use Brisk Transport.

This company is the best ever. We have moved internationally 3 times and these guys are hands down the best! From the first visit we felt confident and then on the day they sent us two amazing guys who were so professional, approachable and friendly. They got the whole job done with minimal stress. Our endless gratitude to all. Thanks seems inadequate!

Brooke was absolutely fantastic!!! She was more than happy to answer any of my questions in a quick and detailed. The team that picked up and delivered everything was fantastic as well. Very nice and in great spirits even when my bed would come apart easily. Couldn't sing their praises enough. Made a stressful time an absolute breeze Service: In-state moving

Craig and his team were fantastic from the initial phone inquiry I made to the loading of the container and beyond. Craig made everything feel easy. I highly recommend Aussiemove.

I used this company yesterday to move my deceased mothers estate very fast the guys were extremely helpful, very polite and everything was loaded and delivered fuss free and undamaged! Very happy customer thanks aussiemove i will definitely recommend you and wouldn't hesitate to use you again if the need arose! ??

We contracted Aussiemove to move the contents of a 4-bedroom 2-storey house from Adelaide to Melbourne on June 2023. Everything was done seamlessly from the time we accepted their quote, packing, uplift, to delivery. We were kept updated during all stages of the move either by email or phone. The staff from their Adelaide office and their Melbourne partners were all professional and friendly. Thanks Brooke and team! I would highly recommend their service.

Scott and Matt were great. Good guys, efficient and professional. They uplifted our 2 bedroom town house in around 3 hours. I should mention my move was paid for by my employer so I can't comment on pricing

Using this company for overseas relocation for the second time. Consistently great service and very professional all round.

My husband and I are happy to recommend AussieMove International as being a highly professional, caring, friendly, considerate and reliable company to anyone wanting to transport personal belongings from anywhere in the world to Australia. We received safe delivery this morning of our consignment of household belongings which had spent many weeks at sea being shipped from the UK to Adelaide, South Australia. We are very pleased to submit this review and can honestly say it's been a pleasure dealing with AussieMoveInternational. Thanks for this opportunity to sing this company's praises!

If you need to move I can highly recommend Auisiemove. Awesome personal professional service from start to finish. You won't be disappointed :)

One very happy customer! An absolute pleasure to deal with: Brooke and all her staff. They placed my furniture in my new place where i wanted it too..even if, changed my mind, they moved it. Take my hat off to the removal men they worked like troopers! Oh and funny as too ??. Took the stress and worry out of it for

me. They all knew about my one bad experience awhile back with another removalist company where things went missing. I was scared and worried but did not need to be.. everything i own made it to the next destination, unpacked (not broken) and put away. "I put my name to and I recommend Aussiemovers for service, price, piece of mind and great care of your belongings". I have found the absolute best removalist in south australia. I will be defiantly be using them time and time again. Thank u Aussiemovers so much for everything, i cant sing enough praises for you all, such wonderful people.. big hugs to all. Monique  
?????????5 star review from me! Aussie Aussie Aussie Oi Oi Oi

Amazing service and price. I got my furniture from overseas. Aussie Move kept me well-informed about the progress of my shipment. They delivered the goods to my place. The delivery guys were very careful in unloading everything and placing items inside my home. Aussie Move charged a fair price for all the services. Definitely I would recommend using their services.

Would recommend and use Aussiemove when/if I move again. All staff were polite, friendly and always answered emails and calls quickly and provided all the information needed. We asked them for three different quotes regarding international shipping and they were happy to oblige even before anything had been signed. Movers came within allotted time, were friendly and professional. I will update review once items have arrived in UK, and I have already been assured I will be kept up-to-date with the process.

Positive: Professionalism , Responsiveness I was so impressed by the two guys Craig sent out to handle my very stressful interstate move. They were friendly, helpful and professional, taking good care of my belongings. Well done guys! Services: Vehicle transport , Interstate moving , Moving-related packing

Exceptional service from start to finish - highly recommended.

Just used Aussie move for the 3rd time in 15 years. Nothing has changed. Excellent service, great guys, no swearing, very polite, extremely helpful and nothing damaged. Can't recommend them highly enough. Thanks again.

Top notch service, couldn't be happier. Took care of our belongings during the move and got the job done faster than I thought. Rare to get such great service. Highly recommend. Would definitely use these guys again.

I was unsure how to get 2 wicker chairs from Scotland to Adelaide. Picked Ozzie movers. Picked up in October delivered intact to Adelaide 4 months later. Very professional and would definitely use again. Happy customer.

I received top notch service from Aussie move today. I needed a last minute removal of furniture, and this service was just there for me. I mean both movers were punctual, quite polite, ethical, professional, handled all furniture with care. The cost estimate and time was just as I was told from the start and there were no hidden charges. What stood out was how the furnitures were handled with exceptional care and the move was hassle free. From pick up to delivery, they both listened and asked questions when unsure about something. Amazing service, very strong men, super efficient and I highly recommend Aussiemove service to anyone in Australia, no matter how big or small the removal is going to be. My experience was REFRESHING.!

Aussiemove delivered my goods safely and without damage to my new home at Morphett Vale Adelaide thanks to the their two hard workers Jack and Matthew who were friendly courteous and worked well as a team making this a good experience for us all. I highly recommend Aussiemove. Thank you for a job well done. Cheers Margaret

Positive: Professionalism , Punctuality , Responsiveness Amazing team, very quick to respond and helpful. Highly recommend this company to anyone looking for removals. Services: Local moving , Moving-related packing , Oversized-item moving , In-state moving

While I know nothing of the experiences of others but the friend who recommended Aussiemove to me, in fairness I must report that, as far as I am concerned, they were great. Everyone I met was friendly and efficient, both personally and over the phone. I hope I never have to move again, but if I do, they'll be the first ones I'll call.

Aussiemove International were so easy to deal with. They kept us informed on the progress the whole time. The delivery was on time and the guys were careful, cheerful and worked like troopers. We would definitely use them again. Well done team.?? Cheers S & P

Amazing service from Aussie Move. the removalists were professional & courteous. Started straight away, nothing was too much of a hassle for them. Would definitely recommend Aussie Move to anyone else moving house and would not hesitate in using their services again. great work guys!

Great company have used for interstate relocation and pack and store facilities. Great service great rates would highly recommend and helpful friendly staff

Kept in touch about deliveries, storage costs etc Very easy to work with. Will use again

Fantastic service experience with this company they were very professional the removal guys were helpful, friendly and professional i would certainly recommend Aussie move to anyone. No damage or breakages. they treated our possessions with respect. well done to all at Aussie move.

Moving from NSW to SA was a breeze when dealing with brooke. She made the move work. She was lovely and easy to discuss with and very punctual. Everything was done when she said it would be Thankyou again Brooke and the staff that assisted with unpacking my container into my house here. Services: Local moving , In-state moving

Aussiemove were amazing. The lads were punctual, friendly, efficient and did such an impressive job. Was

the best decision, they took the hassle out of moving. Only way to go. Great value for money. Transported and moved out things all safe and sound.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value great Company to deal with. The guys employed are happy and just accomodate you any way they can. Very careful and considerate of all our furniture and possessions A great experience using Aussiemove Service: In-state moving

Aussiemove were a pleasure to do business with, polite, friendly, courteous, super helpful, and hard working. Never messed us around (which is something that is fairly common with a lot of other movers as some of you may have experienced). We're using them for storage of our stuff while we are working interstate and when we go traveling overseas eventually (when this 'rona stuff if finally done) and we picked them because they will deliver your stuff anywhere in the world. It's incredibly reasonable for 10m cubed of storage and that's way bigger than you think, I thought we were getting close to our limit but after the pickup they told us that it was less than half our max allowance, haha! They do get extremely busy though so if you need a pickup arranged then you best book well ahead of time, like several weeks ahead, to avoid disappointment, or you can drop the stuff off yourself to their warehouse at Parafield Gardens (which is what we did with a few things we put int later. Highly recommend for service, convenience, and value.

Fantastic to work with, did a great job.

Great business. Highly recommended. Craig is a top bloke and easy to deal with. They have a "real" customer

focus, which is rare these days.

I was very happy with the service and care taken to move my things into my new home. Thanks to Ant and Terry. Will use them again for sure

Terry, Josh and Triton from Aussiemove were polite, careful and worked incredibly hard to make our move stress free and straight forward. Great communication before and during our moving day so we knew what to expect. Plenty of packing materials provided and excellent planning advice from Brooke and Kerryln beforehand. No damage at all during our move testifying to the expertise and care of the team. Thoroughly recommend Aussiemove!

I have had an outstanding professional relationship with Aussie Move for over 15 years from 2005 to 2020. Aussie Move: - 1. Helped me pack up and move my furniture and personal effects to Perth, WA in 2005 and again in 2008; 2. Stored my furniture and personal effects at Parafield Gardens, South Australia from 2005 to 2020; 3. AussieMove's staff (in particular Craig, Di and Kerryln) have been outstanding to deal with - they are hard-working, passionate and dedicated and always an absolute pleasure to talk to and deal with. 4. Aussie Move's movement of my furniture and personal effects to Perth, WA from Adelaide, SA on TWO separate occasions in 2005 and 2008 was done in an incredibly fast, efficient and professional way with ZERO damage to my items. I had a fridge and lounge suite and dining setting moved to Perth, WA and the storage of these items from 2005 to 2008 was so perfect that they seemed BRAND NEW when we unpacked them in Perth. 5. Aussie Move stored from 2005 to 2020 professional books, folders of records and items including photographs and certificates for me. When I unpacked them in 2020, they were in PRISTINE and perfect condition which is a testament to Aussie Move's excellent storage warehouse / storage modules / storage methods and processes. I highly recommend Aussie Move for all of your storage and moving needs. They are an incredibly professional business to deal with and their pricing is worth absolutely every cent. Thank you Craig, Di and

Kerryn. As mentioned when I was over in Adelaide last week, I will miss talking to you guys regularly regarding my storage but I will definitely continue to recommend you to all of my family, friends and colleagues. Best of Luck - keep in touch! Regards, Patricia Femia (formerly Aloï)

Highly recommend Aussiemoves. I moved interstate and into an apartment. From quote, pick and delivery, the team were responsive and professional. The team cares about your belongings. At pick up they wrapped items like bed base, lounge etc, to do their best to deliver your goods safely. Moving into an apartment could have been stressful, but the delivery boys made it fun and hassle free. Thank you Adelaide and Brisbane removalist teams and to everyone involved. Would 100% use Aussiemoves again and recommend.

Positive: Punctuality , Value Fantastic 100 percent will only ever use Aussiemob Services: Moving-related packing , Oversized-item moving

Needed to find some packages for my mum and dad very helpful. Had open a lot of boxes

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Very professional & prompt service- good value for money- just a few CD's that I haven't been able to locate. Highly recommend this company Services: Vehicle transport , Interstate moving , Local moving , Moving-related packing , Oversized-item moving

Happy helpful removalists

Mixed review Good receiving and temporary holding of our containers, good communication overall, and excellent delivery of containers. But terrible re packing of our containers after quarantine inspection. Items were scratched, squished and shoved into the containers without care, and resulted in scratches and minor

damage. Also contents of containers were mixed up. This is despite our warning that without our supervision it was impossible to repack well. And we were charged a lot for this poor service. We would be hesitant to use again unless only door to door service.

Delivery was done well by Trent. Cargo arrived in good condition. The reason for 1 star is because of the poor communication and customer service experience by the office coordinator. In spite of submitting proof of emails that I hadn't been communicated with before the delivery, the person thought it appropriate to continue arguing with a customer and being curt over the phone instead of accepting their mistake. Urgent need for customer service training.

Completely agree with the other reviewer. Aussiemove were great to begin with but I witnessed how badly many items were packed, only to find a number of breakages when the container was unpacked. The state manager basically told me it was bad luck. Go with a company that stands by its claims in its marketing material.

Worst moving experience ever. Aussiemove tried to hand responsibility to another shipper at receiving end and also allowed company at other end to level a \$1500 USD charge at me. Then it was my responsibility to provide the paperwork when it should have been theirs as I paid for door-to-door not door to port. They are tardy in following up anything resulting in my shipment eventually being seized as I refused to be extorted. Update: Never got my entire shipment from Peru. Agreed on a \$2k settlement. Be extremely careful shipping abroad and use a company that has experience using the port you plan to use.

Shocking company. Move order placed November 17th, I still don't have my things delivered 17th Jan. I call

them every two days for an update and get the same answer our operations manager is gone for the day I will call you tomorrow - never hear back from them. Countless email, countless phone calls, months waiting... so not use them for interstate moves. My delivery was Cairns to Adelaide and was promised to have by Christmas. Still waiting.

I used Aussiemove to receive a container from overseas. Most things were ok in terms of getting my goods to my house. However, several items were detained for cleaning and quarantine. One item was lost in this process and after a couple weeks of chasing it up with Aussiemove and multiple emails they refused to take responsibility for the lost item when it was clearly lost in the cleaning process. I was disappointed in the carelessness to lose the item in the first place and the failure to do the right thing and compensate me for the item. I am following up with Consumer Affairs.

Furniture broken, furniture items weren't assembled as was stated in contract. We were told we'd receive a call to arrange this, but that never happened. When we enquired, were told we'd refused assembly service which is categorically untrue. Do not recommend.

## **Page: Backloading | Instant Backload Quotes & Book Online - Muval**

Utilising backloads is a cheaper way of transporting furniture or items around Australia.

Backloading is when you book the remaining truck space on a truck that's already booked by someone else. It often means you may have to be slightly flexible on your pickup and delivery dates & times, but in turn it usually means big cost savings relative to booking a "primary load".

Booking backloads is a common practice among interstate removalists, who are often willing to give cheap or discounted prices for the available space in a truck that is going from point A to point B, or on the return journey if they have been unable to find a customer needing to move in the opposite direction.

We move backloads across Australia. Find a truck easily through Muval and take advantage of backload pricing if you're flexible on your pickup and delivery dates. If our site doesn't find a match for you straight away, one of our team will follow up with you personally to see how we can help.

Take advantage of our wide network of interstate removalists to find a suitable truck that can backload your items. Save yourself the time of calling dozens of companies to find one that can accommodate your backload.

Without Muval, customers usually call dozens of removal companies trying to find one that has a truck travelling between their desired pickup and drop off locations near to the dates that they want. When you book a backload with Muval, we do all of the hard work for you, finding you an appropriate match as close as possible to when you want to move.

If you're flexible on move dates, backloading is the most efficient way to move interstate.

Provide some basic information about your move. Our platform automatically calculates the space required for your items.

We'll find availability within our quality-assured removalist network at great prices with space when you need it. You can filter by dates, price, rating and more to find the best company to suit your move.

Make sure the lights and internet are working at your new home by adding connections (plus a range of other services) to your order.

There's no waiting for removalists to come back with quotes or waiting on hold to your energy provider.

When you're ready, book your move in the click of a button.

Welcome to relocations, reimagined.

Our relocation platform covers all aspects of moving and streamlines the quoting, booking and fulfilment process.

Manage staff relocations easily through a single portal. Source competitive quotes to satisfy procurement policies and book end-to-end services seamlessly. No lock-in contracts, quality assured. We're on a mission to redefine relocations.

Our real time pricing & availability platform drives constant competitive tension. There are multiple vetted vendors constantly vying against each other to win relocations across the 100,000+ quotes requests we receive a year.

This means that you don't have to lock into one provider and whether it's 1 or 1000 moves, there are no minimum move commitments to get the benefit of our buying power to guarantee best prices & service.

Our goal is to ensure ongoing transparency and accountability with move quoting. Our system provides one place to anonymously look up removalist pricing, stopping the bloating of quotes because corporate is paying. We've spent over 5 years vetting many of the 14,000 removalists & moving service providers across Australia to ensure you aren't getting sub standard sub contractors via Muval.

These same sub contractors are often used by larger companies to handle demand, but when you book through Muval, you can avoid paying extra under branded umbrella panel contracts.

Our active Australia wide network of pre-qualified & proactively vetted suppliers, allows us to handle 100's of moves daily of any scope or scale. Our supplier network relies on Muval for up to 80% of their services booked creating a strong synergy for ongoing professional, high quality services.

Priority relocation service levels for domestic and global mobility have always been the key reason that makes it hard to leave the comfort of a "big company". It's not unlike the feeling people had with single fleet

Corporate Taxi services before realising the value of Uber's improved service levels through centralised independent contractors.

With this in mind, we're on a mission to revolutionise the relocations industry and have created an improved set of standards that we expect of every operator to be part of the Muval service offering. The local knowledge of our relocation agents, ongoing support and highly recommended assistance ensure that relocating for their job is stress free for your staff.

Working with a fleet of vetted professional removalists, Muval utilises backloading where possible to reduce

the costs of interstate relocation. Backloading is where you can book either spare space on existing moving truck routes or empty trucks on their return journey. Backloading can be much cheaper than hiring a truck and removalist team yourself. With backloading you are only paying for the space that your belongings take up on the truck. This avoids having to pay for the truck rental itself. Muval works with multiple removalist companies to ensure that you will get the best rate, whatever the route you take.

Muval ensures expert move managers are available to help from beginning to end with all aspects of interstate furniture removals. We also help to choose insurance options and professional packing and transport. Muval can help change interstate moving from daunting to effortless.

Muval offers many routes between Australian capital and larger cities, allowing you to compare interstate moving company prices and save money wherever you are moving within Australia.

You may think choosing to do the work of moving house on your own can be the cheapest option. However, once you get the full list of what is involved in interstate removals, prices can really add up.

From packing lists to finding a place to live, the whole process of moving interstate can be exhausting. Muval simplifies one major step by removing the hassle of calling around for multiple quotes from different interstate removalist companies. We do this by finding the best interstate removalists and matching them with your needs.

Don't waste time ringing around to multiple interstate movers to find out if their service locations actually match your route, or trying to understand the differences of each quote. Muval can do all the hard work for you. Let us find you a trusted interstate removalist partner that will get you from A to B safely and with all your belongings secure.

New! Try our interstate moving costs calculator to get a ballpark idea of cost for your move.

Backloading is when you book the available truck space on an interstate removalist truck that's already booked with a primary load. It often means you may have to be slightly flexible on your pickup and delivery dates & times, but in turn it usually means big cost savings! Another benefit of backloading is that moving trucks are always available. Moving this way can allow you to take advantage of interstate removals truck space if you

need to move on short notice. It is by far the most cost-effective way to book an interstate removals service if you have to move interstate.

If you have the original TV box, please use it. You can also purchase TV storage/removal boxes from storage centres. If you don't have a box and can't source one, the removalist will use heavy-duty blankets to protect the TV.

Packing and unpacking boxes for your house is not usually included by default when you book a removalist. This is a service that needs to be booked separately (you can do this through Muval) or done yourself, and is best arranged for a day or two before your removalist is scheduled to do your uplift.

In our experience, people always dramatically under estimate the time it takes to pack their house, and it's

usually one of the most burdensome tasks of moving! If you're packing yourself, make sure you start early and do a couple of boxes a day. Otherwise, save yourself the hassle and book packing services through Muval. Your future self will thank you.

It depends on your volume and which carrier we are using for your move. Some companies can delay the delivery by a day for an extra fee, but others may not be able to if the truck is only passing by your address and must continue driving.

Reading reviews is a great way to determine if a removalist is the right one for you. Platforms like Google, Product Review or Muval are great for this because they have built-in mechanisms to ensure reviews are from genuine people that have actually interacted with that business.

However, we advise to be cautious of moving companies with hundreds of reviews and a perfect 5 star rating on these platforms as reviews unfortunately can be faked. Don't get us wrong: honest companies with a perfect 5 star rating do exist and they are excellent (we have a few on our platform!). But, given the nature of furniture removalist work, something, at some point, is bound to go wrong. Maybe the truck breaks down and is late for a job. Maybe someone accidentally trips and some items in a box are damaged. Whatever it is, accidents unfortunately do happen and these sorts of occasions rarely attract a 5 star rating.

Because of this, companies with a 4.5 or above rating are often just as good as a company with a perfect 5. So, we suggest, instead of looking for all 5-star reviews, take a look at a company's worst reviews and pay special attention to how they responded to the issue. Were they sympathetic? Did they respond promptly? Did they offer a resolution? Were they contactable for the customer to voice their concerns? These are the sorts of things that separate the best removalists from those who don't deliver a high level of service.

If you cancel within 48 hours of your booking (if your move is more than 5 days away) or give three weeks' notice before your pick up date, you will get a full refund of your deposit.

## **Page: Harrington Furniture Transport - Muval**

We do not inflate cost to you as the customer for these fixed delivery dates. The email quotation is how it's going to proceed from start to finish. The last thing you want is to be in your new residence and have no bed to sleep on. We are not a Furniture Removal broker and we only operate our own fleet of modern vehicles. The same employees that do the collection of your furniture will be the same at the delivery point, alot of companies can not do this, also there is no double handling, your furniture will recide on the same vehicle in the same container from start to finish, eliminating damages to occur.

We recently relocated from Adelaide to Melbourne and used Harrington Furniture for our removalist services. Andrew, James, and Owen from Harrington Furniture were absolutely fantastic! From coordinating the booking to the actual move, they displayed the utmost professionalism and punctuality. Our belongings were handled with great care, and everything arrived safely and on time. We highly recommend Harrington Furniture for anyone planning a move. Thank you, Andrew, James, and Owen, for the excellent job!

I moved from Adelaide to Melbourne recently, and Andrew and his team were fantastic. I've had bad experiences with professional movers in the past - one rescheduled the date the day before, another scratched walls and dented doors - so I was wary going in, but Andrew and his team were very efficient, professional, friendly, and careful with my belongings and the property. They picked up my belongings and were able to deliver them the very next day, I'm so grateful for their rapid transfer! It's made my move so much easier. I highly recommend them if you're making an interstate move!

Absolutely flawless service. Continuous communication throughout the whole process, professional and friendly removalists and our belongings were carefully transported with no issues. Highly recommend.

Andrew and his team were great and helpful helping me moving interstate from Adelaide to Melbourne. Very punctual (even early) and reliable which is hard to get from other moving companies I have experienced.

Highly recommend!

Moving interstate can be a very costly and stressful experience. Thankfully I found Andrew Harrington and his team at Harrington Removals. Not only was the quote they provided very reasonable, they were very prompt with their communication, respectful of our belongings and all-around a pleasure to deal with. Changes to our inventory list weren't an issue, and they were incredibly speedy with their service. I was anticipating hours for the truck load, and they were in and out in an hour tops. If you need assistance with your move, they are absolutely the people for the job.

I moved from Sydney to Adelaide last June. Harrington Removals was the best choice I could have made! Serious, professional and punctual company and drivers. Thanks for your help

Nice guys and good value. Got everything done quickly with no fuss. Thanks a lot.

Great service! Very friendly and gentle with items. Quick and efficient, highly recommend!

Amazing team and a great company. We recently moved interstate and used Harrington Removals. Everything was super smooth and easy. Additionally, the gentleman who turned up to move our belongings were both lovely. They took real care in packing everything up, explaining everything that we asked about and were just generally nice people. I would 100% recommend and will definitely be using the company for any future moves we complete. Thanks again!

Andrew and guys were great to deal with. Good communication. They were punctual and professional. No complaints

We found Andrew and his team via a removal quote service but next time will just go direct to him. Andrew, James and Owen were professional, friendly, careful and thorough with removing and delivering our stuff (Melb to Adelaide) and very accommodating with us having a needy dog and baby as part of the process. They took great care to protect walls, carpets etc and as stressful as moving is they absolutely took care of their part which made the whole thing so much easier. A fantastic family business that we'll continue to use and/or recommend!

Professional services and on time delivery without any damage to our stuff.

I was very happy with Harrington Removals and would not hesitate to recommend their services. We were very anxious about moving to another state and the whole process was quite overwhelming, but each time I had contact with any questions, they were very helpful and patient, and kept me informed of the process, Matt the driver was very friendly and professional and they were so efficient and arrived when they said they would, so it was appreciated.

Very Happy with Andrew and his team. They were professional and was helpful. Highly recommended.

Excellent service, very happy. Communicated well, arrived on time. Delivered good service for a great price. Would recommend highly.

Andrew and his team helped me moving interstate from adl to mel. They are very professional and friendly. Highly recommended.

Had a great experience with Harrington Removals and I'll absolutely use again. I was moving my entire apartment and they had good communication, took good care of my stuff and were really helpful throughout.

Absolutely recommend.

First class service and very good value - highly recommend

Andrew and his team were incredible! So friendly and helpful. They made our Melbourne to Adelaide move incredibly smooth and seamless. Thanks so much!

Andrew and his team were amazing with their work and so adaptable to my family's needs. Id highly recommend his services.

We've used these guys twice, they are fantastic ?? we couldn't fault any part of their service. Well done guys ??

If you are moving interstate from SA to a location they service, 100% support local. All communication was professional and punctual, the boys that picked up saw the job through and delivered at the other end. They took pride to ensure it was packed well and everything got to the other end just as it was put on the truck. Would 100% recommend these guys in a heart beat and they were very competitive with their pricing in comparison to the big company's!

Moved our belongings from Melbourne - Adelaide and received nothing but amazing, friendly service from start to finish. Our items arrived in their storage in perfect condition. We researched heaps of companies and we went with Harrington removals as they were kind, efficient from the beginning & to support a local company and best decision we made! Highly recommended if you're moving :)

Excellent and professional removals. I'm a repeat customer who has had a great experience with both moves.

Andrew and his team do a careful job shifting items from truck to premises. Even went the extra mile with an unscheduled pick up. Thanks so much guys!

Hands down the best removalist we've ever hired. Adelaide is known for its exceptional boutique businesses, and this one totally lives up to the hype. Andrew and his crew were so pro, fast, and helpful. They took care of our stuff like it was their own. Honestly, we wouldn't even have bothered with insurance if we knew they were this good. Huge thanks for making our move a breeze. Definitely recommending them to everyone!

Moved from Melbourne to Adelaide. Easy to deal with, great communicators and no fuss. Nice guys to deal with and definitely recommend.

The best removal experience I could wish for. I searched & searched & found this amazing business. My things, including my piano, were moved from Melbourne to Victor Harbor. Professional, careful, prompt & bloody excellent. Most highly recommended to anyone moving interstate to SA.

Highly recommend Andrew and Matt.

They were really friendly and professional and got all our things from Melbourne to Adelaide safely with really good communication. I would definitely use them again. Thank you.

Andrew and his team took really good care of our items and were careful not to damage the walls/stairs too. They were easily contactable and responsive, and were priced similarly to other removalists we looked into. Would highly recommend these guys

I can't recommend Andrew and James highly enough. Polite, personable, great communication, no job to

difficult and worked with me with regard to site access issues to make sure they got the job done for my family. Thanks guys, really appreciate your hard work!

I have just used Harrington's for my return to Melbourne from Adelaide, they moved me over here in December 2020. What a fabulous Company, they are reliable, polite, efficient, friendly and cost effective. I highly recommend them to you.

Excellent service

I used Harrington Removals to move from Melbourne to Adelaide in early June 2020. Matt and Lleyton arrived at my Melbourne home on time and efficiently loaded my prepacked boxes and household goods onto the truck/shipping container. As requested, everything was then delivered (intact) to my Adelaide address a few days later. All done for a very reasonable price.

Andrew, his brother and one other helper did a great job moving us from Adelaide hills to storage in Vic regional. We had a lot of stuff and our hills access wasn't easy so it cost a bit extra. We had it all in storage for 3 long months and just emptied the storage unit ourselves and found everything in tact so very relieved. Andrew does offer to store the furniture as well until ready for unpacking. Very happy with the service.

Would highly recommend! Was quite concern at the beginning since most of the furniture were glass, however the guys at Harrington were very professional & took great care from start to finish. Will be using them from now on

Terrific work by Andrew and his team. Responsive, efficient and timely given short time frames for the move. Very pleased.

I was very happy with Andrew and they guys. Super friendly and took the stress out of moving. Couldn't be happier.

We had an excellent experience with Harrington Removals, moving from Melbourne to Adelaide. There was excellent and clear communication, they looked after our items carefully, everything went according to schedule, and they were very nice and helpful when packing and unpacking.

Andrew was brilliant to work with! He was very responsive and patient with all of my questions in the lead up to moving day. Andrew and the guys were very super friendly and careful with all of my furniture and belongings. And I have piece of mind knowing that it is staying in the same container while in storage. I would highly recommend Harrington Removals and would use them again if I needed to. Thanks guys!

Affordable, efficient and friendly service. We have had some horrible moving experiences in the past, but these guys proved they know what they're doing and are very good at it! Thank you Andrew and team.

Team Andrew and Matt, My family and I want to thank you for the excellent service that we have received from you and your company on 2 occasions, moving back from Adelaide to Melbourne after moving to Adelaide 5 year ago. You and your team did an outstanding job because it was so effortless from my point of view. Your team took great care with moving, protecting the furniture and appliances whilst storing them in your trucks plus taking great care to walls in both houses. We had no problem whatsoever and that is because you both are hands-on managers, who ensured a professional execution of the job with precision and timeliness. Andrew, you have been very customer-focused during our negotiations and I thank you for making my experience with dealing with your company hassles free and enjoyable. I strongly recommend your company for future clients because of my personal experience. I wish you well in your future endeavours.

Larry

Have used Andrew and his guys a couple times over the years, was an easy transition, great communication and accommodating to the individual moving circumstances. Hoping I don't need to move again for a few years.. if I did though without a doubt these guys have you covered, Thanks again Andrew ??

On time. Helpful and professional. Highly recommend.

Not a reliable service, they did not arrive to collect our furniture within the times they confirmed. Ultimately cancelled and requested a refund.

So unprofessional

Absolutely atrocious and unprofessional. Will be taking them to small claims court. Only after deposit, did they warn you that "You will need to ensure there is parking out the front of the residence for a 12m long by 4.2m high truck." This is not an urban-suited vehicle, bear in mind its about 3-4 cars long, 30cm from utility pole electricity cables guidelines (that they mentioned they've hit before), and they somehow to expect someone paying premium to deal with. No loading bay fits this. I quoted delivery for the city, scouted for parking during a stressful time and new job, providing dozens of images and checking with the council, but get slapped down with "there is no way we are getting our truck near that building". Note that this is near the Sydney Exhibition Center at Darling harbour, made for large installations and exhibits, a well established area with signs and loading bay suited to large trucks already. Expecting a paying customer reserve a 3-4 car long street parking without height issues for an hour plus, scouting and the location is unreasonable, they should know at least the basics of the location they took money to complete the job for, or at least warn you. Their professional 20 year service, door to door quoted arrogant and un-apologetic solution was to expect us to pay

for another local warehouse, plus removalist service, without reducing the original price at all - holding your goods to live with in ransom and weekly storage cost. Watched them accidentally leave my goods on a lift, drop a piece 1.5 down from the truck, cracked boxes and damaged goods from over-stacking to save space. All of my belonging fit in a tiny section maybe 20% of their truck that ended up struggling to fit even in the suburban area. Their Wed drop off limitation certainly does not help their flexibility. It took more than 23 messages back and forth to sort such a simple service out, luckily the second local removalist were completely opposite, amazing punctual and helpful, and actually finished the job they quoted for and dealt with the issues relevant to the job. Ended costing an extra fortune and more importantly time and stress in an already stressful scenario. If you want to pay +\$2000 not to sleep at night, be my guest.

Gus and Sheldon were great! Super efficient and made the whole moving process a breeze. Thanks very much!

The boys- Pedro and Luiz- came to pack us up today for a big move down south. What a wonderful couple of lads they were. Nothing was too much trouble for them. They were very careful with our gear and I was amazed at how they fitted everything in. Highly recommend these boys and the company they work for!! You won't be disappointed ????

John and William helped us with our move today and we cannot be any more impressed with their professionalism. Loading a container full of large household items on a 40degree heat would've been a challenge, but they did everything they could to keep going and listen to our needs throughout the whole moving process. Thank you for your hard work!

Pedro and Luiz moved us from Brisbane to Townsville. I was so impressed with their work ethic and their professionalism. They packed the truck and unloaded it without any incident and worked efficiently and effectively. I have moved many times but these guys were by far the best I have ever used. Not only that but they were pleasant and friendly and nothing was too much trouble. I would highly recommend them and would use them again in a flash.

John and Camilo were fabulous, they came back and helped me after their colleagues did a poor job. They were working really hard and were great!

John and Camilo were fast, professional and friendly throughout the process

Luiz and William did an excellent job! Id absolutely recommend them to anyone. My second time using R2G and I will definitely use them again

Pedro and John were excellent, efficient, and friendly

Camilo and John were truly amazing! The move went on for hours and hours, with pick-ups at two different locations, and these guys did not miss a beat! They arrived within the agreed pick-up window, carefully placed every item, and secured it inside the truck, with such care and skill that not one single item was damaged in the slightest! If you need help moving, these guys will get the job done with a great attitude, they are seriously

R2G (Ready to Go!) 100% recommend this moving service.

Will and Higor did our move from one city to another within QLD and they were fantastic. They were so careful with all our stuff - not a mark left on either the house we moved from or to. I don't know how, but they managed to Tetris al(most) all of our stuff in their truck. They had to move some of our stuff into an outside shed when it was raining too, and they did it with a smile. Ive had to use removalists three times now, and hands-down, these guys were the best.

Daniel RC & Fabio were so professional and fun, even though it was a long day. Thank you guys!

Pedro and Junior did a fantastic job with the uplift! Very impressed about their meticulous packing and security in the pack to try and ensure all our things arrive safely!

John & Camilo were excellent. Very professional and very quick and would use them again. Highly recommend R2G and John and Camilo.

Pedro and William were amazing, very hard working!

Regards Carole & Bill Burleigh Waters

Ive used this company 4 times now. Not only are they affordable, the staff are great and work hard for the money. Today Mateus & Higor were on time, reliable, worked fast in the heat, problem solved on the fly, were

so happy and easy to deal with. I highly recommend them and will use them again!

Pedro, Augusto and junior did a great job. We had some difficult items and a steep long driveway, they did not complain and took great care with all our items. Thanks team.

Great team! Very careful with our things and very professional! Fabio e Daniel were great!!

Wowza what a week!! R2G Transport really pulled through to get me, my partner, and our post-surgery best friend out of moving hell and into our new home. Mateus and Will were awesome and full of energy and diligence, even after the fun surprise of 1 of the 2 elevators breaking down the night before our booked moving date, in a 19 story apartment building. They handled it so well, so calm and chill, and handled getting heavy furniture up into our new place and its stairs even better. Kyle, who organized the booking, also gave us great honest information about the state of moving companies, and secured my trust after our last move was hellish because of an incompetent removalist. Will and Mateus, you rule and I hope you get a good deserved rest after working so hard!

A huge thank you to Hyan and Luiz. Friendly, hard working, helpful and very careful with moving furniture. Definitely recommend and would book again. Very grateful, thank you guys.

Pedro and Hyan has done a great and seamlessly moving experience. On time and helped so much. Thanka again for making our move so much easier

John & Ian, did a great job

R2G were professional, turned up on time, went out of their way to ensure our move went as smoothly as

possible. Will & Augusto were polite and nothing was too difficult. Super impressed with these 2 guys and would definitely recommend this company for your next move.

Very cohesive team of guys done job efficiently and with a smile. Thanks to Lewis, Daniel, and Lucas.

John and Will are great and friendly, they did a great job for us! Thank you guys!

Jon and Pedro did an outstanding job with our move. They took great care while also being very efficient to get the work done quickly. Utmost professional service, very friendly as well.

I used this service based on their outstanding rating on Google and they did not disappoint!! WOW!! The removalists who assisted in my move were very friendly, professional and worked diligently. They loaded the contents of my house in 1hr 15mins. Absolutely amazing! If I could give them 10 stars I would!

Booked R2G a few weeks back for our apartment move. Pedro and John showed up on time and raring to go. They were literally running back to the lift each time to pick up more gear, amazing to see! Great spirit and fun to be around, but professional at the same time. Would highly recommend, good service from R2G start to finish.

Our movers, Daniel RC and Hyan. Had a great experience with them and were amazing

Pedro & Hyan helped me move today and I am still so grateful!! My move was very last minute and they were accommodating, polite and very respectful. I unfortunately had stairs at both the place I was vacating and the place I moved into & they both worked so hard and fast. I'm sure that it wasn't easy! I will only recommend them going forward, thank you again. \*\*I should add, NOTHING was damaged. Which has never happened when I moved. My fridge still sports the dent from my last movers!\*\*

I had a fantastic experience with Removalists Pedro & Hyan during my recent furniture move from one house to another. Their professionalism and efficiency were truly commendable. From the moment they arrived, they

handled my belongings with care, ensuring that everything was properly packed and secured. Pedro & Hyan's attention to detail was impressive, and they made sure to ask for any specific instructions I had for delicate items. What stood out the most was their friendly and courteous demeanor throughout the entire process. They made a potentially stressful day feel much more manageable. Not only did they load and transport my furniture safely, but they also helped with the unloading and placement of items in the new house. This extra effort was greatly appreciated, as it saved me a lot of time and effort. I would highly recommend Removalists Pedro & Hyan to anyone in need of reliable and skilled movers. The guys are so wonderful. Luiz, Camilo & William work so hard and did a great job moving us out of our massive 5 bedroom home to a very tricky second house. They transported and stored our things safely and were truely great, especially with harder items, they troubleshooted and came up with solutions. Highly recommend.

Our two removalists today were fantastic. John and Lucas were total professionals and completed the job in a very efficient manner. They handled our furniture with care and packed the container very quickly. They worked non stop until the job was completed. We have asked for them to deliver our furniture to the new address. Thank you again John and Lucas for a great job.

This is the second time we've used R2G & I have to say they are the best removalist company in Brisbane. We had a big move today & it took the whole day but John & Mateus were so professional, reliable & helpful & they took such great care in wrapping items & handling the furniture. The boys worked hard & always had a friendly manner & we really appreciated their professionalism. To John & Mateus, you really did your company proud & we will definitely be using R2G next time we move. We highly recommend using this company, you will not regret it.

After a slight miscommunication regarding the arrival time the move was pretty swift and painless! Thanks Will and Hyan!!

Most painful and slow move Ive ever witnessed. Thought this company would be great seeing all the good reviews, but sadly not the case. Perhaps there are new staff who are not properly trained. Posting a progress photo after 1 hour of moving time! Lots of stretching and resting during this move, and very slow pace! Extremely disappointing - do not recommend if you are moving more than 1-2 items of furniture (you'll pay a lot more for your move) Most painful and slow move Ive ever witnessed. Thought this company would be great seeing all the good reviews, but sadly not the case. Perhaps there are new staff who are not properly trained. Posting a progress photo after 1 hour of moving time! Lots of stretching and resting during this move, and very slow pace! Extremely disappointing - do not recommend if you are moving more than 1-2 items of furniture (you'll pay a lot more for your move) And replying to the owner reply below - the reason why the move was finished in less hours (note we paid more than the original quote, so more than 9 hours) was that one of your movers took advantage of my partner and told him to move all the heavy furniture, saying the

move would not be completed in time. We also agreed (in desperation) they would not put any furniture in the correct place in the new home - it was all dumped in 2 rooms. I was heavily pregnant at the time and carried a number of boxes myself to speed up the move. I would love to give feedback - please call me as I am very genuine and had an awful experience, and do not appreciate this being dismissed to simply appear "good" for online reviews / business.

We used this company in January 2022 and had such an awesome experience that when we needed to move recently, we didn't hesitate to hire them again. How wrong could we be Two young guys (who we won't name) arrived promptly and were as nice as could be however they took longer than it should have taken to load up and seemed to not really know what they were doing. As they unpacked and put items into a storage unit, it became apparent they were not professional, experienced removalists. Fragile picture boxes were put on their side, large gaps/spaces left in the unit and heavy items put on top of lighter items. In a nutshell, they did not pack it effectively or efficiently. They were obviously not skilled in this work and that resulted in us having to hire a second unit for the overflow of items. I paid nearly \$1,000 for these so-called professionals and had to then pay more money by hiring a second storage unit. We spent about 2 hours at the units on the weekend and we were able to rearrange everything and fit it all in the one unit. Will never recommend again and never use again.

Broke my TV, computer, pot plants, pictures, paintings, bed frame and more. Left a box of belongings at the old house. When talking to customer service they would make it seem like I was making it up even though we did the paper work with the removalists and they signed that items were damaged.

Yes, all of our prices are GST inclusive.

The best way to ensure a successful move day is to be prepared. One way to do this is to notify your removalist about any very heavy or awkward-to-move items before move day. It can never hurt to double-check with them that they understand that you have these items, even if you have also submitted an inventory list. These sorts of items include:

Yes. This varies depends on which company you are using. Usually, the minimum charge is based on the cost of transporting 5 cubic metres.

The cost for your local move will depend on how long your move takes. Some dishonest moving companies quote very cheap hourly or half-hourly rates to get your job, and then work slowly on the day or surprise you with additional charges in order to make more money.

Unless they are running a limited special offer, most honest removal companies need to charge at least \$45 per half hour or more in order to pay their staff (two people usually come to load and unload the truck for you), pay their insurances, and make sure their trucks are serviced regularly.

Fantastic experience. We used them to remove furniture from Blaxland, store at Emu Plains and then installed in Penrith. Administration team superb, polite and extremely efficient. The storage facility so clean and excellent security. We were so very lucky to have had Brock and Mick as our removalists twice. Unbelievably quick professional great communication. They are legends.

Cheapest self storage in Penrith area

I have just booked Hitchens again for my upcoming move, they are the best and my go to for all moves, reliable, polite staff, their movers always do the best job. There storage facilities I used 12 months ago were amazing, secure, clean always, trolleys available, 24x7 access would definitely recommend and will always use Hitchens Storage & Removalists. Thank you Kelly and Team !!

The whole operation from booking to packing and storing was very professionally done the two gentlemen loading the container were very efficient in what they did, I would highly recommend Hitchens Storage

Great staff, very friendly & helpful. Nothing was a problem from packing your house to storage & then delivery, great service all round??

Brock, Mick and Shane were amazing. They worked hard, and were safe and careful during our large move with a challenging site and some fragile items, not one breakage. Good communication from the office team when the 4th guy I booked was unwell, and excellent communication from the team when they were stuck in awful traffic, and various factors meant we finished the job the next day but they let me know that early in the process. Nothing was too much trouble for the boys, they set up our bed and even got Balboa into the front garden. The boys would take endless heavy boxes to the truck and jog back, trying to make up time, they could not have worked harder, and we had a few giggles too. Outstanding service overall, and clear and

upfront about hourly rates and charges. Another company quoted me over double the hourly rate that Hitchens charged. Office staff were pleasant and knowledgeable, and booking was easy.

Hitchens promptly answered our enquiry about removal, professionally assessed our removal requirements and answered our follow-up questions satisfactorily and in full.

Very helpful ,very clean ,services impeccable The ladies at the reception desk I lovely

Nice company to deal with. I had a glitch with the website ordering but they sorted it out for me.

Superb facilities and great staff with costumer focus. Highly recommended

Swift and efficient loading with a bit of humour thrown in. Good work!

From the moment I spoke with Hitchens' I knew we were dealing with professionals who really care about what they do. From my initial enquiry with Siobhain, to the ladies in the Emu Plains office and last but not least, Aiden & Alan; those two guy's are fantastic. They were on time, friendly and very considerate with our belongings, even going out of their way to try and accommodate us with a fridge that was just too large for our new residence, they didn't just say nope too hard and did their absolute best to fit it through the door - without damaging anything. It was not to be and they reloaded it without any fuss at all and took it to our storage unit. Thank you very much to all the staff at Hitchens Storage & removals and I am happy to recommend them to

anyone who needs a reasonably priced and thoroughly professional removal and storage service.

The whole complex is meticulously maintained. Very helpful friendly staff. Highly recommended.

We've used Hitchens several times in regards to moving furniture from our Display Homes. Their service is second to none. Items were packed with care and all boxes labelled clearly, making unpacking a breeze. The girls in the office were also an absolute pleasure to deal with.

A great storage facility. Friendly and accomodating. Were understanding.

Helpful and friendly staff. Very clean facility. I found them to be the lowest prices in Penrith area.

Prompt and friendly service! Secure and spacious self storage facility. I personally wanted to thanks Kelly for her outstanding customer service. Thank you all at Hitchens team members at Penrith. regards Andy

Great honest people to deal with. 5 Stars

The professional care and service your company offers is worth every dollar spent to take away the stress of moving. Within a couple of hours the property is ready to move into. We can't thank you and your staff enough. Thank you till our next move. Diane Langmack OAM & Family

Very efficient, super friendly and great communication. Will always recommend.

Clean facility and easy access. We have used them a couple of times and never had any issues. Staff are friendly and helpful too.

Excellent staff, very helpful advice, and absolutely brilliant help with everything you need! We couldn't recommend them highly enough!

The least difficult part of our relocation, was the actual pick-up, storage and delivery of our home contents. From our first contact with the staff in the office, to the teams doing the pick-up and delivery, everyone was most helpful and professional. Their friendly manner, made a stressful time so much easier for us. Thank you

to everyone at Hitchens Paul and Brigitte

We recently used the Hitchens team for our move from Mulgoa to Springwood and it was a huge move from a large property. The day was long but they kept going and nothing was too much trouble. We had fair pricing from Siobhan and all of our belongings arrived intact, some of which are very fragile. We would definitely recommend Hitchens for your removals. A big THANK YOU to Robbo, Brad, Brock, Allan, Warren and Josh!

I would highly recommend Hitchens Removalist. The service was BRILLIANT! The four gentlemen that came were so obliging and helpful. Nothing was a hassle for them and they took extreme care with our furniture. No damages and we were over the moon with their polite service.

Our removalists from Hitchens were simply wonderful from start to finish. They were friendly and professional and helped take a lot of stress away from our moving experience. 10/10 would recommend them to anyone moving.

We have stored all of our home contents with Hitchens twice over the past four years, for a number of months each time. They have great facilities and an extremely helpful team. Highly recommended.

Reliable, didn't damage anything, friendly and helpful. Would definitely recommend

The Hitchens crew did our pickup today and we couldn't be more pleased with the whole process. The guys arrived exactly on time, were friendly and worked really hard. Nothing was too much trouble. Highly recommended and would certainly use them again

Hitchens has been extremely helpful and value for money considering my storage needs recently. The staff at Emu Plains have been friendly and always willing to help as well.

We have no hesitation in recommending Hitchens Storage and Removals they are at the top of their field. Hitchens, last week, completed a removal for us. It was seamless and the boys doing the job, Alan and Warren, gave 110%. Nothing was too much trouble. Hitchens office staff were always available to answer questions and again all office staff rate 110%. The girls are pleasant, courteous and know their work. We urge anyone wanting a Removalist to use Hitchens they are a top company to deal with for both storage and removal. Cheryl & Wolfgang K.

Competitive prices for storage units. Staff were always friendly and provided a great service.

Ive had two units in the space of four years. The units were spacious, easily accessed and readily available to access at any given time. Hitchens staff have always been helpful, courteous and friendly which made it so much easier to inquire about anything. Thank you and if any friends or family need a storage unit, I will definitely recommend Hitchens Storage at Emu Plains.

Pretty neat and professional place trucks a bit knocked about but did the job excess klms rate was a killer seats in the truck was like sitting on a log, stiff and sore after I finished driving.

Great service. Office staff makes things happen efficiently. Owner very friendly and easy going.

Hi Trev, I would like to give your team a wrap on our recent move into the City from Penrith. Moving home isn't something my family and I were looking forward too we were actually dreading it. We had a lot to move into a much smaller place. City streets are not much fun, the boys had to manoeuvre the truck in a small lane way but the boys made it look easy. Then the fellas had four levels to unload our gear into which they did without fuss and delicately. They worked all day to get it done same day which we were super wrapped about. A huge thanks to all involved you made our move seamlessly, Regards, Nige & Renae Your staff from the office to the removalist were a pleasure to deal with

They arrived when they said, the guys where presentable & very pleasant. Would highly recommend Hitchen's Removals

wazza and Brad did a wonderful job and couldn't be happier with there work

The ladies in the office are amazing , helpful & polite. The prices are great too.

Both Kelly and Trevor are two of the lovliest people to work with!

I dealt with three ladies at Hitchens Emu Plains and found them all to be very professional, friendly and knowledgeable. I rang on numerous occasions and it was never a problem. Thanks Siobhan, Marsha and Kelly

I used Hitchens to provide 3 storage units for 6 months and to do 3 moves. I arranged everything through Kelly and her office and they were excellent to deal with. Fair pricing, very good communication and flexible with arrangements. The removalists were also excellent. They arrived on time, took good care of everything and were pleasant to deal with. I have no hesitation in recommending Hitchens Storage and Removals.

Initially I balked at the cost of the move but it was worth every cent. I have had a bad experience in the past but Hitchens were on time and professional. All of my precious items arrived safely.

Very friendly staff and very professional. The units are very clean.

Used for several months while the garage was being rebuilt. We found Hitchens storage units very easy to access, including after-hours, while maintaining great security across the site. The staff were helpful and friendly at all times. Would definitely use again.

Very professional organisation, dealing with Kelly has been a pleasure, seamless and easy. The truck turned up on time and nothing was a problem., Very efficient and I would highly recommend them for your storage and removals

We have used Hitchens Storage on a number of occasions now and each time we are thoroughly satisfied and grateful for the 5 star service we have received. Kelly and the whole team speak to you with an obvious desire to do whatever they can to be of assistance. They are all a credit to their industry. Cannot recommended highly enough!

I have found that the staff at Hitchens Self Storage are very friendly, helpful & professional.

Very good communication and really professional

Great company and people to deal with on time and very courteous, would highly recommend Hitchens.

The moving process with Hitchens Storage & Removalists could not have gone better. We moved all our belongings interstate efficiently, safely and with great customer service. Hitchens will be my first choice for any moves in the future. Couldn't recommend more highly!

Efficient and professional.

Friendly staff and the process to hire and access a unit is really easy

Office staff were friendly and helpful. Big thanks to Brock and Alan for the removal, were punctual friendly and accommodating to our needs. Needs eftpos units in the trucks, other than that very professional.

Great communication, old fashioned friendly customer service. Very clean and secure. Highly Recommended.

Best storage facility in Sydney ..... I've used several other companies over the years but Hitchins are easily superior. So friendly, modern and incredibly clean facilities. Cannot recommend more highly!!

We had to move contents of our house from the Blue Mountains to Port Stephens with a time gap between pickup and delivery (selling one house and buying another). All people we were dealing with at Hitchens were professional, extremely helpful, understood our situation and needs, and offered very good advice and help. The move was smooth and stress free - very highly recommended! Services: Moving-related storage , In-state moving

I would highly recommend using Hitchens for storage needs from loading the container to having it redelivered was very professionally handled and the cost was very competitive

Very happy with their service

The 2 gents that assisted us with our move were fantastic! Polite, Efficient, Prompt & Friendly! The storage team were helpful, prompt & informative

Polite, empathetic, understanding, problem solvers, hard workers, caring, nothing too hard.

Great size storage units well laid out. Easy access, good security. Staff are super friendly and helpful

Good service. Easy to talk to on the phone. Movers were funny boys who made a very stressful day a little bit easier. They worked carefully and quickly.

Great Service!

Very easy to deal with and very accommodating of our needs

Very professional staff. Very clean facilities. Glad we have chosen Hitchens at Emu Plains. We will be recommending them to everyone!

The girls were a wonderful assistance to me, plenty of advice on best products. Thankyou Frances

These guys were amazing. We had to move during the floods and our real-estate agency was being uncooperative. These guys were amazingly flexible, fast and professional. They helped really reduce the stress during hard time.

Friendly, helpful and efficient. Would definitely use again.

Hitchens Storage and Rentals have fabulous facilities, with a modern and updated security system, with easy access to your own secure storage unit. Storage units were lovely and clean. Hitchens sales team were wonderful and courteous to deal with at all times and the removalist team were quick and efficient when

handling all my storage boxes and furnishings. I highly recommend Hitchens Storage and Rentals for all your storage needs. Thank you Hitchens staff for a wonderful experience with your company and facilities.

My husband and I recently used the services of Hitchens Blue Mountains Removalists and would highly recommend their services to anyone moving house. Moving during covid restrictions was always going to be an added stress of being in lockdown and wondering if we could move or not but the lovely office staff were regularly touching base with us to reassure what was happening for their company regarding restrictions. The office staff made sure I had all covid documentation and protocols for protection and safety during travel and moving and the removalists were from secure zones that could move us safely. The 3 removalist themselves were outstanding gentlemen in the care of our property, packing and blanketing all furnishings to prevent chipping or scratching. I was so thrilled to know all of my belongings were strapped and secure and arrived at our new location without incident. Our whole experience from quoting, booking the move and finalisation of the move was done with the highest of professionalism and respect for us as their client. We will definately be using Hitchens Removalists if we ever have to move property again. Thankyou

Our Hitchens movers were friendly, flexible, innovative and able to have a laugh with us as we realised just how much there was to move!! We really appreciated all their efforts.

Positive: Professionalism , Punctuality , Value Lovely to deal with from the office to the guys lugging furniture from one house to another. Highly Recommend AAAAA+ Services: Local moving , Moving-related storage

Efficient, fast turn around and professional service door to door without any stress at all

Hitchens did my move from Sydney to Qld, honestly these guys are amazing and second to none. I would

highly recommend them to anyone wanting a removal done. They went above and beyond and nothing was too much of a bother for them, they were professional, courteous, friendly and very thorough. Everything arrived in one piece and undamaged. A big thank you to all the staff at Hitchens, sincerely, you guys are all amazing. If I could give more stars I would.

after contacting Hitchens Removals we arranged for Kelly to come and give an appraisal for our move. Kelly was great on explaining the procedure as well as the office staff. truck was arranged for a certain date which arrived on time. communication from Hitchens to us was spot on. the boys worked tirelessly to get 80% of truck loaded and then returned next morning to finish loading. we met Brock and Conner at the new residence to which they worked very hard again to unload our furniture. everything was in tack and nothing broken. we would highly recommend using Hitchens for removals. the price was great and we would use them again if needed. thanks everyone at Hitchens and all the best.

The staff and facilities were excellent and worthy of recommendation

Exceptional service

Good Friendly service.

This is a great place to get cardboard cartons, bubble wrap and many other products when moving home.

Ample of storage space

Bought box's. Lady there was helpful.

I can understand that you were busy but please stop promising you will get back to customers, and then don't. I ended up having to go with another company. Thankfully they were fantastic with our move so all in all we did fine. When we finally received our quote from Hitchens (after our move), the rate seemed a bit high in my opinion. Just my personal feedback. Thanks. \*Reply to response: It seems like you've got the wrong person. My name is Li-an B (also known as Jessica). I had first contacted your company for a quote on the 17th. I had made several attempts to phone your office after a day or so and then each time promised I'd get something back soon or that day. I got the quote back on the 21st and your availability was far too long a wait. It would be much more appreciative if you would have advised of your unavailability instead of making customers wait for your price. It wasted so much time!

Hey Chris Just wanted to thank you for making my move from Port Lincoln to Norwood as painless as possible . Mat and young Jordan were amazing at London Street. I was really impressed with young Jordan , he was

Thanks again for everything .... I'll get in contact when I next move that's a definite Cheers Vicki

The gentlemen who removed, stored and delivered our furniture were on time, professional, fast workers, helpful and careful. It saved us time and lots of money vs us moving our furniture ourselves. Great service. The customer service person was really helpful and everything was efficiently organised.

Learn from the moving experts. Can't find an answer? Call us on: 1300 168 825

Yes, absolutely. Please mention this at the time of booking, as it may make a difference to the provider we match you with.

Some companies will have storage at the destination and some at the pickup. Some even include complimentary storage!

The cost for your local move will depend on how long your move takes. Some dishonest moving companies quote very cheap hourly or half-hourly rates to get your job, and then work slowly on the day or surprise you with additional charges in order to make more money.

Unless they are running a limited special offer, most honest removal companies need to charge at least \$45 per half hour or more in order to pay their staff (two people usually come to load and unload the truck for you), pay their insurances, and make sure their trucks are serviced regularly.

It is preferable to consider taking out an all-risk policy for your move. We offer two different options of coverage for your move, which include lowering the excess to obtain a lower premium or the ability to cover specific items of your move: <https://www.muval.com.au/cover>

Muval is a booking platform. We find reliable moving companies at a competitive rate. We help companies fill their space with customers that are happy to fit in with the truck schedule. It is called a shared load option. Yes. This varies depends on which company you are using. Usually, the minimum charge is based on the cost of transporting 5 cubic metres.

Generally, it is around four porta-robos or 6 standard cartons for a wardrobe.

Reading reviews is a great way to determine if a removalist is the right one for you. Platforms like Google, Product Review or Muval are great for this because they have built-in mechanisms to ensure reviews are from genuine people that have actually interacted with that business.

However, we advise to be cautious of moving companies with hundreds of reviews and a perfect 5 star rating on these platforms as reviews unfortunately can be faked. Don't get us wrong: honest companies with a perfect 5 star rating do exist and they are excellent (we have a few on our platform!). But, given the nature of furniture removalist work, something, at some point, is bound to go wrong. Maybe the truck breaks down and is late for a job. Maybe someone accidentally trips and some items in a box are damaged. Whatever it is, accidents unfortunately do happen and these sorts of occasions rarely attract a 5 star rating.

Because of this, companies with a 4.5 or above rating are often just as good as a company with a perfect 5. So, we suggest, instead of looking for all 5-star reviews, take a look at a companies worst reviews and pay special attention to how they responded to the issue. Were they sympathetic? Did they respond promptly? Did they offer a resolution? Were they contactable for the customer to voice their concerns? These are the sorts of things that separate the best removalists from those who don't deliver a high level of service.

Read more about how to avoid dodgy removalists [here](#).

The earlier you book your move the more confident you can be that the date you wish to move will be available. However, the time in advance that you should book is heavily dependent on the time of year. Between October and March we recommend booking at least 3-4 weeks in advance of when you want to move. From March - September you can leave it a little later, booking 2-3 weeks out.

## **Page: Muval Index 2024: The New Great Australian Dream - Muval**

We are thrilled to present the 2024 Muval Index, our fourth annual deep dive into internal migration trends across Australia. This year's report offers a comprehensive overview of where Australians are moving and why, as well as the broader economic, social, and lifestyle trends that are influencing these decisions.

As a nation, Australia continues to see significant internal migration driven by housing affordability, lifestyle choices, and shifting economic conditions. In this extended analysis, we explore the driving forces behind Australian migration and unpack what these trends mean for Australians looking to relocate in the coming years.

[Download the 2024 Muval Index](#)

The 2024 Muval Index begins by reaffirming Australia's status as one of the most mobile nations globally when it comes to relocating. Thousands of Australians move each year, with Muval's data offering real-time insights into emerging migration patterns, compared to other data sources which often lag by months if not years.

This year, Melbourne, Brisbane, and Perth emerged as key cities to watch out of all major metros, though each experienced different trajectories. Melbourne, which returned briefly to positive net migration for the first time since COVID-19, saw a significant boost in inbound moves early in the year. However, it struggled to maintain momentum, with Brisbane quickly overtaking it as the city with the highest positive net migration.

At the same time, outbound migration from major cities like Sydney and Melbourne continued as residents sought more affordable and appealing living conditions elsewhere. This movement reflects broader trends of Australians seeking new opportunities and better work-life balance, especially in more affordable suburban and regional areas.

This year's Index releases 2024's MuveRank data in the first public data push since it's official launch last

year. MuveRank provides a real-time view of migration patterns at the local government area (SA4) level, making it possible to track the ebb and flow of population movement down to specific regions / almost suburb level.

While the above analysis looks exclusively at interstage migration, MuveRank also considers migration within cities.

According to the 2024 data, areas of Melbourne dominated the rankings, with several of its regions experiencing strong net migration gains. Meanwhile, the Australian Capital Territory (ACT) emerged as the area with the largest positive net migration, reflecting Canberra's increasing popularity as a place to live. This data offers early indicators of migration trends and helps pinpoint which areas are experiencing the greatest population gains and losses.

The Muval Index also delves into the evolving aspirations of Australians when it comes to housing and lifestyle. Historically, the "Great Australian Dream" was synonymous with homeownership. However, in 2024, this dream has shifted, with more Australians prioritizing lifestyle over property ownership.

As economic uncertainty and the rising cost of living have placed significant strain on household budgets, Australians are increasingly choosing to relocate for reasons beyond work or housing. The data shows that a growing number of Australians are now moving to improve their quality of life, with nearly 30% of people moving to upgrade their homes in 2024, compared to just 16% in 2023.

The 2024 Muval Index explores the economic forces shaping migration trends, particularly the potential for a relocation rebound as economic conditions improve. In recent years, the cost of living has been a primary driver of migration, with Australians moving to more affordable areas in response to rising property prices and inflation.

The report suggests that while migration has slowed during periods of economic uncertainty, there is strong potential for a relocation boom in the near future. With interest rates expected to fall in 2025, many

households are likely to resume moving as economic conditions stabilize. This rebound could have significant implications for both urban and regional areas, as more Australians look to take advantage of improved affordability and lifestyle opportunities.

Interestingly, 2024 has seen a 20-year low in demand for professional removalists. This trend could be due to a combination of factors, including the economic slowdown and a growing number of people opting to “DIY” their moves to save on costs. Despite this, Muval’s data suggests that demand for removalist services will likely rebound as economic conditions improve.

Source: Google Trends

In addition to tracking migration trends, the 2024 Muval Index includes a detailed cost comparison between DIY moves and hiring professional removalists. For many Australians, especially those moving interstate, the decision to go DIY can offer significant cost savings. However, the data also shows that there are instances where professional services are more convenient, particularly for larger moves.

The report provides cost comparisons for moves between Australia’s major cities, showing potential savings for those willing to do the heavy lifting themselves. For example, moving from Sydney to Melbourne with a professional removalist could cost upwards of \$5,000, while opting for a DIY container move could bring the cost down to around \$2,900.

The Muval Index also highlights Muval's new Employee Relocations Software platform, designed to simplify the complex task of moving employees for work. This platform offers a centralized solution for HR professionals, allowing them to manage relocations more effectively while providing a seamless experience for employees.

The report emphasizes the benefits of this platform for both employers and employees, from flexible budget management to real-time tracking of relocation statuses. With Muval's vast network of professional removalists, the Employee Relocations platform aims to reduce the financial and logistical stress associated

with work-related moves.

Finally, the 2024 Muval Index includes a lighter section dedicated to families moving with children. Anyone who has moved house with kids knows how challenging it can be to keep them entertained during the process. Luckily, moving comes with plenty of boxes—an endless source of amusement for creative children.

We recommend using Makedo cardboard construction kits to turn those empty boxes into playtime activities (use MUVAL15 to get 15% off!). These kits allow kids to safely cut, build, and create everything from forts to rocket ships, making the moving process more enjoyable for the whole family.

The 2024 Muval Index paints a complex but optimistic picture of Australia's internal migration landscape. While economic uncertainty has slowed migration in some areas, the data suggests that Australians are increasingly prioritizing lifestyle and affordability in their decisions to move. With interest rates expected to fall and economic conditions improving, the country may be on the verge of a relocation rebound.

For now, Melbourne and Brisbane are the cities to watch, with both showing strong net migration gains in 2024. However, as Australians continue to adapt to the pressures of the cost of living and seek a better quality of life, we can expect to see further shifts in migration patterns across the country.

As always, Muval will continue to track these trends, providing the latest insights into where Australians are moving and why.

The data for the Muval index comes from a nationally representative sample survey run by PureProfile and anonymised removalists enquiry data from the Muval platform.

MuveRank rankings are developed in collaboration with leading population geographers at The University of Queensland. The data comes from more than 350,000 de-identified and anonymised records of planned moves by Muval users, spanning from January 2019 to October 2024. No personally identifiable information has been used in this analysis. These records were geocoded according to the Australian Statistical Geography Standard and cleaned to ensure accuracy, removing entries with insufficient address information. The analysis

was carried out by creating origin-destination matrices at multiple geographical levels, providing a granular view of migration patterns.

This data was then compared to two sources of official statistics from the Australian Bureau of Statistics: the Regional Internal Migration estimates and the 2021 Census data. The comparison involved regressing quarterly Muval data against these official datasets to assess correlations and identify any biases, particularly towards capital city regions and Greater Melbourne. The insights from this regression analysis helped refine the models used to predict migration flows.

I had been dreading the moving process so much for weeks, but Sergio and his guys swooped in and saved the day. They did such an amazing job. They were fast, efficient, and nothing was damaged! They were also incredibly friendly and professional. The price was about 1/3 the cost of another quote I had gotten from one of the name brands. I would absolutely use them again and will be recommending them to anyone looking for a moving crew!

I cannot praise Gus and John from Expert Movers enough! Moving out of a two-story house with steep, cornered tricky stairs was no problem for them. They are both careful and fast, regimented and relaxed, experts and affordable. Thank you Sergio and Co. at The Experts Movers ??

Good and reasonable price for such a high quality job.

We recently used expert movers to relocate to a new property. They were prompt and attentive. They communicated well prior to the date, and were very efficient, hard working and professional on the day. It was a very comfortable experience. Thank you.

I highly recommend expert movers. Nothing was too much trouble. They were very polite and very kind and disability friendly.

Absolutely amazing service - can't recommend them enough. They were able to accommodate me after a last-minute cancellation from my other movers and they showed up on time, moved fast, and were incredibly professional. They navigated a tricky parking situation in Henley Beach with grace and moved my furniture up 3 flights of stairs like absolute champs. I'll be recommending them to all my friends!

Sergio and Sergio were professional, efficient and friendly. They took excellent care of our belongings and we would certainly recommend them.

Sergio and Gus provided a can-do, no fuss service in shifting us out from a house on steep terrain on a day of high temperatures. Everything delivered in tip top order. Would highly recommend Expert Movers to anyone,

Subieron todo hasta el 10 piso sin problemas, incluso me ayudaron a subir a mi porque tenia un problema de columna, super recomendados ????

The guys from Experts Movers did a very professional and comprehensive job moving my furniture and other items a couple of days ago. The service was polite and accommodating. My furniture was well looked after and arrived in the same state it left without any damage. I would highly recommend them to anyone moving house.

Sergio, they are very professional and efficient. The communication was effective and the rate was good without hidden fees. The job included some walking distance from the door to the track and stairs (which will be charged by another company ) on a hot afternoon, and they kept moving without any complaints. I was so happy to choose them for this moving experience. Definitely, I will recommend it to all my friends.

Very friendly and great service. They turned up on time and did the whole move faster than I thought possible. Thankfully I am never moving again, but if I did I would not hesitate to use 'Expert Movers' again.

They helped us with everything we needed: bed dismantle, setting our tv up on the wall and of course the worst part was moving our huge fridge up to the second level of the house we

Super professional and really friendly

I have moved many times before and this has to be the best company Ive dealt with to date. I can't thank the team enough for their politeness, care and professionalism. I highly recommend and you won't be disappointed. Much thanks again Adrian for organising! ??

Greatly appreciate all the work Adrian and Michael did for us. Adrian communicated with us throughout the whole process and made it a not so harrowing moving experience. Thanks for the hard work.

They were honest with me and ensured I was looked after as a single mum to be. Great communication and

follow up and most importantly honest and fair pricing !! Highly recommend them!

Adrian and his team were fantastic at helping us move with a lot of complicated items, some of which required disassembly, no damage to any items, we were very satisfied with the results

The guys (Adrian & Ryan) at Ezymove Transport were great, they were professional and efficient. I originally under estimated on the initial quote and didn't realise how much possessions I had until after everything was packed. This wasn't issue for them they great and still managed to get everything sorted and organised within one trip. Highly recommended

They were reliable professional. Cost came in lower than quote as took them less time than estimated. Polite helpful booking process. I have used twice and continue to be impressed

Moving is a very stressful event but Adrian and Brian were fantastic, very quick and efficient, it made my move a breeze, I would highly recommend to anyone that is looking for a removal company to choose Ezy move 10/10

Great service

Thank you so much for your prompt, friendly and professional service. You made it so easy to get the house packed up and on to it's next destination. I would definitely recommend you and will use you again.

Adrian, Tatsu and the team were brilliant. Our move was complex and challenging and they handled everything professionally and treated our belongings with the utmost respect. We couldn't have asked for better service a more friendly team and will be using them again.

Great team to deal with - I've moved many times in my life and wouldn't go with anybody else. The boys are hard workers & Adrian's great to deal with. Couldn't recommend highly enough.

The team is very friendly and helpful, easy to communicate with and always responds quickly. The quote is in a good price range.

These blokes are a very rare find. I hate getting removalists because they're always dodgy in some way or another. I messaged a dozen companies on Gumtree and out of them all, these guys stood out. They gave me an upfront quote with no hidden extras. They had excellent communication and good prices. They are two honest hard working guys who started the business together and I hope they do well. They were so good about me having to reschedule because I got sick. I hate moving days but I actually felt really happy at the end of this one. They have good gear, lots of blankets, were very careful, but also very fast. They offered me a discount after because they had to stop on the freeway for fuel. Like heck, I paid them the full amount, and for the first time in my life... gave a removalist a tip! If you want no stress, honest guys who take good care for your possessions, these are your guys. You won't regret it.

Called upon approach, very polite, handled our belongings with care. The guys knew what they were doing, very professional. The pricing was all up front and handled with minimal fuss on the day. I'll be using Ezy Move again!!!

Wonderful in many aspects. Highly recommended,

I have recently moved my house with them and my experience was very pleasant. Both the movers were right on time, friendly and very helpful. All my furnitures were intact (except for some minor scratches). Highly

recommended.

Extremely polite, efficient and careful. On the whole a very professional team. I would highly recommend EZYMOVE. Good value for money.

Adrian and the team were great. Clear communication, respectful of our property, and they had a magical ability to not touch or scuff a single wall! Fair price with zero hidden fees. I'm glad I cancelled my booking with another company (who sent through pages of terms and hidden fees only after I paid a deposit!) and went with EZY instead. Would definitely use again.

The guys were amazing today. Very friendly and helpful. Will definitely be using this service again. thank you  
Ezy Move

This was by far the easiest and most hassle free move I have experienced. Adrian and his colleague arrived on time, were professional and took great care moving my possessions. I would highly recommend this company to anyone looking for removalists!

Professional, good quality service. Friendly and fast guys!! I would definitely recommend them!

Ezy Move were great to work with and ideal movers for my move. They turned up on time, were efficient and even helped with little extra jobs like disassembly and reconnecting electronics. Next time I have to move I will definitely book with them again and couldn't recommend them highly enough.

Fast, efficient, polite. Very happy with the whole process.

Ezy Move is definitely who they say they are. Thank you so much for alleviating the stress and putting our minds at ease.. The 2 men were super friendly and they made everything looked so easy & painless. Im amazed at how fast they respond when you first enquire. They even give you time to sort your life out before you decide. You guys are amazing and Id choose you over and over again. Will definitely recommend you to anyone and everyone ??.. Absolute best - Chuck out the rest

By far the best removals experience I have ever had. No items were broken, the removalists(Jonah and Ryan) were very respectful asking if they needed to take their shoes off, and where I wanted things put. The removal was also very efficient, despite it raining quite heavily, completing my entire unit in under 3 hours. I also liked how responsive the business was. Prior to the move any questions I had, were answered in a matter of minutes. On the day I recieved regular updates as to arrival time. I will be using Ezy Move again for my next move.

Fantastic team, professional and courteous.

Very professional and efficient moving company. Will use their service again.

Awesome job and manners,thank you guys.

Can always trust these guys to get the job done. They made my move seamless and professional. 100% recommend

Adrian and his team were polite, punctual and completed the job reliably. Happy to recommend them.

I am posting this review to acknowledge a great experience I had with the team at EZY Move Removalist. Adrian and his team were on time and very professional, they were careful with all the items, and well experienced in fragile items, they suggested wrapping certain items that I had not thought of. My move took a couple of hours longer than planned due to the amount of items and they were accommodating and never

complained. My move was a distance of about 25 km. if you are considering any local move or office relocation, I would put Ezy Move Removalist top of your list. Thank you for making my move a positive one to my new house.

I had a job with Ezy Move removalist. Scope of my work was more than expected. They could quickly accommodate by adding the third person. All three were quick, professional with lots of care to handle my furniture and special items. Polite, no complaints and no intentionally extending the work as some had done to me. Thanks a lot Ezy Removalist and Adrian with great team. Special big thanks to Ryan, Jonah and Kai. Great job. 100% recommend them and will work with them again.

EZY move was very helpful and professional. They made our move nice and smooth. Thankyou to all the team. Will highly recommend.

Tatsu and Adrian were absolutely brilliant! They showed up on time, were always checking in with me to ensure I was happy with the service, and did everything I expected and asked them to do. They literally did not stop working. I would definitely recommend them and will use them again during our next move.

We are selling our house and engaged Ezy Move to help with our relocation. Two young men Manu and Jonah arrived and what a godsend Enthusiastic friendly nothing was a problem even after voicing our concerns Not to mention their strategy around tackling the task at hand to minimise time Having moved several times the boys were the best I've seen and I would recommend anyone to engage their services It made a stressful time for us a fun one Mark Anson

They handled our furniture and delicate items with great care, ensuring everything arrived at the new office in perfect condition. Additionally, their attention to detail and willingness to go above and beyond, such as reassembling furniture and setting up workstations, made the entire process stress-free. I highly recommend Ezy Move for any office relocation needs - their professionalism and exceptional service truly set them apart. Big thank you to Adrian and his team! Great job guys!

Awesome service! Really appreciate all the extra effort Daniel & Michael put in. Well done. Gabriele ??

Jonah and Ryan rolled in like a smooth ocean wave Friendly smiles, a shaken hand with cheek in the eyes Astonishing feats of strength left my partner slack jawed She poured water into an open box instead of where

intended Strength, calm and daoist mind in these removalists blended Each challenge met with competence and attention Great work completed, no need of further mention Were these men avatars of long forgotten gods? Lono of the Sky walking with Atlas at his side. They mounted their truck and headed off with smiling eyes. Another challenge yet to face before sleep became their prize.

Daniel and Tetsu, were heaps professional and efficient. I highly recommend ezymove to anyone moving places and they did prove the choice is ezy ??

The best moving experience thanks to EzyMove. They are easy to communicate with, punctual and made our experience seamless. We highly recommend the team at EzyMove and will be using them in the future. Thank you so much Adrian and the team you've made our day

Adrian and his buddy were very helpful and friendly. They were very professional despite having a hard time trying to find a parking spot in my previous home. The move was very smooth and efficient. Thank you to these two guys!???? Definitely would recommend!

Adrian and his staff are great, honest, on time and with a good behavior and professional

After a very stressful week leading up to moving, these guys came in so experienced and handled everything like gentle giants. They made my experience so stress free and easy, were very informative and communicated well, disassembling and assembling, packing and unpacking supplying boxes with even down to organisation

Absolute pleasure to deal with the team from Ezy Move. Helpful, caring of our all furniture and easy to deal with. Highly recommend.

The guys have done an amazing job. Very professional and very very friendly service. I highly recommend using their service at anytime. Thank you Ezy Move Kais

ArrangementI quick and clear.staffs are friendly and professional

My experience today was beyond professional, protective/cautious with my belongings and extremely accommodating. The two guys that moved my partner and I went above and beyond despite the few challenges that were thrown their way. We could not thank them enough and show them how much we really appreciated everything they got done. We will definitely be using EZY Move again and making recommendations to our friends.

Had a mattress that needed to be moved. This team were especially professional and made moving all the more easier. Would recommend for any relocations or removal work. The cost was competitive with others I searched for as well.

We recently purchased our first home and engaged with EZY Move Removalists to get our belongings to our new apartment safely. Adrian and Michael took such great care when moving our apartment that we will never use anybody else. They moved everything with such delicacy it was as if the furniture was their own. We have moved previously and used other Removalists who had zero care for our things. This was shown in damages, however EZY Move really showed us how a move can and should be done. The boys were so positive, helpful, amazing with all communication and planning, and so reliable. Not a single item was dirtied or damaged and delivered with precision. Thankyou Adrian and your team, we cannot recommend you more highly.

excellent service excellent touch with people efficient friendly. There was no damage and I recommend them

Ezy move team was so helpful and professional. They let us know they were going to be a bit late as the job before us ran over. Pedro and Daniel worked so hard to get all over stuff moved in tip top shape. Everything was professionally done. They even wrapped our tvs in plastic when it started to rain. Thanks so much to the ezymove highly recommended.

I am echoing other reviews. Truly happy with Yes Movers! The boys were professional in moving my furniture, securing them in the truck both load and unload. They were so quick, finished a 2-bedroom

apartment in 3 h! Highly recommend to others. An update to this review: my second experience with Yes Movers was very good. Sunny and Johnny were very efficient and careful and they finished the job to my satisfaction. Highly recommend their service

Harpinder and kundal did an amazing job. They were on time. Clear communication. Moved things quicker than I expected. I had big sized furniture which they handled well. Thanks to Harpinder and Kundal.

Prashu and Dheeraj were absolutely fantastic. The guys were on time, polite and did an amazing job. I would definitely recommend them and would use them again for a move. Very professional and I was very impressed by the boys service.

Rohit and Sahil have been amazing at helping us move seamlessly from start to finish! Highly recommend :)

Very professional and courteous movers . Rohit and Rahi are superb . Thank you guys .

Sorry It has taking me this long to leave a review, especially after the great service that Rahim and Rohit delivered. They took very good care of our furniture and belongings, and we're efficient and on time. They even connected our washing machine at our new home. Nothing was too much trouble. I would highly recommend this moving company to anyone needing a good removalist, that is both cost effective and reliable

Prashu and Dheerha were amazing! Everything moved perfectly and swiftly. would highly recommend.

Love

Dheeraj and Prashu did an excellent job in helping us move. Very supportive and quick. Have used their

services multiple times. Highly recommend.

Johny and Sunny have done a great job in moving our home. They were professionals and friendly. My items were safely loaded and delivered to my house. Many thanks to them.

Very efficient and deeply appreciated the amazing work ethic. They did such a great job with 2 different locations to organise!

Not a good experience this time with them. They were very slow

I had them working for me on 15 December, to store my furniture on King storage on aeroport west, and I just went to pick up the furniture and a drawer from my bed is broken, and a vacuum cleaner missing, the King storage people found out on the cameras that they left the vacuum cleaner out of the storage, and the next movers people took the vacuum probably thinking that was part of their things. Irresponsible, i don't recommend.

Very very good company of Removles The best in Australia

Organising and end to end process was seamless. The removalists were very organised and efficient with the move. I was very glad that I utilised their services.

Had a great experience working with the crew at 1st move to go from an apartment to a house at short notice. Communication was great from the start, everyone worked efficiently and with great care. Nothing broken, no marks left on walls etc. and placed everything where I wanted it without hesitation. Overall, the best experience I've ever had with a moving company. Provided a great rate, no dodgy hidden charges and completed a move estimated to take 6-7 hours in 4.5. I'll be sure to come back again for my next one!

Good communication and polite.

Good guys and professional removalists. Would recommend and use again.

We recently moved interstate from Sydney to Brisbane and we chose to use 1st Move removalist. Not only were they the best price, they were professional, respectful and honest. Some companies told us delivery would be in 3 to 4 days, 1st Move delivered the next day which reduced our anxiety immensely. We would strongly recommend them for any move you are planning. Trust is a big thing, you can trust these guys. Thankyou 1st Move for making our move easier.

Very accommodating and finished the job fast. Youseff is friendly and easy going and very helpful as well.

Very good service. They're very professional and experienced. Got the job done very well and at a cheap rate. Definitely recommend.

Overall excellent service for me by the various teams who assisted over the last few days. We had three different move related services. A special thanks to Ivo who coordinated , explained patiently when i did not quite understand , came through on an emergency requirement and assisted on various schedules. All the team members were also helpful and thorough, especially the lead manager per move. All worked well for me.

Very impressed with their efficiency and professionalism. I really appreciate their care with all my furnitures and will definitely use them again if needed in the future. Highly recommend!

Thanks Sandr and Michael did a great job disassembling, moving and assembling my stuff!

I called first move on Friday desperate for help after another company had been paid to transport a 20ft container to PERTH. After almost 3 months of waiting no container arrived. Long story short 1st MOVE stepped in and helped me retrieve our things, with nothing but a professional service from start to finish. Not only did they communicate with me exceptionally even after hours giving me so much peace of mind given what we went through with the last company, they arranged a truck and 2 men immediately for me. Repacked our stuff perfectly to keep it safe from damages during the move. Highly recommend

I had boxes to move from storage and the company was really fast and the movers were really friendly. Highly recommend.

Amazing service and super friendly with reasonable pricing. It would have cost me a lot more should I go with other Removalist that I got a quote from. Highly recommended. ??????

Great company yousif and Jam .

Definitely will recommend 1st move to friends and family. They are absolutely amazing. They're super fast at packing and moving stuff, very cautious with fragile items especially and very active. They wasted no time at all and updated me about everything. The staffs are super polite, professional and friendly. They were very cooperative with all my needs. It's also a highly reasonable price. Will definitely stick to them for future moves.

They were so professional, polite and courteous. 1st move had excellent communication and arrived on time. They took great care with everything. Absolutely nothing was damaged and were very happy to place everything exactly where we wanted. They were so efficient and completed a very large move in only 5 and half hours which was estimated at 7-8 hours. Andy and his team moved us from Brisbane to Sydney efficiently and with a friendly professional attitude. Ivart at Head office was responsive and informative all the way through the move. Highly recommended.

Excellent customer service. The moving went great and the guys were very responsive after slightly chipping one of the walls. Days later they sent a couple of handyman and left the wall as new. They responded all my emails and phone calls in order to coordinate everything in the best possible way.

Very happy with the service of this team. Experienced and accommodating to my needs and helping me figure out where to put the furniture. They even offered to buy me a coffee! Will use again.

This late December 2022, during the Christmas season rush & very busy time for removalists & customers, was my first contact to 1st Move Removalist. Rabi, whom I'm first time meeting by phone, answered my call. Rabi presented with a welcoming & warm approach, with great mannerism & courtesy to me. Asking all the appropriate questions without rushing me to get the details right. I was looking for a delivery service of only one large household item as a local delivery, explained to Rabi. Rabi well explained their purpose & method

of Removals to help me understand their work scope, using larger Removal Trucks. As Rabi honestly & respectfully stated that they do larger scale Removalist work & that it would be too costly an option for me, if they deliver only one item, being injustice to me, when there are other less costly options. Rabi kindly & with great intentions, suggested other independent Delivery options, outside of 1st Move to help me achieve my goal in a cost effective way. Dear Rabi, I'm sincerely grateful for your professional, welcoming & supportive service with your honesty & great intentions. I thank God for genuine & sincere people & staff like you; who make a great difference & great example of a Golden service. To 1st Move Removalist Management, my compliments to your care of staff & your customers, who report great reviews about you all. My compliments to you for having a sincere staff member as Rabi in your great team. Wishing you all, a Merry Christmas & God's blessings in all your endeavours to you all.

Yousif and Jameel were fantastic helping me move my furniture. They were on time, careful and efficient. Highly recommended.

#### Fantastic Service

Rami and Norr, we're amazing. They were very professional, efficient and went above and beyond. They contacted me 15min before their expected time to let me know their ETA. They even helped me carry large items into my basement area. Would recommend this removalist.

Had a great experience with 1st move helping us to relocate our furniture up a new staircase. They were careful with our freshly painted walls and didn't give up on a large awkwardly shaped couch which looked at one stage like it wasn't possible to fit in the stair void. I was very happy with the service - nice guys too.

Great service , very quick and professional , will recommend !

Very professional removalist company to deal with. Efficient and trustworthy. Definitely will be using them again ??

Wonderful people with such a great attitude. I had my move done from them from Sydney to Melbourne and before booking them I was apprehensive, however, they did a great job for the move and I am completely satisfied with their service level, commitment and most important they kept their word all the time, gaining my trust and delivering it above my expected time and quality. I would definitely recommend them for all your move and they won't charge you a bomb like other players in the market. They are completely professional in what they do and what made them set apart is their Service Attitude, because when you have to make a move there are 100's of things you have to take care, but when they came in, they take charge and does the job impeccably.

Ivart and team did a great job with our move.. came on time.. planned the upload & download in an optimized way, didn't waste any time at all.. completed our work within the estimated time.. very friendly and professional work..

Rami and Faris did an excellent job with my move, they were very efficient and careful with all my items, happy to recommend these guys ????

High quality from start to finish. Communicated timings well and got everything from A to B safely with no damage. Highly Recommend.

very strong man and very helpful! i recommend

Noel did a great job with my big move! Lots of furniture pulled apart and put back together well!! Thanks  
Jodie from Panania

Excellent Movers, amazing customer service - they are professional, friendly, reasonable in pricing and very respectful. They assisted us to move our furniture very efficiently and without much fuss. Thank You guys!

We recently booked these guys through Muval and we are so grateful we did, Faris and Rami were the best removalists we have ever hired. They were patience, efficient and respectful of our belongings. I will absolutely be requesting these men next time I need to move. Thank you both!

We were so impressed with this service. The best Removalist's Ive ever had!! Most removalist's I have had in the past have complained and were extremely slow. These guys were professional and got the job done so fast and made it look easy so I wasn't stressed. We Will definitely be using you guys again in the future and pass your number on to family and friends. Thanks

Thanku Sander and Marco for wonderful job.

If I could give more stars I would. 1st move removalist moved heavy windows and doors from Melbourne to Sydney. When they arrived in Sydney (on one of its hottest days) the two men (Marwan and Ossei) helped the builders get everything off the truck and then helped carry everything through very difficult and narrow building site. It took hours. They were patient, cheerful, polite and saved us - we could not have moved

everything without them. Probably the best service I have ever experienced from any business. Thank you very much!

Very professional guys!

Best Removalist Ive ever used. Super quick and efficient. 10/10

They are a terrific company

Thoroughly recommend these removalists. Had a very difficult apartment to move out of and they were very professional, polite and efficient. Very speedy and great price. Would recommend 100%

Very smooth!

Very fast. George and Ivan very friendly.

Absolutely amazing service by 1st Move. Will definitely recommend it to my friends, family and everyone out there. The workers are highly professional, well trained and experienced. They were very efficient with packing and moving all the boxes and furnitures and took extra care with my fragile items. They arrived punctually, got the job done only within a few hours, fulfilled all my requirements, and were very cooperative as they updated me about everything consistently. The price was surprisingly low compared to every other removalist.

Excellent service from a team that went above and beyond to make sure that my move went as smoothly as possible. The guys were courteous, friendly, supportive and did an awesome job. Will definitely be recommending 1stMove to others!

I recently used 1st Move Removalists for my local move, and I couldn't be happier with the service they provided. the entire process was smooth and stress-free.

Great move

The guys did a great job moving our furniture (some of which was large and heavy) up some fairly awkward stairs. Thanks!

Absolutely incredible service from Noel and his partner. Huge help for a really difficult job. Couldn't recommend these guys highly enough. ??????

Thanks to the boss and his friendly stuff

Maryos was wonderful moving our furniture. Large 5 bedroom house. Lovely to deal with. Would recommend and would use for any future jobs where a lot of care and expertise was used to move our furniture.

Very professional and great service by the boss and his team much much recommended!!

Amazing experience! Would hire again ??

Timely. Great communication. Very friendly staff. Did really well with tight spaces too.

The guys gave good notice of their arrival time, were courteous and respectful, wrapping quality items and worked non stop for the full day.

Inconsistent service, they wanted to charge me more for walking up and down my yard as it's longer than most even though I had prepaid for 2 hours which are non refundable, they then turned around and charged the people who moved in the extra for the longer walk, on top of the hours taken to move, the workers walked off for about 90 minutes for lunch but only discounted them 45 minutes, I still have to claim for the damage they did on the front door and door frame too. The workers were walking up with only a couple of things at a time which extended the time they took to move the stuff so they could charge longer, I can't recommend these people

These guys were perfect, sufficient and professional had a whole house moved in 3 hours. 30-40 minutes between the locations and an apartment with 3 flight of stairs. Even offering to help move rubbish to the council pick up spot out the front of the house. I wouldn't even think twice next time moving. ASL LOGISTICS is the way to go!!!

The guys that helped me out were friendly and genuine. They were super hard working and no time wasting as with some other removalist I have dealt with before. Would definitely recommend ASL Removals

The team that came were excellent. Quick, professional. good price aswell.. highly recommended

Was moving on 31st of August and would like to say big thank you to Andree and Kane! Guys were super organised, glad wrapped everything, even couch, so it wouldn't get damaged or dirty during moving process. Were super quick, attentive to details, very friendly and just made the whole experience very pleasant! It's always stressful when you are moving to a new place and by far this was the best experience I had with removalists! Will definitely recommend to everyone I know! Thank you so much!

3rd time using ASL and am just as happy, if not more so than the first. The team did an awesome job- went above and beyond what we expected. They were professional, polite and unbelievably quick. The move was perfectly on time. Will definitely use them again when needed!

Great work from the guys! Professional and efficient, I definitely recommend!

These guys were able to pick up my furniture in Melbourne one day and literally deliver it to my house in Sydney the next day. Wow, what an incredible service. Also, Max did a good job safely, packing our belongings so that nothing got damaged when it arrived at the other end. 10/10 in every way

I cannot recommend these guys highly enough .. 10 stars would be more appropriate. Brilliant service! Used them 2+yrs ago and again yesterday. Never a hiccup. Tried the rest, will stick with the best!

Very helpful and friendly people with great professional skills! Would recommend them for any removal services!

We used ASL LOGISTICS for our move to storage and then from storage to our new place. Mark and his team were professional, prompt, completed the job in a timely fashion and did not scratch or damage a single item. Would highly recommend and use them again for future moves.

Had a great experience with ASL Logistics, highly recommend, affordable and very quick. The level of professionalism was outstanding, I would definitely use their services again.

Great service they handle everything with care and they were on time will definitely recommend their service 100%

Awesome service, on time , very polite , very efficient even when moving items from a third level apartment with no lift. 5 stars will definitely use ago. Thank you ASL Removals. Bill G.

Really happy to recommend Ray and his team. Great communication and service. No complaints.

ASL Logistics helped us relocate to Parramatta from the Hills at short notice...from Ray the Manager, Mark the Team Leader, the Removalists Andree and his partner were all very professional and polite, the hard working removalists worked quickly and efficiently with the challenging weather, humidity and the unit block stairs today... nothing was a problem, excellent customer service all round. Thank you, would highly recommend ASL for relocations.

We recently had ASL help us move house. From beginning to end, the guys were helpful, positive, efficient and enthusiastic. Having moved a few times, I was expecting to be hit with some last minute 'hidden' fees. The guys didn't charge us for anything outside of their hourly rate (which was also very reasonable!!) My partner and I honestly couldn't be happier with the team and we will without a doubt be using ASL as our go to removalist service in the future.

Great service! Very responsive, and professional. Got the job done quickly and for a great price, also didn't complain about a steep driveway!

The guys were great handling a complex move and problem solved on the go. This meant the moving day was easy and I was able to focus on other things. Price was on the lower end of other quotes I received. Ill be recommending these guys to others.

We are very happy to recruit you for the service. Thank you so much for sending Kane and Mukhtar to help us. They were incredible good, honest and friendly. Outstanding service. They have work by heart. Appreciate!!!!

We have used ASL twice to help us move our furnitures. They provide a great service, they are reliable, on time and fast. Had no trouble with them highly recommended.

Had a really good experience using ASL logistics moving apartments. Was such a smooth process, very helpful and went above and beyond. Fast and efficient. Thank you again!

Outstanding services at a good rate! Ray's quick responses and the professionalism of Jonathan and his team make them my top recommendation. A fantastic experience overall!

Respectful reliable and looked after our belongings wonderfully. Would use them again. Highly recommended

Responsive, speedy and professional moving service! Thanks Jonathan and Daniel.

The effort of the removals team was great, they put in and got the job done fast.

Im very happy with the service. Definitely would recommend to anyone.

Lads arrived on time, communicated well, worked hard and took (and provided) direction easily. The company provided a professional service from enquiry to the job.

They a did a wonderful job and made my day hassle free. I needed them on Sunday and they came on time. Packed everything with great care and delivered on time. Special shoutout to Max.

A MASSIVE thank you to Ray & Mark. They made the moving process so smooth and not stressful. Ray was super responsive and accommodating. We would recommend these guys to anyone and will definitely use them again for our next move. Thanks Brad & Marsha

Great removals team. Made it super easy and stress free Highly recommended and great price!

The moving experience was seamless. They stayed in touch throughout and we're flexible. All the items were safely moved Highly recommend if you are looking for a personal yet professional moving service.

Amazing experience. Best removalist in nsw.

Do not bother with any other removalists in Sydney. Affordable, professional, friendly. I have used these guys 3 times!!! Honestly can't rate them highly enough. Make moving easy and streamlined. Very pleased with how the 3rd move went today. 10/10 ASL Removalists.

Highly recommend this business. We have booked them twice when moving house, and they are punctual, professional and took care of all of our belongings. Thank you again!

Friendly and patient team of removalists who worked efficient and timely with the move! Great service and

communication all round.

You can't find any other logistics companies who are professional and reliable unless you use ASL services. Trust me, these guys are awesome.

We used ASL logistics to move all of our furniture into storage. They were super efficient, took care of the furniture, and the guys were lovely. Would highly recommend them and would use them again.

Friendly, careful and hardworking team resulting in a stress-free move. Thank you!

Great service prompt and reliable

Efficient and careful movers, no damages, and completed a full 4.5-tonne truck, moving from Bondi to the Shire in just 3 hours. Recommended.

John, Rahmon and team were really careful with our stuff. We were especially worried about our glass items but everything came to our new place in the same condition. We also appreciate the extra effort taken to protect our monitor. Thank you for your service!

We used ASL logistics for our removalists and they were punctual, very polite and friendly and worked hard, they treated all our household items respectfully and carefully, I'd highly recommend them.

ASL Removals (booked through AirTasker). Provided a simple and easy move for myself. I only had one item which was my 65 inch TV to be delivered from Sydney to Melbourne. Rahmon provided me with prompt updates when asked and his team ensured that the TV was secured and safe on every aspect of the journey.

They were on-time and friendly. I will not hesitate to use the team again.

Had a good professional move with two movers. They pretty much did everything, wrapped the furniture and mirror with wapper and the truck was big too. It was quite smooth move.

Today I moved house after 18 years at the one place. I used the services of ASL Logistics after my niece referred them after only using them recently. OMG the service was awesome. Communication from my first enquiry was spot on, extremely responsive, informative and took my individual situation into their planning. The two gentlemen arrived on time and were absolutely powerhouses and truly were professionals. They took the time and care with all my items. They constantly checked in with me on items to be moved. Then on arrival at my new premises they asked where every item was to go. The care they took was beyond my expectations. Thank you Andrea and Jonathan it was a pleasure doing business with the Spanish machines. Highly recommend

Couldn't speak highly enough of Mark and Kane who were our removalist team. They were both punctual, very polite and friendly and service was faultless, the smoothest move I've experienced. And customer service/booking process with Ray was also 10/10

Booking process, removal and communication was amazing! Also very affordable. I will be telling family and

friends to book their removal here.

Responsive, on time, friendly, experienced, professional, tidy and neat, handled the items with care, and did not waste time! I certainly recommend these guys (big shout out to driver Sam and Marcello).

Wonderful removal service! Competitively priced, fast, flexible and friendly. No time was wasted, they worked hard and are honest. The guys are thoughtful taking care of items packed and transported. The French guys are warm and my partner felt relaxed dealing with them by herself and felt that her instructions were listened to and followed. Will definitely use John and his team again. Thank you Bri

The Removalist service was absolutely fantastic and the team was great - extremely professional and dedicated. A special shout out to Obi and Andreas who also packed for us. We will definitely be recommending ASL to everyone moving!

Ray and the team are reliable, transparent and awesome from A - Z ????

Very efficient, professional and helpful service. Have used them twice and will definitely use again!

I would recommend this company and their staff to anyone, they are so punctual and polite and professional. They made the move so stress free and easy. I have never seen 4 men work so hard and so fast before and with smiles! Great company to use for removals and amazing staff. Thank you again.

We used ASL for our business move across Sydney CBD. The team showed up on time and got the move done both quickly and carefully. Wouldn't hesitate in recommending them to others

Andre and Miguel were fantastic. Very professional, worked efficiently, moved my many boxes and furniture items in no time at all. I communicated with John, who responded promptly to my many questions with clear answers. I would highly recommend ASL Logistics to anyone who wants to trustworthy removalist company.

Great service, definitely made moving much less stressful. The boys came prepared with all necessary equipment to make the move as seamless as possible.

Best Removal Ever.

Mark and the other guy were so helpful during our move. They were happy to amend our booking time free of charge even it was our fault with settlement time. They moved my furnitures effectively & kept asking me for more stuffs to be moved when they saw the truck was only half full and we had a few other unpacked boxes. They helped to dismantle our furniture & rearranged them at our new home nicely and neatly. Unlike other people, they worked hard and finished their work within 2 hours.

Very professional crew. The furniture was also treated with care. Will definitely use again in the future.

Best removalist experience ive had! Thanks Kane and Andre who were effecient and took great care of our furniture during the whole process. Will definitely book them the next time!

Highly recommend them. they were prompt at responding and professional

Team leader Mark and Jonathan were very fast and professional. They did an amazing job and I was very happy with how they handled all the furniture and boxes. The move was from a high rise apartment with lift access, to a storage facility (also with lift access). They were very careful with everything in the home and ensured that nothing was damaged, wrapping all the furniture too. They called before arrival, got there on time and got straight into the move without wasting any time at all. They were quick and efficient but at the same time handled all items with care. Would definitely use them again and would highly recommend..!!

I had a big move that took 8 hours. The guys were great - polite and they worked hard. In particular, a Collumbian removalist named Andre (I think) was fabulous. He did many little extra jobs throughout the day that helped the move go smoothly.

Hillman and Reigner were Professional,Punctual and organised they were also friendly and attentive. When it came to handling my belongings they handled with care. Definitely ask for those guys, I highly recommended!"

Extremely professional and friendly staff, no time wasting while loading and unloading the truck, no complains from me, I have moved several times in Sydney and this service has been the best so far, highly recommended

When I say these guys are the BEST I mean it 1000% and could not recommend them highly enough. At the

time I was heavily pregnant and the thought of moving was already stressful for me, but I was in constant communication with Ray and he took out the stress from me. Communication was outstanding as there was changes made just before we moved and him and his team accommodated us. From all these POSITIVE written reviews don't look any further for a removalist. Pricing, service, communication, friendliness TOP NOTCH. THE BEST team to help you move to your new place. THANK YOU SO MUCH again Ray and team.

The team at ASL are amazing, this was our second time using them as they did a great job on our first move. We have a fair few old mid century furniture items that need extra care so when I saw furniture wrapping is included as part of the move I knew this was a great option for us. Both times the guys sent have been quick, professional and have taken really good care of all our furniture. We are very thankful to the team for taking the stress out of move day!! Can't recommend ASL logistics more if you are someone who is precious about your furniture like me don't look any further!

I hired ASL logistics via airtasker for moving my household goods. Jonathan and team were quite helpful and ensured the move was smooth. They also assisted in dismantling some of our large furniture and ensured none were damaged. Will hire their services again in future!

Booked these guys, very impressed with their work, they work fast and efficiently. Highly recommend.

This is the best logistics company I have used. - On time - Handle all items with care - Staff are awesome  
Highly recommended.

Super satisfied with the service from Ray and his team. These guys were punctual, efficient and took really good care of all our furniture. Massive thanks to the team for the stress free move. I can't recommend them enough.

The guys were absolute gents to deal with. Provided a top class service which they carried out in great time. Highly recommend their service to anyone

I moved last year interstate but I needed 2x taxiboxes as I had to store my stuff for a few months (flat hunting). I contacted ASL and they were happy to help with the loading of the small containers. The two guys wrapped my furniture with a protective film and the way they handled them...well was with CARE!!!! This was the first time I used removalists and what a pleasant surprise it was! Also they were masters of loading the containers, furniture tetris at it's best! I would definitely use them again.

I just wanted to commend the removalists because they dismantled and reassembled the beds and even connected the washing machine for me. As well as carrying everything 3 levels up and down! For a single woman that doesn't know how to do these things, I greatly appreciate the help of these men. I cannot recommend them highly enough. They were polite and respectful and did their job well.

It was the 3rd time that we use ASL Logistic. As usual the boys rosed to the task. From the moment they arrived, till the time they leaved, they did not stop. The service runs like clockwork. They turned up ontime, just like they said, we simply had to direct them with what was needed, and then kept on doing our own packing as furniture left the unit to be loaded onto the track. On their arrival at our new address, they continued tierously to transfer our furniture from the truck to the unit. Their were stairs to climb, which they

did climb with furniture as required. Within a total of 4 hour our large 2 bedroom unit was emptied and new furniture transfered to our other unit. They reliability and effectiveness made the whole excersise very cost effective. We will deffinitely be using ASL logistic in future. It is simple and easy just how things should be. Thank you to all once again. We would give them 7 stars if we could but the system limits to 5 An amazing job indeed

If you are looking for a removalists service, look no further! I reached out to ASL Logistics again after having a great experience moving my stuff from Melbourne to Sydney last year. I recently used their services and the team was very reliable, on time, great communicators, friendly and very careful with the furniture. The move was very smooth. They placed the heavy equipment where it belonged which I appreciated.

Excellent removalists. Meticulous and efficient.

10/10 you deserve the great reviews, I wouldn't hesitate to use them again. Professional, communicates well, is conscientious. Our 2 removalists, Sammy & Beck ensured our furniture was carefully moved and well protected eg. fridge, TV. With a 3.5 hour return trip ahead their cheery disposition remained as they drove away relatively late in the evening. Thank you so much John, Obi, Sammy & Beck.

Thank you for the excellent service provided by your staff on 22 March 2023 during the moving of our house in Peakhurst.

Highly recommend these boys. Friendly & professional. Had them move on the weekend. They take good care of your stuff when moving, also cling wrap your mattress so you can unpack and use it straight away. Definitely worth your money.

Showed up 30 mins later than booked, very friendly guys and worked very efficiently. The only reason for the 2 stars is the guys damaged a few things and when I asked about it was given the run around and now have been ignored completely.

Back on the 8/12/23 at 6pm the night before the move Ray called me advising they need to change the move to the following day. Removalist were originally booked in to come between 7-8am and then it changed to 8-9am. I was advised 4 storage pods were coming on the truck however only 3 turned up. We ended up putting our outdoor set on council pickup so we could fit all our stuff in 3 storage pods and not wait around for another truck to turn up THE NEXT DAY. We booked in for our furniture to be delivered from storage on Friday 29/12/23. I was messaged on the Wednesday advising that they need to move to the following day as they're booked out after being advised it was booked in 2 days prior. At 2.30pm on the 29/12/23 I messaged confirming for the following day between 8-9am. It was confirmed. Then at 9pm only hours later I was messaged advising that they cannot lift the pods on the truck until 10.30am and arriving at 11am.. 30/12/23 - didn't turn up until just after 11:30am. To save yourself stress, go elsewhere.

1 bedroom apartment fully boxed, ready to go with assistance from the renter took 2 hours overtime. The team were laughing, taking their time. One of them took my fly screen off the handle and left it and I had to tell him to come back and fix it. I said I would be back in 5 minutes and when I returned I saw one of the removalists running away from apartment and the other one was not to be seen for 15 minutes. They couldn't figure out how to use the lift so I spent 15 minutes of the paid time explaining to them how to use it. They left my bed unbuilt and forgot the screws at the old property. When asking what they can do to assist me after explaining all that has happened they offered a free hour and then stopped replying to any of my messages. I would never use this company. They were an hour late in the first place and did nothing but stall and act stupid in order to receive more money.

## **Page: Moving and Packing Boxes | Compare & Buy Online - Muval**

Browse, compare and buy packing & moving boxes online. Find every type of box you'll need for moving house in our box shop, including: tea chests, book / wine boxes, standard cartons, porta robes, tv boxes and more.

When it comes to packing, storage, and transporting or shipping your precious belongings, packing boxes are essential. But not just any boxes will do the trick. When it comes to choosing the right moving box you need to ensure they are sturdy cardboard boxes that can withstand the demands of your move.

For heavy or delicate items like books and pictures, opt for smaller boxes like the book or wine boxes. This way, you can avoid unnecessary strain and make lifting and carrying a breeze. On the other hand, large boxes are perfect for light or bulky items such as quilts, pillows, and clothing, allowing you to efficiently pack them away and store them.

Remember, choosing the right boxes for the right items is key to a smooth moving experience on the date you move and our guide to moving boxes is the bible to helping you choose.

Cardboard box alternatives include a wide range of items, some of which you might already have. They can give you space, save money, and make the packing process easier.

Suitcases and laundry hampers: Perfect for a range of things like packing your clothes and linen.

Plastic storage tubs: Even better if clear and you can pack all those accessories, bathroom and miscellaneous items. Keep these light and not too heavy.

Dressers: It's ok to transport light things inside your furniture, but if it adds too much weight, pack these into a box.

Garbage bags: People tend to turn to garbage bags as a last resort, but due to the risk of tearing, even with light items, they aren't worth the risk.

Check out whether you can hire or rent plastic tubs. In Sydney you can hire tubs through a company called Koala Box. They will deliver you your packs to your nominated place or office in Sydney.

Yes – There are loads of places where you can get free boxes that can protect your items when you move.

A few places to try and find boxes for free are buy, swap, sell websites like Gumtree, Facebook Marketplace. Other large department stores like Officeworks, Big W, Target, JB Hi Fi and Bunnings also have large boxes that could be used as boxes for your move.

Reusing boxes and great for the environment and a great way to save some money.

Some boxes can be deteriorated and may split / create damaged goods. You'll need to also account for more time and petrol money to go out and pick up boxes to get enough to cover your needs.

So now that you have your cardboard boxes sorted, we can help with what other essentials you need when moving! Supplies such as pens and markers are needed for labelling and fragile packing tape and tissue paper are great for delicate fragile items. Our guide can you step you through all the extras you need.

All prices in this box shop page are subject to change without notice. Whilst we make every effort to provide you the most accurate, up-to-date information, occasionally, one or more items on this page may be out of date. ## **Page: Self-pack Containers - Book a Container and Move Yourself - Muval**

We offer a range of self-pack container options for the budget conscious, or for those looking to take full control of how their belongings are loaded and unloaded.

Muval removalist bookings by default come with professional loading and unloading of the truck / container by qualified removalists. With self-pack container bookings, you take control of loading and unloading the container yourself; we'll just manage the logistics of moving the container from your pickup location to your delivery point.

Since you're taking control of loading and unloading the container, you will save money relative to a fully-managed removalist service.

Talk to us today about booking a self-pack container move. Call 1300 168 825.

Choose the container size you need. Either 20ft or 40ft. 20ft containers are approx 6.1m L x 2.5m W x 2.9m H with internal capacity of 37m<sup>3</sup>. 40ft containers are approx 12.2m L x 2.5m W x 2.9m H with internal capacity of 76m<sup>3</sup>.

Choose whether you are renting the container for the relocation or purchasing to keep after the relocation (new or used options available).

For smaller moves, or for inner-city areas where a full container can't fit, you can also book a Taxibox through Muval which measures 2.4m long, 1.5m wide and 2.2m high externally and has a rough internal capacity of 8m<sup>3</sup>.

Your preferred container will be delivered on a tilt tray or side loading truck to your residential/commercial address. Make sure you have a suitable location and sufficient space for the placement of the container. We can deliver these units to each capital city throughout Australia (regional areas by request).

We'll provide you with some tips on how to pack the container safely and recommend using industry quality materials to secure and restrain your items as you pack the container in preparation for transit.

Once all packed, you just need to take photographs of the packed container and send them to us so that we can determine the total volume of furniture and items being moved and then you lock the container with your own

padlock.

Once packed, we will collect and deliver your container locally, or you have the option to move the container interstate (metro areas) throughout Australia (regional locations by request). We work on 14-day transit times from the time the container is collected to delivered. These times can vary depending on the locations and time of year.

Our team will keep you informed so you're well prepared for the delivery timing. Make sure you arrange insurance for your goods in case they are damaged in transit as this is not included by default.

Your locked container arrives to your new address for unloading. Overall timings are based around 3 days to load, 14 days to deliver, 3 days to unload.

Talk to us today about booking a self-pack container move. Call 1300 168 825.

Alvaro Nicolas Were Great. Thank you.

Work done smoothly and pretty quickly given the tight deadline to move out and move in. Thank you guys!

Prompt and persistent customer service prior to the move. Non-existent customer service after the move when issues were raised. Was quoted 3 hours total move time but instead took 6.5 hours. The two movers were nice guys and were polite enough but instead of filling the lift with items each trip, they chose to just put 1-2 pieces in the lift at a time. One of the fellas was also messaging on his phone the majority of the time instead of carrying/moving items. A number of items incurred minor damage and a number of boxes were transported on their side or upside down resulting in damaged items inside. As a customer, it's easy to feel as though the move could have gone a little bit quicker had the guys wanted, but it seemed they just wanted to get a full days pay on a Saturday at my expense. Should have raised these issues at time of paying so that's my problem but the customer service after the move is disappointing. Would find it extremely difficult to recommend to friends in the future and also won't be using them again.

**DO NOT USE THIS COMPANY!** Whilst polite, they are very slow. I myself had to become the third mover to quicken things up. 2 bedroom home moving to an apartment, and while the first floor apartment had a relatively small lift, it took 9 hours (almost \$1,500). The stairs were faster than the lift and the lift was used

every time. The whole thing took far too long in my view and I can't imagine how long it would have taken (and cost) if I didn't help!! I was working at a much faster pace than the movers and they even acknowledged that. Pot plants even I can carry with one hand were being put on the trolley one at a time. I can't help but feel that if the job isn't going to take half a day, they extend to make it a full day (good for business, bad for customers). They also damaged my couch in numerous areas and both front doors. It has been over 2 months and I call/email weekly to chase my claim. I am yet to have a response despite them admitting fault and stating they will fix it. Save yourself the headache and use a reputable removalist.

THIS COMPANY IS A BIG FRAUD. DO NOT ENGAGE WITH THEM AT ANY COST. DO NOT TRUST THEIR FAKE FIVE STAR REVIEWS. I hired them to move a two bedroom place and even after ELEVEN HOURS they did not finish the job. They then threatened to leave with half of my stuff still in their truck unless I sign their form. Helpless and desperate I signed it and they left everything that was in the truck in the garage on the ground floor. Details: Two men and a truck came at 3:30 pm (confirmation on email was for arrival between 12-2 pm). The movers acted too tired from the previous job and told us to hire a third person through them with \$40 an hour cash!! We simply could not afford that on top of \$130 an hour already agreed fee. So then they started moving things at super slow speed and even at 1:30 am were not finished half way through! That too after leaving at least 1/3 of things at the first place because they "could not fit them in their truck". We provided the full itinerary in advance with extra numbers as we did not want any issues on the move date. It was a two bedroom but only one person's stuff, everything packed in boxes ready to go, we even threw out some of the furniture to save the time and the other place only 20 minutes drive away!! I am literally suffering from a trauma from this experience. We called the office many times at and after 4 pm, as soon as the movers started talking about the third person and no one answered our calls! I even sent emails and no response! But the next day they very promptly sent an invoice stating the job was complete, even though I stated in my emails that how so much stuff was still at the old place and in the garage, and deducted half of the invoice amount from my bank directly without permission!!!! How these people are allowed to run business is

beyond me because they are clearly cheating their customers. What movers cannot move a two bedroom place (with one person stuff) in ELEVEN HOURS??? I wish I could give them minus rating. I have never had such an experience in my life, after moving multiple times in Sydney!! I am going to need some months to recover from this traumatic experience. I was left in a helpless, desperate situation, with stuff left at the old place and in the garage. I had to hire different movers to move them all with extra cost. I could not clean the place the next day so ended up paying for one more day's rent and frantically searched for a cleaner who charged a much higher amount for end moment booking! Adding my response to ELP's reply: Thanks for bringing this to everyone's attention that it took a threat to call the police to stop your people from running away and stealing my stuff! I had completely forgotten to add that. Do you expect the customer to not show an ounce of retaliation under such a threat? Seriously? Instead of apologising and offering any type of consolation you're further trying to put the blame on your customer? Yes the end time was 2:15 am.. from 3:30 pm count the hours.. that's almost 11 hours for an incomplete job of moving a two bedroom place 20 minutes away!!! and you sent me another invoice for 14.25 hours!! Where did that come from? Also the situation with the staircase was always mentioned at the time of booking as your booking confirmation email also has those details and of course you will now make the totally false excuse of having to move more things than itinerary! The parking was done by your incompetent driver who could not park on the driveway of the building. I also clearly mentioned on your form that I had to sign it under threat and that the job is incomplete. I have photos of that form and videos of everything that occurred on that day. No one was yelling or being disrespectful during the day or even on the call. So stop making excuses. You're trying to compensate for this trauma with one hour of discount after sending me a false invoice for 14.25 hours? I am being charged more than \$1900 for an incomplete job!! This doesn't even make sense! You should be ashamed of running such a sham of a business!!

The worst moving experience ever. Avoid this company at all costs. Everything about the move was horrible. Was quoted on the job, actually ended up selling a lot of the stuff so had about 1/2 to 3/4 of what was quoted. Everything boxed, packed up and was in front of the door ready to go out. Took them hours to get things on the truck. Then told they'll have to do a second load as they didn't have room on the truck. Which Im not sure how considering we had way less than quoted. I waited with them until their truck was packed and they were ready to go. We were moving 1 suburb over less than 10mins away. I drove and parked and went up and opened the place and waited 45mins for them. They were leaving right after me to drive down the road. So they said they're going to a job down the road and they'll be back to finish in a couple of hours. This was around 2. Rocked up at 9:30pm to finish it. Even the small amount left took them 2 hours. The job should have taken 4 hours absolute maximum. It took 7 hours. 2 bedroom apartment moving 1 suburb over took them 7 hours. All through the day we were emailing James in the Sydney office (which is clearly an overseas call centre), to let him know what was happening. And have been fighting with them ever since as they've barely

responded. The job finished at 1130pm. Which is ridiculous in itself. After the move the guys asked to give a good review. I just nodded and walked upstairs as I wanted to go to bed. James, the overseas call centre guy in the Sydney office has been nothing short of putrid in his lack of customer service and responses. This company should never be used if you want to have a decent and headache free move. It's just a bunch of people that they send the jobs out to. If I could give them zero stars I would.

I recently had an incredibly frustrating experience with ELP Movers. I feel compelled to share my disappointment and frustration to alert others about the subpar service I received. Firstly, the movers assigned to my job were not only moving at a snail's pace, but they were also constantly engaged in phone conversations while on the clock. This not only reflected a lack of professionalism but also left me feeling like I was paying for a service that was not being prioritized. To make matters worse, I had specifically arranged for furniture assembly as part of the moving service. However, after unloading the last piece, the movers informed me that they were unable to assemble the furniture as they had another moving appointment scheduled. This was completely contradictory to the agreement we had in place, leaving me with unassembled furniture and a sense of frustration. The overall lack of communication and professionalism displayed by the movers from ELP Movers was not only disappointing but also unacceptable. Moving is a stressful process, and hiring professionals is meant to alleviate some of that stress, not add to it. I strongly advise others to reconsider using ELP Movers based on my experience. The combination of slow-moving, distracted staff and unfulfilled promises made for an unpleasant and regrettable moving day.

Moved my father & sister with a number of missing items (electronics). Several items broken, including a floor lamp shade. Was quoted 4hrs and ended up 9.5hrs. It was like the guys were deliberately going slow.

I booked in to move on a Friday and was told that the movers would be there between 7am and 8am. The afternoon before the move I got a call saying there had been a problem that day and they would not be able to get to me until between 12 and 1. I was fine with that but when they turned up they took one look at my electronic organ and said we won't move that. I had notified the company of the item when I booked and even sent pictures beforehand. The movers insisted they would not move it and that they had not been notified of the item by the company. They refused to move it (even though me and my 70yr old father had moved it in). The company was not able to send anyone else until the next day. When the next day came the 3 guys moved everything fine but it was not moved on the day I had booked and wasted a whole day.

Dismantling and assembling the furniture are not included in our standard pricing but can easily be added to your moving service, just ask.

The packing service is not included in our standard pricing. Please check with our support team to get a quotation.

Generally, it is around four porta-robes or 6 standard cartons for a wardrobe.

It depends on your volume and which carrier we are using for your move. Some companies can delay the delivery by a day for an extra fee, but others may not be able to if the truck is only passing by your address

and must continue driving.

When quoting on your job, we provide the name and reviews of the company that matches your inquiry. Although we vet every company on our system, we encourage you to do your own due diligence on the company you choose.

The earlier you book your move the more confident you can be that the date you wish to move will be available. However, the time in advance that you should book is heavily dependent on the time of year. Between October and March we recommend booking at least 3-4 weeks in advance of when you want to move. From March - September you can leave it a little later, booking 2-3 weeks out.

When looking at your kitchen, the industry standard is one book carton to each cupboard door.

If you need to change the delivery or pick up date, please advise the removalist as early as possible. They can sometimes accommodate changes and reschedule but this has a few variables.

Moving house? With our expert knowledge from 50,000+ moves and counting, we've collated all of the information you need to make moving house as smooth and easy as possible.

You know you need to move house, but your head is spinning with all of the things you need to think about. It's an overwhelming experience! To make it that little bit easier, we've compiled a comprehensive list of all the things you need to know for your move.

This chapter includes:

Did you know 63% of Aussies say that packing is in their top 3 most loathed tasks when moving house? If you're trying to work out how to pack for a move you've come to the right place. Here is a handy guide that includes all of the house packing tips you need to make packing up your home a breeze.

In this chapter you will find:

We've broken down everything you need to do in the lead up to your move and popped it into a printable moving checklist with all of the things to do before moving, for you to checkoff as you go!

You'll find:

Now you have completed the major stages of the relocation and you're ready to start the next chapter. How can you make sense of the chaos quickly and begin creating your lifestyle in your new environment? We have the answers!

There are so many moving parts to think about when moving house (pun intended). The best piece of advice we can give is to start as early as possible. The moment you know you need to move house, put a move date in place and work back from there. In Chapter 1 we've outlined the best place to start when moving house.

As standard, removalists will have their own protections and insurances, but in many cases they don't automatically extend to customers. This is why we introduced Muval cover, an insurance for moves booked through Muval. You have the option of choosing the items you want to protect during your move for that extra peace of mind. Chat to us today to find out more 1300 168 825.

If you've hired removalists, it's best to check with them to find out which items they won't move, however

with a little common sense and a bunch of experience under our belts, here is a quick reference list of things that you should not pack when moving with removalists:

A couple of weeks before move day, make sure your connections are set up at your new property – you don't want to be welcomed to a new house in the dark, with no Wi-Fi! We can help you get connected for your move. Get in touch today and we'll make sure your new home is ready and welcome for its new residents (i.e You!). Give us a bell on 1300 168 825.

This depends whether you're moving interstate or moving locally. Local moves are calculated on how many hours your move will take. Interstate moves are calculated by how much space your stuff takes up on the truck. You can save money when using a removalist by following a steps. Check them out here.

This usually starts with planning your move. Chapter 3 of our moving house guide has the full process of moving house from 4 weeks before move day, including when to start packing and when and how to book removalists for your move.

This depends on a few factors. If you only need to move a few light items down the road, then your mate's ute will probably suffice - as long as they're rewarded at the end of the day ;) However if you have a lot of stuff or need to move interstate then you should consider using a quality removalist. There are so many benefits to moving with a removalist. Check out our range of interstate and local removalists here.

There are a number of things to keep in mind if you want to find a quality removalist you can trust. This includes checking reviews and insurances, and keeping in mind that "you get what you pay for".

At Muval our movers are approved through our detailed 7-stage verification process and require a minimum customer rating to retain their place, so you can compare removalists with peace of mind.

Nawras and his colleague did a fantastic job moving all my things. Very professional, efficient and great to deal with. Highly recommended!!

Thanks to Nawras and the team for doing a great job this morning. Careful, quick and efficient!

Had a great experience with the Safe Removalist team, they made moving interstate so much easier! Soni and Nassar were very friendly and helped pack our stuff with care in Sydney. The team in QLD unloading were also very helpful! Would definitely recommend :)

I had safe removalist come to move my house last week, I would highly recommend them To anyone and everyone! Sam and Dan where so careful with my belongings, no ask was too much, and I can't thank them enough! 10/10 all round!

We had a really great experience with safe removalists. The whole process was easy and stress free. The booking process was easy. The communication leading up to and on the day was great. The move itself was pretty seamless. The company was very professional, friendly and easy to work with. The only glitch we had was a slight misunderstanding about our contents. I've had a previously negative experience where we were charged excessively. I asked prior to the move if our contents were slightly different because we forgot a couple of things that it wouldn't mean paying hundreds of dollars more and was reassured this was fine and there would be a buffer. On the day, it sounded like we would be charged for additional items but this was cleared up pretty easily. I would definitely recommend them.

Nawras and the team were so helpful, incredibly patient and lovely to talk to/deal with. Highly recommend the team, and many thanks again!

Thank you Safe Removalist! Nawras and Mayler were incredible.. Their expertise and positive attitude set the tone of our move today. Thank you for providing a priceless experience. They were able to install our fridge and washing machine faster than the delivery men. Thank you gents!

We used services of Safe Removalists today. Nawras and Fadi did a professional job. They came in on time, took care of properly wrapping and loading the goods. Once unloaded they also placed our goods as we wanted in the right places with a lot of care. Thanks to the team we had an easy move.

Ive used SAFE Removals a few times already and always found them to be consistently reliable from beginning to end. Most of all the two guys that moved me today, Fadi and Nawras were excellent!! They worked together extremely well as a team and were very careful, efficient on the timing and both were super courteous and approachable with a 'can-do' attitude. I will definitely request those two gents again to look after my second move in early Feb. Thanks a million!!

These guys were awesome! The admin team were easy to coordinate with. We loved the plastic crate hire that came included in our package, much easier than boxes. On the day, Nawras and Fadi were on time and communicated clearly what time they'd arrive. They were amazingly fast and got the job done much quicker than anticipated, but still treated our possessions with care and didn't damage anything. They were also friendly. Id hire smart removalists again in a heart beat!

We recently hired Safe Removal for our move, and were thoroughly impressed, especially with the service provided by Nawras and Mayler. Their punctuality, professionalism, and careful handling of our belongings made the process seamless. They tackled challenges, like maneuvering a bulky sofa through a tight spot, with ease. Their clear communication kept us at ease throughout the move. We highly recommend Safe Removal, and especially Nawras and Mayler, for a hassle-free moving experience.

Nawras and Fadi were fantastic movers, they were smooth and took extra care with my furniture. Highly recommend!

Nawras and fadi were wonderful and very fast and delicate with all of my stuff , I will definitely be using their services for future moves !!!

Nawras was super professional Can I give a 10-stars rating? Five aren't enough

I moved from Brisbane to Newcastle before Christmas 2023. The guys from Safe Removalists did a great job delivering all my items first to the warehouse and then to my new apartment with very little notice. I had two unassembled Ikea beds, which were very unstable and wobbly, so I was sure they wouldn't make it. But the guys packed everything perfectly and stabilized items in the container, so all the furniture arrived safe and sound. In addition, all company representatives were very pleasant to communicate with, they promptly responded to all calls and emails, and the process of placing a request, quotation and payment was very simple. They definitely made my move easier and thanks to them I celebrated Christmas in a non-empty apartment. I am happy to recommend Safe Removalists to my friends and I will use their services if I have another move!

We had Sony and Toni move us from Melbourne to western NSW The guys were great, friendly and respectful of the rental home and our possessions. The delivery address was quite remote and difficult to access, we were not even present at the unload stage because we were still travelling to the destination. The team unloaded with the help of one of our new team members as per our instructions and when we arrived everything was stored as requested. Would recommend highly this service thank you safe removalist

Nawras and the team were fantastic, very courteous and efficient!! I would recommend Nawras to all of my friends and family.

Oh my god! What an amazing and thoroughly professional job!! Fantastic. From the time of booking a date until the end, everything went perfect. Soni, Nick and Toni were absolutely fantastic. All items in the house were cleared. We moved from second floor of an apartment to a house. Also my upright piano was dealt with safety and care. Amazing job! Totally recommend them !!

Special thanks for the great company for sending me ( Nawras ) Nawras was super professional

Nawras & Mayler Great job, well done, excellent team. Will recommend Nawras

We recently used Safe for an interstate move by container moved by rail. The whole process was made so much easier by the Safe team from start to finish. Mark kept the planning stage simple but thorough and there felt like a lot of flexibility in getting the right dates to work with lease ends and settlement changes. The guys loading and unloading were friendly, professional, efficient and careful. Big thank you to Ivan, Arthur, Nikita & Sam. When choosing Removalist for this job, I looked at value for money first and then reviews from other users. Safe came in at around mid-range price wise but the reviews were way better and it's easy to see why. Customer focus was apparent from all points of contact in the business. Very glad to have used Safe and would certainly use them again.

Nawras and the team were fantastic. Fast, careful and efficient. Have used Safe Removalists before and would definitely again.

Nawras And the team have done an amazing job and made it stress free for me. Couldnt recommend enough.

Really good job, quick delivery. We had a problem with the storage and they helped to fit a time, we had to pay an extra fee but not their fault.

Soni and simi were very helpful and professional

This was the best experience I have ever had with removalists. Sammy and Sunny were professional, caring and very easy to communicate with throughout quite a stressful move from Canberra to Sydney. I really appreciated the fine work that they did and will definitely recommend Safe Removalist Australia to friends and family in the future! Thanks so much!

Soni and team were excellent. Nothing was a drama even with our sometimes confusing instructions. Highly recommend.

Nawras did an amazing job helping me move into a new apartment Safe Removalist is a great business Always reliable, responsible and very careful I highly recommend ( Nawras )

Nawras And his team were absolutely amazing! So fast so gentle with all my belongings. I'd definitely use them again and highly recommend you don't go anywhere else!

Nawras & Fadi were excellent! Great service. Really friendly and got the job done well.

I recommend Safe Removalist Australia, they were very efficient packing and unpacking my house during the move. Everything was moved safely without a hint of damage. Thank you for making the move less stressful!

Safe Removalist helped me relocate from Sydney to Port Macquarie, and they did an absolutely first rate job. They were on-time, they handled all my furniture and boxes with care, the guys were nice and friendly, and they worked incredibly fast and efficiently. Ivan and Arthur have really earned this praise, and if I could give a

better review than 5/5, then I would. I definitely recommend them for any moving needs.

Did a great job. Let me know where they were about every 15 minutes. Would definitely recommend them

Sam and Emal Did a fantastic job on a very warm day and 100% recommend!

After being messed around a few times by other places Mandy offered such a caring professional service to us while we were grieving the loss of our mum. She listened, empathised and gave us what we needed. Menastasia dealt with us towards the end, smiling and attentive. The guys who just delivered all our families belongings Sonny & Toni were kind, professional & hardworking. A removal and storage place that is professional and caring! Where can you find that in todays world??!!! We are blown away! Thank you Safe Removalist Team for your heart ?? from the Scotts

Nawras and the team were very fast and efficient. Highly recommend will use this service again.

I definitely recommend SAFE Removalist for anyone moving. I moved interstate with SAFE Removalist and have stored my household items with them as well. Soni and Toni were my removalists and they were incredibly professional, fast (and strong!) and lovely to work with. Mark and Maria in the office have been fantastic too. I've been very impressed with their clear communication and how quickly they reply. They are very accommodating - I had half my items go to storage, and the rest delivered to another location. Organising that was easy and seamless. SAFE Removalist have competitive prices, and the customer experience has been really great. They have reduced the stress associated with moving and storing furniture dramatically! Big thank you to the SAFE removalist team.

Nawras and the team were utterly amazing today. I couldn't have asked for a better service.

Nawras was super professional How Can I give a 10-star rating? Five aren't enough .

Used these guys for our move from yto Brisbane. The entire team including Mark, Mena, Toni, Soni and Nick were outstanding. Received everything safely and on time at our end. Definitely would recommend!

Nawras & Fadi very friendly and respectful very good thank you

Nawras and Fadi very professional and very quick, excellent service, will use next time

Really recommend safe Removalists, had a good experience with Soni and Toni who were very helpful with moving our furniture and belongings from Sydney to Melbourne. Good value and very professional!

The Safe Removalist team did an amazing job delivering my items across the state. Thank you so much Soni, Nick and Toni!

Soni and the team Liam and Uate were amazing. They had the old house empty within no time. Our new house has a difficult entry and we had freshly painted. Not only were they speedy and efficient, but they took the upmost care not to touch the walls. Everything around safe and sound. They were easy going and a joy to chat with.

Alex, Qaays,Sandy arrived on time , unloaded everything from the old house in quick time despite the difficulty and weight of some of my furniture. Loading up to the new house was made to look easier even with the narrow stairs. Well done guys as your superstars. Highly recommended.

Had a great experience moving locally in Sydney and could not recommend them enough. Very fair and reasonable pricing and they worked at pace. Thank you very much to Jeremiah and TJ (spelling?) for your incredible work and friendly service. My partner and I had a great morning with you both! Will be in contact for our next move

Thank you to Nawras and the team for a great and smooth move!

Safe removalists were really helpful with our interstate move. No hidden costs, good communication, great service and everything arrived in one piece. Liam and his team were great picking everything up, as were Soni and Toni delivering everything and the office staff through the whole process.

Marvan and Milad came to move my stuff locally. Came on time, packed and moved all my belongings fairly quickly. Prices were reasonable. They also helped me assemble some of the furniture. They were communicative throughout the whole process; I got call 30 min before their arrival and then another call just couple of minutes before they arrived. After completion, they showed me the back of the truck to ensure nothing was left in the truck. It'd be good clarify beforehand who's doing the packing. :) Suggestion to Matt - Give a printed work order to the boys with both the addresses and other details on it. Better yet, a printout of the booking along with the account details for transferring the money.

soni and toni helped a lot with our move today very fast and professional

Nawras And the team were super helpful and efficient. We had some awkward stuff to get upstairs and they did it quick and easy!

The team were quick, reliable and helpful throughout the move, making it a little less stressful when doing an

interstate move. Highly recommend

Nawras & Fadi were superb

Sydney; pack and remove whole 4 brm house stuff. Then storage for 16 weeks, Tweed Heads; delivery, unpacking, install assistance with various difficult things by Vitali, boss man and gang of good guys; Alkaw and Zina. Coordination of delivery by Vitali at Tweed Heads was excellent. Thanks, ??????? and Gracias

Soni and Simi did an amazing job. We very good help during a busy crazy time! We were very happy with the service

Nawras And Mayler were efficient and moved all my things with care.

Nawras And his team Had a great experience moving locally in Sydney and could not recommend them enough Nawras was super professional !

The guys from Safe Removalist were fantastic. They were so careful with all my things. Everything got wrapped and treated with care. They were so professional and very pleasant. I am more than happy to recommend them to anyone.

Soni and Toni are professional removalists. Unloading in Canberra at three and finish unloading in Melbourne before 7 on the other day. They are trust worthy!

I recently moved from a house to a first floor apartment, and the service I received from SAFE Removalists was phenomenal. Roodi and Alexin were very professional, very fast, and above all, were extremely friendly

and helpful. I had a very large fridge which, upon moving into to the new apartment, would not fit through the doors, so they removed the doors of the fridge, moved it into the apartment, then reinstalled the doors perfectly. If SAFE Removalists continue to hire people such as Roodi and Alexin for their business, not only will they be extremely successful, but you can be assured of customer service that cannot be matched. They were literally the best removalists I have ever hired in my life. Well done guys! EDIT: I used SAFE again for my next move, which was easier than the last which cost me \$800. I was quoted \$1000, it cost me \$2000. Never again.

Good communication skills but very very slow, fleet manager came to have a chat and laugh with them and lifting small items one at a time. Wasted an hour, had to jump in and do it myself.

Terrible experience with this Company moving my stuff interstate where I only had to move a few items and most of them arrived fully broken or damaged. It took months for them to finally take responsibility and give me a little compensation after hanging up the phone on me multiple times, not replying emails, etc. **WOULD NOT RECOMMEND.**

Very unprofessional and disappointing experience using Safe removalist Australia to move our stuff interstate. They broke in half some of our stuff and damaged the rest. Also very inappropriate Language From Vitaly from the QLD office once we made the complaint, it took a while for this company to start answering our calls and emails, offering us a very small compensation in the end which made the frustration even bigger. **I WOULD NOT RECOMMEND TO A FRIEND.**

Please be aware of this company. I provided a detailed list of what I wanted to be picked up, including the height, weight, and photos with exact measurements. I asked for an exact quote and was given one at \$305, but it was not honored and the next day was issued with a \$1800 invoice. And to make matters worse, the reason

**Website: [www.muval.com.au](http://www.muval.com.au)**

why the job took so long was because the Removalist overfilled the lift, causing it to break down and be stuck for hours which they charged us for. They also brought the wrong size truck, for which they also charged us, even though we gave the height restriction of the loading dock entrance! Do yourself a favor and use another company

## **Page: Buy Removals Cover for Extra Peace of Mind When Moving - Muval**

Add extra peace of mind to your removalist booking through Muval Cover.

You are moving your valued possessions and we, like you, want to help make sure everything gets from A to B safely. That's why we created Muval Cover: a specialist offering for Muval customers to provide added peace of mind to your move.

[View the Muval Cover Warranty Terms & Conditions](#)

As an added benefit of booking through Muval, \$5,000 of complimentary cover is available for MuveXpress bookings (exclusions apply).

Muval cover provides you with peace of mind that your goods are protected from unexpected damage during the process of moving house.

\*\$129 inc GST for \$5,000 worth of cover is based on \$500 excess and all goods were itemized specifically as part of the quote.

You may be wondering if you need removals insurance. Don't removalists have insurance that cover your move by default? Well, yes and no.

Every removalist on the Muval platform must have up-to-date public liability and goods-in-transit insurances in order to be eligible to receive bookings. However, this doesn't cover you specifically for accidental damage to your property when loading and unloading the truck.

Public liability insurance generally covers the removalist if they damage your premises in the process of your move.

Good in transit insurance will cover the removalist if something happens to the truck while on the road and usually extends to cover your property in the event of a road accident.

None of the above will allow you to personally claim directly for damages to your belongings. The best way to ensure you're covered and you're in control of a claim process is to purchase Muval Cover—an insurance-like warranty product designed to cover your items while moving.

Would highly recommend

I can't thank Gabriel and Pedro enough for their excellent service today. They moved all my furniture from Potts Point (3rd floor, no lift) to Surry Hills in record time, and with no issues at all. They were very friendly, polite, and professional. They handled everything with care and skill. They also gave me a fair and honest quote, and stuck to it. They made my move a breeze, and I would highly recommend Oclock Removalists to anyone.

Top removalist! Highly recommend to anyone looking for fast and friendly service!

Would reccomend these guys to anyone looking for professional and responsive removals, had all the equipment needed, including protective blankets and new bed covers. These guys were friendly, polite and were able to go to an extra address without hesitation. Very satisfied and will use O'clock Removals again.

I used O'clock Removals to go from Bowral to Blackheath. Leo and Pedro were excellent. Great service

Great experience! They both are superb, they did the job fast with the most care ever. I didn't have any issue with them! They are extremely good and I will definitely recommend them to all my family members and friends!

Leo is a legend! Guys helped me with my quite big move, they worked quite fast and organised, and everything was packed nicely and secure. Really good communication and great service Best removals Ive worked with so far!

Absolutely amazing experience. Very nice people, carefull, legends. Thank you guys and if, i will call you.  
Was pleasure.

Leo and Dan were awesome in helping me move. Leo was extremely responsive and answered all my questions early on. No need to be on hold with some offshore teams, your directly working with the team. Dan and his buddy were prompt on the day of the move. They were really strong and knew what needed to be done. Dan helped with the placement of my items into storage and was a real professional knowing how to put it all together. They really helped make it a stres free move, highly recommended them and will be using them again in the future!

Wonderful relocation experience. I spoke and communicated with Leo, who was amazingly prompt replying to my texts, even during the Christmas period. He literally set the standard for our pending move. Additionally, there were no hidden costs. Leo was upfront with the fees - hourly rate and call out fee. They did not charge extras like so many companies do, and were fully insured. I had three differing quotes and O'Clock removals were by far the most competitive and reasonable (that doesn't mean the service was 'cheap', it means they had a standard hourly rate with no hidden surprises and didn't charge by the half hour or by how many guys they used, etc). The removalists were punctual, literally on-time if not a minute or two sooner. Pedro and Fab were professional, yet relaxed and friendly. Moved a two bedroom unit, with loads of storage to a three bedroom apartment across a few Sydney suburbs. Managed to have this completed within an expected time-frame, even in the terrible humidity. Excellent communication, extremely careful with our items. Always had smiles on their faces, and nothing was an issue. I would highly recommend O'Clock Removals to anyone wishing to relocate due to this stress free experience. Thanks again guys!

I had a small job involving items of furniture etc to be moved from Woollahra to an Aged Care facility a few

suburbs away. These guys were courteous and helpful. They tolerated the need for a Covid RAT test, masks, and a face shield by the Aged Care facility without whingeing, and their fees were very reasonable. Anyone else would have said "stick it!" Byron & Dawn, Bronte NSW

Very professional and made the move simple and easy. Would use again and can highly recommend

Efficient workers and a good price!

Pedro and his team were amazing. They went above and vetoing in term of service. Much recommended!

We moved out yesterday and I can't thank Oclock enough. Extremely professional, great at their jobs & made the whole day go smoother than I thought possible. Thank you!!

Awesome job by the boys. Careful, skilled and reliable. Thank you very much!

Absolutely outstanding service by the team. Professional, very careful, quick, polite nothing too much trouble. Definitely the best removalist company ive ever used. Thank you guys!!

Excellent service from Leo and Pedro, both were such hard workers and very polite to deal with. I will definitely be recommending them to friends and family. Thanks again guys for making our move smooth and stress free, even in the pouring rain!

We used oclock to move all our family today and the service was exceptional. Went above and beyond with

everything including putting beds together, they were very fast and lovely. All items transported safely. Moving is a really painful experience and the team make it seamless. Will be using again next time for sure! Huge thanks again

Oclock removalists made my movement possible on time. The guys came on time, carefully pickwd up everything and accommodated in the truck. completed the job on time with speed. Very safe movement. Thank you very much for your service. ??????

Leonardo and his colleague were so fast and careful when removing items and were very careful with my items. They were kind and friendly and made the move swift. I would recommend using Oclock for your next move.

We were delighted with the two removalists who moved our things on Saturday. They were punctual, very polite and super careful with our belongings. They disassembled our beds and put them back together and took care when asking exactly where (and in what position) we'd like things set up in the new house. Would 100% use them again. Lovely chaps!

Highly recommending Oclock removals ! The team was very skilled, efficient and nice. Im glad to have found this company that I will use again 100%!

You couldn't ask for better service from these guys. Arrived on time and were extremely efficient in getting everything moved. Ill definitely be keeping the number for these guys on hand for my next move. Definitely recommend them.

Great team of removalists - reliable, very knowledgeable on how to move large objects through tight spaces,

and a really good attitude towards getting things done. Would work with Leo and Gabriel again.

We've used Leo and the boys from O'clock removals many times. They are on time, fast and careful with their work. I wouldn't trust my furniture removals with anyone else. Highly recommend.

I booked my removalists through One Flare and the O'clock removals team had the best rates and were very responsive to all my questions. On the day of the job, there was a delay which held up my removal but the guys were very upfront and kept me in the loop. They worked tirelessly and were very careful with my things, ensuring the sofa and mattress were wrapped to protect them (from the rain and the truck). They were cheery and polite the whole time despite having to trek up and down many flights of stairs. The O'clock Removals team did a stellar job, making a stressful time, run smoothly! Highly recommend! ?????

Positive: Professionalism , Quality , Responsiveness , Value Pedro and Leo were super friendly, very considerate of our furniture and very efficient. I would totally recommend them! Service: Local moving

Amazing. The best moving company in town. It was my best moving experience. Thanks a lot.

Hard working guys who will go the extra mile to get the job done! Would recommend them to anyone.

Bruno and Paulo did a great job for us in moving the contents of our 2 bedroom apartment into a storage unit. They took good care of our stuff and nothing too much trouble. Impressive Tetris skills too to fit everything in!

Dream team! the boys were quick, efficient, careful and very polite. Would highly recommend this company!

Thank you!

Domenic and Fernando were amazing. So quick and very easy to deal with. I was impressed with the price as well. Highly recommend.

Both guys were the nicest people, very careful and keen. Thank you guys! I will call OClock removals again if I need to!!!

Amazing service and communication. I ordered my removal really quite late and they still came through no worries. Super professional and accommodating too. Thanks guys!

Used them twice already and will definitely use them again! Great service great price and easy communication. Highly recommend!!

The O'clock removal guys were excellent! They took care when moving fragile stuff, and were so helpful with everything. Very efficient, and made the process of moving so much easier! They are very friendly guys too. Definitely recommend!

Leonardo and Pedro are extremely efficient, capable, helpful and polite; in addition, whenever I had a question prior to the move Leonardo always responded promptly. Despite some challenges with narrow stairs they navigated our items safely, all with a smile. I believe they genuinely love their job and this attitude makes it a lot easier for a client on a stressful day. Would wholeheartedly recommend.

These removalists were on time and were efficient. I would definitely hire them again!

These guys rock! They were super helpful, efficient and friendly. We would book them again in a flash.

Pedro and team did a fantastic job, with a very complicated move that took 8 hours under a pouring rain. If you need a honest and reliable service with a smile, you're in the right place

I use Leo and the team as my primary contractor for all business related moves. Have used their services for over 12 months, sometimes 3 times in a week and often on short notice. Always provide an exceptional service.

Oclock removals thank you!!! Such a great work. Organising the moving was so easy, the boys are very reactive and helpful. They will definitely do their best for you. And the day of the moving went super smoothly, no issues and super professional. Thanks again to have made this day easy for us.

Positive: Professionalism , Quality , Responsiveness , Value Great movers, coped with moving difficult items down large stairs, friendly and professional, took great care with delicate items, nothing was too much trouble!  
Services: Local moving , Oversized-item moving , Furniture assembly

Victor and Luan were excellent, friendly and communicative. Despite some difficulty with access to the delivery location they resolved the issues and finished the removals with minimal issues - would recommend

Best removalists we have ever used. Cannot recommend them enough. Pedro and his team did a fantastic job moving our home recently. The whole team are incredibly friendly, always smiling, and worked at an

incredibly efficient pace and looked after our belongings perfectly. Pedro was very consultative beforehand in ensuring the right size of truck and number of removalists for the size of the home. It meant the entire move of a 4bed home to another, in a different part of Sydney, was completed in just over 5hrs. Finally Pedro is a very good communicator and would reply to our enquiries promptly. Will definitely use these guys again and highly recommend them to anyone in Sydney.

Very friendly, professional staff. Very responsive to my emails/texts and worked tirelessly and efficiently to quickly perform a big move for us with only a few days notice. All our items arrived in the same condition as when they left and without issue. Highly recommended!

Needed a last minute removalist and this business came to my aid. Great service, professional service and the staff were a delight. Thank you once again for your efforts and I'll use your business again in the future. Highly recommend for anyone looking for a removalist. Thank you

They were both extremely professional, fast and attentive to our belongings. Highly recommend!

If you want the job done right, these are the guys to use! They moved me from an old three story terrace house in the rocks, that is a difficult task with the tight space and stairs etc, to my apartment in Mosman without any hassle or damage!!! Everything is wrapped and taken care of as if it were their own belongings, I would use and recommend them again any time. Thanks guys and all the best Morgan and Emma

Fantastic service. Professional, careful, efficient, overall just awesome. Very impressed how skilled these removalists are, got the job done safely but quickly at the same time. Thank you Oclock Removals!!!

Leonardo and Pedro are so professional and courteous. They treated my furniture with respect and delivered it in perfect condition. I was very pleased and satisfied with my experience. I would highly recommend O Clock Removals.

Leonard and his team were friendly and efficient. Great communication throughout the moving process. Highly recommend

Thanks for the help guys, moving was smooth as it could be. Great job!

Positive: Professionalism , Quality Leo and Pedro were very friendly, professional and hardworking. They helped disassemble all my furniture at my previous residence, and then reassembled it at my new residence. Would definitely be giving them a call again if I ever need some help moving! :) Services: Vehicle transport , Local moving , Moving-related packing , Furniture assembly

They are very professional, helpful, and energetic guys. I highly recommend them.

Great work by Leo and Pedro , very careful with stuff and very professional.

It was good and FAST, they are careful, attentive and very nice people to deal with, trust always !

The move was such a smooth process, a massive thank you to the guys that for their punctuality, professionalism, and friendliness. They were helpful, careful with my stuff, and even made sure the big items were set up on the other side. Would definitely use them again. Thank you!

They turned up on time and worked very hard, nothing was a problem unlike others I have used

Lovely guys, did the job BUT took 3 hours to move my small studio which cost me \$500. I have never paid this much when moving and I have moved 6 times in the last 3 years. I am very reasonable but they are very slow. They walked in and said it would take 40 min but took nearly 2 hours to load the truck. On top of that they arrived late. I won't be using them again.

**WARNING:** they are very SLOW, LATE, and DAMAGE FURNITURE. I chose o'clock because they had very high ratings, but after my experience with them, and doing some research, I think many of those reviews are fake accounts as they have only written 1 or 2 reviews. I trusted this company due to the reviews but I don't believe I can be so unlucky to be the only one to have encountered a bad experience. Firstly, they arrived over 1 hour late, and when they turned up, they were very slow. They take their sweet time walking to and from the truck carrying minimal furniture or boxes. They also have frequent breaks. To top it off, they damaged my furniture which I noticed as they are careless when moving furniture into and out of the truck. The boss Leo is very rude on the phone, he clearly does not care about customer service. The removalists went over the estimated booking time by 10 min, and on their website they state that any additional time is charged in half-hour blocks. However, they charged me an extra hour, for going over by 10 minutes! The only reason it was even over by 10 minutes in the first place is because they are so slow! The only good thing about this company is that the prices are among the lowest. However, you pay for it in the end as they work slowly, and may damage your furniture. I would steer clear and go with a more reputable company.

I had Gabriel Mezini and Jeff helping with my move on Friday. Absolute legends. I was unprepared for the move (combination of being busy at work and young children) and despite 15 hours straight of heavy lifting, the guys still had the patience to let my 3 year old put a few screws in his bed frame when they helped put that together. Also, sorry Gabriel for crushing your hand when lifting the running machine.

Needed help with a last minute move and these guys were more than happy to help out. I was lucky to get Michael, Chani and Gre to move my stuff and they were very professional, efficient and very helpful and friendly. Ill absolutely call them again if I need a removalist.

Great service from Travis and his team at the Cairns depot. Took the time to have a chat, answerd all my questions, even rang head office for a quote on the spot. Junior and Sasha did an awesome job moving our household items which had been in storage for over a year to our new home. Great job guys.

We have literally just finished our move with Ready Movers (Driver: Giovanni, Offsider: Mario), and my husband and I were so impressed with their professionalism, careful handling of all of our items (no matter how small), and patience. They communicated with us at every step of the way, gave us suggestions to help us make the move smoother, and took on any feedback and requests we had. Both Mario and Giovanni worked steadily and dilligently, but did not rush to ensure our items were treated carefully. Working with the Earnest (Townsville Office) was an absolute pleasure. There was a hiccup on our end, and he and the movers were helpful, kind, flexible and prompt in communicating with us. Ready Movers were worth every penny, and we'd absolutely move with them again!

Gabriel and Danilo. Great job from these guys.

Really good experience with Jo and Joao. Considerate, polite and super helpful

Very friendly and considerate team! Would definitely recommend! Shout out to: Gabriel Mezini Johnny

A Positive Moving Experience in Every Way We have been really pleased with Ready Movers. Even before moving day, we received 10 free boxes that were appreciated and left a good feeling toward the company. The day before the move, Mick from Ready Movers texted us to let us know of the arrival time range that was most helpful. The movers Roberto and Giovanni gave us half-an-hour notice and arrived on time. They then promptly began their work. We really appreciated their care in handling our furniture zero damage, both on the

furniture and home walls and doorways. They worked diligently and were a great team. In fact, if it works out, we would love to have them back for our next move when we move to a retirement village in the near future.

Pleased Customers, Alex and Eva Thornlands, Queensland, 4164

Both of the movers (Juan Barrero and Joao Papatino) crew of Fenix are great workers, very fast and responsible. Will ask for this crew on the next move.

Upon relocating from Melbourne to Hervey Bay, the team of Junior and Danilo proved not only to conduct themselves in a very professional and friendly manner at all times and were also completely happy to go above and beyond! Let's face it; the last thing on your mind when lugging boxes of all sizes in such heat would test most people. Yet the boys were smiling and courteous the entire time! I highly recommend your employees and Ready Movers to anyone. Great service. Smiles all round! Thank you, Junior and Danilo! Kind regards, Dwayne Jones.

Great at their job, the guys took so much care with my items and nothing was too hard. Gabriel Mezini and Johnny were lovely and knowledgeable and made things so easy. Cheaper than others and way better service.

Getting a quote and booking the move was very easy, a call the day before to reconfirm details and William & Guilherme arrived as promised. They quickly but safely had all my stuff, protected and packed into boxes and into their truck in good time. It wasn't the most difficult job for them, mainly just boxes and small items, but they soon had all my belongings into my new apartment and everything arrived in the same condition as it left my old apartment. I'm happy to recommend ready removers, especially if all the team are as friendly, efficient, safe and good hard workers as William & Guilherme. Great job lads.

Good communication, arrived truly on time. Trevor and Tom handled the job delicately and professionally. Thank you :)

Pre-pack was done by Lee and Joe Uplift was done by Jim and Sena Both teams did a fantastic job with the pre-pack and uplift very professional and friendly. We used Rurik and Octavio from Ready Movers to move our 4 bedroom house from Brisbane to the Gold

Coast and couldn't be happier with the service they provided. They were professional and extremely careful with our belongings. They took the time to make sure our couches, mattresses and fridges were wrapped for transport. Once unloading at our new place they communicated and found out what room each box and piece of furniture was going to ensure we didn't need to shift or move anything around once they had finished. Would 100% recommend Rurik and Octavio if you're moving and want the job done right!

They carefully transported my belongings from Brisbane to Townsville even when I had to change my arrival dates at one point, and the service I received was absolutely amazing and so understanding. Ive already recommended this company to a friend, and will continue to do so on the future.

I can't recommend Ready Movers enough! They are efficient, friendly, and professional! Moving oversea from Australia to Europe could have been stressful, but they made it stress- free! First came the friendly Natasha for the quote inspection. She expertly estimated the size of the container needed and promptly gave us a comprehensive and reasonable quote. Then the experienced Trevor, Tom and Ralf surpassed our expectations by their professionalism, their promptness and care for our belongings as well as their cheerful demeanour. Highly recommend for a hassle-free move!

I used Ready Movers to relocate from Brisbane to North QLD. The communication from the company was great during the booking process and collection/delivery. Melinda and Leita were very responsive and helpful

during the booking process. The 2 men who picked up from Brisbane were very friendly, quick and efficient and Robbie, Adam and Brayden from the drop off were also very friendly and took care when offloading. The delivery was picked up Thursday and delivered the following Monday which was great because I was expecting 2+ weeks. Can't recommend Ready Movers enough!

Outstanding work from Gabriel Mezini and Jeff when help is very valuable. Got our family moved with no fuss at all.

I don't give reviews for the sake of it, but for the experience we had with Ready Movers, it is worth the time to share with anyone who needs a removalist in Cairns and districts. Moving house for most people is up there with the 'top' stressful and worrying life events. In the past 6 years, unfortunately we have moved house 5 times, including to and from Brisbane. Each time, we have worried about who we chose to move us; most importantly, who could we rely on to be professional, reliable, cost friendly and careful but efficient. We had

to move again (hopefully for the last time for a long time now!!) in the last week, a local move within Cairns suburbs. We researched local professional removalists, and read reviews about each. We decided to go with Ready Movers, and we are glad we did. Their service from the start was excellent. We had Melinda in Sales (Brisbane) on the phone and by email. Travis and his team in Cairns to co-ordinate and carry out the move: Darren, Junior, Mike and Russ. And Kelly in Sales (Brisbane) for payment and receipting. All of these people were very helpful, communicated really well, and very professional. A special mention has to go to Mike and Russ who carried out the hard physical work, and were really helpful on the two days of our move out (uplift) and move in (set down). Thank you Ready Movers, you truly deserve your 5 star rating. Absolutely recommend you to anyone who needs the same level of service as we got. Best wishes, Ray and Jo.

Shoutout to Theo and Sasha. Were friendly, polite and efficient

Gio and Gabriel did an excellent job and were very professional when they collected furniture from our storage shed.

An awesome experience with Ready Movers. Our easiest move yet. Great communication. The team on the day (Mezini and Gabriel) were so helpful and super fast. They took extra care with everything and took the stress out of the move.

Luis and Rodrigo did a fantastic job. Their communication was at all times in a respectful and professional way. They managed our move swiftly with no damage to walls or belongings. I can highly recommend these 2 gents to manage any move.

I cannot say how happy I was to have Danilo and Junior come and help me with my move today. They were the most helpful, efficient and polite people I have met. I would recommend their services to anyone who

wishes to use Ready Movers and if there was a rating I would give a 10 out of 10.

Seth and Jack delivered my furniture when I made the move from Melbourne, both legends, great service and all on time

Gabriel and Bruno very good removalists

Thank you for being great movers. Arrived on time, everything unpacked and in great condition. Thanks for making the move stress free and a great experience

We booked ready movers after getting a number of quotes and we were so happy with the service from the initial contact, without pressure, through to meeting Lucas and Rafael on the day. Despite the heavy work they remained professional and courteous throughout the whole process and skillfully prepared the items for transport. Thank you

Junior and Joao were great, super efficient, and very careful with our possessions.

Gio and Gabe were amazing and super efficient. Would highly recommend them for your move!

Gio and Gabe were fantastic :) made the whole process really easy

The whole team at Ready Movers were 5 stars! My removalist (who had been booked for months) let me down at the last minute, and Ready Movers jumped in and honoured the price previously agreed on with the other mover and promised to complete the job within the same time frame. Natasha in the Brisbane office was incredibly helpful, ensuring we had everything ready to go on time in the last-minute rush. From the moment Mark and James arrived to load my gear they never stopped laughing and smiling, even though it was bloody hot and I really pushed the friendship with all my extra requests. They handled everything so professionally and efficiently, I couldn't have been happier. Thank you guys so much for everything you did - I only wish I'd booked you originally! I'm telling everybody how amazing you are and if I ever need to move again, I'll know who to call. If only everybody conducted themselves this way, the world would be a much nicer place!

Had 2 Brazilian gentleman who were outstanding and very professional

Cesar & Juan were the best. They take care of your things and extremely careful to not mark walls. Don't get another quote just ask for them!

From first requesting a quote with Anthony, then all my questions in the lead up, through to the guys on pick day- it was all flawless. Guys were courteous, friendly, well organised and on time. I can so rarely say these things about any transaction!! I will be using ready movers again in a few weeks for the second part of our move. Thank you!! Great work!! Pickup Date: 13/09/23 Date Delivery: 25/09/23 YOUR FRIENDLY REMOVALISTS WERE: DRIVER : Darren Kay DRIVER : Michael Entrop DRIVER : Junior Aukuso DRIVER : Russell Lively Vehicles : CNS - Cont 1 300 DRIVER : Aaron Koiatu

Most affordable with a very efficient, experienced and a friendly team. All items were systematically shifted

after storage of more than 8 weeks.

James and Michael helped my mother and I move into our new place and I can't express how amazing they were. They were so friendly, professional, quick and efficient. Made the moving process easy and also fun! Can't recommend them enough, will 100% be using ready movers in the future.

Jeff and Gio were excellent, very polite, handled everything exceptionally well. Simply the best removalists we have ever had. Will absolutely recommend to our friends. Thank you Greg and Pamela

Junior and Altila did a great job. Friendly, professional and punctual.

Stephen and Gabriel in Brisbane was incredible! They arrived exactly when they said they would, they where incredibly kind and very careful with my belongings. They put everything away in each room as I requested and they also had to deal with the awful unloading area my body corporate had designated, and they did it

with a smile. Thank you so much!

Junior, Dalino and Jessica were amazing! Really quick and efficient service and extremely friendly. Would highly recommend

Great experience with Ready Movers - from the first point of contact, Anthony, in the Brisbane office - he was very helpful, explained everything well, through to Kelly in accounts - she was very prompt with my invoice and payment. The removalists, Aaron and Zed were fantastic! Great attitudes, friendly service, efficient, and really took care of my goods loading them on the truck. Would highly recommend this service in Cairns!

Shane and Philemon were the consummate professionals, hard working and friendly

Five stars with this company being extremely accommodating and flexible to multiple barriers with relocating my belongings. Ready Movers assisted with a move between a cyclone and catastrophic flooding, and despite a backlog of work due to the significant weather issues, they brought in more staff to help with the move and it went as well as could be expected under such difficult circumstances.

These two legends made the moving process really easy. Very professional and speedy. Thanks heaps guys!

Professional service awesome staff. Massive thank you to Russell and Zed. ??? Fabulous communication

Gabriel Mezini Jeff

These guys were fabulous. The team Darren, Jonny and Alex did a great job. Highly recommend

Aaron and Pete were careful and thoughtful with my possessions. Travis communicated well when there was a delay

I am very grateful for Lucas and Rafael they were on time, very careful with my furniture, efficient and very friendly. Moving is never any fun but they made the whole experience effortless. Thank you boys it was a pleasure ??

Ed, Marcelo what an amazing job looking after our family and belongings. Highly recommended they will look after you. They are units! Josh

Gabriel, Vinicius & Bruno did a fantastic job with our removal today!!

Cameron and Daniel certainly earned their money for this move, having to move an entire household's worth up 4 flights of stairs while contending with lots of intermittent rain. My only complaint is that they left behind a couple of massive boxes (not mine) from their truck at my old place. Would definitely recommend Ready Movers to anyone.

Hi, Over all the move was okay. A few things, neither TV was packed in a TV removal box. I believe I was charged for 2 boxes. A few things broken, think that is to be expected. The pick up crew, nice enough guys. The stickers placed on each item should be placed in a less obvious place. The delivery crew, lovely young guys. Found communication very poor, between office staff. Pick up crew unaware of several things they should have been aware of. Thanks for moving my belongings. Lynne

The Ready Movers team in Brisbane was very professional and helpful. Whenever I had questions they made sure to answer me and reply to my emails quickly. They made me feel confident that my items would be

delivered safely. The Palmers Relocations team that delivered my items in Melbourne were very friendly and willing to help.

Was over charged and the crew were lazy towards the end (was a long day) by not putting boxes in correct rooms. Broken mirror and glass ware which happens i guess.

The office and removal staff were good to deal with, however I did confirm with the blokes doing all the heavy lifting that i wasn't required to assist or hang around, I did ask the blokes to lock up after they had finished, they must have forgot because I went back the next afternoon and every light was on and every door was open including the front door. Wasn't happy about that so I rang the Operations Manager and he said he will talk to the blokes about it. Won't be using these guys again if I move in the future

We moved 30 Sep. 2023 The service Michael and Russell provided was amazing. Very punctual, professional, fast, friendly, careful and efficient. The best removalist we have ever experienced. Thank you for yor brilliant service. Angele & Perry Kewarra Beach QLD

Good if you are not in a hurry for your furniture/cartons. However their lack of communication from the office/operations manager is somewhat poor. I had a scheduled delivery for 17/12/20 which I had been waiting for communication on and received none. When I rang the office I was told the container my gear was on had been delayed. (I was notified container was going to Brisbane on 27/12/20) then was informed it would be delivered on 28/12/20 between 11 and 2. I had to ring 4 times to get a revised delivery time of 5.30pm. The drivers were lovely and stated they had notified the office when delayed but this was not communicated to us. What a long day of waiting when a courtesy call could have resolved this. Very disappointing!

Generally, well done! Overall, the men rang ahead to check location as some needed specific directions and if

home. In view of the number of legs and different dates for uplift and delivery the entire job I rate as fair. However, there were a few anomalies. They are as follows: 1, Delivery on the wrong day after special arrangements were made with the people at the delivery point. 2. Some delivery points were the wrong location. 3. As most drivers were of ethnic backgrounds, hence there was a language barrier, particularly over the phone. The exception was an Australian crew on the final delivery to our home ex-uplift from our storage unit.

DO NOT BOOK!!!! The worst removalist's - took over 6 hours to move a small 2 bed unit and cost over \$1000 - one of the movers was so slow and constipated (spent lots of time in my toilet while I moved items) - I complained to managers twice on the day and after numerous complaints from me and the other mover they sent another person to help - no love for my items - just dumped and then they even had the nerve to tell me how lucky I was to have 3 of them move my things!!! My review - STAY CLEAR - WORST EVER!!! No follow up with me - but email asking for a great google review....

Removalists themselves were top notch, however one of our boxes wasn't delivered and a fridge door was damaged in transit. Pointed this out to them on delivery advised I'd hear back from the office. Heard nothing a week later so I emailed, its now been three weeks since that and numerous phone calls with no response. Not too fussed about the door, I understand things move in transit. However to lose one of our boxes with personal belongings and not so much as to hear back or we're looking for it is very slack.

Damaged and missing items. Avoid at all cost.

Very poor experience I've never paid that much ever before! Never paid more than \$250 to move some basic bulk items! Offsider was basically useless walking around like a deer in head lights and had to be told just to take down minimal things to the truck! Bickering the whole time! Took my door off to get furniture out when previous guys didn't have to put my door back on with 2 screws out of 6 and wondered why it wouldn't close when we tried to leave. Had to call in someone else for fear it would take another 2 hours for them to unload!!! We unloaded in half hour, go figure! Contacted manager never bothered to get back to me. Were over an hour late and still had to pay half hour travel time??? Non professional NEVER AGAIN

Do not recommend at all. Nothing but deserve zero star. We had such bad experience. Not only my bed was broken, fridge was scratched, outdoor umbrella stand broken, sons bed stand damaged and broken, tall boy has a big dent. Not only that but my marble table also has a chip on one side. Called to discuss the damage and had to talk to 10 different people to solve the issue. I was then accused of making false claims. Was told that the broken bed which was left outside unsafe is not on my sons way in spite telling them many times, that I walked onto it and my son also banged on head on the bed legs. Pathetic customer service as it seems like the staffs are ready to fight over the phone. And yes, they do charge an arm and a leg.

The removalist in Townsville damaged both items and property, we refused to check the boxes on their tablet that say there was no damaged caused, only to later find out they checked it themselves after they left. When placing a claim to fix the holes in walls and damage to floor boards, they refused responsibility and say we did not note any damages (we had no options given to note anything) instead we verbally told them which they agreed and obviously later denied. After the removals we returned to our previous property to clean the rental, only to find they had not even packed everything and they were several rooms with draws full of our property. They hired random helpers, I presume backpacker's as they did not speak English most of the time, these guys dropped cabinets, picked our front loader up by the door (open) which now no longer works. I am completely

disappointed with their conduct and lack of professionalism. If the property damage does not get fixed soon, legal action will be taken.

What a terrible experience! Firstly , we were told they would turn up between 9 and 11 am. A small truck turned up at 1pm and two lovely men started loading up. I then got a very confusing call saying they had sent the wrong truck and a larger truck was on its way. They unloaded the truck and drove off and at 1.30pm the larger truck arrived. Unfortunately the lovely men left and we then had two very slow workers packing the truck. Considering we were paying more because 'December is peak season', we thought they would spend more time moving furniture and boxes than standing around asking what was next and checking their phones. To make matters worse, the lack of care with the boxes, including those marked fragile, was terrible. We watched as they squashed boxes, dropped them and work without care. Several items have been broken or crushed. There were also gouges taken out of the walls, which we had to patch up and repaint over. We will never use, nor recommend this company again. For \$250/hr for a mid-week move, their service and care taken was terrible.

Feel really RIPPED OFF by this company! They moved my furniture into storage earlier this year and all went well, so booked them to move my stuff again last week. They sent a tiny truck because the woman I booked with noted I had a one bedroom apartment sized load firstly, she didn't even ask me what size I had (because I would've told her it was definitely bigger than that!), and secondly, they moved me to that place originally so they knew I needed a bigger truck previously. The first time, it took them two hours all up to load and unload my furniture - this time it took over 5 hours!! It took so long because they spent so much time trying to Tetris all my stuff into their undersized truck! They also brought two huge TV boxes I didn't need, probably from the previous move before mine, but they had to fit that in as well. I ended up having to load some of my stuff in my car and have my son throw other stuff out because it simply did not fit. Will definitely avoid in future!

**Website: [www.muval.com.au](http://www.muval.com.au)**

Obscenely over priced and took 4 hrs to do a single suburb move with most of the furniture already down stairs. Workers also took breaks during move and damaged furniture. Avoid this scam

They delivered my fridge broken. I put in a complaint and was told i should have gotten insurance. Please don't use this company unless you get insurance. They can't do their job.

Was beyond disappointed. 2 of our dining room chairs were broken during the move as well as a full length mirror. While they were unloading at my house, one of them hit my car when they were leaving. Felt like they just did not care. Would not recommend.

Absolutely fantastic service from Sebastian and his team. Quick and friendly and careful.

I need to say a huge thankyou to Kilani and Abdul !!!! These men were not only very professional but there attitude was also very positive. None of my furniture was damaged !!!! They treated my furniture like it was there own .

Moved Brisbane to Sydney, Dani and Andy did a great job, was a steep driveway and loads of stairs, nothing was too hard for these guys. They packed everything with care, everything safe and sound when it arrived in Sydney. Would recommend to anyone.

Great service. Fantastic attention to detail and very friendly team. Definitely recommend.

Quick, Easy and Professional. Our move from the Gold Coast to Sydney was flawless. George and Maz were amazing. Great communication, outstanding care taken with all of our items, friendly and service second to none. Couldn't and asked for a smoother move. Wouldn't hesitate to move with Quick and Easy again. 10/10

George and Khaled were great help. Very efficient and careful with our furniture

Very impressed. Reasonably priced. Moved 3 bedroom house from Sydney to Bathurst. Our 2 removalists' truck Tetris skills were amazing!

We moved from Melbourne to Sydney a few days ago. Fay was wonderful prompt and a great communicator. I appreciate the excellent work from Fouad and Fadi. They worked so hard and did a fantastic job, making our interstate move easy. Thank you.

I've used quick and easy for 3 moves now and every experience has been great. I've moved all over Sydney and each time the removalists have been punctual, helpful and friendly. Today we were hit with a lot of trouble with the lift in our old building but Rimon did a great job working around everything and the job was done as quickly and carefully as possible. Because we're only at our new place temporarily I'll be happy to use quick and easy later in the year when we have to move again.

11/10! Thank you Sebastian & Sam! ? Easy to book, polite people ? Driver was on time & kept updating upon approach as requested by me ? I had 3 pick up destinations to load & drop off & they were smooth throughout (calm during city traffic & found the quickest route) ? VERY funny guys. We had a lot of fun with Seb & Sam :) Would definitely use Quick & Easy again in the future!!

Dane from Quick & Easy Removals helped me move swiftly and easily. The customer service and care was absolutely great and he takes a lot of pride in his work. Highly recommend them??

George & Ramez did a marvelous job moving both my son and daughters things from the gold coast to Sydney! Great service and would use again!! Thanks guys

Madeline took my booking, Mark and his colleague arrived at the stated time and cordially carried out the removal expertly and professionally . They company offered the best quote by far for my move and I'm totally satisfied with the service I received from Madeline, Mark and his colleague.

I organised a small load to be moved for my daughter from Sydney to Melbourne. Melinda in the office was professional, efficient and personable, alleviating any doubt, as I had randomly picked this company online. My daughter was very impressed with the two men, they contacted her to organise a suitable time, as there was a time constraint on the day for my daughter, were efficient in removing her items. They contacted me nearer the delivery time, were efficient and polite. Low cost, excellent service. I would highly recommend this company and would certainly use their service again. Teresa

Khaled & George were absolutely fabulous in looking after my removals. I would highly recommend them.

Used Quick and Easy for a big house move from Epping to just outside Sydney. Guys arrived early, were friendly and super efficient. Packed up our large house in about an hour. Highly recommend for a trouble free move!

Imad (Alex) and Abdul did a great job moving us yesterday in the rain, which was pouring down at times. Thanks alot guys for a job well done!

I have moved twice with Quick and Easy in the past 2.5 years. I highly recommend this organisation. They are reliable all the way from when you make your booking and their fees for service are very reasonable.

I am moving soon. Very friendly and helpful staff. Especially Jihan. Taking care of all my needs. Personal touch. Treated like family

Ive moved with various companies but quick & easy are just as the name suggests. Booking was smooth and the workers Sebastian & Sam were young & energetic. Did the job in under 3 hours!! They were careful with my belongings and didn't complain once about the 6 flights of stairs! (3 pick up 3 drop off) Definitely would recommend this company and ask for Sebastian and Sam for a good smooth polite job. Well done.

George and Khaled did a great job. Very efficient and professional!!

Ronny truck driver very efficient boys for any occasion

Our move from Castle Hill to Baulkham Hills. Amazing service provided by Dani and Mark. They were excellent removalist. Move was very fast and efficient. No damage to furniture or any other white goods. Always smiling and very friendly. Will recommend them to anyone to use. Ensure to ask for Dani n Mark when booking with Quick and Easy Removalist . Thank you so much Dani n Mark, really appreciate your kind assistance. Thank You.

Danny and Andy moved my house interstate. The guys were on time, professional and very friendly. Really took the stress out of the whole move. Highly recommend these guys!

Khalid and Goerge have been of great help. Well done

BEST REMOVALIST EVER!!! Thank you !! ??

Quick & Easy Removalist were definitely Quick and they made a complicted move easy. We had to have a portion in storage and a portion packed and moved to a rental. Then on 6 months both lots were effortlessly

transferred interstate. They listened to us about our fragile items and took great care covering our wooden items with padded covers. Our surfboards were packed the way we instructed and all arrived safely. A wonderful bunch of people to deal with who were polite and respectful and nothing too much trouble. Highly recommended.

Frank and Chris were great. They arrived on time and were very friendly. My packages were handled well and I was able to move in the my new place easily.

Dani and Andy did a great job moving us from Sydney to Brisbane! Great price and were very accommodating in terms of pick up and drop off. The boys got the most out of the space and took great care of our belongings. Will be recommending to friends and family. Thanks again guys !!

These guys were so great! I think I spoke to Fay over the phone originally to organise everything and she was super friendly and lovely. The guys did such a great job- I didn't realise they would wrap all my furniture, which was a huge plus because it was going into storage. They really took care of everything and looked after my belongings, and took a lot of care not damage anything. This whole team took so much stress out of my moving day, which can be such a stressful process sometimes. Thanks so much!!!

Awsome customer service and very cost effective, Michael and his offside did an amazing job, highly recommended

Aboud and Sam did a wonderful job. On time, all stuff was neatly packed and very careful with the handling. Well done. Highly recommended.

I had George & Khaled from Quick & Easy removals booked in this morning to help move my furniture &

belongings into storage. The guys were on time, very friendly & efficient. The job was completed sooner than I expected which was great. I Would definitely recommend George & Khaled from Quick & Easy for anyone looking for a removals service in Sydney.

Highly recommend quick & easy. The communication was great from top to bottom. Booking process was so simple. Truck was on time and both Sebastian and Lawrence were fantastic and move quickly to get everything out of the unit. Relocation made easy! - Christina

George and Ash is a nice two guys who are the best young removalist. They are the guys that we can recommended to anyone. Fast and quick and very engertic . And they are very very friendly. Keep up the good work guys and will definitely contact you George in our future movers.Thanks you. Sean and Milani

I don't normally write reviews, but I needed them when I selected Quick and Easy Removals - and boy was I happy with their services! It all started with the amazing Melinda in the office, who supported me all the way through a very stressful move from the Mid North Coast of NSW to Adelaide. She answered every question promptly, gave me realistic answers every time, and generally put my mind at ease throughout the whole process. Maz and his brother were prompt, and worked amazingly hard to lift what was a very heavy and big load - everything was treated carefully and with respect, and solutions to tricky items were offered at all times. I was absolutely impressed with this mob - be straight with them and you'll get spot-on service all the way.  
Service: Interstate moving

Khalid and George were absolutely fantastic. They moved everything carefully and seamlessly. They were patient and very professional. I do recommend them.

Very happy with everything today for my move. They were on time and very fast. Polite men. Have used this company before and will again.

Third time have used this company for interstate removals. Each time has been GREAT, Admin staff in the office are always helpful. Especially Faye. Removals crew arrive on time at pickup and drop off points. Kept us informed about where they were and when they would arrive. Crew was extremely efficient in packing and unpacking the truck. Also our goods arrived in good condition, no damage. Truck crew were efficient and polite. Would highly recommend Quick & Easy to everybody. Peter Bennett.

George and Dani were 5 star. Took time to take care all important items and packed well. Haven't seen any damages you usually experience in a move. Would highly recommend.

Dani & Steve, Thank you for your assistance in our interstate move, Highly recommend. Thanks again, Marco & Emma.

Very professional and fast. Sebastian and Lawrence moved everything into the apartment within 45 minutes of arriving. They accidentally left a small dent in the wall, but came back and rectified it quickly. Will hire them again

I hired George and Khaled Team from Quick & Easy Removals to move me from a huge six bedroom home this week. I must say these guys were the best removalists I've ever encountered and I highly recommend you consider hiring them for your next move. They were very friendly and helpful. They did everything I asked of

them. I had a lot of boxes and heavy furniture and there wasn't anything they couldn't accomplish. You guys were amazing and I will definitely be hiring you for my next move. Thank you George and Khaled Team.  
???????

Highly recommended. Great rates was the starting point, but what really won us over was the professionalism and care of the two young men that came. Simon and Alberon were fantastic!! Courteous, careful and hard working. Simon, as the lead, particularly impressed us with his great leadership skills and intelligent organisation during the entire move. Thank you too to Fay in the office who was really listening to our needs and responding with the ideal solution for us.

Frank and Chris were great with my move today, second move with the quick and easy team, will continue to use and recommend in future.

Good job by Dani and Andy. Moving my stuff from Brisbane to Sydney-Well packaged. Highly recommended for anybody moving.

Our movers worked their guts out and did an amazing job with our move from Sydney to the Central Coast. Always professional, nothing was too hard, and they were friendly throughout the 12 hour day! I hope we never have to move again, but if we do Quick and Easy will be our first choice!

My removalist cancelled on the day of the move, I called quick and easy and they were there in 3 hours helping me move. Highly professional and friendly.

Frank and Chris had to deliver a lounge to my parents place, and remove an old lounge to the street. Not only were they highly efficient, they contacted me well before arrival, were particularly careful with the furniture

and were the friendliest and most courteous guys one could ask for. I had not heard of Quick & Easy Removals before, but I can tell you, I will be recommending them to all my friends and family. I certainly won't go anywhere else. Frank, Chris, thank you for a superb job. Chris J

Amazing work by the team moving a 1BR with less than 24 hours notice and nothing was damaged at all due to the care taken. I could not recommend these guys enough. Don't look elsewhere!!

Really helpful and understanding. Manwel & Sebastian were so great!

I would never use any other movers than Quick and Easy, who I've turned to four times since 2012. Ive just had Maz and Ash move me from Sydney to Melbourne, while my partner is overseas. Every time I use Q&E has been fantastic, and this time, Maz and Ash took it to another level. Maz is like Doctor Who - an affable, friendly magician who can pack a truck (or maybe his Tardis) in a way that makes your belongings fit neatly into the tiniest space. It's quite the talent and Im still amazed. It meant all my items were snug and protected for the long journey. Together, Maz and Ash completed my pick-up and drop-off in half the time I expected. Not a thing was worse for wear in any way. They helped to take apart my digital piano as they recognised how fragile it was (when I wasn't aware) and put it back together. They brought their own tools. They were kind and quiet and very professional - even more so during those tricky moments with the heaviest items when I was most anxious. I wish them both the very best - fantastic people. Thank you both!

Positive: Value Raf and Sam arrived on time and worked hard all day. They were very professional and went out of their way to get me into my new apartment before dark. They were careful with everything I packed and nothing was broken or damaged in the process. Thanks Raf and Sam - you were amazing ?? Service: Local

moving

These guys are so wonderful! Quoting/booking was easy, communication was great. Sebastian + team arrived on time, got everything loaded/unloaded quickly, it all arrived safely and they were lovely to deal with. Couldn't be happier with the service!

Great service, strong guys. Helped me moved greatly. No issues either side and took care of my items. Thanks  
Maz

Michael and Sam are professional and organized. They took our things from NSW around 9-10am and arrived at QLD at 6am. So impressed the way this people took care of our things. Got worried as the last time we moved, got us so stressed. Quick and Easy is so lucky with people like Michael and Sam. Big thanks to you guys. 100% recommendable.

Dani and steve were very friendly and fast. We had our stuff moved from Sydney to Melbourne. They were on time and sends message 30 minutes before they pick up and deliver. Very efficient removalist company.

Awesome service. Very reliable. Would definitely recommend

We used these guys to move our 2 bed apartment furniture. They showed up on time, were friendly and efficient. There were two flights of stairs and they made it look easy. They were very professional and packed the truck like absolute legends, fitting everything in. They were careful with our stuff and used blankets to pad things up and strapped things inside the truck to keep them from moving and getting damaged. They did the

whole job in two hours with a little help from us carrying the light furniture. I would definitely recommend them, we were very impressed!

I booked a removalists service with Quick and Easy. Fay was a star at organising everything and very responsive to phone and email communication. The two removalists, Tyson and Moey, were very fast, hard working, and careful when moving furniture. Thank you.

Khaled and George were sensational today!!!! Professional and friendly. Do yourself a favour and book these guys if you want a smooth move ??

We booked in Quick&Easy removals for our client over 2 days. Unfortunately our client failed to tell us more than 24hrs that they had already packed and moved! Q&E guys turned up on time to the site and ready to go only to be told rudely to leave by the client. Charlie and the guys at quick&easy removals handled this situation so professionally. I thank them for their understanding and highly recommend the team!

Thank you Quick and Easy Removals for choosing Moveware as the software provider. You have been our long term client since 2015. It is easy to work with you. We really appreciate your business, support and feedback, and truly value you as a customer.

I found Q&E removals to be very professional removalists. I have moved about 25 times in my life and used a lot of different removalists some good, some bad!! Daniel and Mahmoud were very polite and professional. They had no trouble with lifting and moving my belongings from a storage unit safely into my new flat. They did 5 flights of stairs, with no trouble, amazing. I had no hidden extra charges and no damages and no charges to and from depot!! This is rare!!! Thanks guys for getting my stuff safely into my new flat.

Khaled and George made my house move so much easier They we're curious and polite and nothing was too much trouble I would highly recommend them for your next move

Affordable, got the job done - was a pretty hard move and some of our stuff was quite bulky & heavy. They were late by a few hours however the guys were friendly and relatively quick to load the van. An appliance did break however they organised someone to come out, his name was Vee and he was amazing! It's all fixed now and couldn't be happier, his customer service was also awesome. Overall good company for your move with some slight hiccups.

My daughter's experience of moving from Brisbane to Sydney was very good using this company. The price was good for the service and care of property received. Happy to recommend. ??

This was originally a negative feed back but I was contacted by the managing director Ayman and he rectified the matter within an hour the office were the best experience as they were always trying to help.

I booked on 1st September for removalist from a storage unit to my house. I read the reviews and many 5 stars which was the reason why I have picked Q & E. I'm extremely disappointed. Not only my removalist turned up late more than an hour instead at 8am as I was waiting at the storage, they took 4 hours to pack from storage to the truck. Then arriving at the destination after 2pm, then made me and my whole family helped

with carrying things inside the house. That took another 1.5 hours. I had plans to have the items carried to each room but given everything took over 7 hours already, I had to drop everything in my garage instead. To date I'm still unpacking. I never want to use you guys again. I usually don't complain but I had to this time. I paid nearly \$900 for very little service.

Neither Quick nor Easy!!!! In fact, super slow and rude. Stay away from this company. They are an absolute rip off and when I complained, no formal apologies were made. They didn't fill the elevator once they realized I don't have much stuff just to increase the time. Each time, they wait inside the truck for a few minutes to rest. They even talked to strangers on the way without respecting my time. When I objected the guy raised his voice and almost bullied me such that I was close to calling the police. I called their manager but that behaviour was only corrected when it was time for payment. I would have been better hiring a van and moving myself.

AVOID AT ALL COST. MANY BETTER REMOVAL companies. You need to check everything before placing a delivery order. You do not get what you think. Not a pleasant experience

Very poor business model.

Very poor service. Kept saying that the job will take longer time and cost more. I had to move most of the stuff myself. I was moving to place at literally 1 minute drive. The removalists wasted a lot of time and were very slow. This company should be named Stubborn and Lazy Removals!

This company sent 3 men and they bullied me into paying an extra \$600 cash saying I had too much stuff. I

did not have too much and had paid a lot for the move. The manager says the men denied everything and with no receipt for the cash paid I am out of pocket! BEWARE OF THIS COMPANY

the guys moved very slow, they took their time that i even helped them to move my things, the guy even said to me, "if you want it to be quicker, go help take a few stuff as well". the stuff to move was only for 1 person and i didnt have any furnitures, yet it took 2 hours and 30 mins to move all stuff!! when there was no parking in front of us, the guys said they'll park their truck in the street and added, "we will doublepark and you pay for the fee if we get caught" wherein fact there were parking spots just right across us. the minimum booking is for 2hrs, and they went over for 15 minutes (intentionally!) to already charge you the 30minutes fee. i went to this company as they were referred to me, but im extremely disappointed! never again!

The worst removalists ever, don't even contemplate using them. Quote you based on your m3 load then come up with greater m3 amount based on some non mathematical markings on the inside of the truck! Don't use them!!

If I had only one word to describe the move it would be DIASTROUS. The list we sent to Q & E Removals for truck size calculations somehow ended up with another truck being required and double the price. Removalist in second truck was so abrupt and delivered incorrect boxes to all rooms. They didn't care that I wouldn't be able to move these in the next coming days as they knew my husband was required to travel for work. Almost all of our furniture had damage from chips to broken backs on book cases. Fay was quite the saleswoman and had us confident of a successful and seamless move. Would never recommend this company after all this drama and to compound the physical and emotional day they insisted on cash payment on arrival after initial deposit paid to their office in Sydney.

Absolutely unprofessional business. Damaged my items, and did not act as a serious business when contacted

about said damage. I am appalled at the service. Called me at 5.30 SHARP on the minute to have me pay for their service, then when I contacted about the damage to my furniture, I was ignored for 10 days. Only for them to come back and say they won't do anything because I did not buy extra insurance. Fortunately for us, there's lots of consumer rights and consumer guarantees which will not let unserious businesses like this fly. Don't book with them unless you want to deal with an unAustralian attitude and service. C - grade company with C - grade customer service.

Interstate move sydney to noosa Worst move ever! The head guy spoke on his phone ear piece the whole time practically. While the other spoke to him the whole time in between not in English. They arranged us and another company involved in the move (Mark & Jason at NOOSA VAN Line I highly recommend) to be there at 8am and didn't arrive until the 1.5 hours. We got charged for the other companies time for 1.5 hours and had to pay in advance for Q&E for their time and later were charged for the 1.5 hours the other company sat there with there ferry vehicle and labourers Lost so many valuable items not through accidental damage but negligence and lack of professional care and service. I watch a very large antique mirror that had made the multiple trips from Home to storage to here fall right behind the Removalist who had simply moved something from in front of it in the ferry vehicle. It smashed and is irreplaceable as a one off. They hadn't even it was supported and I had it wrapped in a blanket , newspaper and cardboard box. Many boxes marked fragile were badly beaten up almost collapsed as I saw men heavy handling those. We lost 6 lamp shades as they were crumbled and even hard (not fabric) shell ones were smashed. A concrete umbrella stand was broken a whole 1/3Rd off it. A jewellery cabinet was delivered upside down!! and many items were damaged beyond repair. We have asked for compensation of only the mirror as I saw it fall behind there Removalist due to his lack of care. And for the other companies time. No refund has been offered just excuses despite going to the department of fair trading. I will let the furniture Removalist association know too and encourage all to let both departments and associations know and if you are thinking of using them don't! They don't care. Just greedy. Quick & Greedy/Quick & Dodgy should be there name. You have been warned. The cost of our move

was about \$5000 to move us out and \$5800 to move us in and storage for a few months so I estimate we spent \$15,000 and only claimed about \$800 back. I WILL NEVER EVER USE AGAIN!!

We moved a week ago and we are still dealing with the consequences of this seriously poor job. The two were polite so in that way there was no issues. The biggest issue was the way things were literally plonked in the doorway of every room. Then everything thrown on top. Even the balcony was the same. They pulled apart all the hoses of the washing machine and we had to get replacement bits. Nothing was placed on a wall but in the doorways. The prices for this service reflects a quality operator, they were not! One of the gentleman working was not able to speak or read English he could not understand my husband. He was putting everything anywhere. When asked not to he didn't understand. While we contacted them once I came and saw the state of the unit, they firmly put the blame on us as my husband had paid them. I could never recommend this company. I know others, including a friend who recommended them to me, have had good experiences but this was very poor and I would avoid them it's not worth the risk. They offered to send someone out for an hour to help repack. I spent nearly 6 hours myself rearranging it. Poor service, over priced, avoid.

Used them for the 2nd time last month. First time was slow but good service. This time they took the mickey, taking seven hours to move a simple one bedroom apartment from the second floor to a ground floor house only 3 blocks away. A LITERAL three blocks..! Cost a little under \$3k because they took 7.5 HOURS to do this 90 min job. A lot of breaks, a lot of chatting, a lot of not-caring for the customer. Also a fair bit of damage to the furniture because they used our sticky tape, rather than their own packing tape.

Organised a relocate with Michael Marvin - a team member, from Brisbane to Sydney. Prior to moving he tried to sell me insurance on my goods, I expected an easy transition and thought insurance would only be applicable in the unlikely event of crash/act of God. Frustrated, Michael asked my partner that this would be a great idea and to consider it 'darling'. Fast-forward to today, we've unpacked the lounge and there is a piece

missing from our custom leather modular set that was bubble-wrapped and clearly marked with my details. The attitude was certainly felt upon arrival. What I thought would be honest work resulted in up-selling unwanted premiums, retaliation, and greed. Very disappointed, steer well-clear of theft.

Fay is very pushy. I found a cheaper movers that have 1000's of 4 and 5 star reviews. I would of gone with quick and easy but Fay doing the hard sell. I just wanted a quote while I was still trying to work out where I'm moving to, but fay, wow, pushing hard to get that deposit from me and turns out Fay is the reason I went and found AAA city movers. Thanks Fay if not for you I would not of found such a good deal with AAA. DON'T BOTHER CALLING ME OR EMAILING ME ANYMORE YOU LOST MY BUSINESS SO DEAL WITH IT! Edit response to owners reply: Lets play the tape for everyone then if your saying I'm a liar!

Used them to move house 10 min away which took 7 hours to load and unload 1x truckload. This was with me doing alot of the moving as one of the two removal guys "Alex" was constantly taking 10 min breaks and did not leave the truck spending a lot of time on the phone. despite turning up 5 min late "Alex" tried to charge for an extra half hour as his phone showed 2 min over when the actual time was 3 min under. Most disappointed at the lack of honesty, integrity and would not use again! Services: Local moving , In-state moving

THESE GUYS ARE DODGY OPERATORS. They have a great sales pitch. Told us how their compliant and how they take care of office equipment. no word about purchasing extra insurance until after the deposit was paid. They used a contractor which consisted of a guy with two kids. A staff member spotted them dropping 3 cartons off the back of the truck. They smashed a screen, and broke the legs on one of our desks. The removalists lied to the employer about how our screens were left left for them to move and took no responsibility for the damage. (We sent before and after photos of the damage.) Removalist said that I signed off on the job and insinuated that I should have made them wait until all the equipment was setup before we signed off. spoke to the dodgy sales person who informed me that he would have a solution for me as he had

to lodge a report. a week later sent an email stating that it wasn't their fault and it was bad luck that we hadn't taken out the extra insurance. I assume if you run a removal business, that you'd have insurance for situations alike. So we pay for extra insurance against to cover their staff for mistreating our property? No duty of care, blatant disregard of property , terrible customer service. CANT BE TRUSTED.

I would not recommend this company to anyone after what I have experienced. If you still must use these people here some things to look out for. Make sure all the communications are in written format. They are quick to ring you and offer lower price or discounts over the phone but then will go back on their words. When you dispute things promised over the phone, they are quick to threaten you about them recording their phone calls but when you ask for the recordings, they will say the system is currently not working. They will also hang up on you mid-phone conversation, if they realize they are at a disadvantage. Once you have paid you deposit, they may also mention hidden cost that were not previously mentioned. Make sure you keep record of movers arrival and leaving time, and get them to acknowledge this time before they leave your property, when they come to load your belonging as they will over charge the hourly rate by 2 hours in my case. Also keep a close eye on the rate at they are working as they took nearly to 4 hours to load a 23 m3 into a truck. I have to say, the only positive experience I got from my stressful interstate move was the people (Dani and Steve) who delivered and unloaded the truck. They were friendly and efficient.

Don't be fooled by the name quick and easy. They are definitely not that, they are incredibly slow. Do not use this company. There is only 2 of us and we moved from a 3 bedroom townhouse into a 2 bedroom place, which was a 3 minute drive between the two places and for some reason it took them 20 minutes to complete a 3 minute journey. It took them over 10.5 hours to complete the move. The head guy was talking to someone on the phone the whole time and not in English. He was taking his time like he was on a holiday. Keep an eye on them, they take extended breaks at the back of their truck doing nothing but clocking up the hours so that they can make money off you. I should have read the reviews before I booked. They lack integrity and don't

do the right thing by the customer. When I complained they said that one hurt he hand doing the move, when in fact he turned up to the job with a bandaged hand. When I told them I will be giving them a bad review they offered \$250 compensation to ensure I don't write a bad review, I didn't accept their hush money, I felt it was more important to inform potential customers of what may happen to them. The worst customer experience ever !

It wasn't quick, wasn't easy. They use contractors. The one I got finished a 4 hour job in 7.5 hours. Don't be tempted by their low prices. Hire a more expensive one for a fixed price, it will turn out cheaper. I had lazy amateurs with my removals job who were professional time wasters. At every obstacle they were calling their managers. They didn't know how to manoeuvre a fridge and when I gave them suggestions, they called their manager who yelled at me for having a narrow hall. Then he threatened me that he would dump everything into my garage and leave. The people at the central office were kind. Use them at your own risk and upsize if necessary. If you end up hiring them, then mention this review and ask them to make sure you don't get the same contractors as I did.

**BAD BAD BAD**

We must be the exception to the rule: our stuff did not fit on the vehicle provided. Time pressure meant we landed up with 3x desks, 5x chairs, 2x beds and a heap of other quite useable items on the sidewalk for council

pick up. In addition, other bits and pieces of furniture that got disassembled and lost by Q&E to try make more things fit, added a trampoline (missing springs), book case (missing shelves) and a tv (now don't have a stand) to the tally of lost and left furniture. The team that moved our stuff lost their ability to understand English in the 24hrs it took to deliver and consequently left ALL 100 odd boxes in the garage as they 'could not understand' our instructions or read what was written on the boxes. The response from Q&E was disappointing. **WORST MOVE EVER (We've moved a bit in our time.) AT YOUR OWN PERIL**

Extremely bad service would not recommend.

Rami and Ali from Zoom Removalists were incredible, helpful, and also lovely to chat with.

Excellent work by Lorence and the boys, very friendly and professional!

Dani polus Did a good job and worked fast. Did the stairs well

We had Lawrence and Alex help us move. They were great, worked at a very good pace whilst being careful with our stuff and both houses. They communicated well and impressed us with getting stuff up and down stairs. Thanks heaps again guys!

Rami and Sarmed were very helpful and quick moving a whole house worth of stuff. Would highly recommend!

Recently my picky employer has passed me this contact for the Zoom Removalists Sydney, saying "These guys will surely help you." Indeed, they did! Today, after 1 week of settling in, without my raw emotions, I

am still convinced that the Zoom Removalist team with Dani's supervision is the best, honest, true blue, Aussie -standard, stress-free moving experience. Being a seamstress, my main concern was my new expensive industrial sewing machine. I was amazed that the machine hasn't even spilled any oil arrival! All my furniture came to my new home unscratched, being well-wrapped and transported as if their own. I sincerely believe that Dani and his team are the top professionals in this business: they are just calm, polite, friendly, great communicators, very skillful and strong. These professionals made my removal easy, memorable and pleasant. When I couldn't think where to place some piece of the furniture at the new place, Dani has given me a few helpful tips. Being observant and practical, Dani even noticed and pointed at the condition of the floor (which I didn't). My washing machine got connected and functions well. My stone bench with the crack in it wasn't broken but Dani honestly assessed it beforehand, explaining the logistics of transportation with particular pieces. After the 6.30 hour experience I just couldn't help myself asking about these people's backgrounds as I could see the dignity, trust, reliability, quality just built in them. I would of like to hire such professionals for all the jobs needed. Dani and the team: a huge sincere thank you! Your contacts are for keeps and to pass to friends, family and who needs a great Aussie standard service. If you have any questions, I am happy to chat. This was written sincerely.

Laurence and Sam did a great job! They were careful, professional and speedy. This was my second time using Zoom and the second time Ive been impressed with their service.

Lorance and Sam were fantastic. Job well done and on time. Will definitely be recommending to family and friends. Great company every step of the way.

I had Mohammad and Uday do my move from an apartment in Sydney to a house in Newcastle. They were very friendly and worked hard to get the move done in one day. Thankfully they brought the big truck which was a great call because my stuff wouldn't have fit in a smaller truck. They worked hard from 9am to 730pm. I

would recommend this company based on my experience.

Moey and team did a fantastic job. Great team efficient, polite, and timely. Well done guys!

Rami and Sarmet were absolutely amazing Highly recommend both gentlemen

Lawrence and Sam were amazing and kind very efficient.

Alex and Lawrence were our removalist team and were an absolute pleasure to be around. They took top care of our possessions and took the time to ensure the safe arrival at our destination. Due to a steep driveway the unloading needed to be done from the street but there were no issues. Mention also to Chantel and Jade for the ease in booking and follow-up - thank you. Was hoping I had picked the right removalists as it was a choice between 2 companies - and price-wise I also made the right choice.

Alex and lorans did a brilliant job, very happy

Had the best experience with zoom removalists. The two removalists, Lorence and Larcen were absolute legends! Arrived bang on time, such nice friendly guys, hard working..nothing was too difficult! Everything was moved smoothly with no damage. Would 100% recommend!

Great service and communication, the guys who moved my things were on time, respectful, careful and nothing was a problem for them. From quote to job completion was super easy. Very happy customer!

I had a great experience with Zoom Removals from the time of booking to the end of the move. The booking process was easy and clear, and I received a confirmation call a few days before the move. On the day itself, I had an afternoon booking and was given a window for arrival between 11am-4pm. My removalists rang half

an hour before they arrived to let me know they were on their way, and they completed the job in less time than I anticipated. I was amazed how quickly they managed to move my large sofa up a steep flight of stairs into the new place. Choosing a removalist can be overwhelming, but overall this was one of the least stressful parts of moving and I would highly recommend.

We had Zoom Removals Robin and Dani carry out our move last week. They were extremely professional. Very careful with packing and handling, quick and affordable. I would recommend them to anyone requiring Removalists.

Excellent service provided by Lawrence and Larson. Professional, courteous, polite and very hardworking. The person who took the booking was also straight forward and helpful. No trying to squeeze every penny she could by sneaky adding additional charges. Zoom were very responsive and helpful; I highly recommend their services. Choose these guys and not CBD Movers who are blatantly crooks, nor Two Men and a Truck, who will charge you for calling them and then justify doing so. Kudos to ZOOM! Thanks again ??

Exceptional Moving Experience with Zoom Removalists I recently had the pleasure of using Zoom Removalists for my move from a 2-bedroom apartment, and I cannot express enough how impressed I was with their service, particularly the professionalism and care exhibited by George and Danny. From the outset, Zoom Removalists demonstrated a high level of customer service. The booking process was seamless, and they were accommodating with my schedule. On the day of the move, George and Danny arrived promptly and greeted us with warm smiles, immediately putting us at ease during what can be a stressful time. Excellent and professional service! I've moved 3 times in the last 3 years and David and his team from ZOOM are the only ones who have left me feeling taken care of and listened to. Our belongings were handled with care, and David and his team worked through an almost 40 degree day with no complaints and with an incredible attitude. I was also called part way through the day by the customer service team to ensure I was having a positive experience, which I really appreciated. Highly recommend!

The Zoom Removalist Team was easy to communicate with and had easy processes with moving locations. Very quick with their services, moving items to their truck and to the new location for unloading. I recommend the services of Zoom Removalist, from their customer service team to the removals specialists.

Thank you for your assistance with my move

We recently used Zoom removalists for our move, and I can't express how impressed we were with their service. Special mention to the movers we had as they were great to deal with and took all the stress out of moving. They made the whole process seamless and hassle-free. We would definitely use Zoom removalists again and highly recommend them to anyone in need of moving services. Thanks again for the awesome job!

I needed to move a fridge as soon as possible and organised for it to be moved on a certain day and they told me to give them a call to finalise the booking. However, since I was at work, I wasn't able to call them until 2 minutes before they closed and they were still extremely pleasant and even accommodated my last minute request for the fridge to be moved the day after! The removal the day after was super quick and easy while also being very accommodating to my requests. Cannot fault the customer service over the phone or in person!

Rami Sarmad was extremely helpful and polite!

Dani Polus is the greatest. He is super friendly and has done an amazing job.

I have used removalist companies for over 20 years and I have never experienced such professionalism, courtesy and expertise. I wasn't aware that a company as this prestige and standard and customer care were so true to their zoom policy. They have risen the standard of any company I have ever used. David Ash was not just professional and friendly but very respectful to not just my family but our belonging our belongings. Going above and beyond what was nessasary if his job role. A complete gentlemen. I honestly did not know a company and employee if that standard was possible. I highly recommend and will be sharing this rLyou Zoom removals and especially David Asjlh for making this feel like, out home already. Bless you

Rami and Sharmad and Tim did a fantastic job moving my stuff. They were very polite and helpful. Thank you Zoom Removalist.

Romeo done a wonderful job nothing was problem very happy

Rami and Sarmed did an incredibly good job. No damage, very quick, friendly, helpful. Had some really heavy furniture and they managed to move everything so fast. Highly recommend to anyone. Def gonna use them again in the future if i ever need to move.

Rami and Tim were fantastic - very professional, fast and took lots of care. We really recommend Zoom for moving. Thank you!

Rami and Swarmed are very nice very happy professional work, thank you Zoom Removalists

Incredible service! George & Danny were amazing. Fast, highly professional, no breakages. I can't fault the service and will definitely use and recommend Zoom in the future

Lorance and Larsen done an amazing job moving our stuff, really tidy and made sure everything was done right. Thank you

Lorance & Larsen we're great talking care of my move

Lawrence & Amon were fantastic. We booked the day before & they were punctual. They were quick, helpful & took care with our belongings. Highly recommend.

Friendly, great team. Would definitely use them again. Daniel, Polus.

Laurence and the team were great, very efficient and careful with our property

Rami Ali

Alex and Laurence were both extremely helpful with our move. I considered doing the move myself, however, I can honestly say Im glad I called zoom to make the process as stress free as possible.

Very professional. Speedy service. They were careful with everything and super friendly.

Romeo and his helper were great! Fast, very professional and very caring with all the items. Would definitely use them again!

Laurence and Sam were amazing - very efficient and careful with all our things

Rafi and Labeeb made a very difficult and tiring day so much easier. They were professional, friendly and accommodating throughout the entire day and not one item was damaged in any way. They went above and beyond when my large dog kennel wouldn't fit through the doors, assisting to lift it over a 1.5m wall! I would recommend this pair to everyone - they are worth every cent you will pay, and the rates are very reasonable. Look no further - best removalists in town.

Larsen and Laurence were absolute champions. So quick and friendly! Highly recommend

Easiest move we've ever had! Moey and his team were extremely friendly, quick, careful and helpful! Made it an absolute dream. Would definitely use again and recommend to anyone. Thanks guys!

Deciding on a removalist can be overwhelming and nerve wracking. We got a number of quotes and decided to go with Zoom Removals for our recent relocation from Sydney to Canberra. While there was a little bit of confusion with the booking team when we made a change, we can't fault the team of movers on the day. The guys were professional, pleasant and careful with our belongings. They also moved very quickly (but safely - important when you are paying by the hour). Very happy with our choice, everything was packed and unpacked with no issues whatsoever.

Worked fast , no breakages !! Dave was very good to deal with, kept in contact to advise delivery times

Overall, just a pass. Too slow, which increased price. Damage to wall of house not mentioned.

Was asked for an itemised report of what furniture to be moved and showed up with a smaller truck that wouldn't fit all our furnishings. For experienced removalists, it was shocking how long it took them to move the furniture into the truck, the continuous playing tetras within the truck, the moving of prongs that shouldn't have time wasters really. Have been offered a \$60 refund, which hasn't happened yet. A job that previously took un experienced movers 6 hours this time paid for 7 hours and not all done, had to hire a van to move the

rest, at over \$400 an hour wouldn't waste any more money! DONT USE THESE PEOPLE SHOCKING

I had an absolutely dreadful experience with Zoom Removalist. If I could give them MINUS 5 star, I would.. The two guys that came from Zoom was abysmally slow, which set the tone for the entire move. The two movers they sent were so sluggish that my grandma could have outpaced them. They had the bizarre habit of staring at items for what felt like an eternity before deciding to pick them up, and to make matters worse, one of them seemed to be wrapping the furnitures while the other just watched. What should have been a straightforward 3-hour job turned into a grueling 5.5-hour ordeal. They spent an inordinate amount of time complaining about the weight of various pieces of furniture, even though I had clearly informed them during the booking that the entire apartment needed to be loaded onto the truck. To add insult to injury, they initially attempted to charge me extra for stairs, despite the fact that I had been told during booking that up to 18 stairs were included. But it didn't end there. They also sprung surprise charges on me for fuel and an outrageous \$50 toll fee, neither of which had been mentioned during the booking process. The grand total for my two-bedroom small apartment move ended up being close to a grand. One of the movers, Rami, had the worst attitude I've ever encountered. His behavior was nothing short of disgusting and extremely rude. To top it all off, they took multiple smoke breaks during the move, further extending the misery of the experience. I will never, under any circumstances, use Zoom Removalist again, and I wouldn't wish this nightmare on my worst enemy. I strongly advise against using their services and will never recommend them to anyone.

Reading reviews is a great way to determine if a removalist is the right one for you. Platforms like Google, Product Review or Muval are great for this because they have built-in mechanisms to ensure reviews are from genuine people that have actually interacted with that business.

However, we advise to be cautious of moving companies with hundreds of reviews and a perfect 5 star rating on these platforms as reviews unfortunately can be faked. Don't get us wrong: honest companies with a perfect 5 star rating do exist and they are excellent (we have a few on our platform!). But, given the nature of furniture removalist work, something, at some point, is bound to go wrong. Maybe the truck breaks down and is late for a job. Maybe someone accidentally trips and some items in a box are damaged. Whatever it is, accidents unfortunately do happen and these sorts of occasions rarely attract a 5 star rating.

Because of this, companies with a 4.5 or above rating are often just as good as a company with a perfect 5. So, we suggest, instead of looking for all 5-star reviews, take a look at a company's worst reviews and pay special attention to how they responded to the issue. Were they sympathetic? Did they respond promptly? Did they offer a resolution? Were they contactable for the customer to voice their concerns? These are the sorts of things that separate the best removalists from those who don't deliver a high level of service.

Read more about how to avoid dodgy removalists [here](#).

If your booking is a premium service, the company will be able to provide exact timing. If your booking is a shared option, then your schedule will be a window between two to seven hours on the move day.

Depending on the destination and the state you are going to. Standard delivery times vary from one day to 21 days.

Hi my wife and I had to move house today the 15th of December 2023. I chose to use Auservin Removalist to move into our new disability home not knowing what service I was going to get. But I have to tell you that Bruno and Antonio were absolutely amazing. They were well mannered and took excellent care of our all of our furniture and especially my wife's disability furniture. The price was also fair for the amount of work that they did. The only problem that I have is that I would call them in a heartbeat to move us again but I don't plan on moving for a very long time. Keep up the good work guys. Thanks Peter and Michelle Harvey from Flinders View

Very professional service from the team. Especially Marlon and Caio

We have been using Auservin for approximately 5 months now, big shout goes out to this amazing in particular cleaner Geneci, her attention to detail is outstanding, she is a credit to your company, if we could give her a 10 star rating we would. Words can't describe how happy we are with the service she provides. Gooooooooo Auservin.

I'm not sure if there was a misunderstanding on my part or a miscommunication on theirs regarding the starting time. Nonetheless, Luis and Antonio did a great job, especially considering the weather was disgustingly humid.

Excellent service during our move today! Giovanni and Mauricio took extreme care especially when moving bulky items and were very efficient. Their friendly demeanour was just a bonus!

Thiago and Bruno did the move for us! They were quick efficient and friendly! Recommend using their services!

Lucas and Anthony were amazing. Thank you for making it less stressful.

Auservin movers are perfect, I would easily rate them high. Hired their service for our new house movement, and start to end was a delightful experience. Rod and Giovanni came on scheduled time and managed all items with almost care. We didn't need to touch any item, they moved the trickiest items like a child's. They were polite, friendly and honest - the best they didn't waste a single minute which we generally complain about other movers. At the destination they were patient with us and kept the items wherever we asked. We moved to new build house so they were very careful while moving the items. I have already recommended them to our friends, and in future for any service I would definitely consider them. Thanks again for all help, Auservin. Thanks Rod and Giovanni Cheers, Akash

Took great care and very obliging. Friendly service. Highly recommend.

I couldn't ask for better help. Thiago and Antonio were not only professional on time and efficient nothing was too hard, even when the lift broke down they stayed positive and determined to get the job done. Andre and Luis were incredible during our move! They were very reliable, communicative and more than happy to accomodate any requests throughout the process. Their packing team were so delicate with our things and we felt completely at ease in their hands. The guys were very friendly and efficient, despite an ungodly steep driveway! We would absolutely recommend Auservin to any family.

Leo and Antonio are a tremendous team and ensured my removal experience was outstanding - on time - friendly - genuine and trustworthy - highly experienced at moving with the packing and unpacking the truck and worked tirelessly to settle me into my new home. Gabriel managed my booking perfectly. Thank you

AUServin from a highly satisfied customer. Jude

Eberton, Caio and Leandro were amazing from start to finish. Recommend them

Had an awesome experience with Leandro and Giovane who packed up and moved our home from Wavell Heights to Bracken Ridge. They did an amazing job from start to finish. Worked well together and didn't rush or lag. Was very professional and always checked in with me when they weren't sure on anything. They both said they spoke very little English but would do their best to give me the best service which they did! Would def recommend them. :)

Eberton and caio did very good job and was very smooth and fast. Thank you to both. ??????

Mario and Giovani were fast, reliable, helpful, well mannered and dependable. They took great care of our belongings and were a pleasure to deal with. Luis was also great at organising everything.

Great work by Rodrigo and Eberton. Fantastic hard working guys that got the job done. Well done!

I have used Auservin movers twice now and they have been great both times. They have been efficient and professional, and made what is typically a very stressful experience, a lot easier.

Used for a local move on the Sunshine Coast. Felipe and Gavin were great. Very professional and polite. Easy to deal with and accommodating. They moved our furniture with great care and were super efficient. Would highly recommend.

Caio and Eberton are lovely removalist. Very friendly and careful with my furniture. I had a few glass tables

and items that needed special care. Good price too ??

Antonio and Eberton were delayed by a few hours but communicated well and were pleasant, efficient and careful with my belongings once they arrived

Israel and Eberton were such hard workers and handle all our furniture and belongings with a high level of care. They have great personalities and were very polite and patient. Would book them again.

Very pleasant young men to work with Great care taken in moving furniture

Very good and efficient, can't beat on value with their service. Would recommend

Had 2 blokes take the piss and time waste to get as much hourly as possible. What should have been an around the corner job done in 2 and a half hours max has taken 4. Timed them to put in a bar fridge, washing machine and fridge into a truck (from the curb beside the truck) 35 minutes

The worst removalist anyone can imagine, promised me to send a truck that has a capacity of 6 or 7 rooms, from 10am loaded my stuffs, making me suffer when 8 months pregnant and has a one year old. at 5 pm. when truck was half full and my furniture, tv and outdoor furniturr not loaded yet, offload my stuffs, as could not put everything in. In between, hamy brand new coffee table is broken, and God knkws what else. Just putting a legal complaint

\$160/hr for 2 men with 8ton truck. \$80 callout fee and \$150 extra for piano. Quite expensive and very slow.

One of the bags was ripped open.

I had a very negative experience with my last move several years ago so I was incredibly nervous booking my move this time around. Professional Movers lived up to their name 100%. From the initial phone call, to quoting, confirmation of deposit, reminder phone call, then the actual move itself, plus a follow up phone call the next day. Wow. Everything went smoothly. Nothing was damaged. They were so polite and really seemed to care about each box, each item of furniture. I was very impressed. The most seamless and stress free move day I have ever had, all thanks to Professional Movers. I am so grateful and 100% recommend them to everyone, family, friends, even strangers online by writing this review. I honestly can not thank them enough for how they handled everything and how smoothly the day went!

Roomi Ayat is a good guy and everything was smooth. They took care of all items very effectively and efficiently. Very cost effective. Thank you so much.

Great service. Very careful and friendly movers. It was delight to do business with them. Rani, Rayman and

Christian were amazing.

Very professional and quick with their service. Can't recommend enough.

packed the truck well enough, however arrived late in the afternoon so probably tired so very slow, took 2hrs to pack a 1 bedroom apartment. Required a lot of help from myself and friends and charged 200 extra on the day to carry a couch down four flights of stairs. All in all wouldn't recommend and wouldn't use again for 5.5hrs at \$120 an hour did not make the move easier.

Over a bloody month with no receipt and a broken tv! No answers no resolutions nothing! I have clear cctv of the Removalist's damaging the tv whom I have shown them in multiple emails. Very unprofessional do not use!.

The worst service ever experienced, decided to go with them with the fake reviews here, I recently shifted from Melbourne to Sydney, they delayed the service from the booked time, then I asked for discount for loss happened in my personal end, they agreed for bit discount. After unpacking noted they damaged TV LED and emailed them too, they are relaxly replying that team busy and they get back While packing only Dany and other guy was good. otherwise worst service

I wish there was 0 star option available. I had really bad experience with them. Not sure if the driver who was allocated to me was dodgy or everyone else is? I don't want to say anything..

I had a very bad experience using this Removalist, I will never use them again. The two guys who came to do

the job reached 6 hours late from the given time, were slow, wasted time, my new place was just 2 mins drive but it took them 20-25mins to reach. Not very professional, threatened me to pay immediately when I wanted to speak to the original person with whom I booked the rate. I didn't feel safe around them. Overcharged me, their service and quality of work was bad. One wall each of new and old unit was scattered, Tv unit poorly wrapped. I complained about the issues I had faced there no resolution received yet!

This company was terrible and so disrespectful. 1. After booking the removal date and time in a month prior, they provide less than 24 hours notice that they need to change the time with three out everything. 2. There was no way of contacting the company to find out what was happening so this stressed out my elderly dementia uncle whom I was moving into aged care. 3. After negotiating a pick up time of 6am, the Removalists don't show up till 8am which was the original pick up time. They then proceed to sit in the truck playing on their phones for 20 mins till I went and knocked on the door. 4. Neither removalist could speak any English which made communication difficult, they were lazy and often needed prompting to work. 5. When I finally got onto the company they were apologetic and acknowledged the poor service however they also could not explain what went wrong and why they were stuffing us around. The moment I stated I would not be paying for the full service due to this and I wanted to know how I would be compensated they called the drivers and told them to stop working until I agreed to pay. 6. When they got to the other side they again refused to work until I paid them. But now they were charging me for the additional hours they were supposed to have showed up! I called the company and argued with the Operations Manager who acknowledged their late arrival (2 hours late) and that i would not be paying for those non worked hours. Again it was acknowledged and after 30 mins they agreed and I paid the suddenly now English speaking Removalists. These people are nothing but a scam and Id consider a lot of the good reviews on here are them or family friends etc trying to boost the reviews. Seriously go with a more widely know removalist that have a standard of service. It's really not worth going with these people. They are stressful and unprofessional. You just don't need this when you are moving your worldly possessions.

Extremely poor communication. My relocation experience was less than satisfactory with an inferior level of packing and service. I have tried on several occasions to follow up with the management about my experience and have no reply. Overcharged for the level of service provided. Would not recommend.

They were prompt worked hard and took excellent care of my belongings. I've used them in the past and would use them again. Excellent job.

I just wanted to express my gratitude to you for the fabulous service that you provide. I have moved a great deal over the last 25 years and i have never had a move go so smoothly and efficiently as this one did. The two guys were exceptional and did everything i expected and more. Nothing was a bother and as there were 2 separate pick ups before the final destination they handled it with efficiency and charm. Your pricing policy is fair and reasonable and you far outshine some of the bigger firms that promote themselves as leaders in the field. Perhaps they should take a leaf out of the Fragile Removals Book. My move was seamless and i would

never use any other company again.

The whole process was simple and easy and they communicated the whole way through the move.

The management and staff of Fragile Removal was so professional and made our interstate move so easy. The delivering team is particularly impressive with 29 items all unloaded inside the house within the hour! I will recommend Fragile Removals to anyone who needs a reliable contractor for a move!

A very big thank you to Fragile Removals and Storage for the awesome job they did in helping us move into our new home. Great care was taken and nothing was too difficult for them. Would definitely recommend!

We recently used Fragile Removals to move house. From the moment I called to organise our move until the

moment they finished, was nothing but professionalism. Max and Josh absolutely powered through all of it, respectfully looking after both our possessions and the surrounding walls etc in both homes. Nothing was too much trouble for them. We also couldn't believe how quick they were able to move us. Thank you to the whole team involved with this move. We will definitely be using you again when we return back to our new home!!

The Boys were on the ball from the get go. They were on time, very professional and polite. The boys were extremely careful, helpful and chatty whilst getting the job done efficiently and quickly. Decent prices for the work done, I would recommend them to anyone moving and would definitely use them again if ever needed.

They are punctual and very exact and very professional both times I have used them.

Very helpful and pleasant staff member my son dealt with, made life easy with handling household items for transporting east, Thanks

They moved us from Sydney to Perth and all the guys from pick-up to delivery were awesome!!! 10/10 service!! Will definitely use them again if ever I need a removalist??????????????????

Thank you Fragile- you guys were awesome. Such a big move and you took the stress completely out of the picture. Great work and everyone was terrific to deal with.

Seamless experience from Quotation up to Delivery. The only company I could find that quoted me for actual volume used to transport belongings from Brisbane to Perth. Staff at both ends (Brisbane and Perth) were courteous, professional, and efficient. I can also confirm my once loaded at Brisbane, my things in the container were not moved or disturbed until delivery in Perth. Admin team was also pleasant and efficient. Price was one of the best I could find, after getting quoted by about 5 or 6 different companies.

Excellent removalists. Fragile really worked with us to make our interstate move as easy and stress free as possible. I owe Adam and his team a carton for expediting our delivery so that we could sleep in a real bed for the first time in a week. Just let me know where you want me to send my thanks guys!

We used Fragile Removals and Storage for our interstate move, Perth to Brisbane. We had a fabulous experience - the price was one of the lowest we had come across, and the service was really incredible. All our items were wrapped up so securely, free of charge. Items arrived in Brisbane in perfect condition. Thanks a bunch!

Great service from start to finish

All around great service from collection to delivery on both occasions that i have used them.

A professional and friendly service. The guys all worked very hard on our large job and handled everything with great care, thank you for making our move much smoother!

**Website: [www.muval.com.au](http://www.muval.com.au)**

Amazing company. The customer service is fantastic. We've moved across the country twice using them and they have handled our moves professionally and quickly. The cheapest interstate moving company we found, plus they offer 7 weeks free storage!

Excellent service by both office and delivery staff. Very helpful and competitive price.

Super professional, they arrived on time and the guys we're really efficient. Would definitely use Fragile Removals again

Professional and efficient

Service was excellent, guys knew what they were doing and had my whole house move done in less than 3 hours Will use these guys again in the future

Excellent service, on time and the guys did the job carefully and efficiently. Highly recommend this company.

Very professional, time, and friendly .

I had a great experience with the Fragile Team - highly professional, fast and efficient upon arrival. I will certainly call Fragile again when I need to move house again :)

Great job. Great price. Lovely guys. Highly recommend

The removalists we had Ryan, Jack & Patrick were amazing! They made the whole day so easy and enjoyable! We loved working alongside them for our move. Great communication and extremely hard working they did not stop all day!! We absolutely could not fault them and I would recommend anyone relocating to use this team, it was a stress free day!! Could not have done it without you guys thank you so much again! It was a 10/5 star service!!

Fragile Removals and Storage is a very professional and easy dealing with interstate removals. The staff from the both ends always helped us and answered all queries and they transported all our stuff with care, and the crew from the removal was very friendly and helpful. I do not hesitate to recommend this company for anyone interested in interstate removal of their stuff.

I can't praise this business enough. They are friendly to deal with and very professional. The entire process went without a glitch. They were prepared to meet our special needs, were on time, and protected my precious furniture far better than I had expected. Price was competitive. Delivery Brisbane to Melbourne was to take

around two weeks but arrived in five days. I would never think of using any other removalist

Fragile removals were great from liaising with Peter in NSW to Rushdi when arriving in WA and everyone in between. Communication was always prompt and concise, the guys who did the uplift in NSW were awesome. Great pricing as well, highly recommend this company. Thank you so much for making this move so easy for us.

Great service and people. Would use them again in the future.

I've engaged Fragile Removes 2nd time now. They moved me out of my house into storage, then out of storage into my new home. The staff are friendly and professional. I recommend using them. ??

I would definitely recommend Fragile Removals to anyone wanting items, furniture, paintings etc transported interstate. They were very reliable, extremely polite and efficient and very careful with all items.

Totally professional highly recommend, service from a bygone age. Grateful

I moved last Friday 15 Aug 2014. I hired WA removals but they sub it to these guys (Fragile Removals). I'm glad they did! :) The first time I saw those guys I'm convinced, they are really tall and fit! Not to mention good looking too. Anthony from France and Rasz from Israel. They climbed 20 steps of stairs for hundreds of times! I have lots of boxes and my kids' toys as well, and also 150kg elliptical machine beside other things. They packed my stuffs neatly and carried them carefully. Loading and unloading took 6 hours. I paid 130/hr, \$65 for trip, \$5 for tape (optional), \$7 for mattress protector (optional). If I use their blankets, it is free of charge.

They wrap everything big/fragile with those blankets. They are really, really good at their work. And very strong, polite as well. They worked non stop, i even need asked them to take a rest and have some drink. My family and i were stress free. I will surely use their services again. Thumbs up. Thank you so much! I hope my review helps! :)

What a great removals company! Their pricing was fair, staff were friendly, job was done very quickly and they kept me in the know as my furniture was going interstate. I will definitely use them for future moves in Perth and would happily advise others to do the same.

Had great removalists in Yani and Tim. They were strong and efficient - and careful with my things. They also had a great sense of humour, which made moving a little less stressful than it normally is. Superb experience with you guys. Thank you.

We have now moved twice with Fragile Removals and would not move with any other company. We have moved nearly 15 tonne of our belongings with them and not a single broken/lost item. The staff are very friendly and get the job done without any fuss. I highly recommend this company!

Speedy, efficient, professional service and on time for pick up and delivery.

We were quite sceptical after having a bad experience with another removalist we had used before, but Fragile Removalists were absolutely fantastic. They moved all our items without damaging anything. They really

listened to what we wanted.

The staff at Fragile are very professional and friendly. They kept me updated on the progress of the removal and called when they said they would. The service was fast, efficient and very smooth. Fantastic door to door service. A stress free service for an interstate move.

I moved recently to Perth and the boys did a good job with packing the container. All my items were neatly wrapped and they live up to their name "Fragile". They were not shy on using materials so it was good to see that they took great care of my glass cabinet. Thanks you boys for doing such a good job!

Fragile Removals Perth delivered a 200 Kg Strength Station, one of 60 odd I have had delivered to the health club over 5 years. Gilad, the load-master / driver was the first ever to offer help & said he'd happily assist me to get the equipment inside the club & even upstairs to the 1st floor. Never ever received such assistance from any freight / delivery / logistics company before in 5 years in Perth. Gilad then assisted bringing the old 200 odd Kg Strength Station down the stairs & into his truck & took all packing & associated boxes away. Sterling service, highly recommend. Healthy Life Fitness Centre.

I recently used the services of Fragile Removals and Storage to relocate to the Mornington Peninsula. The men who handled the move were courteous and polite and very experienced. The organisation is very professionally run and any queries were answered in a timely manner. I am happy to recommend their services based on my experience.

Amazing team! Very professional, punctual and great communication. Great care was taken when moving my

items. Very pleased and would highly recommend.

Highly recommend and would use again. The 3 guys who moved our stuff were excellent and nothing was a problem for them

Brilliant service. Staff were so polite and helpful. Cannot recommend them highly enough!

It was a complicated move & I was not able to be onsite for the pickup. The guys did everything as planned & were on time & very careful. 2nd time I have used them, thanks again!

Fragile movers are a great company! They did my move seamlessly and easily for me, when I couldn't be there. Everything was very professional and punctual. Whenever I had any questions they were always answered promptly! I would definitely recommend this business! Thank you Fragile Movers :)

Very attentive to my emails and questions. Great service with no issues and less than half other companies quoted prices.

It's rare that you want to write an amazing review for a removal company however I have nothing but positive experiences to share. From the moment I contacted the company everyone I have dealt with has been friendly, honest and hard working. Jherome was so helpful in making sure I quoted everything correctly , Brandon was amazing ensuring everything went smoothly once it left Perth, the uplift crew were so courteous friendly and polite and went above and beyond making sure everything was wrapped well and finally Mark and his crew on the Tweed Heads end were so patient given the difficult access and I never felt like we were a burden. Can't recommend this company enough for short or long haul Moves.

Great Removal Company Fast and Efficient would definitely recommend and use again.

Reliable. Careful. Efficient. ??

Moved for Perth. Everything in great condition and the guys. Friendly always ready to help. Thankyou

Turned up on time and took great care to prepare all our furniture so it was protected. Professional crew in Melbourne. Turned up in perth in 10 days and unloaded quickly. Another great crew in perth. Would use again. Nothing was damaged.

Great customer service, competitive price, picked up on time, delivered on time, no problems. From a guy who moves around a lot, and has seen boxes in the back of a truck all too much, Fragile Removals no-fuss service has been greatly appreciated.

The journey to move from Perth to Brisbane started by going for quotes. We settled for Fragile because David took the time to explain in detail about interstate moving. We made the booking. Aicha took over from David and the date was fixed. Alessio and Mohammed moved everything very professionally. Got an email stating

that the delivery date has been booked. Alberto, Arthur and Harvey delivered the goods. They came 1 hour earlier!! They just took 45 minutes to unload. Again very professional. The crews from both ends were very nice. Always with a smile. Please call when you get an email stating that the delivery has been "booked". They expect a call to confirm. I did not call and the delivery was moved from Friday to Tuesday. After speaking with Aicha, she managed to revert back to Friday. Will I use them again? Of course. Well done Fragile. Nothing was broken!!!

The 2 removalists were very good. Only had 2 couches but navigating the house layout wasn't easy. Did a great job.

I had a really great experience, The team were fantastic, friendly and took so much care packing and moving my house and car. Would definitely recommend.

Professional.. good communication.. on time. Highly recommend.

Across many years of upping stumps, Fragile Removals are by far the best guys we've ever used. Professional, friendly service across all areas of the move followed up with regular updates. Everything arrived on time as quoted. Will definitely use again ??

Just moved interstate (VIC to QLD) and had a great experience with Fragile Removals. They were both on time for the pick up and, later on, the delivery. Nothing has been damaged and the movers were friendly. The only point that I'd suggest for improvement is to be more responsive to e-mails, as I had sent a few e-mails with questions over time (first time utilising a moving company, had so many questions at different times!)

and had to buzz them a few times for a follow up. Nothing that stains the quality, though. Definitely recommended!

Highly recommended. The guys did a fantastic job. They were punctual, friendly and got the job done quite quickly.

The movers were able to move our entire house in a day. They were cautious and careful with all of our items. They were friendly and professional. Id highly recommend them for your move.

Efficient, friendly and did an amazing job of packing and moving our house. Have used fragile a few times now and would use again!

These guys were exceptional, arrived on time & were very polite, they did a great job & I couldn't of asked for better service from them, thank you so much

Extraordinary team of guys , they worked for hours filling up a huge container with my house. How he packed the container was incredible, it all went in ! A huge Thankyou to the guys who packed up Waller Place Innaloo on the 26th October! I would definitely recommend this removal company if you want a thorough , fair , your furniture well secured and covered job!

These guys go out with my MAX RESPECT!!!! They worked like Trojans all day and got us into the new place with no fuss at all, no worries, no hassles absolute HEROES for all time.

Great service, prompt arrival, and really nice blokes thanks to George and Dustin on the WA end and James and Matt from the QLD end. Very helpful and friendly.

I was very happy with the service. I will happily recommend this company to everyone.

Honestly, this company was absolutely amazing! I gave Fragile Removals a last minute call to see whether they could pick up some boxes and a TV for the next day and they did. They arrived early and packed all the boxes in the truck and as I didn't have a box for the 65" TV they wrapped it and covered it extremely well. All my stuff arrived two weeks later from Perth to Melb and everything was intact, not a single scratch on the TV either. The team from Melbourne were awesome as well. Thank you!!

Fragile Removals were professional and reliable for our interstate move. The removalists at both ends of our move were fantastic. We highly recommend and would definitely use them for our next move.

I have just used Fragile Removals for an interstate move from a Melbourne to Perth. I could not have asked for an easier experience. I was looking at a couple of company's and the reviews for all were on par with each other, so it was the competitive price that ultimately lead me to Fragile Removals. The booking process was excellent and the communication from the team was great. I received an email the same day my furniture had been picked up advising me that it was already booked on the train and even gave me the delivery date and time, two weeks in advance. Which it arrived on schedule. The actual removalists in Melbourne and Perth were exceptional! They took their time, wrapped everything in boxes and covers, taking photos and taking notes. In no way did they show they were being rushed and took care with everything. I would say that the company puts more pressure on their workers in quality rather than rushing and creating quantity. My

furniture arrived in perfect condition and as this has been such an easy process, I wanted to write this recommendation. I have just completed my 4th interstate move in 5 years and have used National Removals the last few times. Until the last time they were ok. Nothing amazing but did the job. The last time was not great at all so I looked around to try another. I could not have been more pleasantly surprised. Would use these guys again without question.

Fragile Removals were fantastic with our local move! Jack and Jack were punctual, worked quickly and handled all our items with care. We had just done some renovations to the house and they were extremely respectful, navigating tight corners and making sure not to nick any of our freshly painted walls. Would definitely use them again and highly recommend! Service: Local moving

Fantastic experience with Fragile Removals and Storage! They came right on time for my move and there was no dillydallying by the boys who came. They took utmost care with every piece of furniture and were very organised with paper work and how they loaded the truck. Not a single damage done to the property we were moving out of and the property we moved into. They are a little pricey but the level of expertise they have is worth every cent. Very professional service and would highly recommend.

The guys from Fragile were amazing. We have moved house many times, sometimes to overseas. This move with Fragile was by far the best we have experienced. They were helpful with the dates, arrived on time, were courteous and friendly. Nothing was too much trouble. Thank you.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value I moved households from Brisbane to Perth. My requirement was 10 cubic meters. Trained professionals handled my stuff and they all were very careful while moving things around. Everything was packed in the truck using commercial packaging blankets. Received everything intact at Perth :) Services: Moving-related storage , In-state moving

Would recommend them highly. Simply the best

Made my life so much easier moving interstate! Took great care of my items and was handle with care!

5 stars Fragile Removals and Storage. For somebody who has moved a number of times and used different companies I was really happy with the service provided. Very easy booking and lead up to the uplift of our belongings for the trip from Melbourne to Perth. Special thanks to the crack moving crew of Sean, Peter and Robert who were very polite and efficient with the actual uplift with some light hearted banter added in which took the edge off the stress around the move. What really struck me was the care that went in to wrapping individual items in protective covering and loading. We are still to receive our belongings on the other side however I've got no doubt all will be well. I recommend this company.

Recently used Fragile Removals for my house move. Extremely happy with the service and how friendly and accomodating the boys were. I added boxes and items at the last minute as they were loading and not once was it an issue or was ai made to feel anything was too much trouble. Thanks guys, appreciate all your hard work and heavy lifting. Would recommend!

Very friendly and efficient service for my house move. Everything was handled with care and there were no damages. Allowed for a smooth transition - would highly recommend ?

Very good service overall thus is the second time I've used Fragile

Very impressed with Fragile Storage and Removals Brisbane, These guys went the extra floor! another moving company couldn't get this fridge upstairs.. 3 guys from Fragile did it in 8 minutes including removing the lamps in the hallway and wrapping the fridge to avoid damage.

Dealing with fragile removals was easy from the beginning. Moving from Perth to the southwest. The guys arrived on time and spent every minute working. I was very pleased with the price, I'm glad I chose Fragile, I would recommend them. Excellent service and excellent pricing.

We moved from WA to VIC. From start to finish, service, communication and professionalism was excellent. The removalists in both WA and VIC were efficient and careful with our belongings. Everything arrived in perfect condition. Extending our storage time was easy too. Thanks to all your staff - you made our move across the country stress free.

I have used Fragile Removals in business for many years moving delicate and valuable objects and have always found them exemplary in their professionalism and knowledge. They have provide excellent advice and solutions in complex freight issues. Recently I used them for a domestic move that was highly stressful and their sensitivity and the care they took made the experience smooth and quick. Over the years no items have been damaged and everything has arrived on time on and budget, regardless of scale, fragility, and tight deadlines.

Booked fragile removals to move my entire house furniture from Perth to Melbourne, they provided me the best quote and furniture came over without any issues whatsoever. I would highly recommend them. Booked them for a 2nd time and this time and boy they didn't disappointed this time either. I had same pleasant experience as last time, no fuss and quality work.

Danny and Jules were brilliant-they coped with a truck breakdown beautifully! And managed to keep us in line too! Thank you so much!

Efficient and complete the job.

Well mannered and efficient removalists. The lads were on time, explained all the details clearly and took great care with all our belongings. Was a clean and efficient job without damage to the walls and doorways. Can recommend for time, availability, professionalism and cost.

Very professional helpful reliable attention to detail took that extra care with my furniture

Ive used Fragile Removals and Storage several times over the past six months to transport goods from Melbourne to both Perth and Brisbane. Professional service all the way through the process. All goods arrived in an as packed condition, even the particularly fragile items. I would recommend this company.

They were just fantastic from the moment they arrived, they collected all the information and followed it to the letter. Worked super hard and super fast, highly recommend

The boys were on time, professionally and efficient. Unfortunately it was raining during our move, the boys did their best in slippery conditions. Will definitely use Fragile Removals & storage next move. Thanks boys

Very happy with our move using Fragile Removals, the removalists were very great and loaded the truck in a very proactive and experienced manner. Would definitely recommend their services.

Amazing removalists! Have moved with them about 4-5 times, and they've been prompt and reliable. The guys

have been super quick with loading the truck and don't muck around, this plus they're excellent prices have meant our moves have been much less compared to quotes by other removalists. I just had a short notice move last week, and they had me packed up and moved within 2 days of my phone call. Everyone I've spoken to from Fragile, the booking team, payments and movers have all been the best of people. They'll always have my business.

Easy organisation at a difficult time.

Seamless experience with this company from my initial enquiry and booking, to pick up in Melbourne and delivery to my home in Perth. Everything arrived safely which I am extremely grateful for as it was my late mother's precious furniture. Great communication throughout the process. Highly recommend.

We employed Fragile Removals for our moves from Sydney to Perth and later from Perth to Brisbane. On both occasions, their service was outstanding. Our belongings arrived in perfect condition and ahead of the expected timeline. Their customer service and moving professionals were exceptional.

Fragile Removals/Smooth Movers have been very professional and responsive both during the booking period, throughout the actual move and at the conclusion of service. Emails and phone calls have been hastily and efficiently answered and the crew who actually moved us were just as helpful. Texted prior to arrival, took great care of our goods and then respectfully moved them into our new address. I highly recommend Fragile Removals/Smooth Movers to anyone who wants an expert job done at a reasonable price. We will of course be

using their services again if ever we should move. Customers David and Anna

Guys picked it up and dropped it off with no damage and no fuss so no complaints whatsoever.

Would highly recommend this Removalist company. I employed them specifically to move not only furniture but also some huge pot plants to a location that had quite awkward access and yet the two young men managed it without any fuss or bother and very cheerfully too. Nothing seemed to much bother for them. They ensured that my move was as stress free as it could possibly be. Thank you.

Outstanding Labor and Customer Service

Great service, good price and the whole house was packed up, moved and unpacked quickly and easily!

Great service and great guys! Thanks for the prompt response to my query and for quick resolution. Your assistance in moving my parents was first class! Happy to use you again the future! ??????????

Amazing guys. Did a great job. Thanks

Top quality movers, friendly and professional, I've used these guys a few times and will again in future!

Excellent and professional service for our recent move from Melbourne to regional Victoria. I would highly

recommend this company to take care of your home removal needs.

Provided great service and treated both myself and my furniture with respect. I highly recommend them.

Thank you to Rob and the team at Fragile removals for once again providing a flawless furniture removal service. We have moved 4 times in as many years and used Fragile for every move and they have never let us down. In fact I think they may have raised the bar on this last move. I would definitely recommend Fragile and will certainly use them for our next move, although hopefully that will not be for sometime now. As effortless as they make moving, it's still a major pain in the... Thanks Fragile.

Great team of workers awesome boss having fun at work makes it a lot easier still learning the ropes but everyone is helpful and accomodating

Nice and fast, good blokes.

They are called Fragile Removals for a reason. The team are very polite, took care of all our items and made sure that it won't get damaged during the move. ????

I recently moved from Western Australia to Victoria. Fragile Removals' service was very professional and friendly. I would recommend them for your next move... without hesitation. Well done guys ??

Friendly team particularly at our unload into our apartment in Perth. Quality service and no issues. I would use them again and recommend to others

Highly recommended! They handled 2 of our moves and they have been reliable and very efficient with the time.

Done alot of research of removalist companies before deciding to go with Fragile Removals. From start to finish they were fantastic! The 2 guys called me about half an hour before they arrived which was very handy, they turned up exactly on time and got to work. They were both very careful with all our items but worked at a great speed. Once our place was packed up we offered them to stop fpr lunch but gracefully they both declined to stop and moved on with taking our items to the new place. Mark who was the lead was super helpful, very kind and friendly. We were very pleased with how the move went and would not hesitate recommending their services to anyone. The cost for the removal was very clear from the start and very very reasonable for the service they provided. Will definitely use them again for our next move!

Really organised, took the time to ensure all items protected and made it easy especially with a large fish tank

Very friendly, respectful, careful and prompt.

Fantastic job. Friendly, helpful and reasonably priced. Mark deserves a xmas bonus.

I have used Fragile removal twice so far during the past few years. The drivers/movers were on-time, polite, and professional and moved our fragile items with lots of care. Also the last time I used their service, an incident happened during the move but I was fortunate that their customer service, Kate was very diligent and followed up the issue until it was resolved Very happy with their service and value and would use theirs again

Service: In-state moving

The team were polite, friendly and professional. That's what you want from removalists. Would highly recommend and using again!

We had our move completed by Phil & Tim. They did an amazing job with great care, and completed ahead of budget. Definitely recommend!

I was highly impressed by the care, professionalism and speed at a very reasonable price. Provided great care with wrapping and protection of our prized stuff. Thanks Fragile for a superb service I would certainly recommend then to friends and family

Very professional removalist company, great communication and trained personnel. Thanks

Friendly and professional. I will highly recommend Fragile Removals.

The two guys did a great job. No complaints from me!

Great job of moving me into my new home! Thank you for the excellent service!

Always amazing service

All the gentlemen that moved my furniture were wonderful. Wrapped all my bed head in wrap before going into blankets, my brand new fridge arrived totally undamaged, everything surviving the long 3500km journey across the country. I packed all my own belongings really well. They were on time for collection and delivery,

called and texted when on their way. Free storage in Melbourne helped me have time to find a new property. Couldn't recommend enough.

The man were very good and efficient and careful in their packing and storage of our goods. They were great when it came to setting up at the new address..

Use this company if you are looking for good removalist

I will rate these guys a solid 9 ?? - not because they don't deserve a 10, but because you always want to leave some room for improvement! Great communication, friendly and very capable service, competitive pricing and most importantly they say what they are going to do and then do it - all the while keeping you updated. This is (unfortunately) rare to find with most companies these days. Thanks a bunch!

Nicolas from Fragile Removals and his colleague were fantastic. They arrived on time, were really polite, packed everything carefully and delivered it quickly and safely. Nothing was damaged and I was overall very happy with the service. Will definitely recommend and use them if I move again.

I booked an interstate move with the guys at Fragile removals. Booking the move was easy, plenty of follow up calls from Peter to confirm. The uplift guys (Shaun, Danny and Matt) were great! Had a good chat and laugh, very careful with wrapping the goods and packing into the truck. The guys that delivered the goods (Jherome, Oliver, Chris) were all great blokes, smashed out the unloading, very professional. Thanks!

Very helpful workers who did a great job moving. Professional and careful.

This company was fantastic. Specifically the guys we had; Igor and Marcio. They were on time to the tee, did the job quickly and efficiently. Couldn't fault a single thing. Friendly and professional. Highly recommend this company.

Great service by this removalists company. Polite and friendly, fast and efficient. Wrapped and boxed everything. recommended

The level of care and professionalism by both pick up and delivery teams was exceptional for my move from a Melbourne storage unit to my new home in Perth. Each and every item was recorded and carefully wrapped so I felt confident my belongings would arrive free from damage. From my initial quote to delivery I can't fault the customer service received from Fragile's administration team and multicultural teams doing the hard packing and unpacking work. Thank you for relieving me of some of the stress levels for the move, and your after service follow up is much appreciated.

I was really nervous originally due to the last removalist company we used ended up breaking majority of our things beyond repair from lack of care or securing the load. However fragile removals really came through for us, they called ahead with an expected arrival time and actually arrived at the exact minute specified. Mark and his team (Dylan and an older gentleman, i unfortunately did not get the name of) did an excellent job. The level of professionalism and care shown while moving and securing all our things in the truck was amazing. Everything was packed and secured tightly, and all this was done very quickly in a little over an hour. very

impressed, definitely will be using this service in the future.

Excellent service! Ryan and Max were friendly, efficient and so fast. I couldn't believe how speedy they were. They packed everything to perfection. Bree from Muval was also exceptional and procured Fragile Removals for me. Excellent experience all round with professionals. Can't recommend highly enough. Thanks guys and girls!!

Excellent service received from this company, I have used on two previous occasions without any problems. Very prompt reliable service, well-priced and they take care packing each item. Thank you ?

Just recently moved and had fragile removals do the job for me, it was an excellent service. The workers were polite and took care of all my belongings, everything was protected professionally and everything which entered the truck came out the other end in the same condition, many thanks

Great work, thank you for the efficient service

They were able to book me in at late notice and then helped me to pack a few of the more fragile items I was unsure about. Good communication, everything arrived in one piece and also a reasonable price.

The guys were awesome. Unobtrusive, respectful, skilful and I am still in awe at how they fit everything in to the storage space we had. They were determined to make it work for us. Also noticed how well supervised the job was from a safety aspect as well. Hope we can get the same team when we move in to a permanent place.

Brilliant service! From first contact to last contact, attention to detail and customer needs made my moving experience pleasant rather than a nightmare. It was the first time I had moved in 24 years, it was daunting and

extremely stressful. There was a lot of stuff to move, the two young men who coordinated my move were amazing! They knew exactly how to tackle the job, they were quite fast considering the amount they had to move. They were very polite and had a lovely nature which put me at ease and lowered my stress levels. The whole experience was more than I could have ever hoped for. Fragile Removers and Storage will definitely be my go to company. I will be recommending them to everyone I know! Thanks Guys!

Great job with out house move Perth to Sydney. Great service!

Great company, easy to deal with and super quick with the move.

These guys were great! I really couldn't be happier with the caring & professional service provided every step of the way! 10/10 guys, well done! I am recommending to everyone! Naz

I recently used Fragile Removals to move in Perth. They were so patient and at the same time very efficient. It was very stressless and they were so careful with everything. Thanks so much for your help

I am very pleased with the team from Fragile Removals and Storage on both ends of a move from Perth to Brisbane. The communication was great and they turned up when they said they would. They provided a professional service and I was very impressed with the speed they completed the move and everything turn up in a good condition. I will definitely be using Fragile for all my future moves and highly recommend them.

I used Fragile based on a recommendation from a friend who had used them a few times. Their hourly rate was really competitive compares to other removalists and my dealings with Peter in the preparation phase were really easy. On move day, the three gents in the truck were friendly, professional, got all my belongings in the one truck load through careful packing, and got everything delivered safely.

Great removalists, no fuss, got on with the job. Very efficient. Very polite. Would recommend.

Can't fault this company. My belongings arrived safely, Peter from customer service has been prompt and friendly and the service and removalists were polite and on time.

I used fragile removal removal and storage through Muval for my interstate move from Melbourne the Sydney. The service has been excellent, they were really careful with my items, they kept me informed and turned up on time. Highly recommended for interstate removal, it has been such a relief to see all my items arriving in Sydney safe and intact! Service: In-state moving

The guys were early. They were very courteous and even moved a bed from one room to another for me. Would definitely use Fragile again.

Let's face it moving people's belongings is a very tricky task and it's nearly impossible to expect everything to be perfect. My whole experience with FR was great, from the admin through to the two guys that did the move. I wouldn't hesitate recommending them. Thanks guys.

I used fragile to move my house from Perth to Adelaide a full container during January the busiest and most expensive week of the year to move!! Fragile were extremely competitive on price (by multiple \$1000 of \$) the team who arrived and packed the container and our kitchen were fantastic. They were so thorough and wrapped everything in blankets etc we knew they are called fragile for a reason! The customer service was adequate and they were happy To talk through their quote etc at length. The delivery by their subcontractor

into Adelaide was very well done and everything arrived safely nothing was broken. A few communication issues with the container arriving in the afternoon instead of the morning but we are fairly relaxed people and happy to go with the flow considering what we had saved by choosing this provider. Would happily Recommend them.

I done removal yesterday with 2 guys it was really good and quick job!! From the storage to Rockingham shopping center!!

The team was so fantastic! We have moved furniture etc across the country and everything arrived safely and in amazing time. Very happy to recommend them

Great! The two guys who came (Brad and Brian/John) were brilliant! No pissing around, got stuck in and had no dramas. Two gentlemen that treated us and our belongings with respect. Very reasonable price too and quick. We will use again if required.

Excellent service, on time and true professional.

Great service from the lads, nothing was too big or too small. Have used fragile 3 times now and will be using next time. Cheers

Very professional very caring for our goods Very polite - and patient

I would gladly recommend fragile removals to anyone. Not only were they the cheapest in price by far the service they provide was second to none, the guys were great and very professional and very easy to deal with. Fragile made our move so easy and hassle free it was such a excellent service

Excellent service all around, move all went according to plan, the two guys were efficient and courteous, will be using again in a few months

The service was excellent and nothing appears to have been broken. The guys in Melbourne did a fantastic job fitting everything in the container and deserved special praise. They must be masters of Tetris :). They worked very hard making sure everything was properly wrapped and secured. I had a cleaner working in the house on pick-up day and she expressed to me how good a service I was getting from you company. I was very stressed by the move and your company made it so much more manageable. I will certainly be recommending this service to everyone. Thank you.

Great service. The guys were quick and very helpful. Have used twice now.

Very professional and polite. Helped my move in the northern suburbs in no time. Will use them for future moves. Highly recommended.

The 2 men that come and moved us to our new place were hard working and took alot of care with the contents of the house. Would definitely use again Thanks cody

I explored a few different options for an interstate removal (Melbourne-Perth) until somebody recommended Fragile Removals. Upon I uploaded my information I got an accurate (cubic metres) and affordable quote (almost half of the price compared to other providers). Peter managed my booking through the whole process, Ella answered some of my calls and solved my requests and questions and Adam in Perth arranged the

delivery on time. Both crews in Melbourne and Perth carefully handled my goods, not even one scratch on my furniture! My car and motorbike were also picked up and delivered just on time. Thank you so much guys. Honestly, your service exceeded my expectations. I highly recommend Fragile Removals and without doubt I would hire them if required in the future. Services: Vehicle transport , Moving-related packing , Moving-related storage , In-state moving

Fantastic service I will be using the company again

Just a quick message to say thank you to the boys who came and helped us move from Rochedale to the Gold Coast. I've moved a few times and this by far has been the easiest experience of I've had. The guys who came had great attitudes and even took a minute to sit down with us after the move and have a chat! will definitely call back if we need!

Have used Fragile Movers twice now for interstate moves. Friendly, responsive, and keep in contact on day of move. Would use them as I know they are reliable!

Super friendly and professional. Very efficient with pick up and drop off. Would definitely use them again.

We had a flawless experience moving from rural Victoria to Perth. The guys took great care in the packing process and it was a very stress free move.

They were very professional and did everything in a timely manner. All our furnitures and belongings were handled with a lot of care.

We were so happy with Fragile, we moved from Perth to Brisbane. The two guys in Perth (I think their names were Yani and Mitch) were so thorough. All our stuff was wrapped and covered and stacked like a good game of tetris. Everything arrived in perfect condition. Thank you! Was a very stress free experience for such a stressful move across the country during a pandemic :)

Quick, reliable and nothing broken.

Highly recommend Fragile Removals. I moved from NSW to WA which was nerve racking. The teams were great at both ends of the move.

Great company, fast, efficient and great value. They are really friendly and helpful and we absolutely recommend them for a great hassle free move

2 x removalists (Bradley & Dennis) + Truck - Arrived 5mins early to my place. - Removed all my furniture and personal items in boxes efficiently and safely into the truck. - Arrived to my new home directly after I arrived. (They did not waste time on the road) - Unloaded all my items and furniture out of the truck, and

placed my furniture into my 'wanted' arrangement/floor plan. I honestly was expecting both Dennis and Bradley to complete this in 3hrs (including 1hr travel time), they unexpectedly finished pick-up, drop-off and arrangement in 2hrs. I'm quite impressed with both Bradley's and Dennis's efficiency and would highly recommend Fragile Removals & Storage. - Colin

Great service from booking to actual move. Friendly and efficient team. Thanks for job well done ??

Friendly movers, worked very hard and did a great job.

Fragile moved our stuff from Melbourne to Perth with no damage and made every effort to accommodate our plans which changed a few times causing us to rebook services. Thanks!

The 3 guys were brilliant working in 35c plus conditions. All of our property arrived safely. Absolutely, no scratches nor damage. Their attention to detail was impeccable. A fantastic job. This is the 3rd time I have used fragile removals and will refer them to my friends

From first contact of queries, booking, payment, emails, pickup and delivery was all precise and on point .. true to word n quick delivery from Syd to Perth highly recommend their services

Three of the boys from Fragile moved our large family house in Malvern East and they were absolutely fantastic. They were extremely efficient, professional, friendly and polite and we had no problems or issues. We were so appreciative of all their hard work! The company itself was also great to deal with...coordinating the date and time for the move was quick and easy. We were organised with all our packing which helped

reduce costs too. This was my third or fourth time using Fragile and each time the experience has been the same...I would not hesitate to recommend

From initial enquiry, right through to the final delivery of my furniture and personal belongings, the staff and team at Fragile Removals and Storage were extremely helpful, thoroughly communicative, and treated my furniture and belongings with the utmost care and attention. I chose to use the services of this business to move a smallish consignment of furniture and personal belongings from a Storage facility in Brisbane, to my apartment interstate in Melbourne. Pricing was competitive and reasonable, and the flexibility of being able to hold my goods in Storage at either, or both ends ( Queensland, and Melbourne) made planning and flexibility extremely easy. The removal teams at both Brisbane, for pick up and Melbourne, for final delivery, were extremely polite, friendly and professional in the handling of my belongings, and kept me informed at all times as to their progress in the pick-up and delivery process. I would thoroughly recommend the services of this business to anyone. Many thanks " Fragile Removals and Storage " to you and all of your team.

The end to end process was excellent. This enabled accurate estimates of volume and cost. The insurance process was easy to follow, and the pick-up was on time. The team did a great job of wrapping and stacking the load to minimise the space we were paying for. The team worked well together and were very polite and helpful. There were no surprises in costs or additional requirements. At the destination everything was delivered un-damaged including my prized Ducati. The team worked efficiently and safely and nothing was too much trouble. During the quote process, the Project-Manager checked out the the multi -level house and sloping block on-line and was able to adjust the quote accurately to ensure there were no surprises. The overall cost was very reasonable for an interstate removal requiring 2 trucks. Thank you. Richard and Cathie

The driver Chris and the team provided high quality service, very attentive and great communication. They took great care of my stuff and made moving much less stressful. Thank you so much!

Quick and very professional. Recommend to other people.

We are so impressed with the service at Fragile Removals! Their staff are professional and very friendly! They took such good care of our possessions and made the move stressfree! Will definitely be using them for any future moves

Jack Sales and Patrick Beech did an awesome job very professional with great work ethics. I would highly recommend these young lads.

I'm happily giving you guys an 11 out of 10!!!! From when I made the booking down to working with Alex and Joseph in Brisbane on moving my furniture. Wow I could not be happier with the service. The guys were so respectful and helpful and friendly. Made my move stress that much easier. I couldn't thank them enough. I was referred to you guys by a friend and I will certainly use you again in future and recommend to anyone who needs a removalist. Thank you so so very much. I am one happy and very satisfied customer. ??

Professional, accommodating to changes, and friendly efficient removalists. 3rd time customer. Great experience.

Best removalists I have had! Friendly, efficient, productive! Thank you Igor and Marcio!!

I had the best experience with fragile removals! They did Everything you'd expect from a removalist plus they wrapped every piece of furniture with either blankets or plastic. Highly recommended!! Services:

Moving-related storage , In-state moving

Extremely easy to communicate with the entire crew. I felt that they went the extra step with the move. Was kept at ease that my furniture would reach its destination without any issues. Would highly recommend.

Great service on my big interstate trip. Highly recommend

U can't go wrong with Fragile, they'll sort ya out and leave ya thinking moving isn't so bad anymore, highly recommended ??

Very happy with the service and the removal from Fragile Removals & Storage. The office was professional and friendly. The removal guys, Nico and Pat, were wonderful and took great care, and were happy to move the couches around when i changed my mind! The cost was very reasonable. I wouldn't hesitate to recommend this company. Thank you for a stress free removal!

Fragile movers took a job at the last minute when another company didn't turn up and they were very quick, professional and explained to me things I may not have known as in ohsc with storms which others I have used haven't, the two guys that did the move went above and beyond to help me, even after doing 2 jobs before mine, as I was in a bind with having no one, their help was very much appreciated. Job very very well done, will definitely be using fragile again and will be recommending them to everyone I know.

If you are looking for a professional, affordable, organised and down to earth removalist look no further as these guys are the A-Team. Very punctual great time management skills and they handled our belongings as if they were their own. Thankyou again for your fantastic help Fragile Removals we will get you again next time we move!!

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Our furniture was treated with great care. The Staff were friendly and had a positive attitude despite this being a challenging move. I have used Fragile before and would recommend them to anyone. Service: Local moving

Great Service, very friendly staff and were able to help with disassembling and reassembling some items, which was greatly appreciated. Thanks!

I used Fragile in moving homes from Melbourne to Perth and they could not have done a better job. Easy to deal with and communicative the whole time, movers friendly at both ends, delivery time well under estimate and everything accounted for and in perfect condition. Thank you Fragile, I know who I'll be using for my next move!

Great work ethic and amazing staff. Always on time and get the job done fast and efficient.

Positive: Professionalism , Punctuality , Responsiveness , Value Everything from start to finish was excellent. No hidden costs. Services: Moving-related storage , In-state moving

We had to move 10 moving boxes plus pictures and a timber chest from Perth to NSW. The communication

was clear and accurate and we received our goods, without incident, within 3 weeks. Would use Fragile again.

Just moved from Brisbane and am happy with the service from Fragile. In Brisbane all my items were properly protected with different kind of materials. The boys in Perth followed up on the same level. They quickly unloaded the container and everything was unwrapped by them and put in place. Interesting to see that the service is overall on such a good level!

Fantastic experience with these guys

Truely professional. We moved our household goods from Melbourne to Perth. Amazingly, good service from day one, till they unloaded and assembled our things at Perth. Will always remember and recommend them for moving things across states at Australia. You guys are awesome.

Had a great experience moving due to the fantastic work of our removalists. They worked very hard, never stopping and were very respectful of our needs. Will definitely recommend them to everyone.

Very friendly, helpful and careful with my furniture and goods. Would recommend.

The drivers were punctual, friendly, helpful and I was very happy with the service and price.

We have used Fragile removals 3 times so far. 2 interstate and one regional Vic. The removalist guys are always so nice, polite and nothing is a bother. The service from booking to end delivery has always been smooth sailing. We'll be using them again.

I will definitely use Fragile again. Everything from the initial booking, to the follow up confirmation and the day of the move was highly professional. On the day of the move the removalists were on time, they called ahead, they were very polite, explained the contract and were very efficient. They were incredibly careful with the old jarrah floorboards in the house and protecting everything from damage. It was very hot the day of the move and I was surprised by how quickly they worked. Thanks again!

We had Matt and Niall and they were absolutely fantastic movers! They took such good care of all our items, properly wrapped them up with blankets and strapped them into the truck, and were wizards with storage box tetris. They were both super professional and hardworking (they were moving for about 7 hours straight!) that we could not be more thrilled with their work ethic. Such absolute gentleman! Highly recommend.

Reliable, affordable service and very supportive staff

Great service, would definitely recommend Thank you ??

We have use Fragile 3 times and they never dissappoint. Handle your furniture well and take their time to ensure safety and not damage..

A good crew! Communicated well, cared for our stuff and respond to any questions. I recommend them ????

this is the second time i have used this company and they really get in and get the job done... for a company that charges by the half hour I would assume they would take their time but these guys really want to get in and get out. But more importantly they do it with care. Both times I have watched the boys take the time to help each other move round tricky corners and wok out the best way through rather then just push it through. Thank you, will use you again...well I hope I don't have to move again in a hurry!!

Good customer service. No hassles with pick up or delivery

The guys from fragile removal did a great job. They showed up right on time and were very friendly and professional. The price was also very good for the busiest time of year. Unfortunately one of the guys hurt himself during the move so we waited an hour for someone else to come out. We weren't charged for that time and were kept well informed about what was going on during that time. I will probably use these guys again.

The truck was booked for 8.00am and two young guys Colin & Rony were on time.I showed them what had to go and they got straight into with no mucking around and worked well together as a team.I would have no problem recommending these two guys for the 3"P's" Prompt ,Polite & Professional.

Friendly staff. No issues with move.

Did not end up using this service as I found another mover that suited my budget and personal needs better. However, their response time to my initial inquiry was very good, and Rozana's customer service was also excellent.

#### NO REVIEW

Recently we used Fragile Removals to move from Victoria to Perth booked through Muval. By all accounts from a family member at the pick up point in Victoria, the guys that turned up were amazing, hard working and did a really good job of packing the load for transport. However... When the items were delivered to Perth, it was obvious there had been some sort of accident as one item in particular (a unique, large lamp hood) had been crushed & marked beyond repair. We did not have insurance on the hood but it was made known that it was a fragile item that needed to be handled with care. After many attempts to report the issue, we were met with radio silence. No follow up or explanation after calls, emails and voicemails. Just silence. They charge a bundle for less than satisfactory service. I would not recommend Fragile Removals.

Critical: Professionalism , Quality , Responsiveness Very disappointed with the company on my interstate move. Poor communication from the office, shattered an expensive painting and frame and the movers were unprofessional. **WOULD NOT RECOMMEND** Service: In-state moving

Wouldn't recommend. Recently relocated from VIC to WA. My tv was irreparably damaged. They definitely do not deserve to be called fragile movers. No one should move a tv by themselves. It's a two person job regardless of how strong you are. Sadly fragile removals did not seem to understand that despite their name. They also could not figure out where one of my bags went. The worst thing is they only insure up to \$2500 for tvs which I still need to pay \$500 for excess, effectively only covering \$2000 on my tv that I bought last year for >\$3k. Very upsetting. Would not recommend. **EDIT:** Fragile removals have since contacted me to

remind me that my partner was the one that decided to insure my tv for \$2000. Also they did reimburse \$400 for the bag that they lost. They also told us to remove the review which I will not. Reason being: While I understand that we insured the tv for \$2500. I was under the impression that the tv would be delivered in one piece and in the event it doesn't turn on due to transporting then I guess I it is fair I be reimbursed the amount that the tv was insured. But my TV was mishandled intentionally by the movers. It was not an accident that my tv was broken it was due to neglect. Oled tv panels are so thin and it should neither be handled by its corners nor by a single man. Also, since then, I have noticed indentations on that my ergotune supreme's foam armrest - as if they have been supporting a heavy pole for a long time. The fabric seat also feels like there is an indentation on a part that my bum does not sit on - also as if something heavy was placed on it for a long time and had stretched out the fabric. I was opened one of my boxes and the bottom of the box was covered in glass - i couldn't even figured out what was broken as they were pieces of shattered glasses. This is amongst bowls etc that was wrapped in bubble wrap. Just gives me an idea of how much force were using to throw my boxes and belongings around. Im staying in a temporary house atm most of my boxes are unopened Im am afraid of opening them and finding out what else is broken. I understand that moving stuff requires brawn but it also requires finesse. They claimed themselves to be fragile removals but they are none of that. I am only glad that the stuff that I have are not sentimental. Once again I will not recommend fragile removals and will not use their services again. Customer service was good tho communication was quick. 2 stars for that.

Recently used Fragile Removals to move from Victoria to Perth booked through Muval. The guys that turned up in Victoria were amazing, hard working and did a really good job of packing and placing into the shipping container. They left us feeling impressed! However- When the items were delivered to Perth, it was obvious there had been some sort of accident on the way as the items had been repackaged. Furniture items were broken / damaged and the plastic storage containers were smashed to pieces. Items were hurriedly placed into new house and the removalists took a few photos of the damage, including the chunk they took out of the plaster. Then nothing. No follow up or explanation. Just silence. I would not recommend Fragile Removals.

Worst removalist company I've ever used and won't be using them again. The two removalists who came to my house to pick up furniture and packed boxes showed little respect both to me and my belongings and I was thinking about cancelling the job half way through because of their arrogance and ignorance. Calling themselves 'fragile' is bollocks because these removalists didn't even know that an expensive bed needs to be lifted and not slid along the ground. They also tried to rip me off by saying they weren't willing to check their wallets to pay back the correct remaining money in change. My recommendation - DON'T USE THESE REMOVALISTS!

a disappointing experience in the end, as every piece of our bedroom suite has been damaged, as well as multiple dents to the walls of the property we were leaving (a rental which we will now need to pay to cover the repairs).

Communication was shocking. We have moved more than 13 times in 7 years. Interstate and internationally and we have never paid this much before. They moved half our things into our new home and were supposed to provide us with all essentials while we quarantined. They left out the Cott, washer, dryer, TVs. They then couldn't deliver our second lot of possessions until almost 5 weeks after initial pick up.

Terrible experience moving from Melbourne to Perth with Fragile Removals. Their packers packed way more boxes than required half full and many crumpled in on each other, they stacked a huge load onto our dining table and snapped clean it in half and promised a refund for space not used. In trying to seek the claim for the dining table and the refund promised for space not used, they started out extremely aggressive in their dealings and now have never responded again, after multiple genuine attempts. Can not believe a company could

conduct business this way. Would not recommend!

Awful experience in any way. Moving Melbourne to Perth, half of our furniture broken, TV broken, mattress, clothes and shoes damaged by water infiltration. A lot of useless calls trying to get refunded as everything was under insurance, we are still waiting and we don't know what's going to happen as the customer service doesn't help. Worst moving experience ever. Avoid fragile removals.

Worst moving and storage experience imaginable. Several items went missing and others damaged. Follow-up communication was virtually nonexistent and mostly argumentative. Making a claim for damaged and lost goods turned out to be a nightmare experience of deceptive documentation and several inconsistent excuses. Finally, (one month later) they were only prepared to pay a small fraction of the replacement cost of just one of the many lost / damaged items. And, they ONLY pay a claim if customers agree not to post negative reviews on social media. Services: Moving-related packing , In-state moving

## Perth ## related business ..Totally an unprofessional company. Cancelled on the original day of my moving saying they had a job that was bigger than expected for that Friday that was arranged. Then offered me another company to do the work that increased the rate substantially. The communication was unprofessional after agreeing to do the move. I would not recommend or use this outfit based on my above experience. I had a day off work with projected times every 2 hours that never occurred on the Friday. They did arrive 1 day later and asked for cash on the day. Seriously if they had been helpful, I would have paid cash as an appreciation. DO NOT USE .

We were moved 2 weeks ago and I lodged a complaint about missing items, one of which was a very expensive men's bracelet. Have made contact several times after being told they would contact me on Monday pending the outcome of an investigation. Haven't heard back despite several emails and phone calls. Very

disappointed with the time it is taking to resolve this matter and allow me to get a claim underway! Leaves a very sour taste in my mouth when a move to a new home should be a joyous occasion. Company should have reputable staff that treat the fact that they are in our home as part of their job and act professionally. Not happy :(

For a place called fragile removals and storage, I was very angry that they broke an ornate piece of furniture. I'll never go back to them and would recommend no one use them either.

Would not use this company again! Wish I read the reviews before getting them to move me from Brisbane to Perth, countless issues with them

Fragile removals is the opposite. They don't have any urgency to fix any items. The management is poor and not once have I received a call back to get the item fixed, I constantly chase them.

**AVOID !!!! DO NOT USE THIS COMPANY. EVER.** Please read review for details. Hi Everyone, We used fragile removals to move all of my furniture, whitegoods and electronics from Melbourne interstate to Perth in December/January. We paid extra for insurance as we were worried about the distance our beloved housing items were travelling across Australia. We received our items in January and our 75 inch TV, Washing machine, coffee machine, mattress and lots of other items were all damaged in the process. Now we are being told that the insurance does not cover the damages! So upset is an understatement. There was around \$9000 worth of items damaged and won't be able to recoup any of it. Please if you have any sense do not use these for moving home. Lesson learned!!!!

We would not use this service ever again, they were given specific instructions on how to pack items, provided with all the protective wrap and despite all of this did not use any of it. Items were then put in

storage in such a mess that another company had to be hired to wrap and fix the mess. Do not use !!!! I would have given zero stars if possible.

Would not recommend these guys. First I worked harder than the two guys did. Their only interest was stretching the job out. I did alot of work before the move day so it was only the heavy items to move pretty much down the road. Because it was listed as a 5 bedroom house they thought it was an all day job and were annoyed it was only small. They painfully took their time while the hours clocked up and at the end they damaged a piece of my furniture that I've heard nothing back from them about after multiple attempts.

Possibly the worst and most unhelpful movers, I have ever encountered!! Not only did they break our TV, washing machine, serval plates and they DROPPED OUR MATTRESS IN THE DIRT, but even after we paid for insurance they still refused to cover the costs of the damages. Please don't ever use this company. They are quite literally the worst moving company out there.

I don't recommend this company to anyone .

2 Years ago we moved from our family house to an apartment. Whilst delivering into the apt there was considerable damage to the walls and furniture. In particular the large lounge suite was not able to fit through the stairwell into the apartment, I suggested removing the legs ( easily done). They didn't listen and consequently damaged the walls and legs of the couch We also had damage to the lift & dropped our teak table denting a corner. After months of correspondence I have yet to have the matter resolved. I'm out of pocket over \$3000 + have a damaged table & couch. I checked that the company had insurance prior to booking. Its so disappointing that they just ignore you once the payment is made!!!

Never use Fragile Removals Smashed sideboard, smashed pictures, smashed table-contractor on arrival said

everything was badly packed, Moved from Melbourne to Queensland. Fragile accept responsibility on phone and then when cost of replacement items discussed they backtracked and are now not discussing anything. Pay peanuts get monkeys-my suggestion is to go with a company that is a bit more expensive. We are beginning legal proceedings as the damage bill is mounting as we unpack more things. Incentivised Review No

When the items were delivered, we realized 3 items were missing. They managed to find 2 of them a few days later and compensate a missing broom 1.5 month later! A few days after the initial delivery, we noticed a missing box. Got in touch with them and they insist the missing box was delivered and will not even compensate the \$200 as stated in their policy. Why would I go through the hassle of reporting the missing item if the box wasn't missing! Of all the boxes that was delivered, they had to lose the most valuable one with wedding photo albums in it, which is difficult to replace, causing lots of grief to us. Basically, they misplaced 4 items in the initial delivery, shocking inventory process! Stay away from this company. Expect missing items if you use their service!

Shipped from Melbourne to Perth. Good people in Melbourne, very friendly, young nice. In Perth also nice but items arrived in poor condition. Side of my tv was melted in. Still working but not acceptable. Bed head and pieces of board were chipped and had little patches burnt. Overall not happy. But didn't pay for insurance so what can you do. Won't make mistake again

Missing items from my boxes after being in storage with these guys for a few months. It seems they had been through every box and had already cataloged every item by putting a numbered sticker on every individual item, possibly getting ready to sell on as I was behind with my storage costs. When I did finally settle my account with them and they delivered my 46 boxes, many items was missing. And the items that was missing was all small, and valuable. Gold jewellery, designer bags and wallets, 15 items in all. When I spoke to a manager he spoke to me incredibly rude and aggressive and said because I had signed the paperwork when the

boxes was delivered, I had agreed that all the items was there. Obviously I was unable to account for the items in the boxes without opening every box and checking at that time. He basically told me there was nothing I could do and wouldn't help me anymore. Considering taking matter to the police. Untrustworthy company. Very dodgy scammers

Moved from Melbourne to Perth. Terrible company. Stuff broken and they take no accountability. Insurance is a scam with how hard they make it to claim etc. I would avoid at all costs!

i have many things to share from fragil removals thank to GOD the true came to the head !!!! after almost one year FRAGIL REMOVALS SAID was a MISTAKE !!!!!!!!!!!!!!! and FRAGIL REMOVALS LAWYER MEDELSON SAID : WAS SENT TO BEBT COLLECTION ERROR !!!!!!! I ONLY SAID THE TRUE !!!!!

The management gave the worst customer service I've ever experienced - they were rude and dismissive about my concerns regarding the location of my furniture after a month's delay in delivery. However the guys who delivered the order were great - polite and professional.

One star is still too high! Removalists were untrained backpackers, one with little English. They sent a truck that was too small, and had another person's stuff in it so they missed out some of our things. The lack of training has resulted in damages to my furniture which the company is now not accepting. I don't expect to pay a premium to get untrained backpackers - could've used Air Tasker if that was the service I wanted!

A company who treats their employees like dirt, extremely cheap. Can't recommend at all

Don't use this company whatever you do!!!! We moved from Melbourne to Queensland and they have trashed nearly all of our furniture, smashed pictures, legs broken off furniture and then said the furniture was vintage and therefore delicate. Quite to the contrary it was incredibly sturdy and well wrapped furniture. On arrival in Queensland the unpacker said that the furniture had not been correctly packed and that there was too much weight put on it which smashed it. They are refusing to answer correspondence even though they originally accepted responsibility. This is the worst removal experience I have ever had!!!!

Terrible service. They damaged my washing machine and sofa and it has taken them 3+ months to give a partial response. They sent a person to look into the washing machine and the person confirmed verbally that the issue was because of poor handling, however Fragile Removals has come back saying they will not compensate arguing there is no physical damage to the washing machine, even though when the washing machine was unloaded it was not covered or in the same position as when it was packed in the origin location. As of today, we are still waiting for someone to come and check the sofa. Terrible customer service, wouldn't recommend anyone to work or hire this company.

I used this company when I moved from Vic to QLD & would have to say they are the worst removalist company I've ever used. They broke numerous furniture items that I had to replace myself as they took no responsibility. They were terrible to deal with & I have told everyone I know not to use this company ever. Best removals company is Brisk Transport they are efficient & brilliant at what they do.

Called me to add a 3rd guy to make the move go quicker. I have never seen 3 removalists work so slow. 1 guy spent the time chatting to his boss and walking around and the other wandering lost. Could have done it quicker myself. I moved 2 minutes away and they followed in their truck arriving 30 mins later after they sat at a servo and ate lunch and they still added that time to their time sheet. What should have taken 4 hours took 5.5 hours. Damaged the wall and all denied it. Called the company after to discuss my concerns and emailed

them but no reply. Try some one else. These guys aren't professional removalists

Do not use this company!! We were scheduled to have our furniture delivered however on moving day, the removalists didn't turn up. When we phoned the company to see what had happened the staff (Ella and Jem) were dismissive and advised that they didn't have the job booked in, despite us confirming with them over the phone twice prior to moving day. At one point the staff above blamed us for the error. Staff were unable to identify who their senior manager was or what their escalation pathways were for such situations. It took writing a comment on their social media page to receive any action to resolve the situation and identify who the manager was. We had to wait two days for the company to organise delivery and we were therefore required to make alternative living arrangements and dispose of perishable food (fridge items) resulting in financial loss. We were promised that the company director, David Drezner, would phone to apologise and discuss the situation however we're still waiting. We also have multiple scratches on furniture items and damaged packing boxes. It's been an incredibly poor experience. Services: Local moving , Moving-related storage

Had my furniture picked up from nsw to be taken interstate to Perth. Was supposed to arrive on the 14th Oct. I gave them a few calls a few days before hand to make sure stuff was on schedule and got a vague response about driver availability. Then I received an invoice for a months storage, which I responded to by letting them know I did not need storage as I had an empty house waiting for the furniture. A few days after that I get another invoice for over \$1000 for extras that weren't on my original inventory..which there were but they were 2 rather large items that were listed that simply did not exist. I told my good could not be delivered until the 20th Oct and not unless the extra grand had been paid. I offered to pay the extra if they could get my goods to me sooner, suddenly they had a driver available on the 17th Oct. I waited all day, finally the truck arrived at 5pm! By this time I'm tired and stressed and just told the boys to unload as quickly as possible and to put all the boxes in one room..the 2 blokes did not have an allen key between them..so all legs were left off the

lounge and the beds. My fridge freezer which was under 12 mths old now has several small dints on the front doors, my washing machine, also newish makes a loud whirring noise now, because the drum stabilisers were not used although they were available, it also has scuff marks that were not present before. The biggest upset is my dining table..very obviously had something heavy resting on the legs and they are broken, I've had 3 attempts to fix the legs myself without success. The glass table top is still propped up against the wall 3 weeks later and the stand/ legs are still in pieces..had other issues but too much to write here..upshot is , I would not recommend this removals company.

I used this company to move my items from Perth to Melbourne (storage). 12 months later when I took my boxes out of storage I found that about 10 or so boxes were missing! Including really valuable handbags. I also used them to move from my Melbourne apartment to the storage unit. Again, a box Had gone missing with jewellery and other valuable items. Not only that, the price was significantly more than what was quoted (Im talking double). They pack really slow & spending time on the phone texting their friends (at least one of the members from Melbourne team I had was doing that) The Perth crew that packed my items was great. Peter the guy who does the quoted customer service was great but the best way to judge customer service is when things have gone wrong... Ive sent them a list of items that are missing and constant emails asking for an update and they haven't one touched based to say anything.... I would not recommend them to anyone.

Services: Local moving , In-state moving

THEIVES!!!! Stole my wedding ring and watch From top draw of bed side cabinet. Melbourne to Sunshine coast. Do not use this company ??????

Absolute scammers! Took 6 hours to pack a 2 bed 1 bath apartment where everything was already in boxes and bubble wrapped etc. The men would often disappear for 15 minutes at a time, taking advantage of the fact my 69 year old mother was on her own. Then had the gall to charge \$1600!!! The same amount of things

previously cost \$600 to be moved and that included unpacking at the other end! I have approached them to complain and they took a message for their "customer care team" which obviously haven't called me back. Do not use this company!!

Overpriced and rude

-----WARNING----- Avoid at all cost, The experience we received from this so called company was extremely slow and very poor service. \*Fitness of workers extremely unfit and other was very elderly. \*Very poor with GPS Navigation and following clients requests. \*Takes 1hr longer to save \$6 Toll. \*Very slow and happy to stand around. \*Time frame skills lacking. \*Happy to drag gloss furniture on rocks and gravel. \*Unable to judge door frames. \*take no responsibility for damages even with proof. \*Insurance is non existence and loves story time from there workers. If i could give a 0 star rating i would.

Speeding drivers, dirty trucks and bad driving. I wouldn't hire these people for anything fragile.

Caution - think twice before using this company. Drivers were a no show and no alternative arrangements confirmed by the company. Read below for full details. I booked Fragile Removals for mum and dad's move from Calamvale to Rochedale South for Saturday 3rd of April. Everything was all set including reconfirmations from both sides - both Peter from Fragile Removals and mum called to reconfirm the booking a few days prior. However, on 3rd of April mum received a voicemail at 9am, the same time as their removals was meant to show up, stating that one of their drivers got Covid and has to isolate and the second driver also has to isolate. Alice, from Fragile Removals, informed mum that they couldn't get anyone until Tuesday (after the Easter long weekend) but mum pushed back and said it's too late as they need to deep clean the 3-bedroom

townhouse and hand back keys to which Alice said she will try for Monday the 5th of April. Mum called me and I was shocked to hear this unfolding and I could hear how distraught she was. Mum doesn't have a good heart and that triggered me to call Alice myself. There was no new information that she hadn't already told mum and she just kept repeating that she will try and find someone for Monday. Moving home is already stressful enough as it is and when the removals company themselves cause additional stress, it's unbelievable and truly unprofessional how they don't have systems in place to mitigate risks. We've had to cancel their services or lack of services I should say because we have zero trust in them now. I hope someone reading this puts proper systems in place such as having standby drivers on call as backup and having a standby manager on duty for staff to call - Alice was the only staff member working with no manager. Mum and dad are in their late 60s having to unpack essential items such as bedding and toiletries from boxes because everything was packed and ready to go for their move. I do hope leaving this review will make the company improve their services but for us, you've lost a customer. Service: Local moving

I had to deal with Fragile removals as part of an insurance claim. I have had furniture go missing, now I still don't know if it was this company or another partner that have misplaced my furniture, however I do know that Fragile have been appalling at following up my issue or returning calls even though I have been promised that someone 'will definitely call you back before the end of the day'. I had someone from Fragile come out on site to deal with my issue, and they asked if they could have until Monday to look in to the problem, I have received no call no email, even when I called up the team Customer Service to follow this up, I was told that someone would get back to me, this has never happened. Customer server is appalling.

Booked Fragile Removals in NSW through Muval for a transfer of our belongings to Western Australia. The pickup crew in NSW and drop off crew in WA were fine. However, the communication from this company is appalling. We were sent a delivery date of 4/11 but didn't receive our belongings until 15/11. When expressing my dissatisfaction with the company in an e-mail to the Interstate scheduler, I received a response telling me

they hadn't received a delivery address (as if it's up to me to provide this and not Fragile in NSW who had my information already) and told that this time of year, transfers can take 3 weeks (I was never told this at any point prior). In other words, the response I got from him was supremely lacking in any kind of empathy. Then, when we finally received our stuff, one of our small tables was damaged. I had to send three e-mails before someone got back to me about it. Awful experience with this company during a pretty stressful period. I got the sense they couldn't care less about customer service/satisfaction.

My friend is in tears from her experience with these movers. she lost over \$15k in items including ones of sentimental value. got insurance from the company which they did not assist in supporting her loss and was dismissive in nature.

Do not use this company, they did the 1st half of the job taking away the furniture but didn't bother to schedule the return, I checked with the initial crew and they confirmed that someone would be back 2 days later. It didn't happen and we had a Open home that afternoon. My 80 year old father and I carried all that furniture back in ourselves. Their response? Still waiting.....

**\*\*\*DO NOT USE\*\*\*** Where to start..... if you're looking for a professional removalist company, look elsewhere. 1. 2.5hrs late on both ends 2. Invoiced double the initial quote 3. Apart from the teamleaders, removalist are unprofessional. (eg. found some of them helping themselves to the food in my fridge while on the job) 3. Interstate manager held my furniture and effects ransom and threatened to cancel my job while the guys were in my apartment if the hidden fees and charges (total of an additional \$900) wasn't paid for. Which in turn would have incurred a cancellation fee and coverage of removalists wages for the time on site. 4. Delay after delay during the transport of my furniture and many damaged items.

Posting on behalf of tech challenged friends. Would rate no stars if able to. Two hours late arriving.

Downsizing so a lot of furniture to be left in situ, and still took 10 hours to relocate a prepared and fully packed house 7kms. Brought the wrong sized truck. Only brought in and placed the few pieces of furniture and left all labelled boxes in the garage, despite specifically being requested not to. (relocators aged 66 & 74). Their cleaners took 7 hours to clean despite only being asked to clean 3 bathrooms and all floors. Carpet cleaning (separate from general cleaning above) was only done in exposed areas, no furniture moved, requiring further effort on owners part. Final price was double the expected cost. All complaints and requests for refunds have been ignored.

The customer service is ignoring my calls and emails about insurance claim It is very hard to contact the customer service officer for a claim after moving. After I sent a claim form(#208204) for a damaged item and got an email from the customer service officer saying that she will be reviewing my case a month ago. after waiting for 2 weeks with no news, I called 5 times and sent 3 emails but I got no callback and no email. I don't understand why It takes more than a month to review it or let me know about the process. Even it takes that long, you need to respond. just ignoring is so rude. I saw some similar reviews about the claims from other customers, hopefully, this company is not doing this on purpose until customers give up after a long wait and being ignored.

Worst company ever. They extorted us. We were given a \$500 maximum price estimate to move all of our stuff from our 3rd floor apartment into their storage facility. We moved ALL of our stuff except for 5 pieces of furniture to the ground floor about 10 metres from their truck ourselves before they arrived (and they were late by the way), and yet they charged us MORE than their maximum estimate despite the fact we did the majority of the work. Absolutely worst company ever. All they did when i raised the issue with them was make excuses and refuse to listen to anything I said. I've made a complaint to the ACCC and also to Consumer Affairs

Victoria. DO NOT USE THEM.

This company did a terrible job of our move in Brisbane. They sent the wrong size truck, meaning we had to waste money swapping vehicles. One of the movers clearly did not know what he was doing, asking constantly what to do and needing long explanations. The move took a lot longer than it should have. Two pieces of furniture were broken. I witnessed them on more than one occasion trying to shove the furniture through a door it clearly wouldn't fit through (when there was a more appropriate door that would work). There were scratches left on two of the doors of the rental property we were moving into as a result. After many, many phone-calls and e-mails some compensation was offered and someone was sent to fix one of the doors. After two efforts to fix the door unsuccessfully (painted a door with wall paint without stripping back old paint, and then came back and painted it a much darker colour), we were offered compensation that would not cover the replacement of the door. We would NEVER recommend this company to anyone.

## **Page: Magic Monster Removals - Muval**

Magic Monster Removals is an Australian company that was established in 2016 with the objective of covering the needs in moving at an urban and national level. We are committed to delivering removals on time and in perfect condition, to the satisfaction of all our customers.

We are a company dedicated to the transport of furniture and equipment at a local, inter-municipal and national level, through our experience we provide the best services, with quality, efficiency, responsibility, compliance. And security in the handling and transfer of furniture and belongings, satisfaction and peace of mind through the optimal use of Human, trucks and Communication Resources.

Magic Monster Removals came highly recommended and we were not disappointed. Daniela was wonderful to deal with during the booking process ..... even though we could not give her a firm date in the initial stages. On moving day, Jamie and Oscar were efficient, energetic and careful of our furniture and possessions. They worked tirelessly over what turned out to be two truckloads and quite a few hours. We cannot thank them enough for their hard work.

Had Magic Monster move me yesterday and cannot give them enough praise. They were the most polite two young gentlemen who did a fantastic job. Would highly recommend the company.

Excellent service, good communication. The removalists were nice and humble. And their price was pretty competitive as well. Highly recommend them to those who want to balance the budget and the quality.

Fantastic experience. Both gentlemen were kind, hardworking & careful! Would 1000% recommend this company. Thank you so much.

Im so happy I chose Magic Monsters Removals. They are extremely professional, arrived on time and handled the move perfectly. Special shout out to Jamie, Fran and David. They helped with bed assembly too. They

were very careful of all the belongings, used blankets, straps etc to ensure there is no damage. Highly recommend and they are affordable too.

Magic Monster removal service is very easy to work with! They were professional and only too happy to help disassemble furniture, remove the dryer from the wall, they had all the tools required! They then set it up for me! They were very polite and kind asking me along the way what I would like and how I would like my furniture protected after I told them about a piece of furniture that had been in the family for decades! They were efficient with time and affordable! I will certainly use them in the future if I need! They made moving easy! Thank you Magic Monster!!!

Professional, on time, took care with all my furniture to ensure nothing was damaged. Highly recommended. if you are moving you should get these guys

They treated every box and piece of furniture as a fragile one, listened to what we needed and delivered with a smile. We were very happy with their service and their commitment to follow through on time even with mechanical issues in an interstate removal.

Exceptional, careful, punctual, flexible. Wouldn't hesitate to use again

Great professional service, very happy with removalists and end of lease cleaning. Very reasonably priced, would recommend!

I had booked professional removalists (3 different companies) in the past and Magic Monster is by far the best (quality of service and price). Jaime and Juan were professional, punctual, very efficient and careful. I am very satisfied with the service. I would personally and highly recommend them to my family and friends.

I have nothing but high praise for the guys who moved me and my family. Extremely professional, very quick and careful. Willing to go above and beyond in their support with my move. Thank you so much, you made moving day so stress free.

Everything went smoothly and the movers took great care of our items. Really great service!

Cant fault them, the service was super friendly, they got the job done quick and offered to help out more/go above and beyond. To top it off, a very reasonable cost and made the whole process of moving stress free.

Highly recommend. The guys who helped us were friendly and professional. We had a large amount of stuff and they worked carefully and efficiently throughout the whole process. Arrived on time and maintained excellent communication. Would use them again.

Our removalists were fantastic, communicated prior to and on the morning of the move. They are incredibly hard workers, they took really good care of our furniture etc. I definitely would recommend!

Amazing company! Loved every minute of interacting with the kind and helpful staff. They made moving interstate a breeze. Highly recommended!

Professional and careful movers. Good communication.

Diego and Anders were excellent. You can see the experience they have through their work, and how they solve problems during the process. Only took them 2 hours to move pretty much a whole house, and they take great care with how they move all the items. What you think will be a problem to move, they'll make it look easy.

Ideal moving experience! friendly staff, our stuff wasn't even well packed as we were in a rush but they still did it in record time. Great work!

Good, efficient moving service. They did a great job!

Positive: Professionalism , Quality , Responsiveness Very professional and excellent service! Highly recommended!

Excellent moving experience. Would 100% recommend to everybody!

Great moving company, punctual and very efficient. Highly recommend.

Very professional and caring for my items, using blankets to protect them without damage . Had a great large truck with lifter. Strong boys . Will use again. Gracias !

Followed directives, timely, know what they are doing and great at it

The team from Magic Monster Removals did a fantastic job helping us move. The team were polite, punctual and professional. Nothing was too difficult and they were super efficient. Thank you for doing a great job. Would definitely recommend and use again.

Excellent communication and very thorough and considerate of our items and furniture. Fully recommend for your next move.

Highly recommend. Diego & David confirmed our booking ahead of time, and arrived on time. Both were friendly and focussed on their task. They handled our furniture and belongings with care. We moved from apartment to apartment (so lots of loading/unloading in lifts) they were clearly experienced in this type of move, and managed it with care and efficiency. No breakages. Job was as quoted - no unexpected charges. Will definitely use them again.

Excellent service, very punctual, they care about of things and furniture, they have all the equipment to move things. I recommend them 100%

Highly Efficient and reliable. Definitely recommended

The Magic Monster team was amazing! I moved my stuff from Melbourne to Adelaide and the staff and their service was 10/10.

Made my move quick and easy. Very helpful and cooperative. Couldn't recommend them higher.

Could not be happier with the service I got. Super friendly staff and very reliable. The boys were so friendly and nice and the collect and drop off was very professional. Great pricing as well, no one I found was as affordable as they were. Highly recommended and will definitely use them again if I ever need to move states

again.

We had an amazing experience with these guys. They are professional, polite, caring and responsible. I will call them if I move again and suggest them to friends.

Magic Monster removals completed my move on Friday and I wouldn't hesitate to recommend them. No problems whatsoever and they were friendly and helpful and the communication was fantastic.

The removalists were very polite and so efficient and accommodating and nothing was too much trouble . The service was excellent and I would 100 % recommend them to friends and family and will use them again when the need arises ??

Punctual, professional, well equipped, quick and affordable service! Highly recommended!

It was a big move, Diego and Jeison worked tirelessly all day. They were super careful with our stuff and super courteous. I would recommend Magic Monster removals to my friends and family.

The staff at magic monster removals were wonderful. Contacted me about my move with any questions. Booked it for a particular day and time, and the job was done. They treated my digital piano with great care. Even better considering I am in Perth trying to organise a move in Adelaide. Definitely recommend.

The team moved us from Melbourne to Adelaide right before Christmas and were professional and friendly. They went beyond what was required to make sure everything was safely loaded and even helped rearrange a few heavy items in the house to help us out.

The team was punctual, efficient, friendly and took great care with all the items

Jaime and the team provided excellent service. Made light work of the bulk items from a three story townhouse. Also helped by removing and reattaching the front door to fit items through. There was also time spare which allowed for additional items to be loaded and everything made it to the other end in one piece. Muchas gracias!

Magic Monster removals were timely, efficient and super caring with our possessions. Our two removalists were such nice guys and made the process even easier!

If I could give more than 5 stars I would! Absolutely incredible service from booking to the move! Friendly, professional and handled all of my furniture with extra care! The most seamless move, thank you so much, I would recommend your services to anyone

Our experience with Magic Monster was exceptional. The moving team handled our belongings with care (especially our plants!), ensuring nothing was damaged or misplaced. Their attention to detail and commitment to a smooth operation was evident at every stage. The cleaning team also did an amazing job thoroughly cleaning the property and provided an itemised list of services provided. We're happy to report we received a full bond refund as a result of their work. Ultimately, the team's professionalism and efficiency made the entire experience stress-free. We highly recommend their services for anyone seeking a reliable and hardworking team that goes the extra mile to ensure a hassle-free moving and cleaning process. Thank you!

They did an incredible job, they were efficient and took great care with my furniture, they even took the time to install my dishwasher and washing machine for me. Would definitely hire again!

I highly recommend these guys. They were extremely professional and took so much care moving our home.

Thank you Diego and Andreas!

Really easy move. Movers were well prepared and it took less than an hour to move everything even in the rain. Very professional as movers were able to find parking spaces near the building we were moving from/to. We were located in an area where parking was hard to find and their initiative to find one really offloaded a lot of stress on our end. Really satisfied with the service and will use their service in the future again! Highly recommended!

Used Magic Monster Removals for my move. The whole process from organising to the move itself was easy! All items were looked after and handled with care. They also completed my father's move, which he was really happy with. Will be using these guys in the future. Highly recommend!

I recently had to move home due to domestic violence. Diego and David were very lovely, polite, professional and thorough. They let me know first thing in the morning what time they would be arriving. They were on time, which I was quite surprised about. Everything was wrapped and secured in the truck. They laid a blanket in my entrance to ensure they didn't tread mud or water into the house as it was raining. Upon arrival at the new property they took each item to the room where the items were required. They helped me to partially build my bed. I felt incredibly comfortable with Diego and David, at all times letting me know which rooms they were going to. Would highly recommend the company! 10/10!

We had two of your guys come down to help us move house. They were on time, professional, careful, incredibly efficient. Incredibly careful with all our glass furniture etc. Without a doubt the absolute BEST moving experience I've ever had in my life! Thank you so much boys, you too away a whole lot of stress with the move!

These guys were fantastic, highly recommended!

Quick, professional and easy to go

Absolutely satisfied with everything these guys do. Good communication, professional and in good time as well! Will recommend it to others!!

Thank you to Jaime and the team with our interstate move. Exceptional service.

Great service from the first contact! Communicated well, arrived on time, worked efficiently & safely. Did exactly what was asked of them and we'll absolutely be using Magic Monster Movers again

Friendly service. I would highly recommend to anyone!

We had a brilliant experience with Magic Monster Removals. They were punctual, super careful with our furniture and the removalist were so friendly and polite. Highly recommend them and would use them again. Great value, excellent service ??

Very professional and friendly. I recently renovated my floorboards so I asked them to be very careful with heavy items because I don't want to damage my new floors and they were very respectful and everything was moved with care.

These guys gave their absolute best on a very hot 40 degrees day. They were very professional and friendly. When asked to place furniture in a particular place or fulfill a few additional requests they were very helpful and responsive

Timely and efficient, my move was carried out very well and the team was careful with our belongings. I have no hesitation in recommending Magic Monster Removals.

Jaime and his team were an absolute delight with my move. Their attention to detail was excellent, ensuring no damage occurred to any of my furniture or items. Their communication was fantastic, and they also suggested a better layout for furniture which looks great. Thanks again for all your help guys!

Amazing job , very puntual and did they work smoothly! Highly recommend it.

Such a great business that is providing quality removals with an affordable budget which is hard to find for removals. Our removalists took care with all of our furniture in good time and were so kind and helpful and very respectful. We were struggling to find removalists and running out of time and we were found a spot just in time. Totally recommend this removals company they are great.

Communication was great and the guys made the experience of moving a pleasure.

Great work from Magic Monster Removals! The job was on a 3-bedroom townhouse and there was a slightly narrow staircase, so you can imagine it was a challenging job to keep everything intact and not inflicting any damage to the items and the house. But they did it! For our queen-sized bed base, they sophisticatedly used the balcony to lift it down; for our piano and other delicate items, they used to blanket to cover it for protection and moved it carefully. Despite the hassles they encountered, they only take 5.5 hours for the entire job

(moving out and in) - quite an efficiency! And no a single scratch on the houses and the items. Thanks Diego and David for your teamwork! And your considerate act on putting blanket on the new house entrance to keep it clean!

Friendly staff, careful in their approach, efficient with their time.

The movers packed everything up so carefully and quickly, and moved all my furniture up 4 flights of stairs. They were amazing and Im so happy with the result!

These people are real pros. Quiet, tidy, careful, and organised. And the kicker, they're priced very very competitively. I can't recommend them enough.

The guys were so helpful and patient. Would definitely recommend them to anyone needing to move. Nothing was damaged and the communication was awesome. Top service

Good friendly service, on time and charged fair rates

Absolutely brilliant chaps. Kind, caring and toally organised. Well done. Peter righton

Very professional and prompt service. They were transparent in their costs and overall transaction was very straightforward. The movers who came were polite, courteous and very professional. They worked very calmly and got the job done on time. 5/5

I used Magic Monster Removals for an interstate move. They were courteous, careful and communicated perfectly regarding uplift and unload times. Thank you, I couldn't be happier ?? prices were good too ??

Excellent service. People at Magic Monster Removals are so professional, careful and kind. I fully recommend them

I highly recommend this business. They were prompt with replies. Turned up on time , moved the furniture efficiently nothing was damaged and helped out with a few extra requests that occurred on the day. Very impressed .

A1 Top Service. I could not be happier with the whole moving experience from this company. Hard workers who communicated well throughout the whole time. Professionally packed and delivered without issue and on time. Thank You!

They did a magnificent job. They were prompt, very polite, no hassle and just got the job done. Would highly recommend them.

Great Removalist! They were quick, efficient and very professional. Would definitely recommend to others! Made the whole process very easy.

Friendly professionals who took great care in moving our belongings. Excellent service and great value.

Was very happy with the service provided by Magic Monster! While other companies were trying to charge me for 3-4 hours Magic Monster were so efficient it took less than 2 hours! Their communication regarding arrival times ect were also excellent! Will definitely use them again next time I move!

Magic Monster removals did an amazing job of moving our furniture. They were very professional and handled our fragile items (television, glass coffee tables, TV cabinet) with care. They made the moving process smooth and easy. Would highly recommend them for all your moving needs.

Best removalists in Adelaide!! I had my bedroom moved here from Melbourne, and the team were quick to respond and incredibly professional throughout the entire process. They also didn't charge an arm and a leg to make it happen. Highly recommended!!

Great moving experience! The team were on time, communicated well and most importantly were careful and considerate when moving my items. Will certainly use them again :)

Very efficient, professional and value for money

Jaime came through with top notch service and helped guide us through the process of removing junk from our property.

We booked them in November for our move 45mins away from our current location. Moving with a little one was hard enough. They were very communicative, friendly and reasonably priced. Highly recommend ??.

Great service. Great care and attention to detail. Would I enlist magic monster removal for next move? Too bloody right I would.

Excellent work! All staff have been professional, honest and polite. Highly recommend them.

They are by far the best removalists! Punctual, reliable and the communication is smooth and honest. If you want a fast, hassle-free removal, these guys are the number one option! Thank you Alejandro and your team for the great interstate service! ??

Great communication, well packed and moved safely without issue

I recently used Magic Monster Removals and Cleaning PTY for my move, and I couldn't be more impressed. The team exhibited professionalism, punctuality, and exceptional efficiency. From careful handling of my belongings to a seamless packing and unpacking process, every detail was managed with precision. Their excellent communication and friendly approach made the entire experience stress-free. Magic Monster Removals and Cleaning PTY turned what could have been a daunting task into a positive and memorable experience, and I highly recommend their reliable and top-notch moving services.

Take more time than expected which turns out to cost more. Wouldnot recommend for assembling services. Sonetimes they get stuck for a while. Moving is ok.

They fulfilled all our requests, such as how we wanted the boxes to be placed, etc. The staff was very friendly and caring, and the shipment arrived in perfect condition. I will definitely use Palmers again and highly recommend them to all my friends!

I was in a trouble and needed someone for a last-minute furniture pickup and delivery. I reached out to book their boys with a truck service, and the team came to the rescue. Their amazing staff arrived on time and they are very professional and very friendly with us . Thank you palmers relocations

Excellent communication. Did exactly what they said they would. Got prompt replies to questions.

Handled the Australia leg of my move from Thailand. Great service prior to delivery, and on the day itself. The team were very helpful and efficient. Cheers.

Great experience with Palmers. Moved me interstate twice (Perth <--> Melbourne) and they were friendly, reliable and very responsive. Very very happy!

Palmers recently managed the removal of our household contents to our new dwelling in Sydney. The removalist crew were two amazing young men - Hemi and Tai. We would like to share with whom it may concern how impressed we were with the efficiency, commitment, care and friendliness of both Hemi and Tai. They did a wonderful job! Not only did all of our goods arrive in perfect order, but Hemi and Tai were so helpful and careful in unloading, positioning and re-assembling everything for us. We cannot praise these young men enough for their work and we highly recommend them to anyone else and would certainly prefer these guys for any future such work for us. We hope this recommendation is passed onto whoever supervises their work and that Hemi and Tai know how much we appreciated their efforts. Len and Loraine

I recently relocated from Australia to United States. Last year when I was looking for relocation options and gathered quotes from several relocation companies. I found palmers relocation the best so far. Their customer service has been excellent. I was provided with proper/accurate quotes and guidance in what I would need to do and not concerning packing, the timeline of the shipment, US customs declaration all end to end. I was bit nervous and stressed as moving different countries is bit stressful and sometimes challenging. However with the help from palmers relocation, it seems to have ease the problems and made my move really smooth. The movers who came to pack my belongings did a fabulous job concerning my move. The way they packed everything was quite amazing. The quality of products (storage boxes, packaging materials, etc) they used

were amazing. They made sure everything was properly packed so there is no damages. Though it took about 5 months (from day of packing to being delivered at my new place) for shipment, I was constantly being notified on the status of my container and when it will be set to depart etc. I am extremely thankful for the recent service I had with Palmers Relocation. I had such an amazing experience with Palmers Relocation that I would highly recommend others!

Was contacted by Palmer's that they would be the company completing the move from UK. They kept us informed of all movement's and gave us a date when they expected the goods to arrive in .Melbourne updated any changes. Once through customs .called and asked when would we like delivery .set date and time slot .Driver arrived in time slot unloaded Great service

Friendly service, get back to you when they say they will, helpful removalists, polite and respectful, which helps greatly in a stressful time. On time and efficient. Second time used for interstate move, again surpassed my expectations. Easy transition because of Palmers. Thank you.

Excellent service from customer service, booking, clear details, and helpful suggestions, with flexibility for storage options etc. For our interstate relocation. The removal packing crew were also absolutely fantastic... and the removal day we picked was the day of the huge Sydney downpour and flooding. Please pass on our thanks to the whole team, and we'll see you on the Sunshine Coast in January.

Great experience, with utmost care given to packing. Extremely professional and courteous staff. Timely arrival at home location and destination Peter & Meg Castle Hill

Fantastic Service, great communication all along the process with Michael, Big Kev & Saddiq (?hope that's right?) were absolute stars with the delivery and loading into our self storage. Great Customer care skills,

logistical knowledge and amazing energy throughout. My wife and I were highly-impressed how they were able to work with us and achieve a perfect outcome. Those chaps deserve a pay-rise! Well done Palmers, we will be using & recommending your services again, I'm sure. - Sid & Tanya Petricevic

Palmers Relocation Move Coordinator Leesah Easton went above and beyond start to finish, Leesah was extremely responsive to my emails and guiding me reassuring me every step of the way. It was a massive relocating moving our things from Melbourne Australia to Auckland New Zealand. Leesah was outstanding customer service was impeccable. I couldn't of did it with her, I was very stressed to say the least, but Leesah stuck by me, I was very pushy and sometimes came across very arrogant I just wanted my things asap. Leesha just kept reassuring me and I am not the easiest person to deal with at times, but Leesah was very professional and patient with me. She understood how stressful moving is. Also Palmers Relocation staff a young lad who came to pack our things in Melbourne secure with bubble wrap and paper he did such an outstanding nothing was damaged during shipping and delivery. I received a tracker report update location of my shipment leaving Melbourne and arriving in Sydney and then Auckland Port and update from Palmers Relocation every movement. Customs then give the all clear with our things from container to then unload and last inspection clearance from Quarantine MPI Ministry Primary Industries. Its a waiting game but rest assured when you use Palmers Relocation, you're in excellent hands. Ask for Leesah Easton she's an absolute gun all other Palmers Relocation staff were also fantastic a really great team effort. I recommend Palmers Relocation to anyone who is moving, relocating no matter how big or small contact Palmers Relocation you won't regret it. Chances are you might even get Leesah Easton you blessed as I was. Many thanks to the Palmers Relocation team and Leesah your heart is gold. Happy New Year Leesah all the best. I will be in touch if ever to move again but I am in no rush :) you be my first call Warm Regards Brunella Takitimu

We used Palmers to ship a consignment of personal belongings to London. It was a seamless process and the customer service was excellent throughout. A big 'Thank you' to Leesah and the extended team. We would certainly use Palmers again and would highly recommend them to friends and colleagues. Their quotation was also very competitive!

If you're lucky enough to get Alex and/or Louey (Not sure about spelling sorry mate) from Palmers, they are absolute guns! Super professional, friendly and hard working. Thanks for helping with a smooth move legends!!

Great service. Very efficient and would highly recommend.

We just moved overseas and the experience of having Jason Afchal from Palmers just did everything a lot easier!! From the best possible quote (without hidden costs) to a complete and easy guide through the whole process; updates at every step and finally the receiving of our goods in perfect order. What a great work!!! Thank you ??I would recommend and use this services again and again!

The team who packed and uplifted our home contents did a fabulous job and we felt that they both took great care with what they did but were also respectful of our belongings. We would highly recommend Palmers Relocations and would certainly use them again.

I just moved my stuff from southwest Sydney to New Zealand with Palmers' assistance, and I must say that it

was an incredible experience. It was a pleasure working with the Palmers crew, and everything I brought over arrived securely and without any problems. If you're planning a move, I highly suggest contacting them for a price, friend. They have outstanding staff to assist you and provide first-rate service on both sides of the ditch.

Wonderful relocation service from Palmers Relocation - many thanks to Tina, Patricia, Lisa and Lucy for making my international move fuss-free!

There is really nothing to complain about. Responsive coordinator, good communication, fast packages collection, and delivery in the same condition as it was collected. No stress, not hassle, everything as it should be.

I would like to sincerely thank the team at Palmers for great personal service when quoting my move. A difficult one to say the least but the team was able to provide all information in a quick and professional way! I highly recommend the experience.

Amazing service! From the initial get-go with Tina, she was friendly and professional. I loved that she called me and had a conversation unlike other companies who just emailed sales templates everyday. Tina made the whole process so easy and I was also blown away at how good a value the service was. I was worried it would cost a lot moving internationally, but I was pleasantly surprised. The Tara who arranged the pick up was lovely and helpful, then the packers WOW they were great. Quick, energetic, happy and I didn't need to do a thing. Highly recommend!! Services: Interstate moving , Moving-related packing , Oversized-item moving

The contents of our house in the UK were shipped to Australia, and the clearance and delivery was dealt with

by Palmers. They dealt with it in a timely and professional manner and our shipment arrived safe and sound, and the two delivery drivers were helpful and efficient.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Honestly the best I could ask for! They were very quick at getting back to me with quotes, and booking me in for my move. The team that came out on the day were very professional and got everything done so quickly. I was very impressed and would use them again and again. Service: Moving-related storage

Great experience. But this does depend on which removal guys you get.

04/12/23 - Hemi, Thy and Sammy arrived on time for the pre pack. They were very efficient with their work and took good care when packing our belongings. 05/12/23 - Hemi and Thy arrived early and did a great job loading all our belongings into the container without any fuss. They took good care when moving the furniture inside the house to avoid any damages to wall, floors etc. They were faultless and very professional. Such a great service and always smiling. Highly recommended.

Excellent communication.

From the sales process through to uplift and then delivery we were extremely impressed with Palmers Relocations communication and commitment to the care of our personnel belongings. Importantly, I can write that nothing was broken or damaged and our furniture was delivered in a timely fashion. Both the uplift and

delivery crew were extremely courteous and quick and in both cases the houses were not that easy to access! Luke from Sales and Jason from Operation...Bravo! You promised and you delivered. ( Plus....you were the most competitive quote).

Great Company, Great Staff. Professional and always put the customer first. 5 Stars !

Good service. Full disclosure. Friendly delivery boys.

Last minute move from Sydney Australia to New Zealand. So far customer service has been amazing, after making the first contact with our consultant Tara and discussed our options, Tara provided all the information we needed and Plamers relocation offers pack and wrap, collection and delivery door to door, we were confident to move forward and have now left Australia. During this hectic time Tara has remained in communication with us, quick response, professional and very genuine. Thank you for your amazing service Tara, very much appreciated.

Excellent customer service from start to finish. We knew exactly when our goods would be delivered and the delivery men where polite and helpful the delivery was unpacked and checked off without issue

From quoting by Stefan through to the physical movers this experience has been flawless. Extremely professional. Although every so slightly higher priced than the other 2 quotes we got to move a fully furnished 3 bedroom house from Melbourne to Wellington NZ, this was worth every penny. The manager Kieran rang yesterday and said they were able to play Tetris with our shared load stock and got it all into the original dedicated container and therefore got a refund for the space we didn't use. I bet the other companies wouldn't have mentioned that. When we move back we will certainly be using Palmers for our relocation. Thanks guys and girls.

The team from Palmers was excellent from first contact to the end of the two day move. Extremely responsive and good problem solvers when we had a couple of plan changes. Even did a walkthrough of new property prior to any unloading ,pointed out and photographed some minor issues that we could note on our condition report with real estate agent. Excellent and unexpected. Very happy that we chose Palmers.

Kieran and his team at Palmers went above and beyond when we had a crisis with our shipping. His customer service and professionalism was second to none. We can not praise Kieran and his team enough for their dedication to getting our shipment sorted and us back on the road, especially on a weekend. You will not regret shipping with Palmers!

Highly recommended

I am belatedly posting this review, but after seeing some of the recent negative reviews wanted to note my own experience with Palmers Relocations. I cannot recommend them highly enough!! I hired them to pack up and ship all of my things from Melbourne AU to Boston USA. The team did a 10/10 job carefully packing Everything, large and small including high-value fragile furniture and other items. My contents were put into a container just for me, and shipped to Boston. However, my circumstances changed and I ended up staying in Melbourne. Palmers re-shipped my container from the US back to Melbourne, and unloaded my stuff at my

new house. Despite all of my worldly possessions literally travelling around the globe, not a single thing was broken, scratched or damaged. On top of this, they were incredibly responsive, helpful and professional throughout the entire long process. I am a huge fan of Palmers and encourage anyone needing moving/shipping to use their services.

Very impressed with the service provided by Palmers Relocations during our move from Melbourne to Brisbane. Ron was very patient and helpful throughout numerous emails and phone calls. The guys arrived on time for pickup and stacked the container well - any loose items were put into larger boxes or wrapped up in blankets (including the dogs bed!). Delivered was delayed a few hours as a result of the QLD flooding so 4 guys were sent instead of 2 for unloading to speed up the process. Palmers were more expensive than other quotes received but they provided excellent service. Highly recommend!

Checked what the scope of work was, amended the quote accordingly, then on time, for pick up, highly organised and efficient. Good service - that's the chattels loaded, now the freighting and unloading - more to follow

They were very efficient and effective. They delivered my products safely and was so quick with the delivery (once customs finished their part)

Today Alex, Karl and Louie packed up our house and arrived on time with smiles on their faces and packed and wrapped and loaded our furniture professionally with the minimal fuss. Great job guys thanks again

I just have to share what an exceptional experience we had with Palmers. We had a big move from Burradoo to Killcare. The team both in the office and on the road were fantastic, so professional and helpful. Our move into Killcare was challenging but it was all done with efficiency and a smile. I could not recommend them highly enough. Many thanks Liz and Trevor

Jason and Shanice are amazing! They are so helpful and friendly, helping me throughout the process of moving our stuff from Melbourne to Perth. Thank you so much to the staff who helped with the packing up too, they did their job professionally! Highly recommended their interstate removal service.

Did a good job with my move from Australia back to Canada. There were few vessel delays before the container got shipped although it was not Palmers fault as the ship got booked straight away and I am sure many are in the same boat (literally). They kept me informed about the situation and any changes. Happy with the service, my stuff arrived in good condition, nothing was broken and damaged so overall cannot fault the service.

On time, fast and polite, thank you

Moved from Melbourne to Ireland during the pandemic and very happy to have used Palmers Relocations for the removal process. Kieran was excellent from visiting to provide a quote all the way through to providing paperwork I needed in Ireland. Household items professionally packed collected and delivered door to door which was ideal and easy car drop off and pick up. Highly recommend Palmers Relocations.

A perfect relocation of my belongings from New Zealand to Australia. Great price, always communicated so that I knew what was going on and a delivery timeframe to make life easy. Great firm and highly recommended for their professionalism.

Hi I would highly recommend Palmers Relocations have been dealing with Tara, she is quick, efficient, friendly. Im relocating from Sydney to WA house and car and dog at fantastic price. Thank you Tara really appreciate all your efforts :)

Quality service. Good communication. Friendly staff. Highly recommended.

Fast Reliable Friendly staff and Very helpful in all aspects.

The Palmers team were fantastic at all stages of the move. Helpful advise. Professional and thorough. But huge credit to the packing team. Great guys. Happy in their work, they did an amazing job with care and experience. Don't absent mindedly put something down or it will instantly wrapped and packed. Thoroughly recommend Palmers for the OS move.

Palmers Relocations is highly recommended. From the time they surveyed and delivered the goods, they are all very professional. A big thank you to Kieran, Enrique, Diego, Trevor and Luke. Communication was done in a timely manner, packing and unpacking were excellent. Extra credit to Enrique and Diego who worked so hard to ensure this is smoothly done. They are both very friendly, responsive and extremely helpful. There are some minor hiccups but was dealt accordingly. Palmers Relocations made my move to the regional area much easier and a positive one. They even allocated a box for all the powerpoints, cables and remote control - Brilliant! Keep up the great work Team. May you continue to keep the trust of your valued customers

Everything was fantastic! James in the office was really helpful and returned emails quickly! Delivery and unpacking of the shipping container was quick and painless. Nothing but good things to say about Palmers Relocations!

I moved from Hong Kong to Sydney and Palmers looked after the Sydney part of the move. Apart from a small issue of customs delaying things everything was very smooth. Palmers kept me informed every step of the way

Positive: Professionalism , Punctuality , Quality , Responsiveness The team that can to do the packing & removal were excellent and they did a great job Services: Local moving , Moving-related storage

Great service with clear and regular communication. Thank you.

Palmers Relocations helped my family relocation from Malaysia to Sydney, Australia. In total 90 boxes to be shipped, none of them were broken without items being damaged. I'm really satisfied for the company's excellent services and professionalism. Highly recommend for potential customers to choose Palmers Relocations. Wei Zhou

Great crew of removalists, very friendly and efficient. Get in and get the job done with no fuss.

We used Palmers Relocations to move from Sydney Aus to Auckland NZ. We obtained quotes from a few companies and Palmers not only were the lowest price but also the only company to explain what was happening with freight due to COVID and international freight delays and port congestion charges. No one else even mentioned that there could be additional charges or included this in their pricing. Their sales consultant was very knowledgeable about what we could and couldn't take back in NZ and sorted all paperwork and quoted insurance a few different ways for us. She even told us and explain the way we could take all our Australian wine collection into NZ without having to pay any duty! The pack up crew were exceptional. They were friendly and professional and before starting anything made sure to go around the house and get us to point out what were our valuable items in terms of dollar value and sentimental value to treat with extra care. They explained their marking system of noting existing wear and tear for any future insurance claim. They turned up when they said they would and even called in additional resources to ensure they got packed up in a single day. The move/export coordinator kept us updated on the status of our container and attempts to book this on a boat. As this was during covid and with the resulting port congestion this was a volatile time to try and pack up and move. They called me on more than one occasion to give as an update on what ship they were trying to get us onto and their estimate ETA of the container back into NZ . Once we did have our ship confirmed, they sent us updates right until the container was on the water and then their contractor in NZ (Van Lines) took over who then sent us updates in the form of essentially a track and trace of the shipping boat and once it landed updated us on the customs process and end delivery to us. NZ Van lines were fast and efficient unpacking Auckland side and we experienced no damage to any items. Packing up your entire life and putting it into boxes to then ship overseas is not an easy decision and the decision over which company you trust to do that packing and actual moving is also a huge decision. We are so glad we went with Palmers as everyone was super friendly and explained all details to us along the way. Communication from both Palmers and NZ Van lines were clear and meant we could make arrangements on what we needed and for how long before our stuff got reunited to us. We will definitely be using them again if we move back and

would recommend them to anyone thinking of making the same life move from Sydney to Auckland that we did.

We had an exceptionally positive experience with Palmers, who handled the Australian component of our UK to Australia move recently. Michael was clear and responsive in all communication, and the removalists on the day were hard working, friendly and followed all covid guidelines. I can sincerely recommend Palmers based on our experience.

While I felt like I was climbing a mountain of moving - interstate - Tara made it all happen like riding a wave. I couldn't have done it without you Tara. Big thank you to you and your team. How many emails does it take to pack a box? Ask Tara, she's read them all!!

From start to finish in Melbourne the boys were amazing highly recommend they are professional, Cheap & did an amazing job.

Friendly, professional and easy to deal with. Got 33 boxes shipped from Hong Kong and all arrived quickly and in good condition.

Kept us informed throughout the process. Value for money and - most importantly - our boxes arrived on time and undamaged.

I used Palmers Relocations to move from Sydney to London. Staff were very helpful and the Removalist were even better. Would absolutely recommend to all and use again Thanks Palmers

From first contact with the office team to the guys that delivered on the day every step and person that I dealt with was friendly, helpful and made sure I was getting what I needed from the move. The guys on the day with the delivery made what could have been a very stressful time a smooth and easy day.

Great company to deal with.

I got my things today, in very good condition, very reliable and timely, it was a bit pricey but worth the price.

Moved to Scotland on a recommendation to work with Kieran at Palmers Relocations in Australia. I chose to use their services after they visited my home and gave me several options which helped me budget also. When my items arrived in Glasgow, I received a message their partners called Purdie Worldwide who were also professional and helped with customs clearance and delivery. On the delivery day the team arrived on time, were polite and careful with the items. Great service!

I have been most impressed by the excellent service provided by Palmers Relocations. Having lived in my home for 47 years I experienced an enormous emotional wrench selling my house. I chose Palmers Relocations on the recommendation of a family friend. Palmers Relocations packed my entire house up in one day and the following day uplifted all the furniture and boxes and relocated them to their storage facilities. I

also had the house cleaned using their recommended cleaners. I highly recommend their services.

After selling my house in May, I decided to go overseas and spend couple of months in Europe (still here travelling) so I hired Palmers Relocations to do the move from my house into their container and taken to their storage. They can store containers indoors which is a bonus as I was worried about moisture and weather but they also gave me a discount for storing long term which was nice. Good people there, friendly and understanding so as promised I wanted to give them a positive review for their positive customer service and approach. Good stuff Palmers

We were very happy with our experience with Palmers. They transported several boxes from the U.K. to Australia for us, and everyone we dealt with on both sides of the world was very friendly and professional. Highly recommended!

I went with Palmers over several other companies to move from Melbourne to NZ because of the excellent communication and friendly service. Their quote sat in the middle of my other quotes but the service sealed the deal. They provided all packing materials and packed my items with care. The pickup driver was friendly and helpful and the customer support centre are always lovely to speak with. Huge thanks to my consultant Marcela who was an absolute breeze to deal with. I know my things are in great hands and I will recommend Palmers in the future.

Palmers were the lowest quote to shift us from gosford new to Adelaide by rail shipping container. The

packing team arrived on time at 7:30am to pick up our prepacked stuff and finished by 11:30. The container arrived on schedule on 3<sup>rd</sup> march and was delivered to storage facility on 6<sup>th</sup> as requested. Again the unpacking team arrived on time (allowing for traffic congestion) and unloaded the container within a short time. All in all palmers provided an efficient and timely service. All that one can ask.

Professional and reliable delivery with proactive and responsive communication at all stages of the overseas move. Everything was handled perfectly!

Thank you for checking in, our experience with our move with Palmer's relocations was seamless, well-organized, and stress-free, thanks to you and your team, it was an excellent job done. I would recommend everyone to use Palmers relocations.

Good service

THANK YOU SO MUCH Palmers Relocations for making my interstate move so incredibly smooth and stress free. Not to mention the most affordable option. If you've come across Palmers Relocations for an interstate move, congratulations, you don't need to go any further. 1. The staff that assisted me in booking and organising my move were top class, and ready to answer all of my questions with timeliness and concern. Can't fault their communication through the whole process and they were lovely to deal with, each time. 2. To the actual guys doing the heavy lifting and the truck maneuvering - you guys are seriously awesome. I've never seen a group work with such efficiency and care, and they did everything to make sure my items were looked after. 3. They provided a door to door service, including storage, and everything was accounted for an intact at my new place. 4. Not to mention the price - literally \$1K cheaper than most of my other quotes. Thank you again.

I used Palmers to ship household items from Sydney to Singapore and the whole experience was fantastic. We reached out to a bunch of shipping companies for quotes and time estimates, and Palmers provided great value and also time certainty. We were given an estimate of 10-18 weeks from packing up the house to delivery in Singapore, and our stuff arrived at the 12 week mark. Communication along the way was prompt and clear. Based on our experience, I would recommend Palmers to anyone relocating overseas!

Thanks for a hassle free experience. Moved from Melbourne to Darwin. Good price for a move that is not cheap. People at both ends were friendly and professional. At no time did I feel untrustworthy of the service. Thanks also to Shanice and Leesah for their responsiveness and efficient communication in managing the move. Good Job.

Very good service

We were assigned Palmer's relocations as we had a shipment arriving from the UK. We found them to be very punctual, friendly, professional and took care when putting our belongings into our storage unit. We couldn't fault them & would highly recommend them. Jesse was one of them and his partner was from NZ...I feel terrible for not remembering his name. They rocked and are a credit to the company.

Excellent communication and the delivery of shipping was seamless. A big thank you to Eddy and Tim who were fast, efficient and so polite when they delivered our shipping and unpacked. Very professional.

Good communication

I shipped 10 carton boxes from Melbourne to US, all goods are good, no damaged. The staff give quick response if you have some questions. Their service is excellent. Thanks Palmers.

Moved from Sydney to Auckland. Move was great and cannot thank Palmers enough!

Our rep that came to quote- Coral was the best. She was spot on with what we could fit and price was reasonable. She even gave us tips on packing our goods. She is very knowledgeable and an asset to palmers. Jason was our dedicated agent doing behind the scene work. Very nice friendly and detail orientated. Great care was taken with every item we had when being loaded on the truck. They wrapped in clean blankets any items that may be scratched or dented. They were friendly courteous and took there time getting everything in the 20ft container. Best tetris players ever as there was not a spare centimeter left in that container that wasnt filled. They literally got everything in including some extra heavy bulky last minute items. All done with minimal fuss and stress for us. Very professional company I would recommend to all.

Moved a few pieces of big furniture from NZ to Sydney, the guys were amazing at both ends, coping with stairs, awkward big heavy pieces and were quick and efficient at packing/unpacking, price was competitive and I was happy that it all arrived with ease. Communication was great throughout as well. Would use again domestic if the price is right.

The team were fantastic. Very efficient and polite.

We employed Palmers to handle our relocation from Sydney, Australia to Zagreb, Croatia. I dealt specifically with Jason from the operations team, who was very responsive and helpful with all of my enquiries. The boys from the uplift team were very polite and efficient even after a very long day. Our goods arrived in Rotterdam in a matter of approximately 9 weeks from dispatch. Palmers partners in the Netherlands, Hazeleger were also

highly efficient in road transportation to Zagreb. This has been a very positive experience for us and all of our goods arrived safely, very well wrapped and intact. Thanks again Palmers for an excellent job well done. Highly recommend !!

We did not know the company but were recommended to it by our Shipping Agent in Spain. Palmers contacted us close to delivery and responded professionally and fully with our requests for information. (It was a BIG move for us from Spain to Melbourne and we were very concerned as they held all of our home in their container!). We negotiated a good day and time for the delivery and they arrived on schedule. Their two guys worked hard and intelligently to put our bags and boxes in the right place, and take away any packaging that was unusable when they left the house. The company had obviously worked with the Custom and Border people and any packages that were checked were repacked well. Apart from a couple of very minor and possibly-expected breakages everything came through in good order. We would recommend them highly and are grateful for their help and service.

I had about 30 boxes and some furniture in storage at Chullora for a year before shipping it to the UK a couple of months ago. It arrived last week - all in one piece! - and I have to say the professionalism, help and quick responses from Sarrah Kazi made a really challenging move so much easier. She is an absolute saviour. Also, I when my goods arrived here, I could see that a couple of things had been repacked so the relocation team obviously went the extra mile to make sure all my items were safe and protected. You really want a safe pair of hands for such a big journey for all your possessions and I wouldn't hesitate to recommend Sarrah and her colleagues for being absolutely the right people to trust with all your worldly goods! Thanks so much to everyone at Palmers.

Excellent services! Highly recommended if you are looking for international movement / relocation. Special thanks to Diana Crossley and her team. :)

Great reliable service

All People I have spoken to where very nice and helpful , now I will see how the move is going to the end .  
Thank You Donna and Tara.

Very good and prompt

Thank you Palmers - Lucy and Elijah - for your professional, caring and respectful handling of my precious goods on their return to New Zealand. Your friendly manner and great taste in music was greatly appreciated!  
Most grateful - thank you! JOY

We used Palmers Relocations to move to the Sunshine Coast and we were really impressed. The packing crew arrived on the first day to pack (no small task) and the whole house fitted to my surprise into the container for QLD. Upon delivery, we asked for Valet Unpacking Service, so we don't need to do anything as my friend recommended it. Shelley and her team did an amazing job unpacking, putting everything away so I did not have to do anything at all. Definitely Recommend.

The team that turned up were fantastic, friendly, efficient and professional. Would definitely call on them

again for moving.

Smooth move interstate, no dramas besides the weather that is of course out of anybodies control.

Boys were brilliant .packed quickly ...effiecient and polite .checked everything that left to return to my son in canada ...arrived early and very well mannered thankyu so much ..cheers aida studham x

Absloutly really very polite professional people came to my place packed up and took into container promise to deliver on special date. They did deliver on time again very polite nice kind caring people came in unpacked took all the stuff to their place job done really nice quick and neat no damage to property very happy with them. Look at the end of the day they are a little bit expensive but hey every penny spent is worth it

Responsive to all contacts and the delivery crew were friendly, helpful and professional. Overall a great job ??.

After finishing my university, I used Palmers to move back to France. I went with the shared container option as I didn't have enough to fill a whole container. Removalists were great - friendly, careful and efficient, delivery time was reasonable and the move manager sent me updates through the whole moving process. Great overall moving experience! Would Recommend when moving smaller shipments as it was cost effective overall.

Many thanks for the excellent service. Ive been unpacking today and everything is perfectly intact, including my Grandfather's fragile glass lamp. Service and communication was flawless.

I have shifted my stuff recently with the help of Palmer's relocation services. The staff was incredibly helpful

and proactive throughout the entire process. I am highly satisfied with their services, and I would highly recommend them to others.

Palmers Relocations.. All I can say is that it was a seamless experience dealing with Palmers. So many wonderful team members played a role & all I can say is that they are a well oiled machine. They definitely made the move home an easier experience. From Marcela who kicked it off to Leesah who guided me through the paperwork to Jess who made sure my bag arrived before my holiday to Portugal as well as the packers & delivery team. They are all rock stars.. If I ever move back Ill know who to call. Just kidding. Never doing that again. ?? Highly recommended..

Positive: Value Everything went smoothly and the packers were awesome and all done in a good amount of time. Service: Interstate moving

We used ELL (Dubai) to relocate from the UAE. They were outstanding in packing and keeping us abreast of the various steps prior to shipping our belongings to Australia. Palmers reps were also very good at contacting us to let us know when our shipment was expected to arrive and when it actually arrived in Melbourne. We appreciate Mr Michael Brewer's assistance in the process. He was very good in communicating with us promptly to explain the process. Unfortunately, when the shipment was delivered to us first time there were several items missing (about 15 packs) - they were misplaced in the warehouse. They were delivered the following week (ie yesterday - 23rd August). All is good now except that, again there are items still missing, we have some personal clothing that were packed in 2 suitcases that we did not receive. I spoke to Michael and he said he will ask that they be located in the warehouse and delivered to us when they are found. We hope this occurs and would appreciate some feedback on when we should expect the rest of our belongings.

Best Regards Professor Rachid Zeffane

Very good friendly communication arranging packing and collection. Packing team professional. However packing and unpacking would have been easier if more large containers were used. There were too many small boxes.

The contractors were booked for 7:00am and that's when they arrived. They were fast, friendly and packed the antique China and glassware carefully and well. Communications with head office were a bit more sluggish at first but that improved. The American end was very bureaucratic and used printed PDFs that had to be printed, filled in and scanned, very 20th century! The Australian end was much more efficient in that regard and mostly online. Services: Interstate moving , Moving-related packing

Friendly staff, helpful all the way and reasonable prices. Will have to see if my motorbike gets there and the help to get it started. So far a great experience as of 21 sep 23.

Good and quick delivery of my internationally shipped items. Items were cleared from customs quickly and Palmer's did a good job assisting me with the process. They handled all of the formalities and I got my goods on time safely.

On-time professional and courteous team

This review is based on shipping the contents of just one room from Australia to New Zealand. We were very stressed since due to border closures we could not go back to Australia and all our belongings were left there for more than a year. It was our first time dealing with an international mover. After getting quotes from different companies, we settled with Palmers because their salesperson Aaron was very helpful and patient in answering all our questions and assuring us of any worries we may have. Now the aftersales is where it gets complicated. We knew and expected Covid would setback our shipment but even so, our shipment got VERY delayed. From the time they packed and picked up our stuff, we only received our belongings after almost 7 months. I do understand this due to not a lot of people moving or booking shipments because of Covid and hence, our container not getting full. The issue with them is that during those 7 months of waiting and worrying, you don't get any updates initiated by them. You have to call or email them and if it's email, sometimes replies takes days. There is no empathy as well from them, you will only be told the container is still not full or that basically the timeframes are just estimates and not guaranteed. The good thing is their partner company here in NZ who delivered our shipment was very good and responsive. With regards to our belongings, most of them were okay except for one fragile item having some scratches. Overall, I wish Palmers would improve on their aftersales or customer service team. Reading the other reviews here on Google it seems to be a common sentiment among their clients.

I dealt with Leesah who was very friendly and responsive but unfortunately Palmers' contractors failed to deliver my things on time. We had asked for early December and in late December, we got confirmation that everything was in a warehouse 40 minutes away but none of their drivers answered their phones and were unable to commit to a delivery date. I had to therefore hire a moving van and go collect my boxes myself.

Although the initial process of engaging with Palmers was wonderful and straight forward, the service from packing to delivery, has left us feeling really let down. Although quoted for edit\* 6cubic meters, it eventuated that we had an additional 4 cubic meters (approx) this was calculated once items brought back to their warehouse, and as we were moving overseas two days later, we had no time to go and see why the initial quote had blown so out of proportion, and had to accept what they said, even though when they arrived to pack up they had enough boxes for our initially quote, we were 4 boxes over. We then paid for a detailed individualised insurance cover - which has proven to be useless to us, at no point was it discussed that we would be opening a business once landing overseas, and no time to unpack within 30 days. As we have finally started unpacking - many, many items are broken, shoved haphazardly into boxes, ceramic family heirlooms placed directly on top of others, ladles still inside tureens with no packaging, etc, etc, glass jugs smashed, engagement presents ruined, photo frames smashed. Once contacted, it turns out nothing we can do, and they are not showing any remorse or care for how they have treated our goods. Really disappointing, would avoid, as although competitively priced, we ended up paying more through (grossly overestimated) 'extra' items and useless insurance, and their customer service once the job has been accepted, is not customer focused. In response to your response, many boxes were hardly filled at all, and very poorly packed, many items were broken due to glass being wrapped in paper and placed in ceramic items etc, we itemised all items in the individual insurance quote. To re-iterate, our experience is : first contact very amenable and easy, follow up customer service was not up to par, we were not happy with the end result - and I would advise all people

seeking to relocate to consider the following, have someone come out to quote, not over the phone, be specific on how your precious items are packed, and over see the packing.

We relocated from Sydney ???? to Vancouver ?????. Palmers took 14 months to deliver our stuff, but nothing was lost or damaged, so I guess that's something.

Atrocious performance. Whole home move from Sydney to Cairns. On arrival Cairns the unpacking guys called me into their van to show me the damage that had been done by poor packing by their Sydney employees. No protection or tie down of our large fridge. Both doors destroyed. On contacting Palmers they informed me you should have bought insurance. This was not an insurance claim. It was negligence on behalf of Palmers. Many stories of similar outcomes by this lot.

Very poor experience overall. We had items (watches, ipads, google home devices) go missing with no explanation and no recourse available. I would not recommend Palmers.

I would give this business a minus score big not possible. They destroyed some of my furniture and when I complained they refused to take responsibility. Mirrors smashed, gouges out of furniture and their packing service is deplorable.

Do not use this company. My partner and I had several items stolen in our international move and we are currently seeking legal advice through the Australian Complaints and Consumer Commission (ACCC) in regards to Palmers appalling service. We are both teachers and we frequently relocate to fulfill international teaching roles. We have used several moving companies in the past, this was our first time using Palmers

Relocations and we would strongly recommend you do not entrust them with your belongings. I also recommend that you sift through ALL the reviews that are posted here and read those that are NOT 5 stars. Palmers pays their customers \$250 dollars to post positive google reviews. Do not be fooled - we would never accept this bribe.

AVOID PALMER RELOCATION. Worst experience ever. After they picked up the stuff for an international move, they send me an additional invoice of 900 dollars because their estimate was wrong. They tried to charge me for the same insurance twice, I still got the email. I got the stuff delivered from another company Schmidt relocation. So they just send all the belongs to another company and I had to deal with them for the tracking of my stuff Who did I pay for the move?? Palmers or Schmidt???? What a joke The told me it would take from 12-15 weeks for the relocation. I took 24/25 weeks. A lot of boxes with expensive belongs went missing or maybe somebody stole it. I am talking about thousands of dollars and the offer me 300 dollars refund. The owner of this company just want to take your money and then is going to be your problem. The worst person I ever deal with.

Worst experience with relocations company. To move our household interstate in June/July 2020, we obtained 3 quotes for full service relocation from 3 companies, all members of the Australian Furniture Removers Association. Palmers Relocation was more costly but we were sold on the detail in which the Relocation Consultant assessed our well organised household, assurance of expertise packing up and knowledge of the industry which was important given we were in the middle of a pandemic. We had called all the relevant public health departments on both sides and also checked with Palmers if anything else was needed given the pandemic. Unfortunately, things started to fall apart when it came to the work: the packing-moving team were sullen, did not wear PPE, and careless (cracked tv chassis, broken crystal glasses, broken washer, broken

sit-stand desk, linen left unpacked, and excrement left in toilet). Worse, upon arriving at our destination - their destination partners had not been informed we were from Melbourne and when we said so, they refused to unload. Finally when we spoke to Palmers General Manager, he told us that it's our problem if their destination partners refused to unload, as Palmers have done their job which was to get us from A to B. We were and still are shocked at Palmers washing their hands off the matter. I took it upon myself to ring the COVID hotline who assured us and the destination partners that they can proceed with their work and that we we had and are following public health protocol. After 2-hours of angst, the unloading commenced and the destination team did a great job. I am deeply disappointed at the lack of job ownership, leadership and communication with their partners and clients by Palmers. In the last 15 years, I moved countries, interstate and homes several times and the experience with Palmers is the biggest disappointment. I would not relocate with this company again: things can always go wrong and it is how we response to work through those tough situations is what matters.

Although Palmers were more expensive, I chose them to relocate me from Sydney to Port Douglas as I thought it was worth paying more for a premium service. Unfortunately I was wrong. My \$1,800 tv was damaged beyond repair during transit. Their appointed insurer paid out \$300 (cost me \$577 for insurance), so I'm the only one out of pocket.

Every step of the way Jason has been useless, full of excuses why things weren't done, made us pay thousands more than first quoted and then became rude and fobbed us off. Our cars and container were supposed to be sent from Victoria Australia to Christchurch New Zealand within 2 to 3 weeks but took 12 to 14 weeks, which we paid extra to have brought over earlier but were only partly reimbursed for the delay. When our cars arrived they were both seriously scratched in identical places, which I believe was negligence (not accidental) so when I contacted Jason he just fobbed me off to their quality and risk manager Katie who simply sent me an insurance claim form. Im not paying an excess for their negligence but she persisted in emailing me again

telling me I should lodge a claim but has yet to call me to discuss this matter. Just more fobbing off and carelessness from Palmers. **WARNING: DO NOT ENGAGE THIS COMPANY UNLESS YOU WANT TO BE TRAUMATISED AND LEFT THOUSANDS OUT OF POCKET!!**

We have received 20 feet container from India. To upload they have sent only 2 people to unload with horrible conditions like they can't unload all boxes as they don't keep stuff on floor. can't fix beds with more than 8 screws. We unloaded boxes to give empty boxes to them to dispose bcoz they are so rush. I don't understand why they are in rush and these crazy rules. You better communicate these rules to the company taking the goods from us. Overall it's not a good experience.sorry... You didn't do what is written in the contract. You can't unload a 20 feet container in couple of hrs.

I share the views of other reviewers that I cannot comprehend how this company has achieved such a high scoring rating. I used Palmers in 2021 for an International move. The sales team were excellent before the move started but again thats where it stops. When the move started they just ignore you and no return of calls! Disputes over bank transfers for payment, unanswered correspondence, issues over quoted and then received insurance, theft of brand new items in packing, yes theft and refused to investigate, that's criminal! Poorly packed items, broken on arrival. It just goes on. We're talking \$1000's dollars damage received a few hundred back! The local team in our overseas location were excellent, pity i can't say the same for Palmers in Australia. If you hear that name based on our experience run in the opposite direction!

Critical: Professionalism , Value Dodgy, dodgy company. My household used them to move house and they significantly underquoted us and snuck in charges on top of everything. Customer service was awful as well. Very upsetting and stressful. Service: Local moving

I used Palmers to move my items. They made an error and did not follow the instructions set out via email. I

was clear they were to follow the emailed instructions, I was unable to be present on the day, this was due to their inability to meet the original scheduled date for removal. They instead took directions from the person present, I had clearly stated not to do this. They didn't try to call me, or clarify. A piece of furniture was collected and moved to Sydney. When it was clearly their error, they simply threw back to their own T&Cs to cover themselves (being that you must indicate a person, not just an address for collection). Took zero responsibility for their mistake, the options available to me was to pay \$2000 to have piece of furniture returned to where it was collected, \$500 to have it destroyed. The piece removed, was a piece from my parents estate that had sentimental value, unfortunately, I had no choice but to give it away for free, as I simply couldn't afford these options. A mirror was also collected that was never indicated on the collection sheet and did not arrive at the other end. I didn't even bother to raise this with them as I knew they would find a way to blame me, as the customer. This mirror was a gift from my parents for my birthday years ago, it had huge sentimental value. Expensive, poor service.

Removal service was reasonable but storage service unbelievably bad. Two antique items emerged with serious damage - feet broken off, mirror detached, timber split in several places. It looked like another large item had been dropped on top. They might as well have taken an axe to it. Repairs are costing us \$2000. To add insult to injury, the company has continued to invoice us for storage costs months after the storage period has finished!

Was given an estimate of 5-10weeks for our belongings, now that I contact them 11weeks later they say maybe by 16weeks your stuff will get on a shipment. Really wish we went with someone else for moving overseas, this is a joke. Avoid.

PEOPLE BEWARE: YOU MAY NOT GET YOUR STUFF ... WE HAVEN'T! Palmers Relocation has NOT delivered on their core service and promise of relocating goods internationally. My partner and I have NOT received our delivery of boxes that Palmers picked up in June 2020 (delivery ETA: Sep/Oct), and they have changed the shipment dates of the container 5 TIMES on us. To boot, we were the ones consistently following up with them by email. Being an avid reviewer, I have held off on giving Palmers a review to give them the benefit of the doubt (with COVID/global logistics challenges), but we're approaching a ridiculous extension of time. Two of my friends who have also moved internationally received their shipments with other relocation companies within 2-3 months. READ THE GOOGLE REVIEWS THOROUGHLY We chose Palmers because of their high Google reviews, but now that this has happened to us, I question the validity of the reviews. I suggest sorting by "Most recent" and read through the reviews thoroughly and critically read for whether a review seems trustworthy. Do not rely on the aggregate score. The Palmers sales and support team are engaged, responsive and good at selling, but Palmers (as a business) can't seem to deliver on their core product: international shipping logistics, shipping goods from A to B -- which is the key thing we want from a relocation company. DO NOT RECOMMEND I'm so frustrated and highly disappointed with Palmers. They are far from efficient. I would NOT recommend Palmers to anyone looking for international relocation services. If/when we ever get our boxes, I will update this review. -- Update on Apr 18, 2022 Shipment date for April 5th did not commence, so we followed up once again. It has changed for the 6th time. Our shipment date has now been pushed out to April 28th

Terrible company! After losing some of our belongings on the docks in Melbourne, eventually sending them in a shared container, they also stole some items. I sent emails and threatened legal action. They over wrapped all our belongings charging us for extra plastic and paper, such a waste.

Avoid Palmers Relocations if you don't want your belongings to be stolen. We have chosen Palmers Relocation for our international move because they have such a good rating. What a mistake it was! They stole

my bag (the box with the rest of my bags and shoes came sealed), they don't know what a customer care is and all they can do is to pretend nothing has happened. I would give minus 10 to this thieves if I could.

I am very sad to say that our interaction with Palmers was not good. Our Shipment was from Melbourne to Singapore and we have not received all our items at the destination. On raising the concern about the lost items, we are always getting the response that it was not their fault and we signed the receipt so they cant do anything else. Lesson learnt is to make sure that check all the items before signing the receipt or conditionally sign it, as they keep on highlighting the point that it was signed by customer. It is very difficult to unpack and check the items and then sign it , which they used against us.

Worst experience ever! I regret so much that I chose Palmers for my removal. Zero communication from the operational team after I made my booking. I called twice the day before my move to find out the pick-up time, no one answered the call and nobody called me back even I left a message! Then I received a text message at 5:42am on the removal date, saying that the team will be here(but what time?!). 3 weeks after they picked up my stuffs, I found out my shipment was still in melbourne waiting for other people to fill the container before they can send to WA. The quotation indicates share service to be completed within 2-3 weeks time. But when I called the account manager, he said no control on the lead time if it's share service. The account manager didn't care about the client feedback at all, and was not trying to offer any help to improve the situation. THANK YOU Palmers for giving me such a MEMORABLE experience! Good luck for whoever is going to choose this coming for their removal.

A bit too expensive and however the service was good

Poor communication, had my stuff for 3 weeks and I asked for an update to help me with expectations since I've had none. I was given a one line response saying "sometime this month"which is just a push off. Not

impressed

Terrible company to deal with. Broke our furniture and never came back to fix things. Very unorganized and unprofessional. STAY AWAY.

We are not sure if this is procedure? Our bedframes were just slapped with stickers, not wrapped - an example is the metal beam in the attached photo. The microwave oven was not boxed up as well. We were informed by the sales team that carton boxes will be used to pack our plastic containers. But as you can see, they only placed stickers on the plastic containers, and the plastic seals of these boxes were not secured by tape or some other appropriate packing material. We enquired several times during the packing process but were simply told repeatedly that they will be 'bubblewrapped' in their facility in Sydney, leading us to believe this is standard operating procedure. In contrast, our prior experience with Crown Relocations in the move to Australia was positive right from the start. For instance, our plastic boxes were securely packed in carton boxes in our residence before being transferred. Seeing how some of the items were packed by the Palmers Relocation crew made us wonder if they would be damaged during the journey. We do not have much confidence now and will change the rating once we are reassured by the office folks' that our items are really going to be repacked properly.

Palmers were engaged by my insurance company to pack, move and unpack my house, following a significant weather event. There are two sides to this company, the packing team did a terrible job, boxes were not labelled correctly and their inventory was next to useless. We have spent weeks trying to find things they didn't even write a consistent room name on boxes. After watching the way they were handling my goods I had to leave the house, it was a terrible experience. There was lots of swearing (including written on boxes

that my kids saw), goods were stuffed into boxes crushing everything, all our outdoor furniture was stained and damaged after being dragged across the ground, boxes were crushed, equipment broken and they simply left whatever they couldn't fit behind, leaving me to sort this out. When they drove off, they took out a large tree branch with their truck and just left it on the road for the council to fix. On the other end, the staff who delivered were highly professional, courteous and friendly. They were meant to have more staff to assist with the delivery and unpacking (who didn't show up) but they did the best they could, albeit they did not unpack as agreed. They took note of some of the damage and advised us to take note of any further damage as we unpacked, and the company would sort it out. They were equally surprised with the amount of damage and the poor labelling of boxes, this made their job equally difficult. I have subsequently met with their GM, Kieran, and it's clear where this culture stems. Kieran did admit they did not allow enough time to pack (he blamed the insurance company for 'pressuring him'), thus it was not packed as they normally would. Unfortunately, whilst Kieran saw all the damage and said it would be sorted out, he has failed to make good on any of the damage, saying he has written a report and sent it elsewhere then avoiding communication, and advising I would need to communicate through his legal team. I have since obtained this report where he has declined to make good on the vast majority as they are 'still in working order' - despite being stained, scratched and smashed. For example, the supporting base that holds water to a basketball ring was smashed, however as the ring itself is serviceable, Palmers have only offered partial compensation - the fact that it could fall on my kids when unsupported is deemed irrelevant. Kieran is also stipulating the condition report, which I never saw nor signed, says there was pre-existing damage. This is completely false. Subsequent to this, a supposed Palmers legal representative made contact with me and advised they had been sent a letter 'regarding my small claim' and seemingly tried to provide advice to me. This seemed an attempt to make me find this process too difficult and walk away, I suggested they are better off providing advice to their own client. I would suggest exercising caution with this company and clearly would not recommend them. I am surprised at the number of positive reviews.

Avoid, avoid, avoid. Hidden charges galore and will sneak extra charges in last minute. We moved from Australia to Ireland, initially the quote was good and we were happy to proceed with our shipment. The day before the removal we were notified that there was an "extra charge" and were informed that the operator we dealt with was misinformed. No compromise given to us and due to the short notice we felt stuck and went with the new quote. We moved in August 2019 and everything was delivered. We thought we were done with Palmers, however in July 2020 they charged our Australian account over \$200 for nothing. Only for us having notifications on our Australian bank account we would of never known they debited us, as they never sent an invoice to us and they failed to explain what this charge was for. We followed this up and currently awaiting our refund, in the meantime I've advised our Australian bank to refuse any future payments requested by Palmers. If I was doing the move again, I would not go with Palmers. At the beginning their rate was the cheapest, but as mentioned earlier they produce these extra charges last minute and to top it off they will try debit you again once you are in another country. Go with seven seas or the other companies, they are more competent and trustworthy than this lot.

I don't understand how they've managed to have such great reviews? The sales team are perfect, but once the sale has gone through, it's slack response times and a lack of accountability for internal oversights. They failed to communicate for 5 days leading up to the move, then cancelled with just 24 hours notice!! At the point of seeking to cancel and get a refund, they took \$500 for cancellation and yet I don't get any compensation for their inadequate service?

It is the WORST possible company to ship your stuff. I can document everything I'm saying! I am still waiting for my belongings to arrive, which I send from Spain in June 2022. They do not contact you at all or give you explanations. You have to be way on top of them to get them to help you. you have to make extra payments. They said a delivery time but it is not true. very bad packing service. I want to claim this embarrassing situation and they say they don't have a claim form.

I relocated to the UK on the 20th August 2019 I engaged Palmers to do the relocation. The admin staff were always professional and respectful when I spoke with them on the phone , a special mention to Chis Say , an absolute asset to your company . Also a special mention to the 3 guys that did the removal , absolute STARS , respectful and professional. I would definitely recommend Palmers Removals . Thank you Palmers Rose Blunden

Palmers will make sure your cocktail umbrellas arrive safely, delicately wrapping them in sheets and sheets of paper. However your large items will barely be cared for. Every one of my large items was barely wrapped in protective packing and all arrived broken beyond repair - cracked tables, shattered status, broken mirrors and chipped bed frame components. What a waste! Delivery guys at the other end did a dump and run, leaving me out of pocket to have to have things unpacked and assembled by an alternative service. No apology, no compensation. No empathy from customer service or care for the goods that matter. You've been warned. Good luck! Thanks for nothing Palmers.

Critical: Responsiveness Packed up a bench seat and put it back together with brackets missing which meant the seat was unstable. Tried contacting the company multiple times about fixing it but they ignored us. Had to pay a handy man to fix it. Service: Moving-related packing

Truly awful service and communication when sending our packages overseas. Both arranging sending items and collecting them was a hassle. Watch out for hidden fees in order to collect your items! Make sure to read the fine print as they definitively won't mention them in their quotes. Would strongly recommend going elsewhere. Service: Interstate moving

Gave us high expectations, did not deliver! 2br house from Melbourne to Europe. NOT A PROFESSIONAL

**SERVICE POOR PACKING QUALITY UNRECOVERABLE DAMAGE WOULD NOT RECOMMEND**

Uplift was rushed and poorly coordinated, items incorrectly packed (washing machine, bicycles packed loose without protection together with other loose items) and the crew broke our dining table beyond repairs. Damaged items on delivery due to the above, insurance claim very lengthy and so many loopholes for them to escape liability.

Moving to Australia from Europe, Palmers Relocations are supposed to service the delivery end to our shipping. Our shipping apparently has arrived in Australia about 3 weeks ago, which I was informed about by the European relocation company. Trying to get any kind of information or update from Palmers, since they reached out to get an invoice paid has been impossible. General phone line and direct lines indicated in Emails equally end in Voicemail Nirvana. I am using the term Nirvana, as actual Voicemails remain unanswered to date. Same story for emails, unanswered to date. And not surprisingly the fancy We'll text you function on the webpage does not get me an answer or any closer to having an actual conversation with a human being. I am not sure what else to try except knock on the office doors for some feedback.

First of all, for those who won't be reading the full review, let me make it very clear that I strongly recommend against entrusting Palmer's Relocations with your relocation project. Im not usually much for writing reviews, or complaining, but after giving it some thought I decided that I should write this, as I would have liked to have had this kind of information before deciding to place my trust with Palmer's Relocations. Our family had a big international relocation coming up, and had to find a shipping company to move our select belongings. We put a fair bit of effort into making the decision, since they would be handling our belongings of both monetary and affection value. Unfortunately, Palmer's sales rep was very nice, so combined with their high online rating, we thought we had found just the right company. They advised us that due to the Covid situation, we should expect 2-3 months of shipping time. After 2 months, our things had not even left Australia, and it took 6 months before we saw our belongings again. Communication about these delays was

almost non-existent, unless we reached out for information. Palmer's had advised us that we were to let them pack our things for insurance purposes, and sold us a (rather expensive) replacement cost insurance policy. When we had received our belongings, we would unpack several items with significant damage, including an original aboriginal painting we had bought in Central Australia (we had even told them that this was one of the most important items to us). This and another painting had been packed canvas-against-canvas, with a sharp-edged chess board in between, tightly in a picture carton. The canvas and the paint was badly damaged. Other items, such as an almost-new king size mattress, had not been packed to undergo a 6-month shipping trip in various weather conditions, and the mattress was moldy and not something you'd be happy to sleep on. We also had to throw out a lot of clothing that had been miscoloured. We obviously expected that our items would be covered by our insurance policy. We only made a claim for some of the items, figuring that misc. clothing etc was hard to quantify. Soon after, Palmer's sent us a refusal, stating that all of the items were already damaged when they packed them, and none of the items could form part of an insurance claim. They referenced some code annotations from the packing list, which they had not explicitly informed us about. Apparently, they had marked the mattress as soiled, something you would have to find in the small print, code annotation description (they only verbally asked me to check that all items were on the list). They also pointed out that I had signed, upon receiving the items, that they were in the same condition as when they were sent. I asked whether they expected me to hold up the driver while I unpacked 7.5m<sup>3</sup> worth of packed items. Their reply: well, then you should have added 'subject to checking when unpacking'. How would I know? After months of rather unpleasant conversations, in which I pointed out that they had mistaken about the artwork item number, Palmer's agreed to include our artwork in a claim, but only the cost of purchase although we had paid for the replacement cost policy. After policy excess, we only received roughly what corresponds to the price of the policy itself. There was a distinct change in the tone from when they were selling us the service, to once the items were underway. Palmer's are unwilling to take responsibility for their mistakes, and are more than willing to imply that you're dishonest and fraudulent. Their communication was not very pleasant, and felt deliberately slow and purposefully dragged out. Im sure that if our belongings arrived in good condition, I

would have been happy with Palmer's Relocations, as I would not have learned how they behave when things go wrong. But it is exactly the unfortunate situations, where things go wrong, that one learns whether a company can take responsibility, and provide a professional and fair resolution.

I shipped three suitcases with Palmers relocations at the beginning of July, and am still yet to receive them despite being told it would only take three months maximum to receive my shipment. Whenever I contact them to find out the progress of my items they either ignore my emails or take weeks to reply. At this stage I feel they have lost my items, I would not recommend! My friend used a different provider and shipped later than me and they have their suitcases.

Last Thursday 3rd August, my wife & I moved house. We engaged removalist company Palmers Relocations & it was the worst decision of our lives. They have no communication skills, or organisation skills. Our move was confirmed the morning before we moved including the packing. We paid them to pack for us!! They turned & had no knowledge of the packing!!! I called & called to sort the issue & nothing eventuated!! We are seniors!! I spent all day packing!!! & I shouldn't have. They broke a lamp that we owned for over 20 yrs, took a chunk out of a wall (which has now been fixed) & broke a portable clothes line The company was also supposed to deliver a dining room table & buffet to my nephew (which) he paid for. While unloading - I HAD TO SIT WITH THE TRUCK IN THE FREEZING NIGHT AS A SECURITY GUARD 3-4 HOURS We finished at 10.45pm & had diner at 11pm. Needless to say delivery to my nephew didn't happen!! Thankfully it was delivered next morning. We are all physically & mentally exhausted from this traumatic event. We are seeking compensation & as of this morning have heard nothing.

Do not recommend for International Moving! Words can not describe how completely incompetent they are. We moved from Sydney to New Zealand in February. Palmers have completely messed up our move. We received half of our household effects in May, 13 weeks after they were shipped (Palmers assured us it would

be 6-8 weeks in the first instance) only to find out that half of household effects were still sitting in Palmers storage and hadn't even been sent yet!!! Palmers were very responsive when they realised the mistake and apparently "prioritised" this shipment. They advised us they were shipped one week after realising this mistake early June and sent us tracking details. We have been patiently tracking our goods on the boat and waiting for customs clearance.. Only now to be advised mid July, that half of our possessions are still in Sydney and have not even left Australia yet and they had neglected to tell us. Realistically we are looking at receiving our goods in September 8-9months after they were packed, at this stage I am getting doubtful we will see these items ever again.

We've just moved down south and we had a LOT to move. We used Curly's each time and they were fantastic. Polite, friendly and efficient. Not only the removalists themselves but the people we spoke to in the office as well. Everyone, locally, that has asked us who we used have commented on how good they are so their reputation precedes them. Thanks everyone. Glen & Dave

A move from Perth to Busselton was hassle free with Curlys. Definitely recommend!!

Recently made the move from busselton to esperance, I wasn't able to be home for the move but Jason and Ben were able to pack and shift our entire home with ease, making a usually chaotic experience a breeze. Thanks guys

A big thank you to the lads Jason, Nathan and Harvey for their removalist services. A great job done at a great price.

I've just done my 2nd move (in 5 weeks) with Curly's, and both teams I had were professional, careful and friendly. Nothing was too much trouble. I will recommend them to anyone moving.

The fellas from Curly's are awesome! Fast, professional, friendly and really helpful. Can't fault these guys and their rates are reasonable too. Top notch local business.

Thankyou to Sean and Josh for your fantastic service, and getting furniture inside the house with the help of your trusty drill. What a great job boys. Very proffessional. HIGHLY RECOMMENDED. Thanks again Ingrid ??

Such a great experience with curlys today, our whole house done before lunch time, highly recommend and all the boys are a great chat ??

Such care was taken with my furniture. Great advice to arrange my plants to be removed by friends instead of Curly's as I was running out of their allocated time. They worked so hard!

Thanks 'Team Curly's Jason & Tina for your swift & professional move this week.

Very impressed with the team who moved our furniture this week. They went above and beyond to help us. Friendly, professional and efficient. Highly recommend. Thank you to Tina, Ben and Clayton. Irma and Ken

Thank you very much to Mike for helping us schedule a last-minute removal! Jason & Nathan were very patient, nice & professional and took care of all our super heavy furniture. I'll definitely recommend it.

Tina, Tahne, Denver and Nathan did an outstanding job with our move. Very efficient! We'll be using Curlys again. Thank you.

Quick, flexible and did a great job

We used Curlys removalist to move to a new rental. They were very professional, understanding and a great sense of humour which helped us in a stressful & emotional move. I would highly recommend and would be more than happy to call on their help and expertise again. Pauline Frusher.

The guys came early to do the job. Which was not a problem for us, in fact it suited us well. They were very helpful, polite and friendly. We would recommend them to anyone.

I have used Curlys removals twice before as they make the dreaded job of moving not such a bad thing. Yesterday I made the huge move from Busselton to Perth and once again Curlys made it such an easy transition. Tina and Nathan were absolutely incredible I cannot thank them enough. They uploaded on the day prior to moving which gave me time to clean my home in the afternoon and the following day they met me in Perth at my new apartment and loaded all of my furniture upstairs into my place. So careful with my plants too. Thanks guys you are AMAZING

I rang Curly's on short notice to pick up and deliver a king size ensemble bed. They fitted my job in after a busy and exhausting day. Great service, really appreciated their help.

Great service. Piano carefully delivered.

The team were brilliant. Thanks

Curly's Removals' staff and owners are friendly, helpful, communicative and very professional. They will go to great lengths for customers to help with anything that needs taking from one place to another, make useful suggestions to help make everything run smoothly and are prompt and efficient. Nothing is too big or small for them. My delivery arrived on the day and time agreed with their driver calling ahead as a courtesy to let me know they were on their way. I have no hesitation in recommending them.

We had a large house contents move within the Busselton suburbs 3 wks ago, I was worried but Karri & Mike in admin both reassured us they would provide two trucks with a team of 4 to ensure it was a timely move to keep costs down & we purchased moving boxes & paper beforehand which was most helpful. Tina & her team of 3 guys arrived on time on site, were very professional, efficient & most of all friendly so we felt relaxed. Everything was moved in the 2 trucks incl large potted plants, even a cement mixer ! They worked hard through-out, barely took a break & it was all over in a few hours with ALL our belongings placed into our new abode in very good condition, no damage at all. Cost was great for the amount of stuff we had. Attitude of each team member was brilliant. Would definitely use them again for any type of move and highly recommend for a Stress-free move !!

Curly's did all the removals work from storage into my elderly mother's new house. They are a hard working and good fun crew that made the move as pleasant as could be. Anyone needing removals in the area call Curly's - can't recommend enough. Thanks team!!

Have used Curly's a few times now. These guys always give 5 star service. Punctual, polite, friendly and

always deliver above and beyond, including going out of their way and fitting jobs in. Cannot speak too highly of Curly's.

What a smooth move we had from the first contact with Igor then Karri and then the two men doing the hard work! Shane and Josh were very thorough and fast!! They treated our belongings with respect and nothing was too much trouble. They wouldn't even stop for a cuppa! Shane and Josh are an asset to Curly's. We will be asking for them when we do our next shift in 12 months time.

Awesome service. Reasonable prices. Had 3 guys: Josh, Denver and Tahne. Moved about 40m<sup>3</sup> of household's goods (3 beds house) from storage in Dunsborough to Yalyalup in 2.5h. The blokes were very efficient yet easy going, careful with my goods and the property. Would strongly recommend their services.. Will use them again.

This company are the BEST we have ever used, and we have used at least 30 other removalsits. Igor is the most patient and considerate person. The men, all four of them, worked like trojans and everything we owned was treated like the Crown jewels. Nothing was left behind, or damaged and they even indulged my indecision regarding placement of sofas etc., we cannot recommend them highly enough and to top it off the cost was very fair.

very professional service, the team that came to work was superb, 100% recommended.

Good Reliable Service

Great service, and it was short notice. Curly's came good with the goods.

We have used Curley's a number of times to help us move house and they are always efficient and professional. Jason, Shane, Tina and Tristan did a fantastic job on our recent move. Highly recommend.

The guys at Curly's were great, everything was taken care of and done much quicker than I expected!! Thanks to Sean, Tristan and Josh.

Always great service by the team. ??????

Wonderful experience with prompt, polite and professional young team. Would highly recommend. Thank you

Have used these guys a few times now, they are fast, careful & can fit everything like a jigsaw puzzle. They are very hardworking, friendly & helpful. I would & have recommended them to anyone looking for small or large moves, or one off items.

Curlys Removals were excellent in every way Pre move noting house contents,friendly accommodating team ,efficient truck packing and delivery and cheerful workers.Very happy with overall experience using Curlys

We were moving house rang Curly's spoke to Mike he let me know what the process was and I filled in the on line manifest of what we wanted moved, he promptly returned with a quote and on the day before we were ready to move a time was agreed on . Moving day, three removal people arrived and made short work of the

job, they were excellent.

If you are reading this and looking for removalists there is no need to search any further. These people are outstanding. Nothing is too hard, nothing is too much, they will find a way to do anything that you need with a smile and with great courtesy. Supporting this small business is one of the best things you could possibly do and intern you'll get the best service ever.

Curly's have successfully assisted with several house moves in recent years. Jason and Denver were assigned for our relocation from Busselton to Cowaramup. They arrived in a timely fashion, listened to our requests and delivered a stress free move as budgeted. Thanks to the team.

We used Curly's to move from Perth to Dunsborough and they did a great job. Tina, Ben and Matt worked very well. They were communicative, punctual, calm and hard working. I would highly recommend their services. Thanks for a great job.

Great service from Curly's from the start of the initial enquiry dealing with Mike. For the move Jason & Sean were very polite, hard working and took great care with our belonging on Monday/Tuesday. Took a lot of the stress out of a relocation. Would highly recommend.

Jason, Steve and Ben were fantastic. Very professional and speedy. Highly recommend!

Very very happy, they did what I thought was the imposible. They managed to move all our household goods into a 6x3 storage unit. They were quick, careful, friendly and happy it's the prices. Thanks heaps to Igor and

the crew.

Nothing but a five star review for Sean and Josh ! They took so much care with our large (2.5 m) flower arrangements.They also drove very carefully from Anniebrook to Ramada down Chain Ave ( you were spotted! ) Many thanks both of you and the very efficient booking in staff.Will definitely recommend Curly's Removals.

Thanks so much to Jason and Anthony for a hassle free move from Busselton to Mandurah. I was so grateful for their professionalism and caring service. Thanks again and I would recommend curlys to all who need to transition.

Shane and Jason did an excellent job. On time and very professional. Highly recommend and will definitely be a return customer. Thanks !

We have recently moved into the National Lifestyle Village. The boys Jason and Sean, were fantastic. They were on time, & fast and efficient with the loading. When we arrived at the new house they took both the care and and the time to get the boxes and furniture in. They were very helpful when we changed our minds in the lounge (several times):until we got it right. I would not hesitate to use Curley's again and would be asking for Jason & Sean. Oh thats right Im not moving again!! Just saying if ??

Tina and Clayton did a great job moving our personal possessions and putting them into our rooms in our house. They were efficient, hard working and friendly.

Prompt, courteous and efficient. Highly recommended.

Jason, cheyton and denver moved our house and were so quick and careful. Really great service.

Very professional and so efficient and very friendly from the 1st time I called . Jason, Nathan and Denver just breezed through the whole house and did their jobs with utmost professionalism and care. Made a difficult time for us an easy experience and we appreciated their friendly service. Will definitely recommend Curleys Removals.

What a great experience. Thanks Jo for being super friendly and professional over the phone you made the whole moving thing super easy. A big thanks to Tristan and Shane they where very friendly and extremely professional as well. Could not recommend them enough. What a great crew an absolute asset to the business.

We have used Curly's twice and both times they have provide great service! Tina and Jason have been very professional and they took great care of our house items. We highly recommend this company.

A five star experience. I would have no hesitation in recommending Curly's Removals as a local business with excellent and responsive customer service. We had to move a very heavy Jarrah wood dining table and chairs from Bunbury to Broadwater at very short notice. The service we received from initial contact through to delivery was extremely professional. The Curley's crew were outstanding and delivered on time with the minimum of fuss.. The cost was extremely reasonable.and value for money.

I would like to thank Jason and Denver for an amazing experience moving,these guys where next level helpful and professional and hard working.I highly recommend the whole Curlys team fantastic experience

Professional, on time and very careful with my dads furniture. Would highly recommend.

A great business to deal with and very well priced

These were some heavy cupboards!!....great service & a very reasonable price.

Got back to my inquiry promptly.

Igor and the boys moved our offices and gym from two different locations on the same day. Nothing was too much trouble, the whole team including Karri in the office have been fantastic to do business with. Can't beat their pricing and friendly service. I highly recommend them to anyone and will be using them, I know Ill be personally hiring them for my next move.

Igor and the team have always been great! Very professional business from first phone call until the last item has been put in place. Great service and so well priced!

We had our move yesterday. I had Tahnee, Steve, Tina and Sean moving us out and moving our belongings to two separate locations. The guys were careful, friendly and very professional. We will be using them again soon once our new house is finished. Thanks guys, great job!

Would like to say a big Thankyou to the crew at Curlys. Mike guided me through the process and he was extremely helpful when I was concerned about everything fitting into a storage unit. On the day we had the boss and crew. They were all very respectful and move quickly and efficiently. Had the whole house in the

truck and packed into a storage unit in 5 hours. Definitely recommend and will use again. Also have to add, they all looked like they enjoyed their jobs.

We recently used Carly's Removals to move furniture from the storage into our newly renovated home. We have a very tricky driveway, which they carefully negotiated. Thank you Jason, Shane and Denver. All three of you were very careful of our belongings and new walls and doors. You were very efficient and polite. It was a pleasure having you move our belongings and I would certainly recommend this company.

Igor was very accommodating when arranging delivery. Shane and Brad were outstanding with swapping of fridges upstairs with no drama, no damage, efficient and professional. Well priced. Thank you again Team Curly.

We've done 4 big international moves in 13yrs, the last only 3yrs ago, this move was smaller (Perth to Busselton) but was by far the best, great communication, extremely knowledgeable and professional teams and competitive pricing, we will be using Curly's again and can't rate them highly enough.

We have used Curly's for two big house moves and both times have been sensational service, professional attitude, took great care of our house items and were not rough. Fast, efficient and fabulous service. Big thanks to Shane and David for today's move! Great job guys plus wonderful organisational service from booking to follow call to see how the move went.

I can't praise this company enough. It's traumatic enough packing and moving however Curlys make this experience an easy one. The care they have towards your belongings is exceptional and they also look after you, the client. Thank you and keep up the great work ?? ????

these guys are the BEST.Hard working, polite, nothing too much trouble. really, really good old fashioned customer service, by a terrific team. Thanks and well done

Curleys always great. Not the first time we have used them either. ????

Was quoted \$140 per hour, so when I was charged \$855 for 4.5 hours work, he said he had put on an extra man due to 2 moves from the one house and put price up to \$190 per hour ( without telling me ) said he had told my ex partner ( no he didn't ) so was very upset with being ripped off big time! Wasn't any boxes or bags to move, as I had done all that to make it easier for them, there was just furniture . The guys doing the work were amazing, it was just the company itself that ripped me off! Service: Local moving

go to father and sons. curlys had 3 guys, they took their time with a few heavy items and 700 metres down the road (same street) they charges us \$750 for 2.5 hours. father and sons drove to Capel to Busselton to empty out storage unit with a full truck of furniture, 2.5 hours with only 2 guys and charged us \$440. Curlys is the biggest rip off! Spread the word. ??

Great service! Very professionals!

I have moved with Removal Brothers multiple times now and won't be using anyone else. They make a stressful time so much easier. They are professional, have been on time, they don't mess about to extend the time. Ive seen so many companies quote low hourly rates, just to draw the time out. I highly recommend Removal Brothers. They also take care of our things.

My partner and I both used The Removal Brothers on Saturday to move us from our respective homes to our new one together. Unlike other companies, Jose contacted me once to gather information and provide a quote

then left me to make my decision which played a huge part in my choice to use them. They contacted me on the morning of the move to provide a more accurate arrival time and then got straight into a tricky move which had a ridiculous driveway to walk everything up. A lovely team who even made friends with my large dog. Very professional and quick, but everything was stowed safely in the truck and arrived un-damaged. Would recommend and will use again in the future.

Best Removalist's we've ever had! Friendly, efficient and affordable. These boys don't muck around!

I cannot recommend this company enough! From the start Jose was incredible to deal with. Alejandro and Luca - the two guys who came for the move were really nice guys, super efficient and got the job done. I would happily recommend them again to anyone I know looking to move. Thanks again guys ??

Best removalist experience I had, highly recommend Phillipe and his team. Thanks!

I have moved with Removal Brothers multiple times now, and have had great experiences. They made stressful times so much easier. They are professional, reliable, fast moving, careful with our things and on time. Highly recommend, especially in a sea of unprofessional operators, that quote low and then draw out the time.

Fantastic guys, fantastic removalists, great work, great value. Cannot recommend highly enough.

I highly recommend The Removal Brothers - amazing professional service, efficient, reliable and friendly. We have used the team on two occasions and found them to always be very careful with our items. Esteban in

head office is also very organised and responsive which made our move seamless.

I had an excellent experience with The Removal Brothers, a removal company that I would highly recommend. From start to finish, the team was professional, courteous, and efficient. They arrived on time and quickly got to work, carefully packing and transporting my belongings.

Yes, yes, yes - love these guys! 100% recommend this company!! I have been so stressed with packing & moving into my new place but the guys (Phillipe, Oscar & Daniel) were so good. I was very impressed by how professional they all were & reassured me they would treat everything as if it was their own. Couldn't recommend them more! I will never pack & move house doing it all by myself again.

I've used The Removal Brothers on two occasions now. Each time they've arrived on time, and keen to get the job done. They're efficient, incredibly fast, careful with furniture and fragile items and hard working. Highly recommend these guys for any move, whether it be big or small.

Removal Brothers are the very best- prompt, speedy and well priced. Their experience and customer service attitude is as good as any white glove removalists we have used in the past. Phillipe and his team have been invaluable to us over multiple moves - big and small - for us, family and friends. They go above and beyond. 10 stars.

Bernardo and Jorge were so fantastic moving my whole 2 bedroom house with lots of contents from a second floor walk up! They did it all with a smile on their faces, excellent humour and put everything exactly where I needed it to go. They went out of their way to do extra jobs for me without being asked and I would likely recommend them. Thanks Bernardo and Jorge from the Removal Brothers!

Did a great job, arriving on time and wrapping and taking care with all my belongings. Highly recommended.

Highly, highly recommend!!!! Juan and Josue were absolutely fantastic - arrived on time, took care with our things and were so friendly the whole time. They did an amazing job on a hot day and having to battle lots of stairs. Will definitely be using The Removal Brothers for our next move and can't recommend these guys highly enough ??

Would highly recommend! Sebastian and his colleague Alejandro moved me from my 3 bedroom townhouse to a 2 bedroom apartment. They were quick and efficient and we did not have to think about dismantling anything as they did so for us and put back together on delivery. We were so happy we booked them again the following week to collect and dispose of the furniture and junk we were not taking with us. All in all we were very happy with the services they provided and were quick and easy to book in and very helpful over the phone. Thank you! :)

Amazing. These guys are just fantastic. Efficient, strong, reliable and took great care with all your items. I cannot recommend this company enough. Both Fernando and Edson were so nice to deal with. I will 100% use them again

Absolute legends !! Jose's team has done an amazing job. Thank you guys?????????? Ref: Airtasker

Great service, would definitely use them again!

Last minute these guys helped us out with moving us into our new flat. Really efficient, friendly and a good laugh. Would 100% recommend!

Incredible service from first call to final drop off. The boys are so incredibly lovely and efficient. Will never use another removal company again! Game changer. Thank you so much for making my move so stress free.

Highly recommend! They were communicative and efficient. My fridge had to manually lifted down about 90 tight stairs and it was somehow done with no damage ??

Very quick with the moving. Loading and unloading took no time at all. Very polite and pleasant to deal with. Thanks guys

Juan and Oscar were fantastic. We organised the move at short notice, but had read the great reviews. We had one previous experience with a moving company 6.5 years ago and it was a total disaster. However, we had an amazing moving experience with Juan and Oscar. They were early, easy to work with and chat to, absolute gentlemen, took better care of our stuff than we would, really strong and the whole experience was really great. Nothing was hassle or trouble for them. They even went the extra mile on a few things, installed the washing machine, assembled and disassembled the sofa and generally checked all the way through that things were as we wanted. We thought based on our previous experience we'd be stressed from and after the whole experience, instead we are totally de-stressed. Would absolutely recommend, if we move again, I hope it's Juan and Oscar we get! Hang on to these guys, as they are great.

The best of the best - this is our second time having the guys help us with our move and we wouldn't go with anyone else. They were so patient and made the entire process so seamless, couldn't have done it without them!

Moved my house for me last month. Team were in and out in no time and were super careful with all my furniture. Wrapped everything and made sure it was all protected. Would definitely recommend these guys!

Out of all of the removal companies in Sydney, I chose The Removal Brothers due to their great work with domestic violence survivors and I am so glad that I did. Edson and Joaquin did an amazing job with my move despite the tricky and tight spaces they needed to navigate. They went above and beyond and never complained about the tough job. I would recommend this business to any of my friends and family moving.

Esteban and the team helped me with a seamless move a couple of weeks ago. The boys were friendly, efficient, diligent and very careful. Especially with so many stairs to negotiate! No hesitation in recommending this fantastic crew. Cheers for a job well done! Jo ??

Amazing job. Made my life so easy and the guys were really professional

Very happy with Philippe and the team. Extremely professional, well organised and a pleasure to deal with. Highly recommended!

Excellent! I can't recommend these guys enough. They are the best removalists I've had. Very quick, patient and friendly, and took great care of everything. I was blown away by their efficiency. 10/10. Book them!

Esteban and team were a pleasure to deal with. Very reasonably priced and they went above and beyond to ensure everything arrived safe and secure. Esteban was efficient in resolving one small detail after the job was complete. Would recommend and use again.

Could not recommend these guys enough! They made our move a thousand times easier. They were friendly, fast, and incredibly careful with all our belongings. Everything arrived in perfect condition!

Totally impressive service from Phillipe and team. Arrived on time, worked fast and hard on a 30+ degree Sydney day, everything arrived without a scratch. While we recovered they went off to do it all again for another client. Thanks team!

Great guys, amazing service!

I recently used The Removal Brothers company to transport my furniture from Sydney to Brisbane, and I couldn't be happier with the service. The pricing was very competitive, and the team was incredibly professional throughout the entire process. They handled my belongings with care and ensured everything arrived safely and on time. I highly recommend their services for anyone in need of a reliable and affordable removal company.

These bros turned up on time, took care of my stuff like it was their own and even seemed happy in their work. Everything about them was stress free which made this move one of the easiest.

I used Removal Brothers twice in one week. First time Jose, Lucas and another man (sorry can't remember his name) quickly packed up my place. They were efficient, and friendly. Second time Juan and Lucas were AMAZING. It was a big job and they took care with all our belongings, and made the job fun and efficient. Would highly recommend this company! Thank you Jose and Team ??????????

Amazing service, would definitely recommend to anyone!

I had a wonderful experience with this moving company. Super friendly, very efficient & easy to communicate with. Would highly recommend & will most definitely use again in the future!

Great!

These guys are all absolute legends. They don't mess around, they know what they're doing, they get the job done and have such a positive attitude! It's a hard job but they all love being a part of their company and that speaks volumes. I moved from a 2 bedroom into a studio on my own and Juanchi and Jonny have done a stellar job. Such lovely guys with a warm vibe, we got along great, makes the process so much easier. They took the utmost care with all my expensive gear and many many boxes! I will employ them ANY time I move. I highly recommend Removal Bros!

Amazing guys. Jose and James were fantastic, nothing was too much. Swift move with no hassles. Quick and careful. 2nd time using this firm and will be using again for our next move. Couldn't recommend more. Thank you again guys ??????

The best removal service. Everything was wrapped in blankets and they were so cautious with breakables.

Call these guys, they are reliable movers that give quality service. Very friendly and great customer service!! I  
Excellent

The Removal Brothers were excellent, they were efficient professional and got the job done very quickly. I would highly recommend them to anyone who is moving!

Excellent, highly recommend. Treated everything carefully, went above and beyond expectations. Never complained about anything. Professional and a great team. Will definitely use them again

No wonder these guys have Referrals through the roof. Old school service. Took more care of our furniture

than we do.

Fantastic experience with The Removal Brothers. They made moving so much easier, the guys were very friendly, would definitely use their services again and recommend them!

The removal brothers couldn't be better!! They were so friendly and efficient. They were able to load us out of our old 2 bedroom apartment and into our new place in under 4 hours. Booking and communication were a breeze and they arrived perfectly on time. Thanks again!!

Came on time, did a perfect job and very highly recommend. Thanks for helping us out during a stressful time that is moving.

Oscar and Phillip were very friendly, kind and professional. They even helped us assembling our furniture as we didn't have the right tools to do it ourselves. Would definitely recommend the removalist brothers for anyone who's planning to move soon

The best team, amazing

Very efficient, great friendly service, nothing was a problem for this team, will definitely be using them again

I highly recommend The Removals Brothers, from getting a quote with Esteban to the actual move itself everyone was fantastic. A special thank you to Fernando, Geronimo and Tano who helped me with my move yesterday. They were friendly, professional and efficient. Will definitely use The Removal Brothers for my next move.

The experience with the Removal Brothers company was simply fantastic. From the start, these guys were outstanding. Not only were they excellent at their job, but they also surprised us with their friendly attitude and professionalism. From the moment they arrived, it was clear they knew what they were doing. They were super careful with each of our belongings, packing and transporting them with great attention. Punctuality was impressive; they strictly adhered to the agreed-upon deadlines, making the whole process much less stressful. What really set them apart was the friendly and positive attitude of these guys. Although moving can be stressful, their positive energy made everything easier. They were willing to answer questions and ensure we were satisfied every step of the way. In summary, I would not only recommend this moving company for the efficiency of their work but also for the human quality of their team. They made our move a much more pleasant experience than we could have imagined. Thanks to these guys, they truly are the best in the business!

??

I had the pleasure of working with Jose and his incredible team at Removal Brothers for a complex, two-home move (with a TON of stairs!). From the get-go, their professionalism shone through. They were quick to respond to all our queries and even took the time to inspect our premises before providing a detailed quote. On the day of the move, they not only handled our belongings with care but also went above and beyond by supplying extra boxes when we ran out. And the aftercare has been exceptional as well. Weeks after our main move day, they've continued to offer their time and assistance for any additional needs we've had. A heartfelt thank you to Jose and the entire Removal Brothers team for making our move not just seamless, but genuinely stress-free. Your remarkable service has earned 5-Stars without a doubt!

These guys are amazing. We've booked twice so far and both experiences were great. The team was very quick and professional. Good communication from Jose and great value for money. Would definitely recommend to anyone.

Next level spontaneity with heartfelt gratitude ?? I came across a marketplace listing offering FREE plants to remove asap, and they weren't just small plants, they were very large beautiful plants ?? The challenge was to find several strong men with a truck to help pick up and drop off to my place within a day! Several companies couldn't do the job and quoted exorbitant prices!! Well, to my delight, Manolo from The Removal Brothers came to the rescue offering his service at last minute's notice. Within hours, two lovely men turned up to do the extra heavy job without any complaints. They were super lovely!!! They helped bring them up to my apartment, being super careful around my home, wheeling the plants in and onto my balcony placing them all in the right position for me. They even got to pat King Louie ????, and chatted about Vietnam, my home country, whom one of the men absolutely loved when he last visited Hanoi ????. Such a friendly bunch with a great sense of humour. They aren't your typical removalist men who just do the job and run! So of course, I made them coffee and dark chocolate tarts to enjoy after their hard work ?? Warmest thanks to the team at The Removal Brothers for delivering my very own Frangipani tree, as well as an enormous Jade Plant and Dracaena so effortlessly ?? No job too small or big for these guys! If anyone needs a fast, reliable and efficient removalist team, please support these guys! They went above and beyond for me and was genuinely really helpful all round ????

I used brothers removals for picking up and dropping off lounges and taking my old lounges to the tip for me. I asked for a quote they didn't disappoint. The quote was reasonable and everything explained to me. When they turned up they were professional, friendly and helpful. They explained everything to me I needed to know. They are 100% ??????????

These guys are awesome. Truly!! All that stress melted away. No request too big or too hard. Would definitely use again and highly recommend!!

Great service and competitive pricing compared to other companies on the Gold Coast. Our removalists,

Bernardo and Jorge, were fast and friendly.

Fer and Yi yo did a great job of moving our house. Great communication, punctual and very quick.

These guys were PHENOMENAL! Best movers we have ever used. Would highly recommend!

AMAZING!!!! These guys were great. SUPER efficient. Taking extra care to our valuables and catering to our requests professionally. They really made the whole moving experience so much easier and helped take the stress away. Would use this business again for sure. Thank you guys

The team did an outstanding job helping my Mum move, they were really communicative and very hard workers. My family were really happy with the service and the final price was very fair. I would recommend the Removal Brothers to anyone looking for a stress free move. Thank you guys so much!

Highly recommended!! The most professional and helpful removalist. Fast and friendly. Thank you for everything.

Ive gotten help from the removal brothers three times now and they've kept their quality consistently! Highly recommend

Recently I booked The Removal Brothers based in the gold coast for a second time to move the last of my stuff from Ballina to Brisbane after my house sold. Their pricing is very competitive, but I have never encountered such consistently cheerful, enthusiastic workers! Again, they were friendly, happy, understanding, efficient and capable. I highly recommend the Removal Brothers. Thanks so much for your great attitude to life and to work!!

Such a great experience and so Happy to hire the Removal Brothers , the service was excellent , very good communication with Philipe and his boys for our removal from Bondi to Mosman ! No damage , taking care of all furnitures and boxes and did it in a good timing ! Can't complain at all so I will recommend the services of this company 100%. Thanks ??????

Good Teamwork !!

Esteban and his team at The Removal Brothers were absolutely sensational. Not only did they work like Trojans, despite the pouring rain at times (Fri 5 Feb), super careful with all our fragile items, and incredibly efficient; but they were all just incredibly nice people. We have 3 young kids and we were behind schedule packing prior, so they happily helped do that for us too. Helped with TV and cupboard installation on the other side, and got larger items through gaps we didn't think possible. This is the first time we've done a house move requiring removalists , and I will undoubtedly use them again when our renovation is completed. I couldn't recommend them highly enough.

Great job, on time and efficient. Even wrapped a couple of things and covered the mattress for me. Would recommend.

I can't recommend The Removal Brothers highly enough! Jose and Edson helped me with a really difficult move (out of a top floor apartment with stair access only, during a heatwave,) and were patient, kind and calm throughout. They really took care of all my belongings and took my concerns about carefully moving anything with sentimental value seriously. They were so accommodating and friendly - nothing was too much trouble for them. Im so grateful to have found them for my move. They made what could have been a nightmare move, as stress free as possible.

Well I just want to say that this is the second time I have used the Bros and they are fantastic. They make it seem so easy (I know it isn't) very professional and friendly. I love you guys and will always recommend you. I want to give you another star ?? cheers Ambrose

Have used the boys twice now! Absolute guns at moving! They smash it out so quickly and professionally. No dramas whatsoever. They looked after my items as if they were their own. Did the move on a scorching hot day, up flights of stairs, without missing a beat. They come ready, presentable, and professional. There's a clear difference when using these guys. Highly recommend using them! Legends!

Moved interstate from ACT to NSW. The team was efficient, polite, and upfront with pricing.

Jose and the Removal Brothers are the best Ive ever moved with. I couldn't recommend them highly enough. And next time I move Ill be contacting Jose and his team again!

Johny and Gio were absolute legends moving our whole apartment down 4 flights of stairs. Prompt, professional and super quick. Will be booking them again to bring everything back in after renovating!

These brother knows the drill!!! Super efficient, affordable & professional! 5 stars all around! The help move all my things from the city to central coast in one day! Very impressed.

Bernardo, Edzin (?), and Jorge are brilliant at what they do. These boys moved us out of our 2-bedroom apartment, into a storage facility, into our new apartment (no lifts and lots of small staircases in both places).

When there was an issue (e.g., fridge too big for the doorway) they had a solution (take doors off). They handled our belongings with care and are super friendly. We won't be moving again in the next 5-10 years but if you are, you should definitely employ these troopers!

Awesome blokes, very proactive and caring of our belongings! Thanks again, we'll definitely be using you guys again in the future ????

Very efficient, friendly and reliable team :)

Best removals in the Gold Coast by far! Absolute legends!

Highly recommended. Great guys, go the extra mile, very good service.

I'm thrilled to share my incredible experience with The Removal Brothers Bondi! Their flawless service during our move from Bondi to the Central Coast left me utterly impressed. Not a single item or corner of our house suffered even a scratch, a testament to their remarkable care and expertise. The team, consisting of fantastic individuals, led by the amazing Oscar, exhibited the highest level of professionalism throughout the process. I cannot emphasize enough how much I recommend The Removal Brothers Bondi for any moving endeavor. Their commitment to excellence truly sets them apart!

My partner and I recently enlisted the help of the removal brothers for our move in Sydney. Would 10000% recommend. They're efficient, helpful, friendly and don't charge an arm and a leg for their services. Shoutout to Philippe who helped us get everything done. Will definitely use them again.

I highly recommend those guys, they were really helpful with my last moving to my new apartment. They did

a really good job and took lot of care of my things.

This company is wonderful. My two lovely removal guys were professional, fit, friendly, on time and efficient. Nothing broke or got damaged - they were fast and also very careful (exactly what you want when you are moving). They wrapped a my vintage furniture and art in protective wrap. My numerous plants and pots were still in good shape at the other end. Thank you to all the Removal Brothers for helping me move. I will recommend you to everyone i know!

Had a fantastic experience with Eduardo and Edison from the Removal Brothers. They were on time, quick and took care of my things. Highly recommended!!

Estaban & James were professional, friendly and efficient. Would definitely recommend

Amazing service, punctual, reliable and super careful with all of our stuff! Highly recommend !!

My team and I are thoroughly impressed with the outstanding level of service from The Removal Brothers. Jose and his team were very responsive and efficient with the initial enquiry. My team had explained to Jose that my customer base are people with disability (pwd) and that the work was time sensitive etc. The price which was quoted by The Removal Brothers was very cost effective and reasonable. Feedback from my customers about the professionalism of The Removal Brothers has only cemented everything which had transpired to date. We will definitely be using The Removal Brothers again and they are our preferred

supplier! Well-Done lads.....

Cannot recommend highly enough! Exceeded my expectations in every aspect and made moving a breeze. If you're looking for a stress free and seamless moving experience, these are your guys. Will definitely be using again the future.

The best removalists we've ever had! Arrived on time, absolutely hustled and had the entire two bedroom house move done within four hours. Ive only had bad experiences previously so was dreading the move but will be recommending them to everyone - unreal, thanks again guys!

Thank you Brothers Removal - Fernando and Franco did an excellent job! Careful and hardworking the whole day. Would recommend!

I have done more than a few moves with these big boys and it's a shame that I can't rate them with 10 stars! One or the best local removals you will find. Great communication, years of experience, trucks are clean and neat, staff is friendly and reliable. Would 100% recommend and have recommend to all my friends. Keep on the great job!! 10/10

The best removalists I have ever used - have used them on more than one occasion now and I would not trust anyone else. Professional and proficient at what they do - highly recommended!

We hired the removal brothers to assist us moving offices filled with a lot of large office equipment and furniture and stairs. They were professional and very efficient! I would highly recommend their services and would definitely use again

Really appreciate the great communication from the owners, would be happy to use again

These guys are amazing at what they do. The best removal experience Ive had- these guys have an amazing attitude, are hardworking and take a lot of pride in what they do. I couldn't recommend them enough!!

From the first contact to the last, every single aspect of dealing with The Removal Brothers has been a dream. They made everything so easy under difficult circumstances. They were so joyful, positive and enthusiastic throughout the day that even though moving house is extremely stressful, they kept us smiling. I originally read a review on Bondi Local Loop which is why I contacted them, so very glad I did. Absolutely, the best!

Wonderful service! So helpful throughout the process, the staff were friendly and easygoing and were so careful with everything. Highly recommend.

Had a fantastic experience with The Removal Brothers. Efficient, friendly, restful and hassle free. Would book again and highly recommend.

Sebastian and Jhony were absolutely fantastic. We had so many stairs and they never complained - best experience ever. Worth every cent.

These guys are just AMAZING! After the removalists I had booked and paid a deposit for didn't bother to show up, The Removal Brothers came to my rescue with a moments notice. When they finished a job they were on they came straight to me and worked getting me moved until well after midnight by the time they got back. I can't recommend them highly enough! I also booked them for rubbish removal and even though they had a broken down truck they hired a van and still made sure the job was done. The nicest bunch of guys ever and I'm so grateful! Thanks for saving me and doing an excellent job! ??

The Removal Brothers stepped in last minute and went the extra mile to assist.

The guys were punctual, quick and careful. Good pricing too, can heartily recommend.

Can't rate Vicente and his team highly enough. We've used them for two moves now and both recommend to others and would use again. The level of care, attention to details and responsiveness to communication eliminated the stress from our move. Thank you team

Great operators could not recommend highly enough. Communication from the outset was outstanding and on the day Oscar and Juan were brilliant. Fast, efficient and careful and nothing was too much trouble. 100% would use their services again

Thank you so much for your service. Everything was amazing, on time, carefully, friendly, very professional. Highly recommend!!!!

Damn these guys are so bloody friendly. they do so much charity for the local area. What a bunch of legends. And on top of that they are super nice. Thx for helping me move fellas. Much love Tony xx

Last minute nice and was able to get in done in half a day and one full truck. The boys were professional and quick at their jobs and would use them again!

Epic legends! I highly recommend them because they are reliable, helpful, fast, and very friendly. They cared for all my belongings, and the quoted price was accurate and reasonable. Thank you so much, guys! ??

These gents are reliable and easy to deal with. ??

We did not use these guys for any of their services but we were involved in an accident (no fault of their driver, we were the ones who were in the wrong) with one of their trucks and their driver, Jose. I am leaving a 5 star review because the way the driver and one of the co owners of the company handled the situation was with complete professionalism but also compassion for our well being. I would 100% use their services based on this experience because if they can show this sort of care towards us for a situation which will impact their business, It tells me that they are just genuine caring people.

The Removalist Brothers moved my 2B apartment to and from melb in the stressful conditions of Covid and made the transfer smooth and easy ????

The best in the business! great guys! ??

This was the most efficient, friendly & speedy move we have ever experienced. The communication through the booking process was second to NONE, and the friendliness and customer service leading up to our move (with answering any and all questions) was exceptional. Cannot recommend this team enough to anyone who needs a removalist in the Sydney area. Everything was carefully packed, not a nick scratch or scuff on a single piece of our belongings. Everything placed and tetris'd into the truck with precision! Their friendly attitude and care with our belongings did not go unnoticed, and we were so thankful for making our move as seamless as possible!

On time, excellent service and nothing too much trouble. Highly recommended

Alejo and Diego were absolute stars, moving us on one of the hottest day of summer so far. They packed and

wrapped everything perfectly, with consummate professionalism and efficiency. Worth every cent!

Really a great, professional and precise service. Just call TRB and take it easy!

They were great with communication and open to suggestions and help, always taking great care with furniture and parking truck. Thank you.

## **Page: Six Brothers Removalist - Muval**

Six Brothers Removalist is a Sydney-based company that specializes in home and office removals. We offer a wide range of services to make your move stress-free, including packing, unpacking, and storage. We are a family-owned company that puts your family first, and we're committed to providing the best possible service to our customers. Contact us today to find out how we can help you with your next move.

We believe that moving to a new home should be one of the most exciting and enjoyable experiences anyone can go through. Started by a family of six brothers in 2009, we recognised a flaw in the removalist industry that we became determined to fix. First, moving is commonly thought to be the most stressful life event anyone can go through. We disagree. Moving house is a fresh start in your new home and an exciting time in anyone's life. Our mission is to break the stigma around moving and make it a fun and enjoyable experience. Second, it doesn't need to break the bank. When you trust a team that's organised, has a process, and is always thinking of innovative ways to cut costs for their customers, you should be able to move your furniture into your dream home while sticking to the budget. Since Starting in 2009, We've Grown from Strength to Strength Beginning as a small humble business with Six Brothers, a couple of trucks, and a dream, we have grown into a family run business that puts families first. Today, we currently have over 25 specialist trucks we can offer our customers. Something we figured out was extremely important in ensuring our customers stick to the budget is making sure we have the right sized truck for each job. All of our workers are part of the Six Brothers family and are some of the hardest working and motivated removalists you'll find. We love what we do and even more, we've loved making moving an enjoyable experience for the tens of thousands of customers we've helped so far.

All of Our Team Members Follow the Same Fundamental Principles For Moving

1. Treat our customer's furniture as if it was our own. Furniture can have sentimental value. It could be an heirloom or one of a kind. Assume everything is precious.
2. Transparency and honesty. We're up front with our customers. That means no hidden fees, no empty promises. We give you all the details, to make sure you're completely financially prepared for the big day.

3. Don't cut corners. Although we're one of the most affordable removalists in Sydney, we won't cut corners or take shortcuts. Our priority is to ensure our customers are protected and covered during the move. That's why we include all of the following free with the service:

Free Public Liability Insurance - so our customers can have peace of mind in the rare instance of any damage to their property.

Free Transit Insurance - which protects your precious goods and valuables while in transit.

Free Workers Compensation - this protects our customers in the instance one of our team members is injured during the move.

Fadi and Allan got on this and delivered on time!! Loved their work. Highly recommend them.

Things I loved about the service received from 6 brothers - they were on time - they were fast and more concerned with the time the move took than I was - they were careful with everything including some difficult to move items - they shared knowledge that saved me money like not turning on the fridge too soon. - they could not have been more kind considerate and respectful 100% all round amazing service that exceeded my expectations

I highly recommend Six Brothers Removalist. Fatma and Kara's communication was outstanding, keeping me well-informed about the process and timing. The provided quote was precise. Fadi, Loran, and Rimon were exceptional prompt, professional, and courteous. They made a complex job seem effortless. Grateful for their excellent service.

Fadi and loran were excellent at moving all my stuff into my new place. Very helpful and able to change to my plans very easily

Great service from the team throughout, over the phone and on the day of the move.

I hired sick brothers to move from one house Sarmad and firas were professional and quick.would use again if we ever need to

Sarmad, Firas and Chris worked tirelessly for an epic move, treating all our furniture with care. Despite the sweltering temperatures and a long day they were helpful throughout. We'd be happy to work with Six Brothers again.

Efficient and reliable interstate relocation service, prompt assistance, highly recommend for smooth moving experience. Thanks team!

We used Six Brothers for our move. A gentleman named Rafael turned up on time he was very professional and treated our possessions as if they were his own. I highly recommend Rafael and his offsider we couldn't be more happy with his service.

Used Six Brothers last week and they were amazing!

Sarmad and firas came out and did a great job, quicker than I expected, all went smoothly.

Sarmad and firas, they are great guys made a great work, you should give them a raise.

Amazing job, very helpful very punctual, Highly recommended.

Excellent service, Saad and Danial were very helpful for my first moving! On time, professional and helpful.

Taim and Big Sam were awesome. Highly recommend.

The guys that came out were professional and did a good job at moving between houses with flights of stairs. Minimal scuffs to walls and railings. Only thing that is stopping from rating higher is that they should have taken more care with the memory foam mattress when folding and ratcheting as the metal buckle tore a hole in the underside of the mattress fabric.

Taine & Sam very nice good at there job 100 recommend

BART WAS THE BEST FOR PRICE. POLITENESS, ON TIME,

We are very grateful to Bart and his team for being there. Really appreciate the effort they made at short notice. Highly recommend to anyone who is moving to call them. Wouldn't use anyone else.

Best moving experience, Bart was very reasonably priced, great communication, time efficient and overall just fantastic. Moved our furniture from Brisbane to Victoria. During a quite intense time during lockdown of Victoria. So grateful for the service and in future if we were ever to relocate again Eastern state removals would be our first choice.

Positive: Professionalism , Punctuality , Quality , Responsiveness , Value Couldn't be happier with Bart. Had a last minute job and he was very flexible and efficient with our needs:)) Services: Moving-related packing , In-state moving

I recently used eastern state removals for my very stressful move and I can not recommend these guys highly enough.. they were absolutely great. Very professional and very friendly.. arrived on time and took all the stress off my shoulders.. if I was to ever move again(haha which will never happen) I would definitely go straight to Bart and his team.. so guys if you are looking for a removalist who is priced great and very trusting you can't get any better than them. VERY HIGHLY RECOMMENDED.

I highly recommend Eastern State Removals for any of your moves. With hard excess to the house Bart went up and beyond with his service and driving expertise to get my belongings interstate down to Melbourne. Especially during these times nothing was too hard for Eastern State Removals....with the best customer service, attention to detail, care and respect for your belongings and the best prices too. Love your work Bart and once again a huge thanks to you and the your crew.

We hired eastern state removals to help us move our 2 bed room house from newcastle to sydney and couldnt have been happier with the experience. The boys where so helpfull and friendly i was very impressed with how meticulous they where when it came to wrapping and pack our furniture into the truck. We had so much more then i thought we did but they managed to squeeze it all in for 1 load. Definitely would use them again but hopefully we're not moving again any time soon, too stressful. Thanks boys you def made it easier!

Having moved 9 times, we are dab hands at moving. However, Bart and his team took it to a next level. The communication was excellent, the move itself was simple, quick and efficient and the delivery of our stuff was over before we knew it. If I had to say one word to describe this service, it would be Flawless Thankyou so much :)

Bart makes my relocation from BNE to Geelong a flick. He updates every moving process with me. My partner and I appreciate so much for his help. He and Pete also take serious consideration of my rental property and was super careful moving and getting in and out of the lift. Everything went smoothly and I even feel the relocation experience is fun. Incredible service and team. Would love to move again! Many thanks, Sifan & Yang

Extremely professional, courteous and willing to help.

I have to say these guys were incredible! They worked solidly for 5 hours straight. Even when we offered them drinks or lunch they worked through. They were fast, efficient, very respectful of our belongings, professional & punctual. We highly recommend!!

I can not express how highly I recommend Eastern State removals!! Bart has been absolutely so understanding, kind, professional and responsive, with boarder closures/covid/ and decisions changing constantly within my personal life, my interstate moving booking has been a challenge let along Bart has been so understanding and supportive towards accommodating for my needs. not only were they the lowest price but the communication and professionalism is outstanding. DEFINITELY RECOMMEND!!

Positive: Professionalism , Punctuality , Quality , Value The move was easy, fast and super professional. The guys are easy to talk with and Bart was so friendly. I recommend purchasing boxes through them also as they are such good quality for the best price around. Service: Local moving

Exceptional service, from an exceptional team (Bart and Liam) were polite, patient, considerate and respectful. Bart arrived at our home in Rothwell at 8.30, loaded in intermittent rain, drove to our new home in Mango Hill and unloaded in the rain and finally left at 6.30 ! He and Liam worked so hard all day. In the words of the great Tina Turner, "You're simply the best, better than all the rest". A huge thank you from Paul and Wilma.

We needed a single item moved from Newcastle to the Gold Coast. Most online enquires we submitted either didn't reply or had huge minimum charges (double Barts price). Bart called up straight away, was leaving Sydney and could drop into Newcastle within an hour or two. Collected the mattress, covered and secured it

and it arrived clean and on time to the Gold Coast. Bart called after pick up, again with an update on time during the trip and finally 30 minutes before arrival. 5 stars all the way and a great guy to boot. Highly recommended. Thanks again Bart.

We used Eastern State Removals for our move from Newcastle to Laurieton. They packed our entire house so easily into their truck even though I completely underestimated the amount of furniture we had, and they were so polite and helpful in every way! Highly recommend!

I can't recommend Bart and his team highly enough. Communication from the beginning was terrific, they turned up on time, discussed the job at hand and started immediately. They were very aware we were paying by the hour and they didn't waste a second the entire day. We moved large furniture from two houses in one day without any breakages, scratches or dints to either the furniture or the homes. Bart's team and truck are presented professionally. If you want to support family men doing a wonderful job, then I wouldn't go past Bart and his team.

Bart did a great job moving all our stuff from our 4 bedroom house. Was very careful, considerate and polite. Will definitely use again.

So happy with Eastern state removals!! Bart and John did a great job. I would highly recommend and will definitely be calling Bart for our next move. We have moved a few times for my husbands work and appreciate a good removalist. Bart was very professional, on time and overall a lovely person to deal with. Do yourself a favour and call Bart if you need to move. I will be recommending to anyone needing a move in the future. Thanks again guys!

Can't express enough on how helpful their service was! Bart was extremely friendly, responsive and

professional with our company's delivery. I have dealt with many freight/removal companies before and I can safely say Eastern State Removals is 10/10! Would highly recommend to anyone who's looking for a removalist that actually care about your goods.

Amazing service, super friendly and great pricing Really took the stress out of our move, Thank you so much!

Cancelled 11 hours before the move with a text at almost 10pm. Luckily I heard my phone vibrate as I was drifting off to sleep or I would have woken up to no moving truck. Apparently they wont move you if it is raining ?? I had to scramble to find a rental truck online in the middle of the night, as I know for a fact I would not have been able to find and hire removalists the day of the move! So my almost 70 year old mother with a bad back and knee, my 5ft 45kg 17 year old daughter, my 10 year old son, and myself had to move ourselves, not to mention my mum and daughter having to take the day off their jobs to help me, as bond and carpet cleaners had been booked months in advance for the next day! I have never been so angry or disappointed in a 'service' in my entire life! One of the most stressful times in ones life is moving, and this made the whole experience 100x worse! **WOULD NOT RECOMMEND!!!!**

Great young guys. Henry and Thiago, moved as quick as they could. Respectful and careful. Made moving easy.

The quality of service was excellent. The efficiency and care was outstanding but the overall experience was soured through my poor estimation of how many boxes we would have. I did not realise it would be so significant having more boxes than advised and this caused angst between myself and the team. Bottom line is, you need to be very accurate in the information provided before the move and everything will be sweet.

Yes, absolutely. Please mention this at the time of booking, as it may make a difference to the provider we match you with.

Some companies will have storage at the destination and some at the pickup. Some even include complimentary storage!

If you change your list of items or space required a week before your move, we can usually adjust the price accordingly. In some circumstances this won't be possible depending on the booking volume and amount of change and notice provided.

It is preferable to consider taking out an all-risk policy for your move. We offer two different options of coverage for your move, which include lowering the excess to obtain a lower premium or the ability to cover specific items of your move: <https://www.muval.com.au/cover>

If you have the original TV box, please use it. You can also purchase TV storage/removal boxes from storage centres. If you don't have a box and can't source one, the removalist will use heavy-duty blankets to protect the TV.

If your booking is a premium service, the company will be able to provide exact timing. If your booking is a shared option, then your schedule will be a window between two to seven hours on the move day.

A cubic metre is 1m x 1m x 1m. A full-sized container size is 38m<sup>3</sup>.

Truck sizes vary from 20m<sup>3</sup> to 70m<sup>3</sup> and sometimes 100m<sup>3</sup>.

Muval is a booking platform. We find reliable moving companies at a competitive rate. We help companies fill their space with customers that are happy to fit in with the truck schedule. It is called a shared load option.

The best way to ensure a successful move day is to be prepared. One way to do this is to notify your removalist about any very heavy or awkward-to-move items before move day. It can never hurt to double-check with them that they understand that you have these items, even if you have also submitted an inventory list. These sorts of items include:

No one expects that you keep the original box that your TV came in when you bought it. Most removalists can provide special TV moving cardboard boxes that can help to keep your TV safe and secure while being

transported (make sure you enquire about this before your move day. Otherwise, you can protect your television by wrapping it in blankets and then wrapping that tightly in cling film. Finally, as a peace of mind measure, we recommend purchasing one of our affordable moving insurance policies to protect your most valuable possessions like your TV in case of an accident.

The final payment must be paid five days before the nominated pickup date.

If you cancel within 48 hours of your booking (if your move is more than 5 days away) or give three weeks' notice before your pick up date, you will get a full refund of your deposit.

When looking at your kitchen, the industry standard is one book carton to each cupboard door.
