There new update of gumtree is not so nice like there old version I like the older version much more better the new version of update is just all the adds are mixed together now where if you lo for a car it is just cars and vans now it is motorcycles and cars and vans mixed and it is just on all the platforms like that I wish they will bring the old version back so much better and hardly any problems to post something it keeps on telling you

that there is a network error and then you have to remove the app and reinstall it again then it works for a few minutes then the same problem again please gumtree I like your app but please just check to make it much more better than the older version thank you

Hi, we are sorry that you're having issues with the app. Can you write to us at <https://help.gumtree.co.za/>. Kindly include a description of the issue you are facing, your Android version, and your app version. We will investigate immediately & solve the issue.

Iâm business minded but havenât started yet, gumtree is definitely going to make it easier for me because Iâve been browsing through the app, looking for more information and I realised that I will be able to buy and sell products or any other items at my convenience. Also, I can post on social media to advertise my business with no charges and Iâm allowed to determine the price range of my products. Iâm ready to start enjoying benefits of gumtree immediately when Iâm done creating an account. For now I only got an app

Hi there, please uninstall and update to the latest version of 14.2.1 and please let us know if you experience further difficulty via [help.gumtree.co.za](http://help.gumtree.co.za)

I love gumtree, I have bought and sold on gumtree and will continue to do how. With that said work on the glitches, when upload details for a sale there are so glitches when inputting the price, takes too long, same thing happens with contact details. Please work on that. Also please make certain details compulsory like contact and price. Also please offer categories for items sold, such as year or model, it makes it easier as a buyer to know if the product is firsts generation or third or whatever the case maybe.

Since becoming wholly SA-owned, Gumtree South Africa has experienced significant advantages that benefit both its present and its future.

The Ford Puma comes at a time when the market is eager for a Ford other than an Everest or Ranger.

Does it fill the gap left by the Fiesta, Figo, and EcoSport?

We look at buyer and seller scams and discuss phishing scams that users could encounter on Gumtree or other places on the internet.

With Pay & Ship, Gumtree has introduced a secure online payment and delivery system, for safer and more secure buying and selling.

Pay & Ship protects both buyers and sellers, as Gumtree receives the buyer payment and holds it until the transaction is completed.

Gumtree can assist you if:

Once the buyer has collected their package from their chosen Pargo pick-up point, the buyer needs to check the item. If it is not as listed or is damaged, they can need to log a dispute against that purchase in the Gumtree App within 24 hours.

We recommend that the buyer and seller communicate through the chat feature on the Gumtree platform to amicably resolve the issue. If not, our customer support team can assist the parties within the rules and guidelines of Gumtree's Dispute Resolution Policy.

TradeSafe is Gumtree's payment partner that makes sure you are safe when buying or selling online. It's a secure way to handle money and is supported by banks when you buy or sell something.

TradeSafe holds the buyer's payment until the seller has delivered the goods as promised. This way, buyers receive exactly what they paid for, and sellers get their money.

Here's how it works:

If you're buying something you can choose how you want it delivered and pay for it securely. This payment goes to Gumtree's account, where it's kept safe until you get your item.

After you receive your package, you have 24 hours to say if there's a problem.

If everything's okay or you don't report a problem within 24 hours, the money is moved to the seller's Gumtree

Wallet.

The seller can then use this money on Gumtree or transfer it to their bank account.

Pargo is Gumtree's delivery partner ensuring you can shop online and collect from anywhere. They are South Africa's leading click-and-collect solution with 4000+ Pargo Points nationwide and are the highest rated delivery service in Africa.

When checking out, the buyer selects a Pargo point where they would like their package to be delivered to. When the seller confirms that they can fulfil the order, they select a Pargo point where they can drop off the package.

Pargo collects the package from the seller's drop-off point and delivers it to the buyer's pick-up point.

Both the buyer and seller receive communication from Pargo and Gumtree as the package progresses. Once the package is delivered to the buyer's pick-up point, the buyer picks up the package, and confirmation of package pick-up is sent to both the buyer and seller.

[Learn more about how to package your item](#)

You can raise a dispute within 24 hours after you have picked up your item from the Pargo Point. Navigate to your Gumtree app and select You -> Purchases -> The purchase you would like to raise a dispute on. Once you have submitted your dispute, our customer support team will review and work on assisting you to resolve the dispute in terms of Gumtree's Dispute Resolution Policy.

Pay & Ship is a newly introduced secure online payment and delivery feature by Gumtree aimed at providing you with a safe buying and selling experience. (Powered by TradeSafe & Pargo) SafeDeal protects both buyers and sellers, as Gumtree receives the buyer payment and holds it until the transaction is completed safely.

The Ford Puma comes at a time when the market is eager for a Ford other than an Everest or Ranger.

Does it fill the gap left by the Fiesta, Figo, and EcoSport?

We look at buyer and seller scams and discuss phishing scams that users could encounter on Gumtree or other places on the internet.

Since becoming wholly SA-owned, Gumtree South Africa has experienced significant advantages that benefit both its present and its future.
